PREFACE.

WE present the Legislative Manual, for this year, to the public, confidently expecting that it will be received as favorably as the editions of former years. Our best efforts have been put forth to make the work as interesting and reliable as possible. Our data has been obtained from official sources, and all the personal sketches have been compiled from information received directly from those concerned. Preceding Legislatures have seen fit to officially recognize and endorse our little hand-book, and we hope to merit a similar favor from the present Senate and General Assembly. Considering the vast amount of detailed and minute facts relating to every department of State which the volume contains, and which must prove of great interest to every Jerseyman, we feel that we can safely assert that the price charged (one dollar per volume) is not immoderate. We are under obligations to State officials, the press and other friends, for favors willingly conferred, and with a hope that the liberal support heretofore given to us will be continued, we remain,

Gratefully,

THE COMPILERS.

HISTORY OF NEW JERSEY.

In 1606, King James of England granted a new patent for Virginia (ignoring that of Sir Walter Raleigh, dated in 1584), in which was included the territory now known as the New England States and New York, New Jersey, Pennsylvania and Maryland. The possession of New Jersey, Pennsylvania and the adjacent lands was claimed respectively by the Dutch and Swedes. The former built Fort Nassau, on the Delaware, near Gloucester; Fort Orange, on the Hudson, near Albany; and the Hirsse of Good Hope, on the Connecticut. Disputes as to the rightful possession of territory continued for years, until the early summer of 1664, when Charles II. sold to John Lord Berkeley and Sir George Carteret "all that tract of land adjacent to New England, and lying and being to the westward of Long Island; bounded on the east part by the main sea and part by the Hudson river, and hath, upon the west Delaware bay or river, and extendeth southward to the main ocean as far as Cape May, at the mouth of Delaware bay, and to the northward as far as the northermost branch of said bay or river of Delaware, which is forty-one degrees and forty minutes of latitude, and worketh over thence in a straight line to Hudson river, which said tract of land is hereafter to be called by the name, or names, of NOVA CÆSAREA or NEW JERSEY."

The name was given in honor of Carteret, on account of his gallant defence of the Island of Jersey, at the time he was Governor of the island.

This grant regarded the Dutch as intruders, and Berkeley and Carteret not only became rulers, but acquired the right to transfer the privilege to others. Measures were speedily devised for peopling and governing the country. The proprietors published a constitution, dated February 10th, 1664, by which the government of the province was to be exercised by a Governor and Council and General Assembly. The Governor was to receive his appointment from the proprietors; the Council was to be selected by the Governor, who might make

choice of six Councillors, at least (or twelve, at most), or any even number between six and twelve.

On the same day that the instrument of government was signed, Philip Carteret, a brother of one of the proprietors, received a commission as Governor of New Jersey. He landed at Elizabeth in August, 1665.

The precise date of the first settlements in New Jersey is not known, though it is believed that the Danes or Norwegians, who crossed the Atlantic with the Dutch colonists, began a settlement at Bergen about the year 1624. Ten years previous an attempt was made to form a settlement at Jersey City. In 1623, the Dutch West India Company sent out a ship under the command of Capt. Cornelius Jacobse Mey, who entered the Delaware bay and gave his name to its northern cape, and, sailing up the river to Gloucester, built Fort Nassau, which may be considered the first permanent settlement of the State.

Upon the arrival of Governor Carteret, he entered at once upon a vigorous discharge of his duties. A large number of settlers flocked thither, and at an early period the executive authority of the province was established by the appointment of a Council, composed of Captain Nicholas Varlett, Daniel Pierce, Robert Bond, Samuel Edsall, Robert Vanquellen and William Pardon. James Bollen was appointed Secretary of the province.

The first Legislative Assembly in the history of New Jersey met at Elizabethtown on the 26th of May, 1668. The session lasted four days, and was characterized by harmony and strict attention to the business for which the Burgesses and Representatives were summoned by Governor Carteret. It may be noted that this Assembly passed laws by which twelve distinct offenses were made punishable with death. The Assembly adjourned *sine die*, and seven years elapsed before another convened. The capture of New York by the Dutch, July 30th, 1673, was followed by the subjection of the surrounding country, including the province of New Jersey. The whole of the territory, however, swung back to the possession of the English crown, by the treaty of peace with Holland on the 9th of February, 1674.

The second General Assembly began its session on the 5th of November, 1675. Eight members of Council, including the Governor, were present, and fourteen Representatives appeared from the towns. Laws were enacted looking to the proper military defence of the

province, for the institution of regular courts, and for the assessment of taxes. A code of capital laws was also adopted, similar in its provisions to that passed in 1668.

On the 18th of March, 1673, Lord Berkeley, one of the original proprietors of New Jersey, disposed of his right and interest in the province to John Fenwick and Edward Byllinge, members of the Society of Quakers, or Friends, who paid the sum of one thousand pounds for the same. John Fenwick received the conveyance in trust for Edward Byllinge, and a dispute, as to the terms having arisen, William Penn was called in as arbitrator. He gave one-tenth of the province and a considerable sum of money to Fenwick and the remainder of the territory was adjudged to be the property of Byllinge. A permanent settlement was made at Salem, in June, 1675.

Owing to the continued disputations and dissensions, a division of the territory of the province was agreed upon. By this "Indenture Quintipartite," dated July 1st, 1676, the line of division was made to extend across the province, from Little Egg Harbor, to a point in the Delaware river in forty-one degrees of north latitude. These divisions were known respectively as East and West Jersey, until the charters of both were surrendered, and the two portions included together under a Royal government.

By the retercession of New Jersey to Great Britain by the treaty of 1674, the question arose whether the title returned to the proprietors or to the King. To avoid all difficulty, the King recognized the claim of Carteret, and made a new grant to the Duke of York, who also executed a fresh conveyance to Carteret, covering, however, only a part of the original territory of New Jersey. But before making this conveyance, the Duke included the province in a commission given to Sir Edmund Andros, Governor of New York, who refused to recognize the authority, as Governor, of Philip Carteret, arrested all magistrates who would not submit to his own jurisdiction, and finally, on April 30th, 1680, carried Carteret himself prisoner to New York. The Duke was finally prevailed upon to acknowledge the claims of the proprietors, and in 1681, the government of Andros came to an end.

West Jersey, in February, 1682, was purchased by William Penn and eleven other Quakers. The first Governor under the new proprietors was Robert Barclay, a Scotchman, and one of the twelve purchasers, under whom the country became an asylum for the oppressed

members of his creed, and for a time enjoyed great prosperity. But the number of proprietors, the frequent subdivisions and transfers of shares, and various other difficulties in the way of good government, soon involved the province in trouble, and in 1702, the proprietors surrendered the rights of government to the Crown.

Queen Anne appointed Lord Cornbury Governor of New York and New Jersey, but each continued to have a separate Assembly. In 1738, New Jersey petitioned for a distinct administration, and Lewis Morris was appointed Governor. The population was then about 40,000. The last Royal Governor was William Franklin, the natural son of Benjamin Franklin. A State Constitution was adopted in 1776, and some of the most important battles of the Revolution took place upon its soil. Among these were the battles of Trenton, Princeton, Red Bank and Monmouth.

The first Legislature met at Princeton, in August, 1776, and chose William Livingston, Governor. The Federal Constitution was adopted by a unanimous vote, Dec. 18th, 1787. The State Capital was established at Trenton in 1790.

New Jersey, out of 98,806 men liable to do military duty, furnished 88,305 during the civil war, being 10,057 in excess of the number called for by the general government, and within 10,501 of her entire militia at that time. Of this number 79,348 served with State organizations, and the remainder in regiments of other States. The naval and marine enlistments from New Jersey numbered 4,853. The entire expense to the State for organizing, equipping, subsisting, supplying and transporting her troops, was \$2,894,384.99.

STATE CONSTITUTION.

A CONSTITUTION agreed upon by the delegates of the people of New Jersey, in convention begun at Trenton on the fourteenth day of May, and continued to the twenty-ninth day of June, in the year of our Lord one thousand eight hundred and forty-four, ratified by the people at an election held on the thirteenth day of August, A. D. 1844, and amended at a special election held on the seventh day of September, A. D. 1875.

We, the people of the State of New Jersey, grateful to Almighty God for the civil and religious liberty which He hath so long permitted us to enjoy, and looking to Him for a blessing upon our endeavors to secure and transmit the same unimpaired to succeeding generations, do ordain and establish this CONSTITUTION :

ARTICLE I.

RIGHTS AND PRIVILEGES.

1. All men are by nature free and independent, and have certain natural and unalienable rights, among which are those of enjoying and defending life and liberty, acquiring, possessing, and protecting property, and of pursuing and obtaining safety and happiness.

2. All political power is inherent in the people. Government is instituted for the protection, security, and benefit of the people, and they have the right at all times to alter or reform the same, whenever the public good may require it.

3. No person shall be deprived of the inestimable privilege of worshipping Almighty God in a manner agreeable to the dictates of his own conscience; nor under any pretense whatever to be compelled to attend any place of worship contrary to his faith and judgment; nor shall any person be obliged to pay tithes, taxes, or other rates for building or repairing any church or

churches, place or places of worship, or for the maintenance of any minister or ministry, contrary to what he believes to be right, or has deliberately and voluntarily engaged to perform.

4. There shall be no establishment of one religious sect in preference to another; no religious test shall be required as a qualification for any office or public trust; and no person shall be denied the enjoyment of any civil right merely on account of his religious principles.

5. Every person may freely speak, write, and publish his sentiments on all subjects, being responsible for the abuse of that right. No law shall be passed to restrain or abridge the liberty of speech or of the press. In all prosecutions or indictments for libel, the truth may be given in evidence to the jury; and if it shall appear to the jury that the matter charged as libellous is true, and was published with good motives and for justifiable ends, the party shall be acquitted; and the jury shall have the right to determine the law and the fact.

6. The right of the people to be secure in their persons, houses, papers, and effects, against unreasonable searches and seizures, shall not be violated; and no warrant shall issue but upon probable cause, supported by oath or affirmation, and particularly describing the place to be searched and the papers and things to be seized.

7. The right of a trial by jury shall remain inviolate; but the legislature may authorize the trial of civil suits, when the matter in dispute does not exceed fifty dollars, by a jury of six men.

8. In all criminal prosecutions the accused shall have the right to a speedy and public trial by an impartial jury; to be informed of the nature and cause of the accusation; to be confronted with the witnesses against him; to have compulsory process for obtaining witnesses in his favor, and to have the assistance of counsel in his defense.

9. No person shall be held to answer for a criminal offense, unless on the presentment or indictment of a grand jury, except in cases of impeachment, or in cases cognizable by justices of the peace, or arising in the army or navy; or in the militia, when in actual service in time of war or public danger.

10. No person shall after acquittal, be tried for the same offense. All persons shall, before conviction, be

bailable by sufficient sureties, except for capital offenses, when the proof is evident or presumption great.

11. The privilege of the writ of *habeas corpus* shall not be suspended, unless in case of rebellion or invasion the public safety may require it.

12. The military shall be in strict subordination to the civil power.

13. No soldier shall, in time of peace, be quartered in any house without the consent of the owner; nor in time of war, except in a manner prescribed by law.

14. Treason against the State shall consist only in levying war against it, or in adhering to its enemies, giving them aid and comfort. No person shall be convicted of treason, unless on the testimony of two witnesses to the same overt act, or on confession in open court.

15. Excessive bail shall not be required, excessive fines shall not be imposed, and cruel and unusual punishments shall not be inflicted.

16. Private property shall not be taken for public use without just compensation; but land may be taken for public highways as heretofore, until the legislature shall direct compensation to be made.

17. No person shall be imprisoned for debt in any action, or on any judgment founded upon contract, unless in cases of fraud; nor shall any person be imprisoned for a militia fine in time of peace.

18. The people have the right freely to assemble together, to consult for the common good, to make known their opinions to their representatives, and to petition for redress of grievances.

19. No county, city, borough, town, township or village shall hereafter give any money or property, or loan its money or credit, to or in aid of any individual association or corporation, or become security for or be directly or indirectly the owner of any stock or bonds of any association or corporation.

20. No donation of land or appropriation of money shall be made by the State or any municipal corporation to or for the use of any society, association or corporation whatever.

21. This enumeration of rights and privileges shall not be construed to impair or deny others retained by the people.

ARTICLE II.

RIGHT OF SUFFRAGE.

1. Every male citizen of the United States, of the age of twenty-one years, who shall have been a resident of this State one year, and of the county in which he claims his vote five months, next before the election, shall be entitled to vote for all officers that now are, or hereafter may be, elective by the people; *provided*, that no person in the military, naval, or marine service of the United States shall be considered a resident in this State, by being stationed in any garrison, barrack, or military or naval place or station within this State; and no pauper, idiot, insane person, or person convicted of a crime which now excludes him from being a witness unless pardoned or restored by law to the right of suffrage, shall enjoy the right of an elector; *and provided further*, that in time of war no elector in the actual military service of the State, or of the United States, in the army or navy thereof, shall be deprived of his vote by reason of his absence from such election district; and the legislature shall have power to provide the manner in which, and the time and place at which, such absent electors may vote, and for the return and canvass of their votes in the election districts in which they respectively reside.

2. The legislature may pass laws to deprive persons of the right of suffrage who shall be convicted of bribery.

ARTICLE III.

DISTRIBUTION OF THE POWERS OF GOVERNMENT.

1. The powers of the government shall be divided into three distinct departments—the legislative, executive, and judicial; and no person or persons belonging to, or constituting one of these departments, shall exercise any of the powers properly belonging to either of the others, except as herein expressly provided.

ARTICLE IV.

LEGISLATIVE.

Section I.

1. The legislative power shall be vested in a senate and general assembly.

2. No person shall be a member of the senate who shall not have attained the age of thirty years, and have been a citizen and inhabitant of the State for four years, and of the county for which he shall be chosen one year, next before his election; and no person shall be a member of the general assembly who shall not have attained the age of twenty-one years, and have been a citizen and inhabitant of the State for two years, and of the county for which he shall be chosen one year next before his election; *provided*, that no person shall be eligible as a member of either house of the legislature, who shall not be entitled to the right of suffrage.

3. Members of the senate and general assembly shall be elected yearly and every year, on the first Tuesday after the first Monday in November; and the two houses shall meet separately on the second Tuesday in January next after the said day of election, at which time of meeting, the legislative year shall commence; but the time of holding such election may be altered by the legislature.

Section II.

1. The senate shall be composed of one senator from each county in the State, elected by the legal voters of the counties, respectively, for three years.

2. As soon as the senate shall meet after the first election to be held in pursuance of this constitution, they shall be divided as equally as may be into three classes. The seats of the senators of the first class shall be vacated at the expiration of the first year; of the second class at the expiration of the second year; and of the third class at the expiration of the third year, so that one class may be elected every year: and if vacancies happen, by resignation or otherwise, the persons elected to supply such vacancies shall be elected for the unexpired terms only.

Section III.

1. The general assembly shall be composed of members annually elected by the legal voters of the counties, respectively, who shall be apportioned among the said counties as nearly as may be according to the number of their inhabitants. The present apportionment shall continue until the next census of the United States shall have been taken, and an apportionment of members of the general assembly shall be made by the legislature at its first session after the next and every subsequent enumeration or census, and when made shall remain unaltered until another enumeration shall have been taken; *provided*, that each county shall at all times be entitled to one member; and the whole number of members shall never exceed sixty.

Section IV.

1. Each house shall direct writs of election for supplying vacancies, occasioned by death, resignation, or otherwise; but if vacancies occur during the recess of the legislature, the writs may be issued by the governor, under such regulations as may be prescribed by law.

2. Each house shall be the judge of the elections, returns, and qualifications of its own members, and a majority of each shall constitute a quorum to do business; but a smaller number may adjourn from day to day, and may be authorized to compel the attendance of absent members, in such manner, and under such penalties, as each house may provide.

3. Each house shall choose its own officers, determine the rules of its proceedings, punish its members for disorderly behavior, and, with the concurrence of two-thirds, may expel a member.

4. Each house shall keep a journal of its proceedings, and from time to time publish the same; and the yeas and nays of the members of either house on any question shall, at the desire of one-fifth of those present, be entered on the journal.

5. Neither house, during the session of the legislature, shall, without the consent of the other, adjourn for more than three days, nor to any other place than that in which the two houses shall be sitting.

6. All bills and joint resolutions shall be read three times in each house, before the final passage thereof; and no bill or joint resolution shall pass, unless there be a majority of all the members of each body personally present and agreeing thereto; and the yeas and nays of the members voting on such final passage shall be entered on the journal.

7. Members of the senate and general assembly shall receive annually the sum of five hundred dollars during the time for which they shall have been elected, and while they shall hold their office, and no other allowance or emolument, directly or indirectly, for any purpose whatever. The president of the senate, and the speaker of the house of assembly, shall, in virtue of their offices, receive an additional compensation, equal to one-third of their allowance as members.

8. Members of the senate and general assembly shall, in all cases except treason, felony, and breach of the peace, be privileged from arrest during their attendance at the sitting of their respective houses, and in going to and returning from the same; and for any speech or debate, in either house, they shall not be questioned in any other place.

Section V.

1. No member of the senate or general assembly shall, during the time for which he was elected, be nominated or appointed by the governor or by the legislature in joint meeting, to any civil office under the authority of this State, which shall have been created, or the emoluments whereof shall have been increased, during such time.

2. ARTICLE V.

EXECUTIVE.

1. The executive power shall be vested in a governor.

2. The governor shall be elected by the legal voters of this State. The person having the highest number of votes shall be the governor; but if two or more shall be equal and highest in votes, one of them shall be chosen governor by the vote of a majority of the members of both houses in joint meeting. Contested elections for the office of governor shall be determined in such manner as the legislature shall direct by law. When a governor is to be elected by the people, such election shall be held at the time when and at the places where the people shall respectively vote for members of the legislature.

3. The governor shall hold his office for three years, to commence on the third Tuesday of January next ensuing the election for governor by the people, and to end on the Monday preceding the third Tuesday of January, three years thereafter; and he shall be incapable of holding that office for three years next after his term of service shall have expired; and no appointment or nomination to office shall be made by the governor during the last week of his said term.

4. The governor shall be not less than thirty years of age, and shall have been for twenty years, at least, a citizen of the United States, and a resident of this State seven years next before his election, unless he shall have been absent during that time on the public business of the United States or of this State.

