STATE OF NEW JERSEY
GENERAL ASSEMBLY

TUESDAY, January 10, 1956.

The Clerk of the 1955 Session, Mr. William T. Ludlum, called to order the One Hundred Eightieth Session of the General Assembly of the State Legislature at noon (12:00 o'clock) on Tuesday, January 10, 1956, and read the following call:

This being the second Tuesday of January, the time fixed for the beginning of the legislative year, and by virtue of the authority vested in me as Clerk of the One Hundred and Seventy-ninth Session, the General Assembly of the State of New Jersey is now called to order to effect the organization for the conduct of its business for the One Hundred and Eightieth Session.

Prayer was offered by the Reverend Dr. Clee, former Speaker of the General Assembly from Essex County.

The National Anthem was sung by Mrs. Laura Hutchinson of Trenton.

Upon calling the roll, the following members appeared and answered to their names:

[OFFICIAL SEAL] In Testimony Whereof, I have hereunto set my hand and Official Seal at Trenton this tenth day of January, A. D. 1956.

/s/ EDWARD J. PATTEN,
Secretary of State.

Mr. Mills offered the following resolution, which was read by the Clerk and adopted:

Be It Resolved, That the Honorable John Junda, who is an attorney and member-elect of this General Assembly, administer the oath of office to the Honorable Paul M. Salsburg, a member-elect, by whom the oath of office shall be administered to the members-elect.

Whereupon, Assemblyman John Junda administered the oath of office to Assemblyman Paul Salsburg.

Mr. Mills offered the following resolution, which was read by the Clerk and adopted:

Resolved, That the Honorable Paul M. Salsburg administer the oath of office to the Sepaker and other officers when they are elected.

Whereupon, Assemblyman Salsburg administered the oath of office to his fellow Assemblymen.

As names were called, the elected Assemblymen advanced to the bar of the House and signed the Scroll.

Mr. Mills offered the following resolution, which was read by the Clerk and adopted:

Resolved, That the General Assembly do now proceed to the election of a Speaker for the One Hundred and Eightieth Session of The General Assembly of the State of New Jersey.

Whereupon, the Clerk said nominations were in order for the Speaker.

Assemblyman Cundari nominated Leo J. Mosch as Speaker of the House.

Seconded by Assemblymen Dwyer, of Union County; Smith, of Passaic County; Field, of Bergen County; Kurtz, of Middlesex County; and Mills, of Morris County.

Assemblyman Mills moved nominations be closed.

Which motion was adopted.

Roll call vote was taken on the nomination of Leo J. Mosch as Speaker.

In the affirmative were—

Messrs. Barkalow, Beadleston, Bowkley, Brady, Brown, Bush, Crabiel, Crane, Cundari, Davis, Deamer, Dwyer, Field, Fitz Maurice, Franklin, Gant, Glenn, Goff, Gray, Haines, Hauser, Hughes, Hyland, Junda, Kay, Knoblauch, Kraus, Krawczyk, Kurtz, Lazzio, Lebeda, Macdonald, Maebert, Marryatt, McIver, Meloni, Mills, Mintz, Musto, Newton, Ozzard, Panaro, Perfette, Rutherfurd, Sabello, Salsburg, Savage, Savino, Sherman, Silver, Smith, Stepacoff, Stewart, Swick, Thomas, Thuring, Vanderbilt, Vervaet, Werner—59.

In the negative—None.

The Clerk declared Leo J. Mosch, Speaker of the General Assembly for the 180th Session of the Legislature.

The Clerk requested the following Assemblymen to escort the Speaker to the bar of Assembly to take the oath of office.

Assemblymen Mintz, Field, Thomas and Kurtz.

Assemblyman Salsburg administered the oath of office to the newly selected Speaker who then signed the Scroll.

The Speaker ascended the Rostrum and delivered the following address:

ADDRESS OF SPEAKER LEO J. MOSCH AT THE OPENING OF THE 180TH SESSION OF THE NEW JERSEY LEGISLATURE

Today marks the beginning of the 180th Session of the New Jersey Legislature. We, the members, putting our trust in God, will endeavor to carry out our duties pursuant to the mandate of the people.

You have designated me as Speaker of this House of Assembly. For the honor I am deeply appreciative; and you may be sure that I undertake the duties of this office with great humility and with a deep sense of obligation.

While we are living in a time of nominal peace, nevertheless the world is one of tension. The paramount problems are national and international in scope. However, in order to safeguard the well being of our country it is of importance that the individual states provide properly for the social and economic betterment of their citizens. The times have called for a tremendous tax burden; and we must aid in trying to minimize this burden as much as feasible. The State of New Jersey, strategically located in a great industrial area, can make progress only as taxes are kept within reasonable limits. We of the Legislature must dedicate ourselves to the principle that the affairs of this State Government must be managed economically and without the imposition of any new forms of taxation. Specifically, there should of course be no sales or income taxes; and we must also avoid increases in existing forms of taxation.

The question of adequate water supplies remains unanswered. The need is still very great. As a first order this must have our attention and a solution to the problem must be found quickly.

Urban areas in this State require development in recognition of the transitions which have taken place so that the major cities of this State do not deteriorate and thereby hinder the progress of the State as a whole. Of prime importance is the matter of transportation facilities. Special attention must be given to these areas so that they receive needed relief.

There has lately been brought to the attention of the public features of the Workmen's Compensation Law of this

State which indicate the need of study and revision, both as respects administration and rates of compensation.

The public of this State has been greatly inconvenienced in the administration of automobile inspections. If we are to continue with the existing requirement of semi-annual inspections, provision must be made so that the handling of such inspections is not an undue hardship upon car owners. We all recognize the great benefits from such motor vehicle inspection, however, the handling thereof requires changes in order to serve the public properly.

Whenever it appears that there is gross governmental mis-management and disregard for the rights of the public in the management of governmental affairs it is the duty of this legislative body to investigate and determine what remedial measures are required.

A State office building as proposed by former Governor Edge should be constructed. There is now very considerable waste in the payment of high rentals for State offices. Economy and more efficient operation could be obtained by the erection of the proposed building.

There is a demand for State aid for school construction. Such aid and the construction of such buildings should be undertaken without the imposition of new taxes or the increase of existing taxes.

The matter of reapportionment of Assembly seats following the 1950 census has been a complicated problem. There should be a proper reapportionment so as to give effect to the constitutional mandate.

Additional matters which require attention and solution are:

Strengthening of narcotic control: development of a worthwhile mental aid program and the development of a program of aid for retarded children.

There are other matters, of course, which are of importance and which require proper attention and solution as the facts in each case may require. We will, I am sure, address ourselves properly to them.

Our government has functioned on the basis of a two party system. It has been found from experience that this has been one of the best safe-guards for assurance of demo-

cratic processes. As your Speaker I am, of course, a member of the Majority Party. It is only proper that members of both parties be treated fairly. However, it must be borne in mind that the people of the State have entrusted the management of the legislative processes to the Republican Party. This gives to our party the control of these processes but it also imposes upon us a serious obligation to evolve and carry out a program for the benefit of the people of the State. The carrying out of this program should be done with care and also with dispatch. There should not be unnecessary delays in the management of the business of the government of the State of New Jersey. To this end we expect the co-operation of the members of the minority.

With the help of almighty God we should strive to be faithful to the trust imposed upon us and dedicate ourselves to carrying out our duties faithfully and promptly.

The Speaker announced his appointment of Louis Auerbacher as his secretary, and Charles Ward as assistant.

Mr. Mills offered the following resolution, which was read by the Clerk and adopted:

Resolved, That the General Assembly do now proceed to the election of a Clerk of the One Hundred and Eightieth Session of the General Assembly of the State of New Jersey.

The Speaker announced nominations for Clerk were in order.

Assemblyman Savino, of Bergen County, nominated William J. Kohm for Clerk of the General Assembly, of the One Hundred Eightieth Session.

Assemblyman Silver, of Gloucester County, seconded the nomination of Mr. Kohm.

Mr. Mills moved nominations for Clerk be closed.

Which motion was adopted.

Roll call vote was taken on the nomination of William J. Kohm, for Clerk of the General Assembly.

In the affirmative were—

Messrs. Barkalow, Beadleston, Bowkley, Brady, Brown, Bush, Crabiel, Crane, Cundari, Davis, Deamer, Dwyer, Field, Fitz Maurice, Franklin, Gant, Glenn,

Goff, Gray, Haines, Hauser, Hughes, Hyland, Junda, Kay, Knoblauch, Kraus, Krawczyk, Kurtz, Lazzio, Lebeda, Macdonald, Maebert, Marryatt, McIver, Meloni, Mills, Mintz, Mosch (Speaker), Musto, Newton, Ozzard, Panaro, Perfette, Rutherfurd, Sabello, Salsburg, Savage, Savino, Sherman, Silver, Smith, Stepacoff, Stewart, Swick, Thomas, Thuring, Vanderbilt, Vervaet, Werner—60.

In the negative—None.

The Speaker declared Mr. Kohm Clerk of the General Assembly of the One Hundred Eightieth Legislative Session.

Assemblyman Salsburg administered the oath of office to the newly-elected Clerk and Mr. Kohm signed the Scroll.

Mr. Mills offered the following resolution, which was read by the Clerk and adopted:

Resolved, That the Speaker appoint forthwith a committee of seven to wait upon the Governor and inform him that the General Assembly has organized, by the election of the Honorable Leo J. Mosch, of Essex County, as Speaker, and of William J. Kohm, of Bergen County, as the Clerk of the One Hundred and Eightieth Session of the General Assembly of New Jersey, and is now ready to proceed to business.

Whereupon, the Speaker appointed Mrs. Maebert, of Essex County; Mrs. Perfette, of Essex County; Mrs. Bush, of Essex County; Mrs. Newton, of Passaic County; Mrs. Savage, of Ocean County; Mrs. Dwyer, of Union County, and Miss Brown, of Hudson County.

Mr. Mills offered the following resolution, which was read by the Clerk and adopted:

Resolved, That the Clerk of the General Assembly be directed to inform the Senate that the General Assembly has organized by the election of the Honorable Leo J. Mosch, of Essex County, as Speaker, and William J. Kohm, of Bergen County, as Clerk of the One Hundred and Eightieth Session, and has proceeded to business.

Mr. Mills offered the following resolution, which was read by the Clerk and adopted:

Resolved, That the General Assembly proceed to fill the remaining several offices of the General Assembly, and the nominations be made and a vote taken for all of the offices at one and the same time.

Mr. Mills offered the following resolution, which was read by the Clerk and adopted:

Resolved, That the following persons be, and are, hereby elected to the respective offices preceding their names:

Mr. Mills offered the following resolution, which was read by the Clerk and adopted:

Resolved, That unless otherwise ordered, the regular hours of meeting of the General Assembly for morning, afternoon and evening sessions be respectively at 10:00 A. M., 2:00 P. M., and 8:00 P. M.

Mr. Mills offered the following resolution, which was read by the Clerk and adopted:

Resolved, That the Speaker is hereby authorized and directed to appoint a committee of seven members of this house to serve as a Committee on Rules: Messrs. Silver, Marryatt, Smith, Mintz, Mrs. Perfette, Messrs. Hauser and Hyland.

Mr. Silver offered the following resolution, which was read by the Clerk and adopted:

Resolved, That the rules of the General Assembly as printed in the Official Rules of the General Assembly for the 1955 session be adopted as the official rules for the first three weeks of the session of 1956.

The committee appointed to wait upon the Governor returned and the Speaker recognized Assemblywoman Maebert, the chairman, who reported that the committee had waited upon the Governor and had informed him that the General Assembly had organized and was ready to proceed to business.

The Governor extended his best wishes for a successful and productive year and hoped he and the Assembly would work closely together.

The Speaker announced the appointment of the following members to the Beach Erosion Commission: Alfred N. Beadleston, Mrs. Lettie E. Savage, Milton W. Glenn, Robert E. Kay.

Mr. Mills offered the following resolution, which was read by the Clerk and adopted:

Resolved, That Patricia Lee Kay, daughter of the Honorable Robert E. Kay of Cape May County and Eileen Hughes, daughter of the Honorable Thomas J. Hughes of Hudson County, be adopted as the daughters of the General Assembly for 1956; and Steven Knoblauch, son of the Honorable Leo N. Knoblauch of Hudson County, be adopted as the

son of the General Assembly for 1956; and Kent E. Taylor, grandson of Assemblywoman Ruby V. Perfette of Essex County, be adopted as the grandson of the General Assembly for 1956.

A message was received from the Senate by the hands of its Secretary as follows—and was read by the Clerk:

STATE OF NEW JERSEY,
SENATE CHAMBER,
January 10, 1956.

Mr. Speaker:

I am directed by the Senate to inform the General Assembly that the Senate has passed the following concurrent resolution:

Be It Resolved by the Senate of the State of New Jersey (the General Assembly concurring):

That at 1:30 P. M., both houses of the Legislature meet in joint session for the purpose of receiving the annual message of His Excellency Robert B. Meyner, Governor of the State of New Jersey, which will be delivered in person.

In which the concurrence of the General Assembly is requested.

HENRY H. PATTERSON,
Secretary of the Senate.

The Senate message was then taken up and

Mr. Mills moved that the General Assembly concur in the Senate concurrent resolution.

Which motion was adopted.

The Speaker declared the Senate concurrent resolution concurred in.

Mr. Mills offered the following resolutions, which were read by the Clerk and adopted.

Resolved, That February 21st be set as the last date for the filing of bills proposed for introduction.

Resolved, That each member and officer of this General Assembly be furnished with five hundred (500) "complimentary" slips.

Resolved, That the number of copies of the Legislative Manual apportioned by law to the General Assembly be dis-

tributed under the direction of the Clerk of the One Hundred and Eightieth General Assembly as follows:

To each member of the General Assembly, twenty (20) copies; to the Clerk, twenty (20) copies; to the Assistant Clerk, Speaker's Secretary, Clerk to the Majority Leader and Clerk to the Minority Leader, each two (2) copies; to the Journal Clerk, Sergeant-at-Arms, Supervisor of Bills, Bill Clerks, Calendar Clerk, Assistant Journal Clerk, Assistant Bill Clerk, Assistant Supervisors of Bills, Assistant Sergeants-at-Arms, Pages, Committee Clerks, Legislative Correspondents and Reporters, each one (1) copy.

Resolved, That the printer be authorized and instructed to provide supplies and services as listed herein:

1. One thousand (1,000) copies of all bills for the use of the General Assembly and for all public distribution, and seven hundred (700) copies of all official reprint bills;

2. Five hundred (500) copies of the weekly Minutes for the use of the General Assembly;

3. Mail to each member of the General Assembly, properly perforated and cut for filing, as soon as possible after they are printed, the following: One copy of each part of the Minutes of the General Assembly; one copy of each part of the Journal of the Senate; one copy of each bill and resolution;

4. Distribute on the desks of the members of the General Assembly printed copies of the Minutes of the General Assembly and the Journal of the Senate;

5. Mail to the Clerk of the General Assembly, Secretary to the Speaker, Assistant Secretary to the Speaker, Clerk to the Majority Leader, Clerk to the Minority Leader, printed copies of all bills and the Minutes of the General Assembly and Journal of the Senate, properly cut for filing;

To the Governor—10 copies.

To the Attorney-General—10 copies.

To the Law Revision and Legislative Services—15 copies.

Resolved, That no employee of the General Assembly be permitted to solicit or collect contributions for any purpose whatsoever.

Resolved, That no floorpasses to be issued by any officer or member of the General Assembly other than the Speaker, with the further provision that the privilege of the floor may be extended by a resolution duly adopted.

Resolved, That the Speaker be, and is, hereby authorized to appoint such assistants as he may deem necessary, and a clerk to each committee as recommended by the chairman of such committee, who may serve with or without compensation.

Resolved, That the working staff of the General Assembly shall at all times be subject to the direction of the Speaker and the Clerk, who shall have authority to designate to any member of the staff such duties as may be required.

Resolved, That Robert Burke be appointed as Special Bill Clerk, who shall be responsible for the distribution of printed bills and resolutions at such times as the Legislature is not in session, at the yearly compensation of four hundred dollars ($400.00), payable at such time as the other officers and employees of the General Assembly are paid.

Resolved, That in the absence of the Clerk, the Assistant Clerk shall perform all duties imposed by law and the rules of the General Assembly upon the Clerk.

Mr. Mills offered the following resolution, which was read by the Clerk and adopted:

Resolved, That copies of the Legislative Daily Record for use of the General Assembly be purchased for the session of 1956 at the cost of $450.00 for the session.

Mr. Mills offered the following resolution, which was read by the Clerk and adopted:

Resolved, That the Clerk of the General Assembly be authorized to purchase necessary equipment and supplies to be installed in the administrative offices.

Mr. Mills offered the following resolution, which was read by the Clerk and adopted:

Resolved, That the "Official Manual for Use in Drafting Legislation for Introduction in the New Jersey Legislature," prepared and published by the Law Revision and Legislative Services, be adopted as the official manual of practice and procedure of the General Assembly governing the form of bills to be introduced in the General Assembly and governing the conduct of the preliminary examination of bills proposed for introduction in the General Assembly required by the Rules of the General Assembly; and

Further Resolved, That in order to carry out said practice and procedure Charles DeF. Besore and William M. Lanning be designated as Counsel to the Committee on Revision and Amendment of the Laws of the General Assembly and that the duties of such Counsel shall be to conduct said preliminary examination of bills proposed for introduction in the General Assembly under the general supervision of the Chairman of said Committee and through the Division of Law Revision and Bill Drafting of the Law Revision and Legislative Services pursuant to law.

Mr. Mills offered the following resolution, which was read by the Clerk and adopted:

Resolved, That the Clerk of the General Assembly be authorized to prepare the index of the Minutes of the General Assembly in the same manner as for the 1955 session, and that he be paid six hundred dollars ($600.00) as compensation for his services in preparing the same.

Mr. Mills introduced the following concurrent resolution, which was read by the Clerk:

Be It Resolved by the General Assembly of the State of New Jersey (the Senate concurring):

1. That the Legislative Index be purchased for the use of the members of the Senate and the General Assembly, and for such other persons as the President of the Senate and the Speaker of the General Assembly shall designate, one copy of each issue to be mailed to the local address of each member of the Senate and the General Assembly, and to each officer or other person designated to receive the same, and in addition thereto one copy of each issue shall be delivered at the State House for each member of the Senate

and General Assembly and for each other person designated to receive the same; that the publisher of the Legislative Index shall from time to time furnish such special proofs of the Legislative Index as may be ordered by the President of the Senate or the Speaker of the General Assembly; that payment for the Legislative Index shall be at the rate of thirty dollars ($30.00) for each subscription for a period not to exceed ten weeks, and two dollars and fifty cents ($2.50) per copy furnished thereafter, bills for services received to be submitted at the end of each five weeks; and that statements of expenses for the Legislative Index and special proofs for charges to the Senate and the General Assembly be referred to the Secretary of the Senate, and to the Clerk of the General Assembly, respectively, and when approved by them said approval shall be indicated by the signature of the Secretary of the Senate for an expense of the Senate, and the Clerk of the General Assembly for an expense of the General Assembly, respectively, and said bills, when approved, shall be forwarded to the Legislative Budget and Finance Director for examination and audit, and said bills, when certified by the Legislative Budget and Finance Director, shall be forwarded to the Director of the Division of Budget and Accounting, who shall execute and deliver warrant checks in settlement thereof, and transmit the same forthwith to the State Treasurer for signature and delivery.

Mr. Mills moved that the General Assembly concur in the resolution.

The Speaker put the question, "Shall the General Assembly concur in the resolution?"

Upon a *viva voce* vote being taken, the Speaker declared the resolution adopted.

Mr. Mills introduced the following concurrent resolution, which was read by the Clerk and adopted:

A concurrent resolution to provide for subscriptions to the 1956 Current Service New Jersey Legislation with binders by the Senate and General Assembly.

Be It Resolved by the General Assembly of the State of New Jersey (the Senate concurring):

1. The Current Service New Jersey Legislation for 1956 be subscribed to, including appropriate binders for the same

in new subscriptions, for the use of the members of the Senate and General Assembly and for such officers of the Senate and General Assembly and for such other persons as the President of the Senate and the Speaker of the General Assembly shall respectively designate, the same to be mailed to the local address of each member of the Senate and General Assembly and to the local address of each such officer or other person so designated to receive the same, as shall be furnished by the President of the Senate or Speaker of the General Assembly, respectively, and that payment for each such subscription be made at the rate of thirty dollars ($30.00) and that statement of the expense for the subscriptions and binders furnished to the members and officers of, and to such other persons for the account of, the Senate or General Assembly, respectively, and that statements of expenses therefor be referred to the Secretary of the Senate, and to the Clerk of the General Assembly, respectively, and when approved by them said approval shall be indicated by the signature of the Secretary of the Senate for an expense of the Senate, and the Clerk of the General Assembly for an expense of the General Assembly, respectively, and said bills, when approved, shall be forwarded to the Legislative Budget and Finance Director for examination and audit, and said bills, when certified by the Legislative Budget and Finance Director, shall be forwarded to the Director of the Division of Budget and Accounting, who shall execute the same forthwith to the State Treasurer for signature and delivery.

Mr. Mills moved that the General Assembly concur in the resolution.

The Speaker put the question, "Shall the General Assembly concur in the resolution?"

Upon a *viva voce* vote being taken, the Speaker declared the resolution adopted.

Mr. Mills introduced the following concurrent resolution, which was read by the Clerk and adopted:

A concurrent resolution to provide for the purchase and distribution of the Revised Statutes and Cumulative Supplements to the Revised Statutes of New Jersey by the Senate and General Assembly.

Be It Resolved by the General Assembly of the State of New Jersey (the Senate concurring):

1. The following volumes shall be purchased and distributed to each member of the Senate and General Assembly such of the following as such member has not already received by distribution of the State, that is to say:

One complete set of the Revised Statutes (including volumes 4 and 5);

One volume, Revised Statutes Cumulative Supplement, 1938 to 1940;

One volume, Revised Statutes Cumulative Supplement, 1941 to 1944;

One volume, Revised Statutes Cumulative Supplement, 1945 to 1947;

One volume, Revised Statutes Cumulative Supplement, 1948 to 1950;

One volume, Revised Statutes Cumulative Supplement, 1951 and 1952;

One volume, Revised Statutes Cumulative Supplement, 1953 and 1954;

One volume, Revised Statutes Cumulative Supplement, 1955;

One Volume, Titles 2A and 3A, New Jersey Statutes as revised in 1951, including 1955 pocket part;

and that payment therefor on the basis of $15.00 per copy for each volume of the Cumulative Supplements, and $10.00 each volume of the New Jersey Statutes, for the account of, the Senate or General Assembly, respectively, and that statements of expenses therefor be referred to the Secretary of the Senate, and to the Clerk of the General Assembly, respectively, and when approved by them said approval shall be indicated by the signature of the Secretary of the Senate for an expense of the Senate, and the Clerk of the General Assembly for an expense of the General Assembly, respectively, and said bills, when approved, shall be forwarded to the Legislative Budget and Finance Director for examination and audit, and said bills, when certified by the Legislative Budget and Finance Director, shall be forwarded to

the Director of the Division of Budget and Accounting, who shall execute and deliver warrant checks in settlement thereof, and transmit the same forthwith to the State Treasurer for signature and delivery.

Mr. Mills moved that the General Assembly concur in the resolution.

The Speaker put the question, "Shall the General Assembly concur in the resolution?"

Upon a *viva voce* vote being taken, the Speaker declared the resolution adopted.

Messrs. Werner and Meloni offered the following resolution, which was read by the Clerk and adopted:

WHEREAS, Mrs. Margaret M. Hyland, the mother of our Minority Leader, is confined to Our Lady of Lourdes Hospital in Camden, and unable to attend this opening session today; now, therefore,

Be It Resolved, That the members of the General Assembly express their regrets on Mrs. Hyland's illness and their best wishes for a speedy recovery; and

Be It Further Resolved, That a copy of this resolution, signed by the Speaker and attested by the Clerk, be forwarded to Mrs. Hyland.

Mr. Mills moved that the General Assembly recess, awaiting the arrival of the Governor.

Which motion was adopted.

GOVERNOR'S MESSAGE

January 10, 1956.

Mr. President, Mr. Speaker and Members of the Senate and General Assembly:

I take pleasure in greeting the members of the 180th Legislature of New Jersey and in reporting to you, in accordance with the Constitution, the condition of the State and the measures which are deemed desirable in the year to come.

The general theme of this message is that most of the problems that confront the State are products of our growing population and expanding economy. If we were not enjoying a period of progress, we would not need — as we do — more schools, more highways, more recreational facilities and many other things, nor would we be obliged to increase our present services. Fortunately, New Jersey is not stagnating, but it is forging ahead and, in the process, it is up to you and to me to see that State Government meets the demands that come with the impact of growth and change.

What Nature Abhors

In our classic system of checks and balances, the Executive and the Legislature each acts in its own sphere, but something like anarchy would result if the spheres were to become separate vacuums. If New Jersey is to have an effective democracy, you and I must work together, putting aside selfish motives and narrow sectional considerations in the interest of the State as a whole.

Rivalry between political parties, at its best, is a sound and wholesome thing, because it is an appeal for the moral and intellectual approval of the people. But, at its worst, it descends to the frustration of the democratic process and to the denial of worthy and badly-needed measures.

In an effort to increase cooperation between the Executive and the Legislature, I established a bipartisan Conference. On the morning of every legislative day, I meet with the Senate President and the Assembly Speaker and the majority and minority leaders of the Senate and General Assembly. At these meetings, I outline the measures which in my opinion are needed, at the same time inviting the views of the conferees. I will continue to do my best to assure that these meetings are not a mere matter of form or ceremony, but that they will serve to promote a constructive exchange of ideas and to arrange for cooperative action between the two branches of government.

AN OPEN DOOR POLICY

My office door is open not only to the leaders but to any member of the Legislature who wishes to consult on State matters. And this holds true for the members of the Cabinet, division and bureau chiefs and all other State officials who have facts at their disposal of value to members of the Legislature. I am a firm believer in the sovereign quality of facts as a condition precedent to legislative action, since many of the disputes over measures arise from a lack of knowledge of the underlying problem. The facts as I have them are yours for the asking.

In my two years in office, it has been the practice of the Legislature to remain in continuous session. If this practice is to continue, I merely request that the Senate take prompt action on appointments, either in confirmation or in rejection, in order that the work of the State may proceed in an orderly manner. When an appointment collects dust in a pigeon hole, it often means that important State business is neglected for want of an official to fill the post.

