## **To All Departments, Institutions, Etc.**

This handbook of appropriations for the fiscal year beginning July 1, 1919, and ending June 30, 1920, is published for the benefit and information of all parties concerned.

The several items composing the act herein contained are hereby declared to be appropriations for the fiscal year above mentioned for the purposes therein expressed.

In order that some degree of flexibility in appropriations may be had, and to meet contingencies not apparent at the passage of the act, the Comptroller, by authority vested in him under section 6 of Chapter 290, Laws of 1918, will make such correction of titles or text, or both, of appropriations necessary to make them available for the purpose or purposes intended, at such time as the necessity for them may be presented to him by the various boards, institutions, commissions or officials of the State.

Attention is directed to section one of the act with reference to the availability of the appropriations for the period of three months after the close of each fiscal year. This is a new departure, but State officers are advised that by reason of the enactment of this clause all unexpended balances will arbitrarily lapse at the close of the three months' period, except it be reserved as provided therein.

Heads of institutions coming under the control of the Department of Institutions and Agencies should direct their attention to section 7.

All miscellaneous receipts must be forwarded monthly in accordance with the law as heretofore, and each institution will be credited with the amount so received, but cannot use any sum in excess of the amount appropriated by the Appropriation Committee.

For the past two years or more every effort has been made by this Department to facilitate the payment of bills, and it appears that there should be no difficulty in each department and institu-

tion forwarding schedules of bills within five days after the close of each month. Schedules should not be held simply because some firm with whom the institution is doing business fails to send in their invoice at the proper time. It might be better to forward a supplemental schedule later in the month.

This Department is enabled at all times to pass bills to payment promptly, and it is sincerely hoped that bookkeepers of institutions will make every effort to forward their schedules as frequently as they desire, and that they call upon this Department whenever it is desirable for such assistance as may be needed to expedite payments.

Institutional bookkeepers are directed to pay strict attention to copies of requisitions forwarded by the Purchasing Agent, and debit same against their appropriation when received. They become debits against the appropriation notwithstanding the fact that the goods ordered under the requisition have not been received. A prompt compliance with this will make it impossible for bookkeepers to carry balances different from this Department, as has occurred frequently in the past.

*Comptroller of the Treasury.*

3. Before any building or buildings shall be commenced or work undertaken, for the cost of which money is appropriated by this act, the plans, specifications and contracts necessary for the entire completion thereof shall, and each of them shall, be submitted and approved pursuant to chapter five, laws of nineteen hundred and eighteen, and such contracts shall not be approved or entered into if the total expenditure under all the contracts necessary to the entire completion of such building, buildings or work according to such plans and specifications shall exceed the amount appropriated by

THIS act for such building, buildings or work; and in any and every case where it shall appear that the appropriation is insufficient to complete such building, buildings, or work, the appropriation hereby made therefor shall not be applied toward the construction of such building or buildings, or prosecution of such work, but shall lapse, and no payment shall be made therefrom; *provided, however,* that the provisions of this section, prohibiting the expenditure of the whole or any part of an appropriation, which in itself is insufficient to complete any building, buildings or work, and providing for the lapsing of such appropriations, shall not apply to nor restrict the expenditure of any moneys herein appropriated for the construction, completion of construction, equipment or furnishing of any armory or armories which have been heretofore authorized and which are partially constructed, completed or furnished, but such appropriation shall be available for the uses and purposes herein expressed to the full extent thereof, nor shall the provisions of this section apply to any appropriation authorizing expenditures for the construction of the proposed bridge between the city of Philadelphia, State of Pennsylvania, and the city of Camden, in this State, nor the proposed tunnel to be constructed under the Hudson river, between the city of New York, State of New York, and the city of Jersey City, in this State.

5. In order that some degree of flexibility in appropriations may be had, any department or other State agency receiving an appropriation by any act of the Legislature may apply to the State House Commission for leave to transfer a part of any item granted to such department or agency to any other item in such appropriation. Such application shall only be made during the current year for which the appropriation was made, and if the State House Commission shall consent thereto, it shall notify the Comptroller thereof in writing, whereupon the Comptroller shall place the amount so transferred to the credit of the item so designated; *provided, however*, that no sum appropriated for any permanent improvement shall be used for maintenance or for any temporary purpose.

6. The Comptroller of the Treasury is hereby authorized, empowered, directed, and it shall be his duty to make such correction of the title or text, or both, of an appropriation, necessary to make such appropriation available for the purpose or purposes of its intention. Such correction shall be by written ruling, reciting in appropriate detail the facts thereof and the reasons therefor, attested by the signature of said Comptroller and filed in the Department of the Comptroller of the Treasury as an official record thereof, and any action thereunder, including disbursements and the audit thereof, shall be legally binding and of full force and virtue.

be available subject to the following limitations: There shall be submitted monthly to the State Comptroller by the Department of Institutions and Agencies, a statement showing the number of inmates or patients maintained in each of the several institutions during the preceding month, the estimated number for the succeeding month together with the increase or decrease in population of such institution based on the estimate submitted by the Department of Institutions and Agencies to the Budget Commission, and the Comptroller is authorized, in the event of any institutional agency exceeding the proportion of its appropriation as based on the number of inmates so estimated, at any time during the fiscal year to refuse countersignature of requisitions and take whatever steps he shall deem necessary to reduce the expenditures of such institution to a proper proportion based on the decrease in population.

8. The Comptroller of the Treasury is hereby empowered, and it shall be his duty in the disbursement of funds available for the general uses of the State, to first provide for the maintenance of the administration of the government of the State, and of its courts, and of its penal, correctional and charitable institutions, and to apply the remainder of such available funds in such manner and to such purpose for which appropriation may have been made as in his judgment may best conserve the interest of the State.
