(a) Surf clam licenses and bait clam vessel licenses shall be renewed annually by payment of the annual license fee on or before the June 30 immediately preceding the license year. If a surf clam licensee has not paid the annual license fee on or before the expiration date, the Department shall retire that surf clam license from the surf clam fishery.

(b) Surf clam license and bait clam vessel license renewal is specifically conditioned on the continuing compliance of the licensee with all the requirements of this subchapter and all statutory criteria for licensing and harvest. The Department shall not renew a surf clam license or a bait clam vessel license for a licensee who, by June 30, has not filed the required weekly reports in a timely fashion, as specified at N.J.A.C. 7:25-12.13, and, in the case of bait clams, paid the required landing fee in a timely fashion, as specified at N.J.A.C. 7:25-12.12, for any part of the preceding license year.

Penalties may also include confiscation of any vessel or equipment used in committing a violation, and revocation of any license issued under this subchapter and N.J.S.A. 50:2-6.1 through 50:2-6.3. The Department may compromise and settle any claim for a penalty under this subsection in such amount as in the discretion of the Department may appear appropriate and equitable under all the circumstances.

In cases of hardship due to illness or vessel repairs, an authorized agent is not required to possess his or her own license, and can, for a maximum of 30 days, tend said licensee's pots or trot lines upon satisfying all other conditions of this paragraph.

3. In addition to the agent, the commercial licensee shall be held liable and subject to the penalty provisions provided in N.J.A.C. 7:25-14.20 for the violation of provisions of this subchapter actually committed by the agent based upon the apparent authority of the agent to act for his or her principal.

(b) No person shall cut or break the lines or otherwise tamper with or damage in any way, any pot, trot line or buoy which he does not own or is not authorized to tend.

(c) All other organisms other than crabs and conchs shall be immediately released to the waters from which such organisms were taken.

(d) All crab pots must be checked and emptied of all crabs and other organisms at least once every 72 hours.

(e) No license holder shall fish more than 600 crab pots in Delaware Bay nor more than 400 crab pots in all other waters.

(a) No individual shall take or attempt to take crabs by any means for the purpose of sale or barter without having in his or her possession his or her valid commercial crab pot/trot lines or crab dredge license issued by the Division pursuant to N.J.S.A. 23:5-35.2. A Delaware Bay commercial crab dredge license is valid to harvest crabs only within that portion of the "Delaware Bay" defined at N.J.A.C. 7:25-14.1 as part of the "crab dredge area." An Atlantic Coast commercial crab dredge license is valid to harvest crabs in all areas defined at N.J.A.C. 7:25-14.1 as the "crab dredge area" except that area defined as the "Delaware Bay."

1. To be eligible for a commercial crab pot license, the applicant must provide a copy of a previously valid commercial crab pot license held by the applicant from the preceding year. Any person on active military service during any part of the period from January 1, 1991 through July 8, 1993, will also be eligible for a license provided application is made to the Department within a 90 day period following completion of that active military service, upon submission of official documentation indicating duration of military service and date of discharge.

2. No additional crab pot licenses will be issued until the number of licenses issued decreases below the number issued in 1991 (312 licenses).

i. When additional licenses are available, unsuccessful applicants from the previous lottery will be given the first right to the license provided they purchase a license within 30 days of being notified by the Department. Notification by the Department shall be by first class mail. It is the responsibility of the applicant to provide the Department with written notification of any change in mailing address. Once a lottery list is exhausted, the Department shall notify commercial docks and fishing organizations as to the availability of licenses. Applications for a license shall be available from the Department; and successful applicants shall be chosen by lottery, if necessary, from all completed applications received by the Department.

3. To be eligible for an Atlantic Coast commercial crab dredge license, the applicant must provide a copy of a previously valid Atlantic Coast commercial crab dredge license held by the applicant from the preceding year. Any person on active military service during any part of the period from January 1, 1991 through July 8, 1993, will also be eligible for a license provided application is made to the Department within a 90 day period following completion of that active military service, upon submission of official documentation of military service and date of discharge.

4. No additional Atlantic Coast commercial crab dredge licenses will be issued until the number of licenses issued decreases below the number issued in 1993 plus 20 percent (338 licenses). When additional licenses are available, the Department will issue available licenses pursuant to (a)2i above.

5. To be eligible for a Delaware Bay commercial crab dredge license, the applicant shall provide a copy of a previously valid Delaware Bay commercial crab dredge license held by the applicant from the preceding year.

6. No additional Delaware Bay commercial crab dredge licenses shall be issued until the number of licenses issued decreases below the number sold in 1997 (93 licenses). When additional licenses are available, the Department shall issue available licenses pursuant to (a)2i above.

7. Commercial crab pot and crab dredge licenses are non-transferable except that the holder of a valid license not pending revocation due to violation of provisions of this subchapter may transfer the right to the license at any time to the license holder's spouse, father, mother, son or daughter upon application to the Division. The new licensee shall have a license issued in their name after payment of the fee specified at (a)8 below.

8. The license fee for New Jersey residents shall be \$100.00 for a commercial crab pot/trot line license, \$100.00 for a Delaware Bay commercial crab dredge license and \$100.00 for an Atlantic Coast commercial crab dredge license. The license fee for non-residents will be the same as that for a resident if a New Jersey fisherman can obtain a license to harvest crabs in the state of residence of the non-resident applicant for the same fee as a resident of that state. Otherwise, the non-resident license fee shall be an amount equal to five times the \$100.00 New Jersey resident license fee. All licenses shall expire on December 31 of the calendar year for which they were issued.

9. For crab pots and trot lines, the gear number shall be displayed on both sides of the crabber's boat amidship, in numerals not less than 12 inches high of a color contrasting with the background, and such numerals shall be illuminated during the hours of darkness.

(b) For the purposes of this section and N.J.S.A. 23:5-35.1, the possession of more than one bushel of crabs shall be considered as taking for the purpose of sale or barter. A bushel shall be defined as a U.S. standard bushel equivalent to four pecks or 32 quarts.

Trot lines shall not exceed 150 feet in length with a maximum of 25 baits attached. Pots and trot lines shall be marked with the license number. There is no fee for this noncommercial license. A Delaware Bay commercial crab dredge licensee may authorize an agent to operate a crab dredge vessel if the agent is in possession of the said licensee's license and a letter of authorization from said licensee, issued and notarized by the Division, indicating the license number and vessel registration number of the vessel that the agent is authorized to operate. In addition to the agent, the

commercial licensee shall be held liable and subject to the penalty provisions provided in N.J.A.C. 7:25-14.20 for the violation of provisions of this subchapter actually committed by the agent based upon the apparent authority of the agent to act for his or her principal.

1. No boat shall have more than four dredges working at the same time, except in Delaware Bay where no boat shall have more than two dredges working at the same time.