In the past two years, I have vetoed measures that would have cost New Jersey millions of dollars, not only in immediate expenditure but also in annual recurring obligations. Many of these bills were of local and special nature and of no value to the State as a whole. There is no magic possible in the operation of the State Treasury. All funds come out of the taxpayer's pocket. My policy will continue

to be that bills requiring expenditure of public funds must be predicated on the availability of revenue.

A Duty Neglected

Since proper representation is at the root of the democratic process, I urge you as one of your first tasks in this session to remedy a long-neglected situation, namely, reapportionment of the Assembly in accordance with population changes. This is a task enjoined upon you by Article 4, Section 3, of the State Constitution, which provides that "apportionment of the members of the General Assembly shall be made by the Legislature at the first session following the next and every subsequent census . . ."

Though the last census was taken in 1950, five sessions of the Legislature have come and gone without action in this vital matter, in marked contrast to the historical pattern. Looking back to the middle of the nineteenth century, the Assembly was reapportioned every decade until the present one, and except in one case the Legislature acted promptly in the year after the decennial census. Reapportionment involves some painful choices and some difficult judgments. Even so, it cannot justly be longer deferred.

Similarly, it is incumbent on the Legislature to redistrict the State for congressional purposes. Though this also is a duty of the Legislature, it has not been done since 1931, a quarter of a century ago. Meanwhile, there have been wide population shifts, with the result that many of our sections are either over-represented or under-represented in Congress.

The Incredible Seventh

One of the districts—the Seventh—is a graphic example of the gerrymander, that type of districting designed to keep an individual or a party in office without regard for the basic needs of the constituents. This district begins north of Trenton, comprises all of Hunterdon, all of Warren, all of Sussex, and parts of Passaic and Bergen. It starts on the Delaware and ends up in dog-leg fashion on the banks of the Hackensack.

I hope that the 180th Legislature will make itself memorable by Assembly reapportionment and congressional redistricting in accordance with the basic philosophy of American democracy.

While the voting machine system is now established in twelve of our counties, nine are still using the old-fashioned paper ballots. I continue to favor legislation to make the use of voting machines mandatory in all counties as the most accurate, quickest, most convenient and most trusted of all voting methods. The initial cost of the machines is made up in time by economies in the voting process.

The Liabilities of Progress

We have at this time an increasing and highly mobile population, industrial and residential growth, a minimum of unemployment, large cash incomes and heavy spending.

As I have said, to a large extent the State's problems arise out of these very conditions. When population grows, more schools are needed for the young and more care for the old. When industries and residential areas expand, and when income is high, more cars and trucks congest our highways. The assets of progress are always accompanied by certain liabilities.

The State Highway Problem

Each year the highway needs of New Jersey grow more critical; indeed, in some sections, we are approaching strangulation. Last year 140,000 new registrations played a part in adding one billion miles of motor vehicle travel within the State—and that figure does not include our expanding interstate traffic. Many of our State highways are already burdened with more than twice their designed capacity.

The Cost

It will cost some two billion dollars, over a ten-year period, to modernize our State highway system, as estimated by the State Highway Department. It will take $600,000,000 to improve the existing interstate system; $300,000,000 for new interstate routes; and more than one billion for new State roads and improvement of existing

roads not in the interstate system. In this estimate, provision is made for freeways—that up-to-date form of limited access thoroughfare so vital to the convenience and economic health of our urban areas.

What We Are Spending Now

Against this two-billion-dollar requirement, we will spend only $34,000,000 on construction during the current fiscal year, and of this $12,500,000 represents federal aid. The State is entitled to an additional $14,000,000 in Federal aid for which no State matching funds have been made available. It is apparent that no real relief of our traffic-choked system is possible unless additional funds are made available.

In the last session of Congress, there was much debate over various proposals for a major national attack upon the nation's traffic congestion. Congress was unable to agree last year on a national highway measure, but the issue is certain to be given due consideration during the 1956 session of Congress. Unless Federal assistance in generous degree is forthcoming, some means must be found to provide needed funds at the state level, perhaps in the form of a bond issue.

Contributions to Safety

Meanwhile, our Highway Department is stretching the construction dollar to the utmost in its effort to provide new roads, as well as to improve existing roads.

It is making contributions to safety by the erection of center island barriers, building creeper lanes for trucks and painting white strips on the outer edges of pavements. These innovations, we believe, have already paid dividends in accident prevention. New life is being breathed into the highway system by dualizing existing two-lane and three-lane roads; construction of more overpasses; closing islands; removal of thousands of encroachments; banking of curves; designating speed and no-passing zones; improving road signs; and other changes.

Where Grass Does Not Grow

I think we should approach our highway problem not in a sense of dismay over its cost but in gratitude for the progress which has created it, and in the sense of the old chestnut that grass does not grow on a busy street. Our job is to adapt the highway system to the affluence that has permitted so many more people to own cars and that has created the vast new commerce by truck and trailer. It is a liability of expansion. And that theme, in a far deeper and more meaningful sense, may be applied to our educational needs.

Our Needs in Education

Last year, in Harper's Magazine, Peter F. Drucker made this striking statement: "The most important economic event of 1954 went almost unreported in the newspapers. It was the announcement that 4,060,000 babies had been born in this country during the past year — the largest baby crop ever." This figure will be approximated, if not exceeded, for 1955. The baby boom is no new thing. It has been going on since the Second World War, and it means, according to the Census Bureau, that this country, with a present population of about 166,000,000 will increase to 190,000,000 by 1965 and 207,000,000 by 1975.

The increased birth rate has already affected New Jersey schools, and will continue to do so for years to come. It is welcomed as a new mark of national strength and as a source of increased wealth. Since the beginning of the school year 1952-53, enrollments have increased by more than 112,000. It has been necessary to add nearly 5,000 to the teaching staff and in the past two years the citizens of the local school districts have approved the expenditure of $131,000,000 for capital purposes — a sum, as it happens, greater than the total of all such expenditures for the entire decade 1940 to 1950. It is estimated that an additional $100,000,000 will be approved by local districts for school construction during the present school year.

New State Aid

As we all know, and as the State Government has already recognized, the burden of increased educational costs upon local districts has become most difficult. That is why the new State Aid Formula went into effect this current school year, by which $63,500,000 in State funds was distributed to the schools. This is more than twice the sum distributed during the last year of operation under the old formulas. And, as a footnote, about $1 of every $3 collected in taxes by the State goes for educational purposes of all types.

Construction Needs

But the flood tide of needs continues to pour in upon us. In spite of the large sums recently spent for school construction, more than 50,000 pupils are on a part-time basis or are housed in temporary or substandard quarters, while many classes are too large. And these conditions will increase in intensity as time goes on. It was this subject which inspired the eighth report of the State Tax Policy Commission, submitted to the Governor and the Legislature in May, 1955.

After an awesome array of facts and figures about school needs and growing school populations, the Commission proposed a school construction aid program. Estimates have been made that the cost to the State could run as high as $15,000,000 for the first year, and increased amounts thereafter as the school population increases. The commission said that adoption of the program will require additional revenue, but it did not recommend a means for raising it. No action has as yet been taken by the Legislature on the proposal of the State Tax Policy Commission, but it continues to hold a high claim on your deliberations.

At the Upper Level

Many of the boys and girls who yesterday, so to speak, entered the elementary and secondary schools in such phenomenal numbers, tomorrow will be seeking admission to colleges.

New Jersey presently sends more than half of its college-bound youth out of the State. Already, institutions in other States, faced with the on-coming wave of applicants for admission, are beginning to sound warnings that future limits will be set on the numbers from New Jersey who can be accommodated.

The State Board of Education has authorized an extensive investigation in this area and, by June, expects to publish a study which will give us some idea of the problem we shall have to face in higher education.

The Board of Trustees of Rutgers has drawn a plan for reorganization of the State University which will doubtless be submitted to you at this session.

As in the case of the highways, the Federal Government last year gave some evidence of awareness of its responsibilities in the field of education. The concrete measure offered by the administration, however, fell so far short of the nation's needs that it gathered little support either in Congress or from the States. It would have benefited New Jersey not at all. But the impetus for Federal aid without impairing State and local control of schools will continue to grow. It was the overwhelming decision of the recent White House Conference on Education in Washington, attended by citizen delegates from all the States, that Federal aid should be granted for school construction.

But Federal aid or no Federal aid, New Jersey cannot shirk what is at once its duty and its opportunity to provide adequately for its children's education. They are the State's true wealth — its greatest resource — whether estimated in sentimental and spiritual values or in stark economic terms as the producers and consumers of tomorrow. Education is the life blood of democracy.

Water Is Still a Problem

In turning to the subject of water, here again is a need brought about by an expanding economy, for if the State were not growing in population and industrially, we would not be too concerned about the assurance of future water supply. Last November, the people rejected at the polls the

proposal of a $100,000,000 bond issue to build a reservoir at Chimney Rock in Somerset County and to provide water storage elsewhere in the State, particularly in South Jersey.

The people's verdict was not against the solution of the water problem. It only ruled out Chimney Rock as a site. The lesson to be learned from the Chimney Rock proposal is that there are human values involved in setting aside land for water storage that cannot be calculated by the slide rule or the mathematics of an engineer. And, while any site that is eventually chosen is bound to affect the lives of some people, the cost in those terms should be fully considered.

A Fresh Approach

It is up to you, the Legislature, and to me, the Governor, to make a new approach to the water problem and to find a solution which will be acceptable to the people. If I may state the situation again in simple terms, it is that New Jersey, with an average rainfall of about 45 inches a year, receives all the water it needs; the only question is storage that it may be used as required. We have the resources. We need only to store them.

It is my conviction that the State should acquire sites for storage of water before development makes their acquisition prohibitive.

If anything were needed to dramatize the situation, it was last year's weather performance. After a protracted drought in the first part of the year, reaching serious proportions in July, we were visited in a little over two months by a series of four floods. One of these was by far the most damaging in the State's history. These floods and the series of droughts since 1949 have proved that the storage of water is essential to the welfare and safety of our people.

Tragedy of Flood Losses

Although insurance of all kinds is almost a fetish with the American people, last year's floods again highlighted a serious hiatus in the insurance picture. Thousands of people suffered tragic losses of property for which there was no possibility of recovery. In many cases, homes were

lost on which mortages must still be paid. I suggested then, and I repeat, that if the private insurance companies cannot work out a plan to indemnify citizens against flood losses, the Federal Government should devise means to do so.

I suggest, too, that the U. S. Weather Bureau should cooperate more closely with state agencies to release flood warnings to the public and to all disaster relief officials.

A study is in the process by the Department of Conservation and Economic Development to determine whether municipalities should be authorized to mark flood areas and to establish a system of flood zoning, so as to discourage building and development in areas subject to overflow.

HOUSING NEEDS

A report released by the Department of Conservation and Economic Development last month revealed a shortage of housing for certain income groups. There are in the State more than 108,000 substandard dwelling units, a term that means a house lacks toilet or bath or has no piped running water. This is a reminder that the slums are still with us, with their festering sores of misery, crime and deliquency. The report estimated that 120,000 dwellings are needed for families of moderate income.

At the close of the last session, I signed into law a resolution to create a special study group to investigate the problem of middle income housing. It is my hope that the special study group will take advantage of the work done by the Department of Conservation and Economic Development and its advisory committee, so that needed legislation can be expedited.

IMPACT OF GROWTH

The face of New Jersey continues to change rapidly with new construction and development everywhere. Outward-thrusting communities, new areas of industrial and commercial enterprise testify to the State's vitality and growth. There are only three States smaller in area than New Jersey, but we rank eighth in population, sixth in per capita income and seventh in manufacturing production. Our

11,000 industrial firms have an annual output valued at five billion dollars. The year 1955 saw much new industry of diversified nature enter the State.

Under the impact of this growth, new problems arise as older formulas for meeting the needs become inadequate, if not obsolete. The need for intelligent planning becomes more and more urgent in order to make full use of our physical resources, to maintain a strong base for our economy and to fulfill demands for housing, education, transportation and recreation.

Need for Planning

The proper use of land cannot be taken for granted and we have revitalized our state planning agency to take a fresh look at this aspect of the State's welfare. The lack of proper planning underlines many of the difficulties encountered in the expansion of our towns and cities. By participating in the Federal program of urban planning assistance, the State will be able for the first time to give technical aid to communities struggling to lay the groundwork for orderly development. The new emphasis on state planning also holds the promise of more efficient use of available physical assets in the operation of State Government.

The State has recently acquired three valuable areas: Island Beach, the Worthington Tract and the Wharton Tract. All of them possess immense possibilities for the health and welfare of the State. It seems to me, what with these new areas plus our system of parks and forests, we should now be concentrating on the development stage. A statement of policy is needed from the Legislature as to the uses to be made of our lands for recreation and other purposes in this most highly urbanized State of the Union.

State Employees

During the past year, I asked several members of my Cabinet to form a Personnel Committee to study the conditions of state employment as compared to employment in similar positions in private business and other organizations. Based on this study, as well as a recognition of

specific needs indicated by our experiences in State Government, I will make specific recommendations in my forthcoming Budget Message.

State Office Buildings

I have repeatedly called attention to the need of more space for State offices. You need only to make a tour of Trenton to find out how badly we are crowded and in how many different and inconvenient places the State's functions are discharged. Some of the quarters would be condemned by our own inspectors if they followed the rules applicable to private buildings. And we are paying more than $1,000,000 in rent in the Trenton area. I have suggested a number of buildings to remedy the condition, but another proposal is for a multi-storied type of building on the State House grounds.

While I have no pride of opinion as to the course to be taken, I think we should be careful to choose the right one. A multi-storied building on West State Street would create difficult traffic and parking problems. As for a building for the Department of Labor and Industry, funds for such a building are already available from fines and penalties under the Unemployment Compensation Act. I am sure the Federal Government, which has a stake in these funds, would contribute liberally to a separate building for the Department, making payments in lieu of rent. I do not know what financial responsibility Washington would assume if the department were housed in a general office building. A relevant factor, also, is the position that Federal defense officials have taken with respect to encouraging dispersal and decentralization policies in urban areas.

To help me in arriving at my own ultimate decision, I have asked some experts in private business, who have had much experience in constructing office buildings, to advise me of their conclusions on cost and location. This information will be made available to the Legislature when it is forthcoming.

THE NEED FOR A POLICE TRAINING PROGRAM

It seems to me unsound to give a man a badge, a club and a gun and send him out for police duty unless he is properly screened and trained.

With increasing population in New Jersey, the burden on local law enforcement officers continues to mount. Modern conditions of travel and improvement in methods of criminal detection make the task of local officers far more complicated than it used to be. Today a criminal can traverse the State from north to south within three hours and from east to west in one hour.

The job of police officer has lost its traditional concept of being local in nature. I recommend that we inaugurate a police training program, similar in nature to that already employed by the State Police and various local training programs, to apply to all municipalities. Such a program would require a potential police officer to receive a thorough course with academic subjects, clinical experience and physical training.

Aside from the State Police Academy, the Newark Police Academy has maintained a fine standard of compulsory training; in Union County, the Chiefs of Police Training Association since 1947 has offered training courses to county agencies; the South Jersey Suburban Police Association, established in 1927, has conducted a series of training courses; the City of Jersey City has a police training school.

What I am proposing is that a movement which has already gained headway and public acceptance be broadened so that all police officers be properly trained before they assume their duties or after they have been appointed for a probationary period and before their appointment becomes permanent. A recent survey shows much sentiment for this action. Of 512 inquiries, 392 were answered. Of these, 128 municipalities said they were participating in a voluntary program, or had too small a staff for training. Two replied that compulsory training was in force. The remaining 262 municipalities replied they would welcome training.

The legislation I request would not be designed to infringe upon local control but is advocated solely to aid the municipality in improving its service to our citizens.

Crime Reporting

I should like to repeat a recommendation made in my first annual message for an adequate system of crime reporting. Intelligent law enforcement requires an ability to review accurately past and present criminal experience so that, at any given time, law officers may measure the results of their efforts. I hope you will establish an adequate system of compulsory crime reporting centering in the State Police.

Statute Revision

There has been no over-all revision of the statutes of New Jersey since 1937, and even in that year much of the work consisted of compilation, rather than thoroughgoing revision. At the time, it was contemplated that the laws would be subjected to a continuing course of revision, year by year, but that expectation has not been fulfilled.

Since 1937, many amendments and exceptions have been made in the laws, which have come to represent a jungle growth rather than an orderly development. As a result, it is often very hard to find out what the law actually is in many areas. A lawyer almost has to be a soothsayer to supply answers to his clients and to prepare his cases.

Among the sections most glaringly in need of revision are Title 40, covering counties and municipalities, and Title 19, covering election laws, though there are many others also in need of attention. A study is being made of Title 19, but no final results have been announced. The Governor and the Legislature should work together to bring about revision of our statutes.

Apart from the difficulties encountered by lawyers and judges, it is easier for laws to be obeyed when their intentions are clear. Evasion and violation are most likely to occur when doubt exists.

We also need an administrative procedures act. It should provide for prompt publication of rules and regulations,

and provide minimum requirements of fairness in the conduct of hearings by State agencies. The Constitution states: "No rule or regulation made by any department . . . shall take effect until it is filed with the Secretary of State . . . The Legislature shall provide for the prompt publication of such rules and regulations." We should proceed to carry out the provisions of the Constitution.

Rapid Transit in Our Metropolitan Areas

A reconstituted Metropolitan Rapid Transit Commission, financed by an $800,000 grant from the Port of New York Authority, is conducting public hearings and making a comprehensive study of traffic conditions in the New York-New Jersey metropolitan area. Its report, I am sure, will give us a fresh look at the intricate problems surrounding rapid transit in that area, and its finding should likewise prove of value in the Camden-Philadelphia area of South Jersey. The railroads claim that competitive transportation conditions compel them to carry commuters at a loss, yet it is perfectly clear that rail, as well as highway transportation, is needed to carry vast numbers of commuters back and forth. Out of the Commission's study should come clear answers to many of the hard questions involved.

The Port of New York Authority Program

You have before you for action legislation authorizing a gigantic construction program to be undertaken by the Port of New York Authority, including the double-decking of George Washington Bridge, and Construction of the Narrows Bridge across New York Bay. Almost a year ago, the New York Legislature approved this program, but it still awaits action by New Jersey. I need hardly describe the benefits that will accrue to the whole metropolitan region from this program, nor do I need to labor the desirability of your prompt action.

THE PROBLEMS OF OLD AGE

The lengthening life-span plus the increasing prevalence of public and private pension plans present the nation with a set of problems concerned with making old age pleasant and useful. Numerous organizations are making studies of these problems. The Legislature has established the New Jersey State Old Age Study Commission, which no doubt will make valuable recommendations. The Council of State Governments has issued a most interesting report. There is a veritable ferment of ideas on the subject from one end of the country to the other.

There are in New Jersey some 450,000 persons over 65, comprising nearly a tenth of our entire population. Since economic factors bulk large in any consideration of old age, it is important to point out that 200,000 are receiving private pensions, are self-supporting or are being cared for by their families; some 225,000 are receiving Federal Old Age and Survivors Insurance; only 20,000 are receiving State Old Age Assistance.

A good many old people are committed to State hospitals on the grounds of senility, and I am afraid that some of them are the victims of family neglect and do not belong in institutions. The commitment procedure should be re-examined.

Medical care, of course, is an urgent need of the old and the New Jersey Welfare Council deserves praise for its study of this aspect. The Council asks for the creation of a State commission to consider how to make adequate medical care available on a State-wide basis.

There are many ways in which the State, working cooperatively with private groups, can stimulate interest in life for the aged. For one thing, meeting places can be provided in schools, churches and other structures unused in the evenings. Adult education programs can be enlarged and geared to the needs and desires of the aged. Private business, which in some cases has done a great deal for the physically handicapped, might discover new types of employment which could capitalize on the skill and wisdom of

older people. Facilities in our parks and forests should be increased to provide wholesome outdoor recreation.

Mental Health

I can report to you substantial progress in our fresh attack on mental disease.

With additional staff and with increased use of the so-called wonder drugs, we have intensified our treatment programs. Approximately 3,600 patients have been receiving the new forms of treatment. About 45 per cent of these patients, many of whom seemed destined to remain for long years in our institutions, have been able to leave. The relief of human suffering and the financial saving justify continued efforts.

During the coming year we shall complete the conversion of the Bordentown plant to its new use as a research and training center for the mentally retarded. This will substantially reduce the waiting list and should begin to find new answers to the many unknowns in this important field.

Agriculture

Agriculture remains an important segment of our economy despite the expansion of industry and housing developments in our rural areas.

Improved methods of production and marketing, programs for eliminating infectious plant and animal diseases and harmful insect pests, an adequate milk marketing order, planning for agriculture in terms of our State economy are all the proper concern of our framers and the Agricultural Department. Legislative measures will be submitted to you as the need arises.

Labor and Industry

During the past year labor and industry have shown continued capacity for adjusting differences and reaching agreements with a minimum of disturbance of operations. Generally, the scene has been peaceful and gratifying.

To assist in the maintenance of industrial activity, we should have a State labor relations act. The National Labor Relations Board is increasingly divesting itself of jurisdiction, and this circumstance underscores the necessity for State legislation which will provide adequate means for resolving disputes involving representation and unfair labor practices at the intra-state level.

I again urge that there be adopted a realistic minimum wage law of universal application to all employees in this State who are not subject to federal law. Presently our statute merely authorizes administrative determinations with respect to women and children in specific industries. At its last session, Congress adopted a bill fixing a minimum wage of $1.00 per hour applicable to all employees engaged in interstate commerce. We should not further delay an appropriate State-wide minimum wage.

At the last session, the Legislature increased unemployment compensation and temporary disability benefits from $30.00 to $35.00 per week. That unquestionably was a step in the right direction, but recent studies indicate that the $35.00 figure is inadequate to meet the minimum needs of the unemployed. I urge further study and consideration to the end that a more realistic rate will be adopted.

And since the need of the individual and the public interest in his plight are in no sense related to the number of employees within an establishment, the coverage of these laws should be extended to embrace one or more employees.

So also our existing rates with respect to workmen's compensation benefits are out of line with the needs of an injured employee. There should be a review of the benefit schedules and an appropriate increase in the weekly benefit.

Tax Equalization

There has been progress in the use of equalized real property valuations for apportionment purposes. In 1955, for the first time, the costs of county government were apportioned in five counties after equalization of real property values on substantially a full-true-value basis. State-

wide equalization at the county level is expected in 1956 so that the apportionment of the costs of operating county government, now in excess of $95 million annually, will be made on equalized valuations. However, the operating costs of regional, consolidated and joint school districts are not being apportioned on the basis of equalized valuations. I recommend the enactment of legislation specifically providing that the county boards of taxation shall make such apportionment of these costs.

The 1947 Constitution of New Jersey provides that all real property assessed and taxed locally or by the State for allotment to the taxing districts shall be assessed according to the same standard of value and taxed at the general tax rate of the district in which situated. Existing legislation prescribes full true value as the standard for assessment purposes. There is great lack of uniformity in the assessment of such property, resulting in gross inequities in the distribution of the local tax burden. Such property is not uniformly assessed at either full true value or a fixed percentage of true value. Since local property taxes in New Jersey have now passed the half billion dollar mark, it is of utmost importance that this heavy burden be apportioned as equitably as possible. Existing law imposing a duty upon the Division of Taxation to require revaluation of the real property of a taxing district where inequities exist is thought to be vague. I recommend legislation clarifying the procedure in such cases and at the same time authorizing municipalities undergoing revaluation to meet the cost by emergency financing, spread over a five-year period. The legislative needs in this regard should be carefully studied.

Existing laws relating to the taxation of tangible personal property (inventories, machinery, equipment and household goods) are inappropriate under current economic conditions, for the purpose of fairly apportioning the local tax burden. I believe it desirable that the Legislature carefully study this problem in the hope that more suitable legislation for the taxation of this class of property may be devised.

CONCLUSION

I have confined my remarks to the most pressing problems. There are other important matters about which I shall communicate to you or your leadership from time to time.

You will have my full co-operation, as I have given it during my two years in office. The Legislative and Executive branches can make 1956 a notable year in the history of the State of New Jersey.

ROBERT B. MEYNER,
Governor.

Was read for the first time by its title, and given no reference.

Messrs. Beadleston and Barkalow offered the following resolution, which was read by the Clerk and adopted:

Resolved, That the Supervisor of Bills be directed to order a further printing, to be designated "corrected copy", of Assembly Bill No. 8 with a statement, copy of which is appended hereto, annexed thereto.

STATEMENT

This bill provides for automatic reapportionment of the membership of the General Assembly following each decennial census.

The Method of Equal Proportions is that method of apportionment of membership of legislative bodies developed by Edward V. Huntington, and explained and illustrated by him in an article entitled "Methods of Apportionment in Congress—A Survey of Methods of Apportionment in Congress," U. S. Senate document 304, 3rd session, 76th Congress, published by the United States Government Printing Office, 1940. An explanation and application of the method to the New Jersey General Assembly is also contained in Appendix B (pages 11-15) of "Legislative Apportionment in New Jersey," published in 1952 by the Bureau of Government Research of Rutgers University, The State University of New Jersey.

The following represents an interpretation of the Huntington process of computation, as the same would be applied in apportioning the membership of the General Assembly among the several counties:

Process of Computation: Method of Equal Proportions.

(1) First, assign one member to each county (21 in number).

(2) Next, multiply the population of each county by a series of multipliers taken from the table. (The number of multipliers used for each county should be somewhat greater than the number of members expected to be assigned to that county.)

(3) Next, arrange the resulting products in order of magnitude, beginning with the largest, to form what is known as a priority list, which indicates the order in which members in excess of 21 shall be given out to the several Counties.

(4) Members are then assigned in that order, until the required total number (60) has given out.

TABLE OF MULTIPLIERS: METHOD OF EQUAL PROPORTIONS

k	Multiplier	k	Multiplier
2	0.7071 0678	14	0.0741 2493

Mr. Silver offered the following resolution, which was read by the Clerk and adopted:

Resolved, That the Rules of the General Assembly of the 1955 Session be adopted as the Rules of the General Assembly for 1956 Session with the following amendments and additions:

Amend Rule No. 12 to read as follows:

12. The Clerk shall keep a calendar of all bills, joint resolutions and concurrent resolutions which are printed, which shall be the official record of the status of each bill and joint resolution. The Speaker shall from day to day

prepare a calendar of bills and resolutions for consideration. All bills, public and private, joint resolutions and concurrent resolutions which are to be printed shall be numbered according to the time of their receipt by the Secretary to the Speaker. The Clerk shall post in a conspicuous place in his office a list of all hearings to be held on bills.

Amend Rule No. 34 to read as follows:

34. The following Standing Committees, Administrative Committees and Joint Committees shall be appointed at the commencement of each annual session, and shall serve for the entire legislative year, unless otherwise ordered, that is to say:

GENERAL ASSEMBLY STANDING COMMITTEES

Agriculture, Conservation and Economic Development Committee.

