(a) When dice for use in the casino or casino simulcasting facility are received from the manufacturer or distributor thereof, they shall, immediately following receipt, be inspected by a member of the casino security department or casino accounting department and a casino supervisor to assure that the seals on each box are intact, unbroken and free from tampering. Boxes that do not satisfy these criteria shall be inspected at this time to assure that the dice conform to Commission standards and are completely in a condition to assure fair play. Boxes satisfying these criteria, together with boxes having unbroken, intact and untampered seals shall then be placed for storage in a locked cabinet in the cashiers' cage or within a primary or secondary storage area. Dice which are to be distributed to gaming pits or tables for use in gaming shall be distributed

from a locked cabinet in the cashiers' cage or from another secure primary storage area, the location and physical characteristics of which shall be approved by the Commission. Secondary storage areas shall be used for the storage of surplus dice. Dice maintained in secondary storage areas shall not be distributed to gaming pits or tables for use in gaming until the dice have been moved to a primary storage area. All secondary storage areas shall be located in secure areas, the location and physical characteristics of which shall be approved by the Commission.

(b) All primary and secondary storage areas, other than the cashiers' cage, shall have two separate locks. The casino security department shall maintain one key and the casino department or cashiers' cage shall maintain the other key; provided, however, that no person employed by the casino department below the table games shift manager in the organization hierarchy shall have access to the casino department key. Dice stored in a cabinet within the cashiers' cage shall be secured by a lock, the key to which shall be maintained by a table games shift manager or casino supervisor thereof.

(c) Immediately prior to the commencement of each gaming day and at such other times as may be necessary, the table games shift manager or casino supervisor thereof, in the presence of a casino security officer, shall remove the appropriate number of dice for that gaming day from a primary storage area.

(d) All envelopes and containers used in this section for dice preinspected at the pit stand or in a primary storage area and for those collected by security shall be transparent.

1. The envelopes or containers and the method used to seal them shall be designed or constructed so that any tampering shall be evident.

- ii. Immediately upon opening a table for gaming, the pit boss shall distribute a set of dice to the table. At the time of receipt, a boxperson at each craps table and the floorperson at each sic bo, mini-dice or mini-craps table, in order to ensure that the dice are in a condition to assure fair play and otherwise conform to the Act and the rules of the Commission, shall, in the presence of the dealer, inspect the dice given to him or her with a micrometer or any other approved instrument which performs the same function, a balancing caliper, a steel set square and a magnet, which instruments shall be kept in a compartment at each craps table or pit stand and shall be at all times readily available for use by the Commission or the Division upon request of either;

- iii. Following this inspection:

- (1) For craps, the boxperson shall, in the presence of the dealer, place the dice in a cup on the table for use in gaming, and while the dice are at the table, they shall never be left unattended;

- (2) For mini-craps, the floorperson shall, in the presence of the dealer, place the dice in a cup on the table for use in gaming, and while the dice are at the table, they shall never be left unattended; and

- (3) For sic bo and mini-dice, the floorperson shall in the presence of the dealer place the required number of dice into the shaker and seal or lock the shaker. For sic bo, the floorperson shall then secure the sic bo shaker to the table in a manner approved by the Commission, in the presence of the dealer who observed the inspection. - i. The table games shift manager or casino supervisor thereof and the casino security officer who removed the dice from the primary storage area shall distribute the dice directly to the casino supervisor identified in (e)2ii below who will perform the inspection in each pit.

- ii. The inspection of the dice at the pit stand shall be performed by:

(1) For craps and mini-craps, a boxperson or floorperson in the presence of another boxperson or floorperson, both of whom are assigned the responsibility of supervising the operation and conduct of a craps game; and

iii. To ensure that the dice are in a condition to assure fair play and otherwise conform to the Act and the rules of the Commission, the dice shall be inspected with a micrometer or any other approved instrument which performs the same function, a balancing caliper, a steel set square and a magnet, which instruments shall be kept at the pit stand and shall be at all times readily available for use by the Commission or the Division upon request of either. The inspection shall be performed on a flat surface which allows the dice inspection to be observed through closed circuit television cameras and by any persons in the immediate vicinity of the pit stand.

iv. After completion of the inspection, the dice shall be distributed as follows:

(1) For craps and mini-craps, the boxperson or floorperson who inspected the dice shall, in the presence of the other boxperson or floorperson who observed the inspection, distribute such dice to the boxperson assigned at each craps table or to the floorperson assigned at each mini-craps table. The craps boxperson or the mini-craps floorperson shall, in the presence of the dealer, place the dice in a cup on the table for use in gaming, and while the dice are at the table they shall never be left unattended;

vi. Notwithstanding (e)2v(2) above, previously inspected reserve dice may be used for gaming without being reinspected if they are maintained in a locked compartment in the pit stand under dual key control as approved by the Commission, the keys for which shall be in the possession of the pit boss or casino supervisor thereof.

vii. Notwithstanding (e)2v(2) above and as an additional alternative to (e)2vi above, previously inspected reserve dice may be used for gaming without being reinspected if they are maintained in a locked compartment in the pit stand in accordance with the following procedures.

