

STATE OF NEW JERSEY
DEPARTMENT OF AGRICULTURE
W. H. ALLEN, Secretary
Trenton 8

Division of Plant Industry

H. B. Weiss, Director

An order to regulate the movement into and within New Jersey of Five-Leaved Pines (*Pinus*), and Currant and Gooseberry Plants (*Ribes* and *Grossularia* spp.), including cultivated or wild or ornamental sorts.

In order to prevent the spread of White Pine Blister Rust (*Cronartium ribicola* Fischer) in the State of New Jersey, the movement of the above designated material is regulated as follows:

- (1) Five-leaved pines, except such pines visibly infected with blister rust, may be moved into or within New Jersey.
- (2) The movement of European Black Currant (*Ribes nigrum* L.) plants into or within New Jersey is prohibited.
- (3) The movement of any species, variety, or hybrid of currant and gooseberry plants (*Ribes* sp. and *Grossularia* sp.) into the following townships, constituting a protective area, is prohibited: Montague, Sandyston, Wallpack and Vernon townships in Sussex County; West Milford, Ringwood and Wanaque townships in Passaic County, and Jefferson Township in Morris County
- (4) Currant plants and gooseberry plants other than European Black Currant (*Ribes nigrum* L.) may be moved into and within all other points in New Jersey by complying with the general requirements of the New Jersey Department of Agriculture for the movement of nursery stock.

This order shall take effect immediately. The order of the State Board of Agriculture, dated December 21, 1938, and concerning this subject, is hereby repealed.

W. H. ALLEN
Secretary of Agriculture

Approved March 23, 1949.
