Student growth is a measure of how much students are learning each year. Each student receives a Student Growth Percentile (SGP) for English Language Arts/Literacy (ELA) in grades 4 through 8 and for Mathematics in grades 4 through 7 that explains their progress compared to students who had the same test scores in previous years.

A student's SGP falls between 1 and 99 and can be grouped into three levels: **Low Growth: Less than 35** **Typical Growth: Between 35 and 65** **High Growth: Greater than 65**

If the student growth percentiles for all students in the school are ordered from smallest to largest, the median student growth percentile (mSGP) for the school is the percentile in the middle of that list. Watch a short [video about Student Growth Percentiles](#) that explains how they are calculated for students and how median Student Growth Percentiles (mSGP) are calculated for groups of students.

### Student Growth

This table shows the median Student Growth Percentile (mSGP) for both English Language Arts/Literacy (ELA) and Mathematics both overall and for each student group with comparisons to the district and the state. This table also shows whether each mSGP Met Standard (40-59.5) as required by ESSA accountability.

Student Group	ELA: School Median	ELA: District Median	ELA: Statewide Median	ELA: Met Standard (40-59.5)	Math: School Median	Math: District Median	Math: Statewide Median	Math: Met Standard (40-59.5)

## English Language Arts/Literacy Assessment - Participation and Performance

This table shows information about the English Language Arts/Literacy section of the Partnership for Assessment of Readiness for College and Careers (PARCC) assessment both overall and by student group. The PARCC assessment has five performance levels, and students scoring a Level 4 or 5 (Met or Exceeded Expectations) have demonstrated readiness for the next grade level and are on track for college and careers. This table shows the number of valid test scores, the percentage of students that took the test, and the percentage of testers that met or exceeded expectations in the school, the district, and across the state. The last three columns of the table show the proficiency rate used for federal accountability, the annual target, and whether the target was met, as required by the Every Student Succeeds Act (ESSA) accountability. Student group rows where the annual target fields are grayed out are not required to meet annual targets under ESSA accountability. For more details on New Jersey's accountability system, see these [accountability resources](#).

## Mathematics Assessment - Participation and Performance

This table shows information about the Mathematics section of the Partnership for Assessment of Readiness for College and Careers (PARCC) assessment both overall and by student group. The PARCC assessment has five performance levels, and students scoring a Level 4 or 5 (Met or Exceeded Expectations) have demonstrated readiness for the next grade level and are on track for college and careers. This table shows the number of valid test scores, the percentage of students that took the test, and the percentage of testers that met or exceeded expectations in the school, the district, and across the state. The last three columns of the table show the proficiency rate used for federal accountability, the annual target, and whether the target was met, as required by the Every Student Succeeds Act (ESSA) accountability. Student group rows where the annual target fields are grayed out are not required to meet annual targets under ESSA accountability. For more details on New Jersey's accountability system, see these [accountability resources](#).

## Mathematics Assessment - Performance by Test: Algebra I

This table shows participation and performance on the Mathematics section of the Partnership for Assessment of Readiness for College and Careers (PARCC) assessment by end of course exam. This table shows both overall and by student group the number of valid test scores and a summary of performance including mean scale scores, percentages of students scoring in each performance level, and the percentage of students that met or exceeded expectations (Level 4 or 5).

### NJASK Science Assessment Information

New Jersey transitioned from the NJASK to NJSLA-S in 2017-18 to align to new science standards. Results of field tests in 2017-18 will not be reported, but results of NJSLA-S will be added to the performance reports in 2018-19.

Student absences provide important information about a school's culture and climate. Research shows that absences impact a student's ability to succeed in school. The New Jersey Department of Education used input from New Jersey communities to select chronic absenteeism as its measure of school quality and student success for the ESSA accountability plan. **Chronic absenteeism** is defined as being absent for 10% or more of the days enrolled during the school year. A student who is not present for any reason, whether excused, unexcused, or for disciplinary action, is considered absent unless permitted by state statute or regulations.

## Chronic Absenteeism

This table shows the number and percentage of students in grades K-12 both overall and by student group who were chronically absent during the school year. The last two columns show the chronic absenteeism state average for students in the grades offered and whether the rate for each student group was above the state average ("Not Met") or less than or equal to the state average ("Met").

