Student growth is a measure of how much students are learning each year. Each student receives a Student Growth Percentile (SGP) for English Language Arts/Literacy (ELA) in grades 4 through 8 and for Mathematics in grades 4 through 7 that explains their progress compared to students who had the same test scores in previous years.

A student's SGP falls between 1 and 99 and can be grouped into three levels: **Low Growth: Less than 35** **Typical Growth: Between 35 and 65** **High Growth: Greater than 65**

If the student growth percentiles for all students in the school are ordered from smallest to largest, the median student growth percentile (mSGP) for the school is the percentile in the middle of that list. Watch a short video about Student Growth Percentiles that explains how they are calculated for students and how median Student Growth Percentiles (mSGP) are calculated for groups of students.

Student Growth

This table shows the median Student Growth Percentile (mSGP) for both English Language Arts/Literacy (ELA) and Mathematics both overall and for each student group with comparisons to the district and the state. This table also shows whether each mSGP Met Standard (40-59.5) as required by ESSA accountability.

English Language Arts/Literacy Assessment - Participation and Performance

This table shows information about the English Language Arts/Literacy section of the Partnership for Assessment of Readiness for College and Careers (PARCC) assessment both overall and by student group. The PARCC assessment has five performance levels, and students scoring a Level 4 or 5 (Met or Exceeded Expectations) have demonstrated readiness for the next grade level and are on track for college and careers. This table shows the number of valid test scores, the percentage of students that took the test, and the percentage of testers that met or exceeded expectations in the school, the district, and across the state. The last three columns of the table show the proficiency rate used for federal accountability, the annual target, and whether the target was met, as required by the Every Student Succeeds Act (ESSA) accountability. Student group rows where the annual target fields are grayed out are not required to meet annual targets under ESSA accountability. For more details on New Jersey's accountability system, see these accountability resources.

Student absences provide important information about a school's culture and climate. Research shows that absences impact a student's ability to succeed in school. The New Jersey Department of Education used input from New Jersey communities to select chronic absenteeism as its measure of school quality and student success for the ESSA accountability plan. **Chronic absenteeism** is defined as being absent for 10% or more of the days enrolled during the school year. A student who is not present for any reason, whether excused, unexcused, or for disciplinary action, is considered absent unless permitted by state statute or regulations.

Chronic Absenteeism

This table shows the number and percentage of students in grades K-12 both overall and by student group who were chronically absent during the school year. The last two columns show the chronic absenteeism state average for students in the grades offered and whether the rate for each student group was above the state average ("Not Met") or less than or equal to the state average ("Met").

The New Jersey Department of Education migrated to a new reporting system, the Student Safety Data System (SSDS), which includes improved definitions, new reporting fields, and updated guidance for reporting incidents. As such, comparing this year's report to previous years' data can lead to inaccurate conclusions in many reporting categories. As such, the 2017-18 report should be considered a baseline year.

Violence, Vandalism, HIB, and Substance Offenses

This table shows the number of incidents reported by type. A single incident may be counted under multiple incident types. The total unique incidents row provides an unduplicated count of incidents. The last row shows the rate of incidents for every 100 students enrolled.

Removal types include students receiving one or more in-school suspensions, one or more out-of-school suspensions, one or more suspension of any type, removal to another school or other educational program, expulsion with no further educational services, or arrest. The second table shows the total number of days missed due to out-of-school suspension for all students during the school year.

School Day

This table shows the start and end times and length of school day for a typical student at this school. Instructional time is the amount of time that a typical student was engaged in instructional activities under the supervision of a certified teacher. Full time students attend this school for more than half of the school day and shared-time students attend the school for half of the school day or less.

Category	School
Typical Start Time	8:25 AM
Typical End Time	3:05 PM
Length of School Day	6 Hrs 40 Mins
Full Time - Instructional Time	5 Hrs 8 Mins
Shared Time - Instructional Time	N

Device Ratios

This table shows the student to device ratio, which is the number of students in tested grades 3-11 per device. Devices are computers such as tablets, iPads, laptops and Chromebooks. The count includes only devices that meet nationally recommended specifications for digital learning in grades 3-11. This information comes from the elective NJTRAx survey, therefore data may not be available for all schools. Additionally, schools that have adopted a Bring Your Own Device policy may appear to have a very low Student to Device ratio due to this policy decision.