2. The maximum length of each tooth bar shall be 75 inches north of Route 36 (Highlands Bridge) and in the Atlantic Ocean, but if two or fewer dredges are in possession north of Route 36 (Highlands Bridge) or in the Atlantic Ocean then the maximum length of each tooth bar shall be 96 inches. The maximum length of each tooth bar shall be 54 inches in Delaware Bay, but if no more than one dredge is in possession in Delaware Bay then the maximum length of each tooth bar shall be 96 inches. The maximum length of the tooth bar in all other crab dredge areas shall be 38 inches.

3. The maximum weight of each dredge shall be 400 pounds north of Route 36 (Highlands Bridge) and in the Atlantic Ocean, but if two or fewer dredges are in possession north of Route 36 (Highlands Bridge) or in the Atlantic Ocean then the maximum weight of each dredge shall be 500 pounds. There is no weight limit for dredges used in Delaware Bay. The maximum weight of each dredge in all other crab dredge areas shall be 80 pounds. All weights refer to the weight of the dredge and collecting bag.

4. The maximum length of teeth shall be six inches north of Route 36 (Highlands Bridge), the Delaware Bay and in the Atlantic Ocean and three inches in all other crab dredge areas.

5. Shellfish harvested from Delaware Bay Areas 2 and 3 may be retained as provided under N.J.S.A. 50:3-16.13 and N.J.S.A. 50:3-16.20. Simultaneous possession of shellfish and a dredge larger than specified in N.J.S.A. 50:3-16.20 shall be prima facie evidence of a violation of this section.

6. The minimum space between teeth shall be two and three-quarters inches in all crab dredge areas, measured at the base.

7. A toothless bar shall be allowed in place of a tooth bar in all waters, provided each toothless bar is no greater in length than the tooth bar lengths, specified at (a)2 above.

8. Chains shall be allowed in place of a tooth bar or toothless bar in all waters provided that the width of each dredge opening or mouth and the distance between the chain attachment points on the dredge are no greater in width than the tooth bar lengths specified at (a)2 above.

9. 7:25-18.2 Pound nets

(a) The following words and terms shall have the following meanings unless the context clearly indicates otherwise.

"Department" means the New Jersey Department of Environmental Protection.

"Heart" means an upright fence of netting forming a heart-shaped (round or square) compartment located between the leader and the pocket. It is designed to cause fish to circle in front of and eventually enter the pocket of a pound net.

"Leader" means an upright fence of netting that acts as a barrier to fish and guides them toward a trap; the netting is made of heavy twine, not designed to catch fish by the gills.

"Navigable channel" means a channel marked with navigational markers including poles, piling or buoys, by the Coast Guard or the State.

"Pocket" means an upright fence of netting forming the final compartment of a pound net in which trapped fish accumulate.

"Pound net" means a large fish trap, consisting of a leader, pocket and one or more hearts, held in place with poles, the netting of which reaches from the bottom to above the surface of the water.

"Staked or anchored gill net" means an upright fence of monofilament or nylon netting, held in place at each end by

stakes or anchors, that catches fish by snagging their gill covers as they try to pass through the mesh of the net.

"Submarine pound net" means a pound net that is totally submerged beneath the water and held in place by anchors.

(b) General requirements for all pound net users are as follows:

1. No person may install, operate or maintain a pound net in the marine waters of the State without having first obtained a license from the Department.

2. The Department may establish limits on the number of licenses to be issued for pound nets in Raritan Bay and Sandy Hook Bay and in the Atlantic Ocean within three nautical miles of the coastline.

3. Licenses must be renewed annually.

4. Holders of pound net licenses from the previous year shall have first priority in obtaining a new license, provided they apply before March 1 of the current year.

5. Any person operating any fish pound net in the marine waters of New Jersey, must, at the time of emptying the net, return to the waters wherein the net is located all species less than the minimum size limits specified pursuant to N.J.A.C. 7:25-18.1.

6. No person may, by boat, anchor, dredge or otherwise, willfully and without reasonable cause, interfere with, break, damage or destroy any fish net or associated equipment being lawfully used by a license holder.

7. The Department may require any licensee to submit a money surety bond to insure removal of pound net poles and apparatus as required by these rules.

8. Violation of the rules in this section will subject the violator to money penalties, loss of license and/or injunctive relief under N.J.S.A. 23:2B-14.

(c) Specific requirements for pound net users in Raritan, Sandy Hook and Delaware Bays are as follows:

1. Any person applying for a pound net license must indicate the specific proposed site for the net, as designated by a chart developed by the Department. Sites which have not previously been located on the approved chart must be approved by the Department prior to issuance of a license.

2. New pound net sites must be at least 3,000 feet from a previously located pound net site, when measured parallel to the shoreline, and must be at least 1,000 feet from any navigable channel.

3. Any pound net license holder has priority in retaining a pound net site previously licensed by him or her, provided that he or she has actively and lawfully fished that site during the previous year and has submitted a license application prior to March 1 of the current year.

After March 1, any citizen may apply for any available site on a first-come basis.

4. No staked or anchored shad net may be placed within 3,000 feet of an operating pound net. However, shad nets may be set on licensed pound net sites by the license holder or on unoccupied, approved pound net sites, provided the shad nets are set end-to-end with and in line with any existing pound nets.

5. Pound nets must be placed end-to-end so as to form a straight line, perpendicular to the shoreline.

6. The maximum allowable length of a pound net, including leader and hearts, is 750 feet.

7. A minimum distance of 50 feet must be maintained between any two pound nets, shad nets or combination thereof, when measured perpendicular to the shoreline.

8. A pound net license holder must maintain a nameplate, on the offshore pole of the net not less than six inches square, on which shall be legibly marked the identification number of the pound, as assigned by the Department.

9. A flashing, amber light must be displayed between sunset and sunrise on each of the two end poles of a pound net or a continuous row of pound nets. These lights must be placed at least 10 feet above the mean high water level and must be of sufficient brightness to be visible for at least three miles in all directions (360 degrees) at such times and under such weather conditions as would allow visibility of 10 miles.

10. Within 30 days of the termination of fishing activities for that year, all poles and stakes must be removed by the pound net license holder.

11. The pound net license holder will be responsible for the cost of pole and/or stake removal where the Department accepts responsibility for such removal, due to the licensee's failure to comply with 10 above.

(d) Specific requirements for pound net users in the Atlantic Ocean are as follows:

1. When submitting a request for an ocean or submarine pound net license, the applicant must specify the specific proposed site-location for placement of each net. Upon site approval, the Department may issue the license. (Note: Permission for location of ocean pound nets is also required from the United States Army Corps of Engineers.)

2. No portion of a pound net may be set within 1,500 feet or greater than 7,000 feet from the mean low water line on the ocean shoreline.

3. No row of pound nets may be erected or operated within one and one-half miles of any other row of pound nets, when measured parallel with the coastline.

4. No more than two pound nets may be joined together.

5. A minimum distance of 1,000 feet, when measured perpendicular to the coastline, must be maintained between individual or paired pound nets set in a row.