Appropriations Committee.

Business Affairs Committee.

Education Committee.

Federal and Interstate Relations Committee.

Highways, Transportation and Public Utilities Committee.

Institutions, Public Health and Welfare Committee.

Judiciary Committee.

Labor and Industrial Relations Committee.

Public Safety, Defense and Veterans Affairs Committee.

Revision and Amendment of Laws Committee.

State, County and Municipal Government Committee.

GENERAL ASSEMBLY ADMINISTRATIVE COMMITTEES

Introduction of Bills Committee.

Printed Bills Committee.

Rules and Order Committee.

Ways and Means Committee.

GENERAL ASSEMBLY JOINT COMMITTEES

Financial Reports Committee.

Passed Bills Committee.

Printing Committee.

State Library Committee.

Amend Rule No. 41 to read as follows:

41. Each bill, joint resolution and concurrent resolution shall be proposed for introduction in the General Assembly by presenting it to the Secretary of the Speaker, in quadruplicate, endorsed with the signature of the member offering the same. The Secretary to the Speaker shall number all bills and resolutions as they are presented and make a list of them. After numbering and listing each bill and resolution, he shall make available one copy to the legislative correspondents and shall deliver the original and two copies to the Committee on Revision and Amendment of the Laws for examination as to form. After such examination and when it shall be indicated on the bill or resolution that it has been released, the said committee shall return the original and one copy of said bill or resolution to the Secretary of the Speaker, retaining one copy for the files of the Law Revision and Legislative Services Commission. Thereupon the Speaker shall endorse upon the original the committee to which it is to be referred and deliver it, with the copy returned to him, to the Clerk. At each session of the General Assembly, the Clerk shall read the number, title and committee reference of each bill and resolution delivered to him by the Speaker, which shall be taken as the introduction and first reading of the bill or resolution. Said bill or resolution shall then be released for printing, except that the Speaker may order otherwise as to General Assembly Resolutions and Concurrent Resolutions not provided by these rules to be printed.

Amend Rule No. 49 to read as follows:

49. Original bills and joint resolutions, after being printed, shall be delivered by the said Supervisor of Bills to the chairman of the committee to which each joint bill or resolution has been referred. If any bill or joint resolution

has not been referred to a committee, then such bill or joint resolution, after being printed, shall be delivered by the Supervisor of Bills to the Clerk.

Amend Rule No. 61 to read as follows:

61. When an Assembly bill or joint resolution is returned amended by the Senate, the message or report thereof by the Secretary of the Senate shall be taken as its first reading and the same shall be entitled to second reading, without a motion for that purpose; after its second reading the question shall be, "Shall the Senate amendments to Assembly bill or joint resolution No. ... have a third reading?" If ordered to a third reading, the amendments shall be read, but no such amendment shall have a third reading until after the intervention of one full calendar day following the day of its second reading unless the General Assembly shall resolve by the vote of three-fourths of all of its members, signified by yeas and nays entered on the Journal that the bill or joint resolution is an emergency measure, in which case the amendment may proceed forthwith from second to third reading; the question shall then be "Will the General Assembly concur in the Senate amendments to Assembly bill or joint resolution No. ...?" Upon which question the vote shall be by yeas and nays entered on the Journal. If concurred in by a majority of the whole General Assembly, the bill shall be reprinted, the amendments embodied therein and the reprinted bill, after examination and report upon by the Committee on Printed Bills, shall be signed and certified as other bills.

Amend Rule No. 62 to read as follows:

62. Cushing's Manual and Cushing's Law and Practice of Legislative Assemblies shall in all cases, when not in conflict with the rules adopted by the General Assembly, be considered and held as standard authority.

Amend Rule No. 70 to read as follows:

70. At each session of the General Assembly, officers, attaches and employees shall appear at the office of the Clerk of the General Assembly and there sign the roll call, and the Clerk of the General Assembly shall keep each such roll call on file. Any employee who is absent more than three sessions, without being excused therefrom by the Speaker, is automatically stricken from the list of employees.

Amend Rule No. 72 to read as follows:

72. The introducer of a bill or joint resolution may annex thereto a brief statement explaining the object of the bill and the localities or persons the bill will affect, which statement shall contain no more than four hundred and fifty words and shall be printed at the end of the bill under the caption "Statement."

Amend Rule No. 85 to read as follows:

85. If such a concurrent resolution which shall have been passed by the General Assembly shall be returned from the Senate with a certificate reciting that printed copies of said concurrent resolution in the form in which it was passed by the Senate, were placed upon the desks of the members of the Senate, in open meeting, with the date thereof, that said concurrent resolution has been read three times in the Senate with the dates of the readings thereof and that the same was passed by the Senate upon its third reading, together with the number of votes cast for and against the passage thereof, signed by the Secretary and President of the Senate, annexed thereto, the same shall be received by the General Assembly in open meeting and shall be transmitted by the Clerk to the Secretary of State with the certificates annexed thereto, to be proceeded upon as prescribed by the Constitution and as may be provided by the Legislature.

Mr. Gant offered the following resolution, which was read by the Clerk and adopted:

Resolved, That the Supervisor of Bills be directed to order a further printing, to be designated "corrected copy," of Assembly Concurrent Resolution No. 5 with a statement, copy of which is appended hereto, annexed thereto.

STATEMENT

This constitutional amendment provides for automatic reapportionment of the membership of the General Assembly following each decennial census.

The method of equal proportions is that method of apportionment of membership of legislative bodies developed by Edward V. Huntington, and explained and illustrated by him in an article entitled "Methods of Apportionment in

Congress—A Survey of Methods of Apportionment in Congress," U. S. Senate document 304, 3rd session, 76th Congress, published by the United States Government Printing Office, 1940. An explanation and application of the method to the New Jersey General Assembly is also contained in Appendix B (pages 11-15) of "Legislative Apportionment in New Jersey," published in 1952 by the Bureau of Government Research of Rutgers University, the State University of New Jersey.

The following represents an interpolation of the Huntington process of computation, as the same would be applied in apportioning the membership of the General Assembly among the several counties:

Process of Computation: Method of Equal Proportions.

(1) First, assign 1 member to each county (21 in number).

(2) Next, multiply the population of each county by a series of multipliers taken from the table. (The number of multipliers used for each county should be somewhat greater than the number of members expected to be assigned to that county.)

(3) Next, arrange the resulting products in order of magnitude, beginning with the largest, to form what is known as a priority list, which indicates the order in which members in excess of 21 shall be given out to the several counties.

(4) Members are then assigned in that order, until the required total number (60) has been given out.

TABLE OF MULTIPLIERS: METHOD OF EQUAL PROPORTIONS

Which motion was adopted.

BUDGET MESSAGE

To the Members of the Senate and General Assembly:

This, my third Budget Message to you, presents the fiscal plan for the State for 1956-57. It is geared toward meeting the problems presented to you in my annual message delivered on January 10th. Obviously, with a limited revenue structure, it is not possible to move forward at as rapid a pace as many citizens demand. However, we have balanced this Budget; we will require no new taxes; we will continue our present vital services unabated, and in a few instances, will effect a moderate expansion of them.

Our Fiscal Picture in a Nutshell

After the passage of last year's appropriations bill, we reserved approximately $20,700,000 in surplus for use in balancing subsequent Budgets. The recent devastating floods; the need for Salk vaccine; and the capital requirement to prepare the Bordentown School for use as an institution for the mentally retarded, cut this surplus by $7,700,000, reducing it to $13,000,000. This sum when added to unexpected revenue earnings through next June 30th, including lapses from current appropriations, should produce in our treasury a total sum of $32,928,363 by the end of the current fiscal year. To this surplus can be added anticipated revenues in 1956-57 of $289,539,409, making resources available of $322,467,772. Out of this sum, I am recommending appropriations of $318,765,631, leaving a surplus on June 30, 1957, of $3,702,141.

Departmental Requests

Total requests made by various agencies totaled more than a half billion dollars. A large part of these requests—$196,420,000, were for capital improvements, and the balance—$306,318,000, were for General State Purposes and State Aid Programs. The funds recommended were necessarily allotted, in the main, for recurring costs including State Aid. Funds granted for capital

improvements were for those of the highest priority. Among these was the annual appropriation for the State's share of sorely needed highway improvements.

Of the total requests, $184,057,095 was either disallowed or deferred for future consideration.

The Program in Broad Outline

Of the total sum recommended, $3,313,500 represents deficiencies for either 1955 or 1956, and the balance, or $315,452,000 will provide for our needs in 1956-57. This sum is about $28,800,000 higher than funds appropriated in 1955-56. This increase includes $11,650,000 for improving our employees' salaries and related benefits; $7,800,000 for educational purposes; $4,900,000 for mental health and welfare; and $4,400,000 for other vital needs.

The State as an Employer

The quality and the efficiency of our State Government is to a large extent dependent upon the calibre and the devotion of our 24,000 State employees. If we are to perform the services at a high level, we must be able to recruit and retain qualified men and women. To that end, the State Government must be ever alert to see that it is competing favorably for the best talents. The level of pay and the other benefits of employment must be adjusted to the needs of changing times.

Since early last summer, I have had a special committee of the cabinet working on an intensive review of our personnel situation. It has studied salaries and fringe benefits of other public employers, and it has had the co-operation of 45 major New Jersey business and industrial enterprises which have shared confidential information concerning their practices.

The cabinet committee recognized that, with the exception of regular annual increments within established ranges and a selective revision on a modest basis in 1954, there has not been for some time a major adjustment in our level of compensation. Accordingly, in addition to the $2,032,096 required for normal increments, the committee has recommended that all salary ranges, and hence the salary of each employee whose job is allocated to a

position carrying a range, be adjusted upward by one increment step at minimum and at maximum. This general adjustment will cost $3,750,000. An additional $100,000 is required for adjustments for employees in positions which carry no salary range.

Selective Range Revision

The committee has recommended and I have included in this request an additional sum of $2,230,000 to accomplish further upward range revision on a selective basis to help solve some of our more pressing problems. To the extent that there may be savings through replacements at entrance levels, we shall be able to provide additional funds to supplement the requested item for selective salary range revision, which we have computed on a net cost basis.

For some time the State has been losing ground in the competition for college-trained men and women at the entrance level in several fields. Recent college graduates have been employed at salaries of $4,000 per annum and in some cases even more than that. The State of New Jersey, meanwhile, has been trying to obtain trained social workers at $3,120, foresters, engineers, accountants and many other professionals for salaries at or near this level. The committee has proposed a starting salary for these jobs at or near the $4,000 level so that we may be in a position to attract new career people. At the same time it has taken into account the necessary related adjustments that must be made to maintain an equitable relationship between the various grades. We must also insure that older employees are properly compensated for their years of service and their supervisory responsibility.

Highway Laborers

The selective changes also will apply to our laborers, the largest number of whom are involved in the maintenance of our State highway system. In fairness to these employees and in order to recruit on a competitive basis, $432,000 of this selective adjustment total will be required in the Highway Department for the laborers and related supervisory personnel.

Our State service has undergone a great deal of mechanization in connection with its large-volume clerical operations. Our new

motor vehicle licensing and registration system, the payment of unemployment and disability benefits, the payroll and pension systems, among others, are now large users of modern business machines. A portion of the selective range revision is set aside for improving the State's competitive position in this important field.

To Attract and Hold Good Personnel

The State, particularly in our institutions and in our highway program, requires the skills of men in the various trades and crafts. While our arrangement for annual salaries makes for a more certain annual income than is sometimes the case in private employment, our level of pay needs upward adjustment if we are to attract and hold good men who will protect the State's capital investment.

Our expanded mental health program depends to a large degree on increased personnel in many of the skills related to this important area of our concern. Adjustment in these salaries is contemplated.

The selective range revision will also cover a number of other categories where inequities have developed or where we must act to retain key personnel in the best interest of the State.

As a major employer in New Jersey, we must also be concerned that our minimum level of pay is sufficient to maintain a decent standard.

Hospitalization and Medical-Surgical Plan

In our studies of personnel practices of New Jersey business and industry, we are forced to the conclusion that while the State once held rather substantial leadership with respect to fringe benefits, we have lagged in recent years. In one area particularly—provision for hospitalization and medical-surgical services for employees—many private employers have recognized the importance of providing this measure of security for their workers. We are, therefore, recommending a sum of $900,000 which will provide for the State to assume the cost of hospital and medical-surgical benefits for our State employees. Under the plan which we would hope to effect on July 1, 1956, we would also offer to the employee, on an optional basis, the possibility of enrolling at group rates his or her dependents through payroll deductions.

At the present time, some 12,000 State employees have availed themselves of such protection on a voluntary basis. The proposal would provide a similar level of benefits for all our 24,000 employees and would undoubtedly make it possible as well as desirable for them to enroll their dependents at their expense under favorable group rates.

Health and Safety

This administration has been safety-conscious, seeking to apply to itself the same standards of health, sanitation and safety it insists upon when dealing through its Health and Labor Departments with private employers. We have in previous Budgets provided large sums for remedying fire hazards throughout various department and institution buildings. This Budget includes the sum of $72,630 to implement the recommendations of a qualified fire expert who has studied the State House and related buildings and found conditions which must promptly be corrected for the safety of the men and women in these offices and laboratories.

We also hope, within the limits of this Budget request, to equip and staff a dispensary in the State House similar to that which has been operating so successfully in the State Highway Building at Fernwood. A modest investment there has paid real dividends in better health and better attendance records.

Pensions

This Budget also reflects substantially increased costs for pension and related benefits for State employees. The sum of $1,659,000 is needed to cover Social Security contributions on a deficiency basis, and $1,700,000 for 1956-57. State share of Retirement System costs for State employees will require an additional $1,100,000.

In addition to pension benefits for our State employees, it should be remembered that we also make handsome contributions to pension funds covering employees in local jurisdictions. Throughout this Budget over $30,000,000, or roughly 10% of the total recommendations, is provided for all pension purposes.

Sound Basis for Veterans Pensions

For the first time we are including an installment toward the liquidation of the tremendous accrued liability for veterans pension benefits caused by legislation enacted subsequent to World Wars I and II. The funding of this debt over the next 30-year period will remove the Damocles sword which has been hanging over our fiscal head.

Group Insurance

The State presently provides group life insurance protection for State employees who are members of the Public Employees' Retirement System and plans are being developed for a possible supplement to this at employee expense with low group rates.

Pre-Retirement Counseling

The legislation providing the mechanics for integration of Social Security with our State pension system has provided a transition which would appear to some eligible employees to make it desirable for a number of them to retire on or before March 31st. We intend to make all the facts available to them so that they can make their own best decision for the future. Both in the Retirement System and in the Civil Service Department, we now have trained personnel to assist those planning retirement to make the necessary adjustments.

Apprentice Program

It is my hope that we can develop in State service an apprentice program in many fields. A beginning has been made in the Highway Department through the recruitment of a group of young engineers and through the development of techniques for rotating their assignments to find their best aptitudes and to seek out their interests.

Bi-weekly Paydays

Many other steps are being undertaken to make our State service attractive. The employees have wanted definite, fixed paydays. We have developed a plan for bi-weekly payment to replace the present statutory semi-monthly pay schedule. I hope you will take prompt action to make this possible.

Strengthened Merit Rating

We believe in increases and promotions based on merit. To that end I have instructed the members of my cabinet to pay particular attention and to give their personal time to the improvement of our merit rating program. Training programs will be expanded to develop our employees and to prepare them for increased responsibility.

A Continuing Process

I have asked the special cabinet committee on personnel to continue to function. Many of their recommendations will require a great deal of effort on the part of all departments, and our Civil Service Department can, through this committee, bring to the cabinet more directly its needs and its programs for the betterment of our State Government.

Our expenditures for State purposes are comprised in large part of personnel—with two-thirds allocated for payroll, pensions and related costs. It is sound policy therefore, to see that every effort is made to apply this money equitably and wisely, for the State Government can only be as good as the leadership and the capacity and the performance of its employees.

Education

We should be keenly aware that of the total Budget recommendations more than one-third of the funds (or $1 of every $3 appropriated) will be used in the field of education. No better investment can be made in our way of life than to educate our youth. In this Budget we have provided approximately $4,400,000 in additional State Aid for Education, reflecting recent legislation applying a formula for current rather than past public school enrollment, thereby bringing our direct aid to local districts from $63,400,000 in the current year to $67,800,000 in the 1956-57 fiscal year. Additional sums of $2,800,000 have been recommended for the State's share of the Teachers' Pension and Annuity Fund, including the employer's share of social security. With the integration of social security in our pension benefits to teachers, we have heightened the attractiveness of a teaching career in New Jersey.

In 1956-57 our enrollment at the State University is expected to increase by 700 and at our various teachers colleges by 570. It should be remembered that not all the added costs in our State Teachers Colleges will be imposed on the general taxpayer since revenues at these colleges will increase by approximately $100,000.

No specific recommendations are made in this message for additional State Aid required for capital building costs in the local districts. This matter is now under study by both the Executive and Legislative branches. It is my sincere hope that an avenue will be developed making it possible to raise additional revenue on the State level which, when added to local revenues, will provide the funds for this requirement.

Federal Aid?

The recent White House Conference in Washington demonstrated that the people of this country recognize construction of school facilities as one of their most immediate and pressing national problems. Because of the sentiment expressed at the conference, there is some hope that Federal Aid for school construction may be forthcoming. However, this is far from being assured. Therefore, we may very well conclude that New Jersey should proceed with its own plan as outlined by the State Tax Policy Commission.

I am recommending specifically, as part of the University Program, that funds be earmarked to study the course we should follow in the development of a Nuclear Science Program. Let's be armed with the necessary facts as we advance in the use of atomic energy for peaceful pursuits.

I have recommended in the capital section of the Budget $800,000 for the University to be used to reduce its present capital debt. Future expansion, building-wise, should wait for legislative expression on the Trustees' proposal for the University's reorganization program.

Following our pattern of last year, I am recommending $500,000 for the Newark College of Engineering to provide for the second phase of its building program.

MENTAL HEALTH AND WELFARE

Recommendations of $70,352,689 have been included for these purposes, an increase of $4,930,562 over the current year.

One of the largest components of this increase is to lengthen further the giant step already taken this year when $1,600,000 was appropriated to develop and expand the Mental Health Program in our State institutions.

I am proud to be able to report to you that the present $1,600,000 appropriation for the various facets of the Mental Health Program has already been used fruitfully to provide new hope for the mentally ill. Treatment with the new mental health drugs made possible by these funds has resulted in tranquilizing our patients, looking toward earlier recoveries, with improvements in behavior and speedier release to the community. Hospital wards that had heretofore been known as "closed" areas have now been made open; seclusion rooms are becoming empty; destruction of property has been reduced materially; working conditions for staff have improved; ward sanitation is becoming less of a problem; conventional therapeutic treatment can be applied with more effective results. In view of these strides, can we not look forward with hope to the day when our discharge rate in mental hospitals will equal or exceed our rate of admissions?

FAMILY CARE

The funds have also been used to increase in some instances, and to start in others, the Family Care Program for those patients who have recovered sufficiently to warrant a trial of placement in the home or community. They have also made possible a more intensive placement program for the older, trainable, mentally retarded persons for assignment away from the institutions with the necessary follow-up supervision and guidance, so as to insure that the patient will not be abused or mis-used.

Although a substantial portion of the current appropriation was to provide for additional ward personnel for only a part of the year, recruitment to the authorized level permitted by such funds has already resulted in a substantial improvement in round-the-clock coverage of all hospital wards and related areas. The effect of the tranquilizing drugs in combination with additional person-

nel may well be likened to a rolling snowball in retaining for longer periods of employment the total complement of personnel in their ward positions.

It may be remembered that my Second Supplementary Budget Message of last year recommended an appropriation of $2,000,000 for the bulk of the Mental Health Program. The Legislature appropriated $1,600,000 on the premise that the program could not be implemented on the effective date of the appropriation.

My recommendation for next year for staffing, drugs, family care, research, community and other services, all comprehended within this year's program, represents an increase of $1,077,709 over the present year's appropriation.

OTHER COSTS

Staff increases necessitated by the appropriation to rehabilitate the Edward R. Johnstone Training and Research Center at Bordentown and the opening of new institutional buildings and facilities made available by the proceeds of bond issues for institutional construction will require $642,535. Other operating needs including food, clothing, fuel, items of household use, equipment replacements, staff and other expenses in the various institutions and agencies caring for 27,397 patients and inmates require an additional $2,023,240.

My recommendations include additional cash funds for patients' food needs in three institutions where, after review and evaluation by our new Commissioner of the Department, with the understanding approval of its Board of Control, it has been determined that the continuation of farms in these areas is no longer wise nor justified, either from the standpoint of economics or of therapeutic value to the patients.

State Aid for welfare requires an additional $1,187,078, the principal beneficiary being the Home Life Assistance Department of the Board of Child Welfare which anticipates an increase in case-load of 5,225 persons to cost $660,978 over that for which funds were currently appropriated. This case-load trend is a graphic illustration of the theme in my recent Annual Message to the Legislature in which I pointed out that many of the problems that confront New Jersey are products of our growing population.

Public Safety

Our immediate and intense attention should be devoted to removing or greatly reducing the long waiting lines at our Motor Vehicle Testing Stations. I am recommending that $2,500,000 be used for that purpose. This represents the second bite of the program.

Eventually, as funds become available, we must add the coordinated services for drivers' clinics, drivers' examinations and licensing and registration. The inspection lanes, however, should be our first concern.

The New Mail-Order System

Extreme labor pains are being experienced in the change-over from the agency to the mail-order system for licensing both drivers and motor vehicles. We have had no experience whatsoever in the new proposed system. The first applications were being processed as this message was prepared. Without background experience it is well-nigh impossible to forecast how much of the cost previously borne at the agency level will be shifted to the central agency.

I am recommending therefore, that the Director of Motor Vehicles transfer from the gross receipts derived from licensing, to his central appropriation accounts, such sums as may be necessary to bear this cost. This power is now vested in the Director pursuant to the provisions of R. S. 39:3. While this section has heretofore applied only to agents, during the interim or change-over period, it should be applied to the central mail-order system as well. After a full year's operation under the new system, we should be in a position to budget specifically for this new function.

In 1956-57 it will be necessary to issue permanent license plates. This will cost an additional $500,000 and represents a major part of the Division's increase.

State Police Barracks

Continuing our program of replacing presently rented facilities for the State Police, I am recommending $255,000 for the construction of three new State Police barracks.

Parks and Recreational Facilities

Last year, we embarked on a program of expanding recreational facilities at our various State Parks. As stated in my annual message, I am of the opinion that we should now direct our attention primarily to developing the sites which we have already acquired. There is recommended herein, the sum of $500,000 for the second phase of the development of our recreational areas. Our parks should be made usable.

Highways

I need not labor the point that our highway problem is acute. In my special capital Budget message of last year, I set out in detail the need for expansion, if we are to avoid complete strangulation and promote traffic safety. The Highway Department could very efficiently and effectively spend many times the $20,000,000 recommended in this message for new roads. Congress will undoubtedly grapple with this program during the current session and what it does will certainly have a direct bearing on the course we must follow.

Voices are being raised in many quarters which may indicate that our people would look favorably on an increase in gas tax to provide more transportation facilities. We should certainly not countenance an increase in the present gas tax for any other purpose. Until the Federal Government speaks in audible tones on this problem, we should adopt a policy of watchful waiting.

If the Federal Program is adopted, we can then determine if the gas tax should be upped and whether any increase in this tax should be earmarked for current expenditures or used to amortize a bond issue for highway purposes. We should speed up our too long delayed program of road building.

New Office Buildings

In my special capital Budget message of last year, I explained the need for new office space for State Departments, now scattered at fifty-two rented sites in the Trenton area. At that time, I also pointed out the alarming cost to the State of these rentals. In this Budget, rentals for office space alone equal more than

$2,500,000, $1,000,000 of which is in the Trenton area, over $500,000 in the Newark area and approximately $1,000,000 in other localities. Of this total sum about $1,500,000 is chargeable to State funds and $1,000,000 to Federal funds received for the administration of Employment Security.

There is considerable doubt as to the best method of solving this vexing problem. It could be solved by erecting a multi-story building in the heart of Trenton or by separate buildings on the periphery of the city. Arguments can be advanced for either plan.

At the request of the Committee on Appropriations, facts are being assembled which will show comparative costs and advantages of each course. Last year I outlined which funds were available for the purpose. These funds are still available, and steps should certainly be taken to get the program rolling. The result will be to save considerable money now being spent in rentals and in addition, relieve the intolerable overcrowding in many State agencies. As I said in my annual message: "Some of the quarters would be condemned by our own inspectors if they followed the rules applicable to private buildings."

OTHER SERVICES

I have attempted to emphasize those services which will require substantially more funds in 1956-57. Moderately increased funds have been made available for other functions of government. Our Health, Civil Service, Agriculture and other departments have been allotted sufficient funds to meet current needs.

Sums have been recommended to wind up rent control activities at the State level through December 31, 1956, as required by statute. The rent control function, by the same statute, ceases on June 30th next. However, I have requested the Department of Conservation and Economic Development to study the need for continuing this function. Its recommendations when prepared will be forwarded to you.

Recommendations for the Department of Treasury include $200,000 for the cost of real estate appraisals to determine sales ratio data for assessment purposes. This is required to distribute State School Aid in accordance with equalized valuations.

A WORD OF CAUTION

This Budget was prepared with a strict sense of responsibility to the taxpayers of New Jersey. Like most budgets, public and private, in these times, it shows a rise over this year. It has increases which I have been at pains to explain as being vital to our needs. It is tightly constructed. It indulges in no extravagances. After all possible care was exercised, however, we are left with a surplus of only $3,702,141. That is not a comfortable margin when matched against a total budget of $318,765,631. As I have stated repeatedly and as I reiterate now, we should embark on no new spending programs unless revenues are provided to finance them.

With prudence and sound fiscal judgment, we can live within our means.

Finally, as I pointed out in my Second Annual Message, most of the new demands upon the State for increased expenditures, are the direct result of an expanding economy and, therefore, might be called the liabilities of progress. So we can well afford to meet this challenge with courage and confidence.

Respectfully submitted,

ROBERT B. MEYNER,
Governor of New Jersey.

Attest:

ROBERT J. BURKHARDT,
Secretary to the Governor.

Be It Further Resolved, That the Speaker invite Mr. Patrick to address the General Assembly briefly.

The Speaker invited Mr. Patrick to address the General Assembly.

Mr. Patrick addressed the General Assembly briefly.

The Speaker recognized Assemblyman Reverend James Vance McIver, of Essex county, who delivered the following Annual Lincoln Day Address:

LINCOLN'S DAY ADDRESS

DELIVERED IN THE NEW JERSEY ASSEMBLY

FEBRUARY 9, 1956

By

JAMES VANCE McIVER, Assemblyman from Essex County

This month we celebrate again the birth of Abraham Lincoln, who was born February 12, 1809.

Hingham, England, was the home of the ancestors of Abraham Lincoln. Swanton Morley, an adjacent village, claims the honor, but local lore and literature yield to Hingham. Richard Lincoln, the first of the line, lived and died at Swanton Morley. Samuel Lincoln, who emigrated to America, was Richard's grandson.

Lincoln's playground, on which he roamed as a lad, has been set apart as a State Park, known as "THE NANCY HANKS LINCOLN MEMORIAL PARK." This is a farm which Thomas Lincoln purchased from the Federal Government, October 15, 1817, securing the patent in Vincennes, Indiana, approximately 65 miles northwest of the homestead. The contract bears the signature of John Quincy Adams.

The entrance to the Park leads immediately to the wooded knoll where lies buried Abraham's mother. As one stands in the shadow of the tall hardwood trees, some of which must have been mere saplings in those frontier days, strange emotions grip the pilgrim. For it was on this site stood the weeping family, Thomas, Sarah and Abraham, as the neighbors assisted in lowering the crude, home-made casket with its precious burden. Gazing through their tears I am sure they believed in immortality, but they could not see how through the coming years this unpromising youth would make this spot forever hallowed.

Arriving in the autumn of 1816, Thomas Lincoln built a rude shelter of poles, open to the south. In this the family took up lodging for the winter. That being one of the coldest winters on record in southern Indiana. The family suffered severely.

The next spring they built and moved into a log cabin 18 feet square, and high enough for a small attic. The site of the building lies ¼ of a mile northwest of the family burial ground. Of the old homestead nothing now remains except a picture of the cabin as it appeared about 30 years after Lincoln sold it.

Even the location of it was almost forgotten. In placing the Spencer County Memorial marker on the site, one of the oldest citizens of the community was called and asked to mark the exact spot. He paced and measured distances and finally setting the spade, said: "As near as I can tell, this is the spot on which stood the cabin." Turning the soil to mark the spot they rejoiced to find stones of Lincoln's old fire-place.

Imagination easily reconstructs the cabin with a rail fence surrounding it, the little barn at one side, and all of this was the playground of the two children and their playmates. A winding road, south of the farm, has been crystalized into a macadam highway. This leads to the village of Jonesboro, where Lincoln won fame as a story-teller and entertainer. Just below the store, close to the road is the old schoolhouse where Lincoln and his sister received most of their formal education.

Not far from the Lincoln farm is Little Pigeon Creek Primitive Baptist Church. Mr. and Mrs. Thomas Lincoln were honored members there. Lincoln was a trustee and served on important committees.

When Abraham was twenty-one his father became really vexed under prevailing conditions, and, listening to reports of a friend near Decatur, Illinois, decided to answer the call of a new frontier life. Mixed emotions must have filled the heart of Abraham. No one denies the lure of the wild and adventure. But here in this place were his friends. Here in Little Pigeon Creek, lay buried his sister Sarah, who had shared with him so many mutual and pleasant memories. While the covered wagon was being loaded to be drawn by four oxen, no one knew how this young man

felt. Many things we must pass over. But we know that the America Lincoln knew differed in a thousand ways from the one we know. He knew the rough life of the frontier. He never used a telephone, heard a radio, saw a television, drove an automobile or rode a plane.

He loved people, the common people. He was one of them. We know little of his mother, except that she was gentle, affectionate in her nature. His father was illiterate, but not unintelligent. The poverty of the family resulted, in part, from the death of Abraham's grandfather at the hands of marauding Indians, and from the fact that the huge tract of Kentucky land which the family once owned was lost because title could not be cleared.

Lincoln was self-educated. He knew the value of books and retained what he read. He knew the Bible, Shakespeare, Blackstone and the great documents of the American Revolution. He not only loved people, but he was sensitive to their needs, even to the birds and animals. This was a deep and fundamental characteristic of his nature. He was so moved by seeing a bird blown from its nest that he walked back several miles, placed it high into the tree and out of harm's reach.

Certainly there are some things not even thought of in this dignified body. But in Lincoln's day there was: "THE KNOW NOTHING PARTY." This was the forerunner of the AMERICAN PROTECTIVE ASSOCIATION, which in turn became the Ku Klux Klan. But Lincoln declared in no uncertain terms to be against this party and association. He said: "When the KNOW NOTHING gets control the Constitution will be changed to read: All men are created equal except Negroes, Jews, foreigners and Roman Catholics. When it comes to this, I shall prefer emigrating to some country where they make no pretense of loving liberty."

Lincoln was no sentimental idealist who permitted his feelings to govern his actions. He was supremely a man of principle, who held himself steadfastly to what he believed to be right. From a youth he lived with vital sources of truth and inspiration and made them his own.

He conducted the Civil War without hate or bitterness. There are many who cannot conceive of such a thing, but Lincoln did just that. At the beginning of the war, in his first inaugural address he said: "We must not be enemies.

The passion may be strained, but it must not break our bonds of affection. The magic cord of memory, stretching from every battlefield and patriot to every living hearthstone all over this broad land, will yet swell the chorus of the UNION, when again touched, as they surely will be, by the better angels of our nature."

Washington taught the world to honor us. Lincoln taught us to honor ourselves. Washington won for us independence. Lincoln taught us how to use it. A great soul, a rare spirit and an unusual personality.

The ability to think straight is rare, sometimes dangerous. It even makes martyrs. Lincoln governed his thinking and his conduct by principles rather than by emotions. He hated slavery with all his soul. But it was legal under the then existing Constitution and on the basis of the decisions of the Supreme Court had rendered. May our leaders and law-makers in every section retain this high regard for the Constitution and the Supreme Court.

I am sure all of us at times have wondered just what is it or was it about Lincoln that refuses to die?

He was poor. He did not possess the culture of Washington. He ran for the Legislature and lost. He went into business and failed, and spent seventeen years paying the debts of a no-good partner. The girl he really loved died. The one he married, Mary Todd, was neurotic and often embarrassed him. He served one term in Congress and was defeated when he ran for re-election. As a candidate for the Vice-Presidency he was beaten. Douglas beat him for the Senate. But with all these set backs and handicaps, he stumbled into the Presidency of the United States, and made the man who snubbed him Secretary of State. History records some great men. Pericles ruled Athens for thirty years, but before his death he saw the classic land enter upon the beginning of the end.

Alexander, the youth who subdued all things but himself, built an empire that went down in ruins almost as quickly as his own brilliant career of thirty-three years.

Caesar was one of the greatest, but he was not great enough to rise from the position of chief of the party to that of chief of the nation, and he was cut off, leaving no system of government that could last.

Cromwell was a most extraordinary man, but his commonwealth lasted only one year, eight months and five days after his death.

Frederick carved out a splendid military state, but when his hand was withdrawn, the Prussian monarchy hastened on to the battlefield of Jena, where it went up in smoke and powder.

Napoleon wove from the crimson threads of the French Revolution a fabric of empire that dazzled the world, but like a fallen Mars at St. Helena, with empires still rising and falling in his brain, he dreamed that its vanished splendor was still but a dream.

Lincoln had no prowess except his rugged honesty. His monument is not that one on the banks of the historic Potomac. Time with its devestating hand will ultimately erase every inscription. He built his monument in the hearts of men. He demonstrated the workability of democracy; that a man though poor, born in the back woods, that in America, such a man can aspire, and then ascend to the highest position within the gift of the world, the Presidency of the United States.

The Clerk read the following message from the Governor:

STATE OF NEW JERSEY,
EXECUTIVE DEPARTMENT,
March 12, 1956.

ASSEMBLY BILL No. 65

To the General Assembly:

I am returning herewith, without my approval, Assembly Bill No. 65 for the following reasons:

Assembly Bill No. 65 supplements the Veterans' Housing Act (P. L. 1946, Chapter 323) by providing, with respect to emergency housing projects having one or more buildings containing more than 4 dwelling units, that authority to increase rents shall be restricted as follows: 20% for a 6-month period, and an additional 15% for the next 3-month period if the project has not been purchased by the occupants. The limitations upon such increases would apply even though the governing body of the municipality where the project is located does not adopt a resolution determining the need for the continuation of such emergency housing.

The Veterans' Emergency Housing Act was adopted in 1946 for the purpose of meeting a critical shortage immediately following the war. There were no restrictions on occupancy on an income basis and all veterans in need of housing were eligible. Hence the program was not intended to be a low income housing project, although it appears that initially, notwithstanding this circumstance, the rents were kept at a low figure with the thought that the veteran occupants would thereby be enabled financially to

acquire other housing or perhaps, on a co-operative basis, to purchase the emergency units themselves.

The housing was erected by joint action of the State and the several municipalities. Voters approved a bond issue for this limited purpose of providing emergency housing.

The investment by the State in the permanent projects was approximately $11,600,000.00 which is exclusive of the amount invested by the municipalities. The total number of units so constructed was 2,747. The venture has proved to be a costly one. To date, 180 units have been sold. In order to obtain the best selling price the rentals on the units thus sold were increased from 27% to 63%, on the basis of appraised valuation. Notwithstanding such increase in rentals, the 180 units, which represented an original development cost of $1,559,634.00, were sold for a total net sales price of $1,159,694.00, for a loss of approximately $400,000.00 which is borne largely by the State. To this loss must be added a loss of revenue to the municipalities represented by the differential between the taxes which would have been payable thereon had the property been in private hands and the 5% of rental income which the municipalities were authorized to receive from the rentals as a payment in lieu of taxes.

The prompt disposition of remaining emergency permanent units has been a matter of considerable concern to the State and municipalities. There have been several legislative extenders of doubtful justification which I nevertheless approved in order to afford to the occupants a period for purchase which would be unquestionably fair. We have now reached the point where further delay is just contrary to the public interest.

Experience has shown that it is difficult to obtain a fair selling price when the rents are far below a reasonable figure. Purchasers do not want to assume the burden of initiating rental increases and if they are so willing they inevitably seek to gauge their offers in terms of existing rental income. It is apparent that both the State and municipalities will experience substantial losses on the units which presently are unsold. As indicated above, a loss of about $400,000.00 was experienced on the sale of 180 units even after an increase in rentals and on those transactions the State realized but 60% of its investment. If the same experience should be had with respect to the other units,

and it is probable that such will be the case, the total loss to the State will run to a figure in the neighborhood of $4,500,000.00. We should not risk enlargement of this loss by delaying liquidation or by artificially restricting the increase of rentals to a fair figure preliminary to seeking the best possible sales price.

It is pertinent to note a further loss sustained by the State in connection with the emergency housing program for veterans. In addition to the investment of $11,600,000.00 made by the State with respect to these permanent housing units, the State invested a further sum of $21,400,000.00 in temporary housing units for veterans, as well as $5,800,000.00 for rehabilitation and conversion of existing buildings and cost of administration for a total of $38,800,000.00. On the basis of experience to date in connection with the sale of such temporary housing facilities, it appears that the total salvage to the State on its investment of $21,400,000.00 in temporary units will not exceed $1,100,000,00. The total return from the sale of all units is estimated to be $10,100,-000.00 in addition to approximately $8,000,000.00 representing the State's share of net operating income. Thus, the overall recovery against the $38,800,000.00 will be approximately $18,100,000.00. This does not include any provision for interest and amortization payments on the bond issue which cost the State annually $3,436,000.00.

We are all sympathetically interested in the affairs of our veterans. But the present bill cannot fairly be deemed to be legislation on behalf of veterans as a group but rather would accomplish a continued subsidy of a very limited group of veterans who have already for many years enjoyed a subsidy and who cannot fairly be distinguished from the larger group of veterans except for the fortuitous circumstance that they happen to be living in subsidized dwellings. I can understand the natural desire of the occupants of these units to continue to receive this preferential treatment, but I cannot reconcile such treatment with a fair discharge of the duties of government. I think it significant that not a single veterans' group has made representations to me in support of this bill and thus I think it fair to conclude that veterans as a group—and we have in this State over 600,000 veterans of World War II and the Korean conflict—do not regard this bill as being within the category of benefits which veterans as such should reasonably seek.

I do not doubt that some political capital can be made out of legislation which at first blush seems to benefit even so limited a group of veterans at the expense of the public generally. But it seems plain to me that the obligation to the whole public requires disapproval of it. As a matter of fact, so far as the veteran occupants of the permanent housing units are concerned, this bill might well prove to be to their great disinterest. The administrative policy to date has been to continue the rental basis until such time as the municipality fails to extend the emergency by resolution, and to increase the rentals only at that point in order to further the objective of obtaining the best possible selling price. If this bill should be approved thereby limiting the authority of the administrator to increase rentals notwithstanding the action which the municipality may or may not take with respect to an extension of the emergency, the administrator would in all likelihood feel compelled to proceed to raise the rents at once for all units, so that if a municipality should fail to extend the emergency and the administrator accordingly be required within the existing time limitations to sell the property, he will not find himself caught in a situation in which time will not permit rental increases approaching a fair rental value.

This bill was apparently prompted by the circumstance that occupants of these dwellings in the City of East Orange had been notified of a rental increase effective February 1, 1956. Prior thereto the City of East Orange failed to extend the emergency and, in fact, since this situation developed, refused to request an extension. Hence, in accordance with the established practice, the administrator made preparations to sell. The occupants were notified in August, 1955, of their opportunity to purchase the units within 3 months. When they failed to purchase, notice was given of the rental increase in order to prepare the property for the best possible selling price. Shortly after the introduction of this bill, the administrator stated his intention to modify the notice so as to make the rental increase effective May 1, 1956. It seems to me that this treatment of the problem is eminently fair, since the occupants concerned have been given a period from August 1955 to May 1, 1956 to make suitable arrangements for themselves.

The Veterans' Service Council addressed a memorandum to the President of the Senate and the Speaker of the Gen-

eral Assembly and to me pointing out that the problem had been handled administratively as stated above and expressing the unanimous opinion that the adoption of this bill would offer obstacles to efficient administrative measures to bring about an effective sales program. Notwithstanding this memorandum, the Legislature proceeded to adopt the bill.

The interest of the State and municipalities concerned requires that the program for the sale of these dwelling units be accomplished expeditiously for the best obtainable price, that the subsidy of a special group be ended, and that these units be placed, as soon as feasible, upon the ratables of the municipalities to bear their fair share of the cost of government. The administrator's authority to increase the rentals to a fair figure should remain unimpaired to the end that the orderly liquidation of these properties may proceed.

I am, therefore, returning Assembly Bill No. 65 herewith without my approval.

Respectfully,

[SEAL] ROBERT B. MEYNER,
Attest: *Governor.*
ROBERT J. BURKHART,
Secretary to the Governor.

Mr. Mills moved that the message be spread in full upon the Minutes.

Which motion was adopted.

Mr. Knoblauch offered the following resolution, which was read by the Clerk:

RESOLUTION memorializing Congress to implement the Tripartite Declaration of the United States, Great Britain and France, guaranteeing the borders of Israel.

WHEREAS, The General Assembly of the United Nations resolved upon the creation of a Jewish State in Palestine, on November 29, 1947; and

WHEREAS, The Government of the United States, by its immediate recognition of the State of Israel on May 14, 1948, was the first sovereign government so to do; and

WHEREAS, The armies of six Arab States, directly flouting the said United Nations resolution, invaded the borders of the State of Israel on May 14, 1948; and

WHEREAS, The State of Israel, by force of her own arms and in conformity with the aforesaid resolution, expelled the invading, aggressor Arab States and secured her sovereignty within the present borders; and

WHEREAS, On May 25, 1950, the United States, Great Britain and France guaranteed these established borders by a tripartite declaration; and

WHEREAS, The Government of Egypt, by accepting arms from Communist countries has provided the Soviet Union with the means for injecting Communist influence into the Middle East; and

WHEREAS, The acceptance of said arms by Egypt creates an imbalance of power, threatening the peace of the Middle East, and thereby the precipitation of global conflict; and

WHEREAS, The State of Israel has requested from the Department of State of the United States the permission to purchase specified arms to meet this threat, and this request remains pending; therefore,

Be It Resolved, That the General Assembly of the State of New Jersey does hereby memorialize the members of Congress to take such action as may be necessary to implement the spirit of this resolution and to urge upon the Department of State:

1. That the Government of the United States make available to the State of Israel, for purchase, such arms as she requires to guarantee her security, and to be an effective bulwark against Communist inroads in the Middle East; and

2. That the Government of the United States negotiate a mutual security pact with the State of Israel, to the end that peace be secured in the Middle East, and the existence of Israel, as a bastion of democracy, be assured; and

Be It Further Resolved, That copies of this resolution, signed by the Speaker and attested by the Clerk, be sent to the President of the United States and to all New Jersey Representatives and Senators in Congress.

Mr. Knoblauch requested the resolution be laid over for further study as requested by Mr. Mills.

Messrs. Brady and Hughes offered the following resolution, which was read by the Clerk and adopted:

STATE OF NEW JERSEY,
EXECUTIVE DEPARTMENT,
April 9, 1956.

ASSEMBLY BILL No. 84

To the General Assembly:

Pursuant to Article V, Section I, paragraph 14(b) of the Constitution, I am returning herewith Assembly Bill No. 84, with my objections, for reconsideration.

This bill would amend P. L. 1939, c. 78 as supplemented. Presently the law provides that the various wardens of State and county institutions notify the Bureau of Identification of the county from which a prisoner was committed and also the Bureau of Identification of the State Police, of the fact of a prisoner's release from incarceration and the date thereof. Assembly Bill No. 84 would add a requirement that in the case of a prisoner incarcerated in the State Prison for a period of 5 years or more a photograph taken within 30 days of release be furnished to the county Bureau of Identification of the county from which the prisoner was committed.

The purpose of the bill is to aid law enforcement by supplying recent photographs of prisoners in order that identification may be facilitated in the event of suspected recidivism. I understand that such service is often performed now by the prison authorities without legislative requirement. This bill would impose an obligation to pursue that practice.

I believe the bill is sound. However, it should also provide for the transmittal of such photograph to the Bureau of Identification of the State Police. The additional cost would be negligible. In the hands of the Bureau of Identification of the State Police the photograph would become available to every law enforcement agency in the State and to other agencies with which the State Police co-operates.

Accordingly, I am returning herewith Assembly Bill No. 84 for reconsideration and with the recommendation that it be amended as follows:

On page 2, section 1, line 15, after the word "committed" insert "and to the Bureau of Identification of the State Police".

Respectfully,

ROBERT B. MEYNER,
Governor.

[SEAL]

Attest:

ROBERT J. BURKHARDT,
Secretary to the Governor.

Mr. Mills moved that the message be spread in full upon the minutes.

The Clerk read the following message from the Governor:

STATE OF NEW JERSEY,
EXECUTIVE DEPARTMENT,
April 30, 1956.

ASSEMBLY BILL No. 476

To the General Assembly:

I am returning herewith, without my approval, Assembly Bill No. 476 for the following reasons:

This bill would amend the Optional Municipal Charter Law (P. L. 1950, c. 210) so as to provide that at the regular municipal election in any municipality which has adopted the "Mayor-Council Plan A" as provided in Article 3 or the "Mayor-Council Plan D" as provided in Article 6, the candidates receiving the greatest number of votes cast shall be elected to the respective offices. The effect of this bill would be to eliminate the present requirement for a run-off election in the event that a majority vote is not received by the candidate or a stipulated number of candidates where more than one is to be elected.

The Optional Municipal Charter Law provides for 15 plans of local government. Under 5 plans the candidacy is on a partisan basis and under the remaining 10 plans the basis is non-partisan. Except as to 2 small municipality plans, the law provides for run-off elections under all of the non-partisan plans. The exclusion of the partisan plans from the run-off provisions is understandable since the candidates for the final election are initially selected through the primary procedure.

I appreciate the considerations pro and con with respect to run-off elections. The cost of a second election is considerable and probably the instances would be few in which the ultimate result would be changed in the run-off. If the Legislature had determined to eliminate the run-off feature in all of the plans now providing for it, there would be before me the question whether to accept that determination. The present bill, however, does not apply to all of the plans which now call for run-off elections but rather would eliminate that feature only with respect to 2 of those plans. I cannot find a sound basis for such piecemeal alteration of the basic law, and hence, consistently with the policy which

I have been following with respect to legislation having such special impact, I must withhold approval. In the absence of a legislative determination that the run-off feature should be abandoned as to all plans which now call for it, I think the sounder course is to leave intact the present provisions of the Optional Municipal Charter Law to the end that an opportunity will remain for other municipalities to adopt them.

I understand that the City of Vineland is the only municipality which has adopted one of the two plans affected by this bill and the City of Hoboken is the only municipality which has adopted the other plan so affected. I, of course, am willing to give full consideration to the desires of each of these municipalities if presented to me in the form of special bills. The Constitution contemplates that a municipality shall have the opportunity to seek legislative changes applicable to it alone by way of special acts of legislation, Article IV, Section VII, paragraph 10, and the Legislature adopted Chapter 199 of the Laws of 1948 to implement that constitutional provision. I believe that the municipalities here concerned should follow that procedure.

I am, therefore, returning Assembly Bill No. 476 herewith without my approval.

Respectfully,

[SEAL] ROBERT B. MEYNER,
Attest: *Governor.*

ROBERT J. BURKHARDT,
Secretary to the Governor.

The Clerk read the following message from the Governor:

STATE OF NEW JERSEY,
EXECUTIVE DEPARTMENT,
May 21, 1956.

ASSEMBLY BILL No. 83

To the General Assembly:

Pursuant to Article V, Section I, paragraph 14(b) of the Constitution, I am returning herewith Assembly Bill No. 83, with my objections, for reconsideration.

The bill deals with sales of certain municipally-owned lands heretofore made under R. S. 40:60–26(c). That statute requires that public notice of the sale must be given not less than 2 days nor more than 10 days before the further meeting of the municipal governing body at which the sale is approved. Assembly Bill No. 83 would validate a sale under stated conditions, where the public notice was published not more than 15 days prior to the described meeting of the governing body. There is some ambiguity as to whether the bill as drafted would also waive the minimum time requirements as to public notice. There is further provision that the sale or sales shall have been authorized or confirmed by resolution of the said governing body. The bill also provides for validation only in the event that no proceedings have heretofore been instituted in any court with respect to the validity of such sale.

The bill recognizes part of the objection I have made to numerous validation acts dealing with sales which are or may be the subject of judicial proceedings. The present bill does not, however, permit future judicial proceedings and therefore invades the period of limitations fixed in Supreme Court R. R. 4:88–15.

Accordingly, I am returning Assembly Bill No. 83 herewith for reconsideration and with the recommendation that the bill be amended as follows:

On page 1, section 1, line 12, after the word "not" insert the words "less than 2 days, nor".

On page 2, section 1, line 18, after the word "instituted" insert the words "or shall within 30 days from the effective date hereof be instituted".

Respectfully,

[SEAL] ROBERT B. MEYNER,
Attest: *Governor.*

ROBERT J. BURKHARDT,
Secretary to the Governor.

Mr. Mills moved that the message be spread in full upon the minutes.

Which motion was adopted.

Mr. Fitz Maurice offered the following resolution, which was read by the Clerk and adopted by the following vote:

ASSEMBLY BILL No. 4

To the General Assembly:

Pursuant to Article V, Section I, paragraph 14(b) of the Constitution, I am returning herewith Assembly Bill No. 4, with my objection, for reconsideration.

Assembly Bill No. 4 would change the provisions of section 1:1–2.3 of the Revised Statutes so as to provide that "Daylight Saving Time" shall begin on the first Sunday in April rather than on the last Sunday in April. The termi-

nation of Daylight Saving Time on the last Sunday in October remains unchanged by the bill.

I have no objection in principle to the extension of Daylight Saving Time to begin on the first Sunday in April. Section 2 of this bill, however, provides for an effective date "when similar acts are adopted by the States of New York and Pennsylvania." It is possible for New York or Pennsylvania to adopt an act similar to Assembly Bill No. 4 with the effective date made contingent upon some other event such as the adoption of similar legislation by its neighboring States.

To eliminate confusion and to make it clear that Assembly Bill No. 4 shall be effective in New Jersey only when similar acts become effective in the States of New York and Pennsylvania, I recommend that the effective date clause be amended.

I am, therefore, returning Assembly Bill No. 4 for reconsideration and with the recommendation that it be amended as follows:

On page 1, section 2, lines 1 and 2, delete the words "are adopted by" and insert in lieu thereof the words "become effective in both".

Respectfully,

ROBERT B. MEYNER,

[SEAL] *Governor.*

ROBERT J. BURKHARDT,
Secretary to the Governor.

Mr. Mills moved that the message be spread in full upon the Minutes.

Which motion was adopted.

The Clerk read the following message from the Governor:

STATE OF NEW JERSEY,
EXECUTIVE DEPARTMENT,

ASSEMBLY BILL No. 85

To the General Assembly:

I am returning herewith, without my approval, Assembly Bill No. 85 for the following reason:

Assembly Bill No. 85 would validate certain sales of municipally-owned land despite the fact that the notice of sale was published more than 10 days prior to a further meeting of the governing body which considered the offer of purchase. I am informed that the bill seeks to validate sales made under subsection (a) of Revised Statutes, section 40:60–26. Since that subsection does not provide a limitation on the time for such advertisement, the validation is not necessary. Assembly Bill No. 83, which I have just conditionally vetoed, will, if my recommendations are adopted, cure the defects in the sales involved, which apparently were actually made pursuant to subsection (c) of Revised Statutes, section 40:60–26.

In view of the foregoing, I am returning herewith Assembly Bill No. 85 without my approval.

Respectfully,

[SEAL] ROBERT B. MEYNER,

Attest: *Governor.*

ROBERT J. BURKHARDT,
Secretary to the Governor.

Mr. Mills moved that the message be spread in full upon the Minutes.

Which motion was adopted.

The Clerk read the following message from the Governor:

ASSEMBLY BILL No. 213

To the General Assembly:

I am returning herewith, without my approval, Assembly Bill No. 213, for the following reasons:

This bill would amend section 3A:6–5 of the New Jersey Statutes which relates to the administration of decedents' estates. The present law provides that where the total value of the real and personal assets of the estate of an intestate will not exceed $1,000.00, the surviving spouse upon the execution of an affidavit before the surrogate shall be entitled absolutely to the real and personal assets without administration and free from all debts of the intestate. Assembly Bill No. 213 would amend the maximum amount to "$1,000.00 after payment of funeral expenses".

