General Information

The DEP Bulletin is an information service provided by the New Jersey Department of Environmental Protection. In compliance with the Rules and Regulations Governing 90 Day Construction Permits (NJAC 7:1C-1.1 et seq.) this semi-monthly publication contains a list of construction permit applications recently filed or acted upon by the DEP. Using the Application Milestone Codes located on the inside front cover, interested persons can determine the status of Coastal Area Facility Review Act (CAFRA) permits, Federal Consistency Activity permits, Freshwater Wetlands Individual and Statewide General permits, General Groundwater Petroleum Products Cleanup permits, Open Water Fill permits, Solid Waste Facility permits (SWF), Stream Encroachment (SE) permits, Tidal Wetlands permits, Waterfront Development permits and Treatment Works Approvals (TWA).

In addition, a calendar of Events of Interest and a Schedule of Public Hearings is provided. The public hearings listed does not, however, constitute an official notice. Environmental Impact Statements acted upon during the period are also shown. Additional information concerning the permit applications can be obtained by calling the project manager at the appropriate office listed inside the back cover.

Public Hearings are held for the purpose of obtaining input and reaction to a proposed rule, regulation, or new program. Some hearings may be mandated by law. Generally their scope of impact is statewide or of broad general interest and open to the public.

Contested Case Hearings are held between the State and a particular party involving an application, enforcement violation or an appeal. Interest in these hearings is generally limited to those directly involved.

DEP Events of Public Interest include public hearings, council meetings, workshops, public information meetings, and exams.

National Oceanic and Atmosphere Administration Announcement

The National Oceanic and Atmospheric Administration (NOAA) announces the availability for public review and comment of the draft Natural Resource Restoration Plan for Oil and Chemical Releases in the New York/New Jersey Harbor Estuary. The restoration plan contains recommendations to restore natural resources injured by the release of petroleum or other hazardous substances into the New York/New Jersey Estuary.

The plan will be used by the stat-federal NY/NJ Harbor Spill Restoration Committee to implement restoration projects using settlement funds from the 1990 Exxon Bayway, B.T. Nautilus and other past and future spills. The plan includes a discussion of the major waterbodies of the harbor, the major threats to these areas, criteria for choosing restoration projects, and options for restoring areas and resources injured by oil or hazardous substance spills or releases. Approaches discussed in the plan for accomplishing broadly-defined restoration include resource and habitat enhancement, habitat protection/land acquisition, public access, and public education.

For copies of the restoration plan or further information, contact John Catena, National Marine Fisheries Service, One Blackburn Drive, Gloucester, MA 01930, (508) 281-9251. Public comments on the draft plan are due by July 26, 1996