6. A row of ocean or submarine pound nets must form a straight line with the nets placed end-to-end.

7. The maximum allowable length of an ocean or submarine pound net, including leader and pocket, is 1,100 feet.

8. The minimum mesh size for ocean or submarine pound nets is two inches, stretched.

9. Ocean pound nets shall be maintained in compliance with the following additional requirements:

i. White reflectors must be placed around the top of each pole so as to reflect in all directions;

ii. Flashing amber lights must be displayed on the inshore and offshore poles of nets or rows of nets, between sunset and sunrise; these lights must be placed at least 10 feet above the mean high water level and must be of sufficient brightness to be visible for at least three miles in all directions (360 degrees) at such times and under such weather conditions as would allow visibility of 10 miles.

10. Submarine pound nets shall be maintained in compliance with the following additional requirements:

i. At least eight fluorescent orange floats, at least 12 inches in diameter, shall be maintained along the length of each net, including the inshore and offshore ends.

ii. The pound net license holder shall maintain a nameplate, not less than 12 inches square, on which shall be legibly marked the identification number of the pound, as assigned by the Department.

11. The license holder must completely remove all pound net poles and stakes, within ten months of the termination of fishing activities.

12. The pound net license holder will be responsible for the cost of pole and/or stake removal, where the Department accepts responsibility for such removal, due to the licensee's failure to comply with 11 above.

It shall be lawful to take, catch, or kill all species of fish by means of spearfishing, during the respective open season, except for those species of fish specifically protected. For the purpose of this rule, spearfishing shall mean the taking of fish by means of a spear, harpoon, or other missile, or by hand, while completely submerged in the marine waters of the State.

(5) The Division Director may, in his or her sole discretion, stay the suspension of Mesh Exemption privileges pending a hearing on the notice of proposed revocation of Mesh Exemption privileges for any good cause set forth in a written petition from the permittee, including sworn statements from the permittee or other persons with knowledge relevant to the allegations on which the Division action is based. The petition and its supporting statements and documentation shall be made available to the court and all parties in advance of any hearing.

(6) The Division shall reinstate Mesh Exemption privileges suspended for late or incomplete reports, but no more than three times per permittee in any single permit year, if that permittee personally delivers any missing reports, completed, along with a credible written explanation for the delay and/or omissions to the Division within 20 business days from the date on the notice of suspension.

7:25-18.14 Otter and beam trawls

(a) Vessels greater than 165 feet in length and in excess of 3,000 horsepower shall not fish in the marine waters of this State with an otter or beam trawl nor may any such vessel have an otter or beat trawl available for immediate use while on the marine waters of this State as defined in (b) below.

1. All trawl net doors possessed on the waters of the State of New Jersey must contain the official documentation number or the state registration number of the vessel to whom they belong indelibly branded or stamped in block letters no less than two inches in height on the surface of each door.

i. Trawl doors shall be used only by the vessel which corresponds to the branded or stamped numbers. A vessel may utilize another vessel's trawl doors provided the vessel owner utilizing such doors contacts the Division's Bureau of Law Enforcement at 609-748-2050 in advance and provides the following information: name of owner and vessel borrowing doors, name of owner, vessel and branded or stamped number of borrowed doors. The vessel owner borrowing the trawl doors shall also be responsible for contacting the Bureau of Law Enforcement in advance to indicate when he will begin utilizing his own trawl doors.

(b) No vessel may have available for immediate use any otter or beam trawl while on the marine waters of this State during the hours between sunset and sunrise except on the Atlantic Ocean, at a distance of greater than two miles from the coast line. An otter or beam trawl that conforms to one of the following is considered not "available for immediate use":

1. A net stowed below deck, provided:

i. It is located below the main working deck from which the net is deployed and retrieved;

ii. The towing wires, including the "leg" wires are detached from the net; and

iii. It is fan-folded (flaked) and bound around its circumference;

2. A net stowed and lashed down on deck, provided:

i. It is securely fastened to the deck of the vessel;

ii. The towing wires, including the leg wires are detached from the net; and

iii. It is fan-folded (flaked) and bound around its circumference; or

3. A net is on a reel and is covered and secured; provided:

i. The entire surface of the net is covered with canvas or other similar material and held in place by line bound securely around the entire net in such a manner so that no section of the net is exposed;

ii. The towing wires or towing lines located between the net and the trawl doors shall be completely detached from the trawl doors; and

iii. The cod end closure rope shall be removed from the cod end.

(c) To determine compliance with any established minimum mesh requirement for an otter or beam trawl, the following procedures shall be employed. Stretched mesh sizes are measured by a wedge-shaped gauge having a taper of two centimeters in eight centimeters and a thickness of two and three-tenths millimeters, inserted into the meshes under pressure or pull of five kilograms. The mesh size of the cod end of the net will be the average measurement of any series of 20 consecutive meshes measured at least 10 meshes from the lacings, beginning at the after end and running parallel to the long axis.

(d) No person shall use any device or method which would have the effect of reducing an established minimum mesh size; provided, however, that chafing gear which does not obstruct the meshes of the top half of the cod end may be attached and net strengtheners may be attached to the cod end of the trawl net if such net strengtheners consist of mesh material similar to the material of the cod end and have a mesh size of at least twice the authorized minimum mesh size.

(e) A vessel or person utilizing a roller rig trawl gear shall not utilize rollers greater than 18 inches in diameter.

(f) The operator of, or any other person aboard, any fishing vessel shall immediately comply with instructions and signals issued by an authorized law enforcement officer and comply with instructions to facilitate safe boarding and inspection of the vessel, its gear, equipment, and catch, for the purpose of enforcement of this section.

(g) Any vessel in the act of fishing, upon being boarded and instructed by an authorized law enforcement officer, shall haul back, or retrieve from the waters for inspection, all gear being utilized. After being so instructed, the operator of the vessel, or any other person so instructed, shall have a 30 minute time period to commence haul back and shall continue haul back or retrieval at an ordinary rate and without interruption until the gear is on board and available for inspection.

(h) Possession of an otter trawl and doors shall subject said vessel to inspection for compliance with this section by authorized enforcement personnel. Any nets or doors pos-

sessed or used in violation of this section shall be subject to forfeiture under authority of N.J.S.A. 23:10-21.

(i) Violation of any section of this subchapter, or any license or order issued pursuant to it, shall subject the violator to the penalties prescribed in N.J.S.A. 23:2B-14, Penalties consist of \$100.00 to \$3,000 for the first offense and \$200.00 to \$5,000 for any subsequent offense.

(j) For the purpose of this section, "land" shall mean to begin offloading fish, to offload fish or to enter port with fish.

(k) The Commissioner, with the approval of the New Jersey Marine Fisheries Council, may modify quotas, mesh sizes, minimum size limits, seasons, trip limits, by-catch allocations and the amount of fish that shall constitute a directed fishery specified in this section by notice in order to maintain compliance with any fishery management plan approved by the Atlantic States Marine Fisheries Commission pursuant to 16 U.S.C. 5104(b). The Department shall publish notice of any such modification by filing and publishing in the New Jersey Register and in the Division's commercial regulation publication. All such notices shall be effective when the Department files the notice with the Office of Administrative Law or as specified otherwise in the notice.