While the bill would permit the inclusion of "funeral expenses" in determining whether administration is required, there is no definition specifying exactly what is comprehended by the words "funeral expenses". The term is very vague and could include not only interment expenses but also the cost of monuments, markers and other expenses incidentally related thereto. Not only is the definition vague but there is no limitation upon the amount of such funeral expenses. Accordingly, an estate of several thousand dollars might avoid the requirement for administration by reason of excessive "funeral expenses".

Administration, while it might be onerous in some cases, affords full protection to any minor children. The proposed bill would deprive minor children of the protection which they are presently afforded and to which they are entitled.

I have been advised that several surrogates are vigorously opposed to this bill because of the potential for evasion of administration as well as because of the elimination of existing protection for minor children.

I believe that this bill is contrary to the best interest of the public of this State and I am therefore returning Assembly Bill No. 213 herewith without my approval.

Respectfully,

[SEAL] ROBERT B. MEYNER,
Attest: *Governor.*

ROBERT J. BURKHART,
Secretary to the Governor.

Mr. Mills moved that the message be spread in full upon the Minutes.

Which motion was adopted.

The Clerk read the following message from the Governor:

STATE OF NEW JERSEY,

ASSEMBLY BILL No. 241

To the General Assembly:

I am returning herewith, without my approval, Assembly Bill No. 241 for the following reasons:

This bill would amend the Teachers' Pension and Annuity Fund Social Security Integration Act (P. L. 1955, c. 37), to establish a higher minimum retirement allowance thereby increasing the pensions of certain persons already retired.

The effect of this bill would be the same as that intended by Assembly Committee Substitute for Assembly Bill No. 388 of the 1955 legislative session. I returned that bill to the General Assembly on August 8, 1955, without my approval and stated as follows:

> "This proposal would amend the Teachers' Pension and Annuity Fund (P. L. 1953, c. 360) so as to establish a higher minimum retirement allowance. The effect would be to increase pensions to 773 persons already retired, in varying amounts, depending upon age and length of service.
>
> "During recent years the purchasing power of the dollar has decreased. The consequence has been a hard-

ship upon all persons living on fixed income such as pensions, annuities or income from trusts. A large number of persons, in addition to those covered by this measure, have been adversely affected—policemen, firemen, other public employees, as well as many private pensioners.

"I have been advised that the annual cost of this bill would be $149,998.00, reducing annually for approximately 10 years. I do not see how, equitably, one group can be selected for particular treatment without giving the others comparable benefits. If all public pensioners were treated equally in this manner, the costs imposed upon the State, county and municipal governments would be extremely high. While I recognize the problem, I doubt that State and local governments can assume the enormous burden of attempting to save particular individuals or groups harmless from the impact of large inflationary changes in our national economy.

"The bill does not provide a method for financing the proposal. One suggested method has been to defer the liability of the State to subsequent years. For several years the State has been making contributions of millions of dollars to the Teachers' Pension and Annuity Fund, in addition to current payments, for the purpose of eliminating a large actuarial deficit in the fund. During the prior administration the payments on account of that deficit were substantially reduced in order to meet other obligations of the State. This, of course, increased the number of years required to eliminate the deficit. The proposed method of financing this measure would have the same effect. It would not increase the payments to the fund in any one year but would extend the period of payments. I fail to see how this alters the effect of the bill; it merely delays the day of reckoning. It would also increase substantially the ultimate cost because the State guarantees the interest actuarially necessary for the fund. I do not believe that deferring liability in this manner is in accord with a sound governmental fiscal program.

"It is extremely difficult to withhold approval from measures, such as this, where the human considerations are so strong. There are, however, many other meas-

ures with equally strong equities which would, in all fairness, also have to be approved if this bill became law. The total cumulative effect could be catastrophic. The people of this State have indicated their desire to keep State expenditures within the existing revenue structure. Unless and until this basic position is changed, I am obliged to refuse to approve of measures which could compel the imposition of new or additional taxes against the will of the people."

That bill was passed by the Legislature, notwithstanding my objections, on January 5, 1956 but could not take effect because the statute which that bill amended had been repealed, effective January 1, 1956, by P. L. 1955, c. 37.

I have appointed a special committee to consider the matter of inadequate retirement allowances of all public pensioners. I cannot approve of a piece-meal approach to the problem. Until I receive a report from that committee which would afford a fair and equitable treatment to all public pensioners similarly situate, I cannot approve of any measures which would apply only to one particular group.

Therefore, I am returning herewith Assembly Bill No. 241 without my approval.

Respectfully,

[SEAL] ROBERT B. MEYNER,
Attest: *Governor.*

ROBERT J. BURKHARDT,
Secretary to the Governor.

Mr. Mills moved that the message be spread in full upon the Minutes.

Which motion was adopted.

Mr. Franklin offered the following resolution, which was read by the Clerk and adopted:

Be It Resolved, That Assembly Bill No. 48 be placed back on second reading for the purpose of amendment.

Mr. Franklin offered the following amendments to Assembly Bill No. 48, which were read:

Assembly amendments to Assembly Bill No. 48:

Amend page 1, section 1, lines 2 and 3, omit "the making of an agreement", insert "the undertaking of a project".

Amend page 2, section 3, line 1, omit and insert "3. Any board of education which determines to".

Amend page 2, section 3, line 2, omit first "the".

Amend page 2, section 3, line 6, after "act," omit.

Amend page 2, section 3, lines 7 and 8, omit and insert "shall advertise for proposals, plans and specifications for the project determined to be undertaken and for bids covering said plans and specifications for the facilities intended to be contracted for, which advertisement shall briefly describe the facilities intended to be contracted for, and a time within which such proposals shall be furnished, which advertisement shall be published under such regulations as the board may prescribe. Every bidder shall be required to file his proposal and plans and specifications together with his bid with the board within the time fixed in the advertisement and the board of education may, by resolution, accept the bid of the lowest bidder submitting a proposal with plans and specifications for the building or buildings deemed most satisfactory by said board, subject to the provisions of this act, but such plans and specifications must

first be approved by the State Board of Education before any proposal or bid is finally accepted by the board of education.

4. In event that any board of education determines to enter into any lease-purchase agreement in connection with the carrying out of any project undertaken under this act, the board shall determine upon a capital sum which shall represent the aggregate of the payments to be made out of rentals on account of the purchase price of the facilities to be furnished thereunder which shall be subject to the approval of the Commissioner of Education and the Local Government Board of the Department of the Treasury and in event that the amount arrived at by adding said capital sum to the net indebtedness of the district, as shown on the last annual or supplemental debt statement filed with the Local Government Board, shall exceed the debt limit of the district, fixed by section 18:5–84 of the Revised Statutes for the issuance of bonds, the board of education shall make application, in writing, to the Commissioner of Education for approval of the proposal and bid determined by the board to be accepted and the execution of the contract and if, within 60 days after said application

(a) The Commissioner of Education is satisfied that existing educational facilities in such district are or within 5 years will be less than 80% adequate, that the new educational facilities to be furnished under the proposal and bid will, within 10 years, be fully utilized and that under existing statutes there is no alternative method of providing such new educational facilities which would be more economical, he shall endorse his consent upon said application and shall forward the same to the Local Government Board in the Department of the Treasury, but

(b) If the Commissioner of Education shall not be so satisfied within said period of 60 days, he shall endorse his disapproval upon said application and return the same to the board of education and in such case the proposal and bid shall be rejected and no contract shall be entered into by the board upon such proposal.

5. The Local Government Board shall, within 60 days of the receipt by it of an application approved by the Commissioner of Education, determine by resolution whether or not the amounts to be expended for the new educational facilities pursuant to the proposal and bid therein described

are reasonable and whether or not the carrying out of said proposal will materially impair the credit of the district and if it shall so determine that said amounts are reasonable and that the carrying out of said proposal and bid will not materially impair such credit, it shall, by resolution, approve said proposal, and shall notify the board of education accordingly and in such case the board of education may by resolution finally accept said proposal and bid and enter into contract accordingly.

If the Local Government Board shall disapprove the application, it shall notify the board of education accordingly and in such case the proposal and bid shall be rejected and no contract shall be entered into thereon."

Amend page 2, section 4, line 1, omit "4.", insert "6."

Amend page 2, section 4, line 10, at end, insert "but shall be set forth in any annual or supplemental debt statement filed pursuant to chapter 1 of Title 40 of the Revised Statutes and any rentals to be paid by a board of education under any agreement entered into pursuant to this act shall be carried upon the accounts of the district and entered upon its budgets as debt service of the district."

Amend page 2, section 5, line 1, omit "5.", insert "7."

Amend page 2, section 5, after line 5, insert:

"8. Whenever any proposal and bid for a lease-purchase agreement is authorized to be accepted by any school district under this chapter, the district clerk shall transmit certified copies of the record of the proceedings, authorizing the acceptance of such proposal and bid, to the Attorney-General for his approval of the legality of the proceedings. Duplicate copies of the record shall be filed with the Commissioner of Education.

9. No action, suit or proceeding to contest the validity of any proceeding taken or election held pursuant to the provisions of this act shall be instituted after the expiration of 20 days from the taking or holding thereof."

Amend page 2, section 6, line 1, omit "6.", insert "10."

Mr. Mills moved the adoption of the Assembly amendments to Assembly Bill No. 48.

Mr. Haines offered the following amendments to Senate Bill No. 310, which were read:

Amend page 2, section 2, line 28, after the word "purposes" insert "within one year following his return to service after completion of such leave".

Amend page 11, after section 10 delete section 11 and insert a new section 11 and section 12 to read as follows:

11. Section 41 of the act of which this act is amendatory is amended to read as follows:

41. Subject to the provisions of section 68 of this act, a member upon retirement for ordinary disability shall receive a retirement allowance of the sum of 1/70 of his final compensation for each year of service credited as Class A service and 9/10 of the sum of 1/60 of his final compensation for each year of service credited as Class B service, calculated in accordance with section 44 of this act; and provided, further, that in no event shall the allowance be less than 3/10 of final compensation, except that in no case shall the rate of allowance exceed 9/10 of the rate of allowance which the member would have received had he remained in service to age 60.

Except as provided in section 69, upon the receipt of proper proofs of the death of a member who has retired on an ordinary disability retirement allowance, there shall be paid to such person, if living, as he shall have nominated by written designation duly executed and filed with the board of trustees, otherwise to the executor or administrator of the member's estate, an amount equal to **[**3/16 of**]** *1 1/2 times* the compensation received by the member in the last year of creditable service *if such death occurs before the member shall have reached 60 years of age but if such death occurs thereafter an amount equal to 3/16 of the compensation received by the member in the last year of creditable service. The death benefits provided in this section shall apply to any member who has retired or shall retire on or after January 1, 1956.*

12. Section 42 of the act of which this act is amendatory is amended to read as follows:

42. Subject to the provisions of section 68 of this act, a member upon retirement for accident disability shall receive a service retirement allowance if he has attained the age of 70; otherwise he shall receive a retirement allowance which shall consist of:

(a) an annuity which shall be the actuarial equivalent of his accumulated deductions at the time of his retirement *together with regular interest after January 1,1956*; and

(b) a pension, in addition to the annuity, of ⅝ of his actual annual compensation for which contributions were being made at the time of the occurrence of the accident.

Except as provided in section 69, upon the receipt of proper proofs of the death of a member who has retired on an accident disability retirement allowance, there shall be paid to such person, if living, as he shall have nominated by written designation duly executed and filed with the board of trustees, otherwise to the executor or administrator of the member's estate, an amount equal to **[**3/16 of**]** *1 1/2 times* the compensation received by the member in the last year of creditable service *if such death occurs before the member shall have reached 60 years of age but if such death occurs thereafter an amount equal to 3/16 of the compensation received by the member in the last year of creditable service. The death benefits provided in this section shall apply to any member who has retired or shall retire on or after January 1, 1956.*

The Clerk read the following message from the Governor:

STATE OF NEW JERSEY,
EXECUTIVE DEPARTMENT,
June 28, 1956.

ASSEMBLY BILL No. 100

To the General Assembly:

Pursuant to Article V, Section I, paragraph 14(b) of the Constitution, I am returning herewith Assembly Bill No. 100, with my objections, for reconsideration.

Assembly Bill No. 100 would require a natural gas utility which proposes to construct a gas pipeline intended to be subjected to pressure in excess of 125 pounds per square inch to file with the Board of Public Utility Commissioners, at least 30 days prior to construction, a report setting forth the specifications for such pipeline and a map showing the general location of the proposed route thereof. The bill further provides that the utility must notify the clerk of the municipalities through which the pipeline is to be constructed of the filing of such report and map with the Board of Public Utility Commissioners.

The proposal requiring such report, map and notification is a sound one. The Board of Public Utility Commissioners, by administrative regulation, presently requires filing of a report and specifications with it. The added provision requiring a map and notification to the municipality is of obvious advantage to local communities which will be affected by such construction.

Assembly Bill No. 100 deals only with original construction of pipelines. I feel that it is desirable that it also encompass, as does the Board's regulation, the major reconstruction of such gas pipelines.

I am, therefore, returning Assembly Bill No. 100 herewith for reconsideration and with the recommendation that the bill be amended as follows:

On page 1, section 1, line 1, after the word "construction" insert the words "or major reconstruction".

On page 1, section 1, line 3, after the comma, delete the words "a natural gas" and insert in lieu thereof the word "the".

On page 1, section 1, line 3, after the word "utility" insert the word "involved".

Respectfully,

ROBERT B. MEYNER,
Governor.

[SEAL]
Attest:
ROBERT J. BURKHARDT,
Secretary to the Governor.

Mr. Mills moved that the message be spread in full upon the Minutes.

Which motion was adopted.

The Clerk read the following message from the Governor:

STATE OF NEW JERSEY,
EXECUTIVE DEPARTMENT,
June 28, 1956.

ASSEMBLY BILL No. 363

To the General Assembly:

Pursuant to Article V, Section I, paragraph 14(b) of the Constitution, I am returning herewith Assembly Bill No. 363, with my objections, for reconsideration.

Assembly Bill No. 363 is designed to amend the "Absentee Voting Law (1953)," to reduce the time in which notice to persons desiring such ballots is to be advertised and mailed for certain elections; to provide for the form of ballots for an election in which nominations have not been made or have been made so close to the date of election as to preclude their being printed on the ballot; to consolidate the advertisements for military and civilian absentee ballots; to change the certificate to be annexed to the absentee primary ballot to conform with the provisions of the election law relating to eligibility to vote in primary elections and to provide a "saving clause" so that irregularity or failure in publication of notices or in the preparation or forwarding of ballots shall not invalidate an election. The present law makes no distinction among the various types of elections in fixing the time for preparation and mailing of absentee ballots. This is so despite the fact that certain municipal, school or special district elections do not afford time to properly comply with the provisions of the present act. Assembly Bill No. 363 is a commendable attempt to remedy this situation. It is essential that the Absentee Voting Law be a workable one so that no citizen of this State, who is otherwise qualified, is arbitrarily disfranchished by the fact that he will be absent from the State on election day. I am convinced, however, after study of the legal and mechanical problems of absentee voting, that several changes must be made in the bill in order to provide a practical procedure. The statement appended to Assembly Bill No. 363 indicates that a "saving clause" has been inserted so that irregularities and failures in the publication of notices or the preparation or forwarding of ballots will not invalidate an election. Such a saving provision

cannot be accepted as a substitute for an understandable and workable statutory formula.

Section 2 of Assembly Bill No. 363 provides that the notice to persons desiring absentee ballots shall be published prior to the fortieth day immediately preceding the holding of any general, primary or municipal election and prior to the fifteenth day immediately preceding annual or special school elections or an election for the first mayor and the first members of the governing body of a municipality elected after the adoption of the "municipal form of government" law, and a reasonable time before the holding of an election in any special district, other than a municipality, created for specific public purposes within 1 or more municipalities. I am informed that the use of the term "municipal form of government" law is a misprint and should read "municipal manager form of government," and refers to Subtitle 5 of Title 40 of the Revised Statutes. I have recommended appropriate amendents to the bill to clarify this reference. The provision for reasonable time is an ambiguous standard which invites litigation. Since requests for civilian ballots must be received at least 8 days before an election, a time for publication less than 15 days would seem unreasonable.

Section 3 of the present law is amended by Assembly Bill No. 363 to eliminate the requirement that ballots be forwarded as soon as practicable after the twenty-fifth day preceding the holding of any election. The bill retains the 25-day period for general, primary or municipal elections and adds a 10-day period for the mailing of absentee ballots for an annual or special school election or an election for a first mayor and first members of the governing body in a municipality who were elected after the adoption of the "municipal manager form of government" law and provides for mailing a reasonable time before the holding of an election in any special district other than a municipality, created for specific public purposes within 1 or more municipalities. There is no reason for withholding the mailing of ballots until after the tenth day prior to the municipal elections described if such ballots could be available prior to that time. I therefore suggest that this section be amended so that greater opportunity is given for absentee voters, especially those in our Armed Forces, to receive and utilize absentee ballots.

Section 14 of the act is amended by section 4 of Assembly Bill No. 363 so as to provide in part that in the event a public question is to be submitted which cannot be formulated precisely in time to be printed on the ballot, a general description of the subject matter may be printed thereon with sufficient blank spaces for the absentee voter to indicate his choice thereon by writing in the same, or if the question is of such character as to make it necessary for the voter to indicate a choice other than "Yes" or "No" it shall contain an appropriate legend and sufficient blank spaces for the voter to indicate his choice by writing in the same.

It is essential to the voter's decision on a public question that he know precisely what the public question is. In the light of other provisions in the present bill, enough latitude is allowed in the preparation and forwarding of ballots so that there is no reason why the public question should not be formulated in precise terms. The added amendment to section 14 to allow an absentee voter to indicate a choice other than "Yes" or "No" is undesirable. There is not, nor should there be, any provision in the general election law for the formulation of a public question which cannot be answered "Yes" or "No".

I have recommended certain other changes in the bill to eliminate other technical problems of which I have been made aware.

Accordingly, I am returning Assembly Bill No. 363 herewith for reconsideration and with the recommendation that the bill be amended as follows:

On page 2, section 1, lines 43 and 44, after the word "elected" delete the words "after the adoption of the 'municipal form of government' law" and insert in lieu thereof "under the provisions of Subtitle 5 of Title 40 of the Revised Statutes".

On page 4, section 2, line 37, delete the words "at the" and insert in lieu thereof "in a".

On page 5, section 2, line 60, delete the words "annual or special school election or an election for the first" and insert in lieu thereof "other elections.".

On page 5, section 2, delete lines 61 through 65 inclusive, in their entirety.

On page 5, section 2, line 69, after the word "published" insert the words "and circulated".

On page 5, section 2, line 71, after the word "municipality" insert the words "or district".

On page 6, section 3, delete lines 12 through 20 inclusive, and insert in lieu thereof the following:

"Such ballot shall be forwarded as soon as practicable after application therefor is received, but not earlier than the thirty-fourth day preceding the day upon which the election is to be held."

On page 7, section 4, lines 14 and 15, after the word "elected" delete the words "after the adoption of the 'municipal form of government' law" and insert in lieu thereof "under the provisions of Subtitle 5 of Title 40 of the Revised Statutes".

On page 7, section 4, line 28, delete the words "or there shall not be sufficient".

On page 7, section 4, lines 29 and 30, delete in their entirety.

On page 7, section 4, line 31, delete the words "erning the form of absentee ballots,".

On page 7, section 4, line 33, after the word "filled" delete the comma and insert in lieu thereof a period.

On page 7, section 4, delete lines 34 through 41 inclusive, in their entirety.

On page 8, section 5, line 9, delete the words", or identified with,".

ASSEMBLY BILL NO. 387

To the General Assembly:

Pursuant to Article V, Section I, paragraph 14(b) of the Constitution, I am returning herewith Assembly Bill No. 387, with my objections, for reconsideration.

Under the present provisions of the Alcoholic Beverage Law (R. S. 33:1–12), municipalities are authorized to fix, by ordinance, the annual fee for a plenary retail consumption license at not less than $200.00 and not more than $2,000.00 and the annual fee for a plenary retail distribution license at not less than $100.00 nor more than $2,000.00.

Assembly Bill No. 387 would amend the existing law to provide that no ordinance should be enacted which would raise or lower the fee to be charged by the municipality for such licenses by more than 10% from that charged in the preceding license year.

The Alcoholic Beverage Law has left to the governing body of each municipality the determination, within the upper and lower limit fixed by the statute, of the amount of fees to be charged for plenary retail consumption licenses and plenary retail distribution licenses in that municipality.

The original 1933 act set the statutory limits for plenary retail consumption licenses at not less than $350.00 and not more than $1,500.00. This section was amended in 1934 to provide the limits which are presently in the law, not less than $200.00 and not more than $2,000.00. The 1933 act set the limits for plenary retail distribution licenses at not less than $200.00 and not more than $1,000.00. The section was amended in 1934 to change the limits to not less than $100.00 and not more than $1,000.00 and in 1946 to provide the present limits of not less than $100.00 nor more than $2,000.00.

It is significant that the subsections of the statute setting up the permissible range of fees for plenary retail consumption and plenary retail distribution licenses each give the governing body of the municipality the power to adopt an ordinance prohibiting the issuance of any such license within the municipality.

It is thus evident that the policy of this State has been to permit the local governing body to decide as to the quantum of the license fees and as to any changes to be made in the amount of the fees, whether upward or downward, so long as the fees fixed were within the statutory limits.

This bill would substantially limit the discretion of local governing bodies by prohibiting them from raising or lowering existing fees by more than 10% per year. In practical effect, municipalities would be treated differently by a formula based solely on the amount of their existing license fees. However, there is some merit to the argument made by the proponents of this legislation that a sudden substantial change by a municipality in the amount of a license fee from that theretofore fixed is unfair to licensees. Although basically that argument is one to be addressed to, and decided by, the local governing body at the time of the hearing on the ordinance seeking to change the amount of the fees, I would be willing to approve a provision which would be reasonable under all the circumstances and prevent sudden and perhaps unanticipated large increases in the existing amount of the fees by limiting the increase in any one year to 100% of the fee charged in the prior year, or $500.00, whichever is the lesser.

Accordingly, I am returning herewith Assembly Bill No. 387 for reconsideration and with the recommendation that the bill be amended as follows:

On page 1, section 1, line 16, delete the words "or lower".

On page 1, section 1, line 16, delete "10%" and insert in lieu thereof "100%".

On page 1, section 1, line 17, after the word "year" insert the words "or $500.00, whichever is the lesser".

On page 2, section 1, line 47, delete the words "or lower".

On page 2, section 1, line 48, delete "10%" and insert in lieu thereof "100%".

On page 3, section 1, line 49, after the word "year" insert the words "or $500.00, whichever is the lesser".

ASSEMBLY BILL No. 402

To the General Assembly:

Pursuant to Article V, Section I, paragraph 14(b) of the Constitution, I am returning herewith for reconsideration and with my objections, Assembly Bill No. 402.

This bill was intended to prohibit persons engaged in purchasing, selling, or trading of used motor vehicles from lowering the mileage shown on the mileage registering instrument of the vehicle so that a prospective purchaser will be deceived.

The object sought to be accomplished by this measure is desirable. The practice referred to should be specifically prohibited by law. However, Assembly Bill No. 402 contains language which is loose and indefinite and which might result in the law not having its desired effect. I am therefore recommending amendments to make certain that the statute is fully enforceable.

I also believe that the license of any licensed motor vehicle dealer who violates this section, particularly where there is a record of more than one violation, should be subject to suspension or revocation by the Director of the Division of Motor Vehicles.

Therefore, I am returning Assembly Bill No. 402 herewith for reconsideration and with the recommendation that the bill be amended as follows:

On page 1, section 1, lines 1 to 7, delete section 1 in its entirety and insert in lieu thereof the following:

"1. No dealer, as defined by section 39:1–1 of the Revised Statutes, or any person employed by or associated with him, shall replace or in any other manner change the mileage registering instrument of any motor vehicle so as to show a lesser mileage reading than that recorded by the instrument at the time the motor vehicle was acquired by the dealer; provided, however, that this shall not be construed to prevent the repair or replacement of a mileage registering instrument which, by reason of normal wear or through damage, has become unserviceable.

"2. Any person who violates this act shall be a disorderly person and shall be punished by a fine of not more than $100.00 for each violation.

"3. The Director of the Division of Motor Vehicles in the Department of Law and Public Safety may suspend or revoke the license of any dealer who is convicted, or whose officer, agent, partner or employee is convicted, of a violation of this act."

On page 2, section 2, line 1, delete the figure "2" and insert in lieu thereof the figure "4".

ASSEMBLY BILL No. 457

To the General Assembly:

Pursuant to Article V, Section I, paragraph 14(b) of the Constitution, I am returning Assembly Bill No. 457 herewith, with my objections, for reconsideration.

This bill would amend sections 39:4–197 and 39:4–198 of the Revised Statutes, so as to permit a municipality to authorize the board, body or public official having control of traffic in the public streets to adopt regulations designating stops, stations or stands for omnibuses and taxis and designating curb loading zones.

This proposal retains the requirement that any such regulations be approved by the Director of the Division of Motor Vehicles and in that respect differs from a similar bill, Assembly Bill No. 607 of last year, which I did not approve. It merely eliminates the necessity of the adoption of often lengthy ordinances designating bus and taxi stands and loading zones. This should be of particular assistance to the large cities where changes are frequently required.

Section 39:4–197 of the Revised Statutes, which this bill would amend, was amended earlier this year by Chapter 46 of the Laws of 1956 (Assembly Bill No. 214). The amendment accomplished by that act should be included in Assembly Bill No. 457.

Accordingly, I am returning herewith Assembly Bill No. 457 for reconsideration and with the recommendation that the bill be amended as follows:

On page 2, section 1, lines 25 and 26, delete the words "grounds, other than a street or highway," and insert in lieu thereof the word "land".

On page 2, section 1, line 27, delete the words "or any school district board of education therein" and insert in lieu thereof "a parking authority or the board of education of a school district".

ASSEMBLY BILL No. 488

To the General Assembly:

Pursuant to Article V, Section I, paragraph 14(b) of the Constitution, I am returning herewith for reconsideration and with my objections, Assembly Bill No. 488.

Assembly Bills Nos. 488, 489 and 490 are addressed to illegal traffic in narcotics. All three are now before me, and since they are related measures, interdependent in some respects and part of a single approach, they are here considered together.

Assembly Bill No. 488 would amend R. S. 24:18–47. That section is a penalty provision of the Uniform Narcotic Drug Law, chapter 18 of Title 24. As originally enacted, R. S. 24:18–47 denounced a violation of the act as a high misdemeanor. It was subsequently amended to increase the penalties. As thus amended the section now provides:

(a) Any person over 21 years of age who sells, gives, administers or dispenses any narcotic drug, except as authorized by Chapter 18, to any person under the age of 18 shall be punished by a fine of not less than $2,000.00 or

more than $10,000.00 and by imprisonment at hard labor for not less than 2 years with a maximum of imprisonment for life.