7. Every bill which shall have passed both houses shall be presented to the governor; if he approve he shall sign it, but if not, he shall return it, with his objections, to the house in which it shall have originated, who shall enter the objections at large on their journal, and proceed to reconsider it; if, after such reconsideration, a majority of the whole number of that house shall agree to pass the bill, it shall be sent, together with the objections, to the other house, by which it shall likewise be reconsidered, and if approved of by a majority of the whole number of that house, it shall become a law; but in neither house shall the vote be taken on the same day on which the bill shall be returned to it; and in all such cases, the votes of both houses shall be determined by yeas and nays, and the names of the persons voting for and against the

bill shall be entered on the journal of each house respectively. If any bill shall not be returned by the governor, within five days (Sunday excepted) after it shall have been presented to him, the same shall be a law in like manner as if he had signed it, unless the legislature by their adjournment prevent its return, in which case it shall not be a law. If any bill presented to the governor contain several items of appropriations of money, he may object to one or more of such items while approving of the other portions of the bill. In such case he shall append to the bill, at the time of signing it, a statement of the items to which he objects, and the appropriation so objected to shall not take effect. If the legislature be in session he shall transmit to the house in which the bill originated a copy of such statement, and the items objected to shall be separately reconsidered. If, on reconsideration, one or more of such items be approved by a majority of the members elected to each house, the same shall be a part of the law, notwithstanding the objections of the governor. All the provisions of this section in relation to bills not approved by the governor shall apply to cases in which he shall withhold his approval from any item or items contained in a bill appropriating money.

8. No member of congress, or person holding an office under the United States, or this State, shall exercise the office of governor; and in case the governor, or person administering the government shall accept any office under the United States or this State, his office of governor shall thereupon be vacant. Nor shall he be elected by the legislature to any office under the government of this State or of the United States, during the term for which he shall have been elected governor.

9. The governor, or person administering the government, shall have power to suspend the collection of fines and forfeitures, and to grant reprieves, to extend until the expiration of a time not exceeding ninety days after conviction; but this power shall not extend to cases of impeachment.

10. The governor, or person administering the government, the chancellor, and the six judges of the court of errors and appeals, or a major part of them, of whom the governor, or person administering the government, shall be one, may remit fines and forfeitures, and grant pardons, after conviction, in all cases except impeachment.

11. The governor and all other civil officers under this State shall be liable to impeachment for misdemeanor in office during their continuance in office, and for two years thereafter.

12. In case of the death, resignation, or removal from office of the governor, the powers, duties and emoluments of the office shall devolve upon the president of the senate, and in case of his death, resignation or removal, then upon the speaker of the house of assembly, for the time being, until another governor shall be elected and qualified; but in such case another governor shall be chosen at the next election for members of the legislature, unless such death, resignation or removal shall occur within thirty days immediately preceding such next election, in which case a governor shall be chosen at the second succeeding election for members of the legislature. When a vacancy happens, during the recess of the legislature, in any office which is to be filled by the governor and senate, or by the legislature in joint meeting, the governor shall fill such vacancy and the commission shall expire at the end of the next session of the legislature, unless a successor shall be sooner appointed: when a vacancy happens in the office of clerk or surrogate of any county, the governor shall fill such vacancy, and the commission shall expire when a successor is elected and qualified.

13. In case of the impeachment of the governor, his absence from the State or inability to discharge the duties of his office, the powers, duties and emoluments of the office shall devolve upon the president of the senate; and in case of his death, resignation or removal, then upon the speaker of the house of assembly for the time being, until the governor, absent or impeached, shall return or be acquitted, or until the disqualification or inability shall cease, or until a new governor be elected and qualified.

14. In case of a vacancy in the office of governor from any other cause than those herein enumerated, or in case of the death of the governor elect before he is qualified into office, the powers, duties and emoluments of the office shall devolve upon the president of the senate or speaker of the house of assembly, as above provided for, until a new governor be elected and qualified.

STATE INSTITUTIONS.

THE STATE CAPITOL.

This edifice, a massive structure, erected at sundry times and various periods, is located on West State street, at the corner of Delaware street, running thence westerly along State street to the grounds of the late ex-Chancellor Green, and southerly to the Water Power. The location is a good one, and although the style of the building is not modern, yet it answers the purposes for which it was intended, even if it does not present a very imposing appearance.

The seat of Government was fixed at Trenton by an act of the Legislature, approved November 25th, 1790. James Cooper, Thomas Lowery, James Ewing, Maskell Ewing, George Anderson, James Mott and Moore Furman were appointed commissioners to select, purchase or accept so much land as was needed, and to erect thereon suitable buildings for the use of the Legislature. They purchased the present site, containing about three and three-quarter acres—a frontage on Second street (now West State street) of 247 feet and 6 inches, and a depth from the front to the low-water line of Delaware river of 666 feet—at a cost of £250 5s. The old State House was a plain, bare looking, rough-cast building, and was erected at a cost of £3992 3s. $\frac{1}{2}$ d. By an act of March 4th, 1795, a building was erected to serve as an office for the Secretary of State, and for the preservation of the public records, at a cost of £620 19s. 10d. Numerous improvements and repairs were made, and on March 3d, 1806, an act was passed appointing commissioners to make certain repairs to the State House, to provide and hang a suitable bell, &c. This was done, and the bell was used for informing the members of both houses, as well as the courts, of the hour of meeting. The bell was eventually discarded, and an American flag

substituted, which waves from the building unto this day, when the Legislature is in session, and upon holidays and State occasions. In 1848 the State House was altered by the removal of the rough-casting, and changing the front to the style of the Mercer County Court House, placing neat porticoes over the front and rear entrances, and erecting two additional buildings adjoining the main one, as offices for the Clerks of the Chancery and Supreme Courts. The rotunda was also erected, and the grounds fenced, graded, laid out and shade trees planted, all at a cost of \$27,000. The commissioners, under whose directions the work was completed, were Samuel R. Gummere, Samuel R. Hamilton and Stacy A. Paxson. In 1863, '64 and '65, appropriations were made and expended in building additions for the State Library, Executive Chambers, &c. In 1871, Charles S. Olden, Thomas J. Stryker and Lewis Perrine were appointed commissioners to cause a suitable addition to be built—more commodious apartments for the Senate and Assembly, &c. The sum of \$50,000 was appropriated, and the buildings for the Legislature were ready for occupancy in time for the meeting of the Legislature of 1872. In 1872, \$120,000 was appropriated for completing the building, \$3000 for fitting up the Executive Chamber, \$4000 for fitting up the Chancery and Supreme Court rooms, and \$2000 for fitting up the offices on the first floor of the east wing. In 1873, the sum of \$43,000 was appropriated for the improvement of the front of the building, completing unfinished repairs and improvements, and for fitting up the Library, &c. On March 18th, 1875, the sum of \$15,000 was appropriated for the purpose of putting a new three-story front to the building and to fit up offices on the second floor for the Clerks of the Court of Chancery and Supreme Court, and for providing a suitable museum for geological specimens and the battle-flags of New Jersey volunteer regiments, carried during the war of 1861.

The Legislative Chambers are very handsome apartments, and the only cause of complaint heretofore has been inadequate ventilation, which has of late been much improved.

THE STATE LIBRARY.

This valuable collection of books is located in a roomy apartment in a southern wing of the State Capitol. The old saying, "Great oaks from little acorns grow," most appropriately applies to this institution.

The first library of the State was a case ordered to be procured by Maskill Ewing, Clerk of the House of Assembly, for the keeping and preservation of such books as belonged to the Legislature. It was ordered by a resolution passed March 18th, 1796. This was the nucleus of the present extensive library. On February 18th, 1804, William Coxe, of Burlington, Ezra Darby, of Essex, and John A. Scudder, of Monmouth, were appointed a committee on rules, and to make a catalogue; they reported that there were 168 volumes belonging to the State, and presented a code of seven rules, which was adopted. On February 10th, 1813, an act (the first one) was passed, entitled "An act concerning the State Library." Up to 1822 it appears that the Clerk of the House had charge of the books, as Librarian, and on November 16th, 1822, an act was passed for the appointment of a State Librarian, annually, by joint meeting. In 1846, on April 10th, an act was passed making the term of office three years. The Law Library at that time belonged to the members of the Law Library Association. The only persons allowed the use of the Library were members of the association, the Chancellor, and the judges of the several courts. Stacy G. Potts was treasurer and librarian of the association. The Law Library was kept in the Supreme Court room until 1837, when the Legislature authorized the State Librarian to fit up a room adjoining the library for the care and reception of the books and papers belonging to the State Library. Thus the two Libraries were consolidated. On March 13th, 1872, \$5000 per year for three years was appropriated for the library by the Legislature, and by the act of March 15th, 1876, the sum of \$2500 was appropriated for finishing and refurnishing the library room. A new catalogue has been prepared by Capt. J. S. McDanolds, the Librarian, and many important and useful improvements have been effected under his administration.

THE STATE ARSENAL.

The building now used as the State Arsenal was formerly the old State Prison. It is situate upon Second street, in the Sixth Ward, of the city of Trenton, and has on its front the following inscription :

LABOR, SILENCE, PENITENCE.
 THE PENITENIARY HOUSE,
 ERECTED BY LEGISLATIVE AUTHORITY.
 RICHARD HOWELL, GOVERNOR.
 IN THE XXII. YEAR OF AMERICAN INDEPENDENCE,
 MDCCXCVII.
 THAT THOSE WHO ARE FEARED FOR THEIR CRIMES,
 MAY LEARN TO FEAR THE LAWS AND BE USEFUL.
 HIC LABOR, HOC OPUS.

In the messages of Governors Peter D. Vroom and Samuel L. Southard recommending the erection of the New Prison, it was proposed that the old one be converted into an Arsenal for the safe keeping of the arms and military property of the State, which, previous to that time, had been kept in the Old State Bank, corner of Warren and Bank streets, with accoutrements and camp and garrison equipage at the State House. After the removal of the State convicts from the Old Prison, permission was given to the County of Mercer to occupy it as a jail until their jail, then in course of completion, was finished, and when it was again vacated it was converted into an Arsenal.

Among the stores, &c., at the Arsenal are one bronze gun, French, of the date of 1758, two bronze guns, English, four pounders, and two iron six pounders. There is also one gun captured at the battle of Trenton, Dec. 26th, 1776, and two guns captured at Yorktown, Oct. 19th, 1781. There are also a large quantity of fire arms, ammunition, ordnance, tents, clothing, blankets, &c.

STATE LUNATIC ASYLUM,

NEAR TRENTON.

This institution is located in Ewing township, in Mercer county, two and half miles northwest of the city of Trenton, on the Belvidere Delaware Railroad, and near the Delaware river. A very fine view is had from the Asylum. The building is built of reddish sand-stone (from the Ewing quarries on the premises), laid in rubble and broken range work, and pointed, with hammer-dressed stone for base. The roof is covered with slate, except the dome, which is covered with tin.

In 1844, after many futile attempts to cause action to be taken for the building of a State Asylum for the Insane, commissioners were appointed to select a site, and an appropriation of \$35,000 was made to pay for the land and commence the erection of a building. The commissioners selected the present site. During the year 1845, commissioners were appointed to contract for and superintend the erection of the Asylum, which was done by William Phillips and Joseph Whittaker, of Trenton—the builders of the State House. It was opened for the reception of patients May 15th, 1848. Numerous additions were made to the building from time to time, and under the direction of the present Superintendent, Dr. J. W. Ward, a fine green-house has been added, and he has introduced many new plans and devices for the comfort and amusement of the patients. Handsome pictures have been hung up in the wards and dormitories of the patients; flowers and hot-house plants are a source of much pleasure to the unfortunates, who regard them with rare appreciation; and during the fall and winter months there have been regular weekly entertainments, consisting of tableaux, concerts, dancing, the performance of minor theatricals, and stereopticon exhibitions. The effect of these, besides breaking up the monotony of long evenings, seems to call the minds of the patients from their troubles, and not unfrequently tends towards the restoration of their mental health.

STATE LUNATIC ASYLUM,

MORRIS PLAINS.

Owing to the crowded condition of the Trenton Asylum, commissioners were appointed to select a site and build an additional Asylum in the northerly portion of the State. They purchased 430 acres, at a cost of \$82,672.11, in Hanover township, Morris county, and plans were drawn by Samuel Sloan, architect, of Philadelphia. The building was erected and occupied by August 17th, 1876. It is 1243 feet in length, and is 542 feet deep from the front of the main centre to the rear of the extreme wing, and will accommodate 800 patients. The total cost was \$2,250,000.

STATE NORMAL AND MODEL SCHOOLS.

These schools are located in the city of Trenton, on a piece of ground belonging to the State, at the junction of Clinton avenue and Perry street. There are two buildings—one called the Normal and the other the Model Hall.

As early as the year 1839, the Trustees of the School Fund, in their annual report, advised the erection of schools for the education of teachers. The appeal was unheeded. Normal schools, so far as this country was concerned, might then have been considered an untried experiment. There was but one in the United States, and that had just gone into operation in Massachusetts.

For upwards of fifteen years, New Jersey continued to forego the means for the education of teachers; but the Legislature of 1855, with an enlightened liberality, passed a law for the establishment of a State Normal School. The object was declared to be, the training and education of teachers in such branches of knowledge, and such

methods of instruction, as should qualify them to become teachers of our common schools.

The location of the school, and its general management, were committed to a board of ten trustees, two from each Congressional District in the State, to be appointed by the Governor, by and with the advice and consent of the Senate.

The lot was purchased of William P. Sherman, Esq., at a cost of \$3000. The architect was Chauncey Graham. The corner-stone was laid by Governor Price, October 9th, 1855. The school was opened in a temporary building—October 1st, 1855, under the direction of the chosen Principal, Prof. William F. Phelps, there being fifteen candidates for entrance examination—five gentlemen and ten ladies. The school continued under the management of Prof. Phelps till March 15th, 1865, when Prof. John S. Hart, Principal of the Model School, took charge of the two schools. The latter resigning February 7th, 1871, Lewis M. Johnson, of Newark, was elected Principal, and was succeeded by the present incumbent, Washington Hasbrouck, July 1st, 1876. The property of these schools is valued at \$160,000.

An auxiliary to the Normal School is the Farnum Preparatory School, at Beverly, Burlington county, founded by Paul Farnum, in 1856, who gave \$70,000 in money and property for its support. Dr. Hasbrouck is Principal of the school, and J. Fletcher Street, A. M., is the resident Principal.

STATE REFORM SCHOOL FOR BOYS.

This institution is situate at Jamesburg, Middlesex county, and was authorized by an act of the Legislature passed April 6th, 1865. Juvenile criminals between the ages of eight and sixteen years are here cared for, and every influence tending to their reformation is brought to bear upon them. Numerous additions have been made to the original building, to which is attached a farm of 490 acres. The first pupils were received July 6th, 1867.

STATE INDUSTRIAL SCHOOL FOR GIRLS.

This institution is located on the line of the Trenton Branch of the Delaware and Bound Brook Railroad, in Ewing township, near the Trenton Lunatic Asylum, and is located on a farm of about 79 acres of land. A substantial building was erected at a cost of \$23,334, and other improvements made, which brings the value of the place, with furniture, &c., up to \$37,740. Previous to the erection of the new building the school was at "Pine Grove," in the Sixth Ward of the city of Trenton. This place had been leased so as to afford room for persons sentenced under the act of April 4th, 1871.

THE STATE PRISON.

The New Jersey State Prison situated on the block enclosed by Federal, Third, Cass and Second streets, in the city of Trenton, is one of the finest institutions of its kind in the country. Its erection was authorized by an act of the Legislature passed February 13th, 1832, and it was completed in the year 1836, having 150 cells, at a cost of \$179,657.11. It was built of red sand-stone from the Ewing quarries, and the style of its architecture is Egyptian, having four Egyptian columns in front of the main entrance on Third street. It consists of a main building, used as a residence for the Keeper and as reception rooms and offices. From time to time the prison has been enlarged, and although there is not sufficient room to afford separate confinement for each prisoner as required by law, the provisions of the act are carried out as far as possible. The present Keeper, Patrick Henry Laverty, has brought the internal affairs of the institution as to cleanliness, discipline, victualing, &c., to a much higher standard than was ever before reached, and a visit thereto will convince the visitor that the management is as perfect as can be.

On March 4th, 1847, \$5000 was appropriated to build an additional wing to the original building. On March 25th, 1852, \$15,000 was granted for the erection of a new wing for hospital purposes. On March 22d, 1860, the sum of \$17,000 was voted for the purpose of building an

additional wing for cells, and on February 16th, 1861, a further sum of \$2243.01 was appropriated to complete the same. On April 16th, 1868, \$6000 was appropriated for the building of an additional wing to provide room for female convicts. An act passed April 2d, 1869, provided for the appointment of commissioners to extend the grounds of the prison to the wall of the State Arsenal, to build an additional wing and work shops, and made an appropriation of \$50,000 for that purpose, and in the same month \$9734 was appropriated for the purpose of completing the wing of the female department. On April 4th, 1871, the sum of \$75,000 was appropriated for the purpose of completing the new or east wing, and on April 4th, 1872, a further sum of \$28,700 was appropriated for the completion of the same. March 3d, 1874, \$12,000 was voted for the construction of gas works for the supply of illuminating gas for the prison. On March 8th, 1877, the sum of \$100,000 was appropriated for the enlargement of the prison and the purchase of a burial ground for deceased convicts. The north wing was remodeled out of this last appropriation and a burial ground purchased.

Previous to the year 1798 there was no State Prison, and prisoners were confined in the county jails. On March 1st, 1797, Jonathan Doane was appointed by an act of the Legislature as an agent to purchase a lot of land from Peter Hunt, situate at Lamberton, containing six and a half acres, and to erect suitable buildings thereon. This was done at an expense of £9852 os. 3d. and what is now the State Arsenal at Second and Cass streets is the result. Solitary confinement was not practiced previous to 1836, in which year the old prison was vacated and the present one occupied.

N. J. SOLDIERS' HOME AT NEWARK.

This institution, situated on Mount Pleasant, in the city of Newark, is desirably and eligibly located, and has the advantage of beautiful scenery and a healthy position. There are 23 acres of land connected with the buildings, and there is a good supply of pure soft water. Its organization was authorized by a joint resolution adopted and approved April 12th, 1862. The Home was opened July 4th, 1866.

BIOGRAPHIES.

GOVERNOR OF NEW JERSEY.

GEORGE C. LUDLOW.

