Student growth is a measure of how much students are learning each year. Each student receives a Student Growth Percentile (SGP) for English Language Arts/Literacy (ELA) in grades 4 through 8 and for Mathematics in grades 4 through 7 that explains their progress compared to students who had the same test scores in previous years.

A student's SGP falls between 1 and 99 and can be grouped into three levels: **Low Growth: Less than 35** **Typical Growth: Between 35 and 65** **High Growth: Greater than 65**

If the student growth percentiles for all students in the school are ordered from smallest to largest, the median student growth percentile (mSGP) for the school is the percentile in the middle of that list. Watch a short video about Student Growth Percentiles that explains how they are calculated for students and how median Student Growth Percentiles (mSGP) are calculated for groups of students.

Student Growth

This table shows the median Student Growth Percentile (mSGP) for both English Language Arts/Literacy (ELA) and Mathematics both overall and for each student group with comparisons to the district and the state. This table also shows whether each mSGP Met Standard (40-59.5) as required by ESSA accountability.

English Language Arts/Literacy Assessment - Participation and Performance

This table shows information about the English Language Arts/Literacy section of the Partnership for Assessment of Readiness for College and Careers (PARCC) assessment both overall and by student group. The PARCC assessment has five performance levels, and students scoring a Level 4 or 5 (Met or Exceeded Expectations) have demonstrated readiness for the next grade level and are on track for college and careers. This table shows the number of valid test scores, the percentage of students that took the test, and the percentage of testers that met or exceeded expectations in the school, the district, and across the state. The last three columns of the table show the proficiency rate used for federal accountability, the annual target, and whether the target was met, as required by the Every Student Succeeds Act (ESSA) accountability. Student group rows where the annual target fields are grayed out are not required to meet annual targets under ESSA accountability. For more details on New Jersey's accountability system, see these accountability resources.

Mathematics Assessment - Participation and Performance

This table shows information about the Mathematics section of the Partnership for Assessment of Readiness for College and Careers (PARCC) assessment both overall and by student group. The PARCC assessment has five performance levels, and students scoring a Level 4 or 5 (Met or Exceeded Expectations) have demonstrated readiness for the next grade level and are on track for college and careers. This table shows the number of valid test scores, the percentage of students that took the test, and the percentage of testers that met or exceeded expectations in the school, the district, and across the state. The last three columns of the table show the proficiency rate used for federal accountability, the annual target, and whether the target was met, as required by the Every Student Succeeds Act (ESSA) accountability. Student group rows where the annual target fields are grayed out are not required to meet annual targets under ESSA accountability. English Language Progress to Proficiency

This table shows the percentage of English Learners who demonstrated the expected amount of growth on the ACCESS for ELLs 2.0 Assessment for English Language proficiency. Expected growth is based on the student's initial level of English Language Proficiency during the 2016-17 school year and the number of years the student has been enrolled in the district. This table also shows the school's 2017-18 ESSA accountability target and whether the target was met.

The New Jersey Student Learning Assessment for Science (NJSLA-S) measures student proficiency with the New Jersey Student Learning Standards for Science. All students in grade 5, grade 8, and grade 11 were administered the NJSLA-Science field test in 2017-18.

NJASK Science Assessment Information

New Jersey transitioned from the NJASK to NJSLA-S in 2017-18 to align to new science standards. Results of field tests in 2017-18 will not be reported, but results of NJSLA-S will be added to the performance reports in 2018-19.

Student absences provide important information about a school's culture and climate. Research shows that absences impact a student's ability to succeed in school. The New Jersey Department of Education used input from New Jersey communities to select chronic absenteeism as its measure of school quality and student success for the ESSA accountability plan. **Chronic absenteeism** is defined as being absent for 10% or more of the days enrolled during the school year. A student who is not present for any reason, whether excused, unexcused, or for disciplinary action, is considered absent unless permitted by state statute or regulations.

Chronic Absenteeism

This table shows the number and percentage of students in grades K-12 both overall and by student group who were chronically absent during the school year. The last two columns show the chronic absenteeism state average for students in the grades offered and whether the rate for each student group was above the state average ("Not Met") or less than or equal to the state average ("Met").

The New Jersey Department of Education migrated to a new reporting system, the Student Safety Data System (SSDS), which includes improved definitions, new reporting fields, and updated guidance for reporting incidents. As such, comparing this year's report to previous years' data can lead to inaccurate conclusions in many reporting categories. As such, the 2017-18 report should be considered a baseline year.

Violence, Vandalism, HIB, and Substance Offenses

This table shows the number of incidents reported by type. A single incident may be counted under multiple incident types. The total unique incidents row provides an unduplicated count of incidents. The last row shows the rate of incidents for every 100 students enrolled.

This table shows, by the nature of the incident, the number of alleged and confirmed Harassment, Intimidation, and Bulling (HIB) investigations. The nature of an incident is based on the protected categories listed below, and the nature of a single HIB investigation may include multiple categories. All confirmed incidents must have an identified nature.

