#### 7:25-4.14 Requirements for possession of endangered wildlife species

(a) Individuals wishing to apply for a permit to possess endangered wildlife must meet all criteria for a Federal endangered species permit (issued by the United States Fish and Wildlife Service), when applicable, and for the New Jersey nongame and exotic species permit pursuant to N.J.A.C. 7:25-4.7 (issued by the Division). The Department will require and review the Federal permit before issuing a State permit.

(b) The Division shall issue a permit for possession of specific individual animals classified as endangered wildlife to an applicant who fulfills the criteria in (a) above, and who:

1. Has obtained a sponsoring organization and designated professional who have submitted to the Division all information required in (a)2 and 3 below;

2. Has submitted to the Division a detailed written proposal for scientific research to be completed by the applicant within the time stated by the applicant which, in the judgment of the Division, requires use of the species in question, will not jeopardize the animal's health and has a reasonable probability of yielding, when performed by the applicant under the supervision of the Division and the sponsor pursuant to scientific protocol approved in writing by the Division, scientifically-reliable, new information of use to researchers or zoologists specializing in the study or conservation of the species in question;

- i. All proposals shall stipulate the intervals at which the applicant shall submit periodic reports to the Division stating the applicant's progress with the research and improvements in the applicant's expertise in handling and caring for the animals; and

3. Has submitted to the Division written records of the applicant's relevant education, past and current research, publications, funding, equipment and any other information (including personal demonstration as may be required by the Division) which demonstrates to the satisfaction of the

stakes or anchors, that catches fish by snagging their gill covers as they try to pass through the mesh of the net.

“Submarine pound net” means a pound net that is totally submerged beneath the water and held in place by anchors.

(b) General requirements for all pound net users are as follows:

1. No person may install, operate or maintain a pound net in the marine waters of the State without having first obtained a license from the Department.
2. The Department may establish limits on the number of licenses to be issued for pound nets in Raritan Bay and Sandy Hook Bay and in the Atlantic Ocean within three nautical miles of the coastline.
3. Licenses must be renewed annually.
4. Holders of pound net licenses from the previous year shall have first priority in obtaining a new license, provided they apply before March 1 of the current year.
5. Any person operating any fish pound net in the marine waters of New Jersey, must, at the time of emptying the net, return to the waters wherein the net is located all species less than the minimum size limits specified pursuant to N.J.A.C. 7:25-18.1.
6. No person may, by boat, anchor, dredge or otherwise, willfully and without reasonable cause, interfere with, break, damage or destroy any fish net or associated equipment being lawfully used by a license holder.
7. The Department may require any licensee to submit a money surety bond to insure removal of pound net poles and apparatus as required by these rules.
8. Violation of the rules in this section will subject the violator to money penalties, loss of license and/or injunctive relief under N.J.S.A. 23:2B-14.

(c) Specific requirements for pound net users in Raritan, Sandy Hook and Delaware Bays are as follows:

1. Any person applying for a pound net license must indicate the specific proposed site for the net, as designated by a chart developed by the Department. Sites which have not previously been located on the approved chart must be approved by the Department prior to issuance of a license.
2. New pound net sites must be at least 3,000 feet from a previously located pound net site, when measured parallel to the shoreline, and must be at least 1,000 feet from any navigable channel.
3. Any pound net license holder has priority in retaining a pound net site previously licensed by him or her, provided that he or she has actively and lawfully fished that site during the previous year and has submitted a license application prior to March 1 of the current year. After March 1, any citizen may apply for any available site on a first-come basis.

4. No staked or anchored shad net may be placed within 3,000 feet of an operating pound net. However, shad nets may be set on licensed pound net sites by the license holder or on unoccupied, approved pound net sites, provided the shad nets are set end-to-end with and in line with any existing pound nets.

5. Pound nets must be placed end-to-end so as to form a straight line, perpendicular to the shoreline.

6. The maximum allowable length of a pound net, including leader and hearts, is 750 feet.

7. A minimum distance of 50 feet must be maintained between any two pound nets, shad nets or combination thereof, when measured perpendicular to the shoreline.

8. A pound net license holder must maintain a nameplate, on the offshore pole of the net not less than six inches square, on which shall be legibly marked the identification number of the pound, as assigned by the Department.

9. A flashing, amber light must be displayed between sunset and sunrise on each of the two end poles of a pound net or a continuous row of pound nets. These lights must be placed at least 10 feet above the mean high water level and must be of sufficient brightness to be visible for at least three miles in all directions (360 degrees) at such times and under such weather conditions as would allow visibility of 10 miles.