(b) Any person who violates any other provision of the Drug Law shall be punished, (1) for each first offense by a fine not exceeding $2,000.00 and by imprisonment with hard labor for not less than 2 years nor more than 15 years; (2) for each second offense by a fine not exceeding $5,000.00 and by imprisonment with hard labor for not less than 5 years nor more than 25 years; and (3) for each third and subsequent offense by a fine not exceeding $5,000.00 and by imprisonment with hard labor for a term of not less than 10 years with a maximum of imprisonment for life.

Assembly Bill No. 488 would increase the minimum sentence under (a) from 2 years to 20 years. It would carve out of (b) offenses consisting of the manufacture or sale of narcotics and provide that the manufacturer or seller shall be punished (1) for each first offense by a fine not exceeding $2,000.00 and by imprisonment with hard labor for not less than 10 years nor more than 20 years; (2) for each second offense, by a fine not exceeding $5,000.00 and by imprisonment with hard labor for not less than 20 years nor more than 30 years; and (3) for each third and subsequent offense by a fine not exceeding $5,000.00 and by imprisonment for not less than 30 years with a maximum of imprisonment for life.

The bill would leave unchanged the penalties for other violations of this chapter.

It should be noted that under existing law the minimum terms of imprisonment are mandatory, and this bill would increase mandatory minimums as outlined above.

Under N. J. S. 2A:168–1, the court is now empowered to suspend the imposition or execution of sentence for violation of the narcotics law only with respect to a first offender and to place such first offender on probation. Assembly Bill No. 488 would remove this power to suspend the execution of sentence with respect to a first offender under subsection (a) above (sale, gift, administering or dispensing by one over 21 years to another under 18) and under the new penalty provisions relating to manufacture or sale. In harmony with that provision, Assembly Bill No. 489 would amend N. J. S. 2A:168–1 to prohibit suspension of

imposition or execution of sentence and probation of such first offenders.

Assembly Bill No. 490 would amend chapter 121 of the Laws of 1952. That act presently provides that a person who hires, employs or uses any child under the age of 18 to transport, carry, sell, prepare for sale or offer for sale morphine, cocaine, heroin, opium or any derivative thereof, or marihuana, for any unlawful purpose, is guilty of a high misdemeanor which under sections 2A:85–6, 2A:85–8, 2A:85–9 and 2A:85–12 of the New Jersey Statutes provides for a maximum sentence of 7 years' imprisonment for a first offense, 14 years for a second offense, 21 years for each third offense and imprisonment for life for fourth and subsequent offenses. Assembly Bill No. 490 would amend this act to provide for imprisonment with hard labor for not less than 20 years with a maximum sentence of imprisonment for life. This mandatory minimum would apply as well to the first offender. Assembly Bill No. 489 would amend N. J. S. 2A:168–1 to bar the suspension of the imposition or execution of sentence and probation of a first offender.

Thus, these bills would not only sharply increase the mandatory minimum sentences, but would as well bar suspension of sentence and probation as to the first offenders described above.

Illegal traffic in narcotics is dirty and tragic. All responsible citizens would welcome some magnificent measure which would blot it out. I deeply appreciate the high purpose which motivated these bills, but I cannot escape the conviction that they would defeat themselves and in the course of that failure would leave a path of injustice.

The simple truth is that narcotic violations do not follow a single, simple pattern which may thus be adjudged *en masse* in advance of their commission. I could not approve these measures unless I could in good conscience say that I reasonably believe that all who hereafter may fall within the sweep of these bills would merit the inexorable and inflexible punishment which the bills would require. I confess that such prescience is not mine.

Let us take a few examples culled, not from a fertile imagination, but from the hard experience of men charged with enforcement of narcotic laws.

Some university students, while at college, acquired marihuana from a peddler and distributed some of it to friends in New Jersey while home on vacation. The students were convicted but sentence was suspended and the defendants placed on probation. These young men have gone on to become useful and valuable citizens. But under Assembly Bill No. 488, they would have to be sentenced to 10 years at hard labor, and if one of the students was 21 years or over and the marihuana was given to one under 18, the mandatory minimum of 20 years would be imperatively imposed.

A druggist who answered an emergency call of a physician and delivered a narcotic without a written prescription would face a mandatory minimum of 10 years, beyond the power to suspend. An inexperienced drug clerk who sold more than 4 ounces of Brown's Mixture or Stokes Expectorant without a prescription would face a mandatory sentence of 10 years, and if the buyer was under 18 and the clerk was over 21, to a mandatory 20-year sentence. A druggist or physician who fails to maintain the detailed records required by chapter 18 or to retain them for the prescribed period would have to be incarcerated for a minimum of 2 to 10 years depending upon which of the many sections of the act he violated because these bills would forbid the suspension of sentence and probation. One who violates the provisions of the act relating to labeling would, without regard to varying circumstances, be subjected to the mandatory minimum of 10 years.

A drug user who, facing imminent arrest for possession, slips the narcotic to his son under 18 to conceal his offense, would fall within the mandatory minimum of 20 years provided in Assembly Bill No. 490.

A drug user, who pools his funds with other users and purchases drugs which he divides with them, may be deemed to be a seller depending upon the niceties of the transaction. One who, out of sympathy for an addict member of his family or an addict friend, obtains a narcotic and gives it to him, would face a mandatory minimum sentence of 10 or 20 years depending upon the ages of the parties.

Such are the implications of these bills. They far exceed in severity and scope the bills now under consideration by the Congress.

Because of the importance of this matter, I held a public hearing to which were invited both advocates and opponents of the bills. The conflicting views were ably and forcefully presented.

The proponents of these bills seek to reach or frustrate the non-addicted supplier of drugs. If the bills reached only him, I would unhesitatingly give my approval. But they are not so confined and although the deterrent quality of punishment may be conceded in certain areas, the question remains whether deterrence may not also be achieved by severe sentences where the facts so warrant, without the inherent self-defeating weakness of laws which are excessively severe in cases involving individuals whose offenses do not merit the punishment commanded by the bills.

In evaluating the bills, we must look at the setting in which they are to operate. The State of New Jersey has been lauded for its effective enforcement of its narcotic laws. Testifying before the Boggs Committee of the United States House of Representatives on October 14, 1955, United States Commissioner of Narcotics, Harry J. Anslinger said:

> "New Jersey has the equivalent of the Boggs Act. There are very, very strict judges who regard trafficking as one of the worst crimes known to man. There is a State police narcotics squad. All of the sheriffs are engaged in narcotics enforcement. . . . All through New Jersey where we have any problem—sometimes in Atlantic City or Newark we might run into some trafficking—the Federal, State police, and local police and sheriffs all work as a team.
>
> "I must say that New Jersey is the one State which has had this terrific problem and has been able to bring it under control by good legislation and by good enforcement and, most important of all, by good judges, because there you do not see a suspended sentence. . . . In some of these districts cases are postponed and postponed and postponed, but not in New Jersey. That is one State I want you to keep in mind when we are talking about the rest of the country, where from the Governor on down they have tried to bring this problem under control and they have done so. . . ."

James C. Ryan, Supervisor of the New York District of the Bureau of Narcotics, which includes the northern counties of New Jersey, reported on October 5, 1955, to Commissioner Anslinger:

> "The northern counties of New Jersey . . do not pose any serious problem to us. Narcotic trafficking is light and the occasional major trafficker encountered in these areas is usually dealt with severely.
>
> ". . . Because of the severity of sentences imposed in State courts in New Jersey, we usually prosecute narcotic cases locally and obtain very satisfactory results."

Our records sustain the views expressed by the Federal officials. The bulk of the narcotic problem is centered in Essex County. Yet the Chief Probation Officer of that county advises that in the 5 years 1951 to 1955, there were only 282 drug cases in the County Court of Essex County, only 42 of which were for selling. In recent years the non-addict promoter, peddler or pusher has constituted but a minute percentage of the defendants. For instance, among the 55 persons convicted in the County Court of Essex County in 1955, only one was a non-addict peddler. There is no reliable evidence of increase in the traffic in our State. In these circumstances, we should hesitate before embarking upon a new program of mandatory minimum sentences devoid of discretion to fit the punishment to the offense and the offender.

Public officials representing a tremendous number of years of practical experience in law enforcement in general and narcotics in particular joined in opposition to these features of the bills. On the State level, the Attorney General of New Jersey, the Commissioner of Institutions and Agencies and the Principal Keeper of the New Jersey State Prison oppose the measures. The Conference of County Judges unanimously disapproves of them, and all of the county prosecutors express the same opposition. The experienced Chief Probation Officer of Essex County condemns the measures. This opposition springs not from a desire to retain the power now vested in county judges, or the opportunity which prosecutors or probation officers have to be heard in connection with sentencing—a power and opportunity which less conscientious men would gladly forego—but rather from a conviction born of long exposure

to the problem, that the bills would neither serve the public nor do justice to its members.

We have had some experience with mandatory legislation of such severity. Under our fourth offender statute which required a mandatory life sentence, the diminishing returns and stark inequity of its provisions led to an amendment which vested discretion at the trial level. California forbade probation in narcotic cases in 1951, but found it necessary to repeal its legislation in 1953. The reasons are readily apparent.

Further, when the punishment is shockingly beyond the offense and the offender, officials charged with the execution of the laws are driven to devices to escape the legislative mandate. Prosecutors are reluctant to prosecute; grand juries will not indict; judges join in refined constructions to avoid palpable injustice and thereby the law is weakened in later applications to real culprits; petit juries, when the stakes become known, refuse to convict. A mandatory sentence which may not be suspended means that the accused necessarily defends; he has nothing to lose. There is thus devoted to prosecutions valuable manpower which would be more productive in additional investigations. The weak link in a criminal chain, who would speak and inform in hope of leniency, is silenced.

The self-defeating infirmity inheres not only in a severe mandatory penalty which may not be suspended, but as well in an unduly severe mandatory penalty for a first offense even though it may be suspended. When the mandatory minimum is thus unrelated to a just result, the sentencing judge is driven to suspend the sentence, although he believes that the actual execution of a prison sentence less than the statutory minimum would be more fitting.

Thus, the public interest would be disserved. And perhaps of greater importance would be the abandonment of our principles of justice. We are dedicated to justice not only to the public at large but also to the individual. Justice to the individual means treatment which accords with the offense and the offender. Equality of justice necessarily means equal treatment under like circumstances and rejects identical punishment for all who trespass, without regard to the facts of the particular case. We have developed an extensive program of presentence investigation and probation to this end. We salvage when we can.

The bills seem to embrace the tenet that injustice to individual defendants is a fair price to pay for the deterrent effect upon the addict as well as the non-addict sellers. We do not sacrifice individuals for the common good; rather we find the common good in doing justice to the individual. And justice to the individual, with adequate deterrence to others, can best be achieved at the hands of an alert, conscientious and competent trial judge who has before him all of the facts relating to the offense and the offender. His is the real and intelligent opportunity to reach a sound judgment.

For these reasons, I cannot approve of bills which would impose severe mandatory penalties upon first offenders without the safety valve of the probation program. Nor can I approve of excessive mandatory minimum sentences for first offenders which may drive trial judges to suspend sentence rather than to impose a jail sentence deemed to be oppressive. I am willing to approve increases in the authorized maximums, to the end that, in appropriate cases, sentences may be imposed which will both fit the situation and serve to deter others.

I am accordingly returning all three bills with recommended amendments. As to Assembly Bills Nos. 489 and 490, the suggested amendments are set forth in separate messages relating to each bill.

Therefore, I am returning herewith Assembly Bill No. 488 for reconsideration and with the recommendation that the bill be amended as follows:

On page 1, section 1, line 8, delete the figure "20" and insert in lieu thereof the figure "2".

On page 1, section 1, line 14, delete the figure "10" and insert in lieu thereof the figure "2".

On page 2, section 1, line 17, delete the figure "20" and insert in lieu thereof the figure "5".

On page 2, section 1, line 21, delete the figure "30" and insert in lieu thereof the figure "15".

On page 2, section 1, lines 38 to 40 inclusive, delete the sentence "The execution of any sentence imposed

under paragraphs (a) or (b) of this section shall not be suspended.".

ASSEMBLY BILL No. 489

To the General Assembly:

Pursuant to Article V, Section I, paragraph 14(b) of the Constitution, I am returning herewith for reconsideration and with my objections, Assembly Bill No. 489.

The provisions of this bill and my objections to it are set forth in my message with respect to Assembly Bill No. 488.

The statute which the bill would amend presently does not forbid suspension of the sentence of second, third or subsequent offenders against chapter 121 of the Laws of 1952. Since the present policy with respect to such violations of the Uniform Narcotic Drug Law (chapter 18 of Title 24 of the Revised Statutes), is to bar suspensions as to such offenders, I approve of so much of this bill as accomplishes like treatment. However, for the reasons set forth in my message as to Assembly Bill No. 488, I cannot approve of the deletion of the power to suspend as to first offenders.

Therefore, I am returning Assembly Bill No. 489 herewith for reconsideration and with the recommendation that the bill be amended as follows:

On page 2, section 1, lines 23 and 24, delete the words "against any provision of said chapter 18 which does not relate to the manufacture or sale of narcotic drugs".

Respectfully,

ASSEMBLY BILL No. 490

To the General Assembly:

Pursuant to Article V, Section I, paragraph 14(b) of the Constitution, I am returning herewith for reconsideration and with my objections, Assembly Bill No. 490.

The provisions of this bill and my objections to it are set forth in my message with respect to Assembly Bill No. 488.

I am willing to approve a mandatory minimum, subject to the power of suspension, in harmony with the existing legislative policy as to other narcotic violations, but the minimum should not be so high as to force trial judges to suspend in cases where a reasonable minimum sentence should and would be imposed and executed. I also approve the provision for the maximum sentence which a court may be permitted to impose where justice so dictates, either as to a first or subsequent offender.

Therefore I am returning Assembly Bill No. 490 herewith for reconsideration and with the recommendation that the bill be amended as follows:

On page 1, section 1, line 6, delete the figure "20" and insert in lieu thereof the figure "2".

ASSEMBLY BILL No. 522

To the General Assembly:

Pursuant to Article V, Section I, paragraph 14(b) of the Constitution, I am returning herewith for reconsideration and with my objections, Assembly Bill No. 522.

This bill would amend sections 1 and 3 of P. L. 1946, c. 25, as amended and supplemented by P. L. 1953, c. 107, and as amended by P. L. 1954, c. 253. Section 1 now provides that in municipalities not under Civil Service which have a population of less than 30,000 and are located in a county of the first class having a population of more than 800,000, a person, if otherwise qualified, may be appointed a policeman or fireman even though he does not meet the statutory requirement of 2 years prior residence within the municipality, if he has resided in the county for 2 years and agrees to become a resident of the municipality within 3 years thereafter. Section 3 permits a policeman or fireman in such municipalities to reside outside the municipality but within the county for one period not to exceed 3 years.

Assembly Bill No. 522 would increase the permissible periods of non-residence from 3 to 5 years both in sections

1 and 3. It would also make the law applicable to all such municipalities in first, third or fifth class counties.

The thesis behind section 1 of the act and its proposed amendment appears to be that in municipalities under 30,000 there is some difficulty in recruiting policemen and firemen from among those who have resided in the municipality for 2 years. If this is so, there is no reason why the law should be limited to such municipalities as happen to be located within first, third or fifth class counties. Accordingly, I recommend that it be made applicable to all counties uniformly.

An important reason for requiring that policemen and firemen reside within a municipality is that they be readily available for duty in case of an emergency. The 3-year period provided by section 1 of P. L. 1946, c. 25, within which a nonresident person appointed as a policeman or fireman must move into the municipality seems to me to be long enough in the normal case. However, there may be specific hardship cases, and therefore, the governing body should be granted authority to extend the residence requirements for an additional period of 2 years in such individual cases.

The problem of the recruitment of new policemen or firemen is not involved in section 3 of the act. No reason is evident for changing from 1 to 3 years the one 3-year period during which, under the present law, a policeman or fireman in such municipalities is permitted to reside outside the municipality but within the county. The section should be applicable irrespective of the county in which the municipality is located.

Accordingly, I am returning Assembly Bill No. 522 herewith, for reconsideration and with the recommendation that it be amended as follows:

On page 1, section 1, lines 5 and 6, delete the words "located in counties of the first, third or fifth class".

On page 2, section 1, line 13, delete the figure "5" and insert in lieu thereof the figure "3".

On page 2, section 1, after line 20, insert a new paragraph as follows:

"Prior to the expiration of the aforesaid 3-year period the governing body may, if it deems it necessary, extend the period of time for the non-resident appointee to become a resident of the municipality for an additional 2-year period. Such an extension may be granted by resolution of the governing body."

On page 2, section 1, line 22, delete "5-year period" and insert in lieu thereof "3- or 5-year period, whichever is applicable,".

On page 2, section 1, line 25, delete the word "aforementioned".

On page 2, section 1, line 26, delete "5-year period" and insert in lieu thereof "period of non-residency permitted".

On page 2, section 2, line 4, delete the words "located in counties of the first, third or fifth class".

On page 2, section 2, line 7, delete the figure "5" and insert in lieu thereof the figure "3".

On page 2, section 2, line 9, delete "5-year" and insert in lieu thereof "3-year".

On page 3, section 2, line 17, delete "5-year" and insert in lieu thereof "3-year".

ASSEMBLY BILL No. 553

To the General Assembly:

Pursuant to Article V, Section I, paragraph 14(b) of the Constitution, I am returning herewith Assembly Bill No. 553 with my objections, for reconsideration.

This bill provides that any citizen of the Dominion of Canada, who has declared his or her intention of becoming a United States citizen and who is otherwise qualified, may be granted a teacher's certificate and be employed as a teacher by a board of education, but that the certificate shall be void and shall be cancelled by the board of examiners if the holder shall not have become a United States citizen within 5 years of the date of its issuance. The bill further provides that no tenure shall be acquired by such teacher unless and until the citizenship shall have been granted.

The bill in its present form is a special bill, with a classification obviously tailored to accommodate a particular situation. There has been, however, no attempt to qualify Assembly Bill No. 553 under the procedure required for the passage of special, private or local laws.

In view of the present shortage of teachers, there would appear to be merit to a policy of allowing qualified personnel, who have declared their intention of becoming citizens, to teach in our public schools prior to their becoming citizens. But that policy should not be limited to citizens of Canda. The issuance of the original certificate should be made subject to the approval of the Commissioner of Education. Further, such employment should be subject to the continuing control of the State Board of Examiners, who should be empowered to revoke the certificate in the event that the holder abandons his intention of becoming a United States citizen or becomes disqualified for citizenship.

For the above reasons, I am returning Assembly Bill No. 553 herewith for reconsideration and with the recommendation that the bill be amended as follows:

On page 1, section 1, line 1, after the word "of" delete the words "the Dominion of Canada" and insert in lieu thereof "any other country".

On page 1, section 1, line 3, after the word "may" insert the words "with the approval of the Commissioner of Education".

On page 1, section 2, line 2, delete the words "board of examiners" and insert in lieu thereof the words "State Board of Examiners".

On page 1, section 2, line 4, after the word "issuance" insert the words "and may be revoked within said period by the State Board of Examiners if the said Board is satisfied that the holder thereof has abandoned his efforts to become a United States citizen or has become disqualified for such citizenship".

Respectfully,

ASSEMBLY BILL No. 95

To the General Assembly:

I am returning herewith, without my approval, Assembly Bill No. 95 for the following reasons:

This bill amends section 2A:11–35 of the New Jersey Statutes which now provides that the sheriff in first class counties, with the consent of the board of chosen freeholders, shall have power to appoint not more than 4 persons as

officers in charge of court attendants whose salary shall be fixed by the board of chosen freeholders on recommendation by the sheriff.

Assembly Bill No. 95 would authorize the appointment of not more than 4 additional persons as assistant officers in charge of court attendants with the positions to be filled only by promotion from among the court attendants in accordance with the Civil Service law. Hereafter officers in charge could be appointed only from among the group of assistant officers in charge. Compensation of assistant officers in charge would be fixed in the same manner as is that of officers in charge, by the board of chosen freeholders on recommendation of the sheriff.

This bill affects Essex and Hudson counties. Initially, it should be noted that since this bill makes the appointment of assistant officers in charge permissive, the provision requiring that the positions of officers in charge be filled only from the personnel of assistant officers in charge should apply only where there are such assistant officers.

The major issue involved, however, is the necessity, as a question of efficient personnel administration, of an additional middle echelon of supervisory employees in the affected counties.

I have been advised that this measure would impose an additional cost upon the County of Essex, estimated to be $23,840.00 per year. This consists of one advancement of $600.00 for the 4 assistant officers, total $2,400.00, and 4 replacements at $5,360.00, or a total of $21,440.00. No comparable benefits would accrue to the county, to the functional efficiency of the court system or to the public. The supervisory work to be performed by the additional supervisory employees is such as can be, and is presently being, performed by the officers in charge, the sheriff and the deputy sheriff. If the philosophy of this measure were applied to all county departments, there would be a top-heavy structure of supervisory personnel. Further, the regular and customary duties of court attendants would not appear to require more supervision than now exists. Court attendants are under the supervision of the judge and sergeant-at-arms as well as the supervisory personnel in the sheriff's office.

The effect of this measure would be to increase substantially the tax burden of the residents of the counties affected without any apparent compensating benefit. The sponsor of this measure has repeatedly expressed his opposition to any new or additional taxes at the State level. This measure does not demonstrate a similar concern at the county level. It is axiomatic that the increase in employees in any county must necessarily be reflected in an increase in the county tax rate and cannot be justified where no beneficial effects would be derived from such personnel expansion.

For these reasons, I feel impelled to return Assembly Bill No. 95 herewith, without my approval.

Respectfully,

[SEAL] ROBERT B. MEYNER,
Governor.

ASSEMBLY BILL No. 121

To the General Assembly:

I am returning herewith, without my approval, Assembly Bill No. 121 for the following reasons:

Under section 19:31–10 of the Revised Statutes the original and duplicate of permanent registration forms are required to be filed in the office of the Commissioner of Elec-

tions alphabetically, by districts, in separate sets of locked binders, one for the permanent office record and the other for use in the polling places on election day. Each set of locked binders consists of 2 volumes for each election district with volume I containing an index alphabetically arranged beginning with the letter "A" and ending with the letter "K" and volume II containing a similar index beginning with the letter "L" and ending with the letter "Z".

Assembly Bill No. 121 would amend section 19:31–10 to permit the permanent registration forms to be filed either alphabetically or by street and house number, by districts. It would also permit each set of locked binders to consist of such number of volumes as the commissioner should deem practicable with each volume containing as nearly as practicable an equal number of registration forms. Where the forms are filed by street and house numbers, the street names are to be in alphabetical sequence.

The adoption of the plan contemplated by Assembly Bill No. 121 would cause complications, involve additional costs and serve no useful purpose.

A uniform procedure in each county for the keeping of permanent registration forms is desirable. To substitute for the simple method of alphabetical filing, a method of filing based on street numbers would be confusing, particularly where the street number is of a multi-family dwelling. Further, the chance of error and misfiling would be compounded if the filing were to be on the basis of street numbers. For example, section 19:31–16 of the Revised Statutes requires the health officer of each municipality to advise the commissioner, at least monthly, of the names and addresses of all persons who have died within such municipality during the previous month and R. S. 19:31–17 requires each prosecutor of the pleas to notify the commissioner monthly of the names and addresses of all persons who have been convicted during the previous month of a crime which would disfranchise them under laws of this State. Addresses appearing on death certificates and on the prosecutor's records may differ from the addresses appearing on the commissioner's records. If the latter's records are filed by street address, the purging of those records by removal of the registration form of deceased or disfranchised persons would in many cases become more difficult.

Accordingly, I am returning herewith Assembly Bill No. 121 without my approval.

Respectfully,

ASSEMBLY BILL No. 136

To the General Assembly:

I am returning herewith, without my approval, Assembly Bill No. 136 for the following reasons:

This bill relaxes educational and professional qualifications for admission to the examination for a physician's license in certain cases by extending exceptions in P. L. 1938, c. 121. Specifically, the bill would change the educational requirement so that a graduate of a non-accredited medical school could take the medical examination. The internship requirement would also be reduced from 18 months to 1 year.

In returning without my approval Senate Bill No. 282 of the 1954 legislative session, a bill which would have effected the same object, I stated as follows:

> "Such legislation is contrary to the purpose of the Medical Practice Act of safeguarding the public against the admission to practice of physicians who have been graduated from non-approved medical schools. It bypasses the Board of Medical Examiners which has the salutary duty and power to pass on the standing of

professional schools and colleges. The additionally specified alternative qualifications for enjoyment of the waiver of graduation from an accredited school are not, in my opinion, adequate substitutions for the requirement eliminated.

"I cannot in conscience approve any bill which may lower the standards of medical care, to the injury of the citizens of the State, either in itself or as a precedent for similar special exceptions to the act in the future."

My views concerning that bill and also the present bill are confirmed by reason of the experience under chapter 363 of the Laws of 1953. That act reduced the requirements necessary for admission to the medical examination. I have been advised that the experience of the State Board of Medical Examiners with that act indicates that such legislation results in a lowering of the standards of the medical profession.

It should be noted that the individual who would be affected by Assembly Bill No. 136 was made eligible for the examination by the 1953 act. I have been informed that he took the examination pursuant thereto but was unsuccessful.

The qualifications of the particular individual here involved to practice medicine in ths State cannot be considered by special legislation couched in general terms. I cannot approve of special exceptions to the general requirements established for the protection of the public. It is recognized that the public cannot protect itself in determining who is qualified to practice medicine and accordingly the State, through the State Board of Medical Examiners, performs that function. Special treatment for particular individuals by appealing to the sympathies of the legislators is unjustified in view of the vital importance to the public in relying upon the qualifications of licensed physicians.

If the educational and professional requirements of the present law are deemed too stringent, the proper approach is to revise that act in a general manner rather than by special exceptions.

It may be noted that the State Board of Medical Examiners and the Medical Society of New Jersey have strongly opposed this bill as well as all forms of special legislation weakening the provisions of the Medical Practice Act.

Accordingly, I feel obliged to return Assembly Bill No. 136 herewith without my approval.

Respectfully,

ASSEMBLY BILL No. 155

To the General Assembly:

I am returning herewith, without my approval, Assembly Bill No. 155 for the following reasons:

Assembly Bill No. 155 would supplement Subtitle 3 of Title 40 of the Revised Statutes. It provides that in any municipality "having a mayor and council" any elective officer shall be subject to removal for cause connected with his office after he has served at least one year, upon the filing of a recall petition and the holding of a recall election in accordance with the procedures set forth in the bill. It is expressly made inapplicable to municipalities governed under the Optional Municipal Charter Law, P. L. 1950, c. 210.