Student Disciplinary Removals

The first table shows, by removal type, the number and percentage of students who received disciplinary removals during the school year. Removal types include students receiving one or more in-school suspensions, one or more out-of-school suspensions, one or more suspension of any type, removal to another school or other educational program, expulsion with no further educational services, or arrest. The second table shows the total number of days missed due to out-of-school suspension for all students during the school year.

School Day

This table shows the start and end times and length of school day for a typical student at this school. Instructional time is the amount of time that a typical student was engaged in instructional activities under the supervision of a certified teacher. Full time students attend this school for more than half of the school day and shared-time students attend the school for half of the school day or less.

Category	School
Typical Start Time	8:15 AM
Typical End Time	3:10 PM
Length of School Day	6 Hrs 55 Mins
Full Time - Instructional Time	5 Hrs 55 Mins
Shared Time - Instructional Time	N

Device Ratios

This table shows the student to device ratio, which is the number of students in tested grades 3-11 per device. Devices are computers such as tablets, iPads, laptops and Chromebooks. The count includes only devices that meet nationally recommended specifications for digital learning in grades 3-11. This information comes from the elective NJTRAx survey, therefore data may not be available for all schools. Additionally, schools that have adopted a Bring Your Own Device policy may appear to have a very low Student to Device ratio due to this policy decision.

School Year	Student to Device Ratio
2017-18	1:1

Per-Pupil Expenditures (District Level)

This table shows the total current expenses for regular and special education students taught within the district's schools. It includes expenditures for instruction, support services, administration, operations and maintenance, extra-curricular activities, and community service. More information about district and charter school spending can be found using districts' User Friendly Budgets, or the NJDOE Finance District Report Search of the Comprehensive Annual Financial Reports (CAFRs) and Auditor's Management Reports (AMRs). NJDOE will be collecting school-level per-pupil expenditures data for the 2018-19 school year, and that data will be included in future reports.

This chart shows the highest level of education attained by the teachers and administrators. The Bachelor's category may include other degrees/certificates such as a Specialist's degree. Administrators are required to have a Master's degree or higher.

Teachers and Administrators - One-Year Retention (District Level)

This table shows the percentage of teachers and administrators assigned to this district in 2016-17 that were still assigned to this district in 2017-18. Staff who were not retained may have changed districts or no longer work for the state (including retirements).

Job Type	District	State
2016-17 Teachers: Same district 2017-18	96.9%	90.2%
2016-17 Administrators: Same district 2017-18	100.0%	86.2%

Faculty Attendance

This table shows the percentage of days that faculty members were present during the school year. Approved professional days, personal days, staff training days, bereavement days, jury duty, and absences due to extended illness are not counted against days present, and faculty members on long-term leave or disability are excluded from this calculation.

School Year	% Days Present

New Jersey's school accountability system identifies schools that are in need of comprehensive and targeted support as required by the Every Student Succeeds Act (ESSA). For more information about New Jersey's accountability system, how indicator and summative scores were calculated, and how federal accountability status is determined, see these accountability resources.

Comprehensive Status

This table shows whether this school is identified as requiring Comprehensive Support and Improvement during the 2019-20 school year and whether it will be eligible to exit comprehensive status in January 2021 or January 2022. Schools must meet exit criteria in order to exit status. Schools with a summative score in the bottom 5% of Title I schools or with a four-year graduation rate of 67% or less are identified as requiring Comprehensive Support and Improvement.

Requires Comprehensive Support during the 2019-20 School Year	Eligible to exit status in January 2021	Eligible to exit status in January 2022
No	n/a	n/a

Targeted Status

This table shows whether one or more student groups in this school has been identified as requiring Targeted Support and Improvement during the 2019-20 school year and whether each student group will be eligible to exit targeted status in January 2021 or January 2022. Schools must meet exit criteria in order to exit status. Student groups with a summative score that would be in the bottom 5% of schools and student groups that miss annual targets for all indicators for two years in a row are identified as requiring Targeted Support and Improvement. Note: Schools identified as requiring comprehensive support may have student groups identified as needing targeted support below, but the date they are eligible to exit status is based on their comprehensive status.

Accountability Indicator Scores and Summative Rating - 2017-18 School Year

New Jersey has developed a school accountability system as required by the Every Student Succeeds Act (ESSA) to identify schools that are in need of Comprehensive Support and Improvement. This table shows the indicator scores for each indicator included in the accountability system and the weight that each indicator receives when calculating the overall Summative Score. The Summative Rating is the percentile rank of the Summative Score as compared to other schools across the state. Schools with a summative score in the bottom 5% of Title I schools or with a four-year graduation rate of 67% or less are identified as requiring Comprehensive Support and Improvement. For more information about New Jersey's accountability system and how these indicator scores were calculated, see these accountability resources.

