NEW JERSEY STATE LEGISLATURE  
1992 ORGANIZATIONAL RESOLUTION

*Be It Resolved* by the Senate of the State of New Jersey (the General Assembly concurring):

1. That at 3:00 p.m. both Houses of the Legislature meet in joint session for the purpose of receiving the Annual Message of The Honorable, James J. Florio, Governor of the State of New Jersey, which will be delivered in person.

2. That the 1982-1983 Legislative Code of Ethics as set forth in 1982 Senate Concurrent Resolution No. 107, adopted temporarily as the 1991 Legislative Code of Ethics, be adopted temporarily as the 1992 Legislative Code of Ethics.

3. That the Secretary of the Senate and the Clerk of the General Assembly be designated request officers for the Legislature as required by law.

4. That the legislative printer shall print and make distribution of bills, resolutions, and advance laws as heretofore and in accordance with the legislative printing contract.

5. That the Legislative Index for 1992 be subscribed to for the use of members of the Legislature, and for such officers of the Senate and the General Assembly and other persons designated by the President of the Senate and Speaker of the General Assembly, at a subscription rate and quantities established by the President of the Senate and Speaker of the General Assembly.

A motion was made by Mr. Shinn for the adoption of the foregoing resolution.

Which motion was adopted by Voice Vote.

The Clerk read the following resolution:

GENERAL ASSEMBLY  
1992 ORGANIZATIONAL RESOLUTION

*Be It Resolved:*

1. That the Clerk of the General Assembly be directed to inform the Senate that the General Assembly has organized, its Speaker being the Honorable Garabed "Chuck" Haytaian of Warren County, and its Clerk, Donna Frangakis of Hunterdon County, for the First Annual Session of the Two Hundred-Fifth Session of the General Assembly, and has proceeded to business.

2. That the Speaker be and is hereby authorized to appoint such assistants as he may deem necessary.

3. That the working staff of the General Assembly shall be at all times subject to the direction of the Speaker and the Clerk, who shall have authority to designate to any member of the staff such duties as may be required.

4. That unless otherwise ordered the regular hours of meetings of the General Assembly will be on days and at times to be announced to the members, the news media and the public by the Speaker.

5. That no floor passes be issued by any officer or member of the General Assembly other than the Speaker, with the further provision that the privilege of the floor may be extended by a resolution duly adopted.

6. That in the absence of the Clerk, such other officers or employees as directed by the Speaker shall perform all duties imposed by law and the rules of the General Assembly upon the Clerk.

7. That the Bill Drafting Manual prepared and revised from time to time by the Office of Legislative Services, be adopted as the official manual of practice and procedure of the General Assembly governing the form of bills to be introduced in the General Assembly and governing the conduct of the preliminary examination of bills proposed for introduction in the General Assembly required by the Rules of the General Assembly.

That in order to carry out the aforementioned practice and procedure, the Legislative Counsel and such deputies and assistants as he shall assign be designated as counsel to conduct said preliminary examination of bills proposed for introduction and amendments adopted in the General Assembly under the general supervision of the Legislative Counsel.

8. That each member of the General Assembly be authorized to retain up to six aides at a total compensation per member as authorized by law, except the Speaker may authorize more than six aides.

9. That the Rules of the 1991 General Assembly be adopted temporarily as the Rules for the 1992 General Assembly with the following changes:

Amend Rule 70 as follows:

70. The following Standing Reference, Administrative and Joint Committees and Standing Reference Subcommittees shall be appointed, by the Speaker in accordance with the provision of Rule 23, at the commencement of each annual session, and shall serve for the entire legislative year, unless otherwise ordered:

Honorable Chuck Haytaian, Speaker  
New Jersey General Assembly

Dear Chuck:

I have decided, after a great deal of soul searching, to resign from my seat in the New Jersey General Assembly due to my recent health problems. My resignation is to take effect immediately.

This was not an easy decision for me to make. I have enjoyed serving the residents of my district for the past eleven years. However, at this time I must devote all of my energy toward recuperation.

Thank you for the consideration you showed me in the Assembly and during my illness. I wish you the best of luck as you continue to seek solutions to the problems facing New Jersey.

Sincerely,

D. Bennett Mazur,

Assemblyman, District 37

The following message was sent to the Senate from the Clerk of the General Assembly:

I am directed by the General Assembly to forward herewith to the Senate the enclosed 40 copies of Assembly Concurrent Resolution No. 61 (1R) of 1992 entitled "A Concurrent Resolution proposing to amend Article IV, Section IV, paragraph 6 of the Constitution of the State of New Jersey and providing a schedule therefor", with the request that they be placed upon the desk of the members of the Senate in open meeting forthwith.

A message was received from the Secretary of the Senate as follows and was read by the Clerk:

Mr. Speaker: I am directed by the Senate to inform the General Assembly that a printed copy of Assembly Concurrent Resolution No. 61 (1R) of 1992, entitled "A Concurrent Resolution proposing to amend Article IV, Section IV, paragraph 6 of the Constitution of the State of New Jersey and providing a schedule therefor" has this day been placed upon the desk of each member of the Senate while the same was in open meeting.

A motion was made by Mr. Collins that the message be spread in full upon the minutes.

Which motion was adopted.

ASSEMBLY BILL NO. 870  
FIRST REPRINT

To the General Assembly:

Pursuant to Article V, Section I, Paragraph 14, of the New Jersey Constitution, I herewith return Assembly Bill No. 870 (First Reprint) without my approval.

This bill reduces the amount of the minimum wage scheduled to take effect on April 1, 1992, from \$5.05 per hour to \$4.65 per hour and delays until April 1, 1993, the scheduled increase in the minimum wage to \$5.05 per hour. This bill also establishes a commission to study the possible impact of various minimum wage proposals upon New Jersey businesses and workers.

I understand and am sympathetic to the desire of the Legislature to keep New Jersey a hospitable place for business. I disagree, however, with the single-minded approach offered to achieve that goal in Assembly Bill No. 870 (First Reprint). I believe that the full increase to \$5.05 per hour should not be delayed for another year. Many minimum wage earners and their families already live at the very economic fringes of society. They have relied upon the prospect of the increase to \$5.05 on April 1, which was approved by the Legislature in May of 1990. They had every right to do so and have surely made important economic decisions based upon the promise of additional income from this increase. It is not excessive; in fact, it barely allows a family to reach the poverty level.

We are beginning to observe signs that our economy is improving and, during the coming months, through the implementation of proposals introduced in my State of the State address, such as the New Jersey Economic Recovery Fund, elimination of restrictions on the State Transportation Trust Fund, and a new home buyers' tax credit program, I am confident that New Jersey's economy will be among the first in our region to emerge from the national recession.

The implementation of programs to assist our economic recovery requires a cooperative effort with the Legislature. This bill focuses on the timing of a legislatively approved increase in the minimum wage as the principal remedy for our economic woes. After carefully considering all of the arguments, it is my view that the debate of the bill's merits has un-

duly emphasized the significance of the minimum wage level to the overall economy of the State. We need to recognize that the level of the minimum wage, which benefits those who are truly struggling to make ends meet, is only one component of a variety of social and economic influences that shape the business environment in New Jersey. I believe the Legislature must complete its review of the State Budget and its impact on school aid, property tax relief and a sound infrastructure, and a host of other budgetary choices that affect the quality of life in our State. I am hopeful that through cooperation, the key pieces of our plan for economic growth will be in place by July 1, 1992, and I consider employees and employers -- and the State -- partners in a joint venture in the process of creating an attractive and receptive environment for economic growth in New Jersey.

I have carefully weighed the arguments of those who believe they will be harmed by keeping our commitment to increase New Jersey's minimum wage. I have also considered the needs of those who labor at the lowest end of the wage scale. On balance, I believe our paramount obligation is to working people and I cannot endorse a bill which provides them less than a liveable wage. I expect that with the cooperation of the Legislature we can also provide relief from this national recession for New Jersey's business community.

Accordingly, I herewith return Assembly Bill No. 870 (First Reprint) without my approval.

Respectfully,  
James J. Florio  
GOVERNOR

A message was received from the Secretary of the Senate and was read by the Clerk as follows:

Mr. Speaker:

I am directed by the Senate to forward herewith to the General Assembly the enclosed 80 copies of Senate Concurrent Resolution No. 27 Sca entitled "A Concurrent Resolution proposing to amend Article IV, Section IV, paragraph 6 of the Constitution of the State of New Jersey and providing a schedule therefor", with the request that they be placed upon the desks of the members of the General Assembly in open meeting forthwith.

Mr. Collins moved that the message be spread in full upon the minutes.

Which motion was adopted.

#### ASSEMBLY BILL NO. 989

To the General Assembly:

Pursuant to Article V, Section I, Paragraph 14, of the New Jersey Constitution, I herewith return Assembly Bill No. 989 with my objections for reconsideration.

This bill creates an exception for farmworkers in the minimum wage rate which increased to \$5.05 per hour on April 1, 1992. It would maintain a minimum wage rate of \$4.25 per hour for farm labor while employees in all other sectors of the economy earned the higher \$5.05 per hour rate.

At the time I announced I would veto Assembly Bill No. 870 (First Reprint), which would have delayed, in part, the promised increase in the minimum wage until 1993, I also announced my reservations about this bill as well. Today, I would like to set forth my reasons as they apply to farmworkers' wages and some proposals to help the farming community in New Jersey.

This bill would purport to lower the price of agricultural products but it would do so at the expense of farm workers and their families whose current economic status is at best marginal. While New Jersey should aggressively strive to support and protect the agricultural sector which has given us our namesake, "The Garden State," an exclusion of workers of a specific sector of the economy from the minimum wage law would not only set a bad precedent but would stigmatize farmworkers as second-class workers whose labor is of lower worth to our economy. Their role in feeding our State and country should not be undervalued.

Today, this bill proposes that agricultural workers be denied the wage which all others are required to receive. Tomorrow, another sector of our workforce may be asked to forego a fair wage. As we grow out of this national recession as a regional leader, we cannot leave anyone behind, least of all those on the very economic fringes of our society for whom the additional wage could mean the difference between obtaining health care or foregoing it, seeking public assistance or continuing productive employment. The competitive concerns of the agricultural community are multi-faceted and have not been generated exclusively by the level of the minimum wage. We must intensively study means by which the competitiveness of our farms can be enhanced and our agricultural economy preserved, especially because of the extreme sensitivity of farm markets to price increases.

To address the numerous and complex factors which affect the future of farming in the Garden State, I am calling upon the Legislature to appropriate \$250,000 to fund a detailed study of the agriculture industry's strengths and weaknesses and to develop policy recommendations in a number of critical issue areas, including: the future economic viability of farming, prospects for a continuing source of funding for farmland retention, marketing, taxation policies, labor, regulatory environment and water resource needs. This list is not intended to be exhaustive. At the same time, however, development and economic pressures facing the farming community argue for the rapid development of recommendations to address these concerns. Fortunately, there is an existing vehicle which can undertake this ambitious study: the FARMS Commission. The Future for Agriculture: Resources, Mission and Strategies, or FARMS Commission was created by the State Board of Agriculture and charged with developing a strategic plan for the future to ensure the continued viability and profitability of our State's farms. The need to compile reliable data to address these issues requires time and deliberative study, but recommendations are urgent. Therefore, I call upon the Commission to provide an interim report of its findings and recommendations to me and to the Legislature no later than December 1, 1992 and to make its final report no later than April 30, 1993.

On another front, one of the approaches which has demonstrably succeeded in retaining farming in New Jersey is the farmland preservation bond program, through which some 25,000 acres of prime farmland have been preserved for future generations. Owners of some 40,000 additional acres have submitted applications to preserve their land, but, the funds from the 1989 Farmland Preservation Bond Act have run dry. Consequently, there is a present need to provide additional bond revenues to keep our farms in production and to keep New Jersey worthy of being called the Garden State. I therefore support and call upon the Legislature to provide

for the inclusion of an agricultural preservation bond issue on the November ballot.

Finally, I request that the Legislature consider the adoption of a suitable corporate tax credit, to be implemented in the same manner as other corporate tax credits, to afford farm operators some relief from additional expenses which may be generated by the recent increase in the minimum wage.

Therefore, I return herewith Assembly Bill No. 989 and recommend that it be amended as follows:

Page 1, Title, Lines 1-2:

After "ACT" delete in its entirety and insert "appropriating \$250,000 to the State Department of Agriculture to fund a study by the FARMS Commission on farm competitiveness and future viability."

Page 1, Section 1, Lines 6-43:

After "1." delete in its entirety and insert:

"a. There is appropriated to the New Jersey State Department of Agriculture from the General Fund, the sum of \$250,000 to be used by the Department of Agriculture to fund the Future for Agriculture, Resources, Mission and Strategies Commission, hereinafter, the Commission, created by the State Board of Agriculture, to analyze the strengths and weaknesses of the agriculture industry and to develop public policy recommendations in a number of areas including, but not limited to: economic viability, prospects for a continuing source of funding for farmland retention, marketing, taxation policies, labor, regulatory environment and water resources needs.

b. The Commission shall make an interim report of its findings and recommendations to the Governor, the Speaker of the General Assembly and the President of the Senate no later than December 1, 1992 and shall submit its final report and recommendations to the Governor, the Speaker of the General Assembly and the President of the Senate no later than April 30, 1993".

Which motion was adopted.

#### ASSEMBLY BILL NO. 1

To the General Assembly:

Pursuant to Article V, Section I, Paragraph 14 of the Constitution, I am returning Assembly Bill No. 1 with my suggestions for reconsideration.

I would like nothing better than to sign this bill today, but I cannot blindly sign a \$600 million cut. Before the Legislature passed this bill, I expressed my support for reducing the sales tax. But I also said that I wanted to see the Legislature's plan for making up the \$600 million shortfall this bill would cause. It is impossible to responsibly judge such a significant revenue loss without knowing what vital programs the Legislature intends to sacrifice. And it is impossible for me to tell the citizens of this State how this bill will affect them if I sign it today.

I was hopeful when this bill was passed that the Legislature would present its plan before the period expired for me to take action. I promised that I would review that plan, and that if it was acceptable -- if it was consistent with our most important obligations to the citizens of this State -- I would sign it.

Unfortunately, the Legislature has failed to reveal what it intends to do. It has failed to indicate -- either by passing a budget, or by communicating to the people -- how it intends to responsibly address a \$600 million loss in revenue. It has failed to reveal how

it intends to produce a budget that is fiscally sound and which continues to invest wisely and efficiently in the State's social and economic future. Last week I met with Senate President DiFrancesco and Assembly Speaker Haytaian, and I asked them once again to disclose what they intended to do. They informed me that they will reveal their plan in June.

By failing to disclose its intentions, the Legislature has asked me to sign this bill in the dark, without knowing whether the result of my action will be fiscal chaos, higher transit fares, higher college tuitions, higher property taxes, reductions in programs to protect the environment, disruptions in government services, or reductions in law enforcement. By failing to disclose its plan, the Legislature has therefore put us in a difficult position. The citizens of this State want tax relief, yes, but they demand -- and deserve -- an answer to one simple question: who gets hurt? They have a right to know. The Legislature has an obligation to tell us. That is the least it should do.

As I indicated in my budget message to the Legislature in January, I share the Legislature's desire to reduce the tax burden on our citizens by reducing the sales tax. We had to raise the sales tax to 7% in 1990 to balance the budget, after inheriting a deficit that was compounded by the onset of what has become the longest national recession since the Great Depression. As desirable as a rollback might appear, it would be irresponsible of us to reduce this tax now, before we know the consequences of that action. Because the Legislature has failed to reveal its plan for presenting a sound and balanced budget, I simply cannot conclude that now is the time to reduce this tax.

This bill would reduce the sales tax in New Jersey from 7% to 6%, effective July 1, 1992, the first day of the next fiscal year. If enacted as written, this bill would eliminate over \$600 million in recurring revenue for the upcoming fiscal year, as well as for future fiscal years. In order for the Legislature to present me with a balanced FY 93 budget -- as it is constitutionally required to do -- the Legislature must make up this difference, either through new revenues, or through substantial cuts in government services. Nowhere does this bill indicate what the Legislature intends to do.

In recent weeks, in face-to-face discussions across this State, our citizens have asked me again and again whether the government understands the depth of the problems they see every day in our towns, in our neighborhoods, and in our schools. The citizens of this State want action: to make our neighborhoods safe and secure; to make this State's educational system work for our children; to ensure that the only qualification for realizing the dream of a college education is the ability to learn, not the ability to pay; to protect our cherished environment from those who would squander it;

to mend our infrastructure; to keep property taxes down; and to provide care for our sick, our disabled, and our children.

