Re: Legislative Oversight Committee Hearing
New Jersey Statewide Water Supply Plan

Dear Senator Gordon:

We are very pleased that you and the Senate Legislative Oversight Committee are seeking testimony concerning New Jersey's Water Supply Plan. As the most densely populated state in the nation we are very dependent on a clean and available supply of drinking water. Our agriculture, manufacturing and recreation industries are key to our economic well-being and are also dependent on a reliable source of clean water. As we look at our fellow citizens in California struggling to conserve water during a terrible drought we need to ask ourselves what has New Jersey done to address our supply and quality problems since our last drought which occurred in 2002. After a terrible winter which saw record water line breaks it is imperative that we evaluate our supply and delivery systems and plan for the future.

The adoption of an updated Statewide Water Supply Plan is key to the economic growth of our state, the protection of our natural resources and the health of our citizens. With this in mind we are thankful to the Committee and look forward to the completion of this very important effort.

Sincerely,

Dennis Hart
Director of Utilities

The Honorable John J. Burzichelli, Chairman
Appropriations Committee
New Jersey General Assembly
935 Kings Highway, Suite 400
West Deptford, NJ 08086

Testimony in Opposition to A3227

"Clarifies that definition of mental illness in law governing involuntary commitment to treatment includes substance use disorder if dangerous standard met."

Dear Chairman Burzichelli and Members of the Committee:

On behalf of the New Jersey Association of Mental Health and Addiction Agencies, Inc., I would like to thank Chairman Burzichelli, Vice-Chairwoman Spencer and the members of the Committee for the opportunity to testify in opposition to Assembly Bill 3227 which would include substance use disorder in the definition of mental illness in law governing involuntary commitment to treatment if a dangerous standard is met.

NJAMHAA represents 180 hospital-based and freestanding non-profit mental healthcare and substance abuse treatment providers who treat New Jersey residents with mental illness, addictions or co-occurring disorders, as well as the families of these individuals. Our membership represents organizations in every county and almost every community statewide – nearly 98 percent of the behavioral healthcare market in New Jersey. Collectively, our member organizations help 500,000 children and adults with mental health and addiction issues annually and employ 98,000 members of the state's workforce.

NJAMHAA's concerns with adding substance use disorders to the definition of mental illness under New Jersey's Involuntary Commitment Law are rooted in the medically proven differences in treating mental illnesses versus treating substance use disorders (SUD), as well as in the differences between a person with a mental illness and a person suffering from the effects of substance use who has temporarily become dangerous to themselves or others. These differences are seen in the existing infrastructure which is inappropriate for involuntary commitment for substance use.

While involuntary commitment for people with mental illness has been shown to stabilize individuals, for those with SUD, recovery is very difficult

to achieve in involuntary settings. Additionally, according to the Division of Mental Health and Addiction Services, in 2012, a total of 31,145 adults who sought treatment did not receive it due to a lack of capacity. If the state were to proceed to invest in building capacity to involuntarily commit individuals with SUD, it would be at the cost of denying treatment to those who are willingly seeking it.

Finally, an involuntary commitment of someone with SUD would be very short-lived, since the criteria of "dangerous to self or dangerous to others or property" will generally cease to be met within 24 hours. NJAMHAA does not believe investing scarce state resources in such a process would best serve the residents of New Jersey. Alternatively, NJAMHAA would recommend adding a full time substance abuse specialist at each Screening service who is also a specialist in co-occurring disorders. This staff would make every effort to engage the primary consumer in treatment. In the event the consumer refuses treatment, outreach to the consumer's family members would occur, with the purpose of educating the family regarding the illness of addiction, treatment options and other resources. There could also be an effort to set up an individualized crisis plan that would give family members some concrete strategies to put in place when their loved one is in crisis.

NJAMHAA appreciates the good intentions of Assemblyman Raj Mukherji, Assemblywoman Vainieri Huttle, Assemblywoman Mosquera and Assemblyman Garcia for their sponsorship of this bill and their support of substance abuse treatment, however, NJAMHAA would urge them and the members of this Committee to utilize available fiscal resources to add specialists to Screening services, as noted above, or to otherwise improve capacity along the continuum of care, from prevention to inpatient treatment.

Thank you for the opportunity to be heard. I would be happy to answer any questions from the Committee. Please feel free to contact me at 609-838-5488 extension 292 or at dwentz@njamhaa.org.

Sincerely,

The Honorable John J. Burzichelli, Chairman
Appropriations Committee
New Jersey General Assembly
935 Kings Highway, Suite 400
West Deptford, NJ 08086

Testimony in Support of A3721

"Requires establishment of processes to identify Medicaid eligible incarcerated individuals who are awaiting pre-trial release determinations, are being released following period of incarceration, or are undergoing inpatient hospital treatment. "

Dear Chairman Burzichelli and Members of the Committee:

On behalf of the New Jersey Association of Mental Health and Addiction Agencies, Inc., I would like to thank Chairman Burzichelli, Vice-Chairwoman Spencer and the members of the Committee for the opportunity to testify in support of Assembly Bill 3721 which would broaden Medicaid coverage in New Jersey to qualified individuals by reaching out to such individuals through various stages of their association with the State's criminal justice system.

NJAMHAA represents 180 hospital-based and freestanding non-profit mental healthcare and substance abuse treatment providers who treat New Jersey residents with mental illness, addictions or co-occurring disorders, as well as the families of these individuals. Our membership represents organizations in every county and almost every community statewide – nearly 98 percent of the behavioral healthcare market in New Jersey. Collectively, our member organizations help 500,000 children and adults with mental health and addiction issues annually and employ 98,000 members of the state's workforce.

Assembly Bill 3721 establishes a three-year pilot program administered by the Commissioner of Human Services in consultation with the Commissioner of Corrections to implement a screening and enrollment process utilizing the single, streamlined application form for enrolling applicants in Medicaid/NJ FamilyCare, or other qualifying health care coverage. Screening would take place at the time the individual becomes incarcerated in a county correctional facility while they await a court

NJAMHAA

hearing on bail. Additionally, if there is a reasonable basis to suspect the individual may be drug or alcohol dependent, the individual would undergo an initial diagnostic assessment to determine the extent of any dependency. This initial assessment would be provided to the court before the individual's court hearing on bail, and would indicate whether the person may benefit from a court supervised rehabilitative program.

The members of NJAMHAA support treatment for addictions over incarceration whenever appropriate. This pilot would not only ease access to health coverage for individuals who are involved in the criminal justice system, but would serve to identify those who might benefit from substance use treatment. We support A3721, though we do recommend that appropriate funding be provided to support enrollment and screening activities.

NJAMHAA appreciates the efforts of Assemblywoman Vainieri Huttle and Assemblyman Raj Mukherji for their sponsorship of this bill and their support of substance abuse treatment. NJAMHAA is pleased to support A3721 and encourages the other members of this Committee to support it as well, provided an adequate appropriation is made available to implement and maintain the provisions of the bill.

Thank you for the opportunity to be heard. I would be happy to answer any questions from the Committee. Please feel free to contact me at 609-838-5488 extension 292 or at dwentz@njamhaa.org.

Sincerely,

Debra L. Wentz
