Student growth is a measure of how much students are learning each year. Each student receives a Student Growth Percentile (SGP) for English Language Arts/Literacy (ELA) in grades 4 through 8 and for Mathematics in grades 4 through 7 that explains their progress compared to students who had the same test scores in previous years.

A student's SGP falls between 1 and 99 and can be grouped into three levels: **Low Growth: Less than 35** **Typical Growth: Between 35 and 65** **High Growth: Greater than 65**

If the student growth percentiles for all students in the school are ordered from smallest to largest, the median student growth percentile (mSGP) for the school is the percentile in the middle of that list. Watch a short video about Student Growth Percentiles that explains how they are calculated for students and how median Student Growth Percentiles (mSGP) are calculated for groups of students.

Student Growth

This table shows the median Student Growth Percentile (mSGP) for both English Language Arts/Literacy (ELA) and Mathematics both overall and for each student group with comparisons to the district and the state. This table also shows whether each mSGP Met Standard (40-59.5) as required by ESSA accountability.

Student Group	ELA: School Median	ELA: District Median	ELA: Statewide Median	ELA: Met Standard (40-59.5)	Math: School Median	Math: District Median	Math: Statewide Median	Math: Met Standard (40-59.5)

English Language Arts/Literacy Assessment - Participation and Performance

This table shows information about the English Language Arts/Literacy section of the Partnership for Assessment of Readiness for College and Careers (PARCC) assessment both overall and by student group. The PARCC assessment has five performance levels, and students scoring a Level 4 or 5 (Met or Exceeded Expectations) have demonstrated readiness for the next grade level and are on track for college and careers. This table shows the number of valid test scores, the percentage of students that took the test, and the percentage of testers that met or exceeded expectations in the school, the district, and across the state. The last three columns of the table show the proficiency rate used for federal accountability, the annual target, and whether the target was met, as required by the Every Student Succeeds Act (ESSA) accountability. Student group rows where the annual target fields are grayed out are not required to meet annual targets under ESSA accountability. For more details on New Jersey's accountability system, see these accountability resources.

English Language Progress to Proficiency

This table shows the percentage of English Learners who demonstrated the expected amount of growth on the ACCESS for ELLs 2.0 Assessment for English Language proficiency. Expected growth is based on the student's initial level of English Language Proficiency during the 2016-17 school year and the number of years the student has been enrolled in the district. This table also shows the school's 2017-18 ESSA accountability target and whether the target was met.

The New Jersey Student Learning Assessment for Science (NJSLA-S) measures student proficiency with the New Jersey Student Learning Standards for Science. All students in grade 5, grade 8, and grade 11 were administered the NJSLA-Science field test in 2017-18.

NJASK Science Assessment Information

New Jersey transitioned from the NJASK to NJSLA-S in 2017-18 to align to new science standards. Results of field tests in 2017-18 will not be reported, but results of NJSLA-S will be added to the performance reports in 2018-19.

Student absences provide important information about a school's culture and climate. Research shows that absences impact a student's ability to succeed in school. The New Jersey Department of Education used input from New Jersey communities to select chronic absenteeism as its measure of school quality and student success for the ESSA accountability plan. **Chronic absenteeism** is defined as being absent for 10% or more of the days enrolled during the school year. A student who is not present for any reason, whether excused, unexcused, or for disciplinary action, is considered absent unless permitted by state statute or regulations.

Chronic Absenteeism

This table shows the number and percentage of students in grades K-12 both overall and by student group who were chronically absent during the school year. The last two columns show the chronic absenteeism state average for students in the grades offered and whether the rate for each student group was above the state average ("Not Met") or less than or equal to the state average ("Met").

The New Jersey Department of Education migrated to a new reporting system, the Student Safety Data System (SSDS), which includes improved definitions, new reporting fields, and updated guidance for reporting incidents. As such, comparing this year's report to previous years' data can lead to inaccurate conclusions in many reporting categories. As such, the 2017-18 report should be considered a baseline year.

Violence, Vandalism, HIB, and Substance Offenses

This table shows the number of incidents reported by type. A single incident may be counted under multiple incident types. The total unique incidents row provides an unduplicated count of incidents. The last row shows the rate of incidents for every 100 students enrolled.

This table shows the start and end times and length of school day for a typical student at this school. Instructional time is the amount of time that a typical student was engaged in instructional activities under the supervision of a certified teacher. Full time students attend this school for more than half of the school day and shared-time students attend the school for half of the school day or less.

Device Ratios

This table shows the student to device ratio, which is the number of students in tested grades 3-11 per device. Devices are computers such as tablets, iPads, laptops and Chromebooks. The count includes only devices that meet nationally recommended specifications for digital learning in grades 3-11. This information comes from the elective NJTRAx survey, therefore data may not be available for all schools. Additionally, schools that have adopted a Bring Your Own Device policy may appear to have a very low Student to Device ratio due to this policy decision.

Per-Pupil Expenditures (District Level)

This table shows the total current expenses for regular and special education students taught within the district's schools. It includes expenditures for instruction, support services, administration, operations and maintenance, extra-curricular activities, and community service. More information about district and charter school spending can be found using districts' User Friendly Budgets, or the NJDOE Finance District Report Search of the Comprehensive Annual Financial Reports (CAFRs) and Auditor's Management Reports (AMRs). NJDOE will be collecting school-level per-pupil expenditures data for the 2018-19 school year, and that data will be included in future reports.

New Jersey's school accountability system identifies schools that are in need of comprehensive and targeted support as required by the Every Student Succeeds Act (ESSA). For more information about New Jersey's accountability system, how indicator and summative scores were calculated, and how federal accountability status is determined, see these accountability resources.

Comprehensive Status

This table shows whether this school is identified as requiring Comprehensive Support and Improvement during the 2019-20 school year and whether it will be eligible to exit comprehensive status in January 2021 or January 2022. Schools must meet exit criteria in order to exit status. Schools with a summative score in the bottom 5% of Title I schools or with a four-year graduation rate of 67% or less are identified as requiring Comprehensive Support and Improvement.

Requires Comprehensive Support during the 2019-20 School Year	Eligible to exit status in January 2021	Eligible to exit status in January 2022
No	n/a	n/a

Targeted Status

This table shows whether one or more student groups in this school has been identified as requiring Targeted Support and Improvement during the 2019-20 school year and whether each student group will be eligible to exit targeted status in January 2021 or January 2022. Schools must meet exit criteria in order to exit status. Student groups with a summative score that would be in the bottom 5% of schools and student groups that miss annual targets for all indicators for two years in a row are identified as requiring Targeted Support and Improvement. Note: Schools identified as requiring comprehensive support may have student groups identified as needing targeted support below, but the date they are eligible to exit status is based on their comprehensive status.

Accountability Indicator Scores and Summative Rating - 2017-18 School Year

New Jersey has developed a school accountability system as required by the Every Student Succeeds Act (ESSA) to identify schools that are in need of Comprehensive Support and Improvement. This table shows the indicator scores for each indicator included in the accountability system and the weight that each indicator receives when calculating the overall Summative Score. The Summative Rating is the percentile rank of the Summative Score as compared to other schools across the state. Schools with a summative score in the bottom 5% of Title I schools or with a four-year graduation rate of 67% or less are identified as requiring Comprehensive Support and Improvement. For more information about New Jersey's accountability system and how these indicator scores were calculated, see these accountability resources.

Accountability Indicator	Score	Weight
English Language Arts Proficiency	57.58	17.5%
Mathematics Proficiency	76.78	17.5%
English Language Arts Growth	80.69	25.0%
Mathematics Growth	99.29	25.0%

Accountability Summary by Student Group - 2017-18 School Year

New Jersey has developed a school accountability system as required by the Every Student Succeeds Act (ESSA) to identify schools that are in need of Targeted Support and Improvement. Any student group where the summative score would be in the bottom 5% of schools is identified for Targeted Support for a Low-Performing Student Group. Any student group that has missed annual targets for all indicators two years in a row is identified for Targeted Support for a Consistently Underperforming Student Group. In the table below, schools in which one or more student groups are identified for Targeted Sport will be noted in the Schoolwide row. Annual targets for proficiency and graduation rate were set based on a school or student group's performance in 2015-16. The target for chronic absenteeism is the state average for chronic absenteeism based on students enrolled in the grades served by the given school. For more details on accountability targets, see these accountability resources.

Before and After School Programs:	Sharon School is one of two schools that offers students the opportunity to participate in the Robbinsville Extended Day (RED) program, our premiere childcare and enrichment program. Established in 2011, the program has grown exponentially over the years and has a current enrollment of 550+ students. Enrichment opportunities include chess, knitting, science, nutrition, sports, and field trips. RED proceeds have been used to fund a playground at Sharon and, more recently, a new school bus.
Staff and Professional Learning:	Professional development is facilitating opportunities for teachers to achieve knowledge and skills necessary for student learning,modeling best practices,encouraging teacher leadership,creating a positive professional culture,developing coaching cycles,and having a 4 year new teacher induction plan. We promote reflective learners by analyzing data to improve learning,designing self-directed professional development opportunities, providing ongoing guidance,support and resources for teachers.

Student Supports and Services:	Academic Support is a program to boost a student's "academic muscles" in Math and English Language Arts. Placement is flexible, meaning that students may enter and exit the program throughout the year based on their specific individual needs. The sessions in both Math and ELA are organized by the Common Core Standards. Reading Recovery is offered to our most struggling First Grade readers. It is an intensive 16 week, 1-on-1 program, with the goal of bringing the student to read on grade level.
Student Health and Wellness:	Our Guidance Program has two counselors who provide services for classrooms, small groups and individuals. Our Health Office has two nurses that provide health screenings and care for the most basic first aid need to treating and monitoring our chronically ill students. We provide a health aide at lunch to monitor our students with food allergies and chronic illnesses. We provide recess each day for all students and twice a day for Kindergarten. We have a school-based Wellness Program.
Parent and Community Involvement:	We are grateful for our very active PTA. They are supportive of our students and staff and most generous with their time, skills and creativity! The Sharon School PTA plans many activities for students and their families and has a lots of ways to participate through committees and volunteering. The Robbinsville Community frequently partners with Sharon School for the collective good of the township. We have collaborated on events to improve Robbinsville Township and help those in need.

Facilities:	The most recent addition to Sharon School was in 2015. During that time, air conditioning was installed in the entire school. Our building has core facilities that included two gymnasiums, a cafeteria, and media center. We have classrooms for our Pre-K to 4th Grade students as well as small group instruction rooms. Our playground welcomes and is compatible for all of our students.

Other Information:	The students and staff of Sharon Elementary School continue to experience success on multiple levels. Each day begins with the Morning Meeting component of Responsive Classroom, a research-based approach to elementary education which demonstrates that a social curriculum is as fundamental to a child's development as the academic. We believe that how children learn is as important as what they learn. Because all students develop their literacy skills at different rates, we apply balanced literacy strategies and techniques to ensure success.Whether a student is deemed a proficient or a developing reader/writer, it is critical that they are provided a variety of experiences. A balanced literacy approach is comprised of reading and writing components, each supporting the other. This approach enables the teacher to develop instruction to meet the needs of each student. Components of balanced literacy include: Read Aloud, Shared Reading, Independent Reading, Guided Reading, Shared Writing, Writer's Workshop, Reader's Workshop, and Literacy Centers. Fundations, a researched based phonics and handwriting program, is implemented in grades K-2. We use the Everyday Mathematics approach to teach math. This style of instruction helps students learn more mathematical content and encourages them to become life-long mathematical thinkers. Everyday Math is a problem solving approach based on real world, practical situations. We make connections between the students' own knowledge and their experiences both in school and at home. Rocket Math is utilized for students in grades 1 – 4 to help build speed and rote memory in the areas of addition, subtraction, multiplication and division. Next Generation Science Standards are taught through hands-on science kits for physical, life and environmental science. All students participate in Art, Computers, Library, and Music classes once a week, while Physical Education classes meet twice a week. 3rd and 4th grade students also have STEAM lab.