(1) For craps and mini-craps, a set of at least five dice, after being inspected, shall be placed in a sealed envelope or container. A label that identifies the date of inspection and contains the signatures of those responsible for the inspection shall be attached to each envelope or container.

These instruments shall be maintained in the storage area and shall be at all times readily available for use by the Commission or the Division upon request of either.

iii. After completion of the inspection, the person performing the inspection shall seal the dice as follows:

(1) For craps and mini-craps, after each set of at least five dice are inspected, they shall be placed in a sealed envelope or container; provided, however, that reserve dice may be placed in individual sealed envelopes or containers. A label that identifies the date of the inspection and contains the signatures of those responsible for the inspection shall be attached to each envelope or container;

(2) For sic bo and mini-dice, after each set of dice are inspected, they shall be sealed or locked in a manual shaker. A seal that identifies the date of the inspection and contains the signatures of those responsible for the inspection shall then be placed over the area that allows access to open the shaker; and

(3) For pai gow or pai gow poker, after each set of three dice are inspected, they shall be placed in a sealed envelope or container. A label that identifies the date of the inspection and contains the signatures of those responsible for the inspection shall be attached to each envelope or container.

When the sealed dice are distributed to the craps or mini-craps table, a boxperson at each craps table or a floorperson at each mini-craps table, after assuring the seals are intact and free from tampering, shall open the sealed envelope or container, in the presence of the dealer, and place the dice in a cup on the table for use in gaming. While dice are on the table, they shall never be left unattended.

(2) For sic bo and mini-dice, the sealed manual shakers shall be distributed to the pit boss supervising the game. For sic bo, the pit boss shall then secure the manual sic bo shaker to the table in a manner approved by the Commission. For mini-dice, the pit boss shall give the sealed mini-dice shaker to the dealer who shall be primarily responsible for the security of the shaker at all times while the shaker is available for use at the table.

(3) For pai gow or pai gow poker, the sealed envelope or container shall be distributed to a pit boss in each pai gow or pai gow poker pit or placed in a locked compartment in the pit stand. When the sealed dice are distributed to the pai gow or pai gow poker table by the pit boss, a floorperson, after assuring the seal and envelopes or containers are intact and free from tampering, shall open the sealed envelope or container, in the presence of the dealer, and place the dice in the pai gow or pai gow poker shaker.

v. When the envelope or container or the seal is damaged, broken or shows indication of tampering, the dice shall not be used for gaming activity unless the dice are reinspected as follows:

vii. A micrometer or any other approved instrument which performs the same function, a balancing caliper, a steel set square and a magnet shall also be maintained in a locked compartment in each pit stand, and each such instrument shall be at all times readily available for use by the Commission or the Division upon request of either.

viii. Any primary storage area in which dice are inspected in accordance with this alternative, shall be equipped with closed circuit television camera coverage capable of observing the entire inspection procedure.

(f) The casino licensee shall remove any dice at any time of the gaming day if there is any indication of tampering, flaws or other defects that might affect the integrity or fairness of the game, or at the request of the Commission or Division.

(g) At the end of each gaming day or at such other times as may be necessary, the casino supervisor identified in (g)1 below shall visually inspect each die for evidence of tampering. Such evidence discovered at this time or at any other time shall be immediately reported to the Commission and Division by the completion and delivery of an approved three-part Dice Discrepancy Report.

The casino security officer shall also collect all triplicate copies of Dice Discrepancy Reports, if any. No dice that have been placed in a cup for use in gaming shall remain on a table for more than 24 hours.

The cabinet or primary storage area shall be located in the cashiers' cage or in another secure place, the location and physical characteristics of which shall be approved by the Commission. Secondary storage areas shall be used for the storage of surplus cards. Cards maintained in secondary storage areas shall not be distributed to gaming pits or tables for use in gaming until the cards have been moved to a primary storage area. All secondary storage areas shall be located in secure areas, the location and physical characteristics of which shall be approved by the Commission. Nothing herein shall preclude a casino licensee from having a separate storage area for the cards to be used at the game of poker; provided, however, the location and physical characteristics of the separate storage area shall be approved by the Commission.

(b) All primary, secondary and poker storage areas, other than the cashiers' cage, shall have two separate locks. The casino security department shall maintain one key and the casino department or cashiers' cage shall maintain the other key; provided, however, that no person employed by the casino department below the table games shift manager in the organizational hierarchy shall have access to the casino department key for the primary and secondary storage areas and no person below the poker shift supervisor in the organizational hierarchy shall have access to the casino department key to the poker storage area. Cards stored in a cabinet within the cashiers' cage shall be secured by a lock, the key to which shall be maintained by a tables games shift manager or casino supervisor thereof.

(c) Immediately prior to the commencement of each gaming day and at other times as may be necessary, the assistant shift manager or casino supervisor thereof, in the presence of a casino security officer, shall remove the appropriate number of decks of cards for that gaming day from a primary storage area, and if applicable, the poker shift supervisor or supervisor thereof, in the presence of a casino security officer, shall remove the appropriate number of decks of cards to be used at poker for that gaming day from the poker storage area.

(d) If removed from the primary storage area, the table games shift manager or casino supervisor thereof and the casino security officer who removed the decks shall distribute sufficient decks to the poker shift supervisor and to the pit boss who shall then distribute the decks to the dealer at each table. If removed from the poker storage area, the decks shall be removed by the poker shift supervisor, in the presence of the casino security officer, and transported to the poker pit stand. Subsequently, the poker shift supervisor shall distribute the decks to the dealer at each poker table either directly or through the floorperson assigned to supervise the dealer. The distribution of the decks to the poker tables shall comply with the provisions of N.J.A.C. 19:47-14.2.

1. The poker shift supervisor or pit boss shall place extra decks for card reserve into the pit stand.

2. Prior to distributing the decks to each table, the poker shift supervisor or floorperson shall examine each package to determine if any replacement cards are necessary pursuant to (n)5 below. If needed, the poker shift supervisor or floorperson shall place the appropriate replacement cards into the deck from the cards held in reserve at the pit stand. Upon insertion of the replacement cards into the deck, the poker shift supervisor or floorperson shall re-examine the front of each card and the back of each card to ensure a consistent shading pattern and to ensure that the condition of the deck with the inclusion of the replacement cards has sufficient quality in order to maintain the integrity of gaming at poker. If the integrity of gaming at poker would in any way be compromised by the use of the deck with the replacement cards, the entire deck of cards shall be placed in a sealed envelope or container, identified with the date and time and shall be signed by the poker shift supervisor. The poker shift supervisor shall maintain the envelope or container in a secure place within the pit stand until collection by a casino security officer.

3. Cards in the pit stand shall be placed in a locked compartment, keys to which shall be in the possession of the poker shift supervisor or supervisor thereof or the pit boss or casino supervisor thereof.

(e) With the exception of cards used to game at pokette, which are governed by the requirements of N.J.A.C. 19:47-12.3, prior to their use at a table, all decks shall be inspected by the dealer, and the inspection verified by a floorperson. Card inspection at the gaming table shall require each pack to be used to be sorted into sequence and into suit to assure that all cards are in the deck. The dealer shall also check the back of each card to assure that it is not flawed, scratched or marked in any way.

1. If, after checking the cards, the dealer finds that a card is unsuitable for use, a poker shift supervisor or casino supervisor shall bring a substitute card from the card reserve in the pit stand.

2. The unsuitable card shall be placed in a sealed envelope or container, identified by table number, date, and time and shall be signed by the dealer and floorperson assigned to that table. The poker shift supervisor or casino supervisor shall maintain the envelope or container in a secure place within the pit until collection by a casino security officer.

(f) All envelopes and containers used to hold or transport cards collected by security shall be transparent.

1. The envelopes or containers and the method used to seal them shall be designed or constructed so that any tampering shall be evident.

2. The envelopes or containers and seals shall be approved by the Commission.

(h) Cards damaged during course of play shall be replaced by the dealer who shall request a floorperson or supervisor thereof for the game of poker or casino supervisor for all other games to bring cards in substitution from the pit stand.

1. The damaged cards shall be placed in a sealed envelope, identified by table number, date and time and shall be signed by the dealer and the individual who brought the replacement card to the table.

2. The poker shift supervisor or casino supervisor shall maintain the envelopes or containers in a secure place within the pit until collection by a casino security officer.

2. The poker shift supervisor or casino supervisor shall maintain the envelopes or containers in a secure place within the pit until collection by a casino security officer.

(j) The casino licensee shall remove any cards at any time during the day if there is any indication of tampering, flaws, scratches, marks or other defects that might affect the integrity or fairness of the game, or at the request of the Commission or Division.

(k) All extra decks in card reserve with broken seals shall be placed in a sealed envelope or container, with a label attached to each envelope or container which identifies the date and time and is signed by the floorperson or supervisor thereof for poker and the pit boss for all other games.

(l) At the end of each gaming day or, in the alternative, at least once each gaming day at the same time each day, as designated by the casino licensee and approved by the Commission, and at such other times as may be necessary, a casino security officer shall collect and sign all envelopes or containers with damaged cards, cards used during the gaming day, and all extra decks in card reserve with broken seals and shall return the envelopes or containers to the casino security department.

(m) At the end of each gaming day or, in the alternative, at least once each gaming day at the same time each day, as designated by the casino licensee and approved by the Commission, and at such other times as may be necessary, a table games shift manager or casino supervisor thereof may collect all extra decks in card reserve. If the casino maintains a separate storage area for poker cards, a poker shift supervisor or supervisor thereof may collect all extra decks in card reserve for the game of poker. If collected, all sealed decks shall either be canceled or destroyed or returned to the storage area.

(n) When the envelopes or containers of used cards and reserve cards with broken seals are returned to the casino security department, they shall be inspected for tampering, marks, alterations, missing or additional cards or anything that might indicate unfair play.