School Year	Student to Device Ratio

Per-Pupil Expenditures (District Level)

This table shows the total current expenses for regular and special education students taught within the district's schools. It includes expenditures for instruction, support services, administration, operations and maintenance, extra-curricular activities, and community service. More information about district and charter school spending can be found using districts' User Friendly Budgets, or the NJDOE Finance District Report Search of the Comprehensive Annual Financial Reports (CAFRs) and Auditor's Management Reports (AMRs). NJDOE will be collecting school-level per-pupil expenditures data for the 2018-19 school year, and that data will be included in future reports.

New Jersey's school accountability system identifies schools that are in need of comprehensive and targeted support as required by the Every Student Succeeds Act (ESSA). For more information about New Jersey's accountability system, how indicator and summative scores were calculated, and how federal accountability status is determined, see these accountability resources.

Comprehensive Status

This table shows whether this school is identified as requiring Comprehensive Support and Improvement during the 2019-20 school year and whether it will be eligible to exit comprehensive status in January 2021 or January 2022. Schools must meet exit criteria in order to exit status. Schools with a summative score in the bottom 5% of Title I schools or with a four-year graduation rate of 67% or less are identified as requiring Comprehensive Support and Improvement.

Requires Comprehensive Support during the 2019-20 School Year	Eligible to exit status in January 2021	Eligible to exit status in January 2022
Yes	Yes	No

Targeted Status

This table shows whether one or more student groups in this school has been identified as requiring Targeted Support and Improvement during the 2019-20 school year and whether each student group will be eligible to exit targeted status in January 2021 or January 2022. Schools must meet exit criteria in order to exit status. Student groups with a summative score that would be in the bottom 5% of schools and student groups that miss annual targets for all indicators for two years in a row are identified as requiring Targeted Support and Improvement. Note: Schools identified as requiring comprehensive support may have student groups identified as needing targeted support below, but the date they are eligible to exit status is based on their comprehensive status.

Accountability Indicator Scores and Summative Rating - 2017-18 School Year

New Jersey has developed a school accountability system as required by the Every Student Succeeds Act (ESSA) to identify schools that are in need of Comprehensive Support and Improvement. This table shows the indicator scores for each indicator included in the accountability system and the weight that each indicator receives when calculating the overall Summative Score. The Summative Rating is the percentile rank of the Summative Score as compared to other schools across the state. Schools with a summative score in the bottom 5% of Title I schools or with a four-year graduation rate of 67% or less are identified as requiring Comprehensive Support and Improvement. For more information about New Jersey's accountability system and how these indicator scores were calculated, see these accountability resources.

Accountability Indicator	Score	Weight
English Language Arts Proficiency	6.69	17.5%
Mathematics Proficiency	11.26	17.5%
English Language Arts Growth	47.22	25.0%
Mathematics Growth	54.60	25.0%

Accountability Summary by Student Group - 2017-18 School Year

New Jersey has developed a school accountability system as required by the Every Student Succeeds Act (ESSA) to identify schools that are in need of Targeted Support and Improvement. Any student group where the summative score would be in the bottom 5% of schools is identified for Targeted Support for a Low-Performing Student Group. Any student group that has missed annual targets for all indicators two years in a row is identified for Targeted Support for a Consistently Underperforming Student Group. In the table below, schools in which one or more student groups are identified for Targeted Sport will be noted in the Schoolwide row. Annual targets for proficiency and graduation rate were set based on a school or student group's performance in 2015-16. The target for chronic absenteeism is the state average for chronic absenteeism based on students enrolled in the grades served by the given school. For more details on accountability targets, see these accountability resources.

Before and After School Programs:	The After school Tutorial Academy provides assistance for students in grades 2-5 in preparation for state and district assessments. The program is designed to provide individualized instruction to students and monitor their progress through benchmark assessments. The Before and Afterschool Wrap-Around Program, facilitated by an outside provider, provides care for students who arrive prior to the beginning of school day and who need supervision after dismissal. There is also a free After Dinner Program whereby students receive assistance with homework and are served a healthy dinner prior to leaving for the day.
Staff and Professional Learning:	Professional development is focused around four District initiatives: Higher-Order Thinking and Questions, Student Engagement, Feedback, and Rigorous Instruction. To this end, teachers have received professional development in Bloom's Taxonomy, Kagan cooperative learning, targeted feedback on student work, Sheltered Instruction Observation Protocol, small group instruction, planning for part two (extended learning opportunities), and differentiated instruction in order that the individual needs of all students can be appropriately addressed.