George Craig Ludlow was born at Milford, Hunterdon county, New Jersey, on April 6th, 1830. His father was Cornelius Ludlow, and his grandfather General Benjamin Ludlow, of Long Hill, Morris county, a leading Democrat of his time. At the age of five years his parents removed to New Brunswick, where he has since resided. He entered Rutgers College and graduated therefrom in his twentieth year, in 1850, and soon afterwards commenced the study of law in the office of W. H. Leupp, in New Brunswick. He also studied in the office of Robert Van Arsdale, of Newark. In 1853 he was admitted to practice as an attorney at law, by the Supreme Court, and immediately afterwards commenced the practice of his profession in the city of New Brunswick. In due time he was called to the bar as counselor, and earned for himself the reputation of being a sound and careful lawyer. He was selected as counsel for the city of New Brunswick, and acted in the same capacity for several corporations and many of the citizens of his county. He was a member of the Board of Chosen Freeholders of Middlesex county, and for a number of years was President of the Board of Education of New Brunswick. In 1876 he was elected Senator from Middlesex county, over Hon. Levi D. Jarrard, who had previously served in that capacity, and by reason of his sound judgment and peculiar fitness, Mr. Ludlow became the leader of the Democracy on the floor of the Senate. In the second year of his term, 1878, he was chosen President of the Senate, which office he filled with ability and impartiality. He was nominated at the Democratic State Convention in 1880, for Governor, and after a closely contested canvass, was elected by a plurality of 651 votes. His term expires January 18th, 1884.

UNITED STATES SENATORS.

JOHN RHODERIC MCPHERSON.

Senator McPherson was born at York, Livingston county, New York, on the 9th of May, 1833. He received a common school and academic education. Leaving the academy when eighteen years old, he engaged in farming and stock raising, in which, by dint of hard work, he was moderately successful, until he became a resident of Jersey City in 1858. Here he entered largely into the live stock trade, and very soon became one of the most prominent dealers. He invented, perfected and put into practice new and hitherto unknown devices and principles in the treatment of animal matter. He designed and put in operation in this country the great abattoir system in use in France, improving that system in many material ways. Senator McPherson was a member of the Board of Aldermen of Jersey City from 1864 to 1870, and for more than three years of that time he was President of the Board. He established in that city the People's Gas Light Company, and was elected its president. He was also president of several savings banks. In 1871 he was elected to the New Jersey Senate by an unusually large majority, and served for three years with great credit to his city and State. He inaugurated many reforms in local and State government, and received the thanks of the press and the people—irrespective of party—for so doing. In 1876 he was a Presidential elector, when the State went for Tilden by a very large majority. In 1877 he was elected a United States Senator, to succeed Hon. F. T. Frelinghuysen. Removing to Jersey City when he was twenty-five years old, with nothing to assist him but his own resolution and clear understanding, he soon attracted public attention to his very progressive character. He accumulated wealth rapidly in the live stock trade; and while it was not an uncommon occurrence for him to lose fifty or sixty thousand dollars in one sweep, he did not allow the loss to interfere with his plans, which he always carried out successfully. He planned his business as a general plans a battle, and,

HON. JOHN R. McPHERSON.

after making all proper allowances for contingent disasters, he steadily advanced to the accomplishment of the main object.

While a member of the State Senate, Mr. McPherson was noted for his readiness in debate, and his cogency and terseness of style. His memory is wonderful, and he recollects nearly everything he reads. He can recite from memory page after page of the best known classic authors, either in statecraft, history, philosophy or poetry. He is in every sense progressive and always wide-awake to the live issues of the day. His record in the United States Senate on the leading questions of finance and the tariff is in perfect accord with the great majority of the people of his State—Republicans as well as Democrats.

His great abattoir project is now a national institution in its extent and importance, and one of the great industries of the country properly systematized. He planned the project from a poor French system, and he improved on his plan till he reached perfection, so far as that could be reached. His present term expires on March 4th of the present year.

WILLIAM J. SEWELL.

Senator Sewell was born in Ireland in 1835. He came to this country at an early age. At the outbreak of the late war he was mustered into the United States service as Captain in the Fifth New Jersey Regiment, August 28th, 1861, and participated in all the engagements in which his regiment took part, down to the battle of Spottsylvania, in May, 1864. In the battle of Chancellorsville, General Mott was disabled by a severe wound, and Sewell assumed charge of the brigade. At a critical point in the engagement he led it forward in a resistless charge and achieved one of the most magnificent successes of the war. He captured eight colors from the Confederates, and retook the regimental standard of a New York regiment. His services were scarcely less brilliant at Gettysburg and other important points. He was wounded twice, at Gettysburg and Chancellorsville. He was made Lieutenant Colonel of the Fifth Regiment, July, 1862, and Colonel three months later. In September, 1864, after recovering from illness, he became Col-

onel of the Thirty-eighth Regiment, and remained with it in the field until the close of the war.

He was made Brevet Brigadier General of Volunteers, April 9th, 1866, "for gallant and meritorious conduct in the battle of Chancellorsville," and Major General at the close of the war for meritorious services. When Joel Parker became Governor, General Sewell was appointed a member of his personal staff. During the railroad strikes of 1877, he was sent by Governor Bedle to the most critical point in New Jersey (Phillipsburg), with the Sixth Regiment, and was appointed Provisional Commander of the forces at that point. He guarded his post so well that not a ripple of trouble occurred.

He was elected to the State Senate from Camden county for three successive terms of three years each, and in the years 1876, '79 and '80, he was President of that body. His career as a legislator was one of brilliant usefulness, and his record is remarkable for strict integrity, honorable bearing and dignified deportment. When he was elected to the United States Senate by the Legislature of 1881, and on severing the ties of friendship which bound him to those on both sides of the Chamber, an impressive scene occurred which never will be forgotten. Democrats as well as Republicans vied with each other in complimenting him on the high honor which had been conferred on him, and expressing regret that the State was about to lose so valuable a member of its law-making body. Appropriate resolutions were unanimously passed, and Senator Sewell took his leave a few days before the meeting of the United States Senate on the 4th of March, 1881. He was elected in joint meeting over his predecessor, Hon. Theodore F. Randolph, by a strict party vote.

NEW JERSEY'S CONGRESSMEN.

First District—Cape May, Cumberland, Salem, Gloucester and Camden Counties.

George Maxwell Robeson, Rep., represents this District in the 47th Congress, and his term expires on

HON. WILLIAM J. SEWELL.

March 3d of the present year. For his sketch see the LEGISLATIVE MANUAL of 1882. Mr. Robeson will be succeeded by

THOMAS M. FERRELL.

(Dem., Glassboro, Gloucester County.)

Mr. Ferrell was born at Glassboro, where he now resides, June 20th, 1844. His parents were in poor circumstances, and at a tender age he found himself one of the waiter boys of a glass factory, whose business it was to assist the workmen and do errands about the furnace fires. As he grew to manhood he became a skillful workman, and educated himself in the teeth of adversity.

He was a member of a Township Committee for two years (1872 and 1873), and a Trustee of the Public Schools five years (from 1874 to 1879). He is a prominent member of the I. O. O. F. of New Jersey. He was active in organizing the Glassblowers' Association, which in time, mainly through his own efforts, secured the enactment of a law abolishing the use of "shin-plasters" for payment of the men. Within three years he has been elected to the House of Assembly, State Senate, and United States Congress, each time in unusually strong Republican districts. It was in 1879 and 1880 that he was elected to the Assembly from the then Second District of Gloucester county—the last time over one of the strongest Republicans in the county, Mr. Horner, by a majority of 11. In 1881 he was elected State Senator, by a majority of 486, over Hon. Caleb C. Pancoast, a former member of the Assembly. The county gave a majority of 687 for Garfield as President of the United States. During his legislative career, Mr. Ferrell always proved himself to be an honest, industrious member, and the jealous care with which he watched all legislation appertaining to the working classes, added greatly to his popularity. As a political organizer, he takes high rank, and he holds a prominent place in the counsels of his party. His executive ability is of the first order. His success over ex-Secretary Robeson is considered the greatest political event in the history of West Jersey, because the district is largely Republican, and he carried every one of the five counties in it. He

will resign his office as State Senator from Gloucester county in time to take his seat in Congress on March 4th of the present year.

1880—Robeson, Rep., 19,807; Carter, Dem., 16,350; Hollis, Gr'nb'k, 724; Woolman, Pro., 76.

1882—Ferrell, Dem., 16,541; Robeson, Rep., 14,825; Bristol, Gr'nb'k, 684; Woolman, Pro., 943.

Second District—Atlantic, Burlington, Mercer and Ocean Counties.

JOHN HART BREWER.

(Rep., Trenton.)

Mr. Brewer was born in Hunterdon county, N. J., March 29th, 1844, and is a lineal descendant on his mother's side of John Hart, the signer of the Declaration of Independence. He was given a liberal English education, and at an early age began business on his own account at Delhi, N. Y. Two years later he bought an interest in the Etruria Pottery Works, of Trenton, and subsequently, on the retirement of a member of the firm, became equal partner with Mr. Joseph Ott, the firm now being Ott & Brewer. He suggested and successfully organized the "United States Potters' Association," an organization that has for years past done much to unify and strengthen and advance the interests of the pottery trade of this country. He was Secretary of the Trenton Potters' Association from its formation until a year or two ago; became Secretary of the National Association when it was organized, and four years ago was elected President of the latter body. In 1875 he was elected to the House of Assembly from the Second District of Mercer county (Trenton) by a majority of 245 over Mr. Youmans, the Democratic nominee, although the district usually went against Republicans. He was a useful and an active member of the State Legislature. He is one of the most enterprising and progressive of the Trenton potters, and the wonderful growth of the interest in that city is in a large measure due to the zeal and ability with which he has pushed its development.

Thoroughly versed in the tariff question, he has during his brief career in Congress proved himself one of its ablest exponents. New Jersey never had a more industrious, wide-awake representative in the Congress of the United States than Mr. Brewer, and while he is always faithful and true to his political friends, still, at the same time, he is magnanimous and obliging to his political foes. He is a member of the 47th Congress and has been elected to the 48th. He is the only member of the former delegation from this State that has been re-elected.

1880—Brewer, Rep., 18,580; Smith, Dem., 16,536; Dobbins, Gr'nb'k, 342.

1882—Brewer, Rep., 15,604; Parker, Dem., 14,535; Howland, Gr'nb'k, 270.

Third District—Middlesex, Monmouth and Union Counties.

Miles Ross, Dem., represents this District in the 47th Congress, and his term expires on March 3d of the present year. For his sketch see the LEGISLATIVE MANUAL of 1882. Mr. Ross will be succeeded by

JOHN KEAN, JR.

(Rep., Elizabeth, Union County.)

Mr. Kean was born at Ursino, Union county, N. J., December 4th, 1852, consequently he has just passed his thirtieth year. He studied law and was admitted to the bar of New Jersey in November, 1877, but afterwards he became engaged in banking, mining and manufacturing pursuits. He is a graduate of Columbia College Law School. He is now President of the Elizabeth Gas Company, Vice President of the National State Bank of Elizabeth, and Secretary of the West End Iron Company. He is a Director in each of the foregoing institutions as well as of the Elizabeth Water Company, the Elizabethport Manufacturing Company and several mining industries. He never held a political office before his election to Congress, except while acting as Secretary and subsequently as President of the Union

County Republican Committee. The District which he represents in Congress gave Hancock, for President of the United States, a clear majority of 3,177. Mr. Kean's majority over Mr. Ross was 2,295, but Mr. Urner, Gr'n'b'k, received 3,463 votes.

1880—Ross, Dem., 19,725; Robbins, Rep., 16,953; Hope, Gr'n'b'k, 334.

1882—Kean, Jr., Rep., 15,186; Ross, Dem., 12,891; Urner, Gr'n'b'k, 3,463.

Fourth District—Hunterdon, Warren, Somerset and Sussex Counties.

Henry S. Harris, Dem., represents this District in the 47th Congress, and his term expires on March 3d of the present year. For his sketch see the LEGISLATIVE MANUAL of 1882. Mr. Harris will be succeeded by

BENJAMIN F. HOWEY.

(Rep., Columbia, Warren County.)

Mr. Howey was born near Swedesboro, Gloucester county, N. J., March 17th, 1828. He is a manufacturer of roofing and school-slates. The family of Howey in this country are descendants of Quakers, bearing the name of Howe, of Suffolk county, England. John and Robert came to America during the old colonial times, and one brother, unmarried, remained in England and inherited the parental estate. John settled in Philadelphia. Robert, progenitor of the family in New Jersey, purchased some three thousand acres of land in the county of Gloucester, State of New Jersey, a part of which tract, "Pleasant Meadows," became the homestead of the Howey family for five generations, and was finely situated and well cultivated. Isaac, son of Robert Howey, born in 1766, succeeded to this homestead, and upon his death Benjamin M., father of our subject, came into possession of the property.

Benjamin M. Howey was born January 18th, 1792, and married, in 1816, Isabella, daughter of Dr. James Stratton, a prominent physician of Swedesboro, who died in 1812, and sister of Charles C. Stratton, who was

the first Governor of New Jersey elected by the people under the new Constitution. Benjamin M. died July 4th, 1840, on the old homestead at "Pleasant Meadows," where he resided during his life. He was a representative agriculturist.

Benjamin F. Howey, the present Congressman-elect, served in the late war as Captain of a company of New Jersey Volunteers. His early education was received at the common school of his native place and at the academies at Swedesboro and Bridgeton. At the age of nineteen he went to Philadelphia, where for eight years he was engaged in general business as a grain and flour commission merchant. In 1855 he removed and settled in the township of Knowlton, Warren county, N. J., and, in partnership with Robert K. Kille, of Philadelphia, engaged in the slate business, quarrying and manufacturing slate-roofing and school-slates. In 1861 a company known as the "Delaware Water Gap Slate Company" was organized, in which Mr. Howey has since had an interest, and which has been successful in its operations. Following in the political line of his father, he is a member of the Republican party, having formerly been a Whig.

In the fall of 1878, Mr. Howey was elected sheriff of Warren county, and it is a fact worthy of note in this sketch that he is the first incumbent of that office from the Republican ranks since that party was formed, in 1856—the county of Warren being largely Democratic, and more especially his own township, in which, however, he received a handsome majority. He made himself a very acceptable sheriff by giving satisfaction to both political parties during his term of office. The district he has been called upon to represent in Congress has heretofore been considered a Democratic stronghold. It gave Hancock, for President, a majority of 4,780. Mr. Howey's victory over Mr. Harris, is, like Mr. Ferrell's over Mr. Robeson in the First District, considered a phenomenal political event.

1880—Harris, Dem., 17,043; Kilpatrick, Rep., 12,870; Larrison, Gr'n'b'k, 457.

1882—Howey, Rep., 11,567; Harris, Dem., 10,945; Larrison, Gr'n'b'k, 878.

Fifth District—Bergen, Morris and Passaic Counties.

John Hill, Rep., represents this District in the 47th Congress, and his term expires on March 3d of the present year. For his sketch, see the LEGISLATIVE MANUAL of 1882. Mr. Hill will be succeeded by

WILLIAM WALTER PHELPS.

(Rep., Englewood, Bergen County.)

Mr. Phelps was born in New York City, August 24th, 1839, and was graduated with high honors at Yale College in 1860. After his graduation he pursued his studies in Europe and later at the Columbia College Law School. He then entered upon the practice of law, but his career as a lawyer was brief, as he retired from active service in the profession in 1868. Governor Fenton offered him a seat made vacant by the resignation of Judge Barrett, in the Court of the Sixth Judicial District, but this he declined. He was elected to Congress in 1872 from New Jersey, his opponent being A. B. Woodruff. He served in Congress two years, and, it is said, made a mark exceeded by no man in so short a time. While he was a Republican in principle, he was independent in judgment and action. He voted against the Civil Rights bill, saying that it was unconstitutional, and that its policy was a bad one for the colored race. In 1875 Mr. Phelps ran for Congress again, but was defeated by Mr. Augustus W. Cutler by only seven votes. His health and the demands of business induced him to retire to private life, although the Republicans of New Jersey desired often to avail themselves of his services. Mr. Phelps is a Director of the Delaware, Lackawanna and Western Railroad, the Morris and Essex Railroad, the International and Great Northern Railroad of Texas, the National City Bank of New York City, the Second National Bank, and the United States Trust Company. His home is near Englewood, N. J., on an estate of one thousand acres. He was one of the delegates to the Chicago Convention (1880), and labored earnestly for Mr. Blaine's nomination. He accepted Garfield, however, and took the stump for him, until, in the middle of the campaign, his health, never very strong, gave way,

and his physicians ordered him peremptorily to quit work and go abroad, which he did, sailing for Europe in October, 1880, accompanied by his wife and daughter.

Shortly after President Garfield was sworn into office, he appointed Mr. Phelps as Minister to Austria. When the President died, Mr. Phelps sent in his resignation, which was accepted by President Arthur.

1880—Hill, Rep., 16,766; Cutler, Dem., 15,165; Potter, Gr'n'b'k, 339.

1882—Phelps, Rep., 14,341; Ryle, Dem., 12,703; Potter, Gr'n'b'k, 387; McCormick, Pro., 1,028.

Sixth District—Essex County.

Phineas Jones, Rep., represents this District in the 47th Congress, and his term expires on March 3d of the present year. For his sketch see the LEGISLATIVE MANUAL of 1882. Mr. Jones will be succeeded by

WILLIAM H. F. FIEDLER.

(Dem., Newark.)

Mr. Fiedler was born in New York City, August 25th, 1847, and he is engaged in the hat and cap business in the city of Newark. At the age of fifteen he was apprenticed to the hat-finishing trade, and on reaching his majority he became a clerk in a hat store. He filled that position for four years, when he commenced business for himself, which he has continued successfully to the present time. In October, 1876, he was elected as an Alderman of the city of Newark from the old sixth ward, a Republican stronghold, by a majority of 322. The ward then was considered to have a Republican majority of least 500. In the following year he was elected to the House of Assembly from the then Fifth District of Essex county—comprising the second and sixth wards of the city of Newark—by a majority of 334 over Smith, Rep. Again in October, 1878, he was elected Alderman from the old sixth ward by a handsome majority. In November following, he was re-elected to the House of Assembly from the then Third District of Essex—comprising parts of the sixth and

thirteenth wards of Newark—by a majority of 108 over Holzworth, Rep., after one of the hardest fought contests that ever took place in the county. In October, 1879, while serving his third year in the Board of Aldermen, he was elected Mayor of the city of Newark by the unprecedented majority of nearly 3,500 votes over one of the best citizens of Newark—Theodore Macknet, Esq.