(5) Pots constructed entirely or partially of wood shall be considered to be in compliance with this subparagraph if constructed of wood lath to the extent that deterioration of wooden component(s) will result in an unobstructed opening as specified in (g)11viii(1)(A) and (B) above.

ix. A modified lobster or fish pot may be used for the taking of conchs or whelks and spider crabs in all marine waters of the State including the Atlantic Ocean with the exception of the Newark Bay Complex.

Conch pots must allow for an unobstructed opening on their top surface measuring not less than eight by eight inches square or nine inches in diameter. Conch pots using horseshoe crabs as bait must contain a bait-saving device containing a horseshoe crab or parts of a horseshoe crab as bait which, by design, extends the effective fishing time of the horseshoe crab bait in the water. Conch pots cannot contain a parlor, funnel, or other entrapping mechanism in the interior of the pot. Any similar configuration may be approved for use upon application to the Division and receipt of written approval. Such applications must contain a diagram detailing the shape and dimensions of the requested conch pot configuration.

(2) Conch pots may be tended only from 0400 hours (4:00 A.M.) to 2100 hours (9:00 P.M.).

(3) No conch pot shall be placed in a creek, ditch or tributary less than 50 feet wide at mean low water, in any marked or charted channel or in any man-made lagoon;

x. The lobster or fish pot season shall begin on January 1 and end on December 31;

xi. The resident fee for lobster or fish pots shall be \$100.00 regardless of the number of pots employed.

12. Subject to N.J.A.C. 7:25-18.12(e), shad nets for the Hudson River shall be held in place by either stakes or anchors and shall not exceed 200 fathoms in length. The smallest mesh of any shad net shall not be less than five inches stretched.

i. Shad nets shall be marked at each end with a fluorescent orange float at least 12 inches in diameter or a fluorescent orange flag at least 12 inches square and suspended at least two feet above the mean high waterline.

ii. Shad nets shall be used in the Hudson River for the taking of shad only.

(h) Nonresident license fees shall be the same as resident fees established in this section if a resident of this State may obtain a license to fish for similar species of fish with similar gear in the nonresident applicant's state for the same fee as a resident of that state. Otherwise, the license fee for a nonresident is 10 times the license fee charged to a resident.

(i) The Commissioner, with the approval of the New Jersey Marine Fisheries Council, may modify seasons, mesh sizes, maximum net lengths, species allowed to be harvested by specific gear types, escape vent sizes, ghost panel sizes and acceptable materials for fastening ghost panels to pot and traps specified in this section, by notice in order to maintain and/or to come into compliance with any fishery management plan approved by the Atlantic States Marine Fisheries Commission pursuant to 16 U.S.C. §5104(b) or to maintain consistency with any Mid-Atlantic Fishery Management Council plan adopted by the National Marine Fisheries Service.

(j) An applicant who is otherwise eligible for a Gill Net or Lobster or Fish Pot license under (g)11 above, but who fails to provide a copy of his or her license before the December 31 expiration of that license, may request an extension of time to renew in accordance with this subsection and (k) through (m) below.

1. The written request, along with any supporting documentation, shall be submitted to:

New Jersey Division of Fish and Wildlife  
PO Box 400  
Trenton, New Jersey 08625-0400

2. The request shall:

i. Identify the specific license for which the extension of time to renew is requested;

ii. Explain in detail why the extension of time to renew is needed, including a statement of the type and degree of hardship that prevented the timely renewal of the license, and the hardship that will result to the applicant if the license is not renewed; and

iii. Provide appropriate documentation as necessary to support the request for extension.

(k) The Department shall approve an extension request under (j) above only if it determines that the request and documentation demonstrate that:

1. By reason of extraordinary hardship or exceptional situation or condition, the applicant was precluded from renewing his or her Gill Net License or Lobster or Fish Pot License during the 12-month application period preceding the year for which the license/permit is requested;

2. By reason of extraordinary or exceptional situation or condition, strict compliance with the deadline in (g)11 above would result in exceptional and undue hardship upon the applicant; and

3. The circumstances supporting (k)1 and 2 above were not created by the applicant or persons under his or her control, and the approval of the extension will not unreasonably interfere with the orderly administration of the licensing program.

(l) The Department shall provide written notice to the applicant of its decision to approve or deny the request for extension.

(m) The denial of an extension request may be appealed pursuant to the procedures outlined in N.J.A.C. 7:25-18.17, Request for adjudicatory hearing.
