Student growth is a measure of how much students are learning each year. Each student receives a Student Growth Percentile (SGP) for English Language Arts/Literacy (ELA) in grades 4 through 8 and for Mathematics in grades 4 through 7 that explains their progress compared to students who had the same test scores in previous years.

A student's SGP falls between 1 and 99 and can be grouped into three levels: **Low Growth: Less than 35** **Typical Growth: Between 35 and 65** **High Growth: Greater than 65**

If the student growth percentiles for all students in the school are ordered from smallest to largest, the median student growth percentile (mSGP) for the school is the percentile in the middle of that list. Watch a short video about Student Growth Percentiles that explains how they are calculated for students and how median Student Growth Percentiles (mSGP) are calculated for groups of students.

Student Growth

This table shows the median Student Growth Percentile (mSGP) for both English Language Arts/Literacy (ELA) and Mathematics both overall and for each student group with comparisons to the district and the state. This table also shows whether each mSGP Met Standard (40-59.5) as required by ESSA accountability.

English Language Arts/Literacy Assessment - Participation and Performance

This table shows information about the English Language Arts/Literacy section of the Partnership for Assessment of Readiness for College and Careers (PARCC) assessment both overall and by student group. The PARCC assessment has five performance levels, and students scoring a Level 4 or 5 (Met or Exceeded Expectations) have demonstrated readiness for the next grade level and are on track for college and careers. This table shows the number of valid test scores, the percentage of students that took the test, and the percentage of testers that met or exceeded expectations in the school, the district, and across the state. The last three columns of the table show the proficiency rate used for federal accountability, the annual target, and whether the target was met, as required by the Every Student Succeeds Act (ESSA) accountability. Student group rows where the annual target fields are grayed out are not required to meet annual targets under ESSA accountability. For more details on New Jersey's accountability system, see these accountability resources.

Expected growth is based on the student's initial level of English Language Proficiency during the 2016-17 school year and the number of years the student has been enrolled in the district. This table also shows the school's 2017-18 ESSA accountability target and whether the target was met.

Student absences provide important information about a school's culture and climate. Research shows that absences impact a student's ability to succeed in school. The New Jersey Department of Education used input from New Jersey communities to select chronic absenteeism as its measure of school quality and student success for the ESSA accountability plan. **Chronic absenteeism** is defined as being absent for 10% or more of the days enrolled during the school year. A student who is not present for any reason, whether excused, unexcused, or for disciplinary action, is considered absent unless permitted by state statute or regulations.

Chronic Absenteeism

This table shows the number and percentage of students in grades K-12 both overall and by student group who were chronically absent during the school year. The last two columns show the chronic absenteeism state average for students in the grades offered and whether the rate for each student group was above the state average ("Not Met") or less than or equal to the state average ("Met").

The New Jersey Department of Education migrated to a new reporting system, the Student Safety Data System (SSDS), which includes improved definitions, new reporting fields, and updated guidance for reporting incidents. As such, comparing this year's report to previous years' data can lead to inaccurate conclusions in many reporting categories. As such, the 2017-18 report should be considered a baseline year.

Violence, Vandalism, HIB, and Substance Offenses

This table shows the number of incidents reported by type. A single incident may be counted under multiple incident types. The total unique incidents row provides an unduplicated count of incidents. The last row shows the rate of incidents for every 100 students enrolled.

School Day

This table shows the start and end times and length of school day for a typical student at this school. Instructional time is the amount of time that a typical student was engaged in instructional activities under the supervision of a certified teacher. Full time students attend this school for more than half of the school day and shared-time students attend the school for half of the school day or less.

Category	School

Device Ratios

This table shows the student to device ratio, which is the number of students in tested grades 3-11 per device. Devices are computers such as tablets, iPads, laptops and Chromebooks. The count includes only devices that meet nationally recommended specifications for digital learning in grades 3-11. This information comes from the elective NJTRAx survey, therefore data may not be available for all schools. Additionally, schools that have adopted a Bring Your Own Device policy may appear to have a very low Student to Device ratio due to this policy decision.

Per-Pupil Expenditures (District Level)

This table shows the total current expenses for regular and special education students taught within the district's schools. It includes expenditures for instruction, support services, administration, operations and maintenance, extra-curricular activities, and community service. More information about district and charter school spending can be found using districts' User Friendly Budgets, or the NJDOE Finance District Report Search of the Comprehensive Annual Financial Reports (CAFRs) and Auditor's Management Reports (AMRs). NJDOE will be collecting school-level per-pupil expenditures data for the 2018-19 school year, and that data will be included in future reports.

New Jersey's school accountability system identifies schools that are in need of comprehensive and targeted support as required by the Every Student Succeeds Act (ESSA). For more information about New Jersey's accountability system, how indicator and summative scores were calculated, and how federal accountability status is determined, see these accountability resources.

Comprehensive Status

This table shows whether this school is identified as requiring Comprehensive Support and Improvement during the 2019-20 school year and whether it will be eligible to exit comprehensive status in January 2021 or January 2022. Schools must meet exit criteria in order to exit status. Schools with a summative score in the bottom 5% of Title I schools or with a four-year graduation rate of 67% or less are identified as requiring Comprehensive Support and Improvement.

Requires Comprehensive Support during the 2019-20 School Year	Eligible to exit status in January 2021	Eligible to exit status in January 2022

Targeted Status

This table shows whether one or more student groups in this school has been identified as requiring Targeted Support and Improvement during the 2019-20 school year and whether each student group will be eligible to exit targeted status in January 2021 or January 2022. Schools must meet exit criteria in order to exit status. Student groups with a summative score that would be in the bottom 5% of schools and student groups that miss annual targets for all indicators for two years in a row are identified as requiring Targeted Support and Improvement. Note: Schools identified as requiring comprehensive support may have student groups identified as needing targeted support below, but the date they are eligible to exit status is based on their comprehensive status.