During his two years' term as Mayor of the city of Newark, he introduced a great many measures of reform in the municipal departments, and made his power for good particularly felt in the Water Board. He was instrumental in having the sessions of the various departments held with open doors, and just before his term of office expired he was the means of unearthing stupendous frauds and embezzlements in the Auditor's office of the city, and loose and culpable management in other departments.

In October, 1881, he was renominated for the Mayoralty by acclamation, but owing to over-confidence on the part of his friends he was defeated by a very popular Republican—Mayor Lang—by the small majority of 226. The city is considered Republican by at least 1,500 majority.

On January 3d, 1882, he was elected as a member of Assembly (for the third time) in the Eighth District of Essex county, to fill a vacancy caused by the death of Charles G. Bruemmer, by a majority of 588 over John Baier, the Republican candidate. In the previous fall election Mr. Bruemmer, Republican, carried the District by 378 majority. Mr. Fiedler's political career has been a success from the beginning, and his great popularity is attested by the fact that he has always carried Republican strongholds. Essex county, which comprises his District, gave Garfield a majority of 2,912.

While serving in the Legislature he took an active part in watching all measures of vital interest to the State. He introduced, and had passed, a bill prohibiting the manufacture of hats in the State Prison, and came near being successful with a similar bill respecting boots and shoes, which was defeated in the Senate by only one vote.

1880—Jones, Rep., 20,424; Balbach, Dem., 17,888; Douai, Gr'n'b'k, 584.

1882—Fiedler, Dem., 17,200; Blake, Rep., 14,780; Hook, Labor, 368.

Seventh District—Hudson County.

A. A. Hardenbergh, Dem., represents this District in the 47th Congress, and his term expires March 3d of the present year. For his sketch see the LEGISLATIVE MANUAL of 1882. Mr. Hardenbergh will be succeeded by

WILLIAM McADOO.

(Dem., Jersey City.)

Mr. McAdoo was born in Ireland, October 25th, 1853, and is a counselor-at-law of this State.

He was brought to this country at an early age by his parents, who settled in Jersey City, where he has since resided. He received a good English education, which has been supplemented with close reading and study. He has been connected with the public press of Jersey City, and in 1870 he entered the law office of the late Hon. Isaac W. Scudder and commenced the study of that profession. At the November term of the Supreme Court, in 1874, he received his license as attorney-at-law, and the degree of counselor-at-law was conferred on him at the February term, 1879. He has been for four years Counsel to the Board of Health and Vital Statistics of Hudson county. He has always been a zealous and an active member of the Democratic party, and he enjoys a high reputation as a speaker at the bar and on the platform. He took a very active part in the Democratic Gubernatorial Convention of 1880, and rendered great service to his party during the Presidential campaign of the same year.

In 1881 he was elected to the House of Assembly in the Eighth District of Hudson county, by a majority of 710 over Tunison, Republican. In that branch of the Legislature he took high rank both as an orator and a debater. He opposed strongly Senate bill 167, which related to the river front of Hudson county, and which was backed by the railroad corporations of the State. In fact, it was mainly through his tenacious opposition that the measure was prevented from being passed over the Governor's veto during the closing hours of the Legislature. This record made him a great favorite with the Anti-Monopolists of his District.

1880—Hardenbergh, Dem., 19,462; Brigham, Rep., 14,714; Becker, Gr'n'b'k, 161.

1882—McAdoo, Dem., 15,147; Collins, Rep., 11,566.

49. An amendment of the House of Assembly to a Senate bill shall not be divisible.

51. When a Senate bill shall be returned, amended by the House of Assembly, the sections of the bill so amended, together with the amendments, shall be read by the Secretary for a first reading, and be entitled to a second reading, without special motion, at which reading the proposed amendments shall be open to the action of the Senate. (Rule 50.) And if, at its third reading, upon the question being put by the President, "Will the Senate concur in the House amendment to Senate bill No. —?" a majority of the whole Senate should, by a vote of ayes and nays, to concur, the question shall then be upon ordering the bill to be re-engrossed. If so ordered, the bill shall be re-engrossed, the amendments embodied therein, and the re-engrossed bill examined and reported by the Committee on Engrossed Bills, and read in open Senate, to the end that it may be known to be correctly engrossed, and shall be then signed and certified as other bills.

Secret Session.

57. On a motion made and seconded to shut the doors of the Senate on the discussion of any business which may, in the opinion of a Senator, require secrecy, the President shall direct the Chamber to be cleared, and during the discussion of such motion the doors shall remain shut.

Rules.

58. No standing rule or order of the Senate shall be suspended unless by the consent of two-thirds of the Senators elected, nor rescinded or amended but by the same number, and one day's notice shall be given of the motion for rescission or amendment.

Executive Session.

59. When nominations shall be made by the Governor to the Senate, they shall, unless otherwise ordered by the Senate, be referred to appropriate Committees; and the final question on every nomination shall be, "Will the Senate advise and consent to this nomination?" which question shall not be put on the same day on which the nomination is received, nor on the day on which it may be reported by a committee, unless by the unanimous consent of the Senate.

60. When acting on Executive business, the Senate shall be cleared of all persons except the Senators and Secretary.

HEZEKIAH B. SMITH.

(Dem., Smithville.)

Senator Smith was born at Bridgewater, Vermont, in the year 1816. He learned the trade of a worker in wood, and at the age of nineteen he went into business for himself at Woodstock. Three years later, he took a partner, who, he avers, involved him in bankruptcy. When he was thirty years of age he had paid off all the debts of the firm and then he left Woodstock. He went to Woodburn, near Boston, which was the center of the eastern blind-making trade, with a machine of his own invention that would cut and clean forty mortises a minute. In that town at that time there were five principal blind manufacturers, all of whom were obliged to give up the business within a year. The dealers of blinds in Boston gave him a certificate that his invention had saved over \$30,000 annually to buyers, and the Massachusetts Charitable Mechanics' Association gave him a large gold medal which is yet in his possession. Since then he has taken out over twenty patents.

About sixteen years ago Mr. Smith went to a little manufacturing village, two miles from Mount Holly, and liking it he bought it. That is to say, he bought the manufactory and the houses standing there, which he converted into residences for his apprentices. It was then called Shreveville. He expended, it is stated, \$300,000 in improvements. He has a natural liking for iron, and 1,200 tons of it have been used in the building of houses and in otherwise improving and ornamenting the real estate. He built a fine hall for the use of the operatives, and has employed and paid a bandmaster for a number of years to teach the mechanics instrumental music. He altered the name of the village to Smithville, after himself. A weekly journal called the *Smithville Mechanic*, devoted to mechanics, science and literature, he has published there for a long time. Altogether Mr. Smith estimates that he has invested over half a million of dollars in Smithville. He gives steady employment to over one hundred men the year round, and his manufactory is one of the most thriving industries in that section of the State.

In 1876 Mr. Smith ran for Congress in the Second District, against J. Howard Pugh, Rep., when the vote stood—Pugh, 16,015; Smith, 15,485; thus giving Pugh a majority of 530. In 1878 Mr. Smith faced the same foe again for Congressional honors, and this time he turned the tables on Mr. Pugh, the vote standing—Smith, 14,610; Pugh, 13,699; Smith's majority, 911. In 1880, J. Hart Brewer beat Mr. Smith for Congress, by a vote of 18,580 to 16,536, thus giving Brewer a majority of 2,044. In 1882, after a very lively contest, Mr. Smith defeated Charles Ewan Merritt for State Senator by a majority of 988.

1879—Deacon, Rep., 5,967; Ridgway, Dem., 4,888; Axtell, Gr'nb'k, 237.

ALBERT MERRITT.

(Rep., Camden.)

Senator Merritt was born at South Scituate, Plymouth county, Mass., January 1st, 1845, and removed to Cam-

den in 1868, where he has since resided. He was educated at Quincy, Mass., graduated from the high school at that place and passed an examination for Harvard College; but receiving an appointment as Assistant Paymaster in the Mississippi squadron, he abandoned the idea of entering college and gave his services to his country until the close of the war, when he was offered and accepted the position of Professor of Mathematics at Eastman's College, Poughkeepsie, N. Y. He remained there one year, and then went to Boston, accepting the position of book-keeper and correspondent for Furber, Conant & Co., extensive fruit and produce dealers. On the first of January, 1868, he went to Philadelphia, and formed a copartnership with Davis & Warner, fruit and produce dealers, under the name of Davis, Warner & Co., the firm being afterwards Davis, Warner & Merritt, and upon the retirement of Mr. Davis, in 1878, the firm became Warner & Merritt. Principally through his energy and push the business of the firm has been extended and enlarged so as to be known over the entire world. They own and run a line of steamships to the West Indies and Central American ports, and a fleet of sailing vessels to Central and South America, being heavy exporters of flour, provisions and manufactured goods, and importers of fruits, nuts, &c. Their immense store and warehouse, which was totally destroyed by fire in August, 1881, was the largest and most complete establishment of the kind in the world, and has been rebuilt in even a more complete and extensive manner. Mr. Merritt is a thorough man of business, systematic and correct in whatever he does, and as a Senator has brought the same methods to bear where the interests of the State are concerned. While making no pretensions to oratory, he is capable of thinking correctly and presenting his views or conclusions on a matter in direct and forcible language.

Last year he was Chairman of the Committee on Finance, and a member of the Committee on Miscellaneous Business. He was also a member of the Joint Committees on State Library and Sinking Fund.

Cape May County.

WATERS B. MILLER.

(Dem., Cape May City.)

Senator Miller was born in Gloucester county, in the year 1824. His father removed to Cape May in 1835. Since attaining his majority he has been actively engaged in almost every public improvement that affected his adopted county; was a member of the Assembly in the 77th Legislature, member of the Board of Chosen Freeholders for ten years, Mayor of Cape May City four years, and for a number of years he was proprietor of Congress Hall hotel, Cape May, so celebrated throughout the country. It was largely due to his exertions that the present Cape May railroad was built, as when the enterprise seemed about to fail for want of means, he came forward and mortgaged his property to a heavy amount in order to raise the funds necessary to its completion. With a single exception (Rice, 1867), he is the only Democrat ever elected to the State Senate from Cape May county. In 1855 he was defeated by Mr. Diverty, Know-Nothing, and again in 1873 by Richard S. Leaming. He was elected in 1879 over Mr. Leaming, one of the wealthiest and most popular citizens of Cape May, by a majority of 136. Last fall he was re-elected after a stubborn contest by a majority of 74 over Furman L. Richardson, formerly Assemblyman from that county.

Last year Senator Miller was a member of the Committees on Finance and Agriculture and Agricultural College, and of the Joint Committees on Commerce and Navigation and Reform School for Boys.

youngest members of the Senate. He was educated at the Bank Street Public School, Bridgeton, and apprenticed himself to Mr. George F. Nixon, of the *Bridgeton Chronicle*, under whom he learned the trade of a printer. In October, 1874, he entered into a partnership and purchased the *West Jersey Pioneer*, Bridgeton, N. J., which paper he now edits. The *Pioneer* is the leading Republican newspaper in Cumberland county. Mr. Nichols was chosen to represent the First Assembly District of Cumberland county, in the year 1876, by a majority of 246 over I. W. Richman, Dem. At the election of 1877 he was again returned to the Assembly by a majority of 160 over Jacob Kienzle, Dem.

During the Legislatures of 1877 and '78 Mr. Nichols served as a member of the Committee on Education, Revision of the Laws, Banks and Insurance, State Library, and of the special committee appointed to examine the accounts and transactions of certain State officials, against whom charges had been brought. During his term in the House of Assembly he was one of the leaders of his party, and both in debate and by his general tact and intelligence won for himself an enviable reputation. He was elected Senator in 1880 over Whittaker, Dem., and Tyler, Gr'n'b'k, by a plurality of 576 votes. His term expires in 1884.

Last year he was Chairman of the Committee on Militia and a member of the Committee on Education. He was, also, Chairman of the Joint Committees on Printing and Public Grounds and Buildings, on all of which he rendered valuable services to the State.

JOHN TAYLOR.

(Rep., Trenton.)

Senator Taylor was born at Hamilton Square, Mercer county, October 6th, 1836, and is engaged extensively in the pork packing and cattle trade in the city of Trenton. His father carried on the business of brick-making, and in 1837 moved to Pennington, four years later to Princeton, and again, in 1846, he removed to Trenton, where he prosecuted his business until his demise, in 1849. The family, by the loss of its head, having been left without means of support, the subject of this sketch at once procured work with a brick-making firm in Trenton and continued in that employment until 1852, when he obtained a situation as clerk in A. R. Rainear's grocery, where, after three years' service, and then being only 18 years of age, he was admitted as a partner, under the firm name of Rainear, Son & Co. A year later, young Taylor withdrew from this firm and associated himself with his old co-clerk in the same store, Mr. James Ronan, under the firm name of Ronan & Taylor, without capital, for the inauguration and prosecution of the wholesale grocery business in the city. This was but an experiment,

which, however, soon proved a success, and has now grown to a trade of over \$5,000,000 a year. In 1860, Mr. Ronan having relinquished his interest and entered into another branch of the jobbing grocery business, Mr. Taylor associated himself with Mr. D. P. Forst, under the firm name of Forst & Taylor, which partnership continued until 1870, with marked success, when Mr. Taylor retired and at once engaged in the pork packing and cattle trade. This business he now conducts on a very large scale, giving employment to a large number of hands. Mr. Taylor's education was limited to what might have been gleaned from a quarter's schooling each winter, until he was 14 years old. During his successful business career the Senator has always manifested a creditable public spirit, and to him the city of Trenton owes a great deal for the rapid progress it has made of late years. He is the projector and principal owner of Taylor Opera House and was the originator of the private market system. He was a member of the Trenton Common Council for 12 years, where he took an active part in shaping the wise financial policy which has been adopted by the city. He is a Director of the First National Bank of Trenton and of the Standard Fire Insurance Company.

Mr. Taylor is undoubtedly a self-made man, and there is no other man in the community who enjoys a higher reputation for uprightness, progressiveness and true manhood than he. His election to the State Senate over one of the most popular of Democrats, by a majority of 755 in a close county, truly attests this fact.

Last year he served as Chairman of the Committees on Municipal Corporations and Claims and Pensions, and as a member of the Committee on Fisheries; and, also, as Chairman of the Joint Committees on State Prison and Industrial School for Girls, and member of the Committee on Printing.

1877—Marsh, Dem., 5,878; Bruere, Rep., 5,756; Howell, Pro., 137.

1880—Taylor, Rep., 7,338; Moore, Dem., 6,583; scattering, 3.

Middlesex County.

ABRAHAM V. SCHENCK.

(Rep., New Brunswick.)

Senator Schenck was born in the city of New Brunswick, October 12th, 1821, his ancestors having settled in that place before the Revolutionary war. He is the son of Henry Harris Schenck, who was long a resident of New Brunswick, one of its active business men, a liberal supporter of the First Reformed Church of that city, and one of its Elders at the time of his death in 1851. Of him it was truthfully said at his decease: "His life was without reproach and he died without an enemy."

Abraham V. Schenck was educated at New Brunswick, studied law with Hon. Henry V. Speer, was admitted to the bar November term, 1843, and received his counselor's license November term, 1847. He was elected Mayor of New Brunswick in 1851. He has always, since his admission, practiced his profession in his native city, where he soon became a leading member of the Middlesex bar, and has been for years engaged in most of the important causes in that county and in many cases of public interest in the State and Federal courts. He has been, at different times, Counsel for the city of New Brunswick, private counsel for numerous corporations, counsel for the Commissioners of Streets and Sewers of the city of New Brunswick, and counsel for the Board of Chosen Freeholders of the county of Middlesex, both of which last named positions he now holds.

On the decease of Charles M. Herbert, Prosecutor of the Pleas for Middlesex county, in 1871, Mr. Schenck was requested by Hon. Edward W. Scudder, Justice of the Supreme Court, to discharge the duties of that office until a successor should be appointed; and at the following session of the Legislature, in 1872, Gov. Joel Parker nominated Mr. Schenck to that office, and the nomination was unanimously confirmed by the Senate without a reference.

It was said in regard to Mr. Schenck's remarkable success as Prosecutor of the Pleas, that during his whole term of office he had the good fortune never to

have had an indictment quashed, nor even a motion made for that purpose, and that not a single conviction that he obtained was carried by writ of error to a higher court for review.

The nomination for State Senator was tendered to Mr. Schenck by the Republican party of Middlesex county in October, 1882. It was entirely unsought and unsolicited by him. He gave but little personal attention to the canvass, devoting his entire time to the duties of his profession, and consequently he was elected by the small majority of 40 over the Democratic candidate, James Neilson, who made most strenuous efforts for election.

The smallness of this majority induced Mr. Neilson to apply to Judge Scudder, of the Supreme Court, for a "recount" under the statute of March 11th, 1880, which was ordered. The recount commenced November 27th and ended November 30th, 1882. The result gave Mr. Schenck precisely the same number of votes as the original count, 5,390, while it increased Mr. Neilson's from 5,350 to 5,355; and, consequently, reduced Mr. Schenck's majority from 40 to 35.

The "recount" showed slight errors on both sides, but they were nearly equalized in the aggregate result.

1879—Martin, Rep., 5,368; Robbins, Dem., 4,400.

1882—Schenck, Rep., 5,390; Neilson, Dem., 5,355.

He has been President of the Second National Bank of Red Bank since 1875.

Havens, a Baptist clergyman of Ocean county, who was elected Assemblyman in 1853, and died in October, 1854; is a brother of Hon. John G. W. Havens, State Senator from Ocean county from 1872 to 1875, and now Superintendent of the Life Saving Service, 4th District of the United States. Left fatherless in his fourteenth year, he assumed control of the farm, and superintended its operations for his widowed mother, until 1860, when he joined his brother in the general merchandising business, in which he continued nine years. Ever an earnest advocate of free public schools, in the organization of a Township Board of Trustees, in compliance with "An act to establish a system of Public Instruction," he was chosen Secretary, and Chairman of the Committee to adopt a Uniform Series of Text-books. In 1869 he was chiefly instrumental in erecting and furnishing a neat and commodious school building in his native village, and since that date he has been engaged in teaching. As a partial result of his labor, fifteen pupils have received teachers' certificates, many of whom have been employed in the schools of Ocean and the adjacent counties for several years. He is a school teacher and land conveyancer by occupation, and has held the following official positions: School Trustee from April, 1864, to September, 1873, when he resigned to become Principal of the School. Again chosen, September, 1876, and still occupies the position; Clerk of Brick township from March, 1866, to March, 1872; Collector of Brick township from March, 1875, to March, 1879; Calendar Clerk of the New Jersey Senate during sessions of 1875 and 1876; now senior member of the Ocean County Board of School Examiners, having been appointed May, 1872; Master in Chancery, appointed by the late Hon. A. O. Zabriskie, April, 1872; Notary Public, appointed by Hon. Joseph D. Bedle, April, 1875.

