It is a policy of the State Board of Education and the New Jersey Department of Education that no person, on the basis of race, color, creed, national origin, age, sex, handicap or marital status, shall be subjected to discrimination in employment or be excluded from or denied benefits of any activity, program or service for which the department has responsibility. The department will comply with all state and federal laws and regulations concerning non-discrimination.

FOREWORD

Approved public, private, secondary and post secondary schools in New Jersey have undergone detailed evaluations and have been found in compliance with the New Jersey State Approving Agency and the rules and regulations of the Veterans Administration.

It is the policy of the New Jersey State Department of Education, or any of its divisions, not to recommend or endorse any particular school or educational training program. The acknowledgement of a school in this directory indicates in each instance that the school's curricula, methods of instruction, faculty personnel, equipment, school facilities, student enrollment procedures and contracts, advertising, financial policies, and catalogs have been found to be in compliance with the minimum state rules established for the types of school concerned.

The listing of a school or program in this directory does not mean that credentials earned by graduates from these institutions are recognized by the New Jersey State Department of Education for transfer to collegiate level institutions or for any other purpose.

Specific inquiries regarding tuition, admission policies, and details of curricular content should be made directly to the individual schools.

Handwritten text at the top of the page, possibly a header or title, which is mostly illegible due to blurring and fading.

VETERANS INFORMATION

Approving Agency

Federal laws authorize and New Jersey statutes direct the Department of Education to be the approving agency for educational institutions and training establishments offering education and training to veterans below the college level.

THE NONCONTRIBUTORY G.I. BILL - CHAPTER 34

The Veteran's Readjustment Benefits Act of 1966 became effective on June 1, 1966. This act, as amended, provides a program of education and training assistance for individual's discharged from the armed forces after January 31, 1955. Persons entering the service after December 31, 1976, are not eligible for educational and training assistance under the provisions of this law.

Kinds of Training - Eligible veterans may attend approved elementary, secondary, vocational, technical and business schools, and colleges and universities. The Act also provides for farm cooperative training, apprenticeship and other on-the-job training, and correspondence training.

Eligibility - Men and women who have served for more than 180 days in the armed forces, any part of which was after January 31, 1955, and before December 31, 1976, are eligible for educational assistance benefits. They are entitled to 1½ months of education or training for each month of service after January 31, 1955, up to a maximum of 45 months. Eighteen months of continuous service entitles them to maximum benefits.

Time Limits - Generally, veterans have ten years after their discharge (but not later than December 31, 1989) to use their benefits. Under certain conditions, veterans may have more than ten years to use their benefits.

EDUCATION RATES (EFFECTIVE AS OF OCTOBER 1, 1986)

Education assistance rates for veterans enrolled full-time in EDUCATIONAL INSTITUTIONS on a full-time basis are \$376 per month for a single veteran, \$448 per month for a veteran with one dependent, \$510 per month for a veteran with two dependents, and \$32 more per month for each additional dependent.

Education and training assistance rates for a veteran enrolled in a FARM COOPERATIVE COURSE on a full-time basis are \$304 per month for a single veteran, \$355 per month for a veteran with one dependent, \$404 per month for a veteran with two dependents, and \$23 per month for each additional dependent.

Training assistance rates for veterans enrolled in a program of APPRENTICESHIP or other ON-THE-JOB TRAINING are \$274 per month for a single veteran, \$307 per month for a veteran with one dependent, \$336 per month for a veteran with two dependents, and \$14 per month for each additional dependent. Training assistance rates are reduced each six months throughout the program.

SURVIVORS AND DEPENDENTS EDUCATIONAL ASSISTANCE PROGRAM - CHAPTER 35

Spouses, surviving spouses, and children of veterans are eligible for educational assistance benefits if the veteran died or became totally disabled as a result of service in the armed forces. Spouses and children of American prisoners of war are eligible for similar benefits. The son or daughter of the veteran generally must be between the ages of 18 and 26.

THE VETERANS' EDUCATIONAL ASSISTANCE PROGRAM (VEAP) - CHAPTER 32

The Veterans' Educational and Assistance Act of 1976 provides educational and training assistance for persons entering the military service on or after January 1, 1977, and before July 1, 1985. Any individual on active duty in the armed forces who was eligible to enroll in VEAP on June 30, 1985, was allowed to enroll in this program prior to April 1, 1987. Benefits are accumulated by including contributions from the participating servicepersons and a matching fund from the Veteran's Administration at the rate of \$2 for each \$1 contributed by the participant. This Act was amended to provide apprenticeship and other on-the-job training and correspondence training, effective October 28, 1986.

MONTGOMERY G. I. BILL - CHAPTER 30 AND CHAPTER 106

The Montgomery G.I. Bill provides educational assistance for persons entering military service after June 30, 1985. This G.I. Bill consists of two components--the program of educational assistance for active duty service personnel (Chapter 30, Title 38, U.S. Code) and the educational assistance program for members of the Selected Service (Chapter 106, Title 10, U.S. Code).

CHAPTER 30

Eligible persons with three years of service will be entitled to \$300 per month of educational assistance for 36 months - a total of \$10,800. For those who initially enlist for two years, the rate is \$250 per month for 36 months. There will be a reduction of \$100 per month for the first 12 months of basic pay to qualify the participant for these benefits.

Only those persons who have received a secondary school diploma (or an equivalency certificate) will be eligible for this educational assistance program.

Eligible persons may qualify for up to \$300 per month of educational assistance, in addition to the basic benefits, by serving in the armed forces for five or more additional years.

The allowance may be increased by up to \$400 per month for persons with certain designated skills or specialties.

The educational assistance may be used for educational in approved programs in trade and technical schools and colleges and universities. This act was amended to provide apprenticeship and other on-the-job training and correspondence training, effective October 28, 1986.

The act provides for the continuation of the designated State Approving Agency for the approval and supervision of educational programs.

The act provides an incentive for persons who are now serving in the armed forces to reenlist. They will be able to remain in the armed forces after 1989 and use their earned educational assistance benefits after their discharge.

CHAPTER 106

Educational assistance is also provided for persons who enlist, re-enlist, or extend an enlistment for service in the Selected Reserve for a period of not less than six years. They are entitled to educational assistance benefits of up to \$5,040 (\$140 per month for 36 months of full-time school attendance) for undergraduate training at institutions of higher learning. No reduction in pay is required under this program.

Please note that reservists and National Guard personnel eligible *under* Chapter 106 may pursue courses offered only at an institution of higher learning (i.e., those offering a standard college degree).
