Student absences provide important information about a school's culture and climate. Research shows that absences impact a student's ability to succeed in school. The New Jersey Department of Education used input from New Jersey communities to select chronic absenteeism as its measure of school quality and student success for the ESSA accountability plan. **Chronic absenteeism** is defined as being absent for 10% or more of the days enrolled during the school year. A student who is not present for any reason, whether excused, unexcused, or for disciplinary action, is considered absent unless permitted by state statute or regulations.

Chronic Absenteeism

This table shows the number and percentage of students in grades K-12 both overall and by student group who were chronically absent during the school year. The last two columns show the chronic absenteeism state average for students in the grades offered and whether the rate for each student group was above the state average ("Not Met") or less than or equal to the state average ("Met").

Student Group	Number of students chronically absent	Percent of students chronically absent	State Average	Met State Average

The count includes only devices that meet nationally recommended specifications for digital learning in grades 3-11. This information comes from the elective NJTRAx survey, therefore data may not be available for all schools. Additionally, schools that have adopted a Bring Your Own Device policy may appear to have a very low Student to Device ratio due to this policy decision.

Other Information:	The programs at Atlantic County High School are “Best Practices” programs created to provide the academic, vocational, transition and life skill lessons our students need to reach their full potential. Student in grades 9 – 12 receive academic instruction and introductory vocational experiences. The Transitional Living Skills program is for students 18-21 years of age who have completed their high school academic requirements and are staying in school for additional instruction in the skills necessary for a successful transition to adult life. Through the Transitional Living Skills Program, students take the knowledge and skills learned during high school and apply them to real life situations. The TLS Program utilizes the Community Based Instruction (CBI) Model and Structured learning experiences (SLE) to teach students the skills they will need to be functioning and contributing members of their communities. CBI and SLE brings small groups of students into the community to practice specific job skills, life skills, and social skills while also providing opportunities to participate in recreational activities. In addition to academic instruction based on student IEPs, our comprehensive high school programs provide students with instruction in the following areas: work-based learning experiences, job exploration, financial literacy, self-advocacy, workplace readiness, postsecondary opportunities and life skills.