JOHN W. GRIGGS.

(Rep., Paterson.)

Senator Griggs was born at Newton, Sussex county, July 10th, 1849, and having been prepared for college entered Lafayette College, at Easton, whence he was graduated in the class of 1868. He immediately entered the law office of the Hon. Robert Hamilton, and after pursuing his studies there for some time removed to Paterson, entering the office of the Hon. Socrates Tuttle, of that city. He was licensed as an attorney at the November term of the Supreme Court, in 1871, and three years later received his license as counselor. Soon after his admission to the bar he was taken into partnership by Mr. Tuttle, the firm being Tuttle & Griggs. Three or four years ago Mr. Griggs opened an office for himself, and enjoys a large and increasingly lucrative practice. In 1875 he was elected to the Assembly from the old First District of Passaic county, then comprising the Fourth, Fifth and Eighth wards of Paterson, Acquackanonk township and the city of Passaic. The Constitutional Amendments had just been adopted, and the Legislature of 1876 addressed itself to the work of revising many of the laws and of conforming the legislation of the State to the amended Constitution. In this work Mr. Griggs took an active part, and many of the most important general laws were committed to him for revision and completion in their details. The Election Law of 1876 was among

these measures. He was re-elected in 1876, and continued this same kind of work, his peculiar fitness therefor being readily conceded by his fellow-members. Very much against his will, and in fact against his positive declarations that he would not be a candidate, he was nominated for a third term by the Republicans of his district, who felt that success was only possible with him as their leader. But, although he made an exceptionally good run, the popular tide was strongly against his party, and he was defeated. In 1878 he was appointed counsel of the Board of Chosen Freeholders, which office he held until in 1879 he was appointed City Counsel of Paterson, when he declined a re-election to the position given him by the County Board. He was re-appointed City Counsel of Paterson in 1880, '81 and '82, his term being from May to May.

HOUSE OF ASSEMBLY.

RULES ADOPTED 1878.

Of the Meeting of the House.

1. Any member or members less than a quorum may meet and adjourn the House from day to day, when necessary.

2. Every member shall attend in his place precisely at the hour to which the House was last adjourned; and in case of neglect, he shall be subject to a reprimand from the Chair, unless excused by the House; nor shall any member absent himself from the House for more than the space of a quarter of an hour without leave previously obtained.

3. In case a less number of members than a quorum shall be present after the arrival of the hour to which the House stood adjourned, they are hereby authorized to send their Sergeant-at-Arms, or any other person or persons by them authorized, with a warrant duly executed, for any and all absent members, as the majority of such as are present may agree, and at the expense of such absent members, respectively, unless such excuse for non-attendance shall be rendered as the House, when a quorum is convened, shall judge sufficient. Immediately after the appointment of the Standing Committees, the members shall arrange among themselves their several seats appropriated to their counties; and in case of disagreement, the same shall be decided by lot.

Of the Duties of the Speaker.

4. He shall take the chair at the hour to which the House shall have adjourned, and immediately call the members to order; and on the appearance of a quorum, shall cause the journal of the preceding day to be read, which may then be corrected by the House.

5. He shall preserve order and decorum, and in debate shall prevent personal reflections, and confine members to the question under discussion; but he shall not engage in any debate, nor propose his opinion on any question, without first calling on some member to occupy the chair. When two or more members rise at the same time, he shall name the one entitled to the floor.

6. He shall decide questions of order, subject to an appeal to the House, when demanded by any four members, on which appeal no member shall speak more than once, unless by leave of the House.

7. All questions before the House shall be stated by the Speaker, and distinctly put in the following form, to wit: "As many as are in favor of (the question) will say aye;" and after the affirmative is expressed, "Those of a contrary opinion, no." If the Speaker doubts, or a division be called for, the House shall divide; those in the affirmative of the question shall first rise from their seats, and afterwards those in the negative; and in case of an equal division, the Speaker shall decide.

8. All Committees shall be appointed by the Speaker, unless otherwise specially directed by the House.

9. All acts, addresses and joint resolutions shall be signed by the Speaker; and all writs, warrants and subpoenas issued by the order of the House shall be under his hand and seal, and attested by the Clerk. If the Speaker be absent, a less number of members than a quorum may appoint a speaker *pro tempore*, who may sign any warrants, or perform any act requisite to bring in absent members.

10. He shall have a general direction of the Hall, and he may name a member to perform the duties of the Chair; but such substitution shall not extend beyond a second adjournment.

Of the Order of Business.

11. After the reading of the journal, the business of the first meeting of each day shall be conducted in the following manner, to wit:

I. Letters, petitions and memorials, remonstrances and accompanying documents may be presented and disposed of.

II. Reports of Committees may be read.

III. Original resolutions may be offered and considered; items of unfinished business referred; motions to reconsider and to appoint additional members of Committees made; and leave of absence, leave to withdraw documents, and leave to introduce bills asked.

Leave for Bills and to Introduce Bills.

IV. Bills and joint resolutions on a third reading may be taken up.

V. The House shall then proceed in the order of the day, preference being always given to the unfinished business of the previous sitting; after which bills and joint resolutions

on a second reading shall be taken in their order; and the House, in its afternoon session, will proceed to business as though there had been no adjournment of its morning session, excepting that original resolutions, and leave to introduce bills of Committees, be the first business in the afternoon session; and shall, on demand of the majority, proceed with the order of the day.

12. The Clerk shall make a list of all public bills and joint resolutions. He shall keep a separate calendar of private bills. No bills for granting, continuing, altering, amending, or renewing a charter for any corporation, other than a municipal corporation, shall be placed on the calendar of public bills. All bills, public and private, shall be numbered according to the time of their introduction into the House. They shall be taken up and considered in the order of time in which they were reported, or ordered to a third reading, as appears by the calendar; and the calendar shall be proceeded in until all the bills thereon are called up before the commencement of the calendar anew.

13. All messages shall be sent from this House to the Senate by the Clerk.

Of Decorum and Debate.

14. When a member is about to speak in debate, or communicate any matter to the House, he shall rise from his seat and respectfully address himself to the Speaker, confining himself to the question under debate, and avoiding personality.

15. If any member in debate transgress the rules of the House, the speaker shall, or any member may, call him to order, in which case the member so called to order shall immediately sit down, unless permitted to explain. The House shall, if appealed to, decide on the case, but without debate; if there be no appeal, the decision of the Chair shall be submitted to. If the decision be in favor of the member called to order, he shall be at liberty to proceed; if otherwise, he shall not be permitted to proceed without leave of the House, and if the case require it, he shall be liable to censure of the House.

16. If a member be called to order for words spoken in debate, the person calling him to order shall repeat the words excepted to, and they shall be taken down in writing at the Clerk's table; and no member shall be held to answer, or be subject to the censure of the House, for words spoken in debate, if any other member has spoken, or other business

has intervened after the words spoken, and before exception to them shall have been taken.

17. No member shall speak more than twice on the same question, without leave of the House.

18. While the Speaker is putting any question, or addressing the House, none shall walk out of or across the hall; nor in such case, or when a member is speaking, shall any one entertain private discourse; nor shall any one, while a member is speaking, pass between him and the Chair.

19. No member shall vote on any question in the event of which he is particularly interested, nor in any case where he was not within the bar of the House when the question was put.

20. Every member who shall be in the House when the question is put shall give his vote, unless the House for special reasons shall excuse him. All motions to excuse a member from voting shall be made before the House divides, or before the call of the yeas and nays is commenced; any member requesting to be excused from voting, may make a brief verbal statement of the reasons for such request, and the question shall then be taken without further debate.

21. Petitions, memorials, and other papers addressed to the House, shall be presented by the Speaker, or by a member in his place; a brief statement of the contents thereof shall be made by the introducer, and, if called upon, he shall declare that it does not, in his opinion, contain any indecent or reproachful language, or any expressions of disrespect to the House, or any committee, of the same.

22. It shall be the duty of the Sergeant-at-Arms, at all times, not to allow any person to smoke in the Assembly Chamber.

On Motions.

23. Every motion shall be reduced to writing, if the Speaker or any member desire it.

24. When a motion is made and seconded, it shall be stated by the Speaker, or being in writing, it shall be handed to the Chair and read aloud by the Clerk, when it shall be deemed to be in the possession of the House and open to debate; but it may be withdrawn at any time before a decision or amendment.

25. When a question is under debate no motion shall be received, but—

1. To adjourn.
2. A call of the House.
3. To lay on the table.
4. For the previous question.

5. To postpone indefinitely.
6. To postpone to a day certain.
7. To go into a Committee of the Whole on the pending subject immediately.
8. To commit to a Committee of the Whole.
9. To commit to a Standing Committee.
10. To commit to a Select Committee.
11. To amend.

Which several motions shall have precedence in the order in which they are stated, and no motion to postpone to a day certain, to commit, or to postpone indefinitely, being decided, shall be again allowed on the same day, and at the same stage of the bill or proposition.

26. A motion to strike out the enacting clause of a bill or joint resolution shall have precedence of a motion to amend, and if carried shall be considered equivalent to its rejection.

27. A motion to adjourn shall be always in order, except when the House is voting, or while a member is addressing the House, or immediately after the question to adjourn has been negatived; that, and the motion to lay on the table, shall be decided without debate.

28. Any member may call for a division of the question, which shall be divided if it comprehends questions so distinct that one being taken away from the rest may stand entire for the decision of the House; a motion to strike out and insert shall be deemed indivisible; but a motion to strike out being lost, shall preclude neither amendment nor a motion to strike out and insert.

29. When any motion shall be made and seconded, the same shall, at the request of any two members, be entered on the Journal of the House.

30. When a motion has been once made and carried in the affirmative or negative, it shall be in order for any member who voted with the prevailing party to move for the reconsideration thereof, on the same day or on the next day of actual session of the House thereafter; all motions may be reconsidered, by a majority of the members present; but bills, to be reconsidered, must have the same majority that would be necessary to pass them; and such vote, on motion to reconsider, shall be by taking the yeas and nays.

31. When a blank is to be filled, the question shall first be taken on the largest sum, or greatest number, and remotest day.

32. The yeas and nays shall be entered on the Journal of the House, when moved for and seconded by five members, and in taking the yeas and nays the names of the members, including the Speaker, shall be called alphabetically.

33. The previous question shall be put in this form: "Shall the main question be now put?" It shall only be admitted when demanded by a majority of the members present, and its effect shall be, if decided affirmatively, to put an end to all debate, and bring the House to a direct vote upon amendments reported by a committee, if any, then upon pending amendments, and then upon the main question; if decided in the negative, to leave the main question and amendments, if any, under debate for the residue of the sitting, unless sooner disposed of by taking the question, or in some other manner. All incidental questions of order arising after a motion is made for the previous question, and pending such motion, shall be decided, whether on appeal or otherwise, without debate.

34. After the Clerk has commenced calling the yeas and nays on any question, no motion shall be received until a decision shall have been announced by the Chair.

37. No committee shall sit during the sitting of the House, without special leave.

38. All committees appointed at the first sitting shall continue to act during every subsequent sitting of the same Legislature, or until they have reported on the business committed to them, or have been discharged.

Of the Committee of the Whole House.

39. In forming a Committee of the Whole House, the Speaker shall leave his chair, and a chairman to preside in committee shall be appointed by the Speaker.

40. The rules of proceeding in the House shall be observed, as far as practicable, in Committee of the Whole, except that any member may speak oftener than twice on the same subject, but shall not speak a second time until every member choosing to speak shall have spoken ; nor shall a motion for the previous question be made therein.

41. All amendments made in Committee of the Whole shall be noted by the Clerk, but need not be read by the Speaker on his resuming the chair, unless required by the House.

On Bills and Joint Resolutions.

42. All bills and joint resolutions shall be introduced by motion for leave, or on the report of a committee, and the

member offering the same shall indorse his name on them, that the committee may confer with him should they so desire.

43. Every bill and joint resolution shall receive three separate readings in the House previous to its passage, but no bill or joint resolution shall be read twice on the same day, without special order of the House.

44. All bills and joint resolutions, after the first reading, shall be referred to appropriate committees; and when reported, printed for the use of the members.

45. All bills and joint resolutions may be made the order of a particular day, on which day they shall be taken up in preference to others on the calendar; and the calendar of private bills shall not be taken up until the calendar of public bills shall have been gone through with.

46. All bills and joint resolutions, previous to their final passage by the House, all petitions, motions and reports, may be committed at the pleasure of the House.

47. All bills and joint resolutions ordered to be engrossed shall be executed in a fair, round hand, and no amendment by way of rider shall be received to any bill or joint resolution on its third reading.

48. On a motion to strike out any item in the incidental bill, the question to be submitted to the House shall be, "Shall the item be retained in the bill?" and a majority of all the members of the House shall be necessary to adopt the same.

49. After the introduction of any private bill, the applicants for said bill shall, at their own expense, furnish the usual number of copies for the use of the members, unless the printing thereof be dispensed with by a special order of the House.

50. On the question of the final passage of all bills and joint resolutions, the yeas and nays shall be entered on the Journal of the House.

51. Whenever a bill or resolution that has passed the House shall be carried to the Senate, all papers and documents relating thereto, on the files of the House, shall be carried with such bill or resolution to the Senate.

52. No standing rule or order of the House shall be rescinded or changed without one day's notice being given of the motion therefor; nor shall any rule be suspended except by a vote of the majority of the whole number of members of the House.

53. When an Assembly bill is returned amended by the Senate, the report thereof by the Secretary of the Senate shall be taken as the first reading, and the same be entitled to a second reading, without a motion for that purpose; after its second reading, the question shall be: "Shall the Senate amendments to Assembly bill No. — have a third reading?" If ordered to a third reading, the amendments shall be read, but these readings shall be on different days; the question shall then be: "Will the House of Assembly concur in the Senate amendments to Assembly bill No. —?" upon which question the votes shall be by ayes and nays. If concurred in by a majority of the whole House, the bill shall be re-engrossed, the amendments embodied therein, and the re-engrossed bill examined and reported upon by the Committee on Engrossed Bills, and read in open Assembly, to the end that it may be known to be correctly engrossed, and then signed and certified as other bills.

54. Cushing's Manual shall in all cases, when not in conflict with the rules adopted by the House, be considered and held as standard authority.

55. No person shall be allowed on the floor of the House during its sessions, except State officers and members and officers of the Senate, unless by written permission of the Speaker.

His revered ancestor was a large locator of lands in that county, and it is under his title some of the best property there is now held. The present member holds 70 acres of that tract, which has never been out of the family since its original settlement by his ancestor. Mr. Scott has held many positions of trust. Formerly, while in Massachusetts, he was associated with his father and brother in the hat manufacturing business. In 1872, he formed a copartnership with his brother, when they established themselves at Orange in the hat forming business. He takes a great interest in education, and it is largely due to his liberality that the beautiful new school-house which now adorns South Orange was erected. He is thoroughly versed in municipal affairs and taxation problems, and in the Legislature of last year his experience in that line helped very much in the enactment of good laws on those subjects. He ranks high as a debater and parliamentarian.

Last year he served on the Committees on Corporations and Banks and Insurance, and on the Joint Committee on Lunatic Asylums.

He kept a livery stable in Delhi for several years. This is the first time he ever held public office. The Republican majority in this District in 1881, when it was carried by Mr. Brewster, Republican, over Mr. Goeller, Democrat, was 251.

JOHN HENRY MURPHY.

(Dem., Newark.)

Mr. Murphy was born at Hoboken, N. J., April 20th, 1849. He is a journeyman hatter by occupation. This is the first time he ever held public office, having been called from the workshop to represent the working classes of his District. In 1881 the District was carried by Mr. Pennington, Rep., by a majority of 633 over Mr. Rand, Democrat.

1881—Pennington, Rep., 1,825; Rand, Dem., 1,192.

1882—Murphy, Dem., 1,672; Pennington, Rep., 1,507.

Seventh District.

THOMAS O'CONNOR.

(Dem., Newark.)

The Seventh Legislative District comprises the sixth ward and the second and third districts of the seventh ward of the city of Newark.

Mr. O'Connor was born in England, of Irish parents, March 12th, 1833. He is a carpenter by trade, but for some years he carried on the liquor business in Newark. Lately he has been the proprietor of a large refreshment pavillion at Coney Island, which he successfully managed until the summer of 1882, when he was forced to relinquish it owing to ill health. He rented the establishment and retired to his home in Newark, where his health gradually improved, and now it is almost entirely restored.

In September, 1862, he enlisted as a private in the 27th New Jersey Regiment, and he served with so much bravery that in line of battle, at Fredericksburg, he was promoted to the rank of Color Sergeant. Afterwards he recruited a company for the 33d Regiment, and went out as Captain of Company F. At the fall of Atlanta he was promoted to the rank of Major, and he served honorably and heroically until the war ended.

This is the Major's fourth term in the Legislature, which is an honor very seldom conferred on members from any part of the State, and unprecedented in Essex county. He is now serving a second term as Alderman of the city of Newark from the seventh ward. Each time he was elected by a handsome majority. His legislative and aldermanic career has won golden opinions from both parties, not only for his strict integrity, industry and faithfulness, but also for the courage of his convictions, which on all occasions he promptly and fearlessly expresses. Dauntless and outspoken in debate, he never fails to advocate warmly the enactment of good laws, or to denounce the introduction of iniquitous legislation. A rigid party man, still he at all times respects the opinions of his opponents. Ever ready to reward merit and serve a friend, yet whenever he is the victim of mean, unprincipled men, he may forgive, but not forget. He has rendered invaluable service to the people of Newark by his vigilant course in the Common Council, and he has been largely instrumental in bringing to light the stupendous frauds which have lately thrown a cloud over the good name of that city. He demanded the continuance of the investigation by expert accountants, until the rotten branches of the infected departments were exposed to view. The prosecution of vigorous measures to that end was his hobby, and as to

how well he succeeded, the tax-payers of Newark can readily testify. As a party leader, both in the Legislature and Common Council, he has had but few equals, and he is a zealous friend of the working classes. No other man can lay claim to higher merit. That every one who knows the Major and is acquainted with his career, will accord him this tribute, there is no reason in the world to doubt. While in the House he has served on some of the most important committees, and taken prominence as a ready and pithy debater. Although in poor health last year, he was forced to accede to the wishes of his constituents to again represent them in the Legislature.

