### 6:3-1.4 Local district responsibility for employment of staff

(a) State certification requirements are those structured training and competency evaluation requirements that are prescribed by the State Board of Education in order to protect the public. Each district board of education shall determine the types of background experiences and personal qualities, if any, that the district requires or prefers successful candidates for specific positions to possess in addition to appropriate State certification. Such local requirements shall be based upon a careful review of the position in question, and the requirements shall emphasize the nature of experience and the quality of individual achievement desired, rather than only the amount of experience.

(b) No teaching staff member shall be employed in the public schools by any board of education unless he or she is the holder of a valid certificate (see N.J.S.A. 18A:26-2). In addition, district boards of education should exercise their right and responsibility to require job candidates to present other, more detailed documentation of their competency. Such documentation includes resumes, references, records of past experiences, college transcripts, certification test scores, assessment reports, internship evaluations, and other documentation of competency relevant to the specific position.

(c) District boards of education shall assign to administrative positions those functions which are consistent with the individual qualifications of the position occupant, and shall support the establishment of structures for making instructional decisions that take administrator qualifications into account.