In responding to this urgent call for action, we must carefully balance the desire to reduce government services against the pressing need to invest now in the State's future. And we must resist the seductive idea that we can achieve these goals without making choices.

Without knowing how the Legislature intends to bridge the gap this rollback will create, I cannot sign this bill today. As Governor, therefore, I am returning this bill to the Legislature and recommending that it allow this sales tax reduction to take effect only when a budget is enacted that meets a few basic standards.

First, and foremost, that budget must be balanced with an appropriate operating surplus. I cannot tolerate any action that would undermine the solvency of this State, or which would jeopardize this State's excellent bond rating.

Second, that budget must contain full funding -- as recommended in my FY 93 budget message -- for items that represent some of this State's most important commitments. They include: aid to our school districts, because we must continue our efforts to fulfill our educational promises to our children; tuition stabilization, because we must keep the doors to higher education open to all who have the ability to succeed; homestead rebates, because it would be unfair to shift this sales tax reduction onto the backs of homeowners; aid to New Jersey Transit, because our economy and our environment depend upon an affordable system of public transportation; shore protection, because we cannot delay our response to this profound environmental need; and support to children, the blind, the physically disabled, and other vulnerable citizens of this State who deserve to live their lives with dignity and self-respect.

The action I take today would allow the reduction in the sales tax to take place. The Legislature need only concur in my recommendations, and then consider the rollback as it deliberates over next year's budget. If it produces a budget that is balanced, which respects the recommendations I have made, and which does not undermine the State's fundamental obligations, then I will sign that budget, and the sales tax will be reduced to 6%.

One note of caution. In reacting to this message, I urge the Legislature to consider these concerns carefully and not rush headlong into action simply to vindicate a political pledge. I urge caution because I believe that the sales tax reduction should not be considered in a vacuum, but in the context of the entire budget process and human agenda for our State.

Therefore, I herewith return Assembly Bill No. 1 and recommend that it be amended as follows:

**Page 8, Section 6 Lines 36-37:** After "effect" delete in its entirety and insert "upon the enactment of an annual appropriations act for the fiscal year commencing July 1, 1992 that:

- (a) Provides for a balanced budget within the revenues certified by the Governor, with positive balances in the General Fund, the Property Tax Relief Fund, and the Casino Revenue Fund, including \$226,000,000 in the General Fund;
- (b) Includes a State aid appropriation of \$6,243,714,000, including the following items:
  - (1) School aid at \$4,585,636,000;

  - (3) County College aid at \$107,488,000;
  - (4) Economic assistance to children at \$266,000,000;
  - (5) Economic assistance to the aged, blind and disabled at \$49,000,000;
- (c) Includes a Grant-in-Aid appropriation of \$3,852,690,000, including the following items of appropriation:
  - (1) Property tax rebates or credits at \$685,000,000;
  - (2) Medical assistance to children, the aged, the blind, and the disabled at \$1,646,800,000;
  - (3) Community care programs for children, the developmentally disabled, the mentally ill at \$504,093,000;
  - (4) Tuition aid assistance, tuition stabilization and other aid to colleges and universities at \$205,871,000;
  - (5) Aid to New Jersey Transit at \$277,200,000;
  - (6) State prisoners at county correctional facilities at \$73,815,000;
- (d) Maintains the following programs operated by the State:
  - (1) Operations of institutions for the developmentally disabled and the mentally ill at \$480,381,000;
  - (2) Operation of Correctional facilities at \$61,100,000;
  - (3) Operation of State colleges and universities at \$703,192,000;
  - (4) Operation of nursing homes for veterans at \$40,311,000;
- (e) Includes funding for State debt service;

(f) Provides State funding for federally mandated programs, including social security;

(g) Provides appropriations for shore protection of \$15,000,000;

(h) And, further, that upon receiving the Fiscal Year 1993 Appropriations Act from the Legislature, the Director of the Division of Budget and Accounting certifies to the Governor and to the Legislature in writing within 10 days after the enactment of the fiscal year 1993 Appropriations Act into law that the act conforms to each of these conditions."

Page 8: Add new section 7 to read:

"7. Provided, further, that this act shall remain inoperative until July 1, 1992, or until the delivery of the certification by the Director of the Division of Budget and Accounting as provided above, whichever shall later occur."

Respectfully,

James J. Florio

Mr. Speaker:

I am directed by the Senate to inform the General Assembly that a printed copy of Assembly Concurrent Resolution No. 97 (1R) entitled "A Concurrent Resolution proposing to add a new Section VIII to Article VI of the Constitution of the State of New Jersey", has this day been placed upon the desk of each member of the Senate while the same was in open meeting.

Dolores A. Kirk

Secretary of the Senate

The Clerk read the following message from the Governor: (C/V Assembly No. 11)

Mr. Collins moved that the message be spread in full upon the minutes.

Which motion was adopted.

ASSEMBLY BILL NO. 11

(First Reprint)

To the General Assembly:

Pursuant to Article V, Section I, Paragraph 14 of the Constitution, I am returning Assembly Bill No. 11 (First Reprint) with my objections, for reconsideration.

Assembly Bill No. 11 (First Reprint) would permanently establish the Health Care Trust Fund, formerly known as the Uncompensated Care Trust Fund. This Fund was first enacted in 1986 as a temporary mechanism to pay for hospital care for the indigent and for those without health insurance in this State. The Trust Fund, which has since been extended on two occasions, is funded by a 19.1 percent surcharge placed upon the hospital bills of those using hospitals in New Jersey.

Despite my belief that this funding mechanism is fatally flawed, I signed the last extension of the Trust Fund on July 1, 1991 as part of the Health Care Cost Reduction Act, L. 1991, c.187. I did so because the law contained numerous health care reform measures designed to contain health care costs in this State and because I believed additional time was necessary to design a better system. At the time I signed the extension, however, I also announced I would not sign another extension of this inequitable system unless it was fundamentally changed. The goal is a simple one - quality health care that is affordable and available for all New Jerseyans. Health care is a right, not a privilege. Getting sick should not cause economic distress for hardworking people whose employers choose not to provide health insurance.

Placing a 19.1 percent surcharge on the hospital bills of those who have health insurance and are able to pay for hospital care has proven to be an unsatisfactory and unworkable mechanism to pay for the hospital expenses of our citizens who need hospital care, but cannot afford health insurance or costly hospital bills. The surcharge mechanism taxes only those who use hospitals to obtain medical care. It adversely impacts all New Jerseyans who have health insurance by increasing their premiums. The present system fails to share equitably the burden of caring for our approximately 800,000 New Jerseyans who are uninsured. It also encourages the use of emergency rooms as primary care centers for those who cannot get medical care elsewhere.

This system is broken. This is especially clear after the recent decision of the U.S. District Court of New Jersey in the United Wire, Metal and Machine Health and Welfare Fund v. Morristown Memorial Hospital, Civil Action No. 90-2639. In that case, the Court invalidated the 19.1 percent surcharge and a number of other costs routinely added on to the hospital bills of patients whose employers have self-insured. Because over one-half of those who use our hospitals are Medicare patients or uninsured patients who do not pay the surcharge, the decision leaves approximately 25 percent of those people using hospitals in this State to shoulder the burden

of all the uncompensated care costs in this State. This is unworkable.

When I said I would not sign another extension, it was with the hope that we would have acted to find a new way to finance our system of providing hospital care to the indigent and uninsured. A cooperative effort between the Legislature and the Executive, with input from the affected parties, is necessary to craft a system within a reasonable time. Now, because of United Wire, we have no choice but to address this problem. However, it would be a mistake to let the current system collapse until a new system is enacted.

I have asked the Attorney General to seek a stay of the United Wire decision to give us the time we need to design a new system that is rational, equitable and fiscally sound. I am hopeful that the Court will grant a stay to provide the time that is needed to design such a system. To provide additional time to fashion a major restructuring of the way health costs of the poor and uninsured are met, and to avoid the chaos which would ensue if we simply abandoned, without a remedy, our existing funding mechanism, I am returning the bill with a recommendation that the Trust Fund be extended until November 30, 1992.

We need to act responsibly to address the flaws in both the hospital rate setting system and the uncompensated care system. Bold action is warranted. Bold action is necessary. Bold action must be taken. I look forward to working with the Legislature in its endeavor in formulating a solution to this health care crisis.

Therefore, I herewith return Assembly Bill No. 11 (First Reprint) and recommend that it be amended as follows:

*Page 3, Section 4, Line 10:*

After "June 30, 1992,]" insert "sections 1 through 8 and 11 through 24, inclusive, and section 26 shall expire on November 30, 1992,"

Respectfully,

Jim Florio

Senate President DiFrancesco delivered the following budget speech:

#### **BUDGET MESSAGE TO THE LEGISLATURE**

Senate President Donald T. DiFrancesco

June 18, 1992

Today, we present to the people of New Jersey our plan for ensuring an economically sound, financially secure future, the 1993 budget. This budget does what we set out to do -- what the skeptics said could not be done -- to build a budget that is both responsive to the needs of all New Jerseyans and responsible in its fiscal restraint.

This budget breaks with tradition in that it was crafted in partnership with the people of New Jersey and was built on the foundation of an unprecedented tax cut. In many ways, the document that we introduce this afternoon is more than a budget for the year before us, it is a fiscal roadmap for future Legislatures to follow. From the beginning our budget mission has been clear; it was to design a budget that reflected the interests, the input and the wishes of the people. We know what the public expects from its public officials and it is not politics as usual. It is an accountable legislature an a lean and efficient state government.

In the past, Legislatures created state budgets, then handed taxpayers the bill. This year, taxpayers handed the Legislature their mandate -- cut the size of the bill.

And cut it we did. In fact, we started the budget process by enacting the largest tax cut in New Jersey history. Through the reduction of the state's sales tax, more than 600 million dollars will be returned to New Jersey consumers, businesses and taxpayers.

This money will boost retail sales, bolster consumer confidence and help put New Jersey's economy back on track. This tax cut, enacted with bi-partisan support, became the framework of our budget and defined a new criteria for the budget process -- to put the interests of the taxpayer first.

In crafting this budget we also looked to address one of the most severe economic downturns ever to hit New Jersey. Harmful state fiscal policies have left New Jersey's economy sluggish, have pushed our unemployment rate up to a staggering 9 percent and have driven business failures up nearly 123 percent over last year alone. The problem is simple: government's careless spending habits have dragged our economy down in a sea of waste and inefficiency.

Record deficits and fiscal chaos have come to define the New Jersey budget process of the past, but our state can no longer afford government's reckless spending.

We also cannot afford the kind of fiscal mismanagement that many of you read about in this morning's newspapers. As many of you now know, the administration refused to certify its own revenue proposal because of a \$450 million gap in an expected Medicaid reimbursement for disproportionate share costs for psychiatric hospitals. Coming on the heels of the revenue shortfall that the administration discovered just a few months ago, this latest bombshell represents the height of incompetence and arrogance on the administration's part.

Let me make it clear -- the Legislature repeatedly sought a firm confirmation from the administration that their revenue numbers were reliable. We were told they were. Our budget committees asked our state treasurer to verify the accuracy of the revenue picture, and he did on numerous occasions.

I have one question to ask this administration today? What went wrong? Better yet, why did you wait until 48 hours before the Legislature was to deliver its budget plan?

I will expect, no -- I will demand, answers to these questions. After June 30th, the Speaker of the Assembly and I will work together to create a Joint Select Committee that will investigate how this outrageous situation developed.

But today, there is a more pressing issue at hand and the public needs our reassurances that we can deliver a budget on time and in balance.

I am proud to say that we have done just that. We have worked overtime -- we literally stopped the presses -- so that we could deliver a budget that responsibly handled the administration's eleventh hour budget crisis.

And now we ask that Governor Florio assume his responsibility for this deficit. In order to make up for this \$450 million dollar deficit, we will realize the fiscal year 1992 pension revaluation savings in fiscal year 1993. It is up to the Governor to find new budget savings or to utilize funds in lapsed accounts to balance the shortfall created in the current fiscal year.

In addition to other budget savings that we have identified, we also will be doubling the original savings that we had already found in inter-departmental expenses, including travel and supplies.

Consumers, businesses and taxpayers can no longer afford a state government that cannot govern responsibly and one which spends beyond its means. We must eliminate excess and we must do more than cut taxes. Today's economy demands that we prevent future tax increases. This budget does just that.

It remedies the inherent weaknesses of the budget proposed by the administration, a budget out of balance by \$1 billion. The Governor's proposal provided a prescription for financial turmoil and set the scenario for an inevitable tax increase.

Taxes are a disincentive to an economy trying to recuperate. It is through a plan of unprecedented budget savings that we can start to bring our economy around. In January, I pledged to get a handle on a state bureaucracy that was sloppy, wasteful and out of control.

Through an exhaustive oversight review of every state department, division and program, we found ways to save taxpayers money without tampering with the state's potential for economic recovery.

For the first time, we developed a budget the same way families develop their own budgets. In tough economic times, families make do with what they have...they postpone vacations or other luxuries for another day. When faced with limited resources, New Jerseyans are forced to make difficult choices. So, too, must government.

A responsible government, however, must be guided by both courage and compassion. The courage to make the same difficult decisions that most families face and the compassion to recognize and protect the vital interests of the people. To find that balance of courage and compassion was the challenge this Legislature met head-on.

To deliver essential services at a lower cost to taxpayers, we aggressively pursued those areas where waste, duplication, excess

and inefficiency had become the order of the day. We trimmed expenditures that provided no added-value for taxpayers.

As a result, the budgets of every State department have realized savings across the board -- a reduction in materials and supplies, a reduction in consulting fees and a reduction in travel expenses. Reductions that have totaled 80 million dollars in budget savings for taxpayers.

We also have achieved 39 million dollars in budget savings through a thinning out of the salary-rich, middle-management bureaucrats in each department. But we held harmless those individuals who provide the essential services -- the state police, the case management worker, the corrections officer.

For example, we reviewed our state leasing program and found that 24 million dollars in budget savings could be realized by consolidating lease space.

What we preserved in this budget are those programs that protect or improve the quality of living for adults and children -- programs that the people have said deserve the full attention and support of the Legislature.

**Education:**

New Jerseyans said that the education of their children was one such priority. We have responded in kind by providing a budget that fully funds education. Our 1993 appropriation of 4.7 billion dollars is the largest state aid appropriation to education in New Jersey's history. We have achieved a 4.5 percent increase in aid despite the great budgetary demands upon the state.

I believe there is still much work to be done in order to improve our education system, and it will require more than money. During the remainder of 1992 we will continue our efforts to reform education, including a major overhaul of the Quality Education Act.

I said in January that nothing would stand in the way of our commitment to educational opportunity for every one of New Jersey's school children. And today, we make a substantial investment in ensuring that that commitment is met.

**Higher Education:**

Students and parents have told us that a function of a responsive, caring government is to assist New Jersey residents in realizing their dreams of higher education. This budget, through a 30 million dollar appropriation to the Tuition Stabilization Incentive Program, will help to make continued learning an economic reality in the Garden State. Our commitment to the state's 16 independent colleges and universities also remains steadfast. The 20 million dollars in aid that the budget provides will assist more than 20,000 students in their educational pursuits.

**Health and Human Services:**

Healthy citizens, especially health children, truly represent New Jersey's best assets and our brightest hopes for a better society and state. There is no room for politics in the health and human services arena, and this budget does not fail the people of New Jersey as many critics warned. This budget does not fail the people of New Jersey.

Far from it, our budget for 1993 recognizes and solidifies government's responsibility to protect the physical, emotional and mental well-being of all New Jersey citizens.

For New Jersey's indigent population, health care is not always an option. But through Medicaid, we close the gap between accessible care and none at all. Through the oversight process, we identified programmatic changes to Medicaid that saved taxpayers 50 million dollars without effecting its programs and services and enabled the Legislature to fund and expanded Medicaid program for 1993.

In fact, our investment in this important program is significant. The 1.4 billion dollar Medicaid appropriation represents 10 percent of our total budget. These monies will allow for the expansion of Medicaid to children up to age 6 at 133 percent of the poverty level and for pregnant women and their children up to 185 percent of the poverty level.

Pregnant women and children are also provided additional protection through our support of the Women, Infants and Children Program which provides nutritional assistance to expectant mothers. And let me make an important point: we rejected the administration's proposal to eliminate the million dollar WIC contingency fund. We have kept this fund intact.

Our budget plan also will enable more than 112,000 newborn children to be screened for hearing difficulties and other ailments and it allocates funding for lead poisoning screening for some 75,000 children at risk.

Our commitment to provide much-needed benefits to our state's aging and disabled citizens is evident in our appropriation that will enable 1.5 million prescriptions to be filled through the P.A.A.D. program.

Helping New Jerseyans receive a more appropriate level of health care is one of the greatest challenges facing this state. An area that offers us enormous potential is home health care services. This budget supports the continued expansion of this program and will provide for approximately 1.25 million home health care visits to be made this upcoming fiscal year.

The expansion of another key program, purchased residential care, also will be achieved by this budget. This program, which

enables developmentally disabled people to live in communities rather than in institutions, will be funded at a level that will allow for approximately 12,500 community placements to be made this coming fiscal year.

Finally, New Jersey faces a growing health care crisis that deserves our most compassionate response. The AIDS epidemic has already taken the lives of many New Jerseyans, and it will threaten the lives of many more unless adequate education and health services are adequately funded.

Our budget makes a commitment to increase AIDS awareness through an appropriation that will fund the distribution of AIDS-related information to a least 1 million residents. More than 70,000 clients who visit New Jersey's AIDS clinics will be able to receive testing and counseling in 1993, and the 6,500 New Jersey residents afflicted with the AIDS virus will receive the health care services they so desperately need.

**Property Tax Relief:**

In building our budget, we knew there could be no higher priority than the delivery of property tax relief. New Jersey's property taxes have placed an onerous burden on many, especially the middle class. This budget delivers what the people want -- the largest tax relief program in the history of this state.

This is tax relief, pure and simple. No gimmicks. It provides for direct relief, not a redistribution of monies, nor a shifting of costs. We achieve this by funding all municipal aid programs to their fullest extent. There are no shortcuts here. Aid to densely populated municipalities, desegregation aid, municipal revitalization aid, and the supplemental municipal property tax relief act have all received the full funding and support of this legislature.

This budget puts municipalities in all 21 counties in a stronger position to balance their budgets.

Through a revaluation of the state's pension system, we will be saving counties, municipalities and utility authorities 320 million dollars in pension contributions. An appropriation of 7.8 million dollars will be given to counties to increase their reimbursements for housing state prisoners. A proposed amendment to the Constitution, sponsored by Senator Gormley, would provide for the state takeover of the county court system, transfer that would lift a multi-million dollar burden from county budgets. These monies are not only critical to the protection of our citizens and the strengthening of our judicial system...they are essential to the fiscal stability of our counties.

Let there be no mistake -- the Legislature has given the mayors, the councils and the freeholders of New Jersey the tools they need to hold property taxes down. We have delivered on our pledge to

fully fund municipal aid -- the responsibility to keep property taxes in check now rests squarely on the shoulders of local government. We have sent a message to the municipalities -- put the interest of the taxpayers first.

**Homestead Rebate Program:**

The people of this state told us what their budget priorities were -- including education, health and property tax relief. Funding these programs to their fullest extent meant we had to make some tough choices. Rather than shift costs, we looked for those programs that cried out for reform -- programs like the homestead rebate program.

This program has been perverted into a shell game of income redistribution. It has lured residents into thinking they were receiving tax relief, when in reality what they received was taxable income in the guise of a rebate check.

In the last two years, the Homestead Rebate Program has become the political prop of the administration...and a costly one at that. In the spring of 1990, the Governor actually proposed to eliminate the program.

In 1991, the Governor ordered the state to borrow millions of dollars so that the state could afford to send out the rebate checks. The added price to taxpayers for this 700 million dollar "loan" was 30 million dollar in interest.

Our reform of the homestead rebate program will guarantee a check for New Jersey's eligible senior citizens. We recognize the enormous challenge of living on a fixed income in today's recessed economy and we have held harmless those that need government's helping hand. Senior citizens who have come to count on their rebate check can expect to receive a rebate in the same amount for which they are entitled.

There are other budget savings that we have achieved in this year's budget -- actions that will lower costs, but maintain or even enhance programs for our citizens. We have taken the first step toward building a better and stronger public television network in New Jersey -- one which will not rely so heavily on government funding and oversight.

We have continued our commitment to the Arts by funding them at the same level as last year, and we have protected the grants of the Division of Women so that they can continue in their efforts on behalf of women and families.

I am confident that there is no legislator in the chambers here today who would not agree that the budget was on the minds and the lips of most of their constituencies. Our state's citizens said that they wanted to know what was going on in government, so we

left behind the politics of yesteryear and brought the public into the budget process.

We went to Rutgers University to discuss higher education; we visited the Woodbridge Developmental Center to gain insight into the state's human services needs; we toured a youth facility in Bordentown to see first-hand the financial issues facing our corrections system and traveled to Liberty State Park to meet with veterans on military affairs.

Opening up the budget process allowed this year's budget to be one of the most publicly debated in recent history.

Both houses of the Legislature worked together as a team to build this budget. And it is in this same spirit of unity that we meet today in Joint Session.

There are many here today who have worked countless hours to meet the challenge of building this budget, and I would like to thank the legislators and the staffs of the Assembly and Senate Budget and Appropriations Committees.

Specifically, Dick Kamin, Rich Bagger, Paul DiGaetano, John Gibson, Walt Kavanaugh, Leonard Lance, Joann Smith, Bernie Kenny, Jackie Mattison, Pete Inverso, Joe Bubba, Jack Ewing, Dick LaRossa, Andy Ciesla, Wynona Lipman and Bob Menendez.

I would also like to thank the two committee chairmen for their leadership and dedication throughout the entire budget process, Senator Bob Littell and Assemblyman Rodney Frelinghuysen.

The budget, the budget process and even today's Joint Session are examples of our vision of a more accountable, cooperative, accessible government. I am confident that we have set a new standard for budget proceedings.

The budget we submit today is just the beginning of our reform of state government. We cannot afford to be satisfied with what progress we have made in these first six months. We must continue to examine every state department through the oversight process to find budget savings for the next fiscal year. We must follow up on the recent State Auditor's report and identify a legislative solution to the multi-million dollar problems in the state leasing program. We must create the proposed State Revenue Forecasting Advisory Commission, as proposed by Senator McNamara, so that a more accurate and reliable revenue picture can be constructed.

Equally important is the work that we must do in promoting initiatives that will develop a stable economy, improve the quality of education and provide a helping hand to those who need our assistance. There is much to be done... and I say, let us begin now.

Assembly Speaker Haytaian delivered the following budget speech:

#### BUDGET MESSAGE TO THE STATE LEGISLATURE

Speaker Garabed "Chuck" Haytaian  
June 18, 1992

Thank you Mister President.

My fellow colleagues, honored guests and citizens. Good afternoon.

More than five months ago, the Legislature's Republican majority began the task of setting a new fiscal and economic course for New Jersey.

To fulfill the mandate given to us by the people on election day 1991, we established four goals:

First, to put New Jerseyans back to work by revitalizing our economy.

Second, to relieve the onerous tax burden borne by New Jersey citizens.

Third, to reduce the state bureaucracy that saps New Jersey's economy of hundreds of millions of dollars.

And fourth, to begin to bring the state budget back into balance.

These were not goals we created for ourselves. They were a mandate given to us last November by the citizens of New Jersey when they clearly spoke out against higher taxes and unbridled government spending.

From the very beginning of this legislative session, we expressed our unwavering commitment to carry out the mandate of the people.

We knew the task ahead of us would not be an easy one. We knew that tough choices would have to be made in order to restore our state's fiscal stability and get New Jersey growing again.

But throughout the entire budget process, we were ever mindful of the impact our decisions would have on the citizens of New Jersey. We worked diligently to preserve and protect essential state services for those who rely on us for help.

My fellow colleagues and citizens, I am proud to say that we have taken a great step forward in meeting those goals.

The budget plan we present to you today meets our objectives without mortgaging our future or tearing down the foundations and safety nets of state government.

This budget not only addresses our state's current fiscal problems, but also casts an eye towards the future.

It is a budget that begins to put our state back on an even financial keel by establishing realistic spending levels and using state government's available resources to provide the services our citizens need and deserve.

It is a budget all of New Jersey can be proud of.

We can be proud because New Jersey residents will receive the largest tax cut in state history. And we accomplished that cut without adversely affecting state government's ability to deliver vital services.

We were able to reach our budget goals because we listened. The budget committees of both houses listened to scores of citizens about their concerns.

They held three joint public hearings and collected testimony from more than 200 witnesses.

The Assembly Appropriations Committee held 16 budget hearings in which they reviewed and scrutinized the budget requests for state departments and agencies.

I want to publicly commend Senator Bob Littell and Assemblyman Rodney Frelinghuysen, the chairmen of the respective budget committees, the members of those committees and their staffs, for the long hours and the outstanding effort they gave throughout the budget process.

When you look at the bottom line number of this budget, it underscores the success of this exhaustive effort.

When this budget is approved, it will be the first time in New Jersey's history that state government will spend less than it did the previous year. This is a balanced budget in every sense of the word because it balances our state's priorities and obligations with state revenues.

We were able to identify more than one billion dollars in budget savings, yet still provide 156 million dollars to close the deficit in the casino revenue fund -- a deficit that was not addressed in the Governor's proposed budget.

If we had chosen to ignore the casino revenue fund deficit in our budget, many programs that senior citizens depend upon would have been placed in great jeopardy.

But when we established our budget priorities, we made a commitment to continue providing our seniors with the best possible services.

Respite care and adult day care programs, which help our seniors who need the it the most, received funding increases in our budget proposal.

State government has always been compassionate to our citizens who face the greatest struggles in our society.

One of our priorities was to increase funding for the establishment of group homes for developmentally disabled citizens -- so they too could have the opportunity to live a more independent lifestyle in a community environment.

Our budget also addresses the needs of those individuals who served our nation in times of conflict -- our veterans.

We appropriated 500,000 dollars to provide transitional housing for veterans who have fallen on hard times and been left without a home.

This budget also provides 250,000 dollars to fund a Veterans Outreach Center in Mercer County so more veterans in need of a helping hand can find one.

And while we were preserving essential services to our seniors, disabled citizens and veterans, we were making certain our schools received the necessary resources to ensure that our children obtain a quality education.

We accepted a recommendation from the Governor and appropriated 30 million dollars to fund a tuition stabilization program at our State institutions of higher education so that hard-pressed middle income families would still be able to afford the quality college education available at our State universities and colleges.

And for those families unable to foot the bill, we increased the amount of money for tuition assistance grants by 16 percent. This is a good common sense budget that is in step with our state's economic condition.

The budget appropriations we recommended were not just random allowances for state departments to spend, but investments in our citizens.

One of our investments will channel more funds into the new skills partnership program to help more New Jerseyans succeed in our State's business marketplace.

We provided more State funds for the establishment of small business development centers which provide more job opportunities for New Jersey residents and yield a positive return to our economy.

We looked to expand the scope of New Jersey's economic base by providing more resources to tap the potential economic gold mine that exist in the area of international export trade.

And contrary to what some of our critics think, we do know a good deal when we see one.

That's why we restored funding in the budget for the "New Jersey Fresh" program, which promotes and markets produce grown by New Jersey farmers.

After listening to and consulting with Secretary of Agriculture Art Brown, we decided the program's past successes and its ability to effectively promote our State's agriculture did not warrant its proposed elimination. Secretary Brown, I want to thank you for your assistance in this endeavor.

Continuing the "New Jersey Fresh" program is not the cure-all for our State's agricultural problems.

It seems the Department of Agriculture has been a frequent target of budget reduction proposals in the past and those reductions have started to take a heavy toll on our State's agricultural industry.

If this practice is allowed to continue, New Jersey farmers will find it increasingly difficult to stay in business. This year, we plan to increase funding to the Department of Agriculture by nearly one million dollars to fund programs that will help preserve and protect our State's agricultural resources.

We want to make sure New Jersey keeps its distinction as the "Garden State."

Budgets -- regardless of whether they come from the public or private sector -- are outlines of spending priorities and the revenue that is available to fund those priorities. This budget adheres to those basic principles.

But we are also proposing one major fundamental change in our State budget plan -- one that I believe is unprecedented. Our budget is a taxpayer's budget. Let me explain that further.

Whenever New Jersey has fallen on hard economic times, State leaders have always asked New Jersey citizens to give a little more and to do with a little less.

This year, that trend will come to a halt.

The budget we are proposing today will give something back to the taxpayers and require State government to with a little less.

When we accepted the people's mandate last November, we promised to bring about significant changes in State government -- and now we are delivering on that promise.

But change does not always come easy -- or without a price.

Robert F. Kennedy once said: "Progress is a nice word. But change is its motivator and change has its enemies."

This budget is about change, which is why I expect it to receive criticism from those who support the status quo and fear change.

They want this budget to be everything to everyone, but the economic climate in our State does not permit that to be the case.

Our once vibrant economy has been stifled by uncontrolled government spending and higher taxes.

And while New Jersey's economic engines continue to sputter, our State continues to struggle to dig itself out of this recession.

To those who oppose moving in a different direction, I want to ask them how state government can justify sitting idly by as unemployment rises to nine percent and a record number of businesses continue to fail.

The continued decline of our economy -- and the pain and suffering this recession has inflicted on New Jersey residents -- demands that things be changed.

When I looked at New Jersey's latest unemployment figures a few weeks back, I noticed that our State's unemployment rate was the highest among the nation's eleven major industrial states.

I also noticed that both Michigan and Massachusetts, two states that have received national attention for cutting taxes and reducing the size of their state budgets, were realizing a decrease in their unemployment rates.

Other states that made the tough decisions when this recession reared its ugly head are starting to see those choices produce dividends.

New Jersey, on the other hand, has pursued a course of higher taxes and more spending. And as a result, we are lagging behind while other states are showing signs of economic recovery.

It is time to face the facts -- New Jersey's economic policies during the past two years have been a failure.

The administration's continued failure to handle State government's finances has resulted in one budget crisis after another.

The latest crisis created by the Florio administration occurred less than forty-eight hours ago. The legislative leadership received a letter from Treasurer Sam Crane informing us that he would not allow Governor Florio to certify 450 million dollars in Medicaid reimbursement funds contained in the Governor's budget proposal.

Only three months ago, Treasurer Crane appeared before the Assembly Appropriations Committee and assured legislators that the 450 million dollars in Medicaid funds included in the Governor's proposed budget would be available.

The Trenton Times reported, and I quote: "Crane said there would not be a deficit because he's confident the money will be paid."

Then three weeks ago, the Federal government notified the Treasurer that our application for a portion of these funds had been denied.

We have since learned from Federal officials that this administration should never -- and I repeat never -- have anticipated full receipt of these funds because, as it turns out, Governor Florio and Treasurer Crane knew that New Jersey was not eligible for a portion of the money.

In fact, the nation's fifty Governors made an agreement with the Federal government which clearly defined eligibility requirements.

Subsequently, this administration knowingly sought reimbursement on claims for which New Jersey was not eligible -- and used those funds as part of its anticipated revenue projections.

And now, the eleventh hour of this budget process, Treasurer Crane says Governor Florio will not certify budget figures that include the Medicaid funds.

Fortunately for the taxpayers of this state, our budget does not anticipate the receipt of this 450 million dollars. We Republicans learned long ago not to trust this administration when it comes to fiscal matters.

This cruel misrepresentation of anticipated revenues by the administration to the people of New Jersey is a disgrace to State government. The Governor and the Treasurer led citizens to believe that certain programs and services would be funded in their budget -- a budget that relied on receiving the Federal Medicaid reimbursement monies which they knew would never come.

The administration knew all along that New Jersey was not eligible for these funds under federal law, yet they deliberately misled the citizens of this State and the Legislature by assuring us that the money would be paid.

The actions of this administration are a betrayal of the public trust.

But the Legislature was determined to meet its budget objectives with or without the administration's help.

The Legislature has corrected the budget mistakes that have been made during the past two years -- and those that have been finally admitted during the past two days as well.

And I have another message for our Treasurer and Governor: the Legislature is doing its part to solve our state's problems. It's time for you to stop sabotaging our efforts and to begin working in the best interest of our citizens.

We are putting forth a bold new approach to address our state's pressing economic and fiscal problems.

During the budget process, we tossed aside the bureaucratic belief that there was no room to cut a billion dollars from a 15.7 billion dollar budget.

We refused to buy into the fallacy that if the budget was reduced essential state services would have to be cut or eliminated.

Both the Senate Budget and Finance Committee and the Assembly Appropriations Committee, worked tirelessly during the past several months to prove those concepts wrong. And they have succeeded.

Take New Jersey Transit for example. The Governor proposed increasing the agency's state subsidy by 67 million dollars.

After careful scrutiny of New Jersey Transit's budget plan, our Appropriations Committee recommended a 32.5 million dollar increase in the subsidy.

New Jersey Transit officials were not satisfied. They told commuters services would have to be cut and fares would have to be increased if they did not receive the full state subsidy.

But New Jersey Transit officials forgot to tell commuters all of the facts.

They forgot to mention that all of the agency's employees are scheduled to receive a five percent wage increase.

They also forgot to tell commuters that there are currently seven employees making more than 100,000 dollars -- and under the proposed wage increase -- that number would have risen to 12.

They also forgot to tell commuters that based on the planned wage increase 89 employees would be making between 70,000 and 100,000 dollars.

Once again, a state bureaucracy was prepared to ask New Jersey residents to give a little more and do with a little less without reducing its own spending plan.

We were not about to let New Jersey's commuters be held hostage by a bloated, bureaucratic agency.

We stood up to the agency's threats and included language in our budget that will prohibit New Jersey Transit from cutting services or increasing fares in fiscal year 1993.

Our budget process reached into every nook and cranny of State government in search of budget savings.

When we discovered that a Division of the Public Advocate was spending 445,000 dollars to field complaints about State departments and agencies -- and then forwarding those complaints to the respective departments -- we decided it would be more cost-efficient for each department to handle its own constituency service problems.

Commissions and programs that were intended to be self-sufficient, such as the Hackensack Meadowlands Development Commission, will be weaned off State government assistance.

Our budget sends a clear message to State departments and agencies: "Taxpayers are our number one priority -- not preserving state bureaucracy and excessive spending."

We identified further savings by reducing, or eliminating, appropriations to a variety of commissions and programs that have outlived their intended purpose.

We asked all State departments to identify economies in several spending accounts -- such as materials and supplies, travel, and administration and management.

We were able to consolidate and streamline certain state services that were being duplicated by different departments and agencies of State government.

In fact, we identified significant budget savings in every State department while averting major reductions in essential state programs.

Our budget does not make unreasonable or irrational budget savings requests from State government.

But when New Jersey families are being forced to identify savings in their household budgets, we felt it was only fair to ask state government to do the same.

Ladies and gentlemen, we cannot afford to implement another state budget that is not in touch with fiscal reality.

State government does not have an endless supply of money.

Let's remember, State government is supported by every single person who pays taxes in this state.

And if state government continues to grow, the tax burden on New Jersey residents also will continue to grow.

The people of this State cannot afford another round of record tax hikes and uncontrolled government spending.

They need state government to adopt a spending plan that is based not on partisan politics, but one that is based on sound fiscal principles.

We have presented a budget which meets that criteria.

This Legislature and the Governor now must decide what course our state will take in the future. I think the choice is a simple one.

When we approve this budget, it will mark the beginning of a new era in state government. For if we fail to adopt this prudent spending proposal, business-as-usual will continue to reign under the golden dome.

We can either change the direction in which we are headed or we can continue travelling on the path we have been following for the past two years.

For the sake of our citizens and the future of our state, I hope when this budget is approved by the Legislature, it is signed by the Governor -- so New Jersey can leave these difficult economic times behind and begin moving forward.

Thank you and God bless.

Benediction was offered by Reverend Robert H. Langdon, St. Mary's Church, Rutherford, NJ.

A motion was made by Senate Majority Leader Dorsey, seconded by Assembly Majority Leader Collins that the Joint Session be adjourned.

Which motion was adopted by voice vote.

Senate President DiFrancesco declared the Joint Session adjourned.

The General Assembly reconvened at 4:20 P.M.

Assembly Concurrent Resolution No. 75 Aca was given third reading.

Mr. Bagger moved the resolution which passed by the following vote:

53 YEAS            15 NAYS

In the affirmative were:

Anderson, Arnone, Azzolina, Baer, Bagger, Colburn, Collins, Connors, Cottrell, Crecco, Derman, Farragher, Franks, Frelinghuysen, Gaffney, Garrett, Geist, Gibson, Green, Haines, Hartmann, Haytaian, Heck, Kamin, Kavanaugh, Kramer, Lance, LoBiondo, Lustbader, Martin, Mikulak, Moran, Nickles, Ogden, Oros, Rocco, Roma, Rooney, Russo, Shinn, Singer, Smith, J., Smith, R., Solomon, Sosa, Stuhltrager, Vandervalk, Warsh, Weber, Weinberg, Wolfe, Wright, Zecker - 53

In the negative were:

Brown, W., Bush, Charles, Doria, Dunn, Hudak, Improveduto, Kenny, Kronick, Mattison, McEnroe, Pascrell, Romano, Watson, Zangari - 15

On motion of Mr. Warsh, pursuant to Rule 124, Senate Concurrent Resolution No. 31 Scs was substituted for Assembly Concurrent Resolution No. 73 with which it is identical, and Messrs. Haytaian/Warsh and cosponsors were added as co-sponsors of Senate No. 31 Scs.

Which motion was adopted.

A motion was made by Mr. Baer to place Assembly Concurrent Resolution No. 73 back on second reading for the purposes of amendment.

The Speaker ruled Mr. Baer's motion out of order.

Senate Concurrent Resolution No. 31 Scs was given third reading.

Mr. Warsh moved the resolution which passed by the following vote:

#### ASSEMBLY BILL NO. 1144

(Second Reprint)

To the General Assembly:

Pursuant to Article V, Section I, Paragraph 14 of the Constitution, I am returning Assembly Bill No. 1144 (Second Reprint) without my approval.

The State Health Plan process was established as part of the Health Care Cost Reduction Act, L. 1991, c.187. The State Health Plan, which assesses future health needs and sets priorities for health care spending, is intended to be the blueprint for statewide health planning. The Plan serves as a guide to the Commissioner in deciding which new health care services are truly needed and where they should be located. The Plan touches upon a broad spectrum of areas ranging from addictions to maternal and child health, long-term care, and AIDS. On June 18, 1992, the Health Care Administration Board (HCAB) approved the Plan by a vote of nine to zero, with one abstention.

Assembly Bill No. 1144 (Second Reprint) would transform the State Health Plan from a binding to an advisory document. It would also prohibit both the Department of Health and the Health Care Administration Board from enacting any regulation to effectuate the goals and purposes of the State Health Plan.

I cannot support this legislation for many reasons. It would reverse a serious effort to control health care costs. It is based on a faulty understanding of the process of developing the State Health Plan and its actual impact. It jeopardizes critical funding for a creative and important State maternal and perinatal care program. And, finally, the prohibitions it would establish on rulemaking raise due process concerns under the State Constitution and may contravene the principle of separation of powers.

The lack of a comprehensive system of statewide health planning has been a major factor contributing to spiraling health care costs and limited access to care for large segments of the population. Just one example of the kind of costly waste that careful planning can avoid is provided by the unchecked proliferation of Magnetic Resonance Imagers (MRIs) that occurred in the 1980's. New Jersey now has at least 80 of these extremely expensive diagnostic tools; in contrast, there are only 15 MRIs in all of Canada.

The adoption of the State Health Plan has been criticized on many levels, including an alleged lack of public participation in the process. Nothing could be further from the truth. The six Local Advisory Boards (LABs) have voting representation on the State Health Planning Board and many held hearings in their areas. Five of the six LAB representatives voted to send the Plan on to the Health Care Administration Board for its review and approval. The HCAB held an extended public comment period on the Plan and held six public hearings, one in each LAB region. At those hearings, not only did members of the public speak, but each LAB presented its own testimony. Department of Health staff met with legislators, hospital officials and physicians, and held town meetings and conducted site visits to health care facilities. Substantial alterations to the Plan occurred in the course of this public review process. As a result of the hearings held by the State Health Planning Board, major changes were made to the Plan proposals and the HCAB made a number of changes before finally adopting the State Health Plan on June 18, 1992.

The Plan has also been criticized for "closing" six hospitals around the State. The Department of Health does not have the power to "close" hospitals on the basis of the plan, only the boards of the hospitals can do this. Rather, the plan sets a five to ten year time frame in which we would move to transition these hospitals for other health care uses, with ongoing review and changes in direction if necessary.

Implementation of the State Health Plan is necessary to preserve an estimated \$2.7 million to fund a consortia of seven perinatal clinics, which supply care for pregnant women and newborn babies. This consortia will help achieve appropriate levels of care for pregnant women and ensure that children have access to preventative health services.

This bill would also prohibit the Department of Health and the HCAB from promulgating any regulation which would in any way effectuate any goal objectives or any other health planning recommendations that have been included in the State Health Plan. This provision is overbroad because it would infringe upon almost all rulemaking in many areas by the Department of Health and the HCAB, possibly in violation of due process rights of the regulated public. It may also contravene the vital principle of separation of powers, as articulated in Article III, paragraph I of our Constitution.

Accordingly, I herewith return Assembly Bill No. 1144 (Second Reprint) without my approval.

Respectfully,  
Jim Florio  
GOVERNOR

The following message was sent to the Governor:

#### ASSEMBLY BILL NO. 1117

To the General Assembly:

Pursuant to Article V, Section I, Paragraph 14, of the Constitution, I herewith return Assembly Bill No. 1117 without my approval.

This bill excludes medical malpractice premiums paid by physicians and certain other medical professionals to the state's medical malpractice insurers from assessments imposed by the Fair Automobile Insurance Reform Act (FAIRA) to retire the debt of the New Jersey Full Insurance Underwriting Association (JUA).

I have carefully considered each of the several arguments that have been advanced in favor of this bill.

Physicians have argued that because they already pay into a fund called the Medical Malpractice Reinsurance Recovery Fund (Recovery Fund) that they should not be obligated to pay into the New Jersey Automobile Insurance Guaranty Fund. It has been argued that this dual payment amounts to a type of double taxation.

While physicians do pay into the Recovery Fund, they have benefited by its existence, which was created by the State to insure them at a time when commercial insurers refused to provide them medical malpractice insurance. The Recovery Fund established an environment that permitted doctors to continue their practice of medicine because of their access to State-provided malpractice insurance offered at competitive rates.

FAIRA also requires all insurers who are members of the Property-Liability Insurance Guaranty Association (PLIGA) to pay assessments to retire the JUA debt. This provision of FAIRA has been consistently upheld by the courts against a multitude of legal challenges. The commercial insurers who now write medical malpractice insurance in New Jersey are also members of PLIGA and have been required to pay the FAIRA assessments even though they do not write auto insurance. This provision, too, has been upheld by the courts.

If this bill were to become law it would afford an unfair benefit to the medical malpractice insurers, who are PLIGA members, and cause other insurance companies, who are PLIGA members, to pay greater amounts to retire the JUA debt, and thereby raising sub-

stantial concerns under principles of equal protection, according to the Attorney General.

It has also been argued by certain medical malpractice insurers that their status as "reciprocals" exempts them from paying the JUA assessments. The Insurance Department has historically treated all reciprocals as subject to FAIRA assessments. That matter is now in litigation and will be resolved in that forum.

Finally, enactment of this law would require the immediate refund of over \$9 million from the New Jersey Automobile Insurance Guaranty Fund at a time when the JUA, which is entirely supported by the Guaranty Fund, has temporarily deferred the payment of certain personal injury claims to injured parties. It would be wrong to allow these refunds when at the same time the JUA is unable to timely pay all claims because of cash flow difficulties.

Accordingly, I herewith return Assembly Bill No. 1117 without my approval.

Respectfully,  
Jim Florio  
GOVERNOR

ASSEMBLY BILL NO. 906

(Second Reprint)

To the General Assembly:

Pursuant to Article V, Section I, Paragraph 14, of the New Jersey Constitution, I herewith return Assembly Bill No. 906 (Second Reprint) with my objections for reconsideration.

Health care costs are one of the greatest concerns of the citizens of our State. The ability of this nation and State to begin to contain health care costs while maintaining access to important health services is a tremendous challenge. We need to expand people's access to primary and preventative care services. The licensing of physician assistants provides another avenue for people to obtain affordable health services. While the University of Medicine and Dentistry of New Jersey has ranked first for the last five years in physician assistant graduates successfully completing the National Certification Exam, we became the last State in the nation to license physician assistants in January of this year.

The physician assistant law created the Physician Assistant Advisory Committee, and provides that physician assistants are to be licensed and regulated by the Director of the Division of Consumer Affairs. To become a physician assistant under the current law, an applicant must: be at least 18 years old; be of good moral character; have completed an approved program; and, pass a written examination selected and administered by the Director of the Division of Consumer Affairs.

Some of the routine clinical duties physician assistants can perform under the law are: take patient histories; perform physical exams; give injections; draw blood; remove sutures; administer medications; assist in surgery; and assist in uncomplicated obstetrical cases, pre and post-operative care. By performing these functions, physician assistants can relieve doctors, residents, fellows and attending full-time medical staff of these routine duties so that these individuals may attend to more vital and emergent medical matters.

This bill would grant broader prescriptive powers to physician assistants by allowing them to prescribe in out-patient settings. I believe that, especially in the out-patient setting, we must be very careful about authorizing such prescriptive powers. Therefore, I am removing the language in this legislation that would permit physician assistants to prescribe medication in the out-patient setting.

I am also proposing changes in two governance areas. As proposed, the Board of Medical Examiners is empowered to appoint the Executive Director of the Physician Assistants Advisory Committee, as well as to make decisions concerning the Committee's staffing needs. Consistent with past practice, appointment of the Executive Director should be placed with the Director of the Division of Consumer Affairs, as should decisions involving the Committee's staffing needs.

Although I have strong reservations about certain provisions in this bill, I feel that this legislation can be improved to the benefit of all those involved. As I have noted, physician assistants perform vital services in the health care profession. This bill and the changes I am recommending to it will help to ensure the health, safety and welfare of the public, and provide the public with affordable health care, while at the same time enabling physician assistants to develop their practice to the public's benefit.

Therefore, I herewith return Assembly Bill No. 906 (Second Reprint) and recommend that it be amended as follows:

*Page 1, Section 1, Lines 16-17:* Restore to that section the definition of Director as the Director of the Division of Consumer Affairs. That language should read: "Director" means the Director of the Division of Consumer Affairs.

*Page 3, Section 5, Lines 48-50:* Delete out-patient prescriptive practice and supervision under section 9. The new language should read: (4) Writing prescriptions or ordering medications in an inpatient setting in accordance with section 10 of this act; and

*Page 4, Section 8, Lines 47-54:* Restore appointing authority of the Executive Director to the Director of the Division of Consumer Affairs. Delete all references to the Board of Medical Examiners in this section and restore references to the director. The section

should read: 13. An Executive Director of the committee shall be appointed by the director and shall serve at the director's pleasure. The salary of the Executive Director shall be determined by the director within the limits of available funds. The director shall be empowered within the limits of available funds to hire any assistants and confidential investigative personnel as are necessary to administer this act.

ASSEMBLY COMMITTEE SUBSTITUTE for  
Assembly Bill Nos. 793 and 938  
(First Reprint)

To the General Assembly:

Pursuant to Article V, Section I, Paragraph 14 of the Constitution, I herewith return Assembly Committee Substitute for Assembly Bill Nos. 793 and 938 (First Reprint) with my objections for reconsideration.

This legislation authorizes local government units to make agreements with local businesses and not for profit organizations to maintain county or municipal parks at no cost to the local government unit. Pursuant to the bill, the local government unit is further authorized: to provide at no cost to a participating business the materials or services deemed appropriate to assist in park maintenance responsibilities; advertise and promote such park maintenance programs; and provide for appropriate public recognition of a participating business.

I agree with the intent of this bill to encourage economic and efficient park service and maintenance through efforts to privatize these services. This is yet another example of how government and the private sector can work together to solve some of our public needs.

There is however one aspect of this legislation with which I must take exception. Section 10 of this bill provides for the creation of a 100 percent tax credit against the corporate business tax to any participating business for the cost of expenses incurred by the participating business while performing its responsibilities pursuant to a park maintenance agreement.

Since corporations making contributions to public park maintenance may already be able to receive a charitable contribution deduction under the Federal Internal Revenue Code, and since there is no precedent in the State for a 100 percent tax credit, I believe it is

## ASSEMBLY BILL NO. 136

(First Reprint)

To the General Assembly:

Pursuant to Article V, Section I, Paragraph 14, of the New Jersey Constitution, I herewith return Assembly Bill No. 136 (First Reprint) with my objections for reconsideration.

This bill would clarify the language of N.J.S.A. 30:4D-7.2. The bill would also permit the division of Medical Assistance and Health Services in the Department of Human Services to impose liens upon the estates of deceased recipients for benefits paid to the recipient where the surviving child is over the age of 21. The Division, however, would continue to be prohibited from seeking recoveries from the estates of recipients where the surviving child is under the age of 21 or where the child is blind or permanently and totally disabled.

Amendments made to the bill prior to passage, however, deleted the provision in N.J.S.A. 30:4D-7.2 which provided that the Medicaid Division's liens were to have a preferred status. This is an important provision which increases the likelihood that the Medicaid Division will be able to make recoveries. Accordingly, I am recommending that the legislation be amended to restore this important provision.

Therefore, I herewith return Assembly Bill No. 136 (First Reprint) and recommend that it be amended as follows:

Page 11, Section 2, Line 10: Insert new subsection d. as follows:

"d. A lien, claim or encumbrance imposed by this act shall be deemed a preferred claim against the recipient's estate and shall have a priority equivalent to that under subsection d. of N.J.S. 3B:22-2. (P.L.1979, c.365, s.7)."

Respectfully,  
James J. Florio  
GOVERNOR

## ASSEMBLY BILL NO. 712

(Second Reprint)

To the General Assembly:

Pursuant to Article V, Section I, Paragraph 14, of the Constitution, I herewith return Assembly Bill No. 712 (Second Reprint) without my approval.

This bill establishes the responsibilities and liabilities of those individuals who engage in equine activities. The bill provides that one who engages in any activity that involves the use of horses, ponies, mules or donkeys such as riding lessons, trail riding, horse

training or horse shows, assumes the inherent risks involved in those activities.

In 1979, similar legislation was signed into law, which defined the responsibilities and liabilities of ski area operators and skiers. In 1991, "The New Jersey Roller Skating Safety and Fair Liability Act" became law, limiting the liability of roller rink operators. This session, a series of bills have been introduced by various groups similarly seeking immunity from civil liability under the guise of reform legislation. These civil immunity bills range from amusement park operators who seek to limit the rights of amusement park accident victims from filing a lawsuit to professional engineers and emergency medical technicians who volunteer their services. Clearly, the number of enterprises that might apply for this immunity are infinite, with no fair line of demarcation between industries presently seeking immunity and others that could employ the same rationale to argue that they too should have civil immunity.

The piecemeal legislation which we are seeing today is quite problematic. Immunity from civil liability removes the social incentive operating on businesses to take reasonable precautions for the public safety and will result in subjecting the consumer to more dangers in the marketplace. Assembly Bill No. 712 (Second Reprint) attempts to shift the burden of preventing accidents fully from the equine operators to their patrons, who cannot recognize or appreciate the dangers of the activities involved.

Each of these bills also creates a patchwork of different legal principles which would require our courts to apply different standards to different parties. This will not only create confusion in the law, but also foster a public perception that the law does not apply equally to all.

Perhaps this is the time for the Legislature to carefully re-examine the rules of liability where recreational activities are concerned, incorporating into that analysis the effectiveness of our comparative negligence statute, and businesses' continuing obligation to undertake precautions to protect the safety, health and welfare of our citizens.

Accordingly, I herewith return Assembly Bill No. 712 (Second Reprint) without my approval.

Respectfully,  
James J. Florio  
GOVERNOR

Mr. Collins offered the following resolution, which was read by the Clerk and adopted:

Resolved, That pursuant to Rule 158, the following Assembly bill, conditionally vetoed by the Governor, be and is hereby given first reading for the purpose of reenactment:

#### ASSEMBLY BILL NO. 7

(Third Reprint)

To the General Assembly:

Pursuant to Article V, Section I, Paragraph 14 of the New Jersey Constitution, I am returning Assembly Bill No. 7 (Third Reprint) with my recommendations for reconsideration.

This bill would repeal the Assault Firearms Act of 1990 and thereby legalize dozens of types of assault firearms and allow these deadly weapons to be bought and sold like conventional firearms. The bill would also ensure that there will be more assault firearms in circulation in this State.

Most people in this State do not want to see assault firearms made more readily available. Unfortunately, in the Legislature the voices of the majority can be drowned out by calls from special interests whose agendas are contrary to the public interest. The passage of this bill is an example of this problem.

I believe that instead of having the special interests decide this issue, we should give the citizens of this State the chance to decide it for themselves. Unfortunately, citizens do not have the right to put questions on the ballot through the initiative and referendum process, but the Legislature can certainly provide for the submission of questions to the voters. So, in order to allow the voices of the people to be heard on this issue, I am conditionally vetoing this bill and recommending that the Legislature amend the bill. The provisions that repeal the original law should be deleted, and provisions should be added to put a referendum on the ballot on whether that law should be repealed.

Assembly Bill No. 7 (Third Reprint) also contains provisions that would enhance penalties for the commission of certain drug offenses while a person is in possession of a firearm. Also, the bill would impose tougher penalties on those who unlawfully possess firearms in or near schools.

I wholeheartedly support these measures, and I recommend that they be retained with minor technical revisions. But I find it troubling that these measures were used as a cloak to try to hide the true purpose of this legislation -- a repeal of the Assault Firearms Act of 1990.

Another troubling development was the cynical attempt to avoid some of the criticism being voiced about the bill by amending it to include a limited ban on two specific brands of firearms -- the Avtomat Kalashnikov and Uzi semi-automatic firearms. These two brands of assault weapons are no different than the dozens of other brands that the bill would legalize.

This amendment does not even come close to rescuing this bill. But the amendment does reveal that some view this issue as purely political. I do not.

What is at stake here is public safety, not political advantage or campaign fund-raising. More assault firearms means more potential for violence -- against our citizens and against our law enforcement officers. Banning the sale and possession of assault firearms has not and will not singly solve all of our crime problems. But assault

weapons bans work to reduce the number of these deadly weapons in circulation and the violence that accompanies them.

That is simply common sense. And given the chance to pass on the issue, I think the majority of voters in this State would use their common sense and vote to keep the assault weapon ban in place. I hope the Legislature agrees to give the voters that chance.

For these reasons, I herewith return Assembly Bill No. 7 (Third Reprint) and recommend that it be amended as follows:

In order to ascertain the sentiment of the people of this State as to their views on whether the Assault Firearms Act, P.L. 1990, c. 32 (C.2C:39-1 et al.), should be repealed, the following public question shall be submitted to the people at the general election to be held in November, 1993, in the manner provided by this section and by Title 19 of the Revised Statutes for the submission to the people of public questions to be voted upon by the voters of the entire State. It shall be the duty of the Secretary of State to arrange for the submission of the public question in accordance with the provisions of this section and of Title 19 of the Revised Statutes, of which submission the same notice shall be given, if possible, as is required by law of that election and the people of the State may at that election vote for or against the question in the following manner.

b. There shall be included on each sample and official ballot the instructions set forth below on voting on the nonbinding referendum:

If you approve of the question printed below, make a cross (x), plus (+), or check ( ) mark in the square opposite the word "Yes."

If you disapprove of the question printed below, make a cross (x), plus (+), or check ( ) mark in the square opposite the word "No."

If voting machines are used, a vote of "Yes" or "No" shall be the equivalent to the markings, respectively.

#### REPEAL OF ASSAULT FIREARMS ACT

YES    Should private citizens be permitted to purchase and possess semi-automatic assault firearms and large capacity ammunition magazines?

#### INTERPRETIVE STATEMENT

NO    A "YES" vote means that the Legislature and the Governor should act to repeal the Assault Firearms Act of 1990. Under this Act, no person, other than military or law enforcement personnel, can acquire an assault firearm unless the person can demonstrate to a judge of the Superior Court that the "public safety and welfare" requires that he or she possess such a firearm. The weapons banned by the Act are semi-automatic firearms with large ammunition capacity and magazines that are capable of feeding more than 15 rounds directly to a semi-automatic firearm. In most cases, the "assault firearms" restricted by this Act are semi-automatic models of firearms used by military forces in combat. If the Act were repealed, the sale of assault firearms would again be permitted under the same rules and regulations that apply to conventional firearms. The sale of large capacity ammunition magazines would not be regulated. A "No" vote means that the Act should remain in effect and that the sale of assault firearms and large capacity ammunition magazines to private citizens would be banned.

c. The votes "Yes" and "No," by ballot or voting machine, shall be counted and the result thereof returned by the election officer, and a canvass of the election held in the same manner now as is provided for by law in the case of the election of a Governor, and the approval or disapproval of this question so determined shall be declared in the same manner as the result of an election for Governor.

d. The Secretary of State shall direct the clerk of each county of this State to cause the question and the interpretive statement set

forth in subsection b. of this section to be printed and placed on each of the ballots.

8. (New Section) There is appropriated the sum of \$5,000 to the Department of State for expenses in connection with the publication of notice pursuant to section 7 of P.L....., c....., (now pending before the Legislature as this bill)."

Section 13, Page 26, Line 16: Delete "13." insert "9."

Synopsis, Page 26, Lines 23-25: Delete "revises definition of machine gun and assault firearm; eliminates ban on certain magazines; prohibits possession of certain semi-automatic firearms" insert "provides for nonbinding referendum on repeal of P.L.1990, c.32"

ASSEMBLY BILL NO. 596

(First Reprint)

To the General Assembly:

Pursuant to Article V, Section I, Paragraph 14, of the New Jersey Constitution, I herewith return Assembly Bill No. 596 (First Reprint) with my objections for reconsideration.

The primary purpose of the Civil Service Act is to select and advance employees on the basis of their knowledge, skill and ability. The Act's further purposes are to protect career public employees from political coercion; to provide for the selection and advancement of employees on the basis of merit; and to encourage and reward meritorious performance. Presently, the Civil Service Act embodied in Title 11A grants automatic career-service status to employees who have been in their position for at least one year when a jurisdiction adopts Title 11A, while other incumbent employees must take a competitive examination.

This bill provides that any person who is actively and continuously employed for less than one year by a political subdivision as a firefighter or fire chief when Title 11A is adopted acquires civil service status without having to pass an examination. By eliminating the one-year incumbency requirement before automatically granting a firefighter Civil Service status, the legislation denies an adopting jurisdiction the means to assess an individual's qualifications for being a firefighter. Both the one-year incumbency and the one-year working test period, which are part of the Civil Service examination process for firefighters, provide an employing jurisdiction adopting Title 11A an opportunity to evaluate whether an individual is qualified to perform tasks ordinarily associated with firefighting, some of which involve life-saving functions.

However, there are situations in which individuals may have been appointed as fire chiefs or firefighters less than one year prior to the employing jurisdiction's adoption of Title 11A and these individuals may have remained employed in the fire chief or firefighter titles in a provisional status since that time. These provisional-status fire chiefs and firefighters may have performed their respective functions on a daily basis for more than one year while waiting to take the examination. Under these circumstances, it would be unfair to require these individuals to leave their positions prior to taking the examination after they have shown over a period of significant time that they are qualified to be firefighters.

This bill and the changes I am recommending will preserve the one-year incumbency requirement, while rectifying the unfairness worked on individuals serving provisionally as fire chief and firefighters for at least a two-year period. Those individuals will have six months from the effective date of this act to pass an examination. If they successfully pass the examination, they will have career service status in their positions.

Therefore, I herewith return Assembly Bill No. 596 (First Reprint), and recommend that it be amended as follows:

Section 1, Lines 11-13: After "who" delete "had less than one year of continuous service in that position prior to the adoption of this title by the political subdivision" and insert "has been actively and continuously employed for at least two years since the adoption of Title 11A by the political subdivision, and who has successfully demonstrated their qualifications for the respective positions by successfully passing a civil service examination for the positions to be administered no later than six months after the effective date of this act,"

Section 1, Lines 13-14: After "position" delete "without having to pass an examination"

Section 2, Lines 19-20: After "immediately" delete "and shall be retroactive to November 1, 1988"

Add new Section 3 to read: "3. This Act shall expire on December 31, 1992."

Respectfully,

#### ASSEMBLY BILL NO. 118

To the General Assembly:

Pursuant to Article V, Section I, Paragraph 14, of the New Jersey Constitution, I am returning Assembly Bill No. 118 with my objections for reconsideration.

On June 25, 1992, the Legislature presented me with Senate Bill No. 540, which -- consistent with my Budget Address in January -- provided for the comprehensive revaluation of the State's major pension funds, including the Teachers' Pension and Annuity Fund (TPAF), the Public Employees' Retirement System (PERS), and the Police and Firemen's Retirement System (PFRS). As carried out in that bill, revaluation provided for a more realistic assessment of the true worth of the State's pension funds, and assured an adequate accumulation of reserves in the retirement systems at the lowest cost to both current and future taxpayers.

Although I supported the bill's central and most important features, on June 29 I returned the bill to the Legislature because, in my view, it failed to provide the State with an adequate degree of oversight with respect to the pension systems. The Legislature's bill provided for revaluation, which I supported, but it also made the serious mistake of shifting critical oversight responsibilities from the State to the pension boards, whose members represent not the voters of this State, but the beneficiaries of the pension funds. Accordingly, I recommended that the Legislature adopt a series of amendments designed to address this significant oversight problem and guarantee the fiscal integrity of the pension funds. The Legislature agreed with my proposed revisions, passed a revised version of the bill on June 30, and on the same day I signed S-540 as amended into law.

This bill would go a long way to unravel the significant progress we achieved when S-540 became law. This bill, in a variety of ways, would shift the power to determine how much the State must contribute to these pension systems away from the politically accountable Executive Branch, and would grant that power to the individual pension boards which operate beyond the reach of the democratic process.

In particular, this bill would empower the individual boards, rather than the Department of Treasury, to select the funds' actuaries. In this case, this means that the boards will exercise enormous control over the actuarial calculations that directly determine how much the State -- and thus the taxpayers -- must contribute into the various pension funds.

This problem is doubly compounded by the bill's proposal to take the power to set the regular interest rate away from the Treasurer. One of the most important factors in determining the State's contribution is the so-called "spread" between the regular interest rate (the anticipated growth of a pension fund's assets) and the "salary assumption" (the anticipated growth in the salaries received by the fund's beneficiaries). Current practice permits the pension boards to set the salary assumptions. However, current law empowers the Treasurer to set the regular interest rate, based upon the

Treasurer's expertise and knowledge with respect to financial matters of this kind. This bill would upset this fine balance by taking the power to set the interest rate away from the Treasurer, and then by capping the interest rate at 3% above the salary assumption set by the boards. By tying the interest rate to the salary assumption in this way, this bill grants the boards the power to drive the interest rate up or down regardless of how low the salary assumption is set. Under this bill, the State's contributions could fluctuate dramatically from year to year depending upon the board's determinations of the salary assumptions.

This bill shifts power to the pension boards in other ways that are detrimental to the people of this State. For example, this bill would permit each board, without consulting anyone in State government, to disqualify the Attorney General from representing the pension system. The Office of the Attorney General has a distinguished record of providing balanced and objective representation to these pension funds, a service that Office has provided with equal distinction to all of State government. Under this bill, the pension boards would be entitled to select their own private attorneys merely by finding that a "conflict of interest" exists. By taking the traditional role of representing these funds away from the independent office of the Attorney General, this provision would further solidify the power to administer these critical State programs in the pension boards.

These changes would be highly detrimental to the interests of New Jersey's taxpayers. By concentrating the power to run these pension programs in the individual pension boards, this bill threatens to expose our taxpayers to higher taxes as a result of decisions made by private individuals who represent the interests of the beneficiaries of this program. It would allow individuals with no political accountability whatsoever to make decisions that could have an enormous fiscal impact on this State. The taxpayers of this State deserve a much greater degree of protection than this bill would provide.

As enacted, S-540 requires a large portion of the savings reaped from the revaluation of TPAF to be allocated to Foundation Aid. This bill, however, would require the State to devote an additional \$38.8 million of the TPAF savings to the school districts. As a result, this bill would have the effect of diverting nearly \$40 million out of the General Fund. It need hardly be said, of course, that the General Fund is in no condition to sustain such a significant expenditure.

Nevertheless, this bill does propose a few modifications that, I believe, would improve current law. First, the general idea of tying the interest rate to the salary assumption makes fiscal sense, so long as the Treasurer retains flexibility in the event that the salary assumption drops below a point that would have a dramatic effect upon the State's contributions. Second, this bill rightly points out that current law does not fix a valuation method for the years following 1993 -- a situation that could conceivably result in a retreat

to book value. In several other instances, this bill clarifies the language of the current law in such a way as to resolve statutory ambiguity.

For these reasons, I am returning this bill to the Legislature, with recommendations that it modify this bill to eliminate all of the provisions that would shift control over these pension funds away from the Executive Branch. And I am returning this bill to the Legislature with recommendations that it eliminate provisions that are technically flawed. However, I am recommending the adoption of several provisions that fine-tune current law. In particular, I am recommending that the market value method specified in current law be fixed for all years after 1993; that the interest rate be capped at 3% above salary assumption so long as the salary assumption does not fall below 6%; that pension boards be given access to information from the actuaries; and a variety of other technical amendments that, in my view, favorably clarify existing law.

Therefore, I herewith return Assembly Bill No. 118 and recommend that it be amended as follows:

Page 2, Section 1, Line 16: After "[interest as]" delete "the assumed" and insert "interest as determined by the State Treasurer, after consultation with the Directors of the Divisions of Investment and Pensions, the board of trustees and the actuary. ASSEMBLY BILL NO. 917

(Second Reprint)

To the General Assembly:

Pursuant to Article V, Section I, Paragraph 14, of the New Jersey Constitution, I herewith return Assembly Bill No. 917 (Second Reprint) with my objections for reconsideration.

This bill, known as the "Amusement Park Safety and Fair Liability Act," provides that persons over the age of 13 who participate in amusement park rides should be expected to be aware of the inherent risks involved with these rides and assume a certain amount of responsibility for their own safety for which there could be no recovery. In addition, this bill sets forth the responsibilities and liabilities imposed upon amusement park operators under the "Carnival/Amusement Ride Safety Act," and the regulations promulgated thereunder.

This session, a series of bills have been introduced by various groups similarly seeking immunity from civil liability. These

groups include: employers who terminate employees hired during a strike; individuals who speak out on public issues; professional engineers who volunteer their services at a declared national State or local emergency; emergency medical technicians who, without compensation, train or instruct persons in basic life support services; and emergency services or medical transport persons who take custody of, detain or transport an individual for medical health assessment or treatment, to name a few. The number of groups that might apply for this immunity are infinite. More importantly, there is no clear line of demarcation between industries presently seeking immunity and others that could employ the same rationale to argue that they too should have immunity from civil lawsuits for personal injuries.

Upon careful analysis, these pieces of legislation may have merit. Indeed, Assembly Bill No. 917 (Second Reprint) contains two provisions which should be preserved. First, Assembly Bill No. 917 (Second Reprint) would enable operators, acting under a reasonable basis, to prevent patrons who are under the influence of drugs or alcohol from boarding a ride without subjecting the operator to criminal or civil liability. This provision directly addresses an apparent threat to public safety and should be retained in order to protect the safety, health and welfare of our citizens.

In addition, Assembly Bill No. 917 (Second Reprint) requires the accident victim to file a report within 90 days of the incident, as a predicate to commencing suit. If the report is not filed within that prescribed time period, the report may be filed at any time within one year after the accident, in the discretion of a judge of the Superior Court, provided that the operator is not substantially prejudiced by the late filing. Due to the short duration of the amusement park season and the difficulty in securing statements from seasonal employees, the 90-day notification requirement would allow the park operators sufficient opportunity to adequately address any claims which may be asserted by the accident victim. Thus, this provision should also be retained.

However, the remaining provisions of this bill not only jeopardize public safety, but also create the public perception that the law does not apply equally to all. Public safety is of the highest priority for all of us. However, immunity from civil liability removes the social incentive for businesses and individuals to undertake precautions to protect the safety of our State citizenry.

The civil immunity provisions contained in this bill would create a patchwork of different legal principles which would require our courts to apply different standards to different parties. The hallmark of our legal system is its fairness to all. It is that legal system which sets clear, fair standards of conduct for business and individuals that are equally applicable to all citizens. Assembly Bill No. 917 (Second Reprint) would unfairly exempt each group seeking civil immunity from liability from the obligation to exer-

cise reasonable care for the safety of others, which is the legal requirement for all other citizens.

Given the flurry of legislative interest in this area, perhaps this is the time for the Legislature to carefully re-examine the rules of liability where recreational activities are concerned, incorporating into that analysis the effectiveness of our comparative negligence statute, and businesses' continuing obligation to undertake precautions to protect the safety, health and welfare of our citizens.

Therefore, I herewith return Assembly Bill No. 917 (Second Reprint) and recommend that it be amended as follows:

ASSEMBLY BILL NO. 1128

To the General Assembly:

Pursuant to Article V, Section I, Paragraph 14, of the New Jersey Constitution, I herewith return Assembly Bill No. 1128 with my objections for reconsideration.

Assembly Bill No. 1128 amends P.L. 1991, c. 475, which requires that sirens used to alert fire fighters, emergency service personnel or the public of a fire or other emergency be located no closer than 500 feet from a school, school yard or playground serving persons younger than 16 years of age. This bill would limit this

requirement to those sirens placed in service after July 16, 1991, the effective date of P.L. 1991, c. 475, and would also exclude from compliance any new siren located at a school designated as an emergency shelter.

In signing P.L. 1991, c. 475 into law, I believed there was wisdom in protecting our youngsters from the trauma and disturbance of siren blasts during their school hours. The recent passage of Assembly bill No. 1128 indicates the Legislature's desire to refine the goals of the original bill by curtailing the current provisions of State law that prohibit the use of existing sirens located in close proximity to schools. As a result, this new legislation reflects an intent to strike a different balance between the goal of protecting our children and the need to minimize the possible cost and disruption to the agencies operating these sirens.

While the complete "grandfathering" of existing sirens would certainly enable our municipalities to avoid the expense of relocating existing sirens, I am concerned this approach may place too little emphasis on the well-being of the children potentially affected by existing sirens. I share the Legislature's desire to avoid imposing any additional, unnecessary costs upon municipalities, but I believe there is a better approach for balancing the need to protect our children with the potential budgetary impact of the current prohibition on the operation of sirens near schools.

As a result, I am proposing a number of amendments to narrow and refine the scope of this noise control program. First, I recommend an amendment to limit the applicability of the current prohibition to existing sirens that are located within a 250 foot distance of any elementary school or playgrounds adjacent to any elementary school. This proposal is consistent with technical guidelines issued by the Federal Emergency Management Agency (FEMA) based upon a scientific analysis of the impact of siren blasts on hearing. For example, these guidelines clearly advise state and local authorities to avoid sound-sensitive locations, such as schools and hospitals, in the placement of warning sirens. In addition, current federal guidelines emphasize that persons should not be in close proximity to activated warning sirens. As a result, the proposed changes I am recommending will maintain a necessary degree of protection for our youngest, most vulnerable children, who would otherwise be exposed to these disruptions during their school day.

Second, I am recommending a provision to authorize the continued use of all sirens, including those located at elementary schools, to alert the public of any imminent areawide emergency or disaster in accordance with the procedures prescribed by the State's emergency management act or any applicable federal laws or regulations. This provision will enable our state and local officials to continue to perform their vital emergency planning and preparedness functions as provided in existing State and federal programs. I am also proposing an exemption for those sirens that have traditionally been placed on the premises of fire stations and other

facilities operated by our local fire departments and emergency rescue squads.

Finally, to minimize the potential fiscal strain on the budgets of smaller, volunteer fire departments, I am proposing that certain of our State's smaller townships and boroughs be exempted from the requirements of the 1991 act. This statutory exemption would be limited to those small municipalities that have higher population densities, since these towns are likely to face much greater difficulty and expense in finding satisfactory, alternative sites for any displaced fire sirens.

Therefore, I herewith return Assembly Bill No. 1128 and recommend that it be amended as follows:

Page 1, Section 1, Line 9: after "fire fighters" delete "," insert "or" and after "personnel" delete "or the public"

Page 1, Section 1, Line 10: delete "500" insert "250"

Page 1, Section 1, Lines 11-12: delete in its entirety and insert "from any elementary school or adjacent school yard or playground, except that this prohibition shall not apply to any siren or sound emitting device that is located on the premises of a fire station or other facility operated by a local fire department or force or first aid, rescue or emergency squad."

Page 1, Section 1, Lines 14-16: delete in its entirety and insert "devices placed in service before July 16, 1992 and located in municipalities with a population of less than 25,000 persons and with a population density of more than 2,500 persons per square mile, according to the latest federal decennial census."

Nothing in this subsection shall have the effect of restricting the use of a siren or other sound emitting device to alert the public of an emergency pursuant to the provisions of the emergency management act (C. App. A:9-33 et seq.) or any applicable federal laws or regulations pertaining to emergency planning and preparedness.

ASSEMBLY BILL NO. 1136

To the General Assembly:

Pursuant to Article V, Section I, paragraph 14 of the Constitution, I am returning Assembly Bill No. 1136 with my objections for reconsideration.

In 1987, the State enacted N.J.S.A. 52:14-17.32, which made health insurance benefits available to teachers who retire immediately after at least 25 years of service. Under this law, qualified retired teachers can obtain free health insurance coverage through the Teachers' Pension and Annuity Fund ("TPAF"). However, this law omitted coverage for other

educational employees, such as custodians, bus drivers, and secretaries. The result is that employees who work for school districts are currently treated differently according to what job they perform: if you are a retired teacher, you receive the benefit, if you are a retired custodian or cafeteria worker, you do not.

The bill before me would resolve this discrepancy by extending health insurance benefits to all retirees of public schools. This bill would, in effect, add 1,500 retirees to the pool of about 20,000 retired teachers who currently receive health benefits paid for by the State. This bill would make health coverage available to three groups of retirees who are not currently covered: employees of local boards of education who are not teachers, certain employees of county colleges, and teachers participating in TPAF who have deferred retirement.

I am pleased that the Legislature has presented me with a bill that not only widens access to health care, but also makes current law more equitable. It goes without saying, of course, that our health care system is in serious need of reform. In New Jersey alone, 800,000 of our citizens are uninsured. These citizens struggle every day of their lives with the anxiety of not knowing how they would pay for their medical bills if they were to become sick, or get hurt in an accident. This bill would ease this anxiety for the 1,500 public school retirees who would for the first time qualify for health care benefits upon retirement. For many of these elderly individuals, whose retirement income amounts to a fraction of what they earned when they were working, health insurance is simply a luxury they cannot afford.

In addition, this legislation makes sense because it eliminates an inequity in the current law. Existing law provides health coverage to retired teachers, but denies the same benefits to other retired school employees, such as custodians and bus drivers. It is inherently unfair to provide for the future of our devoted teachers, but to ignore the needs of equally loyal and hard-working employees who sweep the schoolhouse floor, prepare hot lunches for our children, and drive our children safely back and forth to school every day. If the State is going to provide health benefits to school employees, it should not discriminate according to status or job title. This bill fosters a sense of equity by treating all school employees -- whether they are teachers or custodians or secretaries or bus drivers -- with equal respect and concern. For that reason, I support the idea of extending health coverage to all retirees of our public schools.

However, I want to take this opportunity to express some general concerns that I have regarding benefits for local government employees. Traditionally, of course, the State has never undertaken the potentially staggering responsibility of purchasing health insurance benefits for the over 320,000 employees of New Jersey's cities, towns, and counties. The State currently provides health benefits to its own employees under certain circumstances, but has never -- nor could it possibly -- offer to provide such benefits to all employees of local government here in New

Jersey. The State has done an excellent job of assisting local governments to provide decent benefits packages to their employees. The State administers first rate pension systems -- such as the Public Employees' Retirement System (PERS), and the Police and Firemen's Retirement System -- which are open to all local government employees. In addition, the State permits local governments to provide health insurance benefits to its employees through the State's health benefits system, thus allowing these smaller units of government to take advantage of the economies of scale that are created by the State's system.

There is no question that it would be impossible for the State to assume the awesome fiscal responsibility of providing health insurance benefits to all local government employees. There are currently over 320,000 employees who work at all levels of local government. Providing health insurance benefits directly to these employees would carry an annual price tag of over \$1 billion. Unless dramatic health care reform takes place and the cost of health insurance is driven down, the taxpayers of this State simply cannot be expected to foot a bill of that size.

That is why the State has limited its assistance thus far to public school retirees -- a commitment that we are today making more equitable. Nevertheless, we must remain mindful of the needs not only of our public school employees, but also of all local government workers. That is why, over six months ago, I signed into law P.L. 1991, c. 382, which created the Pension and Health Benefits Review Commission. This Commission -- which consists of 10 public members, six representing the Executive Branch and the rest to be appointed by the Legislature -- is responsible for reviewing all legislation that involves changes to the benefits received by government employees.

I am dismayed that this bill was acted upon without being referred to the Pension and Health Benefits Review Commission. I understand that the Legislature has not yet finalized its appointments to this Commission, which it ought to do without further delay. Indeed, if it were not for the fact that this bill resolves an unacceptable inequity between teachers and other school employees, I would have seriously considered vetoing this bill outright. Instead, I am returning this bill to the Legislature with recommendations that it extend these benefits as proposed so long as the Legislature follows through with its required appointments. I am further recommending that the Legislature add a provision making it clear that no further benefits bills may reach my desk without first being acted upon by the Commission, as required by law.

Therefore, I herewith return Assembly Bill No. 1136 and recommend that it be amended as follows:

Page 2, Line 31: Add new Section 3 to read "3. Pursuant to P.L. 1991, c. 382, the Pension and Health Benefits Review Commission shall review every bill, joint resolution, or concurrent resolution introduced in either House of the Legislature, which constitutes pensions or health benefits legislation as defined by P.L. 1991, c. 382,

and as determined by the Legislative Budget and Finance Officer pursuant to that Act."

ASSEMBLY BILL NO. 1543

To the General Assembly:

Pursuant to Article V, Section I, Paragraph 14 of the New Jersey Constitution, I am returning Assembly Bill No. 1543 with my objections for reconsideration.

This bill would delay for one year, implementation of State Board of Education regulations requiring that school districts provide a job induction program for their first-year teachers. In the past, teachers have received permanent certification upon completion of college teacher training programs. The State Board regulations provide a one-year provisional certificate to new teachers. During this first year, they would work in the schools, teamed with veteran teachers, or "mentors," who would provide them guidance and support. The program provides new teachers with assistance and allows schools to evaluate their performance before awarding them lifetime certification.

The induction program is an important step for school children and citizens who support public education. By providing each new teacher with an experienced mentor, the program will help assure that children who are taught by novice teachers receive a sound education. The program will also provide accountability by requiring new teachers to serve their first year under probationary licenses while their performance is rigorously evaluated. Those who perform well, as the vast majority do, will earn permanent certificates. Those few who do not perform adequately, even with the help of a mentor, will not receive a lifetime certificate to teach. The public has a right to the type of assurances this program provides regarding the quality of teachers in our public schools.

As significant as my personal belief regarding the benefits of this program is the State Board of Education's support and commitment to this program. It is the State Board in New Jersey which is vested with the responsibility to set the standards for employment in the public schools. The State Board has done an excellent job in that regard and its programs have resulted in national recognition of New Jersey's teacher education re-

forms. The Board adopted the induction program regulations in 1989 after extensive study and public input. The Board recently reiterated its commitment to prompt implementation of the induction program which it had already delayed a year to ensure absolute fairness to students enrolled in teacher education programs. Legislative intervention to further "study" the program is unwarranted.

I am, however, mindful of the concerns raised by the proponents of this bill and the overwhelming legislative support it received. I am therefore reluctantly willing to agree to the one year delay in implementation of the program if that delay comes with assurances that the program will be implemented in September 1993. In order to be confident that next Spring we will not be faced with another request to delay the program, I am recommending that the Legislature adopt amendments to this bill which would address many of the objections raised to the program's implementation this year. These include claims that schools received insufficient notice to prepare to implement the new program; claims that graduating students were unaware of the requirements; and claims that training was needed for mentors. Additionally, a number of districts simply did not develop plans and refused to consider new graduates for vacancies.

The amendments I am recommending will assure that by the implementation date of September 1993, all districts will be aware of the program requirements and each district will have an approved plan in place so that new graduates will be able to compete for vacancies. Further, these amendments will set deadlines for colleges to notify students in teacher education programs of the provisional certificate requirements and will provide for county or regional training for mentors. Thus, these amendments will assure that the program can be successfully implemented by September 1993.

Despite the difficulties perceived by some school districts in implementing the program by September 1992, the Department of Education has advised me that nearly 400 new teachers have been hired for this September and the school systems which have hired them are ready to implement induction programs for these teachers. I commend these school systems for their leadership and hope that even if the requirement for an induction program is delayed, that these schools will implement the program on a voluntary basis. I would further ask that the Department of Education take steps to recognize their leadership in some formal way.

We have already seen a delay in the induction program and this bill will provide for another year's delay. In light of the value of this program to improving educational quality and accountability, the children and the public deserve some assurance that by September 1993, the program will be implemented; my recommended amendments would provide that assurance.

Therefore, I herewith return Assembly Bill No. 1543 and recommend that it be amended as follows:

Page 1, Section 2, Line 12: Add New Section 2 as follows:

a. By November 1, 1992, colleges shall notify all students enrolled in teacher education programs of the details and requirements of the provisional certificate and induction program.

b. By November 1, 1992, the Department of Education shall provide all public school districts with a standard plan to implement the induction program that districts may choose to submit, instead of developing individual plans.

c. By February 1, 1993, each district shall submit a Board-approved plan to the Department of Education.

d. The Department of Education shall coordinate county or regional training programs for mentors beginning in the 1993-94 school year.

The Speaker announced:

Notice of and the calendar for this session of the General Assembly having been sent to the members of the General Assembly, the Secretary of the State and the State House Press and posted in accordance with the Open Public Meetings Law, I declare the General Assembly to be in session.

The Clerk began to read the minutes of the previous meeting. Mr. Collins moved that the reading of the minutes be dispensed with, which motion was adopted.

The Clerk then read and the General Assembly passed resolutions of welcome, condolences, commendation and recognition.

The Speaker requested that the State House Bicentennial be entered into the Minutes.

The celebration of the 200th anniversary of the New Jersey State House focused public attention not only on the history of the building, but on the history of the State. What began as an effort to commemorate a building's milestone grew into a larger effort to celebrate the history encompassed by the building and the diversity of the people governed from its halls.

An eight day (October 23rd-October 30th) schedule of events was planned and carried out by an ad hoc group of volunteers, organized as the Friends of the State House. Their plans centered on the State House itself, but related events were carried out in such neighboring institutions as the New Jersey State Museum, the Old Barracks, Edison State College, and the William Trent House.

Much of the Friends' fund-raising went to underwrite the costs of presenting and publicizing a range of events intended to attract a broad audience to the celebration: architectural tours, dramatic reenactments, the dedication of artworks, exhibits, period floral arrangements, lectures on preservation and decorating techniques, presentations of theater, music and dance, as well as the placement of commemorative banners along West State and Barracks Streets. But while those events were necessarily short-lived, the Friends determined from the start that the centerpiece of their efforts would be the conservation and public exhibition of the State's original manuscript copy of the Bill of Rights.

In all, some 40 additional documents pertaining to the building and upkeep of the State House were exhibited. These fragile documents ranged from a Trenton tavernkeeper's bill for the use of his long room for legislative deliberations to architect's invoices and legislative Minutes. The restored Bill of Rights was unveiled by the State's First Lady, the Assembly Speaker, and a representative of the Senate President as part of the opening day ceremonies October 23rd.

While tours, lectures and exhibits gave the public a chance to better appreciate the extensive restoration of the Legislative wing, the dedication ceremonies for two new artworks shifted the emphasis to contemporary artisans. Sculptor John Goodyear's marble bas reliefs, which decorate the State House's new South Wing, and the intricate marquetry murals Hiroshi Murata placed in the Assembly Majority Conference Room were saluted by an audience of invited guests from the state's arts community following the opening ceremonies October 23rd.

A number of those responsible for the State House restoration work generously agreed to lecture on their areas of expertise, offering insights into the design problems, historical research, furniture and artwork conservation. For thousands of the State's school children, the State House's 200th anniversary meant a special series of live music, dance and theater Programs were available at the New Jersey State Museum, where the Planetarium staff joined in with a

program on "The 1792 Sky". The Old Barracks and Trent House accelerated their regular tour programs to accommodate greater numbers and Edison State College opened its seldom-seen Kelsey Room. To assure that visitors saw the turn-of-the-century restored rooms in the appropriate light, members of the Garden Club of New Jersey generously undertook to provide period floral bouquets and arrangements.

The climax of the celebration took place Thursday, October 29th, when many members of the Legislature met at the One West State Street site of the tavern that had hosted their legislative ancestors. From there (now CoreStates New Jersey National Bank) they marched in procession to the State House to ceremoniously take possession of the building. Led by a town crier, color guards from the New Jersey National Guard and Fort Dix, a display of flags of the original 13 counties, and the Colonial Musketeers Fife and Drum Corps of Hackettstown, the procession of elected officials was enlivened by the presence in their midst of actors portraying Governor William Paterson, George Washington, the Marquis de Lafayette, Benjamin Franklin and Mayor Moore Furman.

When the dignitaries--past and present--reached the steps of the State House, the present Governor, Mayor and Legislative leaders spoke briefly with their historical predecessors before ushering all into the Assembly Chamber for a reenactment of the first Legislative session in the new building.

The Bicentennial schedule of events and roster of participants are appended to these Minutes in tribute to the many individuals and groups whose unstinting efforts made possible a celebration rooted in history but contemporary in feeling.

The Members of the Bicentennial Committee were:

Fred Abbate, Arthur S. Applebaum, Winifred Applegate, Finn Caspersen, Karen Cummins, President Donald DiFrancesco, Cindy Effron, Governor Jim Florio, First Lady Lucinda Florio, Joy Franklin, Donna Frangakis, Nancy Gay, Sharon Harrington, Alison Harris, Michael Herman, Assemblyman John Hartmann, Speaker Garabed "Chuck" Haytaian, Liz Johnson, Jane Kenny, Dolores Kirk, Cynthia Koch, Sally Lane, Senator Richard J. LaRossa, Nina Malone, Karl J. Niederer, Colonel Harold W. Nutt, Lori O'Mara-VanDriesen, Linda Osborne, Bruce Oswald, Mayor Douglas Palmer, Karen Poling, Albert Porroni, Mary Alice Quigley, Bob Ricci, Leah Slosberg, Elizabeth Thomas, Eileen Thornton, Richard Waldron, Assemblyman John S. Watson, and Debbie Zbrzezny.

The Clerk read the following message from the Senate advising of the following action taken:

Senate No. 513, Objections of the Governor notwithstanding.

The Appropriations Committee reported the following bills favorably and as reported were given second reading:

Assembly No. 1837 and Senate No. 1168.

#### ASSEMBLY BILL NO. 12

To the General Assembly:

Pursuant to Article V, Section I, Paragraph 14, of the Constitution, I am returning Assembly Bill No. 12 without my approval.

On July 1, 1991, the Health Care Cost Reduction Act was enacted. The enactment of this legislation was the result of the recognition of a health care crisis in the State of New Jersey. The need to contain health care costs and ensure quality care to our citizens required that future health care planning in this State take place in a cohesive and cogent manner. For this reason, the Act required the Department to develop comprehensive statewide health planning regulations, in the form of a State Health Plan. These regulations would serve as the framework for reviewing applications for certificates of need for health care facilities and services.

The Act also provided for the establishment of local advisory boards and a State Health Planning Board. These agencies were required to assist the Department, with public input, in the development of the statewide health planning regulations. Just as importantly, these agencies were required to actively review certificate of need applications and to make recommendations to the Commissioner of Health on these applications.

In order to give the local advisory boards, the State Health Planning Board, the Department of Health and the Health Care Administration Board the time necessary to develop the needed statewide health planning regulations, it was necessary for the Department to place a moratorium on the acceptance and review of certificate of need applications. This moratorium ensured that no health care facility or service would be implemented that might later prove to be inconsistent with the regulations. The moratorium was also needed to enable the local advisory boards to be created and staffed and for appointments to be made to the State Health Planning Board. Absent a moratorium, these agencies would not have been able to review certificate of need applications as required by the Health Care Cost Reduction Act.

Because of the imminent threat to the public welfare that would be caused by a consideration of certificate of need applications in the absence of reasoned regulatory standards, and in the absence of review by the various advisory bodies, an Emergency Rule imposing the moratorium was issued on August 21, 1991. Under the Emergency Rule, the moratorium became immediately effective and

would continue until State Health Plan regulations governing a particular health care service or facility were adopted. Upon the adoption of these regulations, the moratorium would be lifted for the health care service or facility covered by the regulations.

On October 21, 1991, the Department of Health adopted the Emergency Rule through the regular administrative rule-making process. N.J.A.C. 8:33-5-1. At that time, and at the request of a number of commenters concerning the regulation, the Department included a provision in the regulation for the automatic expiration of the moratorium on December 31, 1992. The regulation, and an amendment to the regulation adopted by the Department on April 20, 1992, also created exceptions to the moratorium for certain proposed projects, like transfers of ownership and changes in cost and scope, which could be processed administratively.

On July 20, 1992, the Department promulgated regulations, thereby lifting the moratorium, on seven categories of health care services and facilities, including long-term care beds and capital projects for acute care general hospitals. The Department has already issued public invitations (or "calls") for these types of applications.

In addition, on September 8, 1992, the Department adopted its new certificate of need procedure manual, N.J.A.C. 8:33-1.1 et seq. This regulation provides that the Commissioner of Health will invite applications for particular projects in consideration of the specific needs identified in the State Health Plan regulations. See N.J.A.C. 8:33-4.1(a). Wherever practical, these invitations will be issued by the Commissioner at least 90 days in advance of the application deadline in order to give all interested parties the opportunity to develop accurate, comprehensive and competitive applications.

Assembly Bill No. 12 must be considered against this background. This bill would require the Commissioner of Health to rescind the rule (N.J.A.C. 8:33-5.1) adopted on October 21, 1991 which had originally imposed the moratorium on the acceptance and processing of certificate of need applications. The bill would further provide that certificates of need would be accepted and processed in accordance with the provisions of N.J.S.A. 26:2H-1 et seq. Finally, the bill provides that the failure of the Department to complete any part of the State Health Plan shall not serve as a basis to deny or delay a certificate of need application.

In view of all of the developments concerning the moratorium since its inception on October 21, 1991, there is simply no need for Assembly Bill No. 12. Following its adoption on October 21, 1991, several exceptions to the moratorium were permitted. With the adoption of regulations on July 20, 1992, the moratorium was lifted on even more types of projects. With the adoption of the new

certificate of need procedure manual on September 8, 1992, the Commissioner of Health has begun the process of issuing public calls for certificate of need applications.

Finally, the moratorium will expire on its own accord on December 31, 1992. N.J.A.C. 8:33-5.1(c). Even if the moratorium ended today, applications for certificates of need would not be able to be prepared and submitted prior to December 31. As discussed above, a minimum of 90 days advance notice is required to enable applicants to respond to a public call for applications. Moreover, the enactment of Assembly Bill No. 12 would not result in the immediate termination of the moratorium.

This bill would require the Commissioner of Health to "rescind the rule", which could only be done by repealing the rule through the administrative rule-making process, which involves publication of a rule proposal and final adoption notice in the New Jersey Register. This administrative rule-making process, in accordance with the Administrative Procedure Act, would itself take several months to complete. By that time, the moratorium would have already expired. Finally, permitting the moratorium to expire on December 31 under its express terms would eliminate the possible separation of powers issue raised by this legislative attempt to direct agency rule-making.

The moratorium imposed on October 21, 1991 was necessary to ensure the establishment of a comprehensive system of statewide health planning. The absence of such a system had been a major factor contributing to spiraling health care costs and had limited access to care for large segments of the population. The moratorium, having served its purpose, has expired for all practical purposes with the Commissioner of Health's issuance of public calls for applications for specific services and facilities. The moratorium will officially end by its own terms on December 31, 1992. There is, therefore, simply no need for Assembly Bill No. 12.

Accordingly, I herewith return Assembly Bill No. 12 without my approval.

Respectfully,  
Jim Florio  
Governor

ASSEMBLY BILL NO. 1272 (Second Reprint)

To the General Assembly:

Pursuant to Article V, Section I, Paragraph 14, of the New Jersey Constitution, I herewith return Assembly Bill No. 1272 (Second Reprint) with my objections for reconsideration.

This bill would amend the New Jersey Insurance Producer Licensing Act (P.L. 1987, c. 193), codified at N.J.S.A. 17:22A-1 et

seq., (hereinafter "Act"), which became effective on April 27, 1988. That Act generally provides that no corporation, partnership, individual or other legal entity shall engage in the business of an insurance agent, insurance broker or insurance consultant without first obtaining a license from the Commissioner of Insurance granting him the authority to engage in that type of transaction. This bill would create certain exemptions from licensure under the Producer Licensing Act.

That Act constitutes a revision and updating of the pre-existing law covering the regulation of insurance brokers, agents, and consultants. The producer licensing law replaced a variety of statutes dating back many years governing the regulation of insurance producers and was intended to strengthen the Department of Insurance's hand in regulating persons who are engaged in the marketing of insurance to guarantee that the consumer is able to purchase insurance from persons knowledgeable in the business and capable of explaining the wide variety of insurance options available to the public to best suit individual needs of coverage and financial circumstances.

As presented to me, Assembly Bill No. 1272 (Second Reprint) would exempt three categories of entities from licensure; they include, generally: (1) any regularly salaried officer or employee of insurance companies or corporations managing an insurance company or of a licensed insurance producer who does not solicit outside of an office of the insurance company or producer or accept from the public outside of an office of the insurance company or producer, applications for orders of insurance policies, if that officer or employee does not receive a commission that is directly dependent upon the sale of insurance policies; (2) any regular salaried officer or employee of an insurance company or of a corporation which manages an insurance company who devotes substantially all of his services to activities other than the solicitation of insurance policies from the insuring public and who receives for the solicitation of those insurance policies no commission directly dependent upon the sale of insurance policies; and (3) certain officers, employees and agents of fraternal benefit societies.

Assembly Bill No. 1272 (Second Reprint), as amended, sanctions artificial and unrealistic distinctions with regard to the requirements governing individuals dealing with the public who must be duly licensed as insurance producers. Under the bill, an individual who operated exclusively from within an office and was not compensated by commissions would require a license even if he or she were uninformed and untrained about insurance matters. Such an unlicensed person, using the telephone, could advise, sell, solicit, or negotiate insurance directly with the public, whether employed by a licensed producer or an insurance company.

On the other hand, a person dealing outside of the office, face to face, with the public would require a license. Such an irrational distinction could be subject to abuse and place unqualified and uninformed sales people in direct contact with the public, unfettered by licensure and educational requirements.

After carefully reviewing the provisions of this bill, and its interaction with the Producer Licensing Act, I have concluded that the exemption of what may generally be characterized as employees of independent professional, insurance agents and of direct writers of insurance is not, at this time, in the best interests of insurance consumers.

Insurance producers currently have to undergo a course of educational training in a variety of insurance topics and demonstrate their capability in this regard by passing a Department of Insurance-administered examination. The demonstration of these qualifications through an examination process is an appropriate means of ensuring that consumers have the assistance of insurance producers who have demonstrated their abilities to advise the consumer of what are often very difficult and costly insurance decisions, especially given the multitude of choices that exist in procuring different types of insurance. In addition, such producers are mandated to comply with continuing education requirements to guarantee the protection of the insurance consumer.

New Jersey is very well served by its independent, professional, insurance agents and those agents who work exclusively for a single company. A high degree of professionalism has always been exemplified by the State's insurance producers and it is in the public interest that this standard be maintained.

I have directed the Insurance Commissioner to promulgate regulations which will ensure that only licensed producers may offer insurance advice, sell, solicit, or negotiate for insurance coverage, when in contact with a consumer or customer in person or over the telephone. Any other employee of a licensed producer need not be licensed.

Direct writers of insurance in New Jersey, who do not utilize agents, have also compiled an impressive record of customer service to date. However, exempting the employees of direct writers of insurance who advise, sell, solicit or negotiate insurance coverage, in person or over the telephone, from the same licensing standards required of producer agents is unfair and harmful to the public interest. The insurance buying public has every right to expect that the direct writer be governed by the same standard of professionalism and expertise as is offered by a licensed producer.

Applying the very same standard required of an independent, professional, or exclusive agent as for certain employees of direct writing insurance companies establishes equality of treatment, ensures that the public is served only by licensed professionals, and thereby protects the insurance consumer.

Lastly, this bill would exempt fraternal benefit societies from licensure under the Producer Licensing Act. These societies offer insurance to small specialized groups of individuals organized around common social interests. Given the limited nature of their operations and the narrow target of their solicitations, it is appropriate that the limited exemption contained in this bill be preserved. This is in keeping with the original intent of the bill when it was introduced before it was amended.

Therefore, I herewith return Assembly Bill No. 1272 (Second Reprint) and recommend that it be amended as follows:

Page 1, Section 1, line 24: Delete lines 24 through 42 inclusive.

Page 2, Section 1, line 1: Delete lines 1 through 23 inclusive.

Insert new language as follows:

(1) the clerical duties of office employees nor the managerial or supervisory duties of general agents or managers who do not negotiate, solicit or effect insurance contracts;

(2) any regular salaried officer, employee or member of a fraternal benefit society licensed and authorized to transact business in this State pursuant to the provisions of P.L.1959, c.167 (C.17:44A-1 et seq.) who devotes substantially all of his services to activities other than the solicitation of fraternal insurance contracts from the public, and who receives for the solicitation of those contracts no commission or other compensation directly dependent upon the amount of business obtained; or

(3) any agent, representative or member of a fraternal benefit society who devotes, or intends to devote, less than 50 percent of his time to the solicitation and procurement of insurance contracts for that fraternal benefit society. Any person who in the preceding calendar year has solicited and procured life insurance contracts on behalf of any fraternal benefit society in an amount of insurance in excess of a total of \$50,000, or, in the case of any other kind or kinds of insurance which the society writes, on the persons of more than 25 individuals and who has received or will receive a commission or other compensation therefrom, shall be presumed to be devoting, or intending to devote, 50 percent of his time to the solicitation or procurement of insurance contracts for that society.

#### ASSEMBLY BILL No. 1678 (First Reprint)

To the General Assembly:

Pursuant to Article V, Section I, Paragraph 15 of the New Jersey Constitution, I am herewith appending to Assembly Bill No. 1678 (First Reprint) at the time of signing it my statement of items, or parts thereof, to which I object so that each item, or part thereof, so objected to shall not take effect.

This bill appropriates a total of \$5,072,257 from the State's General Fund to the Division of Local Government Services in the Department of Community Affairs for the purpose of providing state aid. Specifically, this allocation is to be distributed by the Director of Local Government Services in the Department of Commu-

nity Affairs to municipalities that will receive less supplemental municipal property tax relief act-formula aid (this fiscal year) in order to hold harmless these municipalities from such State aid decreases.

I recognize that certain municipalities are scheduled to receive less formula aid under the "Supplemental Municipal Property Tax Relief Act" during Fiscal Year 1993. I am also aware that this loss of formula-aid for property tax relief is directly tied to a municipality's equalized tax rate compared to the State equalized rate. The lower a municipality's equalized rate, the less property tax relief aid it is entitled to since, as designed by the Legislature, this is a need-based program.

However, the \$5,072,257 to be appropriated under this bill is being directed at municipalities which already have comparatively low tax rates, which have already adopted their budgets for 1993 without this money, and which are capable of absorbing such a decrease in aid through local levies.

I am opposed to such an appropriation for the following reasons:

1. It violates the spirit of the supplemental property tax relief aid formula which is intended to be need based;

2. It creates additional future State budget complications by setting a precedent for disregarding the mechanisms used to determine the equitable distribution of formula aid under the Supplemental Municipal Property Tax Relief Act whenever some municipalities receive less aid than in previous years;

3. With their tax rates dropping, the municipalities that lost funding should be capable of raising additional local funds without undue burden, compared to our State's other communities;

4. The appropriation at this time of over \$5,000,000 from the General Fund would also not be fiscally sound. There is currently a budget surplus of only approximately \$41,500,000. There are, however, additional Homestead Rebate payments to be made out of this surplus. These payments are estimated to be \$10,000,000, leaving a budget surplus of approximately \$31,500,000. As I have stated on previous occasions, good fiscal practices require that our budget surplus be kept at a much higher amount. The current surplus is perilously low and, therefore, I cannot support depleting it in the magnitude sought in this bill;

5. Finally, because municipalities affected by this action have adopted their budgets prior to the enactment of this bill, the aid may be lost for tax relief purposes this year and will most likely be spent, thus circumventing the clear intent of this legislation.

The decrease in aid to these municipalities was necessitated by the Legislature's budget reductions. To provide this money and, in most cases, a windfall, to these communities at a time when needy

communities and other programs are being deprived of funds would be inappropriate.

As discussed above, the appropriation for supplemental property tax relief in this bill cannot be sustained at this time due to the fiscal constraints that are being faced by the State, as evidenced by the current meager budget surplus. I commend each of these communities for maintaining a low tax rate; however, I cannot in good conscience provide them with a windfall to compensate for their loss of State aid caused by the Legislature.

Alternatively, I am pleased to support the use of \$750,000 in savings accrued from vacancies and furloughs in the various fee programs, in the Department of Environmental Protection and Energy, excluding NJPDES, for purposes of ensuring continued access to our State's Parks and Forestry programs and facilities. This appropriation is an integral part of a four-part supplemental funding mechanism agreed to by the Legislature and by me which is essential in carrying out the overall plan for maintaining the Parks and Forestry operations of the State in a viable manner.

Accordingly, I herewith append the following statement of objections to the sums, or parts thereof, appropriated by this bill:

Page 1, Title 1, Line 1: Delete "and supplement"

Page 1, Section 1, Lines 8-34: Delete in entirety.

Page 2, Section 1, Lines 1-48: Delete in entirety.

Page 3, Section 2, Lines 17-31: Delete in entirety.

Page 3, Section 3, Line 32: Renumber section 3 as section 1.

Page 4, Section 4, Line 4: Renumber section 4 as section 2.

Respectfully,

Jim Florio

GOVERNOR

November 30, 1992

Honorable Garabed "Chuck" Haytaian, Speaker  
New Jersey General Assembly  
State House  
Trenton, NJ 08625

Dear Mr. Speaker:

I am writing to submit my letter of resignation from the New Jersey General Assembly representing District 22 effective Monday, December 7th.

Serving in the General Assembly has been a richly rewarding experience. I have come to develop an enormous respect for the institution and the dedicated men and women who serve there.

Over the past 12 years, I have seen the Legislature become more independent and assume a leadership role in formulating public policy. Today, the Legislature truly is an equal branch of government. I know that under your leadership the Legislature will continue to ensure that the people of New Jersey receive the best possible representation.

The experiences I have gained in the Assembly both during my years in the Minority and in the Majority will be invaluable to me as I start my freshman term in Congress representing the people of the Seventh District.

I have been proud to play a leadership role in the Assembly and to have assumed an influential role in such major public policy initiatives as the Transportation Trust Fund, increasing the availability of nursing home beds for poor people who rely on Medicaid by outlawing "private pay" contracts and this year's historic tax cut and reduction in state spending.

I am leaving behind, however, a long list of unfinished business. The list includes giving the citizens the right of initiative and referendum, a comprehensive plan to revitalize our manufacturing sector, reform of the regulatory process, a performance review evaluation for government agencies and programs, empowerment of public housing residents and a constitutional amendment requiring the state to pay for all new programs it mandates on local and county governments. These measures are extremely important. I urge my colleagues to take up these proposals and make every effort to see them enacted into law.

A personal word of thanks to you, Mr. Speaker, for your friendship, loyalty and support. You have made an enormous contribution to the career of this Congressman-Elect and to the institution which you lead so ably.

Best wishes for your continued success.

Sincerely,  
Bob Franks, Chairman  
Assembly Policy and Rules Committee

November 25, 1992

The Honorable Garabed "Chuck" Haytaian  
Speaker, New Jersey General Assembly  
State House  
Trenton, NJ 08625-0098

Dear Speaker Haytaian:

This letter will serve as official notification of my desire to resign my position on the Assembly Appropriations Committee as of November 30, 1992.

It has been a pleasure serving on the Committee, however, I look forward to the new opportunity that has been presented to me.

Sincerely,  
Paul DiGaetano

November 25, 1992

The Honorable Garabed "Chuck" Haytaian  
Speaker, New Jersey General Assembly  
State House  
Trenton, NJ 08625-0098

Dear Speaker Haytaian:

This will serve as official notification of my intention to step down as Chairman of the Assembly Policy and Rules Committee as of November 30, 1992.

It has been a pleasure serving as Chairman for the past 10 months. It also has been a privilege to have been given the opportunity to work with the members in developing and shaping the agenda of a new committee.

Thank you again for this opportunity.

Sincerely,  
Robert D. Franks

Mr. Collins moved that the message be spread in full upon the minutes.

Which motion was adopted.

#### ASSEMBLY BILL NO. 1227

To the General Assembly:

Pursuant to Article V, Section I, Paragraph 14, of the New Jersey Constitution, I herewith return Assembly Bill No. 1227 with my objections for reconsideration.

Current law provides that when the spouse of an officer who dies in the line of duty remarries, he or she forfeits the accidental death benefits to which he or she is otherwise entitled under the State Police Retirement System ("SPRS"). This bill would amend that provision by creating an exception for beneficiaries who remarry and then divorce within two years after the spouse's death. The result is to expand the number of individuals who would be entitled to claim accidental death benefits through the SPRS.

Although I am sympathetic to the arguments made by those who support expanding SPRS in this manner, I am conditionally vetoing this bill because I believe it should first be referred to the Pension and Health Benefits Review Commission, the membership of which has now been selected.

Last year, with my concurrence, the Legislature created the Pension and Health Benefits Review Commission, which is responsible for reviewing all bills that in any way modify pension or health benefits for

public employees in this State (L. 1991, c. 382). As I indicated at the time, the point of this Commission is to put an end to piece-meal benefits legislation that is always tempting to enact in isolation, but which, in combination with similar legislation, could impose potentially enormous costs on the State Treasury or otherwise skew the financial assumptions underlying the pension systems.

There is no question that the Legislature should have referred this bill to this important Commission. It is true that the Commission had not yet convened as of the deadline established by law. However, I am pleased that the Legislature has carried through with its appointments to this Commission, and that the Commission's membership has now been fully designated.

Therefore, since the Commission is now prepared to meet and deliberate, I see no reason why this bill should not be referred to the Commission at this time. I have no doubt that, but for the delays in convening this Commission, the Legislature would have referred the bill as required if it had had the ability to do so, and that the bill would have benefited greatly from a thorough review.

Indeed, the action I take today is consistent with the views I expressed in August, when I conditionally vetoed Assembly Bill No. 1136, which extended paid health benefits to certain educational employees. On that occasion, I made it clear that I intended to oppose any future pension legislation that had not first been referred to the Pension and Health Benefits Review Commission in the manner provided by law. Since this bill was never properly referred to the Commission, and since it is now possible to do so, I have no choice but to recommend that this bill be amended to require that it be referred to the Commission for a review at this time.

Therefore, I herewith return Assembly Bill No. 1227 and recommend that it be amended as follows:

**Page 1, Section 2, Lines 17-18:** Delete in entirety, insert "This act shall take effect at such time as the Pension and Health Benefits Review Commission established pursuant to P.L. 1991, c. 382 (C.52:9HH-1 et seq.) shall have conducted a review of this act and shall have voted by a majority vote in favor of the act taking effect; provided, however, that if the commission fails to vote on or before the 120th day after enactment in favor of the act taking effect, the act shall not take effect, but if the act takes effect, the act shall expire on the 60th day after the effective date."

Respectfully,

Jim Florio

GOVERNOR

ASSEMBLY BILL NO. 1316 (First Reprint)

To the General Assembly:

Pursuant to Article V, Section I, Paragraph 14, of the Constitution, I herewith return Assembly Bill No. 1316 (First Reprint) without my approval.

This bill would authorize municipalities to license rooming and boarding houses. The stated intent of this bill is to protect the safety, health and welfare of boarding home residents by empowering local officials to conduct regular inspections of these facilities and enforce compliance with State and local law. However, the owners and operators of these boarding homes are currently licensed and regulated by the Department of Community Affairs through the Rooming and Boarding House Act.

Under that Act and the regulations promulgated thereunder, local governments are authorized to conduct inspections on behalf of the Bureau of Rooming and Boarding House Standards, through their appropriate housing, health or social services agencies, for physical safety, structure and mechanical deficiencies, security and cleanliness. Department regulations further provide that those municipal fire departments, fire districts or county marshalls, which are authorized to enforce the Uniform Fire Code in each municipality, are designated as the Bureau's agents for the purpose of conducting inspections of existing boarding and rooming houses and enforcing all provisions of the Uniform Fire Safety Act and the Uniform Fire Code.

On a local level, municipalities have the power to conduct additional inspections of these premises and to enforce all local housing, health and fire safety codes. Finally, municipalities have the authority to control the establishment and operation of rooming and boarding houses through zoning ordinances.

Clearly, local governments already possess sufficient broad based powers to conduct regular inspections of rooming and boarding houses and to enforce compliance with State and local law.

We cannot ignore that the residents of rooming and boarding homes represent the most vulnerable segment of our population -- the elderly, the disabled and the poor. As such, I will be calling upon the Bureau of Rooming and Boarding House Standards to file quarterly reports with the Commissioner detailing each notice of violation and its disposition in order to ensure that each complaint is acted upon in a timely manner. I also encourage the local entities to utilize the powers provided under current law to protect the safety, health and welfare of these residents and promote a home-like atmosphere appropriate to these facilities.

Accordingly, I herewith return Assembly Bill No. 1316 (First Reprint) without my approval.

Respectfully,  
Jim Florio  
GOVERNOR

ASSEMBLY BILL NO. 1659

To the General Assembly:

Pursuant to Article V, Section I, Paragraph 14, of the Constitution, I herewith return Assembly Bill No. 1659 without my approval.

This legislation would permit municipalities in which a harbor commission has been created and which leases from the State lands which now or were formally under water, the right to convert the lease into a fee simple absolute grant. This conversion would be permitted at any time while the lease is in effect or within six months of the revocation of the lease by the State upon payment of the sum stated in the right to convert provisions of the lease. This bill further provides that, upon payment of the sum stated in the lease, fee simple absolute title is to be conveyed without regard to statutory restrictions on future use of the land and without regard to other conditions imposed in the lease, which were agreed to by the municipality. Although this bill constitutes general legislation, in fact, only the Borough of Atlantic Highlands is affected by its provisions.

As a matter of public policy and consistent with the ancient public trust doctrine, which acknowledges that the ownership, dominion and sovereignty over land flowed by tidal waters is vested in the State in trust for the people, I object to this bill. To understand the implications of this legislation, an understanding of the State's riparian, also called tidelands, grants history and process is essential.

The State of New Jersey owns all lands within its borders that it has not conveyed which are now naturally flowed by the mean high tide. The State also owns all lands formerly flowed by the mean high tide that it has not conveyed and which have been artificially filled. These tidelands interests include the natural beds of the Hudson River, the Delaware River up to the head of the tide, Barnegat Bay and the Atlantic Ocean within the three mile limit. Between 1804 and 1869, the State granted portions of these lands to owners of the adjacent dry land, or upland owners, by legislative act. However, generally since 1869, these properties have been conveyed by deed or grant, or by long term lease.

Conveyances of these tidelands interests to upland owners have been made after initial review, appraisal and approval of the Tide-

lands Resource Council, which has the primary statutory responsibility for the tidelands grant process. Grants or long term leases of the State's tidelands interests also require review and approval by the Commissioner of the Department of Environmental Protection and Energy, the Attorney General and, ultimately, the Governor. This elaborate and multi-layered process is designed to afford appropriate review of the impact of conveying the State's tidelands interests to private ownership because these properties are typically among the State's most valuable, both economically and environmentally -- generally, the State's shore front or coastline -- and are held by the State in trust for all of its citizens.

In determining whether to convey the State's riparian interests to private owners, the Tidelands Resource Council applies three basic criteria. Any conveyance must be in the public interest, must be for fair market value and must be consistent with the public trust doctrine. Restrictions which are imposed on the use of the land subject to the grant or lease are designed to assure that these criteria are met -- that the public interest is protected and the public trust is not violated. Leases of tidelands interests sometimes contain provisions which allow the lessor to convert the lease to an outright grant for a price reflecting the fair market value of the grant. The fair market value established as consideration for the grant under a so-called "right to convert" provision is based upon the value of the land as it is affected by the continuing restrictions on use of the land.

Once the State's interest is conveyed, proceeds are deposited in the fund for the support of free public schools. These monies are constitutionally and statutorily dedicated as part of the permanent school fund of the State, and annually appropriated to finance public schools. The fund is also used to secure the payment of principal and interest on bonds or notes issued for school purposes by counties, municipalities or school districts. The availability of this fund to secure the payment on bonds or notes typically results in reduced costs of bonded indebtedness for counties, municipalities or school districts. It follows that preserving the source of monies for this fund provides a true statewide benefit.

Having provided this background, it becomes apparent that this legislation is inconsistent with the Tidelands Resource Council's long standing tidelands grants process because it would permit certain municipalities to purchase outright the State's tidelands interests without any continuing guarantee that the public would have access to the property, at a price which was determined on the basis that continuing public access would be permitted. In essence, a municipality would be able to unilaterally avail itself of a favorable price, without having to meet any of the obligations which it agreed to in its lease, or which are imposed by law, and which contributed to establishing that favorable price. I believe this violates

the public trust, jeopardizes the fund for the support of free public schools and sets a dangerous precedent for future conveyances of the State's tidelands interests.

We need not rely alone on the rich history, statutory and constitutional framework for the tidelands grant program to reject the idea that the State should be permitted to convey its tidelands interests for less than fair market value, for the people of New Jersey have directly spoken on this question. Indeed, in 1982, the general election ballot contained a proposed riparian constitutional amendment which would have authorized the Legislature to enact laws establishing criteria for permitting the State to convey its riparian interests at less than fair market value or for nominal sums. This referendum was defeated by the voters of New Jersey by a ratio of three votes to two. In rejecting this amendment, the citizens of New Jersey repudiated the very concept which the Legislature here attempts to impose through this bill.

Accordingly, I herewith return Assembly Bill No. 1659 without my approval.

Respectfully,  
Jim Florio  
GOVERNOR