He studied law with Augustus Schoonmaker, Jr., late Attorney General of the State of New York, and afterwards finished his studies in Philadelphia and New York cities. He was admitted to practice as an attorney and counselor-at-law in New York City, in May, 1873. Last year Mr. Cator represented this District in the Legislature, but owing to ill health he did not take his seat till late in the session. When he did appear he at once entered into an active and vigorous opposition against certain railroad measures, particularly Senate Bill No. 167, which affected the river front of Hudson county. He and Congressman-elect McAdoo led this opposition, and the House, on more than one occasion, was edified by gems of eloquence and debating skill from those gentlemen, which have left a deep impress in that epoch of New Jersey legislation. As an orator, a debater and a parliamentarian, Mr. Cator has had but few equals in the Legislatures of this State. He was chairman of the special committee appointed by the House to investigate charges of bribery in connection with the bill above mentioned. He also served as a member of the Committee on Corporations.

1881—Cator, Anti-Monop., 1,539; Dickinson, Rep., 1,083.

J., for two years, previous to its consolidation with Jersey City and Bergen. He was elected Superintendent of Schools at the first charter election of the consolidated city, but was legislated out of office by the new charter of 1871. Since that time he has edited the trade publications of the American News Company for nine years, and he has been connected with several newspapers in New York. In the same year he was defeated for member of the Board of Education, but was renominated and elected in the following year, when he served two years. He was appointed one of the Assessors of Jersey City in 1877, and has filled that office up to the present time. In 1880 he ran for member of Assembly, and was defeated by Hon. J. Herbert Potts, after having polled the largest Democratic vote ever cast in that District.

He moved to South Amboy when but three years of age, and at sixteen removed to New Brunswick, where he finished his education at a private school kept by Mr. Thompson, a former Principal of Rutgers Grammar School. At eighteen he removed to Jersey City, where he has since resided. He commenced the study of dentistry with Dr. J. C. Robins, of the latter city, and continued with him until the year 1870, when he commenced practicing for himself, and continues to do so at the present time. He is one of the most prominent dentists in New Jersey, and was Chairman of the Executive Committee of the State Dental Association for three years. He was unanimously elected President of that

Mr. McLaughlin was born in Ireland, November 17th, 1848, and is engaged in the business of a news dealer and tobacconist, which he has followed, by himself alone, since 1866. In the paid Fire Department of Jersey City he was Foreman of Engine Company No. 6, from June 6th, 1871, to April 14th, 1877. He was Alderman from the Second District from May 6th, 1873, to May 4th, 1877. He has been Assessor in the Second District from April 13th, 1877, to the present time. He was the only Democrat who held an office in the Fire Department under the Republican administration, and was the youngest man in any such position—being then only twenty-two years of age.

He came to this country when but eighteen months old, and has lived in Jersey City ever since. His majority for Alderman in 1873 was 365; as an Independent Democrat in 1875, 538, and as regular Democrat for Assembly, in 1881, over all, 1,691.

Eighth District.

JOHN M. SHANNON.

(Dem., Jersey City.)

The Eighth Legislative District comprises part of Jersey City and the towns of Harrison and Kearney.

The subject of this sketch was born in New York City June 20th, 1853, and is a coal dealer and contractor. Although a New Yorker by birth, he has lived during the greater part of his life in this State, his family having moved to Jersey City in 1858, and have since resided there. Mr. Shannon, after satisfactorily passing through the Grammar Schools of Jersey City, was sent to a college in Western New York, and was in the senior class when his father, whose business as a dealer in Belgian paving blocks and general contractor had, in the meantime, assumed immense proportions, sent for and placed him at a commercial institute in New York City. There his progress was so exceptionally meritorious that in a short time he was thoroughly qualified, so far as commercial education goes, to take part control of his father's business. Soon after he was made a partner. The business-like manner in which he conducted the affairs of the firm, the force of character and executive ability he displayed, and, above all, the wonderful resources he had at his command in emergencies, when good judgment and fertility of resources were worth thousands of dollars, caused the elder Mr. Shannon to place unlimited confidence in him. It is not surprising, therefore, to find him at a comparatively youthful age in sole charge of the construction of the immense cattle yards of the Pennsylvania R. R. Co., at Philadelphia. And so well did he acquit himself in this capacity that a year ago, when the N. Y., L. E. & W. R. R. Co. determined upon building a great live stock depot at Weehawken, N. J., he was awarded the contract at his own figures.

In addition to this contract, which is now approaching completion, Mr. Shannon is the owner of one of the largest coal yards and is one of the most extensive dealers in that commodity in the State.

Previous to his being elected Assemblyman he has never held a public office, unless the fact that he was a

member of a committee of six citizens appointed by the Mayor of Jersey City to revise the city's charter, may be called one. But, though he goes to the Assembly without political experience or record, his opinion on practical business questions cannot fail to have weight in influencing legislation.

1881—McAdoo, Dem., 1,452; Tunison, Rep., 742.

1882—Shannon, Dem., 1,522; Gregory, Rep., 687; Heritage, Ind. Rep., 293; Whiteside, 18.

He is a Trustee of the German-American School in the Martha Institute, Hoboken, having held that position for the last six years. For the last two years he has been a Director of the Produce Bank of New York. Last year he was elected Assemblyman in the Ninth District—it being considered Republican—by a majority of 232 over John R. Wiggins, Republican.

During his course of instruction there, he attended extra lectures and sessions in the summer season, thereby receiving a thorough knowledge of the science of medicine. Directly after graduating, he located and began practice in Somerset county, N. J. Here he soon built up a successful and extensive practice, and by his skillfulness as a physician and integrity of character, endeared himself to the hearts of the people. In 1867 he moved

to Lambertville, Hunterdon county, and opened a drug store, at the same time pursuing his profession as a physician. While living here he gave some attention to politics, and was elected Councilman. GEORGE THOMAS CRANMER.

(Rep., Barnegat.)

There is but one Legislative District in the entire county.

Mr. Cranmer was born at Barnegat, N. J., December

6th, 1848, and is the son of Captain George Cranmer, a prominent sea captain of Ocean county, who died January 5th, 1851. He is a descendant of the family of the celebrated Thomas Cranmer, Archbishop of Canterbury, and of William Cranmer, who came from Southold, Long Island, to this State in 1665, and whose descendants settled at Little Egg Harbor in the early part of 1700. He is also directly descended from Daniel Leeds, compiler of William Bradford's New York Almanacs, and a Quaker writer and controversialist of great fame in his day, who settled at Little Egg Harbor, N. J., in the latter part of the seventeenth century.

The subject of this sketch having been left fatherless at an early age, the responsibility of his training fell to his mother, who devoted all her efforts to securing for him the advantages of a good education. After faithfully availing himself of the educational facilities afforded in his native village, he entered Pennington Seminary in his fourteenth year, with a view of preparing for college. At sixteen he met with an irreparable loss in the death of his mother, and thus early thrown upon his own resources, left the Seminary and entered the counting-room of a large commercial establishment at Eatontown, N. J. He remained there five years and then engaged in business in Trenton, N. J. In 1876 he returned to his native village, and next year visited Europe. In 1878 he was the Republican candidate for member of Assembly, but was defeated by the Hon. Rufus Blodgett. In September, 1879, he was appointed by President Hayes Collector of Customs for the District of Little Egg Harbor, N. J., which office he resigned July 1st, 1880, to accept a special appointment in the customs service, which office he has since relinquished. He has been an active member of the State militia for a number of years, and since 1875 Quartermaster of the Seventh Regiment, National Guard. He has never before held an elective office. Second District.

PATRICK HENRY SHIELDS.

(Rep., Paterson.)

The Second Legislative District is composed of the second, third and sixth wards of the city of Paterson.

Mr. Shields was born in the north of Ireland, January 12th, 1837, being the oldest of seven children. His parents came to America in 1846, settling in Paterson, N. J., where they remained for a year or two, when they removed to Little Falls. The times were unpropitious, and there were many mouths to feed, so that the oldest son of the large family was obliged at a very early age to contribute to the support of his brothers and sisters, which he did with the utmost cheerfulness, though this necessitated the sacrifice on his part of opportunities to acquire a much desired education. He worked in the Paterson mills, and afterwards, during his residence

there, in Beattie's carpet mills at Little Falls, first in worsteds and later on in weaving carpets. The elder Mr. Shields dying in 1858, the family removed again to Paterson, and then the subject of this sketch entered a grocery store, and in the course of five years acquired such an insight into the business that he set up for himself, in 1863, with the little capital he had been able to accumulate by the closest economy, after liberally aiding his family. By his steady industry and honesty in trade he soon acquired an enviable reputation, and although through his proverbial generosity he has at times lost heavily, his business has constantly been growing, until now he is one of the most extensive grocers in Paterson, doing a large country as well as city trade. Some years ago he took one of his brothers into partnership with him. From the foregoing sketch it will be seen that Mr. Shields is emphatically a self-made man, and he is a very creditable specimen of that sort of production. In politics he has always been a zealous Republican. Residing in a ward that was formerly Democratic, he has done as much as any one to wheel it into the Republican ranks. Many years ago he was elected one of the Ward Commissioners of Appeal in cases of taxation. In 1871 he was elected to the Board of Chosen Freeholders, remaining in that body for five years, during all of which time he was one of the leading spirits in shaping its policy and controlling its measures. He was Chosen Director in 1872-3-4-5, only two persons before him having held the office so long. Largely through his influence the Board then inaugurated the policy of building permanent iron bridges, in consequence of which the county now spends very little in repairs of bridges. As a representative man of the county Mr. Shields has been frequently called upon to wait upon the Legislature, with other leading citizens and taxpayers, for or against public measures in which the interests of Passaic county have been concerned, so that he has long been familiar with the routine of legislative business. He has been more than once urged to be a candidate for various offices—such as Alderman, Sheriff and Assemblyman—but would never consent until the fall of 1881, when he was elected to the Assembly by a majority (952) which the three wards composing his District never gave to any other man, a fact

which sufficiently attests his great popularity among all classes.

Last year he served on the Committee on Claims and Pensions, and on the Joint Committee on Industrial School for Girls.

1881—Shields, Rep., 1,733; Springstein, Dem., 781; Ryerson, 75.

He was Chairman of the Passaic county delegation to the last Democratic Gubernatorial Convention. He has the reputation of being one of the shrewdest politicians in Passaic county, and he has already assumed prominence as an able legislator. No more industrious member served in the House last year than he, as was attested by the fact of his having pushed to success many important measures.

He served on the Committee on Engrossed Bills, was Chairman of the Committee on Miscellaneous Business and a member of the Joint Committee on Printing.

Mr. Emery was given the appointment of line agent for the New Jersey Central Railroad and branches in 1873 to sell coal for the Lehigh & Wilkesbarre Coal Company and the Lehigh Coal & Navigation Company, and Mr. Hoffman continues such agency. Sussex County.

WILLIAM E. ROSS.

(Dem., Sparta.)

There is but one Legislative District in the entire county.

Just previous to the breaking out of the Revolutionary war, Donald Ross came from the North of Scotland, bringing with him his wife and four children, and settled in Orange county, N. Y. He was a direct descendant of the distinguished Crawford family from whom Sir William Wallace was descended. He died in the town of Hardyston, Sussex county, N. J., in the year 1799, aged seventy-two years and nine months.

William Ross, eldest of his children, born in Scotland in 1758, was fifteen years old when the family came to America. Immediately after his arrival here he enlisted

in the army, but was rejected on account of his youth. After two years he again offered his services, was mustered into the ranks, and served until the close of the war. For several years he managed a farm at New Brunswick for Judge Morris, and about 1785 purchased of that gentlemen a farm of two hundred acres in the township of Hardyston, Sussex county. During his residence at New Brunswick, about the year 1800, he married Phebe Noble, of that place. The children born of this union were seven, viz.: Donald, Jacob, Isabel, Isaac, John, James and Rachel. About the year 1813 he settled on his farm in Hardyston, where he spent the remainder of his life, and died November 25th, 1830; his wife died in April, 1833. He was a member of the Presbyterian Church, but his wife affiliated with the Methodists. In politics he belonged to the old Federalist party, but supported Andrew Jackson for the Presidency.

John, son of William, is father of our subject, and was born September 5th, 1812. Until the age of seventeen he spent his time at home, where he received the limited opportunities then afforded for obtaining an education in the common schools. At that time he began learning the wagon-maker's trade, and has since carried on that business in Sparta. He married, in February, 1844, Ellen, daughter of William McKinney, of Andover, N. J.

William E. Ross is their only surviving child, and was born July 18th, 1845, in Sparta. He was a teacher for some two years, and in 1864 he was graduated at Bryant & Stratton's Business College, in Newark, N. J. Subsequently he was engaged for three years as book-keeper at Petroleum Centre, Venango county, Pa., and as foreman of the machine shops in the Central Machine Works. In 1867 he went to Newton, N. J., and in 1868 he was appointed Deputy Sheriff of Sussex county, under Sheriff Jesse Ward. He was re-appointed by Sheriff Simonson, and served until the spring of 1871. During the year 1870 he served as Clerk of the township of Newton, and for one year was one of the Coroners of Sussex county. He served as Justice of the Peace from the spring of 1871 to October, 1873, when he resigned that office; the same fall he was elected Sheriff on the Democratic ticket, and in consequence of a change in

the State Constitution served for five consecutive years, being the only sheriff in the State for so long a term.

He was a member of the House last year, when he served on the Committees on Ways and Means and Corporations, and on the Joint Committee on Soldiers' Home, at Newark.

He was a member of the Common Council of Hackettstown in 1870-71-72. When he first took his seat in the Board of Freeholders he at once became prominently identified with the reform movement in the county. In 1878 he was elected by the Reform members as Director, and he at once set upon foot a series of investigations which exposed the enormous frauds perpetrated by the then "ring." With his administration was inaugurated a system of checks and safeguards in the transaction of county business, that made the perpetration of fraud almost impossible.

THEODORE RUNYON.

(Term, seven years. Salary, \$10,000 per annum.)

Chancellor Theodore Runyon, LL.D., was born at Somerville, Somerset county, N. J., October 25th, 1822, the son of Abraham Runyon of that town. The family is of Huguenot origin, and was among the original settlers at Piscataway township, Middlesex county, their ancestor being Vincent Rogrison, a Huguenot, who came to this country with the Stelles and other French families. Theodore was educated partly in New Jersey and partly in New York, whither his father removed when the boy was quite young. Having been fitted for college at Plainfield, he became a student at Yale, where he was graduated as A.B. in 1842, and subsequently received his degree as A.M. He began the study of law in the office of Asa Whitehead. He was admitted to the bar of New Jersey in July term, 1846, and three years later he was called a counselor. He began practice in the city of Newark immediately after his admission, and without intermission continued it in the same place until his appointment as Chancellor, in 1873. For many years he was City Solicitor of Newark. He always manifested great interest in military matters, and did more to organize the militia of the State than any other man. He was appointed Brigadier General of Militia for the county of Essex, on May 8th, 1857. At the commencement of the war in 1861, he was appointed Brigadier General of the First New Jersey Brigade, and this force, moving under his command, was the first fully equipped and organized brigade of troops that

went to the defense of Washington. Other States had previously sent regiments and detachments, but to New Jersey belongs the honor of furnishing the first full brigade. President Lincoln issued his call for troops April 15th, 1861. The first company of the New Jersey quota under that call was mustered in April 23d. General Runyon received his commission from Governor Olden, and took command April 27th, and on the 30th of that month the quota was declared full. On May 3d the Brigade embarked on the propellers of the Delaware and Raritan Canal. The command reported at Washington May 6th, nineteen days after the first man had been mustered. General Runyon served with the brigade until they were mustered out at the end of their term of enlistment, during which they were engaged on the fortifications of Virginia, opposite Washington, where Fort Runyon (named after him) was erected. He returned home in August, 1861, but before quitting the field he received the thanks of President Lincoln, personally tendered in the presence of the Cabinet, for his services in connection with the New Jersey Brigade. Subsequently, resolutions complimentary to his patriotism and efficiency as a soldier were passed by the Legislature of New Jersey, and he was, on February 25th, 1862, appointed by Governor Olden Major General by brevet, in compliance with the recommendation of the House of Assembly, in testimony of his patriotic and meritorious services in the field. He was appointed Major General commanding the National Guard of the State, on April 7th, 1869, and held the position till 1873, when he resigned on accepting the Chancellorship. For many years he has borne a prominent part in the management of the political affairs of the State, as a member of the Democratic party. He was a Presidential Elector in 1860; was elected Mayor of the city of Newark in 1864, and held that office during that and the following year. In August, 1865, he received the nomination of his party for Governor of the State, and after a very exciting campaign was defeated by the Republican nominee, Marcus L. Ward, by a majority of 2,789. On April 29th, 1873, he was appointed a member of a Commission to prepare amendments to the Constitution of the State, and about the same time was nominated by Governor Parker as Chancellor of the State for

a term of seven years. The nomination was accepted by General Runyon, was confirmed by the Senate, and his commission issued bearing date May 1st, 1873. Upon assuming this office he resigned the Presidency of the Manufacturers' National Bank, Newark, which he held from the organization of the corporation, in 1871. He was re-appointed Chancellor in 1880 for another term of seven years. He has received the honorary degree of LL.D. from two institutions—the Wesleyan University, Middletown, Conn., on August 15th, 1867; Rutgers College, in 1875.

C. to Major General Gillmore, then in command of the Tenth Army Corps. He participated in the capture of Morris Island, and the bloody night attack on Fort Wagner. Subsequently he was transferred to the North on account of illness, and placed in charge of the Pay Department U. S. Army, at Parole Camp, Columbus, Ohio. His services during the late war, which were both arduous and trying, were executed with rare ability and expedition. The State of New Jersey having more troops in the field than the regular forces of the United States, made the duties of the office very laborious, requiring much skill and endurance in their execution. For meritorious services in the discharge of the same, he was made Brevet Major General by the Senate, on recommendation of Governor Parker, in 1865.

General Perrine still holds the office of Quartermaster General, and is, besides, acting Paymaster General of the State.

Commander of the National Guard.

MAJOR GENERAL GERSHOM MOTT, Bordentown.

General Mott was born near Trenton, N. J., on April 7th, 1822, and was educated at the Trenton Academy.