Accountability Indicator Scores and Summative Rating - 2017-18 School Year

New Jersey has developed a school accountability system as required by the Every Student Succeeds Act (ESSA) to identify schools that are in need of Comprehensive Support and Improvement. This table shows the indicator scores for each indicator included in the accountability system and the weight that each indicator receives when calculating the overall Summative Score. The Summative Rating is the percentile rank of the Summative Score as compared to other schools across the state. Schools with a summative score in the bottom 5% of Title I schools or with a four-year graduation rate of 67% or less are identified as requiring Comprehensive Support and Improvement. For more information about New Jersey's accountability system and how these indicator scores were calculated, see these accountability resources.

Accountability Indicator	Score	Weight
English Language Arts Proficiency	90.58	17.5%
Mathematics Proficiency	83.29	17.5%
English Language Arts Growth	40.76	25.0%

Accountability Summary by Student Group - 2017-18 School Year

New Jersey has developed a school accountability system as required by the Every Student Succeeds Act (ESSA) to identify schools that are in need of Targeted Support and Improvement. Any student group where the summative score would be in the bottom 5% of schools is identified for Targeted Support for a Low-Performing Student Group. Any student group that has missed annual targets for all indicators two years in a row is identified for Targeted Support for a Consistently Underperforming Student Group. In the table below, schools in which one or more student groups are identified for Targeted Sport will be noted in the Schoolwide row. Annual targets for proficiency and graduation rate were set based on a school or student group's performance in 2015-16. The target for chronic absenteeism is the state average for chronic absenteeism based on students enrolled in the grades served by the given school. For more details on accountability targets, see these accountability resources.

Courses, Curriculum, Instruction:	Combined with this positive climate is a strong academic curriculum that is aligned to the New Jersey Student Learning Standards (NJSLS). The core of the academic program is based on a solid foundation of Balanced Literacy using the Readers and Writers Workshop model, a math program based on a variety of methodologies, a new science curriculum aligned to the NGSS, and a social studies program that emphasizes history and diversity.
Sports and Athletics:	Although there are no interscholastic sports or athletics at the elementary school level, K-5 students participate in physical education classes that focus on skill development, sportsmanship, collaboration, health, and wellness.
Clubs and Activities:	Student Government (Grades 3-5); Special Art (Grades 4 and 5); Orchestra (Grades 4 and 5); Band (Grade 5); Workshop program (G&T) (Grades 3-5)

Before and After School Programs:	Homework Club is generally offered three days per week for students in all grade levels who would like a quiet place to complete their daily assignments before they leave school.
Staff and Professional Learning:	A district-wide professional development program provides opportunities for teachers to expand their professional repertoire to ensure their daily instruction reflects current best practices and cutting-edge theory. Teachers often attend PD seminars outside of the district and pursue graduate degrees that support their teaching assignments. The district also contracts with curriculum experts and provides PD opportunities during designated times throughout the year.

Student Supports and Services:	English language learners and students with learning disabilities are afforded various accommodations designed to help them meet or exceed the NJ Student Learning Standards. As we transition to an RTI model, students experiencing academic, health-related or social challenges may be referred to the Intervention and Referral Service Committee (I&RS) for assistance. Our school counselor also offers a weekly lunch bunch program to teach and reinforce social skills among students in Grades 1-5.
Student Health and Wellness:	Our school nurse and counselor work collaboratively to promote the health and wellness of students and staff. While our counselor meets with individuals, small groups and whole classes to address social and emotional issues, our nurse addresses the overall health and wellness of all members of the school community. K-5 students have PE two times per week and outdoor recess every day, weather permitting. Additionally, wellness exercises are integrated into the daily schedule at each grade level.
Parent and Community Involvement:	The PTO sponsors several special events and programs that enrich the children?s educational experience. The key to any school?s success has and always will be a strong partnership between the parents of our community and the school. The tireless support of the parents and other community stakeholders continues to make Manito a very special place for children. We are proud of this collaborative partnership and the implications it has for our ongoing commitment to finding Success for Every Child.

Climate Surveys:	Is a Climate Survey Used: No
Facilities:	Constructed in 1961, Manito Elementary School recently celebrated its 55-year anniversary. Thanks to the generosity of our parent community and our PTO, our students and other community members are enjoying a beautifully renovated gymnasium. The second half of the project was completed in the summer of 2018. Currently, a new playground is being constructed for the enjoyment of the Manito School Community.
School Safety:	The Oakland Public School's have a collaborative and effective working relationship with local, state, and federal emergency management representatives.

Other Information:	Our rigorous academic curriculum is complemented by special area teachers who present lessons in physical education, health, art, and music. In addition, students begin their cultural study of a world language (Spanish) in Grade 3 and continue with more language-based instruction in Grades 4 and 5. Using SMART boards, iPads, Chromebooks, mobile computer labs, and document cameras teachers utilize the available technology in the school to create challenging, problem-based applications that can be integrated into each content area. Our character education initiative is also integrated across the curriculum. During the year, students will learn to practice the Six Pillars of Character (Trustworthiness, Citizenship, Respect, Fairness, Responsibility and Caring). Whenever possible, students will be recognized for practicing these traits and contributing to a positive environment that promotes the physical and emotional well being of everyone in the building. Of course, the Manito experience would not be complete without the ongoing support of our PTO. Throughout the year the PTO sponsors several special events and assembly programs that enrich the children?s educational experience. The key to any school?s success has and always will be a strong partnership between the parents of our community and the school. The tireless support of the parents and other community stakeholders continues to make Manito a very special place for children. We are proud of this collaborative partnership and the implications it has for our ongoing commitment to finding Success for Every Child.