(l) Special provisions applicable to the commercial harvest of summer flounder are as follows:

1. The possession of more than 100 pounds of summer flounder during the period of May 1 through October 31 or the possession of more than 200 pounds of summer flounder during the period of November 1 through April 30 on board a vessel or landed from a vessel shall constitute a directed fishery for summer flounder.

2. A person shall not possess any summer flounder less than 14 inches in length which have been harvested by vessels in a commercial fishery for summer flounder.

3. A person utilizing an otter or beam trawl in the directed fishery for summer flounder shall not use a net of less than 5.5 inches stretched diamond mesh or 6.0 inches minimum stretched square mesh, inside measurement. The mesh size shall be applied throughout the body, extensions and cod end portions of the net upon adoption in the Federal Register of essentially the same criteria. Until such time, the mesh size shall be applied throughout the cod end for at least 75 continuous meshes forward of the terminus of the net. The possession of any net less than the minimum specified above in this paragraph, on board a vessel engaged in a directed fishery for summer flounder is prohibited unless such net is not available for immediate use as defined in (b) above or is one of the following:

- i. Vessels fishing in the fly net fishery are exempt from the minimum mesh size requirement. A fly net is a two seam otter trawl with the following configuration:

- (1) The net has large mesh webbing in the wings with a stretch mesh measure of eight inches to 64 inches;

- (2) The first body (belly) section of the net consists of 35 meshes or more of eight inch stretch mesh webbing or larger; and

- (3) In the body section of the net the stretch mesh decreases in size relative to the wings and continues to decrease throughout the extensions to the cod end, which generally has a webbing of two inch stretch mesh.

4. A vessel shall not land more than 100 pounds of summer flounder during the period of May 1 through October 31 or more than 200 pounds of summer flounder during the period of November 1 through April 30 in New Jersey on any one trip unless said vessel is in possession of a valid New Jersey Summer Flounder Permit to participate in the directed fishery for summer flounder. Vessels fishing under the special terms of a quota transfer or combination program as provided in (l) 6 below may be exempt from this requirement if such terms specify that a New Jersey Summer Flounder Permit is not necessary to land summer flounder in New Jersey. The permit shall be issued in the name of the vessel and the owner and for the specific gear type(s) used to qualify for the permit.

- i. Applicants for a New Jersey Summer Flounder Permit shall complete an application provided by the Department. Applicants applying to use hook and line shall submit their applications no later than May 31, 1994. Applicants applying for a New Jersey Summer Flounder permit for any other gear type shall submit their applications no later than January 1, 2000. Applications for a New Jersey Summer Flounder Permit received after the above dates shall be denied.

- ii. To be eligible for a New Jersey Summer Flounder Permit the vessel's owner shall meet the following criteria:

- (1) The vessel shall have landed and sold at least 1,000 pounds of summer flounder in New Jersey in each of two years during the period of 1985-1992;

- (2) The vessel shall have possessed a valid New Jersey otter trawl, pound net, or gill net license or a valid Federal summer flounder permit during each of the two years it qualified based upon the pounds of summer flounder landed and sold in (l) 4ii(1) above. Vessels providing documentation regarding the amount of summer flounder landed for two years between January 1, 1985 to November 2, 1988 or vessels providing documentation of harvest by hook and line are exempt from this requirement; and

- (3) Applicants shall provide weigh out slips to document the amount of summer flounder landed and copies of their New Jersey otter trawl, pound net or gill net license or Federal summer flounder permit for the respective years.

iii. The New Jersey Summer Flounder Permit shall be on board the vessel to which it is issued at all times. The permit is valid from the date of issuance and for any subsequent years unless revoked as part of a penalty action. The vessel, when engaged in the directed summer flounder fishery, may only have on board the gear type(s) listed on the New Jersey Summer Flounder Permit.

(1) The owner of a permitted vessel may transfer his or her New Jersey Summer Flounder Permit, upon application to the Department, as follows:

(A) To his or her replacement vessel, provided the replacement vessel is not greater than 10 percent larger in vessel length, gross registered tonnage and net tonnage and not more than 20 percent greater in horsepower. The vessel being replaced shall no longer be eligible for a New Jersey Summer Flounder Permit; or

(B) Along with the sale of his or her vessel to a new owner. The owner selling the vessel shall no longer be eligible for a New Jersey Summer Flounder Permit based on the harvesting history of the vessel being sold.

(2) Transfer of a permit to a new vessel shall be limited to the same gear type(s) of the originally permitted vessel.

(3) Applicants for permit transfer shall complete an application provided by the Department, and no permit may be transferred without the prior approval of the Department.

iv. A vessel possessing a valid New Jersey Summer Flounder Permit to commercially harvest summer flounder by angling or hook and line and when operating under the permit shall be subject to the following:

(1) Crew size shall be limited to no more than five persons, including the captain;

(2) The vessel shall not carry any passengers for hire. When carrying passengers for hire the New Jersey Summer Flounder Permit is not valid and the recreational possession limits and seasonal restrictions as specified in N.J.A.C. 7:25-18.1 apply.

v. A vessel that does not possess a New Jersey Summer Flounder Permit shall be permitted to land not more than 100 pounds of summer flounder during the period of May 1 through October 31, or not more than 200 pounds of summer flounder during the period of November 1 through April 30 on any trip, except that vessels taking summer flounder by angling or hook and line shall be subject to the possession limits established in N.J.A.C. 7:25-18.1.

5. The annual summer flounder harvest quota for New Jersey shall be determined by the Mid Atlantic Fishery Management Council as implemented by the Na-

tional Marine Fisheries Service. All landings of summer flounder in New Jersey shall be applied to the New Jersey annual summer flounder quota unless New Jersey enters into an agreement with another state(s) to transfer or combine summer flounder commercial quotas, as provided for pursuant to (l)6 below and such agreement indicates otherwise.

i. Ten percent, but not more than 200,000 pounds of the New Jersey annual summer flounder quota, shall be allocated each year for by-catch landings when any of the six seasons for the directed commercial fishery are closed. The by-catch landings shall be divided between the six seasons as identified at (l)5ii below at the same percentage as for the directed fishery specified at (l)5ii below or as modified by the Commissioner.

(1) Any by-catch not landed during the season allocated shall be added to the directed fishery of the following season except during the last season.

(2) If any of the by-catch allowance has not been landed by December 1 in any calendar year the remaining amount shall be added to the directed summer flounder fishery quota.