Provisions for recall elections now exist in the Optional Municipal Charter Law, in the Walsh Act (commission form of government) and in Subtitle 5 of Title 40 (municipal manager form of government).

The numerous other acts under which municipalities have been organized apparently contain no recall provisions. But Assembly Bill No. 155 would apply only to municipalities having a mayor and council. A classification whose basis is whether or not the municipality has a mayor and council bears no reasonable relationship to the purpose of the act and is ambiguous and confusing. So far as I have been able to ascertain, such a classification has no precedent in our municipal law.

I am advised that among the municipalities which are governed by a mayor and council are boroughs (R. S. 40:87–1, et seq.), some cities (chapter 171 of Title 40), some towns (R. S. 40:125–1) and a number of municipalities organized under old special charters and referendum acts which have been saved from repeal. No reason appears why, for example, a city which is governed by a mayor and council should be treated differently from a city governed by a mayor and board of aldermen. In many sections of the statutes relating to cities we find the words "alderman" and "councilman" used interchangeably. Whether this bill would apply to those cities is questionable. Further, the only municipalities having a mayor and council expressly excepted from the operation of the bill are those subject to the Optional Municipal Charter Law. The question arises whether municipalities having a mayor and council and which are subject to the provisions of the "municipal manager form of government law" would be subject to the recall provisions of this bill.

It is thus evident that the classification of municipalities to which the bill would be applicable, those "having a mayor and council," would only lead to ambiguity and uncertainty. If a recall procedure is to be enacted applicable to some but not all municipalities, the classification in the law providing for such recall should be one of the classifications normally used in legislation regarding municipalities. This bill would do nothing but compound the present confuson in the laws governing municipalities.

For the reasons stated, I am returning Assembly Bill No. 155 herewith, without my approval.

Respectfully,

[SEAL] ROBERT B. MEYNER,
Governor.

ASSEMBLY BILL No. 265

To the General Assembly:

I am returning herewith, without my approval, Assembly Bill No. 265 for the following reasons:

This bill would amend Section 14 of P. L. 1944, c. 27 (N. J. S. A. 17:29A–14) which requires a rating organization or any insurance company making its own rates to submit proposed alterations, supplements or amendments of their rating systems, or any part thereof, to the Commissioner of Banking and Insurance for his approval or disapproval. The amendment would impose on the commissioner a 90-day period within which he must approve or disapprove any such alteration, supplement or amendment filed with him. If he fails to approve or disapprove such change within 90 days after the proposed change has been submitted to him, the change will be deemed to have been approved by him.

The amendment to the existing law incorporated in the bill would be contrary to the public interest, and more particularly to the interest of that portion of the public which must pay insurance premiums. Under section 14 of the act, the Commissioner of Banking and Insurance is required to determine whether the rates as altered, amended or supplemented by the filing made with him are reasonable, adequate and not unfairly discriminatory. In order that it may intelligently make that determination, the Department of Banking and Insurance must conduct detailed and thorough studies of the changes sought to be made and the reasons therefor. Although normally the commissioner is able to make such determinations within 90 days, cases arise in which the matter cannot be disposed of within that time.

Particularly is this so where the commissioner finds it necessary to call upon the insurance company or the rating organization for additional information or finds it necessary to engage in negotiations with them in an attempt to obtain a modification of the alterations, supplements or amendments proposed.

It is unreasonable and it is unfair, both to the public and to the insurance companies involved, to require the commissioner to make a final determination within an arbitrary 90-day period instead of allowing him such time as may be necessary to enable him to determine whether the rates as altered, supplemented or amended by the filing are in fact reasonable, adequate and not unfairly discriminatory.

The proponents of this legislation point to the fact that section 7 of the act dealing with the initial rate filings required to be made by insurance companies under the 1944 act does contain a 90-day limitation for action by the commissioner. But this automatic approval provision was required in order to permit the companies to continue insurance underwriting operations in New Jersey during the initial period following the enactment of the 1944 act. No such consideration applies to alterations, supplements or amendments dealt with in section 14.

Accordingly, I am returning Assembly Bill No. 265 herewith, without my approval.

Respectfully,

Governor.

ASSEMBLY BILL No. 274

To the General Assembly:

I am returning herewith Assembly Bill No. 274, without my approval, for the following reasons:

This bill would amend section 11:27–1 of the Revised Statutes so that the last day on which an applicant for a Civil Service examination may establish that he is a veteran or is a veteran with a record of disability, will be the date of the holding of the examination, instead of, as under the present law, the announced closing date for filing applications for such examination.

Assembly Bill No. 274 would seriously hamper the administration of the Civil Service examination program by the Department of Civil Servce. It would substantially reduce the time the department now has available for determining the applicant's alleged status as a "veteran" or as a "veteran with a record of disability incurred in line of duty."

The bill would also have the undesirable effect of subjecting the department to pressure from individuals in the armed services who are about to be discharged to delay holding examinations in order that such individuals might qualify. The announced closing date is presently chosen at the same time as the announcement of the examination for position is made, thus eliminating the possibility of pressure to accommodate a particular individual.

Further, it may be noted that chapter 98 of the laws of 1944 contains a provision that in effect gives credit for military service in the computation of the age limitations provided for qualification for positions in the Police and Fire Departments of municipalties (R. S. 40:47–4). An applicant who is overage might establish sufficient veteran's credit to render him eligible to take the examination. If such proof could be made up to and including the date of the examination, there would not be sufficient time to evaluate the evidence presented prior to the holding of the examination.

For the purposes of good administration, the appropriate time for the Department of Civil Service to be informed of a claim of any veteran status should be at or before the closing date for the filing of applications for the examination.

I am therefore returning Assembly Bill No. 274 herewith without my approval.

Respectfully,

ASSEMBLY BILL NO. 275

To the General Assembly:

I am returning herewith, without my approval, Assembly Bill No. 275 for the following reasons:

The bill would accord veteran service credits as defined in section 11:27–1 of the Revised Statutes to those persons who have passed a Civil Service examination for municipal polceman or fireman which was conducted since May 15, 1955, who had not been accorded veteran service credits because their military service had not been terminated on the closing date for application for such examination.

The bill appears to be a companion measure to Assembly Bill No. 274, which changes the closing date for the establishment of veteran status from the closing date for the filing of applications to the date of the holding of examinations.

This bill is clearly special legislation. Its effect is limited to such persons who within 45 days of the effective date of this act present satisfactory evidence of their veteran status to the Civil Service Commssion. It was designed to apply to a particular individual or group of individuals who were not eligible for veteran status at the time they took an examination for municipal policeman or fireman but who subsequently completed their military service and would be eligible for veteran status within the meaning of section 11:27–1 of the Revised Statutes.

The bill would alter the eligibility for appointment of individuals on lists already promulgated by the Department of Civil Service and might necessitate a re-certification of eligibles by the Department of Civil Service to municipalities for which examinations for policeman and fireman have been held since May 15, 1955.

To alter the status of persons already certified by Civil Service is manifestly unfair. It is important to realize that such special legislation not only affects certain individuals beneficially, but also affects a larger group adversely.

Accordingly, I am returning Assembly Bill No. 275 herewith without my approval.

ASSEMBLY BILL No. 287

To the General Assembly:

I am returning herewith, without my approval, Assembly Bill No. 287 for the following reasons:

This bill provides for the establishment and incorporation of stream clearance and drainage districts. Any 5 or more owners of separate lots of land included in any tract of land in this State, on or adjacent to the same stream, may apply to the Department of Conservation and Economic Development for permission to organize such a district. If the department grants the permission, the applicants, who must number not less than 5 but need not include all owners of land within the tract, may incorporate as a stream clearance and drainage district.

The purpose of this incorporated district is to re-establish and maintain the natural flow of the stream in question; to alleviate inundation of lands lying within the tract composing the district; to provide means to establish and maintain stream clearance in the district and to drain lands lying along or adjacent to the stream. Such an undertaking is to be accomplished by a board of managers who have been elected by the members of the incorporated district. Each owner of land within the district is a member of the district. The cost of this undertaking is to be paid after completion by means of an assessment levied upon the lands contained within the tract. This assessment is levied in proportion to the benefit received by such lands.

This bill, as drawn, fails to adequately safeguard the interest of all landowners in the district and raises certain serious constitutional questions. For example, landowners who have not joined with those applying to the department for permission to incorporate as a district receive no notification of any proceeding until after the district has been incorporated. This may well work to deprive owners of substantial areas of land of an opportunity to present certain information before the department and to influence the thoughts of neighboring landowners until it is too late.

Moreover, the provision for assessment upon the land is placed in the hands of a private group of individuals. While there is language in the cases that might tend to support such a procedure, *In the Matter of Drainage Along Pequest River*, 41 N. J. L. 175, 180 (E. & A. 1879), it is questionable whether private commissioners have the constitutional authority to levy assessments such as those herein contained.

The bill further provides that such assessments are to be a "first and paramount" lien upon the lands in the district. Here, again, there is a question whether an assessment by a private group can take such precedence. Even if such an assessment can be given such a priority, it is doubtful whether the words "first and paramount" are sufficiently clear so as to resolve all possible doubts. As presently phrased, this provision is an invitation to litigation.

This bill also fails to make clear the precise role the Superior Court is to play in determining the validity of the assessments. It is unclear whether the Superior Court has the power to change assessments filed with them where there is no objection made. This ambiguity should be resolved.

In returning this bill I wish to point out that I am in sympathy with the objective sought to be accomplished by The Joint Commission on Drainage and Stream Clearance. Conservation and reclamation of our State's natural resources is an end that I am sure is desired by all.

However, in light of the obvious defects of this bill, in its present form, I feel that I have no alternative but to return it. The questions raised are serious in nature and deserving of thorough investigation. Regrettably, the period within which I must act on this bill does not leave adequate time for the consideration of these important questions and for more detailed study of the bill.

Accordingly, I am constrained to return Assembly Bill No. 287 herewith without my approval.

ASSEMBLY BILL No. 288

To the General Assembly:

I am returning herewith, without my approval, Assembly Bill No. 288 for the following reasons:

Assembly Bill No. 288 purports to validate ordinances or proceedings heretofore adopted vacating a street, highway or other public place despite the fact that the ordinances or proceedings and proof of publication were not filed with the county recording officer within the time limited by section 40:67–21 of the Revised Statutes, 60 days.

Neither the statute nor the decisions of our courts render invalid any ordinances or proceedings for vacation of a street, highway or public place in the event it is not recorded within 60 days. R. S. 40:67–21 merely provides that the record of such an ordinance, filed within that time in accordance with the statutory requirements, "shall be taken and received in all courts and places as evidence of such ordinance or other proceeding and the adoption thereof." Assembly Bill No. 288 seeks to attach the presumption of validity to any such vacation ordinance or proceeding heretofore adopted if it, together with proof of publication, if any, is filed within 60 days of the effective date of this bill.

The prompt filing with county recording officers of street vacation proceedings is of assistance to lawyers and title companies examining titles. Such filing is encouraged by a statute providing that records thereof when properly and promptly filed shall be taken as prima facie evidence of the validity of the ordinance and the proceedings leading to the adoption thereof.

If ordinances and proceedings are not promptly filed, the justification for giving them the stamp of prima facie validity disappears. A practice of so-called "validation" from time to time of ordinances and proceedings not filed within the statutory time, so as to attach the presumption of validity to them, tends to discourage prompt recording and in effect destroys the value of section 40:67–21 of the Revised Statutes.

Accordingly, I am returning Assembly Bill No. 288 herewith, without my approval.

To the General Assembly:

I am returning herewith, without my approval, Assembly Bill No. 301 for the following reasons:

This bill is the same as Assembly Bill No. 30 of the 1954 legislative session. I returned that bill to the General Assembly on August 2, 1954 and stated as follows:

> "The objective of this bill is to add a route of approximately two and one-quarter miles in length to the State Highway System in Cape May county. The proposed addition is in the nature of a spur extending from Route U. S. 9 to Central Avenue, Ocean City. This road is presently part of the Cape May county road system and is known as County Route No. 23.

"The State Highway Department now operates and maintains one such spur route into Ocean City extending from Route U. S. 9 to Somers Point. I have been informed that this connection to Ocean City adequately serves the State Highway traffic.

"Moreover, under our policy of diversion of highway user revenues, only a limited number of through State highways can be constructed and maintained. We cannot afford to add additional roads to our State Highway System under these circumstances except where clearly desirable for the State Highway System.

"It has been the policy of the State Highway Department, so far as convenient, to construct all new highways, freeways or parkways in such manner as to prevent access from adjoining property and thereby reduce congestion and accidents. The road in question does not conform to that standard."

These reasons apply equally to Assembly Bill No. 301 and I am, accordingly, returning Assembly Bill No. 301 herewith without my approval.

Respectfully,

ASSEMBLY BILL No. 316

To the General Assembly:

I am returning herewith, without my approval, Assembly Bill No. 316 for the following reasons:

This bill woulld amend the veterans' tenure act, section 38:16–1 of the Revised Statutes, to extend the application of the veterans' tenure provisions to persons whose term of employment "is determinable otherwise than by expiration of term and is not of an actual temporary nature and specifically designated as a temporary employment, office or position."

Under R. S. 38:16–1, veterans' tenure is now given to a veteran holding employment, position or office under the State government or the government of any county, municipality or school board or board of education, whose term of employment, office or position is "not fixed by law."

The present act has been construed to be inapplicable to temporary positions or employments, to positions and employments covered by the Civil Service law and positions or employments where the act providing for such positions or employments indicate that, because of the confidential nature of the position or employment, or for some other reason, the incumbent is to hold at the pleasure of the appointing authority.

The vague category which would be added by Assembly Bill No. 316 would confuse the present situation. It would reopen an area of uncertainty as to the coverage and scope of the veterans' tenure act which would foster litigation and might well result in making appointing authorities hesitant about employing veterans in temporary positions, to the veteran's detriment.

In any event, there is serious doubt as to the advisability of extending this tenure act to positions or employments which are now not subject to it because the position or employment is already protected by the Civil Service law or is of such a confidential nature that the present policy

of permitting the appointing authority to remove the employee at his pleasure should continue irrespective of whom the particular incumbent of the position or employment may be.

I am, accordingly, returning Assembly Bill No. 316 herewith without my approval.

Respectfully,

[SEAL] ROBERT B. MEYNER,

ASSEMBLY BILL No. 328

To the General Assembly:

I am returning herewith, without my approval, Assembly Bill No. 328 for the following reasons:

This bill would permit the governing body of any municipality served by a volunteer fire company to provide, by resolution, for the payment of a pension to the widow or minor child of a volunteer fireman who died as a result of injuries sustained in the course of performance of duty as a member of the volunteer fire company.

Such pension would be limited to a maximum of $1,200.00 annually to be paid to the widow, during her widowhood, or to the minor child or children, if there is no widow, or after the death of such widow. The municipal budget would provide for payment of the pension and it would be paid in the same manner as municipal employees are paid.

The dependents, including the widow, of a volunteer fireman who dies as the result of injuries sustained in the performance of his duties are entitled to compensation under the Workmen's Compensation Law, section 34:15–75 of the Revised Statutes. Further, the governing body of every municipality and the committee of every fire district is required to provide workmen's compensation insurance coverage for volunteer firemen. See sections 34:15–43, 34:15–74, 34:15–75 and 34:15–76 of the Revised Statutes.

In addition to the workmen's compensation recovery, the widow and children of such firemen are, in most cases, eligible for Social Security benefits.

Basically, this bill is contrary to the policy recommended by the Commission to Study Non-Contributory Pensions in its report of March 1955 to eliminate the many non-contributory pensions and substitute a general, uniform act. That policy was adopted in Chapter 263 of the Laws of 1955. Assembly Bill No. 328 would establish another special non-contributory pension act, practically all of which were repealed by Chapters 190 and 263 of the Laws of 1955. While the General Non-Contributory Pension Act does not apply to volunteers who do not receive salary, I cannot approve of measures which would negate the work of that Commission. If a review of the coverage of the non-contributory act is deemed desirable, a complete study should be made before any legislation is adopted.

I do not wish by my action to detract from the credit and recognition due to volunteer firemen and to others who contribute their services to their community and their country for the heroic acts they render in the public service. Pensions for disability, death and retirement, however, have not been expected by the volunteers or been granted by the community.

For these reasons, I feel impelled to return Assembly Bill No. 328 herewith, without my approval.

Respectfully,

ROBERT B. MEYNER,
Governor.

COMMITTEE SUBSTITUTE FOR ASSEMBLY BILL NO. 354

To the General Assembly:

I am returning herewith, without my approval, Committee Substitute for Assembly Bill No. 354 for the following reasons:

This bill would require a public utility which acquires an easement or right of way in, over or under lands privately owned, for the purpose of installing poles, wires, guys, anchors, conduits or pipelines (a) to record with the deed or instrument granting such easement a map or plat showing the location of the easement, or (b) refer in the deed or instrument granting the easement or right of way to a map filed with the county recording officer showing the easement or right of way, or (c) file with the county recording officer, within one year after the date of the deed, a map or plat of such easement or right of way. If the foregoing is not complied with, the recording of the deed or other instrument will not constitute actual or constructive notice of such easement or right of way until the map or plat is so filed for record.

Although I am in accord with the objective sought to be accomplished by this bill, its provisions are ambiguous and confusing. For example, the provision permitting the filing of the map or plat of the easement within one year after the date of the grant poses serious, unresolved questions as to the status of the easement as against the rights of third persons during the one-year period and thereafter until the map is filed. Further, it would appear advisable to incorporate in the bill definitions of some of the terms and phrases used therein. Consideration must also be given to the practical efficacy of the present provisions of this

bill in view of section 2 of Chapter 358 of the Laws of 1953 which requires that any map filed with a county recording officer must have endorsed thereon the written consent of each record holder of an interest in the title to the land delineated thereon, consenting to the filing thereof.

Because of this confusion and ambiguity, I believe that further study of the matter is required. It has been represented to me that a bill is being readied for introduction which will achieve the purpose sought by Committee Substitute for Assembly Bill No. 354 without giving rise to the ambiguities and uncertainties inherent in that bill.

For these reasons, I am returning Committee Substitute for Assembly Bill No. 354 herewith, without my approval.

ASSEMBLY BILL No. 362

To the General Assembly:

I am returning herewith, without my approval, Assembly Bill No. 362 for the following reasons:

Under section 2A:170–9 of the New Jersey Statutes, a person who willfully and maliciously gives or causes to be given a false fire alarm or a false police alarm is a disorderly person and, under section 2A:169–4, may be punished by imprisonment for not more than 1 year or by a fine of not more than $1,000.00, or both.

Assembly Bill No. 362 would amend section 2A:170–9 to provide that if a person is convicted of a second or subsequent offense his punishment must include imprisonment in the county jail for not less than 30 days, in addition to any fine which may be imposed upon him.

The existing statute properly leaves the question of punishment to the discretion of the magistrate, within the statutory limits. Punishment may be as much as 1 year in jail and a fine of $1,000.00, even for a first offense. There is no valid reason why that discretion shoulld be circumscribed in the manner set forth in the bill. The magistrate should be free to fix punishment in view of all the circumstances of the case whether it be a first or a second offense. There is no reason to assume that a magistrate or judge will not exercise such discretion wisely and properly. Isolated instances of an abuse of such discretion, if any, do not justify the approach embodied in the instant bill. The remedy lies elsewhere.

Accordingly, I am returning Assembly Bill No. 362 herewith without my approval.

Respectfully,

ROBERT B. MEYNER,
Governor.

ASSEMBLY BILL No. 382

To the General Assembly:

I am returning herewith, without my approval, Assembly Bill No. 382 for the following reasons:

This bill would permit any person employed by a county in the office of the county clerk whose duty it is to attend

sessions of the county court and, under the direction and control of a judge thereof, to keep minutes of the proceedings of the court, who has been in the employ of such county in such capacity and in any other capacity for a period of 50 years in the aggregate, to be retired upon the adoption of a resolution by the board of chosen freeholders at an annual pension equal to the amount of his last annual salary, payable semi-monthly.

Assembly Bill No. 382 is clearly a special pension bill. I believe that I have made my position with respect to special pension bills sufficiently explicit in many prior messages returning such bills so as to render further amplification unnecessary.

Several aspects of this proposal, however, render it much too generous even by the present day enlightened approach to public employee pensions. Thus, it would authorize a pension equal to full salary, payable semi-monthly, in addition to Social Security. No other public pension is so liberal with public funds.

The individual here affected would be eligible, in any event, for a pension under the General Non-Contributory Pension Act, c. 263, P. L. 1955, which repealed a very large number of special non-contributory pension acts. That act was a result of a careful and lengthy study of the problem. The Legislative Commission to Study Non-Contributory Pensions, established under J. R. 7, P. L. 1954, recommended, in its report of March 1955, the adoption of the General Non-Contributory Pension Act in order to provide uniform pension treatment of public employees who were not required to join a pension system and to eliminate the very impetus which apparently prompted the bill under consideration. If bills such as this are to become law, the fine work performed by that commission through the adoption of c. 263, P. L. 1955 will be rendered useless.

It must also be noted that the individual here affected would be eligible for full Social Security benefits. Accordingly, under this proposal such person would receive upon retirement considerably more than he received when fully employed. This is contrary to all concepts of pensions for public or private employees.

Finally, the individual sought to be benefited by this bill is a veteran. Since he is not a State employee or eligible for membership in the Public Employees' Retirement System, he may receive the benefits of the veterans' pension act, chapter 4 of Title 43 of the Revised Statutes, which would allow a pension of 50% of salary, in addition to Social Security.

For these reasons I am returning Assembly Bill No. 382 herewith without my approval.

ASSEMBLY BILL No. 408

To the General Assembly:

I am returning herewith, without my approval, Assembly Bill No. 408 for the following reasons:

This bill is a companion measure to Assembly Bill No. 431. It would apply to the same counties as that bill and would authorize the judge of the district court to appoint, with the consent of the board of chosen freeholders, one or more court attendants. It would also prohibit any future appointment of a sergeant-at-arms of any such court.

The same difficulties inherent in Assembly Bill No. 431 exist equally wth respect to this measure and are set forth in the message returning that measure. This bill and Assembly Bill No. 431 were intended as an integrated plan for

the replacement of sergeants-at-arms in the district court by court attendants, and thus must be considered together.

In the light of the objections which have been raised as to both bills, I feel compelled to return herewith, without my approval, Assembly Bill No. 408.

ASSEMBLY BILL No. 421

To the General Assembly:

I am returning herewith, without my approval, Assembly Bill No. 421 for the following reasons:

This bill would amend section 1 of chapter 257 of the laws of 1955 which established the law enforcement officer category within the Public Employees' Retirement System. Under the present law, the additional benefits granted this category are afforded only to permanent and full-time employees of the State holding the following titles: inspector, senior inspector, principal inspector, deputy chief inspector and chief inspector in the Division of Motor Vehicles, and inspector, investigator and administrative inspector in the Division of Alcoholic Beverage Control.

Assembly Bill No. 421 would add to this category any patrolman or other police officer of the Board of Commissioners of the Palisades Interstate Park appointed pursuant to section 32:14–21 of the Revised Statutes.

Before the category of "law enforcement officer" was adopted, a complete actuarial study was made and the estimated additional costs calculated. No such actuarial study and no estimated cost figures have been prepared or submitted to me concerning the proposed addition to that category of any patrolman or other police officer of the Palisades Interstate Park Commission. The time limit within which I must act on this measure does not permit such a study by the Division of Pensions. Such study must necessarily include the cost to the State of all other groups potentially includable in this category, so that the overall liability of the State for such a program can be considered prior to legislative action.

For these reasons, I am returning Assembly Bill No. 421 herewith, without my approval.

ASSEMBLY BILL NO. 431

To the General Assembly:

I am returning herewith, without my approval, Assembly Bill No. 431 for the following reasons:

This bill would amend section 2A:6–27 of the New Jersey Statutes so as to permit the board of freeholders in counties having district courts operating on a full-time basis with judges directed to devote their entire time to their duties and not to engage in the practice of law, or the presid-

ing judges in counties having branch parts, to place sergeants-at-arms now serving in such county district court into 2 categories. One of the categories will allow the sergeants-at-arms to devote their entire time and attention to the duties of the office and prohibit them from receiving fees for the service of process. The second category would retain the sergeants-at-arms in their present status which includes the duties of part-time court attendant and part-time process server. Each sergeant-at-arms would be allowed to make his election as to the category in which he wishes to serve.

A companion bill to this one, Assembly Bill No. 408, would eliminate the power of the district court judges to appoint sergeants-at-arms.

The ultimate objective sought to be achieved by these two bills is the gradual elimination of sergeants-at-arms in the district court and their replacement by court attendants. The fact that some of the presently employed sergeants-at-arms are becoming older and no longer physically able to serve court process, has focused attention on the problem.

I am in complete sympathy with a program for establishing full-time court attendants in the district courts where necessary and of granting relief to the sergeants-at-arms who now desire to devote full-time to the attendance of court sessions. The solution proposed, however, by Assembly Bills Nos. 408 and 431 would give rise to inevitable difficulties and inequities because of the long period during which men with different titles, different salaries and in different categories would be performing similar jobs.

Another difficulty with Assembly Bill No. 431 is the inherent ambiguty as to the counties to which it would apply. The bill provides that it would apply to "counties having district courts operating on a full-time basis with judges directed to devote their entire time to their duties and not to engage in the practice of law." There is considerable doubt as to whether this would apply to counties such as Bergen county where some of the judges are full-time and some are not, and a question also arises as to whether it would apply to district courts held by full-time county court judges.

An attempt should be made, utilizing existing legislation as far as possible, to achieve the end sought by these As-

sembly bills without resorting to special and artificial classification as to the courts, judges and personnel involved and without carrying the program over such a long "phasing out" period.

In view of the foregoing, I am returning Assembly Bill No. 431 herewith without my approval.

ASSEMBLY BILL NO. 441

To the General Assembly:

I am returning herewith, without my approval, Assembly Bill No. 441 for the following reasons:

This bill would amend section 2A:11–20 of the New Jersey Statutes which now provides that in first class counties having a population in excess of 800,000 each Superior Court judge sitting in the Law Division and each county court judge may, with the approval of the sheriff, designate from among the court attendants having permanent Civil Service status one person to act as his sergeant-at-arms. The present bill would add the judges of the juvenile and domestic relations court to the list of judges of such counties to whom this section is applicable. An exception is made in the bill to eliminate the requirement of the approval of the sheriff in instances where the court attendant was in the service of the juvenile and domestic relations court prior to July 4, 1929.