The New Jersey Department of Education migrated to a new reporting system, the Student Safety Data System (SSDS), which includes improved definitions, new reporting fields, and updated guidance for reporting incidents. As such, comparing this year's report to previous years' data can lead to inaccurate conclusions in many reporting categories. As such, the 2017-18 report should be considered a baseline year.

School Day

This table shows the start and end times and length of school day for a typical student at this school. Instructional time is the amount of time that a typical student was engaged in instructional activities under the supervision of a certified teacher. Full time students attend this school for more than half of the school day and shared-time students attend the school for half of the school day or less.

Device Ratios

This table shows the student to device ratio, which is the number of students in tested grades 3-11 per device. Devices are computers such as tablets, iPads, laptops and Chromebooks. The count includes only devices that meet nationally recommended specifications for digital learning in grades 3-11. This information comes from the elective NJTRAx survey, therefore data may not be available for all schools. Additionally, schools that have adopted a Bring Your Own Device policy may appear to have a very low Student to Device ratio due to this policy decision.

New Jersey's school accountability system identifies schools that are in need of comprehensive and targeted support as required by the Every Student Succeeds Act (ESSA). For more information about New Jersey's accountability system, how indicator and summative scores were calculated, and how federal accountability status is determined, see these [accountability resources](#).

Comprehensive Status

This table shows whether this school is identified as requiring Comprehensive Support and Improvement during the 2019-20 school year and whether it will be eligible to exit comprehensive status in January 2021 or January 2022. Schools must meet exit criteria in order to exit status. Schools with a summative score in the bottom 5% of Title I schools or with a four-year graduation rate of 67% or less are identified as requiring Comprehensive Support and Improvement.

Requires Comprehensive Support during the 2019-20 School Year	Eligible to exit status in January 2021	Eligible to exit status in January 2022

Targeted Status

This table shows whether one or more student groups in this school has been identified as requiring Targeted Support and Improvement during the 2019-20 school year and whether each student group will be eligible to exit targeted status in January 2021 or January 2022. Schools must meet exit criteria in order to exit status. Student groups with a summative score that would be in the bottom 5% of schools and student groups that miss annual targets for all indicators for two years in a row are identified as requiring Targeted Support and Improvement. Note: Schools identified as requiring comprehensive support may have student groups identified as needing targeted support below, but the date they are eligible to exit status is based on their comprehensive status.

## Accountability Indicator Scores and Summative Rating - 2017-18 School Year

New Jersey has developed a school accountability system as required by the Every Student Succeeds Act (ESSA) to identify schools that are in need of Comprehensive Support and Improvement. This table shows the indicator scores for each indicator included in the accountability system and the weight that each indicator receives when calculating the overall Summative Score. The Summative Rating is the percentile rank of the Summative Score as compared to other schools across the state. Schools with a summative score in the bottom 5% of Title I schools or with a four-year graduation rate of 67% or less are identified as requiring Comprehensive Support and Improvement. For more information about New Jersey's accountability system and how these indicator scores were calculated, see these [accountability resources](#).

## Accountability Summary by Student Group - 2017-18 School Year

New Jersey has developed a school accountability system as required by the Every Student Succeeds Act (ESSA) to identify schools that are in need of Targeted Support and Improvement. Any student group where the summative score would be in the bottom 5% of schools is identified for Targeted Support for a Low-Performing Student Group. Any student group that has missed annual targets for all indicators two years in a row is identified for Targeted Support for a Consistently Underperforming Student Group. In the table below, schools in which one or more student groups are identified for Targeted Sport will be noted in the Schoolwide row. Annual targets for proficiency and graduation rate were set based on a school or student group's performance in 2015-16. The target for chronic absenteeism is the state average for chronic absenteeism based on students enrolled in the grades served by the given school. For more details on accountability targets, see these [accountability resources](#).

### Student Supports and Services:

Preschool through 8th grade students in the Wildwood Crest School District receive supports and services through general education and through the provision of special education and related services that allow them to make progress towards mastery of the content in the general education curriculum. Students are sometimes supported through the provision of classroom aides in the general education classroom. These aides provide redirection, small group reteaching, and emotional and behavioral support. Both pull-out and push-in Title I services are offered in math and reading. Students benefit from participation in Title I leveled literacy instruction that brings them up to grade level in reading and allows them to benefit from instruction in their grade level classroom. Differentiated instruction in the classroom further meets the needs of each student.