He began his business career when he was fourteen years of age, in a commercial establishment in New York, and shortly before the breaking out of the Mexican war he relinquished his position in New York and went to reside temporarily with his father in New Jersey. In 1846, when President Polk called for fifty thousand volunteers, he offered his services to the government, and was commissioned as Second Lieutenant, and assigned to the Tenth U. S. Infantry. He served with his organization during the entire war, distinguished himself for coolness in danger, and for his exactness as a disciplinarian. At the termination of the war, he resigned his position in the army, and in recognition of his meritorious services he was appointed Collector of the Port of Lambertton—a position previously held by his father. He retained the position until the spring of 1849, when he was removed to make room for President Taylor's appointee. He then accepted a clerical situation at Bordentown, in the office of the Delaware and Raritan Canal Company, and in 1855 was appointed teller of the Bordentown Bank.

At the breaking out of the war, when the famous Second New Jersey Brigade—composed of Fifth, Sixth, Seventh and Eighth Regiments of Infantry—was formed, he was appointed, on August 4th, 1861, Lieutenant Colonel of the Fifth N. J. Vols. Practically—Colonel Starr being ranking officer and Acting Brigadier General—he was the commander of the Fifth, and under his supervision its men were thoroughly disciplined and drilled. In December, 1861, the regiment was attached to Hooker's "old" division, at Budd's Ferry, Maryland, and received its baptismal fire at the battle of Williamsburg. In this battle the New Jersey Brigade took a leading part, and for a time held the entire rebel army in check—the Fifth Regiment being for more than nine hours exposed to a frightfully destructive fire. For the gallant manner in which he held his ground, Lieutenant Colonel Mott was promoted (May 7th, 1862,) to the colonelcy of the Sixth Regiment, N. J. Vols. In this position his soldierly qualities became more and more conspicuous. He was severely wounded in the arm in the second battle of Bull Run, July 28th, 1862. He was promoted Brigadier General, and assigned to the com-

mand of the Second New Jersey Brigade on December 4th, (Third Brigade, Second Division, Third Army Corps). He was again wounded at the battle of Chancellorville, May 3d, 1863, and it was only when weakened by loss of blood that he consented to go to the rear. In the spring of 1864, when the Army of the Potomac moved to the Wilderness, General Mott was placed in command of the Fourth Division of the Second Corps, (afterwards Third Division, Second Corps,) a position he held until the end of the war. His management of the division was as able as that of his brigade and regiment, and on September 10th, 1864, he was brevetted Major General. On April 6th, 1865, he was again wounded in a skirmish at Amelia Springs. Upon the dissolution of the army, he had command of the Provisional Corps, and when that was disbanded, he was ordered to report at Washington. In the August following, he was detailed to serve on the Wirz Commission, and on December 1st, 1865, was made a full Major General of Volunteers—being the first New Jersey soldier to receive the brevet of Major General, and the only one to retain the full rank. On February 20th, 1866, his resignation was accepted, and, returning to his home in New Jersey, he accepted the Paymastership of the Camden and Amboy Railroad Company. In 1867, he declined the colonelcy of the Thirty-third U. S. Infantry. In 1873, he was appointed Commander of the New Jersey National Guard, with the rank of Major General, which position he still occupies. He was appointed on September 1st, 1875, Treasurer of the State of New Jersey to fill a vacancy; and on March 29th, 1876, he was appointed Keeper of the State Prison—his term expiring in 1881.

Clerk of the Supreme Court.

BENJAMIN F. LEE, Trenton.

Mr. Lee was born in Port Elizabeth, Cumberland county, N. J. His father, Hon. Thomas Lee, was a prominent public man, having served several terms in Congress and the State Legislature, and been a successful merchant in Port Elizabeth, where he died in 1856.

The Hon. Thomas Lee was a brother of Colonel Francis Lee, of the regular army, and a graduate of West Point, who distinguished himself in the Mexican war, and the father of Doctor Thomas Lee, a surgeon in the regular army, who died in 1838 from disease contracted in the Florida war. This branch of the Lee family are descendants of the Lees and Alexanders (Scotch and Irish) who emigrated to this country prior to the Revolution.

The subject of this sketch finished a thorough English education under the tutorship of John Gummere, at Burlington, in 1845, and immediately entered his father's store, at Port Elizabeth, as partner. In time he succeeded the firm of Thomas and Benjamin F. Lee, and finally, in 1860, retired from the business altogether. In 1863 he was elected Treasurer of the Cape May and Millville Railroad Company, and in 1866 Treasurer of the West Jersey Marl and Transportation Company, which position he resigned upon entering on the duties of Clerk of the Supreme Court. He was for several years a Director of the State Agricultural Society of New Jersey. Like his father, he was always an earnest and active supporter of the Democratic doctrine, and took an active part in politics. In 1856 he was a Presidential Elector, and had served a term on the State Central Committee. In 1858, his friends of the First District presented his name in convention for nomination for Congress, and he received thirty-nine of the forty-one votes necessary to a choice. He was afterwards nominated for the Legislature from this district, which was largely Republican, and after an exciting contest, was defeated by only three votes. In 1870 Mr. Lee was nominated for Congress in the First District. The District usually gave 3,700 Republican majority, and that year about 1,500 colored voters were added, making nearly 6,000 to overcome, but he was defeated by only 1,800 votes. This was the first inroad made upon the large Republican majority in the district. In the Gubernatorial Convention that nominated Hon. Joel Parker, in 1871, Mr. Lee received 118 votes as a candidate for Governor—the entire strength of his district. In 1872 he was appointed by Governor Parker Clerk of the Supreme Court, which appointment was unanimously confirmed by the Senate. In 1877 he was re-appointed by Governor Bedle, and his appointment had the singular

and unusual compliment of a confirmation by the Senate without the customary reference to a committee; and again in 1882 he was similarly honored by Governor Ludlow and the Senate, thus giving him a third term. His present term expires in 1887.

Clerk in Chancery.

GEORGE S. DURYEE, Trenton.

Mr. Duryee was born in the city of Newark in 1850, and is a son of the late Peter S. Duryee of that city. After being engaged in business for some three years in Newark, Mr. Duryee entered Rutgers College, New Jersey, at which institution he was graduated in 1872. He then entered the law office of Messrs. McCarter & Keen, of Newark, and was admitted to the bar as attorney in 1875, and as counselor in 1878, and practiced his profession in Newark. In 1877 he was elected to the House of Assembly from the Fourth District of Essex county, which, though largely Republican, he carried by a handsome majority, which was increased at his re-election the following year. During his legislative career he took a prominent part in the proceedings of the House both in the committees and on the floor. In 1878 he received the caucus nomination of the Democratic party, which was then in the minority, for the Speakership. In 1881 he was nominated by Governor Ludlow as Clerk in Chancery for a term of five years, and the Senate, although largely Republican (unanimously and unhesitatingly) confirmed the nomination. His term expires in March, 1886.

State Superintendent of Public Instruction.

ELLIS A. APGAR, Trenton.

Ellis A. Apgar was born at Peapack, Somerset county, N. J., March 20th, 1836; received his preparatory education in the public school of his native village, and graduated from the New Jersey State Normal School

1857. He then engaged in teaching, and, in 1862, entered Rutgers College, from which he graduated in 1866. A few months previous to his graduation he was appointed Professor of Mathematics in the State Normal School. On the creation of the State Board of Education, in 1866, Mr. Apgar was appointed State Superintendent. By his efforts the supervision of the schools was transferred from the Town Superintendents to the County Superintendents, and he was instrumental in securing the vote of the Legislature which made the schools free by the levy of an annual State tax. He has done much towards the improvement of the school buildings, furniture, apparatus, &c. The value of school property has risen during his administration from \$1,645,000 to \$6,300,398.

State Prison Keeper.

PATRICK HENRY LAVERTY, Trenton.

Mr. Laverty was born in Ireland about fifty years ago, and when but six years of age he, with his father and mother, came to this country. Shortly after their arrival they located at Saugerties, on the Hudson, where they established themselves in business. Patrick, the youngest of the family, after attending the village schools for many years, was sent to a high educational institute at Sheffield Plains, Massachusetts. There he remained until the death of his father, which occurred when he was about sixteen years of age. It was the intention of Mr. Laverty's father to educate his son for some professional pursuit, but after the death of the old gentleman young Laverty determined to abandon his collegiate course and enter upon mercantile pursuits. He went to New York City, where he engaged in business. He worked hard in various positions until, in 1851, he was appointed to a most responsible place in the Adams Express Company. He acted as treasure messenger for the Company in California—his route extending from San Francisco to Chagres, Isthmus of Panama. At that time the duties of that office required a man who could be relied upon under all circumstances, and who was possessed of great judgment and courage. Mr. Lav-

erty filled the bill exactly, and when, in 1853, he resigned to come East, the severance of his connection with the Company was greatly deplored by its officials. Before leaving San Francisco a banquet was tendered him, and more than one hundred of his former colleagues and prominent citizens did honor to the occasion. During his services with the Company he carried millions of dollars in treasure, and although his path was constantly beset by banditti and the worst of cut-throats, he never lost a single dollar. The Company honored him with testimonials of the highest order. He returned once more to the village of Saugerties, where he married Miss Annie Masterson, and for over twenty-four years she has been to him a most devoted wife and an exemplary mother to his children. He was engaged for a short time in the grocery business at Saugerties, and subsequently in New York City, in the manufacture of clothing for the California trade. In 1860 he removed with his family to Jersey City, where he became engaged in the crockery business. Subsequently he accepted the chief clerkship of the eastern division of the Erie Railway, a position which he held with credit to himself for many years. In 1871 he was elected as Assessor in the Second District of Jersey City, and shortly afterwards he was appointed one of the Directors of the Board of Education. He filled the latter office for two terms, and declined a nomination for a third. In 1874 he was elected Sheriff of Hudson county by a majority of 2,700 votes, and held that office for four years. In 1876 he was elected as a Delegate to the St. Louis Convention, and whilst there he was an ardent supporter of ex-Governor Joel Parker for the Presidential nomination. In that year he worked hard and unceasingly for the election of the Democratic ticket headed by Tilden and Hendricks. At every election since he took a leading part, and every Democratic victory won in the State owed much to his indefatigable exertions. Owing to dissensions in the ranks of his own party, he was defeated for Congress in 1878. In March, 1881, he was nominated by Governor Ludlow for the office of State Prison Keeper for a term of five years. The Senate refused to confirm the nomination, and subsequently the Governor appointed Mr. Laverty to fill the vacancy.

In 1882 Governor Ludlow nominated him for a regular term of five years, and he was confirmed by the Senate.

Mr. Laverty made one of the best Sheriffs Hudson county ever had, and already he has proved himself to be an excellent Prison Keeper. He is remarkable for his fine social qualities and generous charity to the poor.

His salary is \$3,500 per year, and his term expires in 1887.

Commissioner of Railroad Taxation.

ABRAHAM M. REYNOLDS, Newark.

Mr. Reynolds was born in Bloomfield, Essex county, N. J., on July 13th, 1830. He received a liberal education, and early became engaged in mercantile pursuits in Newark, of which city he has been a resident since the year 1845. He was afterwards engaged for many years, in Newark, in the business of banking and exchange. He was elected Sheriff of his native county at the age of thirty-one, and served as such for three successive years, although the county was strongly opposed to his political party. He has held several other offices of honor and trust, and has gained by an extensive business experience, a merited reputation for superior executive abilities, which have been found valuable in his management of railroad affairs. Mr. Reynolds accepted the office of Railroad Commissioner on April 1st, 1882, under embarrassing circumstances, and at a time when great public discontent existed in regard to the subject of municipal taxation of railroad property. Having held the office of Commissioner but for a few months, he has done much to allay the ill-feeling between the people and the railroads. His first annual report to the Governor shows an adaptation to, and comprehension of, railroad matters that few officials possess. The report also makes an exhibit of the magnitude and management of our railroads in a clear and succinct manner.

BY COUNTY, CITY, TOWN, VILLAGE AND TOWNSHIP.

The following is a statement of the population of New Jersey, according to the United States Census of 1880, as officially furnished by the Census Department, at Washington, for the MANUAL of the one hundred and seventh Legislature.

Names of cities, towns and villages are indented and placed under the townships in which they are respectively situated, and the population of the township includes, in every case, that of all villages within it.

The towns and villages marked with an asterisk (*), a dagger (†), or a double dagger (‡), are unincorporated, and their population is given only approximately, as their limits cannot be sharply defined.

PREROGATIVES, &c., OF THE GOVERNOR.

The Governor is invested with the power of making numerous appointments to office, and by virtue of the Constitution holds several high positions himself. So varied are they that it is no easy task to compile a complete list. The following, however, are the most important:

He is Commander-in-Chief of all the military and naval forces of the State; is President (*ex-officio*) of the Boards of Trustees of Princeton and Rutgers Colleges, and also of Saint Mary's Institution, Burlington, and the Board of Managers of Geological Survey. He is Chairman of the State Board of Canvassers, and has power to fill any vacancy for New Jersey that may occur in the United States Senate, during a recess of the Legislature.

He is a member of the following boards: Trustees of School Fund; State Board of Education; Court of Pardons; Commissioners of Agricultural College Fund; Premium Committee of the New Jersey State Agricultural Society; Board of Control of State Industrial School for Girls and State Reform School for Boys; Commissioners of the State Library; composing a Board with the Chancellor, Chief Justice and Attorney General, for the appointment of a Supervisor for the State Prison; State Board of Savings Banks; composing, with the State Comptroller, a board to choose newspapers in which to publish the laws of the State.

With the advice and consent of the Senate, he has the power of appointing the following officers: Chancellor, Chief Justice; Judges of the Supreme Court, Inferior Courts, and Lay Judges of the Court of Errors and Appeals; Attorney General, Secretary of State, Clerk of the Court of Chancery, Clerk of the Supreme Court, Keeper of the State Prison, Superintendent and Inspector of Weights and Measures, Prosecutors of the Pleas, Riparian Commissioners, Commissioners of Pilotage, Trustees of the Normal School, Commissioners of Fisheries, Visitors to the State Board of Agriculture, Judges of the District Courts, Chief of Bureau of Labor Statistics, Major General, Quartermaster General, Adjutant General, Foreign Commissioners of Deeds.

Without the consent of the Senate: New Jersey State Pharmaceutical Association, and State Board of Health, Private Secretary, Commissioner of Railroad Taxation, Fish Wardens, Notaries Public, Moral Instructor of the State Prison, Railroad Policemen, and fills all vacancies that occur in any office during a recess of the Legislature, which offices are to be filled by the Governor and Senate, or Legislature in Joint Meeting; also, vacancies happening in the offices of Clerk or Surrogate in any county; issues warrants for the admission of deaf and dumb, blind and feeble-minded children into the several institutions; grants requisitions and rentions, and has power to offer rewards for apprehending and securing persons charged with certain crimes; signs or vetoes all bills and joint resolutions passed by the Legislature; has power to convene the Legislature or Senate alone if, in his opinion, public necessity requires it; grants, under the Great Seal of the State, commissions to all such officers as require to be commissioned; has right to borrow money for the State; signs all leases or grants issued by the Riparian Commissioners; he has power to reprieve in cases of capital punishment, and to suspend fines at any time not exceeding ninety days after conviction, and in case of pardon or commutation of sentence, the Governor's vote in the affirmative is necessary.

Besides all these duties, the Governor finds it necessary to read and answer a large mass of correspondence, which comes to the depart-

ment daily. All bills and joint resolutions passed by the Legislature are compared, and then recorded in the Executive Department, before presentation to the Governor.

He receives a salary of \$5,000 a year, and is not allowed any fees or perquisites whatever.

His term of office is three years.

Adjutant General's Office.

The Adjutant General is required, by law, to carry into execution the system of military discipline established by the authority of the State. As the executive officer of the Governor and Commander-in-Chief, he is required to see that all his orders in reference to the military force are properly fulfilled. His office is an office of record and deposit of information in regard to the National Guard and of the reserve militia. All details for calling troops into the field for active service are kept in his department. It is also an office of record of the military service of men of New Jersey in all the wars of this country for the last one hundred and twenty-five years. It is asserted by the official in charge that its records are more complete than any office of the kind in the Union.

Quartermaster General's Department.

The Quartermaster General is, by law, Acting Commissary General, Acting Paymaster General, and Acting Chief of Ordnance. He is charged with the duty of providing the means of transportation for troops of the National Guard when ordered upon duty by the Governor, who is Commander-in-Chief of all the State forces, and the movement of all necessary stores for parades, inspections, encampments and rifle practice on the ranges of the principal rifle associations of the State, and furnishes all material of war and ammunition in cases of riot and tumult. He provides and distributes uniforms under the law approved March 10th, 1880; furnishes tents, camp and garrison equipage, forage, fuel, lumber, and all material for camps and for shelter of troops and stores when the militia is called out for duty; provides grounds for military encampments ordered by the Commander-in-Chief; has the charge of the State Arsenal at Trenton, where all military supplies of the State are stored, and has the general supervision of all military expenses, except where otherwise provided by law.

He has the care and preservation of all ordnance stores and ammunition, issuing them as they are required, keeps books of account with regimental and company officers, receives from the United States Government, under the act of Congress of 1808, authority for arming the militia, furnishes subsistence to troops while in active service, and pays the per diem allowed by law for such service.

The total number of small arms, the property of the State, including those in possession of the National Guard, is 17,902. The heavy ordnance, serviceable, consists of light Napoleon guns, smooth bore; four 3½-inch Ames guns, smooth bore; four 3½-inch James guns, rifled; and eighteen 3-inch Griffin guns, rifled. These, with gun carriages, limbers, caissons, battery wagons, traveling forges and implements, compose six 6-gun battalions. In addition to this there are eight Gatling guns, two Billinghamurst and Requa batteries, and two mountain howitzers, with sufficient ammunition for almost any emergency. The number of cartridges for Springfield rifles on hand is about 150,000. A large quantity of ammunition is manufactured at the Arsenal.

The Second Brigade, National Guard, participated in the Bi-Centennial military parade at Philadelphia, October 27th. They wore the regulation uniform and accoutrements, and the praise awarded them along the route was second only to that received by the famous New Jersey Battalion at Yorktown in 1881.

The entire National Guard has been furnished with the regulation accoutrements.

STATE BOARD OF HEALTH.

Previous to 1876 two State Commissioners on Health had made reports. The State Board was formed in 1877, and since then the annual reports show the work accomplished. Its present members are as follows: A. R. Leeds, Ph.D., Hoboken; Ezra M. Hunt, M. D., Sec'y, Trenton; E. A. Osborn, C. E., Middletown; E. S. Atwater, counselor-at-law, Elizabeth; Laban Dennis, M. D., Newark; Prof. Cyrus F. Brackett, Princeton, with the Secretary of State, the Attorney-General and the State Geologist as members *ex officio*.

C. F. Brackett is President, Ezra M. Hunt, Secretary, and E. A. Osborn, Recording Clerk.

In addition to the duties assigned to the Board under the constituting act it has direct charge of the law as to contagious diseases of animals, adulteration of foods, the sale of petroleum, and the sanitary inspection of all State and county institutions for the criminal and dependent classes. It also indicates the methods of studying the returns of the Bureau of Vital Statistics, as related to public health. The reports of the Council of Analysts, the Milk Inspector and the Veterinary Inspectors are made through it. Its report includes the report on Vital Statistics formerly made as a separate report. Besides its special work it is constantly consulted by cities and townships as to health ordinances, the removal of nuisances and plans for sanitary improvement. Investigations into local causes of disease are conducted under its direction. As the comfort of the people and the material resources of the State depend so much upon the health of the population, it is able to render efficient service in various directions.

Britton resigned, after a faithful service of about six years, and Horace G. Wetherill, of Hunterdon county, was elected by the Board of Managers to fill the vacancy. The usual winter evening amusements have been kept up—dancing, parlor theatricals, concerts, and exhibitions of the stereopticon with an oxy-calcium light, &c.

Resident Officers—Superintendent, Physician, H. A. Buttolph, M. D., LL.D.; Assistant Physician, Edwin E. Smith; Second Assistant Physician, Thomas M. Lloyd, M. D.; Steward, M. B. Monroe; Matron, Miss Mary Tabor

Treasurer—Eugene Vanderpool, Newark.

The whole number received from the opening of the institution, August 17th, 1876, to November 1st, 1882 was:

Women.....	662
Total.....	1,360

The institution is located near the line of the Delaware, Lackawanna and Western Railroad, about three and a half miles north of Morristown, and one and a half west of Morris Plains station, from which there is stage connection with the house. It is situated on a tract of land four hundred and fifty acres in extent, is a massive structure in lineal form, built of gneiss of a light gray color, much resembling granite. It is twelve hundred and fifty feet long in a direct line, consists of four principal wings for patients on each side of a central edifice, with two sections on each extremity of the fourth, two stories high, thus providing arrangements for sixteen full and twenty partial subdivisions of each sex. The building is warmed by steam, lighted by coal gas made on the premises, and supplied with water from mountain springs.

The boys committed to this school are of the criminal boys of the State between the ages of eight and sixteen years of age; they are successfully kept under restraint without high fences around the buildings or bars across the windows, or any of the usual barriers thrown about the jail or prison. They are divided into classes according to temperament or disposition. There are at present six of those classes called families residing in separate buildings, with a man and his wife in charge as the father and mother. Schools are provided in which each boy is taught the plain branches of English education, including singing. They are taught to labor industriously on the farm or in the shop, and have a proper allowance of time each day for recreation on the play ground. They are instructed to love and reverence God as their Creator and Preserver, and that only by obedience to His laws can true happiness be found. This institution is a model of neatness and good management. It has become famous in these respects among all similar institutions in the country. The Managers feel that larger facilities are needed for teaching boys trades.

BUREAU OF VITAL STATISTICS.

The work of this Bureau is to collect the returns of Marriages, Births and Deaths occurring in the State; to classify and index them so as to make them available as records and for the study of the vital movements and conditions of population. These records are important as effecting questions of inheritance, of pension, of life insurance, and many others in which there must be reference to the fact and time of marriage, birth or death. The inquiry which the certificate makes “Like the institution of a coroner’s jury, deters from crime, fosters a reverence for human life, and by discovering the causes of sickness or death, enables us to provide against them.” They help us to ascertain and illustrate the social condition of the people and the changes it may undergo; as also to know the rate and

cause of mortality, so necessary as a basis for the sanitary improvement of local conditions. County and city districts are thus compared and indications afforded which are reliable guides. In order to test and compare the vital returns under the last U. S. Census the statistics of Massachusetts and of this State were chosen as guides.

An examination of the books of record will show both the thoroughness and convenience of the system. The indexing and transcription are in charge of Dallas Reeve, as Registrar.

The Medical Superintendent is appointed by the Secretary of State and is under his direction and that of the State Board of Health. He is engaged in the careful study of the significance of these returns as affecting localities, as pointing out the vital conditions of population and as indicating the causes and sources of disease. Such inquiries are now regarded as essential to all health administration. Ezra M. Hunt, M. D., has charge of the study and tabulations which are necessary. The data now on hand as to our cities and counties give many suggestions as to local insanitary influences, although seasons and climate have their influence, and these are manifested in local death rates, mostly where the causes of the excessive mortality can be discovered. The aggregate of returns the last year is five thousand two hundred and sixty-eight (5,268) more than any previous year.

The year from July 1st, 1881, to July 1st, 1882, this being the tabular year, was marked by a large increase in the death rate. Comparisons show its close connection with the excessive cold of the winter 1880-81, and the heat of the two summers of 1880 and 1881, as manifesting their power on places where insanitary conditions existed. Hudson county and Paterson, and some other cities, already devote much local attention to these comparisons and act upon the information so derived. As the coming year completes a semi-decennial period we will soon be able to make these returns available by more extended tables. The statement of Marriages, Births and Deaths for the year is herewith appended.

DEPARTMENT OF INSURANCE AND SAVINGS BANKS.

INSURANCE.

The law creating an Insurance Department in this State was approved April 9th, A. D. 1875. By this act the Secretary of State was made *ex officio* Commissioner of Insurance, and given full power to execute the law relating to insurance companies organized under the laws of this State, as well as those of other States and nations desiring to transact business herein. Every insurance company doing business in this State is required to file annually with the Secretary of State, before the first day of February of each year, a detailed statement, made under oath, setting forth the financial condition of such company on the first day of January previous. This statement must give the kind and value of each item composing the assets and liabilities, the receipts and expenditures during the year, and such other general information as may be of interest for the insuring public to know.

These annual statements are carefully compiled and published in similar form as other public documents of the different departments of State.

"A supplement to the act concerning savings banks," approved March 8th, 1877, provides that these institutions shall file with the Secretary of State an annual statement, under oath, similar to those filed by insurance companies, and be subject to a personal examina-

tion at least once in two years. These statements are also compiled and published in a documentary form.

The total number of insurance companies legally doing business in this State during the year 1881, was one hundred and forty-nine, classified as follows: Companies organized under the laws of New Jersey, forty-eight, viz., joint stock companies, nineteen; purely mutual companies, twenty-nine; companies of other States, seventy-one, and companies of foreign governments, thirty.

The total amount of capital stock of all stock companies doing business in the State, was \$41,195,970, as follows: New Jersey companies, \$3,845,970; companies of other States, \$37,350,000.

Total assets of such companies, \$137,625,296, viz.: New Jersey companies, \$7,806,898; companies of other States, \$98,774,423; foreign companies (United States branches), \$30,594,787.

Total liabilities, \$90,500,019, viz.: New Jersey companies, \$5,259,287; companies of other States, \$70,243,113; foreign companies (United States branches), \$14,912,339.

The total net surplus was \$46,799,934, viz.: New Jersey stock companies, \$2,547,610; companies of other States, \$28,569,876; foreign companies (United States branches), \$15,682,447.

New Jersey mutual companies had premium notes amounting to \$4,930,436; cash assets, \$449,187; and liabilities, exclusive of unearned premiums, of \$85,278.11.

SAVINGS BANKS.

The Secretary of State is also *ex officio* Superintendent of Savings Banks. The report for the last fiscal year shows as follows:

On the 1st day of January, 1881, the total assets of all savings banks in the State amounted to \$21,083,961.75; liabilities, except surplus, \$20,047,893.63; surplus over all liabilities, \$1,038,080 37; number open accounts, 74,965.

January 1st, 1882, their total assets amounted to \$26,874,861.23; liabilities, except surplus, \$25,499,362.13; surplus over all liabilities, \$1,375,499.10; number of open accounts, 86,448.

On the 1st day of January, 1881, the number of depositors at that date was 74,965; and the amount due depositors \$19,863,638.64; and on the 1st day of January, 1882, the number was 86,448; and the amount due depositors \$25,321,712 64; an increase in number of depositors, 11,483; and in amount, \$5,458,074 00.

There are a number of savings banks still the wards of the Chancellor, and the proceedings in each case warrant the conclusion that they are being managed, under his direction, for the best interest of depositors.

Since the date of the last report the Bergen Savings Bank of Jersey City has gone into voluntary liquidation, and is paying its depositors in full as fast as their claims are presented.

BUREAU OF STATISTICS OF LABOR AND INDUSTRIES.

James Bishop, Chief of Bureau. Charles Simmermann, Assistant. Labor in New Jersey has been during the year in active demand, and our working people have been able to find steady employment. The general tendency has been to an advance in wages, but the increased price of all articles necessary for household consumption has neutralized any benefit which would have accrued to workingmen therefrom. The report of the Bureau shows the condition of 50,000 wage receivers of this State.

It also contains the complete general, as well as special, statistics of manufacturers, from the corrected returns of the tenth U. S. Census. These show that in 1880 there were in New Jersey 7,167 establishments, with a total capital of \$112,421,593, employing an average of 87,145 hands, who were paid \$46,403,045 in wages. The total products turned out were valued at \$255,925,236. The leading industries of New Jersey are shown to be:

This year the Bureau has collected information concerning the following industries:

Mining of iron ore. The output of our mines for the year was 805,672 tons; value of product, \$3,488,095; hands employed (average), 3,782; wages paid, \$1,524,725. In 1880 (109 establishments) the product was 754,872 tons, valued at \$2,900,442. New Jersey is the fourth in rank of iron producing States. The capacity of our blast furnaces is about 250,000 tons net, the production during the past year having been over 150,000 tons.

Our forty-five breweries manufactured 783,931 barrels of malt liquor, valued at over \$6,000,000. At Newark, at present the ninth city in rank in this industry, there were produced 498,436 barrels. The product for the State, in 1876, was 516,446; in 1880, 612,389 barrels.

Our thirty-one paper mills (not including those engaged in the manufacture of paper hangings, paper boxes, &c.) have an invested capital of \$2,257,300. Value of product for the year, \$2,345,830, which is an increase over 1880, when it amounted to \$2,015,569.

The Bureau has also investigated the oyster business, New Jersey being the third in rank in this industry.

Also the condition of our one hundred and twenty-five building and loan associations, most of which have been very successful in fostering thrift among people of small means, who have been able not only to save money, but in many cases to acquire homes of their own.

Under the "bounty acts," there have been paid upon "flax stalks," \$5,000 (exhausting the appropriation), upon 358 vouchers, and upon "flax fibre," \$1,000 (leaving \$1,000 yet unexpended), upon 155 vouchers. No claim has been made for bounty upon ramie yarn or jute. Also, for 5,595 tons of sorghum cane grown, \$5,595, and for 319,944 pounds of sugar manufactured from sorghum, \$3,199.44.

Under the act approved March 23d, 1882, "providing for the record and report of jail statistics," there were reported during the six months ending October 31st, 1882, in our twenty-three county jails, 7,533 inmates, of whom 1,230 were females, and 321 children under sixteen years of age. 3,546 were born in the United States. The total expense to the counties for board of these inmates, was \$73,000.

NEW JERSEY AGRICULTURAL EXPERIMENT STATION.

Established by the Legislature of 1880, and located on the grounds of Rutgers College, New Brunswick.

Board of Managers—Governor George C. Ludlow, Trenton; President, Merrill E. Gates, LL.D., New Brunswick; Thomas H. Dudley, Camden (President); I. M. Smalley, Roadstown; William Parry, Cinnaminson; William S. Taylor, Burlington; Hon. John W. Herbert, Wickatuunk; James Neilson, New Brunswick, Treasurer; Caleb Wyckoff, Belvidere; John DeMott, Middlebush; Rev. John H. Robinson, Paterson, Secretary; Cornelius A. Wortendyke, Wortendyke; William M. Force, Newark; P. T. Quinn, Newark; Abm. W. Duryee, New Durham; James Stevens, Jersey City; George H. Cook, Director; Arthur T. Neale, Chemist.

It is established to promote agricultural improvement by scientific investigation and experiment. It has a chemist, laboratory, and apparatus for analyzing fertilizers, soils, food and agricultural products, and is intended to supply information respecting seeds, insects and objects which require the apparatus and work of men devoted to special branches of science. During the last year it has analyzed one

hundred and fifty-four samples of fertilizers, forty-five samples of fodders, &c ; it has carried on numerous feeding experiments, and field experiments of fertilizers on Indian corn and sorghum. The results of work are circulated in the form of printed bulletins to every newspaper in the State, and to about thirty-five hundred farmers, and to all farmers in the State applying for them. It has already proved itself of much value to the farming community, and is constantly increasing its facilities for rendering useful assistance to this branch of industry.

GEOLOGICAL SURVEY OF NEW JERSEY.

This work was authorized by the Legislature of 1864 (See *Revision of Laws*, page 1137,) and has been continued since by various supplements. It is intended to continue the surveys begun by Prof. H. D. Rogers, 1836-40, and those of Dr. Wm. Kitchell, 1854-56.

Its Board of Managers are: His Excellency George C. Ludlow, Governor, *ex officio* President of Board; Charles E. Elmer, Esq., Bridgeton; Hon. William Parry, Cinnaminson; Hon. H. S. Little, Trenton; Henry Aitken, Esq., Elizabeth; Hon. Wm. H. Hendrickson, Middletown; Selden T. Scranton, Esq., Oxford; Hon. Thomas Lawrence, Hamburg; Hon. Aug. W. Cutler, Morristown; Col. Benjamin Ayer, Passaic; Wm. M. Force, Esq., Newark; Thomas T. Kinney, Esq., Newark; Benj. G. Clarke, Esq., Jersey City; William W. Shippen, Esq., Hoboken.

State Geologist, George H. Cook, New Brunswick; Assistant Geologist, John C. Smock, New Brunswick.

The Survey has published "Geology of New Jersey," pp. xxiv., and 899, 8vo, 1868, with portfolio of maps; Report on the Clay Deposits, pp. viii., and 381, 8vo, 1878, with map, and Annual Reports from 1869 to 1882, together with various geological and geographical maps, and a topographical map of Northeastern New Jersey, the first of a series which is designed to cover the whole State.

The Survey has also published "A Preliminary Catalogue of the Flora of New Jersey." Compiled by N. L. Britton, Ph D.

Its objects are to develop and make known the natural products, resources and advantages of the State. It has prepared maps to show its geography, its internal improvements, its water-power, drainage, and distribution of its agricultural lands. It has published descriptions of its iron mines, zinc mines, lime stones, building stones, marls, clays, glass sands, &c., with maps showing their locations. It has published, in report for 1881, surveys for water supply and accounts of wells. It has collated and published all the meteorological observations made in the State. It has joined to its scientific geology whatever of economic importance may attach to it.

The Museum of the Survey occupies the entire front of the third-story of the State House, at Trenton. It is designed to be an exhibition of some of the results of the work of the Survey. There are in it collections of representative specimens from the mines of iron, zinc, and copper ores; from the fire clay banks; from the glass-sand pits; from the green-sand marl diggings; from the quarries of limestone, slate, flagging stone and building stone; and soils from the different agricultural districts of the State. Suites of rocks and fossils characteristic of the geological formations, illustrate the geology of the State. There is a small collection of the more common minerals, and a few choice specimens of rarer species. The woods of the State are represented by about one hundred varieties. In addition to these natural products, there are fire-brick, pottery and glass wares, zinc, oxide, spelter and irons from works in the State.

AGRICULTURAL COLLEGE.

This institution is located at New Brunswick, and is part of Rutgers Scientific School. It is in charge of the Trustees of Rutgers College and of a Board of Visitors appointed by the Governor and Senate. The U. S. Congress of 1862 appropriated scrip for public lands, to the endowment and support of "colleges where the leading object shall be, without excluding other scientific and classical studies, and including military tactics, to teach such branches of learning as are related to agriculture and the mechanic arts, in such manner as the Legislatures of the States may respectively prescribe, in order to promote the liberal and practical education of the industrial classes in the several pursuits and professions in life." The scrip appropriated was sold by the State, and the fund accruing, \$116,000, is held by the State, and the annual interest, amounting to \$6,960, is appropriated exclusively to the payment of professors' salaries in the Agricultural College. The Trustees of Rutgers College provided from their own resources, buildings, laboratories, apparatus, an experimental farm of one hundred acres, and all necessary appliances.

The State receives forty scholarships in the institution free of tuition. These scholarships are open to all the counties in proportion to their population, and students are appointed to them on recommendation of a County Superintendent of Schools. Thirty of these scholarships are now filled, and there are ten vacancies.

STATE NORMAL AND MODEL SCHOOLS.

WASHINGTON HASBROUCK, Ph.D., Principal.

Two hundred and thirty-six pupils attended the Normal School last year, with an average attendance of one hundred and eighty-four.

In the Model School there were in attendance during the year four hundred and eighteen, with an average attendance of three hundred and twenty-nine.

There are about two hundred and seventy-five boarders in the boarding halls connected with these schools.

New Jersey may well be proud of one of the foremost institutions of learning, not only in the State, but in the whole country.

The State deals generously with these schools, and they are endeavoring to prove themselves worthy of their position.

By an act of the Legislature, these institutions are entirely free from debt.

STATE FISH COMMISSION.

New Jersey was among the first States in the Union to appreciate the advantages of scientific fish culture, and while many of the States were hesitating as to the adoption of the methods of increasing the supply of food fishes, which has proved so eminently successful under the fostering care of European nations, our State established a Board of Commissioners, and made appropriations with a view to utilizing the many natural advantages which she possessed.

The first Commissioners were appointed in 1870, Dr. John H. Slack, an eminent naturalist and fish culturist, being placed at the head of the commission. Since that time the work of propagating food fishes and stocking the depleted waters of the State has been prosecuted with vigor and energy. Especial attention has been given to the effort to increase the shad supply in the Delaware river, and the operations of the commission have been followed by the most marked and gratifying success. Much attention has also been given to the effort to make the Delaware a salmon producing stream, and in this the State Commissioners have received the hearty co-operation of the United States Fish Commissioner, who is a profound believer in the ultimate success of the experiments.

The power of the Commissioners to continue the work depends wholly upon legislative action, as there is no permanent appropriation for these purposes, and the operations of the Commission may be brought to a standstill at any time by the failure of the Legislature to provide the necessary means to carry it on.

The present Commissioners are Major E. J. Anderson, Trenton, Theodore Morford, Esq., Newark, and Richard S. Jenkins, Camden.

The Fish Wardens of the several counties are as follows (term of office, three years): Atlantic, Andrew J. Rider; Bergen, George Ricardo, Wheeler W.