Student Supports and Services:	Support systems are in place to assist students to become college and career ready. These services include after school enrichment programs in mathematics and English language arts, Care Plus counseling program, ESL/bilingual programs, inclusion support, formative assessment to monitor student progress, Intervention and Referral Services (I&RS), school-based counseling groups, and in-school behaviorist services. The Attendance Improvement Team provides incentives for students who demonstrate and maintain exemplary attendance.
Student Health and Wellness:	The Wellness Committee engages in the following activities: distributes student allergy lists, implements the exchange of sugary beverages with water, hygiene presentation, nutrition poster contest, first aid bag distribution, oral health program, field day, and cancer awareness walk. The Committee coordinates wellness assembly programs such as Mr. Slim Goodbody Assembly and Pitter Patter Feet Assembly for the entire school. The school participates in the Breakfast After the Bell program.
Parent and Community Involvement:	We are proud of the supportive PTA at Grove Street School. It is responsible for the implementation of many events designed to enhance the social, emotional and academic experiences of students. Each year, the organization collaborates with the physical education teacher to organize basketball games between scholars at Grove Street School and those from neighboring schools. The PTA also sponsors numerous fundraisers, trips, field day activities, school dances, and a number of other activities.

Climate Surveys:	Is a Climate Survey Used: Yes; Who is surveyed: Students, Parents, Administrators, Teachers Students completed a school climate survey at the end of the 2017-2018 school year. Results revealed that approximately 93% of the students who completed the survey felt safe and valued. Parents also completed a survey and 97% described their experience at Grove Street School as positive and welcoming. The teachers' survey revealed that all teachers strongly agreed that they are afforded a plethora of opportunities to participate in professional development activities.
Facilities:	Teachers and support staff utilize a variety of interactive lessons to facilitate the transfer of information and encourage hands-on student engagement. All classrooms are furnished with interactive media software, projection systems, Smartboards, Chromebooks and computer centers. The school is also home to two well equipped technology labs. Teachers provide multiple opportunities for scholars to master a variety of programs and software formats. These include the utilization of Measuring Up, Brain Pop, Razz-Kids, and a plethora of software which are used to infuse technology into instruction. During English language arts, science, and social studies classes, scholars utilize the internet to conduct research and create power point presentations. As the world is rapidly advancing, and global communication is taking a new dimension, it is imperative that scholars are equipped with the skills necessary to embrace 21st Century philosophy and technological superiority.
School Safety:	We believe that a safe school environment is linked directly to improved student and school outcomes. Our well established School Safety Team and our Resource Officer are instrumental in helping students and parents learn about and advocate for school safety, reducing violence, improving discipline, and increasing student attendance. Through the implementation of daily morning reminders; assemblies; and classes facilitated by the Guidance Counselor, Social Worker, and consultants, our students are well aware of the importance of a safe school environment.

Other Information:	Data is used to make informed decisions and design congruent instruction at Grove Street School. Data usage has become the central point for faculty dialogue on improving student academic achievement and also for improving staff productivity. In other words, data continues to provide a rich source of information regarding strategies, programs, and performance. It paints an accurate picture of the school and is used to remind all stakeholders of the sense of urgency as we continue our efforts to work assiduously to transform Grove Street School into one that is high achieving. We endeavor to improve our skills and practices in order to provide all students with effective, challenging, enjoyable, and meaningful learning experiences. We are most proud of the fact that Kagan Structures, Higher Order Questions, and SIOP Strategies, are implemented in every classroom. As a result, we can guarantee that our students are focused and engaged for the duration of the lessons. In addition to differentiated professional development opportunities provided by the district, the staff pursued outside opportunities to participate in professional development activities. Teachers also participated in Professional Learning Committees and during Common Planning and Faculty Meetings, they make presentations to their colleagues. Incorporating the Positive Behavior Support In School Program (PBSIS) along with the Grove Street School Code of Conduct have become essential components regarding the expected behavior of scholars. Behavior contracts based on the core values, provide a foundation in individual accountability and character. Grove Street School has also established a strong Anti-Bullying program. From pre-kindergarten through fifth grade, students are taught to demonstrate, consideration, patience, empathy, and respect for each other. Grove Street School strives to ensure that our students are 21st century learners and thinkers and are college and career ready.
