#### **10:49-5.3 Services available to beneficiaries eligible for the Medically Needy program**

(a) Regular Medicaid services are available to Medically Needy beneficiaries except for the following services which are not available or are only available to certain eligible Medically Needy groups: (See the service code next to the beneficiary's name on the Medicaid Eligibility Identification Card to ascertain the Medically Needy group under which the beneficiary's eligibility was established; that is, Group A—pregnant women, Group B—needy children, and Group C—aged, blind and disabled.)

11. Any admission, service, or item, requiring prior authorization, where prior authorization has not been obtained or has been denied (see N.J.A.C. 10:49-6, Authorizations required);

12. Services furnished by an immediate relative or member of the Medicaid beneficiary's household;

13. Services billed for which the corresponding health care records do not adequately and legibly reflect the requirements of the procedure described or procedure code utilized by the billing provider, as specified in the Provider Services Manual;

i. Final payment shall be made in accordance with a review of those services actually documented in the provider's health care record. Further, the medical necessity for the services must be apparent and the quality of care must be acceptable as determined upon review by an appropriate and qualified health professional consultant.

ii. All such determinations will be based on rules and regulations of the New Jersey Medicaid Program, the minimum requirements described in the appropriate New Jersey Medicaid Provider Services Manual, to include those elements required to be documented in the provider's records according to the procedure code(s) utilized for payment, and on accepted professional standards. (See N.J.A.C. 10:49-9.5, Provider Certification and Recordkeeping.)

iii. Any other evidence of the performance of services shall be admissible for the purpose of proving that services were rendered only if the evidence is found to be clear and convincing. "Clear and convincing evidence" of the performance of services includes, but is not limited to, office records, hospital records, nurses notes, appointment diaries, and beneficiary statements.

iv. Therefore, any difference between the amount paid to the provider based on the claim submitted and the Medicaid Agent's value of the procedure as determined by the Medicaid Agent's evaluation, may be recouped by the Medicaid Agent.

14. Any claim submitted by a provider for service(s) rendered, except in a medical emergency, to a Medicaid or a NJ KidCare—Plan A beneficiary whose Medicaid or NJ KidCare Eligibility Identification Card has a printed message restricting the beneficiary to another provider of the same service(s). (See N.J.A.C. 10:49-2.13(e)2, Special Status program);

15. Services or items reimbursed based upon submission of a cost study when there are no acceptable records or other evidence to substantiate either the costs allegedly incurred or beneficiary income available to offset those costs. In the absence of financial records, a provider may substantiate costs or available income by means of other evidence acceptable to the Medicaid Agent or the Division. If upon audit, financial records or other acceptable evidence are unavailable for these purposes:

i. All reported costs for which financial records or other acceptable evidence are unavailable for review upon audit are deemed to be non-allowable; and/or

ii. Beneficiary income shall be presumed to equal the maximum income allowable for a Medicaid or NJ Kid-

Care beneficiary for those beneficiaries whose records relating to income are completely unavailable;

iii. The Medicaid Agent or the Division shall seek recovery of any resulting overpayments;

16. Services provided primarily for the diagnosis and treatment of infertility, including sterilization reversals, and related office (medical or clinic), drugs, laboratory services, radiological and diagnostic services and surgical procedures.
