Student growth is a measure of how much students are learning each year. Each student receives a Student Growth Percentile (SGP) for English Language Arts/Literacy (ELA) in grades 4 through 8 and for Mathematics in grades 4 through 7 that explains their progress compared to students who had the same test scores in previous years.

A student's SGP falls between 1 and 99 and can be grouped into three levels: **Low Growth: Less than 35** **Typical Growth: Between 35 and 65** **High Growth: Greater than 65**

If the student growth percentiles for all students in the school are ordered from smallest to largest, the median student growth percentile (mSGP) for the school is the percentile in the middle of that list. Watch a short video about Student Growth Percentiles that explains how they are calculated for students and how median Student Growth Percentiles (mSGP) are calculated for groups of students.

Student Growth

This table shows the median Student Growth Percentile (mSGP) for both English Language Arts/Literacy (ELA) and Mathematics both overall and for each student group with comparisons to the district and the state. This table also shows whether each mSGP Met Standard (40-59.5) as required by ESSA accountability.

Student Group	ELA: School Median	ELA: District Median	ELA: Statewide Median	ELA: Met Standard (40-59.5)	Math: School Median	Math: District Median	Math: Statewide Median	Math: Met Standard (40-59.5)

English Language Arts/Literacy Assessment - Participation and Performance

This table shows information about the English Language Arts/Literacy section of the Partnership for Assessment of Readiness for College and Careers (PARCC) assessment both overall and by student group. The PARCC assessment has five performance levels, and students scoring a Level 4 or 5 (Met or Exceeded Expectations) have demonstrated readiness for the next grade level and are on track for college and careers. This table shows the number of valid test scores, the percentage of students that took the test, and the percentage of testers that met or exceeded expectations in the school, the district, and across the state. The last three columns of the table show the proficiency rate used for federal accountability, the annual target, and whether the target was met, as required by the Every Student Succeeds Act (ESSA) accountability. Student group rows where the annual target fields are grayed out are not required to meet annual targets under ESSA accountability. For more details on New Jersey's accountability system, see these accountability resources.

Expected growth is based on the student's initial level of English Language Proficiency during the 2016-17 school year and the number of years the student has been enrolled in the district. This table also shows the school's 2017-18 ESSA accountability target and whether the target was met.

NJASK Science Assessment Information

New Jersey transitioned from the NJASK to NJSLA-S in 2017-18 to align to new science standards. Results of field tests in 2017-18 will not be reported, but results of NJSLA-S will be added to the performance reports in 2018-19.

Student absences provide important information about a school's culture and climate. Research shows that absences impact a student's ability to succeed in school. The New Jersey Department of Education used input from New Jersey communities to select chronic absenteeism as its measure of school quality and student success for the ESSA accountability plan. **Chronic absenteeism** is defined as being absent for 10% or more of the days enrolled during the school year. A student who is not present for any reason, whether excused, unexcused, or for disciplinary action, is considered absent unless permitted by state statute or regulations.

Chronic Absenteeism

This table shows the number and percentage of students in grades K-12 both overall and by student group who were chronically absent during the school year. The last two columns show the chronic absenteeism state average for students in the grades offered and whether the rate for each student group was above the state average ("Not Met") or less than or equal to the state average ("Met").

The New Jersey Department of Education migrated to a new reporting system, the Student Safety Data System (SSDS), which includes improved definitions, new reporting fields, and updated guidance for reporting incidents. As such, comparing this year's report to previous years' data can lead to inaccurate conclusions in many reporting categories. As such, the 2017-18 report should be considered a baseline year.

Violence, Vandalism, HIB, and Substance Offenses

This table shows the number of incidents reported by type. A single incident may be counted under multiple incident types. The total unique incidents row provides an unduplicated count of incidents. The last row shows the rate of incidents for every 100 students enrolled.

The nature of an incident is based on the protected categories listed below, and the nature of a single HIB investigation may include multiple categories. All confirmed incidents must have an identified nature.

Removal types include students receiving one or more in-school suspensions, one or more out-of-school suspensions, one or more suspension of any type, removal to another school or other educational program, expulsion with no further educational services, or arrest. The second table shows the total number of days missed due to out-of-school suspension for all students during the school year.