(3) For the purpose of this section, all seasons identified at (l)5ii below shall start on the first Sunday of the applicable month.

ii. The balance of the New Jersey annual quota for the summer flounder fishery remaining after deducting the by-catch allowance specified in (l)5i above shall be divided into seasons, daily trip limits and number of allowable landing days in each week (Sunday through Saturday) as follows:

(1) January-February: 28 percent and a 7,500 pound trip limit;

(2) March-April: 11 percent, 1,000 pound trip limit and a maximum of five days per week that a vessel may land summer flounder;

(3) May-June: 10.5 percent, 500 pound trip limit and a maximum of five days per week that a vessel may land summer flounder;

(4) July-August: 10.5 percent, 500 pound trip limit and a maximum of five days per week that a vessel may land summer flounder;

(5) September-October: 29 percent, 1,000 pound trip limit and a maximum of four days that a vessel may land summer flounder, except as follows:

(A) A vessel may elect to land summer flounder only one day per week. If such an election is made, the trip limit shall be 4,000 pounds; and

(6) November-December: 11 percent, 1,000 pound trip limit and a maximum of five days per week that a vessel may land summer flounder.

iii. No vessel shall have in possession or land and no dealer shall accept from any one vessel more than the daily trip limit of summer flounder in any one calendar day.

iv. Any vessel participating in a directed summer flounder fishery shall notify the Department of the time and place of unloading of the vessel at least two hours in advance of such unloading. Such unloading shall not occur except between the hours of 6:00 A.M. and 6:00 P.M. from November 1 through April 30 and 6:00 A.M. and 8:00 P.M. from May 1 through October 31. The vessel shall also report how many times that week (Sunday through Saturday) the vessel will have landed, including the trip being called in. For example, "This will be my third landing this week." Notification shall include a phone call to (609) 748-2050 unless changed by notice to permit holders via first class mail.

v. If a minimum of 100,000 pounds of the New Jersey summer flounder quota remains unlanded as of December 1 in any calendar year, the Commissioner, or his or her designee, may set a daily trip limit for the remainder of that calendar year or until the quota specified in (l)5iii above is landed, whichever occurs first.

vi. The Commissioner, or his or her designee, shall close the season for the directed and/or by-catch commercial summer flounder fishery upon four days public notice of the projected date the season quota shall be caught. Public notice shall include letters by first class mail to all permitted New Jersey Summer Flounder Dealers and New Jersey Summer Flounder Permit holders.

vii. Once the season has been closed for the directed commercial summer flounder fishery, no vessel shall land any summer flounder and no dealer shall accept any summer flounder landed in New Jersey in excess of the by-catch allowances specified in (l)1 and 4 above and provided the amount of summer flounder landed from any vessel shall not exceed 10 percent, by weight of the total weight of all species landed and sold. If the entire season and/or annual quota including the by-catch allowance has been landed, then no vessel or person shall land or sell any summer flounder and no dealer or person shall accept or buy any summer flounder landed in New Jersey.

viii. If the Commissioner, or his or her designee, closes the season prematurely because of unanticipated environmental events resulting in the quota not being landed by the projected date and at least one month remains in the current season, then the Commissioner, or his or her designee, may reopen the season for a specified period of time upon four days public notice. Public notice shall be made as specified in (l)5vi above.

(1) The Commissioner or his or her designee may set daily trip limits when reopening a prematurely closed season.

ix. If the quota for a particular season is not taken, the balance shall be reallocated for the following season, except that any balance existing as of December 31 of any year shall not be reallocated.

x. If the quota for any of the first five seasons is exceeded, the amount overharvested shall be deducted from the following season.

xi. If the quota for any year is exceeded, the amount overharvested will be deducted from the following year's annual quota. The remaining annual quota will then be allocated as defined in (l)5i and ii above.

xii. Beginning in 1994, the Department shall notify the holders of New Jersey Summer Flounder Permits of the season allocations no later than January 31 of the year to which the allocation applies. Notification shall be accomplished by first class mail to permit holders.

xiii. All New Jersey Summer Flounder Permit holders shall be required to complete monthly reports supplied by the Department. The monthly report shall be signed by the permittee attesting to the validity of the information and be submitted so it is received by the Department no later than 15 working days following the end of the reported month at the following address:

New Jersey Summer Flounder Program
Nacote Creek Research Station
PO Box 418
Port Republic, NJ 08241-0418

(1) The monthly report shall include, but not be limited, to the following information: name, New Jersey Summer Flounder Permit number of the vessel, total amount (in pounds) of each species taken, dates caught, time at sea, duration of fishing time, gear type used to harvest, number of tows, area fished, crew size, landing port, date sold and buyer. This information shall be provided for any trip in which summer flounder are landed. New Jersey Summer Flounder Permit holders who also possess a Federal summer flounder permit and are required to report monthly to the Federal government may submit the "STATE" copy of their Federal log book in satisfaction of the New Jersey reporting requirements.

(2) If no trips for summer flounder were taken and no summer flounder were landed during the month, a report to that effect shall be required.

6. Pursuant to Amendment 5 of the Mid-Atlantic Fishery Management Council's Summer Flounder Management Plan, the Commissioner may enter into agreements with other states to transfer or combine summer flounder commercial quotas. Such agreements shall specify the terms and conditions under which vessels not in possession of a New Jersey Summer Flounder Permit may land summer flounder in New Jersey, as well as how the landings will be applied to the quota. Any agreement developed by the Commissioner and any other state is not valid until such time as it has been reviewed and approved by the Northeast Regional Director of the National Marine Fisheries Service.

7. No fish dealer shall accept any summer flounder from any vessel or harvester unless such dealer is in possession of a valid New Jersey Summer Flounder Dealers Permit. A New Jersey Summer Flounder Dealers Permit may be obtained by completing an application supplied by the Department and submitting it to:

New Jersey Summer Flounder Dealers Permit
Nacote Creek Research Station
PO Box 418
Port Republic, NJ 08241-0418

8. No dealer shall accept from any vessel more than the amounts of summer flounder specified at (l)4 above unless said vessel is in possession of its valid New Jersey Summer Flounder Permit.

9. No vessel shall land and no dealer shall accept any summer flounder which have been frozen, filleted or processed in any way. Only whole, fresh summer flounder may be landed.

10. Any harvester or vessel landing summer flounder in New Jersey for the purpose of sale shall sell all summer flounder to a permitted New Jersey Summer Flounder Dealer.

11. All permitted New Jersey Summer Flounder Dealers shall provide weekly reports to the Division listing the amount of summer flounder landed on a daily basis by size category and any other information that may be required by the Commissioner or as a result of an agreement with other states pursuant to (l)6 above. Such report shall be faxed to the Division at 609-984-1408 no later than 12:01 P.M. on Monday following the week's end or sent by any other method approved by the Department. For the purpose of this provision, the week shall begin on Sunday and end on Saturday.

12. Any person violating the provisions of this section shall be subject to the penalties prescribed in N.J.S.A. 23:2B-14 in addition to the following:

i. Failure to submit the application by May 31, 1994 for use of hook and line or the attach the required documentation to the application shall result in the denial of the permit.

ii. Falsification or misrepresentation of any information on the application including documentation provided to verify the amount of summer flounder landed as specified in (l)4 above shall result in the denial or revocation of the permit in addition to any civil or criminal penalties prescribed by law.

iii. Failure to comply with the provisions of (l)3 above, minimum mesh size, (l)5iii above, landing, possession or accepting in excess of the daily trip limit for summer flounder (l)5iv, failure of notification of landing of summer flounder, (l)5vii above, landing, summer flounder after the directed fishery and/or bycatch season has been closed, or (l)5xiii above, failure to submit accurate and timely monthly reports, (l)8 accepting more than by-catch amounts from nonpermitted vessels, (l)9 accepting any summer flounder other than fresh product, or (a), (b), (d), (e), (f) above or N.J.S.A. 23:3-46 through 23:3-47 shall result in the suspension or revocation of the vessel's New Jersey Summer Flounder permit or the dealers New Jersey Summer Flounder Dealers Permit according to the following schedule:

v. Prior to revocation of the permit, the permittee shall have the opportunity to request a hearing pursuant to the Administrative Procedure Act, N.J.S.A. 52:14B-1 et seq. and 52:14F-1 et seq., and the Uniform Administrative Procedure Rules, N.J.A.C. 1:1.

The possession of any net less than the minimum mesh specified above in this paragraph on board a vessel in a directed fishery for weakfish is prohibited.

4. A person shall not land any weakfish harvested by otter trawl except during the open seasons of January 1 through July 31 and October 13 through December 31. No dealer shall accept any weakfish landed in New Jersey taken by otter trawl except during such open seasons.

(n) Special provisions applicable to a directed winter flounder fishery are as follows:

1. The possession of more than 100 pounds of winter flounder on board a vessel or landed from a vessel shall constitute a directed fishery for winter flounder.

2. A person shall not possess any winter flounder less than 12 inches in length that have been harvested by otter or beam trawl, or any other net, trap, dredge or commercial gear.

3. A person utilizing an otter or beam trawl in a directed fishery for winter flounder shall not use a net of less than 5.0 inches stretched mesh inside measurement applied throughout the cod end for at least 75 continuous meshes forward of the terminus of the net.

No dealer shall accept any winter flounder taken in New Jersey waters except during such open season. The harvest of winter flounder by the use of fyke nets is subject to the provisions of N.J.A.C. 7:25-18.5(g)2.

5. Except during the open season specified at (l)4 above, a vessel with any winter flounder on board shall not have any otter or beam trawl available for immediate use while on the marine waters of this State. An otter or beam trawl that conforms to the provisions at (b)1 through 3 above is considered not "available for immediate use."

All landings of scup in New Jersey during the period from May 1 through October 31 shall be applied to the New Jersey scup quota.

i. Any closure of the scup fishery by the National Marine Fisheries Service or the Atlantic States Marine Fisheries Commission in adjacent Federal waters or any closure which includes New Jersey marine waters during the periods January 1 through April 30 and November 1 through December 31 would automatically close New Jersey to the commercial landings of scup.

ii. The Commissioner, or his or her designee, shall close the season for the commercial scup fishery upon four days public notice of the projected date the New Jersey seasonal quota shall be caught.

iii. Public notice shall include letters by first class mail to all New Jersey Scup Dealer holders, New Jersey Scup Permit holders and Federal scup moratorium permit holders that are New Jersey residents.

iv. Once any season has been closed for the commercial scup fishery, no vessel shall land any scup and no dealer shall accept any scup landed in New Jersey.

Public notice shall be made as specified in (p)4 iii above.

vi. If the quota for any season is exceeded, the amount overharvested shall be deducted from the following year's quota for that season.

ii. The daily-trip limit for scup shall be 10,000 pounds from January 1 through April 30 and 2,000 pounds from November 1 through December 31. The daily trip limit from January 1 through April 30 shall be reduced to 1,000 pounds when the Atlantic States Marine Fisheries Commission (ASMFC) projects that 75 percent of the quota will be caught. The Division of Fish and Wildlife will notify all New Jersey Scup Dealer Permit holders, New Jersey Scup Permit holders and New Jersey residents who hold Scup Federal Moratorium Permits by letter (first class mail) of the ASMFC's projection and the new trip limits.

6. No fish dealer shall accept any scup from any vessel or harvester unless such dealer is in possession of a valid New Jersey Scup Dealer Permit. A New Jersey Scup Dealer Permit may be obtained by completing an application supplied by the Department and submitting it to:

(1) The vessel shall have landed and sold at least 1,000 pounds of scup in New Jersey during the period from January 1, 1993 through December 31, 1996;

(2) Documented proof of landings shall consist of one or more the following:

(A) Weight-out slips totaling the weight harvested;

(B) A notarized statement from the applicant and the purchaser(s), attesting to the weight harvested (records must be verifiable based upon inspection of the purchaser's business records); and/or

(C) Other documentation similar to that in (p)7ii(2)(A) or (B) above may be accepted at the discretion of the Commissioner after his or her review.

limits and seasonal restrictions as specified in N.J.A.C. 7:25-18.1 apply.

8. Any harvester or vessel landing scup in New Jersey for the purpose of sale shall sell all scup to a permitted New Jersey Scup Dealer.

9. All permitted New Jersey Scup Dealers shall provide weekly reports to the Division listing the amount of scup landed on a daily basis and any other information that may be required by the Commissioner or as a result of an agreement with other states pursuant to (p)10 below. Such report shall be faxed to the Division at 609-984-1408 no later than two days following the week's end or sent by any other method approved by the Department. For the purpose of this provision, the week shall begin on Sunday and end on Saturday.

7:25-18.15 Atlantic sturgeon management

(a) An individual shall not take or attempt to take, possess or land any Atlantic sturgeon in the State, without a valid Atlantic Sturgeon Commercial Gill Net Permit or a valid Atlantic Sturgeon By-Catch Permit issued by the Department. No holder of either permit shall land an Atlantic sturgeon unless such sturgeon has a valid, properly affixed possession tag as specified at (g) and (h) below. No person shall possess any Atlantic sturgeon that does not have a valid, properly affixed possession tag. "Land" shall mean to begin offloading fish, to offload fish or to enter port with fish.

(b) An Atlantic Sturgeon Commercial Gill Net Permit may be transferred to another individual eligible for a gill net license for the purpose of taking Atlantic sturgeon with gill nets. The permittee shall request approval to transfer the permit in writing to the Department, and no such transfer shall be valid until the transferee has received a valid permit issued in his or her name from the Department. An Atlantic sturgeon commercial gill net possession tag may be transferred to another Atlantic Sturgeon Commercial Gill Net Permit holder. The permittees shall list on the permittee's annual report pursuant to (l) below the name of the permittee or permittees to whom the permittee transferred any possession tag. The recipient of the transferred possession tag or tags shall list in the annual report pursuant to (l) below each such transferred tag received.

