General Information

The DEP Bulletin is an information service provided by the New Jersey Department of Environmental Protection. In compliance with the Rules and Regulations Governing 90 Day Construction Permits (NJAC 7:1C-1.1 et seq.) this semi-monthly publication contains a list of construction permit applications recently filed or acted upon by the DEP. Using the Application Milestone Codes located on the inside front cover, interested persons can determine the status of Coastal Area Facility Review Act (CAFRA) permits, Federal Consistency Activity permits, Freshwater Wetlands Individual and Statewide General permits, General Groundwater Petroleum Products Cleanup permits, Open Water Fill permits, Solid Waste Facility permits (SWF), Flood Hazard Area (FHA) permits, Tidal Wetlands permits, Waterfront Development permits and Treatment Works Approvals (TWA). In addition, this publication lists status of Highlands application and Highlands Applicability Determinations.

In addition, a calendar of Events of Interest and a Schedule of Public Hearings is provided. The public hearings listed do not, however, constitute an official notice. Environmental Impact Statements acted upon during the period are also shown. Additional information concerning the permit applications can be obtained by calling the project manager at the appropriate office listed on the inside back cover.

Public Hearings are held for the purpose of obtaining input and reaction to a proposed rule, regulation, or new program. Some hearings may be mandated by law. Generally their scope of impact is statewide or of broad general interest and open to the public.

Contested Case Hearings are held between the State and a particular party involving an application, enforcement violation or an appeal. Interest in these hearings is generally limited to those directly involved.

DEP Events of Public Interest include public hearings, council meetings, workshops, public information meetings, and exams.

PUBLIC NOTICE OF INTENTION TO EXTEND LANDFILL POST-CLOSURE CARE PERIOD

The New Jersey Department of Environmental Protection hereby issues this public notice, pursuant to N.J.A.C. 7:26-2A.9(c)6, of its intention to extend the post-closure care period for the Middle Mar-Tee Landfill located off of Fishing Creek Road on Block 168, Lot 1 and Block 167.01, Lot 74 in Middle Township, Cape May County.

The subject landfill was properly closed in December of 1986. The landfill has been maintained and monitored since closure during its post-closure care period. The Solid Waste Regulations at N.J.A.C. 7:26-2A.9(c)5 specify that landfill post-closure care periods shall continue for 30 years, but include a provision that the post-closure care period may be extended or shortened by the Department upon a finding that such an extended period is necessary to protect human health and/or the environment.

The Department has determined that the groundwater monitoring program for the Middle Mar-Tee Landfill has demonstrated that the landfill is impacting groundwater quality; therefore, continued maintenance and monitoring of the landfill is necessary to protect human health and the environment. Based on this determination, the Department intends to extend the post-closure care period for the landfill.

If anyone from the public has questions or comments concerning the Department's intention to extend the post-closure care period, please send those questions or comments to the following address:
