Department of Factory and Workshop Inspection of the State of New Jersey.

REPORT.

STATE OF NEW JERSEY,
OFFICE OF
INSPECTOR OF FACTORIES AND WORKSHOPS,
TRENTON, N. J., October 31, 1900.

Hon. Foster M. Voorhees, Governor of the State of New Jersey:

SIR: I beg leave to submit herewith the Eighteenth Annual Report of the Inspector of Factories and Workshops for the year ending October 31st, 1900.

The duties of this department are numerous and far reaching, and their importance to the public welfare can scarcely be overestimated. The most important are:

Inspection and oversight of child labor.

The enforcement of the compulsory school law in connection therewith.

The reporting of all accidents in workshops, factories or mines.

The oversight and control, as far as possible, of all factory machinery likely to endanger the lives of employes.

The examination of all hatchways and elevators in factories and public buildings, and the enforcement of the law that these should be provided with such safe-guards as will insure the safety and protection of human life.

The supervision of the sanitary condition of factories, including light and ventilation; the avoidance of dust and dirt where operatives are employed and guard against overcrowding workmen in small departments.

The regulation of hours of labor of minors under the age of eighteen years, and of women in accordance with the law.

The supervision of bake-houses and the enforcement of cleanliness where food products are manufactured.

This report is intended to show what has been accomplished by this department along the lines above indicated.

Generally speaking, the department has received the co-operation of owners and managers of factories. The department work has long since ceased to be an experiment. Employers and employes have learned to look to the Factory Inspectors for information on many matters affecting the welfare of both, matters which were heretofore, in a measure, regarded with indifference. Manufacturers now consult the department when making improvements, with a view of not only complying strictly with the law, but also for the purpose of providing the latest and best devices for avoiding accidents, rendering work-rooms more healthy and convenient, and for providing the best means of exit from buildings in case of emergency. Such suggestions as the department has made from time to time have generally been followed with results extremely beneficial to manufacturers who previously were unaware of conditions prevailing superior to those in their own factories. Such results benefit both manufacturers and workmen. Manufacturers realize and workmen appreciate the importance of healthy and safe conditions in factories. Discontented workmen will seek other and better surroundings in which to labor; when contented they take a personal interest in the success and development of the business of their employer.

It may be appropriate to call attention to the great increase of manufacturing industries within the State during the course of the last five years.

In the year 1896 our reports show there were in operation 1,896 factories; our reports of 1900 record 3,729, an increase of 1,833 factories inspected and operated.

In 1896 our reports show there were in our State 461 bakeries in operation, while our last year's reports show 827, an increase of 366 bake-shops.

The above figures are a sure indication of the industrial growth and prosperity of the State and of the care with which the Deputies of this department have performed their duties.

When there is a demand for labor and it is fully employed, the strict enforcement of the laws relating to the employment of labor is rendered more difficult. Especially is this true of those laws which regulate the hours of work and the employment of child labor.

In this situation it may not be amiss to renew recommendations heretofore made, particularly with relation to child labor.

Where evening schools are established, care should be taken that the attendance and instruction given should not be perfunctory only. Something more should be aimed at than mere effort to comply with the letter of the child labor law. The purpose is and should be kept in mind, to make up for the loss of other school privileges.

In communities where workshops are closed during the summer months, as in the glass industry, much good may be accomplished by the establishment of summer day schools.

The stringent laws of our State relating to the sanitary conditions of bake-shops have necessitated the closing of some bakeries for a short period, and a few permanently.

Generally, however, we have been enabled to remedy such troubles without resorting to harsh measures. It is gratifying to this department to be able to state that most proprietors of bake-shops cheerfully adopt sanitary measures upon their mere suggestion by this department.

In reference to accidents in factories I am able to report, that notwithstanding the considerable increase of manufacturing business in this State, accidents have been less frequent than ever before. The Deputies have been especially active in requiring that machinery shall in all cases be properly safe-guarded, and in these efforts they have had the co-operation of the manufacturers of the State.

It is likewise gratifying to report that most of the factories of the State are making rapid strides in the way of lighting, ventilation and appliances for means of egress in cases of emergency, thus preserving the health and safety of the operatives.

Whatever success has been attained by this department during the year last past has been in a great measure due to the faithful work of the Deputy Inspectors—Mr. Lewis H. Barrett, of the First District; Mr. Joseph Milburn, of the Second District; Mr. William B. Tucker, of the Third District; Mr. William H. Dod, of the Fourth District; Mr. John Hunter, of the Fifth District; Mr. George W. Taylor, of the Sixth District—and to my Clerk, Mr. Elliott G. Moody, and I desire in this way to acknowledge their very effective service.

Very respectfully submitted,

JOHN C. WARD,

Inspector.

Department of Factory and Workshop Inspection of the State of New Jersey.

APPENDIX.

See Deputy Inspectors' Reports, by Districts.

FIRST DISTRICT.

Department of Factory and Workshop Inspection of the State of New Jersey.

NOVEMBER 4th, 1899, to OCTOBER 27th, 1900.

DEPARTMENT OF
FACTORY AND WORKSHOP INSPECTION,
STATE OF NEW JERSEY.
PLEASANTVILLE, N. J., October 31st, 1900.

To Hon. John C. Ward, Chief Inspector of Factories and Workshops:

SIR: I herewith submit my report of inspections made in the First District during year ending October 31st, 1900.

LEWIS H. BARRETT,
Deputy Inspector First District.

Factory and Workshop Inspection—First District Summary, November 4th, 1899, to October 27th, 1900

SECOND DISTRICT.

Department of Factory and Workshop Inspection of the State of New Jersey.

NOVEMBER 4th, 1899, to OCTOBER 27th, 1900.

DEPARTMENT OF
FACTORY AND WORKSHOP INSPECTION,
STATE OF NEW JERSEY.

TRENTON, N. J., October 31, 1900.

Hon. John C. Ward, Chief Inspector of Factories and Workshops:

SIR: I respectfully submit my annual report for the year closing October 31st, 1900. I am gratified to be able to state that a truer appreciation of the character and noble purpose of the factory laws is generally manifested by the employers of labor. In portions of my territory where night schools have not been provided, while numerous children are employed in the mills and factories, I have had conferences with the employers and the local Board of Education and have thus secured the school accommodations required for the children at work in the day time. There is a growing tendency on the part of parents, employers and children to estimate at its true value the importance of education in the proper preparation of childhood for the serious responsibilities of adult age.

I note with pleasure a readiness on the part of employers to guard the life and limbs of their employes when their attention is drawn to necessary safe-guards, and many of the accidents are due to recklessness and serious carelessness on the part of the employes, rather than to lack of protection. In conclusion I am pleased to report a spirit of harmony growing between bakers and mill owners and the good purposes of the factory laws.

Yours respectfully,

JOSEPH MILBURN,
Deputy Inspector Second District.

THIRD DISTRICT.

Department of Factory and Workshop Inspection of the State of New Jersey.

NOVEMBER 4th, 1899, to OCTOBER 27th, 1900.

DEPARTMENT OF
FACTORY AND WORKSHOP INSPECTION,
STATE OF NEW JERSEY.
ELIZABETH, N. J., December 20th, 1900.

Hon. John C. Ward, Chief of the Department of Inspection of Factories and Workshops:

MY DEAR SIR: I herewith respectfully submit my annual report of inspections for the Third District. Whatever increase may be found in the report over previous exhibits is due to the advantage accruing from a better knowledge of the requirements of the work and a larger familiarity with locations and acquaintance with employers and employes. The steady increase in activity in industries and the many new plants found have required a greater vigilance on the part of the Inspector. Although in some cases there has been a lax observance of the law relating to the employment of minors, principally with strangers unfamiliar with the law. I am able to state that conditions in this respect are greatly improved. A compliance with the law has invariably followed a notice of its violation. Every complaint coming to my notice, from whatever source, has been promptly attended to and given full investigation. In every instance, where justified, redress and compliance therewith have been secured.

Many of the iron mines in Morris county which have been idle for several years are being re-opened, giving employment to a large number of men. These have required inspections, which have been made and regularly reported. The condition as to access, timbering and ventiliation in all mines in this district is generally good, but the work is necessarily hazardous.

Several calls have been made on me by employes seeking aid to recover money due for wages, under the impression that the bi-weekly payment law empowered the Factory Inspector to make such collections. I have been obliged to correct that impression, although I have been able to be of service by extending friendly offices, and obtained in several instances adjustments without fric-

tion or resentment. I find the above law is generally observed, either in the letter or in a manner that is accepted as a virtual compliance with its provisions.