(c) To qualify for an Atlantic Sturgeon Commercial Gill Net Permit, an applicant shall comply with the provisions below by April 2, 1993:

1. The applicant shall complete an application provided by the Department, listing the dressed weight of Atlantic sturgeon harvested by gill net during 1988, 1989 or 1990, whichever year he landed the greatest dressed weight, or the number of nine-inch or greater stretched mesh gill nets purchased between January 1, 1989 and January 10, 1991 with the intent of entering a directed Atlantic sturgeon fishery.

2. The applicant shall attach documented proof of the dressed weight of Atlantic sturgeon harvested by gill net during 1988, 1989 or 1990, whichever year he landed the greatest dressed weight, or the number of nine-inch or greater stretched mesh gill nets purchased between January 1, 1989 and January 10, 1991. Documented proof shall consist of one or more of the following:

- i. Weigh-out slips totaling the dressed weight harvested;

- ii. A notarized statement from the applicant and the purchaser(s) attesting to the dressed weight harvested (records must be verifiable based upon inspection of the purchaser's business records);

- iii. Sales receipts for the number of nine-inch or greater stretched mesh gill nets purchased, including date of sale, length, and stretched mesh size;

- iv. A notarized statement from the applicant and the seller(s) attesting to the number of nine-inch or greater stretched mesh gill nets purchased, including date of sale, length, and stretched mesh size; or

- v. Other documentation similar to that in (c) 2i, ii, iii or iv above may be accepted at the discretion of the Commissioner after his or her review; and

3. The applicant shall sign an affidavit on the application certifying as to the validity of the information provided.

(d) The application period closes April 2, 1993. Therefore, the Commissioner will determine an annual quota of Atlantic sturgeon (in pounds dressed) that may be harvested for each qualified applicant based upon the following:

1. The total allocation for the directed Atlantic sturgeon gill net fishery in 1993 shall equal the 1990 documented dressed weight landings provided by applicants on their applications, to be divided in the following way:

i. Applicants providing documentation of having purchased a minimum of 10 nine-inch or greater stretched mesh gill nets between January 1, 1989 and January 10, 1991 shall receive an equal share of 10 percent of the total gill net allocation, not to exceed 3,000 pounds each or;

ii. Applicants providing documentation of landings of at least 1,000 pounds dressed weight of Atlantic sturgeon during any one of the years 1988, 1989 or 1990 shall receive a minimum base of 3,000 pounds dressed weight plus a percentage of the remaining allocation determined as follows:

(1) Each applicant shall document to the Department the dressed weight of Atlantic sturgeon landed during 1988, 1989, or 1990, whichever year he landed the greatest dressed weight. The Department will divide the individual dressed weight documented by each applicant by the total amount documented by all applicants under this sub-subparagraph (d)1ii(1) to obtain each applicant's percentage of the remaining allocation.

(e) All qualified applicants will receive an "Atlantic Sturgeon Commercial Gill Net Permit" by May 2, 1993 which shall indicate that permittee's annual (calendar year) quota of Atlantic sturgeon that may be commercially harvested.

(f) An Atlantic Sturgeon By-Catch Permit and a harvest quota will be issued to each qualifying applicant who provides documentation of Atlantic sturgeon landed in New Jersey by otter trawl or pound net of at least 1,000 pounds dressed weight during any one of the years 1988, 1989, or 1990. The Atlantic Sturgeon By-Catch shall not exceed 5.8 percent of the State allocation for Atlantic sturgeon. This represents the percentage of Atlantic sturgeon landed in New Jersey by otter trawl and pound net in 1990 as reported by the National Marine Fisheries Service. To qualify for an Atlantic Sturgeon By-Catch Permit, an applicant shall comply with (f)1 through 4 below by March 23, 1995:

1. The applicant shall complete an application, provided by the Department, listing the dressed weight of Atlantic sturgeon he or she landed by otter trawl or pound net during any one of the years 1988, 1989, or 1990, whichever year the applicant landed the greatest dressed weight.

2. The applicant shall attach documented proof of the dressed weight of Atlantic sturgeon harvested by otter

trawl or pound net during any one of the years 1988, 1989, or 1990, whichever year the applicant landed the greatest dressed weight. Such proof shall consist of one or more of the following:

i. Weigh-out slips totaling the dressed weight harvested;

ii. A notarized statement from the applicant and the purchaser(s) attesting to the dressed weight harvested (records must be verifiable based upon inspection of the purchaser's business records);

iii. Other documentation similar to that specified in (f)2ii above may be accepted at the discretion of the Department.

3. The application period closes March 23, 1995.

4. By April 22, 1995, each qualified applicant will receive an "Atlantic Sturgeon By-Catch Permit" which shall indicate that permittee's annual (calendar year) harvest quota of Atlantic sturgeon that may be landed.

(g) The Department will issue serially numbered Atlantic sturgeon possession tags to each Atlantic sturgeon commercial gill net and by-catch permittee based upon the permittee's annual harvest quota percentage established pursuant to (d) and (f) above and an equivalent average weight per fish landed as determined through average weigh-out landing verifications. No person shall reuse or alter any tag, or use a broken tag. All unused tags must be returned to the Department by January 15 of the following year. Tags will be issued for each calendar year by February 15.

(h) An Atlantic sturgeon commercial gill net or Atlantic sturgeon by-catch permittee who takes and possesses an Atlantic sturgeon of legal size shall tag such sturgeon with a numbered tag issued by the Department. Such tag shall be attached and securely locked at the nape of the fish once such fish has been dressed and prior to tending another piece of gear. All Atlantic sturgeon not tagged or of less than the legal minimum size shall be returned uninjured to the water immediately.

(i) The possession of Atlantic sturgeon of a length less than 60 inches or a dressed length less than 36 inches is prohibited. Dressed length is the length of an Atlantic sturgeon after the entire head, collar, tail and viscera have been removed.

(j) All Atlantic Sturgeon Commercial Gill Net and Atlantic Sturgeon By-Catch Permit holders shall have their permit on their person at all times when engaged in any phase of harvesting, transporting, selling or possessing Atlantic sturgeon.

(k) All Atlantic sturgeon harvested under the Atlantic Sturgeon Commercial Gill Net Permit or Atlantic Sturgeon By-Catch Permit shall be landed in New Jersey.

(l) All permittees shall be required to complete annual reports on forms supplied by the Department. The annual report shall be signed by the permittee attesting to the validity of the information and be submitted so it is received by the Department no later than January 15 of the next subsequent calendar year at the following address:

Division of Fish and Wildlife
Atlantic Sturgeon Program
PO Box 418

7:25-18.16 Horseshoe crab (*Limulus polyphemus*)

(a) An individual shall not catch, take, or attempt to catch or take, land or possess horseshoe crabs from any beach or shoreline or from the marine waters of this State unless such individual has in his or her possession a valid permit to take horseshoe crabs issued by the Commissioner of Environmental Protection. Any individual who wishes to harvest horseshoe crabs may be eligible to obtain a permit by completing an application available from the Division of Fish and Wildlife, Bureau of Marine Fisheries, PO Box 400, Trenton, N.J. 08625-0400. The following persons, in the following circumstances, are not subject to this prohibition.

