Water Supply Status and Actions

Current Status Normal

Routine monitoring of water supply and meteorological indicators. All conditions normal.

Watch

Focus placed on voluntary reductions in demand through increased public awareness.

Warning

DEP Commissioner issues order urging public to voluntarily use water sparingly; DEP may issue orders to purveyors to manage supplies in most affected regions.

Emergency

Governor orders mandatory restrictions on certain uses of water, usually phased in as conditions deteriorate.

The [water supply conditions](#) aid the Department in declaring the regions as being within one of the four stages of water supply drought, Normal, [Drought Watch](#), [Drought Warning](#), and [Drought Emergency](#).