I am indebted to many gentlemen of the labor organizations, and also others, for information and advice in the many instances in which they have shown their interest in the work of the department.

Very respectfully yours,

WM. B. TUCKER,

Inspector Third District.

Factory and Workshop Inspection—Third District Summary, November 4th, 1899, to October 27th, 1900.

PLACES INSPECTED.	Number inspected.	Orders given.	Orders not complied with.	Number inspected in 1900.	Old places not previously inspected.	New places.	Old places closed.	Accidents.		Children discharged.	Certificates ordered.	Permits to orphans.	Total number of inspections, 1900.

FOURTH DISTRICT.

Department of Factory and Workshop Inspection of the State of New Jersey.

NOVEMBER 4th, 1899, to OCTOBER 27th, 1900.

DEPARTMENT OF
FACTORY AND WORKSHOP INSPECTION,
HOBOKEN, October 31st, 1900.
STATE OF NEW JERSEY.

Hon. John C. Ward, Chief Inspector:

SIR: I respectfully submit my annual report ending October 31st, 1900.

During the past year I have had very little difficulty with my inspections. I have found factories and workshops in splendid condition and have had no occasion to issue orders for the betterment thereof. It appears to me that every employer has had one object in view, namely, to guard against all accidents by having everything modern that will protect their employes. I have also observed that a large number of employers have had their employes insured in an accident and casualty company, and by so doing the machinery, elevators, etc., are guarded so well that accidents are very scarce. I have had occasion to issue a few orders for the bake-shops. They, however, apply to the ones which are located in dark, damp and gloomy cellars. Thanking you for advice given me whenever I have had occasion to write you.

Yours respectfully,

WM. H. DOD,
Deputy Inspector Fourth District.

Factory and Workshop Inspection—Fourth District Summary, November 4, 1899, to October 27, 1900.

PLACES INSPECTED.	Number inspected.	Orders given.	Orders not complied with.	Not inspected in 1900.	Old places not previously inspected.	New places.	Old places closed.	Accidents		Children discharged.	Certificates ordered.	Permits to orphans.	Total number of inspections, 1900.
								Injured.	Killed.

FIFTH DISTRICT.

Department of Factory and Workshop Inspection of the State of New Jersey.

NOVEMBER 4th, 1899, to OCTOBER 27th, 1900.

DEPARTMENT OF
FACTORY AND WORKSHOP INSPECTION,
STATE OF NEW JERSEY.
PATERSON, N. J., January 5, 1901.

Hon John C. Ward:

DEAR SIR: I respectfully submit my report as Deputy Inspector for the Fifth District for the year 1900. I have found the general condition of factories good.

Respectfully,
JOHN HUNTER,
Deputy Inspector Fifth District.

Factory and Workshop Inspection—Fifth District Summary, November 4, 1899, to October 27, 1900.

SIXTH DISTRICT.

Department of Factory and Workshop Inspection of the State of New Jersey.

NOVEMBER 4th, 1899, to OCTOBER 27th, 1900.

DEPARTMENT OF
FACTORY AND WORKSHOP INSPECTION,
STATE OF NEW JERSEY.
NEWARK, N. J., December 17th, 1900.

Hon. John C. Ward, Chief Inspector of the State of New Jersey:

In compliance with the duties of my office, I beg leave to submit my annual report for the year ending October 31st, 1900.

Since my last annual report I have made 1,498 inspections and reported 53 accidents, of which 3 were killed; and have issued 459 school certificates. In my examination of the accidents reported I find they were caused by carelessness on the part of those injured. Machinery and hatchways are well guarded. The Board of Education of the city of Newark provides ample accommodations for all who desire to attend evening school during the fall and winter months.

GEO. W. TAYLOR,
Deputy Factory Inspector Sixth District.

Factory and Workshop Inspection—Sixth District Summary, November 4th, 1899, to October 27th, 1900.

PLACES INSPECTED.	Number inspected.	Orders given.	Orders not complied with.	Not inspected in 1900.	Old places not previously inspected.	New places.	Old places closed.	Accidents.		Children discharged.	Certificates ordered.	Permits to orphans.	Total number of inspections, 1900.