1. Property owners, tenants or agents of property owners may, at any time, remove dead horseshoe crabs from their property for purposes of disposal. No sale, trade, or barter of horseshoe crabs is permitted under this paragraph.

2. Persons collecting horseshoe crabs for strictly scientific purposes only and operating under the terms and conditions specified by a required scientific collecting permit issued pursuant to N.J.S.A. 23:4-52 by the Administrator of the Marine Fisheries Administration within the Division.

3. Individuals in possession of a valid New Jersey miniature fyke or a valid New Jersey lobster or fish pot license and in possession of bona fide written documentation that the horseshoe crabs were obtained from a legal source.

(b) An individual is eligible for a horseshoe crab permit if the individual in each of two calendar years during the period of January 1, 1993 through May 29, 1997:

1. Possessed a valid New Jersey miniature fyke or lobster or fish pot license;

2. Possessed a valid New Jersey horseshoe crab permit; and

3. Reported landings of horseshoe crabs in New Jersey as verified by the Department on the basis of the reports submitted by the individual to the Department as required under this section since May 3, 1993.

(c) Horseshoe crab permits shall be nontransferable except that a horseshoe crab permit holder may transfer the right to the horseshoe crab permit at any time to the permittee's spouse, father, mother, son or daughter upon application to the Division. No permit shall be transferred without the prior determination by the Department that the transfer complies with this subsection.

(d) The season for horseshoe crabs shall be April 1 through August 15.

(e) A person shall not harvest horseshoe crabs from the beaches and shoreline and the adjacent waters and uplands within 1,000 feet of the bayfront mean high water line in that portion of Delaware Bay extending from the Cape May Canal in Cape May County to Stow Creek in Cumberland County at any time.

(f) An individual shall not harvest or land horseshoe crabs that have been taken by any method other than by hand harvest. The use of any implement (nets, rakes, spears, shovels, forks, etc.) to assist hand harvest is prohibited. Hand harvest is permitted in areas other than specified in (e) above only on Tuesdays and Thursdays during the season established under (d) above.

(g) (Reserved)

(h) Any person harvesting horseshoe crabs shall provide monthly reports within five working days following the end of the reported month to the Department on forms supplied to the permit holder. The monthly report shall include the number of horseshoe crabs harvested, the area of collection and any other information as the Department may deem necessary for management of the horseshoe crab resource. If no horseshoe crabs were harvested during the month, a report to that effect shall be provided. The permittee shall be personally responsible for guaranteeing the timely delivery of reports to the Division as well as the accuracy of all information contained therein. The Department may demand that a permittee provide proof of the truth of any data contained in any report submitted to the Division under this program. If the permittee fails to file a true, complete monthly report with the Division by the fifth day of any month, the Division, in its discretion, may contact the permittee by the most expeditious method available in order to secure a complete report.

(i) Any person violating the provisions of this section shall be subject to the penalties prescribed in N.J.S.A. 23:2B-14 in addition to the suspension or revocation of the permittee's horseshoe crab harvesting privileges, according to the following procedures:

1. The Division shall notify the permittee in writing of the Division's intention to revoke the permittee's horseshoe crab harvesting privilege for the reasons stipulated in the notice, effective 20 business days after the date on the written notice (excluding the date on the notice) and of the Division's suspension of the permittee's horseshoe crab harvesting privileges in the interim, effective on a date stipulated in the notice but not sooner than 10 business days after the date of the notice (excluding the date on the notice).

2. The permittee may request a hearing to contest a proposed revocation of horseshoe crab harvesting privileges in accordance with the Administrative Procedure Act, N.J.S.A. 52:14B-1 et seq., and the Uniform Administrative Procedure Rules, N.J.A.C. 1:1. The request for an administrative hearing must be received in writing by the Department within 20 business days from the date on the Division's notice of suspension and intention to revoke, excluding the date on the notice. However, if a timely request for a hearing is not received by the Department, any allegation contained in the notice shall be deemed admitted by the permittee and horseshoe crab harvesting privileges shall be revoked as of the date stipulated in the notice, without any further action by the Division.

3. The Division Director may, in his or her sole discretion, stay the suspension of horseshoe crab harvesting privileges pending a hearing on the notice of proposed revocation of horseshoe crab harvesting privileges for any good cause set forth in a written petition from the permittee, including sworn statements from the permittee or other persons with knowledge relevant to the allegations on which the Division action is based. The petition and its supporting statements and documentation shall be made available to the court and all parties in advance of any hearing.

4. The Division shall reinstate horseshoe crab harvesting privileges suspended for late or incomplete reports, but no more than one time per permittee in any single permit year, if that permittee personally delivers any missing reports, completed, along with a credible written explanation for the delay and/or omissions to the Division within 20 business days from the date on the notice of suspension.

5. Any permittee who has had his or her horseshoe crab harvesting privilege revoked shall be disqualified from exercising any privilege associated with a horseshoe crab harvesting permit for 24 months following the effective date of an uncontested notice of proposed revocation of privileges, or whichever of the following is applicable:

i. The date of the Commissioner's Final Decision affirming revocation of horseshoe crab harvesting privileges, or

ii. The filing date of the court order affirming the Commissioner's Final Decision revoking horseshoe crab harvesting privileges.

6. The Division shall issue a horseshoe crab permit to an applicant pending resolution of a contested Division proposal to revoke that applicant's horseshoe crab harvesting privilege, but that permittee shall not exercise or enjoy any horseshoe crab harvesting privilege pending resolution of a proposed revocation until, as appropriate, one of the following occurs:

i. The Division Director lifts the suspension of that permittee's horseshoe crab harvesting privilege;

ii. The Commissioner issues a Final Decision reinstating that permittee's horseshoe crab harvesting privilege; or

iii. A court of competent jurisdiction orders reinstatement of that permittee's horseshoe crab harvesting privileges.

Case Notes

Adoption of a permanent rule for harvesting horseshoe crabs rendered moot an appeal from a judgment determining that an emergency amendment, which extended prior emergency amendment's 60-day ban on taking horseshoe crabs for another 60 days, violated the Administrative Procedure Act (APA). *Delaware Bay Waterman's Ass'n of New Jersey v. New Jersey Dept. of Environmental Protection*, 709 A.2d 192, 153 N.J. 345 (N.J. 1998).

Emergency amendment to regulation, which extended prior emergency amendment's ban on taking horseshoe crabs, violated Administrative Procedure Act's requirement of legislative approval for such amendment continuation; although Department of Environmental Protection offered two different reasons for original and successive amendments, each amendment had same cause and same result, rendering successive amendment a continuation of first. *Delaware Bay Waterman's Ass'n of New Jersey v. New Jersey Dept. of Environmental Protection*, 304 N.J.Super. 20, 697 A.2d 957 (A.D. 1997.)
