The Division of Mental Health and Addiction Services (DMHAS) serves as the Single State Agency (SSA) for Substance Abuse and the State Mental Health Authority (SMHA) as designated by the U.S. Substance Abuse and Mental Health Services Administration (SAMHSA). The Division oversees New Jersey's adult system of community-based behavioral health services. These agencies provide a full array of services, including substance use prevention and early intervention, emergency screening, outpatient and intensive outpatient mental health and addictions services, partial care and partial hospitalization, case management, medication assisted treatment for substance use, and long and short term mental health and substance abuse residential services, in addition to other evidence-based practices such as the Program for Assertive Community Treatment (PACT), supported employment and education, and supportive housing.

The Department of Children and Families Children's System of Care serves children and adolescents with emotional and behavioral health care challenges and their families; and children with developmental and intellectual disabilities and their families.
