

New Jersey's Integrated Child Care Information System, or NJCCIS, supports business operations related to child care in NJ - including child care licensing, family child care provider registration, grants, inspections, and complaints. NJCCIS also is the point of access to the NJ Workforce Registry - allowing child care professionals to maintain a record of their experience, education and professional development and to access training resources. Providers also can enroll in Grow NJ Kids and access other quality initiatives. For more information on NJCCIS, visit the help page. (/njccis/help)