School Day

This table shows the start and end times and length of school day for a typical student at this school. Instructional time is the amount of time that a typical student was engaged in instructional activities under the supervision of a certified teacher. Full time students attend this school for more than half of the school day and shared-time students attend the school for half of the school day or less.

Category	School
Typical Start Time	8:50 AM
Typical End Time	3:30 PM
Length of School Day	6 Hrs 40 Mins
Full Time - Instructional Time	5 Hrs 55 Mins
Shared Time - Instructional Time	5 Hrs. 55 Mins.

Device Ratios

This table shows the student to device ratio, which is the number of students in tested grades 3-11 per device. Devices are computers such as tablets, iPads, laptops and Chromebooks. The count includes only devices that meet nationally recommended specifications for digital learning in grades 3-11. This information comes from the elective NJTRAx survey, therefore data may not be available for all schools. Additionally, schools that have adopted a Bring Your Own Device policy may appear to have a very low Student to Device ratio due to this policy decision.

School Year	Student to Device Ratio
2017-18	1:1

Per-Pupil Expenditures (District Level)

This table shows the total current expenses for regular and special education students taught within the district's schools. It includes expenditures for instruction, support services, administration, operations and maintenance, extra-curricular activities, and community service. More information about district and charter school spending can be found using districts' User Friendly Budgets, or the NJDOE Finance District Report Search of the Comprehensive Annual Financial Reports (CAFRs) and Auditor's Management Reports (AMRs). NJDOE will be collecting school-level per-pupil expenditures data for the 2018-19 school year, and that data will be included in future reports.

New Jersey's school accountability system identifies schools that are in need of comprehensive and targeted support as required by the Every Student Succeeds Act (ESSA). For more information about New Jersey's accountability system, how indicator and summative scores were calculated, and how federal accountability status is determined, see these accountability resources.

Comprehensive Status

This table shows whether this school is identified as requiring Comprehensive Support and Improvement during the 2019-20 school year and whether it will be eligible to exit comprehensive status in January 2021 or January 2022. Schools must meet exit criteria in order to exit status. Schools with a summative score in the bottom 5% of Title I schools or with a four-year graduation rate of 67% or less are identified as requiring Comprehensive Support and Improvement.

Requires Comprehensive Support during the 2019-20 School Year	Eligible to exit status in January 2021	Eligible to exit status in January 2022
No	n/a	n/a

Targeted Status

This table shows whether one or more student groups in this school has been identified as requiring Targeted Support and Improvement during the 2019-20 school year and whether each student group will be eligible to exit targeted status in January 2021 or January 2022. Schools must meet exit criteria in order to exit status. Student groups with a summative score that would be in the bottom 5% of schools and student groups that miss annual targets for all indicators for two years in a row are identified as requiring Targeted Support and Improvement. Note: Schools identified as requiring comprehensive support may have student groups identified as needing targeted support below, but the date they are eligible to exit status is based on their comprehensive status.

Accountability Indicator Scores and Summative Rating - 2017-18 School Year

New Jersey has developed a school accountability system as required by the Every Student Succeeds Act (ESSA) to identify schools that are in need of Comprehensive Support and Improvement. This table shows the indicator scores for each indicator included in the accountability system and the weight that each indicator receives when calculating the overall Summative Score. The Summative Rating is the percentile rank of the Summative Score as compared to other schools across the state. Schools with a summative score in the bottom 5% of Title I schools or with a four-year graduation rate of 67% or less are identified as requiring Comprehensive Support and Improvement. For more information about New Jersey's accountability system and how these indicator scores were calculated, see these accountability resources.

