NJNG Youth Camp in 22nd year

Photos by the 444th Mobile Public Affairs Detachment

The New Jersey National Guard held its annual Youth Camp at the National Guard Training Center at Sea Girt, N.J., from July 10-16. This marks the 22nd year the NJNG Family Programs has ran the encampment. From the opening to closing ceremonies, more than 120 campers enjoyed a variety of activities including sports, arts and crafts, swimming, and archery along with special activities highlighting health and fitness, substance abuse and child safety.

VA CONDUCTS LARGEST ANALYSIS OF VETERAN SUICIDE

From the U.S. Department of Veterans Affairs

The Department of Veterans Affairs has undertaken the most comprehensive analysis of Veteran suicide rates in the U.S., examining over 55 million Veteran records from 1979 to 2014 from every state in the nation. The effort extends VA's knowledge from the previous report issued in 2010, which examined three million Veteran records from 20 states were available. Based on the data from 2010, VA estimated the number of Veteran deaths by suicide averaged 22 per day. The current analysis indicates that in 2014, an average of 20 Veterans a day died from suicide.

The final report will be publicly released later this month. Key findings of the analysis will include:

- 65 percent of all Veterans who died from suicide in 2014 were 50 years of age or older.
- Veterans accounted for 18 percent of all deaths from suicide among U.S. adults. This is a decrease from 22 percent in 2010.
- Since 2001, U.S. adult civilian suicides increased 23 percent, while Veteran suicides increased 32 percent in the same time period. After controlling for age and gender, this makes the risk of suicide 21 percent greater for Veterans.
- Since 2001, the rate of suicide among US Veterans who use VA services increased by 8.8 percent, while the rate of suicide among Veterans who do not use VA services increased by 38.6 percent.
- In the same time period, the rate of suicide among male Veterans who use VA services increased 11 percent, while the rate of suicide increased 35 percent among male Veterans who do not use VA services.
- In the same time period, the rate of suicide among female Veterans who use VA services increased 4.6 percent, while the rate of suicide increased 98 percent among female Veterans who do not use VA services.

VA is aggressively undertaking a number of new measures to prevent suicide, including:

- Ensuring same-day access for Veterans with urgent mental health needs at over 1,000 points of care by the end of calendar year 2016. In fiscal year 2015, more than 1.6 million Veterans received mental health treatment from VA, including at over 150 medical centers, 820 community-based outpatient clinics and 300 Vet Centers that provide readjustment counseling. Veterans also enter VA health care through the Veterans Crisis Line, VA staff on college and university campuses, or other outreach points.

Using predictive modeling to determine which Veterans may be at highest risk of suicide, so providers can intervene early. Veterans in the top 0.1 percent of risk, who have a 43-fold increased risk of death from suicide within a month, can be identified before clinical signs of suicide are evident in order to save lives before a crisis occurs.

- Expanding telemental health care by establishing four new regional telemental health hubs across the VA healthcare system.
- Hiring more than 60 new crisis intervention responders for the Veterans Crisis Line. Each responder receives intensive training on a wide variety of topics in crisis intervention, substance use disorders, screening, brief intervention, and referral to treatment.
- Building new collaborations between Veteran programs in VA and those working in community settings, such as Give an

Hour, Psych Armor Institute, University of Michigan's Peer Advisors for Veterans Education Program (PAVE), and the Cohen Veterans Network.

- Creating stronger inter-agency (e.g. Substance Abuse and Mental Health Services Administration, Department of Defense, National Institutes of Health) and new public-private partnerships (e.g., Johnson & Johnson Healthcare System, Bristol Myers Squibb Foundation, Walgreen's, and many more) focused on preventing suicide among Veterans.

Many of these efforts were catalyzed by the VA's February 2016 Preventing Veteran Suicide—A Call to Action summit, which focused on improving mental health care access for Veterans across the nation and increasing resources for the VA Suicide Prevention Program.

Suicide is an issue that affects all Americans. Recent Centers for Disease Control and Prevention data reported in April 2016 that from 1999 through 2014 (the most recent year with data available from CDC), suicide rates increased 24 percent in the general population for both males and females.

VA has implemented comprehensive, broad ranging suicide prevention initiatives, including a toll-free Veterans Crisis Line, placement of Suicide Prevention Coordinators at all VA Medical Centers and large outpatient facilities, and improvements in case management and tracking.

Immediate help is available at www.VeteransCrisisLine.net or by calling the Crisis Line at 1-800-273-8255 (press 1) or texting 838255.

**THINKING OF STARTING OR
GROWING YOUR BUSINESS?**

THE AMERICAN LEGION, VBOC OF NYC & NJ AND THE SMALL BUSINESS ADMINISTRATION PRESENT A FREE, ONE DAY PROGRAM WITH A COMPREHENSIVE 8 WEEK ON-LINE COURSE FOR VETERANS WHO WANT TO START, EXPAND OR PURCHASE A SMALL BUSINESS. THE EVENT WILL TAKE PLACE AT:
