**NEW JERSEY DEPARTMENT OF ENVIRONMENTAL PROTECTION
NOTICE OF PUBLIC COMMENT PERIOD
ON THE PROPOSED ISSUANCE OF A
SOLID AND HAZARDOUS WASTE FACILITY
PERMIT MODIFICATION**

The State of New Jersey, Department of Environmental Protection (NJDEP) has reviewed an application for the modification of a solid and hazardous waste facility (SHWF) permit submitted by:

Safety-Kleen Systems, Inc.
1200 Sylvan Street
Linden City, Union County
EPA ID No. NJD002182897

for the storage of additional hazardous waste types and solid waste type ID 27, and the increase of permitted container size.

THE DRAFT PERMIT MODIFICATION

The NJDEP issues SHWF permits to regulate ongoing activities involving treatment, storage, and/or disposal of solid and hazardous waste. The NJDEP has prepared a draft SHWF permit modification and is accepting comments on the draft. This draft permit modification includes the following:

- Authorization to store additional hazardous waste types
- Authorization to store and bulk containerized ID 27 solid wastes in an existing hazardous waste container storage area
- Authorization to store and commingle ID 27 solid wastes in containers and roll-offs in a proposed container storage building
- Authorization to increase the maximum permitted container size from 400 to 550 gallons.
- Authorization to modify facility contingency plan

FACILITY DESCRIPTION

The Safety-Kleen Systems, Inc., Linden Recycle Center operates as a major commercial solid and hazardous waste facility. The primary hazardous waste activity at the facility involves processing of spent organic solvents received from Safety-Kleen service centers, other Safety-Kleen recycle centers, and from various commercial and industrial generators to recover clean solvents for recycle or sale. Other hazardous waste activities at the facility include processing of wastes received from other Safety-Kleen facilities, wastes generated on-site, and wastes received from Safety-Kleen customers to produce fuel and operate a transfer station facility to store wastes received from generators and ship off-site to authorized facilities. The permittee also receives and processes ID 72 solid waste. If approved, this permit modification would authorize the permittee to accept containerized ID 27 solid waste for storage and transfer activities at the hazardous waste facility, accept additional hazardous waste types, increase the maximum authorized container size from 400 to 550 gallons, and modify the facility contingency plan.

WHERE TO OBTAIN ADDITIONAL INFORMATION
