January 2013

Monthly Traffic Report

Newark Liberty International John F.Kennedy International LaGuardia Stewart International Teterboro & regional satellite airport summaries

Aviation Department - Traffic Statistics

JoJo Quayson
John Cuneo
Deyssi Mesa

Notes1: The section entitled Air Transport Association Carriers is included to give a comparison between Port Authority Airport traffic growth and aggregate growth as measured by the majority of the U.S. carrier industry.

Note2: The page 2 Access Mode: residents report excludes passengers arriving by hotel courtesy vehicles, helicopters, and the miscellaneous "other" category. The airline OAG summary uses schedules effective for the week in the middle of the month being summarized. "Flights (daily) refers to the daily-each-way average flights which can be thought of as 1 directional departing or arriving flights.

The region's passenger traffic began the year on a strong positive note as traffic grew 6.4%, setting an all time January record of 8.2 million. International traffic also grew 7.4% and set a new January record of 2.85 million. While the domestic level was not a record, its growth was nevertheless impressive as it grew 5.8%. Factors contributing to the strong growth included a milder January weather in our region and a 2.5% and 6.8% increases in domestic and international seat capacity respectively. Benefiting from the timing of the Chinese New Year (which occurred in January last year but in February, this year), the region's cargo experienced a smaller decline of only 1.2%. Cargo continues to be weak and is anticipated to experience a steeper fall in February.