Accountability Indicator	Score	Weight
English Language Arts Proficiency	99.41	17.5%
Mathematics Proficiency	99.76	17.5%
English Language Arts Growth	64.87	25.0%
Mathematics Growth	94.07	25.0%
Progress Towards English Language Proficiency	**	**
Chronic Absenteeism	65.41	15.0%
Summative Score: Sum of all indicator scores multiplied by indicator weights	84.40	n/a
Summative Rating: Percentile Rank of Summative Score	94.37	n/a

Accountability Summary by Student Group - 2017-18 School Year

New Jersey has developed a school accountability system as required by the Every Student Succeeds Act (ESSA) to identify schools that are in need of Targeted Support and Improvement. Any student group where the summative score would be in the bottom 5% of schools is identified for Targeted Support for a Low-Performing Student Group. Any student group that has missed annual targets for all indicators two years in a row is identified for Targeted Support for a Consistently Underperforming Student Group. In the table below, schools in which one or more student groups are identified for Targeted Sport will be noted in the Schoolwide row. Annual targets for proficiency and graduation rate were set based on a school or student group's performance in 2015-16. The target for chronic absenteeism is the state average for chronic absenteeism based on students enrolled in the grades served by the given school. For more details on accountability targets, see these accountability resources.

Student Supports and Services:	A dedicated teacher supports all ELLs. We have several programs for students with disabiities: CAPS (CRS), Bridges (WAS), Bright Horizons preschool (HMRS), and the Pathways program (FAMS). Struggling students receive pull-out supplemental instruction in Reading and Writing and/or Mathematics (CSI for grades K-5 and Strategies & Intervention for grades 6-8). Additional in-class supplemental/replacement instruction is provided at all schools in Reading and Writing, Mathematics, Science, and SS.
Student Health and Wellness:	We provide a healthy educational environment that fosters sound bodies, sound spirits, and sound minds. Speech, physical/occupational therapy, behavioral and counseling support are provided. Physical ed classes, daily recess, and daily movement opportunities support physical activity goals. This year, preK-5 students enjoyed an assembly with tasting stations, reviewing good nutrition and making good choices.. The Character Education program, Olweus, is employed throughout the District.
Parent and Community Involvement:	Strong and generous PTAs support activities at each school. A SEPAC provides parent input on special education topics. The Franklin Lakes Education Foundation offers significant financial support. Back to School Night, Parent Academies, Read Across America, concerts and shows welcome parents and community members. A Parent Portal is available through our website. Parent and community partnerships exist with the Mayor's Wellness campaign, Sustainable Jersey, and Change the World.

Climate Surveys:	Is a Climate Survey Used: Yes; Who is surveyed: Students, Parents, Teachers School climate surveys are administered regularly to parents, students, and teachers. The results are shared in presentations to the Board of Education and to parent groups. Results from the most recent School Climate survey for parents indicate that 81.2 percent Strongly Agree or Agree with the statement "I am satisfied with the overall quality of my child's education."
Facilities:	High Mountain Road School was built in 1962 with additions in 1995. It is approximately 55,800 square feet. Our air-conditioned, handicapped accessible facility features an Imagination Station, outdoor courtyard, and specially designed PreK/K playground in addition to the larger playground for grades 1-5.
School Safety:	The District participates in regional shared services with the FLOW district (Wyckoff, Oakland, and Franklin Lakes K-8) and the Ramapo/IHHS high school district. The group collectively employs a FLOW School Security Coordinator to assess security procedures and provide training and consultation. Each school conducts regular safety drills of various types. All schools in the District are equipped with video surveillance and double-entry security systems. All staff use the SHARE 911 system for communication during drills or real-life events.

Technology and STEM:	The Franklin Lakes Discovery Program reaches every student in Grades 4-5 with engaging and hands-on STEM (science, technology, engineering, and math) units of study integrated with the science curriculum. The vision of this innovative program is to enable learners to think beyond the boundaries of their classroom. As an inquiry-based instructional program, The Discovery Program strives to provide learning opportunities that encourage complex thought, inspired exploration and personal discovery. Through meaningful problem solving, students develop the ability to collaborate, communicate and think independently in the context of personal and social development. Students work in 21st Century classrooms, equipped with SmartBoards, sound systems, document cameras, computer cars, and iPads and/or Kindles. Additionally, 5th graders enjoy a 1:1 laptop initiative.
Early Childhood Education:	Bright Horizon is an integrated preschool program located at High Mountain Road School providing a unique opportunity for both general and special needs students to receive an education in a half or full day inclusive setting. Each classroom is taught by both a general and special educator in collaboration through a co-teaching model. This team teaching approach provides the opportunity for preschool students who experience early developmental delays to be educated with their non-disabled peers. Additionally, related service providers support students in the classroom setting determined by the IEP Team.
