

Water Infrastructure Investment Plan

The WIIP (Water Infrastructure Investment Plan) is New Jersey's program to optimize the use of limited federal and state resources to address high priority water infrastructure needs throughout the State. The WIIP is dedicated to protecting and enhancing New Jersey's water quality and water infrastructure which is vital to the State's health and economy. The WIIP is currently implemented through the administration of the Water Bank program through the Division of Water Quality and Division of Water Supply and Geoscience.