### Student Health and Wellness:

The Wildwood Crest School District's Wellness Policy states that the follow goals will be met through various activities by staff, administration, and all stakeholders: Nutrition Education, Physical Activity, Other School- Based Activities. Examples of activities include but are not limited to Wellness Week, various physical activity after school clubs, healthy meals served in the cafeteria, and parent informational sessions regarding healthy foods and diets for children and families. The Wildwood Crest School District values the whole student. This encompasses many aspects, including mental health. To support the psychological well being of the student, the district utilizes the following: School wide PBSIS program to support positive behavior, monthly anti-bullying class meetings, as prescribed in the Olweus Bullying Prevention Program, Mental health classroom lessons from the school counselor, as well as individual and group counseling sessions as per the student's needs.

### Parent and Community Involvement:

The Wildwood Crest School District promotes the involvement of all stakeholders within the community. Our Parent Teacher Connection (PTC) fundraisers for trips and special events within the District. One of our signature events is the annual Community Social. Community members are invited to dinner prepared by students and staff, tasting plates from local restaurants and high schools, and school tours from our 8th grade peer leaders. We hold a flu clinic for the community yearly as well. Every year our culinary students cook breakfast for all First Responders in the community. Parents are invited to events throughout the year: Back to School, Pumpkin Day, Gingerbread Day, Family Reading Night, and the 8th grade vs Parents Basketball game to name a few.

## Climate Surveys:

Is a Climate Survey Used: Yes; Who is surveyed: Students, Parents, Administrators, Teachers

Crest Memorial School uses the NJ School Climate Survey for Teachers, Students and Parents from the Department of Education website. This survey addresses various subjects such as, school safety, school climate, best practices and how we can improve on issues that arise in the survey.

## Facilities:

The Wildwood Crest School District is a 3 Year old Preschool to 8th grade school district that is housed within Crest Memorial School. We have a 10 gigabit fiber backbone that is the foundation of our Wifi network and enables all technological initiatives. Our art room was recently updated to include culinary arts for Middle School students. Every classroom has a Smartboard or Smart TV. This year we changed to a Voip telephone system for cost savings and reliability. Our most recent facility upgrade was our expansive security project. Last year we replaced our boiler and this summer we are scheduled to replace our HVAC system in one wing of the school. This summer we expect to upgrade our baseball/ softball and soccer field to eliminate our flooding issues.

## School Safety:

The Wildwood Crest School District employs a School Security Office who is armed during the school year. He currently is a retired chief of police for a neighboring city. During night events we also employ armed school security guards. Recently we completed a comprehensive, state of the art security project. This project enables Lockdown buttons in each classroom, an integrated Public Announcement, Bell, and Clock system within the security system. It also added keyless door entries with card readers. The District added more than 35 digital HD cameras. Finally the District will use the Sielox Class Crisis Lockdown Alert Status System for all emergencies. This system will enable teachers, administrators, and staff members to notify 1st responders within seconds of a threat.

 <div>Technology and STEM:</div>	<p>Technology is an integral part of every classroom at CMS. Starting in preschool and continuing up through grade eight, students experience smartboards, have access to tablets, chromebooks and a wide variety of online learning platforms. Specifically, in preschool and kindergarten, students use iPads and the Osmo platform to develop their fine motor skills and get an introduction to coding. In the early grades, chromebooks are used for assessment and skill development through the Reading Eggs and Mathseeds platforms. In grade four to eight, Chromebook and Smartboard use is more pervasive with students using the technology for multimedia presentations, student-directed research and writing. In fourth grade and continuing through the middle school, students hone their programing and design skills with programs like SCRATCH and Tinkercad. In special area and science classes, students use 3D printers to develop an understanding of STEAM related engineering and design.</p>
 <div>Early Childhood Education:</div>	<p>Crest Memorial maintains a comprehensive early childhood education program with full day preschool for three-year olds, four-year olds and kindergarten.Upon registering for any of these three programs, students undergo a rigorous screening process where needs are defined and instruction tailored to maximize social, emotional and cognitive development.Screening tools used include the Teaching Strategies Gold Assessment Tool and Scholastic's Kindergarten Readiness Test.The Gold assessment is given three times a year in PK3, PK4 and kindergarten programs to assess each child's developmental progress.PK3 and PK4 programs follow Teaching Strategies' Creative Curriculum for preschool.The PK curriculum is theme-based and focused on student social and emotional development. PK students also get to experience the music program Music Together one day of the week. PK students also have physical education one day a week through the Tumblebus gymnastics program.</p>