Accountability Indicator	Score	Weight
English Language Arts Proficiency	37.74	17.5%
Mathematics Proficiency	39.34	17.5%
English Language Arts Growth	68.13	25.0%
Mathematics Growth	24.27	25.0%
Progress Towards English Language Proficiency	**	**
Chronic Absenteeism	45.68	15.0%
Summative Score: Sum of all indicator scores multiplied by indicator weights	43.44	n/a
Summative Rating: Percentile Rank of Summative Score	37.86	n/a
Requires Comprehensive Support: Summative Rating is less than or equal to 5th percentile	No	n/a

Accountability Summary by Student Group - 2017-18 School Year

New Jersey has developed a school accountability system as required by the Every Student Succeeds Act (ESSA) to identify schools that are in need of Targeted Support and Improvement. Any student group where the summative score would be in the bottom 5% of schools is identified for Targeted Support for a Low-Performing Student Group. Any student group that has missed annual targets for all indicators two years in a row is identified for Targeted Support for a Consistently Underperforming Student Group. In the table below, schools in which one or more student groups are identified for Targeted Sport will be noted in the Schoolwide row. Annual targets for proficiency and graduation rate were set based on a school or student group's performance in 2015-16. The target for chronic absenteeism is the state average for chronic absenteeism based on students enrolled in the grades served by the given school. For more details on accountability targets, see these accountability resources.

Highlights:	• Interactive STEAM Program (Science/Technology/Engineering/Arts/Math) • 21st Century Digital Learning and Cross-curricular Technology Infusion • Comprehensive Health and Physical Education Program
Mission, Vision, Theme:	The Long Beach Island Consolidated School District, in partnership with our unique island community, provides, preserves and develops an exceptional and diverse educational experience for the students. This creates a foundation that instills a life-long love of learning, seeding the future of their community.
Awards, Recognition, Accomplishments:	The LBI Grade School science coursework engages students into the science, technology, engineering, and math (STEM) arena while preparing students for college and career readiness skills. Students in grades 4-6 have an opportunity to become a math/science intern and receive volunteer hours while engaging others to improve their skills.

Courses, Curriculum, Instruction:	Students in the LBI Grade School receive instruction in the ELA/Literacy Standards through a balanced Integrated Language Arts Program. Students in grades 3-6 receive instruction in mathematics through the enVisions program. HMH Science is implemented district wide. HMH Social Studies is implemented in grades 3-6, and 21st Century Themes and Technologies are fully infused into our curricular foundation of instruction. Each of these programs has an online component for student use.
Clubs and Activities:	The Personalized Enrichment Program (PEP) was created to provide students with the opportunity to choose creative activities within the school day. The classes are multi-age and cross-curricular. Teachers offer classes that reflect an interest of theirs while aligning with NJSLS.

Staff and Professional Learning:	Our faculty and staff address the social, emotional, personal and physical development of the children. The school staff is an energetic, experienced and a caring group, which utilizes a dynamic and interactive approach to curriculum and teaching. The staff participates in vertical articulation across grade levels as well as grade level articulation through team meetings. The teachers attend professional development opportunities in areas of interest.

Student Supports and Services:	The LBI School provides services to meet the needs of all of our students. The need for additional services is determined through our I&RS Team. We utilize the RTI process in accordance with the NJ Tiered System of Supports. We can provide a BSI Program that is designed to give additional support to students. We also provide our English Language Learners instruction through an ESL instructor. For students with the most needs, we can provide special education services.
Student Health and Wellness:	The LBI BOE are strong supporters of physical education, art and the performing arts. Self-esteem and sportsmanship are our priorities in the PE department, and consists of both individual and team activities. Sports such as hockey, basketball, softball and volleyball are a significant portion of the curriculum. We participate in the Presidential Challenge fitness tests, and students in grades 4-6 have the opportunity to receive swimming instruction in a local community facility.
Parent and Community Involvement:	Our PTA is an extremely involved group of parents. They provide many services to our school including: after-school enrichment, room parents, and our assembly programs. We also have a Special Education Parent Advisory Group that meets to discuss and learn about our schools programs and the special education process as a whole. We have partnered with the local library to promote reading throughout the entire year and AtlantiCare to encourage a healthy lifestyle.

Other Information:	The Long Beach Island Grade School is an excellent school using a variety of instructional approaches and strategies to deliver a quality academic program to its students. A caring atmosphere permeates the school. The commitment of the staff to the goals of the school and to technology is reflected in their pursuit of keeping current with research, their willingness to pilot new programs, and their commitment to the implementation of the New Jersey Student Learning Standards. The art program encourages exploration, creativity and self-expression while developing a mastery of basic skills and concepts. Art history, studio art and aesthetics are the focus for an integrated understanding of art. The hallways are decorated with beautiful works created by the students. The primary objective of the general music program is appreciation. Students are involved in listening experiences, instrumental ensembles, and composing and reading music. Instrumental lessons, string lessons, and chorus are offered as electives. Participation in the elective music program is extremely high, and the performances are outstanding. Our district was approved as a Choice District in 2011 and this has proved to be extremely successful with a STEM focus. We welcome you to visit our schools to see first-hand the excellent educational environment which characterizes the Long Beach Island Consolidated School District. For further information on the Long Beach Island School District, we welcome visitors to frequent our website at www.lbischools.org.