Provision for the personnel and employees of the juvenile and domestic relations court is now found in chapter 4 of Title 2A. Section 2A:4–10 provides that the judge of the juvenile and domestic relations court of each county may appoint such clerks and other necessary employees as the board of chosen freeholders of the county may authorize. Assembly Bill No. 441 would modify such power of juvenile and domestic relations court judges in counties of the first class having more than 800,000 population with respect to the appointment of a sergeant-at-arms.

There appears to be no basic or valid reason for extending the requirement that the sheriff approve the appointment of a sergeant-at-arms of a court. The provision requiring such approval by the sheriff in counties of the first class having more than 800,000 inhabitants appears to be unique. None of the other sections of Article 4 of Chapter 11 of Title 2A require such approval. Thus, for example, under section N. J. S. 2A:11–19 the Supreme Court, the Superior Court judges assigned to the Appellate Division and each Superior Court judge assigned to the Chancery Division are authorized to appoint sergeants-at-arms for their respective courts. So, too, N. J. S. 2A:11–21 permits the Superior Court judges assigned to the Law Division in counties of the first class having less than 800.000 inhabitants to appoint a sergeant-at-arms. Again, N.J.S. 2A:11–23 permits county court judges in counties of the first class having less than 800,000 inhabitants to appoint sergeants-at-arms; N. J. S. 2A:11–26 permits assignment judges of the Superior Court in counties other than counties of the first class to appoint a sergeant-at-arms of the courts within that county; and N. J. S. 2A:11–27 permits judges of the county courts in counties having more than 150,000 inhabitants other than counties of the first class, to appoint sergeants-at-arms. In none of these cases is the consent of the sheriff required.

There does not appear to be anything in the nature of the duties and functions of sergeants-at-arms of a law court in a county having a population in excess of 800,000 to justify treatment different from that accorded in all other counties. Nor is any reason shown for extending this unique provision to juvenile and domestic relations courts of counties of the first class having a population over 800,000, particularly in view of the fact that the juvenile and domestic

relations court is itself a court established for particular and special purposes.

Additionally, Assembly Bill No. 441 does not purport to amend chapter 4 of Title 2A, the chapter dealing with juvenile and domestic relations courts. This bill would leave the broad provision dealing with the appointment of necessary personnel by that court intact and thereby result in conflicting and overlapping sections which can only lead to confusion.

I am, therefore, returning Assembly Bll No. 441 herewith, without my approval.

Respectfully,

Governor.

ASSEMBLY BILL No. 468

To the General Assembly:

I am returning herewith, without my approval, Assembly Bill No. 468 for the following reasons:

This bill amends the election law in several respects. It provides that the county board of elections in counties of the first class may appoint in addition to a clerk of the board, 4 office employees, the latter in place of the present provision allowing the board to appoint 2 assistant clerks and 1 assistant stenographer. The salary schedule for the clerk and assistant clerks of the board is eliminated, and instead the compensation of the clerk and the other em-

ployees is to be recommended by the county board of elections and approved by the board of chosen freeholders, without limitation as to salary range.

Another section, added to the bill in committee, amends chapter 167 of the Laws of 1947 to change the classification providing which second class counties might establish the office of superintendent of elections for the county and to provide that the compensation of such superintendents shall be recommended by the county board of elections and approved by the board of chosen freeholders, without limitation as to salary range.

I am informed that the sponsors of Assembly Bill No. 468 did not intend to change the present classification of second class counties which may establish the office of superintendent of elections. That change, which affects the counties of Union, Middlesex and Mercer, was brought about by an inadvertent reference to a statute which had since been amended. The only change the sponsors intended in that section was one to eliminate a salary range for a superintendent of elections in counties of the second class which had or would establish that office. In view of these circumstances, I believe that the bill should be returned without my approval.

I am also concerned about the proposed amendments affecting salaries of both the clerks and the superintendents of elections in second class counties, which would eliminate any statutory salary formula and leave the matter completely to the discretion of the county boards of election and the boards of chosen freeholders. A statutory salary formula for clerks of county boards of elections has been in existence for many years and a statutorily fixed salary for superintendent of elections is retained for similar offices in other classes of counties. Under those circumstances, I have serious reservations as to the advisability of the complete elimination of any formula or range contemplated by this bill.

In view of the foregoing, I am returning herewith Assembly Bill No. 468 without my approval.

Respectfully,

ROBERT B. MEYNER,
Governor.

ASSEMBLY BILL No. 496

To the General Assembly:

I am returning herewith, without my approval, Assembly Bill No. 496 for the following reasons:

Under the present law, section 43:3–1 of the Revised Statutes, any person who is receiving or is entitled to receive any pension or subsidy from this or any other State or any county, municipality or school district of this or any other State, is ineligible to hold any public position or employment other than elective unless he shall have prevously notified the proper authorities that for the duration of such public employment he elects to receive either (a) the pension or (b) the salary. Section 43:3–5 specifies certain exemptions to the operation of section 43:3–1. Assembly Bill No. 496 would further amend section 43:3–5 to permit any such public pensioner to receive not more than $1,200.00 per year in any public employment without being required to make the election. This bill raises for consideration the basic underlying policy of section 43:3–1.

I have approved bills permitting teachers to receive up to $1,200.00 per year without forfeiting pension benefits in order to alleviate the shortage of teachers in this State. No comparable critical shortage of manpower has been manifested in other public employment.

This bill would affect a number of different pension funds from which payments are now made. In some, the retirement allowance is composed of a "pension" and an "annuity" while in others the entire allowance is called a "pension." The effect upon these two types warrants further study. Moreover, consideration must be given to the serious

question of whether the exemption should apply to all categories of employment.

In any event, I do not feel that the basic pension and public employment policy here involved should be established in a casual manner. Appropriate study should be given to a reappraisal of chapter 3 of Title 43 of the Revised Statutes in the light of present day economic and employment conditions.

The net practical effect of this would be to remove all limitations on such employment by public pensioners because as an administrative matter it would be difficult if not imposible to determine when any particular pensioner had earnings from public employment in excess of $1,200.00 per year. No such limitation could be effectively administered without some provision for notice both to the authority paying the pension and to the pensioner's current employer.

Accordingly, I am returning Assembly Bill No. 496 herewith without my approval.

Respectfully,

ROBERT B. MEYNER,

ASSEMBLY BILL No. 497

To the General Assembly:

I am returning herewith, without my approval, Assembly Bill No. 497 for the following reasons:

Assembly Bill No. 497 would supplement Chapter 261 of the Laws of 1949 which authorized municipalities to provide

facilities for the parking of motor vehicles as a "local improvement" and for that purpose, to acquire lands, buildings and other property by purchase or lease. A "local improvement" is "one the cost of which, or a portion thereof, may be assessed upon the lands in the vicinity thereof benefited thereby."

Assembly Bill No. 497 would authorize the municipality to provide such facilities by a contract which may provide for construction of parking facilities upon municipal lands by the person contracted with and may include a lease of such municipal lands to such person for those purposes.

I am advised that although it was entitled as a supplement to Chapter 261 of the Laws of 1949, Assembly Bill No. 497 was not intended to deal with situations where parking facilities were constructed as a "local improvement." Rather, it was introduced to grant municipalities general power to lease municipal lands to a private person for the purpose of constructing and operating a public parking facility thereon.

That power has, however, already been granted to municipalities by Chapter 205 of the Laws of 1954, which amended Chapter 138 of the Laws of 1942. In view thereof, it is evident and the sponsor of Assembly Bill No. 497 agrees, that the bill would not serve the purpose intended and is unnecessary. Any further consideration and discussion of the form and content of the bill as it affects Chapter 261 of the Laws of 1949 therefore becomes unnecessary.

Accordingly, I am returning herewith Assembly Bill No 497 without my approval.

ASSEMBLY BILL No. 552

To the General Assembly:

I am returning herewith, without my approval, Assembly Bill No. 552 for the following reasons:

Ever since its statutory creation in 1902, the boundaries of the Passaic Valley Sewerage District have been described by detailed metes and bounds descriptions set forth in the applicable statutes. So section 58:14–1 of the Revised Statutes contains a description which covers some five pages of the Revised Statutes and Chapter 151 of the Laws of 1942, which extended the district to include portions of Fairlawn, Glen Rock and Hawthorne, contains a detailed description which covers more than one and one-half pages.

The basic purpose of Assembly Bill No. 552 is to extend the Passaic Valley Sewerage District to portions of Essex County which are not now included in the district. However, despite the fixed legislative policy of more than a half century, this bill does not contain a specific description of the portion of Essex County to which the district is sought to be extended, but instead merely provides that the district be extended "to include such parts of Essex County as may drain into Newark bay and appurtenant waters."

It is readily apparent that the territory which would be included within an extension so described is uncertain. A determination as to what areas in fact drain into Newark bay and what are "appurtenant waters" is extremely difficult.

State engineers have advised me that in their opinion this language would include those areas in Newark not now within the district and the municipalities in West Essex which drain into the Passaic River, and thus ultimately into Newark bay.

The chief engineer and the counsel of the Passaic Valley Sewerage Commissioners, however, do not consider the West Essex municipalities to be included because they drain into the Passaic River above the Great Falls. It should be

noted that there is nothing in the bill which requires that the area included drain directly into Newark bay.

The Commissioners' representatives also construe "appurtenant waters" to mean Arthur Kill and have stated that the territory to be added under the provisions of Assembly Bill No. 552 would be:

> ". . . all of the additional area of Newark not presently included; all of the Township of Maplewood; all of the Town of Irvington; all of the Village of South Orange; approximately 65% of the Town of West Orange, being the southeasterly portion of West Orange; and approximately 40% of the Township of Millburn, being the easterly portion of Millburn."

Much of the area included by that construction is now within and served by the sewerage facilities of The Joint Meeting of Certain Municipalities in Essex and Union Counties. Overlapping of territorial jurisdiction of separate sewerage authorities raises many problems. Thus, inclusion within the Passaic Valley Sewerage District of territory now within another sewerage district may impair the powers of the other sewerage district to the extent that Passaic Valley Sewerage Commissioners have pollution control powers.

In addition, the State Department of Health has an important and serious interest in the elimination of pollution in the streams of the State; the interest of that Department has not been taken into account in this bill.

In any event, if the area of the Passaic Valley Sewerage District is to be increased, the area to which it is to be extended should be described in detail in accordance with the past legislative pattern and not by vague reference to a drainage area as to which there appears to be substantial difference of opinion even among experienced engineers. Until, as a result of a thorough and careful study, a clearly defined area is set forth, I shall be unable to give any consideration to the merits of any extension of the Passaic Valley Sewerage District.

I have grave reservations about the advisability of extending the powers and jurisdiction of any autonomous agency or authority within the State until the counties, municipalities and agencies affected have had an opportunity and sufficient time—which they have not had in con-

nection with this bill—to consider and express any adverse effect the proposed legislation might have upon them.

For these reasons I am returning herewith, without my approval, Assembly Bill No. 552.

Respectfully,

[SEAL] ROBERT B. MEYNER,
Attest: *Governor.*
ROBERT J. BURKHARDT,
Secretary to the Governor.

Mr. Mills moved that the message be spread in full upon the Minutes.

Which motion was adopted.

The Clerk read the following message from the Governor:

STATE OF NEW JERSEY,
EXECUTIVE DEPARTMENT,
June 28, 1956.

ASSEMBLY BILL No. 571

To the General Assembly:

I am returning herewith, without my approval, Assembly Bill No. 571 for the following reasons:

Under section 79 (b) of the Public Employees' Retirement System Act, as amended by chapter 4 of the Laws of 1956, effective February 10, 1956, all persons who were then employees of the State and whose compensation was paid in whole or in part by a county which has a separate pension fund, who were then members of such county pension fund and did not apply for withdrawal from such pension system within 60 days from February 10, 1956, were treated as county employees for pension purposes. If they elected to withdraw, they became eligible for membership in the Public Employees' Retirement System. All persons thereafter employed in such positions were required to become members of the Public Employees' Retirement System as a condition of employment.

Assembly Bill No. 571 would add, after the existing provision containing the 60-day limitation of the time within

which they could withdraw, the following language: "or within 90 days after any such employee becomes a State employee."

The amendatory language lacks meaning or effect. The subsection amended applies by its very language only to employees of the State on February 10, 1956. Both 60 days and 90 days have already elapsed since that date and, accordingly, no person could exercise any option under the amendatory language even if the bill became law. If it was the intent to have the amendatory language applied to those persons who became State employees subsequent to February 10, 1956, such object would not be accomplished by this language and could not be effected by an amendment to the subsection here involved.

For these reasons, I am returning Assembly Bill No. 571 herewith, without my approval.

Respectfully,

[SEAL] ROBERT B. MEYNER,
Attest: *Governor.*
ROBERT J. BURKHARDT,
Secretary to the Governor.

Absent were—

Messrs. Field, Glenn, Junda, Kraus—4.

The Clerk declared a quorum present.

The minutes of the previous meeting being read by the Clerk, Mr. Mills moved that the Minutes of July 16th be approved and that the further reading of the Minutes be dispensed with.

Which motion was adopted.

A message was received from the Secretary of the Senate as follows—and was read by the Clerk:

STATE OF NEW JERSEY,
SENATE CHAMBER,
July 30, 1956.

Mr. Speaker:

I am directed by the Senate to inform the General Assembly that the Senate has passed the following bill:

Assembly Bill No. 591, entitled "An act authorizing certain municipalities to adopt, make, amend, repeal and en-

force ordinances to provide for the regulation of rentals and the possession of housing space, with respect to certain properties, and to make necessary appropriations; providing for county rent control review boards in certain cases, imposing certain duties upon the State Rent Control Director, conferring jurisdiction on the county district courts, in certain cases, and providing for the operation of the act in said municipalities when adopted by ordinances of the governing bodies of said municipalities,"

HENRY H. PATTERSON,
Secretary of the Senate.

Whereupon the Clerk delivered Assembly bill referred to in Senate message to Mr. Marryatt, Chairman of Assembly Joint Committee on Passed Bills for presentation to the Governor for his approbation.

The following communication was sent to the desk and read by the Clerk:

ANNUAL REPORT

WATERFRONT COMMISSION OF NEW YORK HARBOR

1955 - 1956

Mr. Mills moved that the communication be received and filed.

Which motion was adopted.

The following communication was sent to the desk and read by the Clerk:

A study of the impact of the cost of the service and expense imposed in connection with the affixing and handling of New Jersey State Cigarette Tax Stamps.

Mr. Mills moved that the communication be received and filed.

Which motion was adopted.

A message was received from the Governor as follows:

GOVERNOR'S SPECIAL MESSAGE TO THE LEGISLATURE

September 17, 1956.

To the Members of the Senate and the General Assembly:

In submitting this special message to the Legislature I strongly urge prompt action on several important problems which affect the present welfare and future progress of our State. These problems demand immediate legislative attention, and I assure you that the co-operation services and facilities of the Executive branch are available to accomplish what, in my opinion, must be our common objective in serving the people of the State of New Jersey.

I. HIGHWAYS

As anyone who has ventured upon the highways of this or any other State well knows, the traffic congestion problem is critical, to say the least. The cause of this condition is clear. In 1946, in the State of New Jersey, there were 1,175,172 motor vehicle registrations; last year there were 2,142,845. The annual increase has been between 130,000 and 150,000. Added to this is the heavy traffic from other States, which have had comparable increases in registrations. The result is that our State highways now have the highest miles-travelled-per-mile-of-highway rate in the nation, seven and one-half times the national average.

Contrasted with this great increase in motor vehicles, new highway construction has been negligible. The sums which have been appropriated for highway purposes since World War II have been so restricted that the major portions have necessarily been expended upon repairs, maintenance and safety improvements of our existing roads. Consequently, only 80 miles of new free State highways have been constructed since 1946.

The State Highway Department has estimated that an expenditure of approximately two and one-half billion dollars during the next 10 years will be necessary to modernize our highway system. For the current fiscal year only $34,000,000 is allocated for construction, over a third of which represents Federal aid.

Congress has recently recognized the importance of expanding interstate defense highways and has enacted legislation substantially increasing Federal aid in this area through a long-range program. To finance this program, an additional one-cent Federal tax upon gasoline became effective July 1, 1956. If New Jersey is to take advantage of the additional Federal aid and obtain the benefit of the moneys its citizens are paying in this additional tax, the State must provide matching funds.

A detailed analysis of the Federal apportionment to New Jersey and the matching funds required has already been submitted to the members of the Legislature by the Highway Commissioner, including a statement of the moneys needed for non-Federal projects for 1957, 1958 and 1959, and the estimated funds available under the Federal act through 1969. Actual matching fund requirements for the first two fiscal years, without consideration of other important aspects, amount to a total of $40,308,776 in order to obtain the $95,134,106 of Federal money. Non-Federal projects will require an additional $20,000,000 in the same period.

In addition, there is the need for advance purchase of rights-of-way to avoid increasing costs of land acquisition and to forestall potential developments on the proposed rights-of-way. Another $10,000,000 per year for the early period has been estimated as the minimum coverage necessary.

Though $20,000,000 has been appropriated to highways as of July 1, 1956, the foregoing cost, totaling $80,308,776 for the two-year period, would require $60,308,776 additional.

Financing the program on a "pay-as-you-ride" basis is the most effective and economical method. This can be accomplished through an additional one-cent tax upon motor fuels with the proceeds to be appropriated for highway construction. The cost would thus be placed upon those who use our highways, including the out-of-State motorists.

Consideration has been given to a bond issue as a means of financing the expanded highway program. It is not in the best interest of the fiscal condition of the State to increase the State debt and incur the expenses of a bond issue and bond interest charges for a project which can be adequately financed on a "pay-as-you-ride" basis.

The additional motor fuels tax would net approximately $18,000,000 per year; this additional revenue would enable New Jersey to claim its full share of available Federal highway funds.

Senate Bill No. 326, which has already passed the Senate, is of great importance to the highway program. This measure would permit the Highway Commissioner to designate as freeways those interstate defense routes approved by the Federal Bureau of Roads. The State cannot obtain the benefit of the 90-10 contribution of Federal money for the acquisition of rights-of-way or highway construction for any routes not designated as freeways. Unless such designation is made soon, the entire planning, acquisition of right-of-way and engineering will be impaired. The Federal government insists that its interstate highway program be expedited and the public expects early relief.

GEORGE WASHINGTON BRIDGE

An area of traffic congestion which warrants prompt attention is the George Washington Bridge crossing over the Hudson River. During the past 15 years, yearly Hudson River vehicular crossings have increased at the average rate of 5% per year. In 1954 there were 76,300,000—double the pre-World War II volume—and it is estimated that in 1960 there will be 91,000,000. Last year, the George Washington Bridge alone carried 33,000,000 vehicles.

The tremendous increase in traffic is still not indicative of the greater problem which results from peak load conditions. From 7:30 a.m. to 9:30 a.m., from 5:00 p.m. to 7:00 p.m. and on Friday and Sunday evenings, the bridge facilities cannot handle the traffic; lines of automobiles jam the approach roadways.

To alleviate this situation and provide for the expected increase in traffic in the metropolitan area, the Port of New York Authority proposes to construct an additional deck of six lanes on the bridge. The project, including immediate approaches, would be erected at a cost to the Authority of approximately $82,000,000.00.

The New York Legislature in March, 1955, recognized the need and passed the enabling legislation to double deck the George Washington Bridge. The program has been discussed at length with the legislative leaders. Action by

New Jersey is imperative. It can be taken at no cost whatsoever to the State of New Jersey.

II. Law Enforcement Program

Adequate law enforcement based upon modern techniques of crime detection and prevention is one of the fundamental functions of any government. Our citizens have a right to expect the highest standard in this field. Because of the changing patterns of crime, the required standard can only be met by modernization of our law enforcement procedure.

The Need for Uniform Police Training

To insure the people of well-informed, properly trained policemen and to elevate public confidence in their law enforcement agencies to the highest possible level, a police training program for all probationary officers is needed, with uniform State-wide standards for such training established by people experienced in the field.

Senate Bill No. 178, which was prepared through consultation with groups interested in law enforcement, would accomplish this objective. This bill would result in the establishment of one uniform standard of required police training throughout the State determined by a commission consisting of personnel familiar with the problems of law enforcement.

The Legislature, instead of acting upon that bill, passed Senate Bill No. 185, which would be ineffective in meeting the problem. I have set forth the reasons therefor in detail in the message accompanying the return of that bill.

Uniform Crime Reporting

In my Annual Messages to the Legislature in January, 1955 and January, 1956, I urged the adoption of an adequate system of crime reporting. To maintain an efficient system of law enforcement, a complete, accurate picture of crime and the disposition of all cases throughout the State is necessary.

There are approximately 425 separate law enforcement agencies in the State without any overall, systematic collation of statistics and criminal records. The effectiveness of the various enforcement agencies cannot be determined in the absence of such information. Accurate crime report-

ing would facilitate and expedite proper law enforcement techniques.

The best approach, with a minimum of additional expense, is to require those already charged with law enforcement to collect the necessary information. In 1955 a bill was introduced and passed the Assembly to enable the Attorney General to prescribe procedures for regular crime reporting by local and county police authorities, with the information to be gathered and assembled by the Division of State Police. This bill has been reintroduced this year as Senate Bill No. 104. I am requesting appropriate action on this proposal so that authorities may be able to keep abreast of criminal activity patterns in our changing society.

The Law Enforcement Council in its report of June, 1956, "Criminal Law Enforcement Statistics," also recognized the problem and recommended the enactment of legislation to institute a uniform system of crime reporting.

Crime reporting, like other police work, will require cooperation between State, county and local authorities. I am confident that legislative and administrative leadership and unity of purpose for the welfare of the general public can resolve this problem.

WATERFRONT COMMISSION

In its annual report for the year ending June 30, 1956, copies of which have been forwarded to the members of the Legislatures of the two States, the Waterfront Commission of New York Harbor recommended the adoption of additional legislation to permit more effective accomplishment of the objectives of the compact. After intensive study, the Commission has found the need for such additional legislation in several areas.

It is unnecessary to lengthen this message by a detailed analysis of the proposed changes and the reasons therefor. They are being set forth in a memorandum prepared by the Commission which will accompany the proposed legislation.

As the Commission has noted, some of the same persons who were formerly responsible for the evils of the waterfront are once again cautiously testing the effectiveness of the Commission and the compact. So, for example, it has been found that known racketeers and others with substan-

tial criminal records who have been denied registration as longshoremen are nevertheless able to gain access to the docks through employment in a category of waterfront employees not now covered by the act. The proposed legislation would extend the definition of longshoremen to include other categories of waterfront employees such as maintenance men, carpenters, or coopers, who are not now required to register but who have complete access to the docks.

So also, the proposed legislation would require persons holding the responsible positions of clerks, checkers and timekeepers to demonstrate good character and integrity and to be listed in a separate category in the longshore register. Further the Commission would be authorized to designate its investigators as peace officers who could make arrests for violations of the Waterfront Commission Act including such provisions as Section 7, which bars loitering on the piers without satisfactory explanation. The very presence of such peace officers on the piers would have a deterrent effect on pilferage and other violations of our laws.

I recommend for your serious consideration and early passage the legislation which has been proposed by the Commission.

III. Flood Insurance

Last year New Jersey, like many other States, was extremely hard hit by floods following hurricane "Diane." This was not a singular occurrence, for floods and other natural disasters have often ravaged large areas of the State, causing much personal suffering and loss.

The Federal government has recognized that private insurance companies offer no natural disaster insurance because of the concentrated risks, the magnitude and virtual certainty of loss and the relatively limited area of frequent and high damage. Congress recently enacted the Federal Flood Insurance Act of 1956. This bill, signed on August 7th, is intended to provide a program of Federal insurance and reinsurance to furnish some protection at a reasonable cost. Copies of that Act will be distributed to all members of the Legislature.

Two provisions of the Act require immediate consideration. The first is that by June 30, 1958, participating States must have established an approved public body which will keep in effect such flood zoning regulations as may be deemed necessary by the Administrator of the Federal Act to reduce within practical limits damage from floods in such locations. Thus, the body must be functioning by that date, with detailed flood zoning regulations in effect and with the power to declare property in violation of State or local flood zoning laws.

Secondly, by June 30, 1959, participating States must be prepared to underwrite one-half the difference between premiums charged for insurance policies on property within their own borders and the estimated necessary rates determined by the Administrator.

I recommend that a study commission be established, consisting of three members appointed by the President of the Senate, three appointed by the Speaker of the General Assembly, three appointed by the Governor and two ex-officio members, the Commissioner of Conservation and Economic Development, or his designated representative, and the Commissioner of Banking and Insurance, or his designated representative, to study participation in the program and its effect upon the State, and to suggest possible legislative action to provide for flood insurance and flood zoning regulation in New Jersey.

IV. State Office Buildings

A detailed analysis of the pressing need for new office space in Trenton has been made available to you. The inadequacy of the present space for State agencies has been recognized for more than 10 years. I have previously called to your attention the urgency of the problem, and the space requirements for the present and for the future as New Jersey grows and progresses.

A brief tour of Trenton would be sufficient to point up the present deplorable conditions. State departments are not only scattered but many divisions and bureaus in a department are widely dispersed. The Department of Labor and Industry, for example, has quarters in 13 buildings.

Overcrowded and dispersed quarters result in low morale and loss of efficiency among State employees. It is significant that over a millon dollars a year is paid as rent in the Trenton area alone.

The most urgently needed quarters at the present time, are for the Departments of Health, Education, and Labor and Industry. In my last message I suggested that five departments were in need of increased space. This is still the case and the long range view must not be lost, but these three departments operate in the most cramped and separated facilities.

I consider a State building program of such importance that a separate memorandum is submitted including the details of the program and a method of financing. Costs are rising and will continue to rise, especially in building construction. Prompt action is necessary.

If facilities adequate to serve the people of New Jersey properly are not authorized, it will only mean further inconvenience for the people and an obvious failure to meet the needs of our State.

V. Other Needs of the State

I have singled out the above areas for your attention at this time because developments since my last message have made action imperative in each case. But these are by no means the only areas which require legislative consideration at this time.

Mental Health

A bill to authorize the adoption of the Mental Health Compact has been introduced, Assembly Bill No. 412. This compact would permit transfers of mental patients among States in accordance with the best interest of the patients and their families. It has been adopted in Connecticut and New York. Those States advise that 15 cases have been handled under the compact. The paramount concern was the welfare of the patient. New Jersey should join this progressive movement.

Of equal importance is the establishment of a commission to study our mental health laws, many of which were enacted more than 35 years ago and require revision and modification consistent with present-day techniques of

treating and preventing mental illness. Assembly Concurrent Resolution No. 42 has been introduced to accomplish that objective. It should be adopted.

ELECTIONS

It is the duty of the Legislature to redistrict the State for congressional purposes, but this has not been done since 1931. The requirements of "contiguity, compactness, and equality of inhabitants" are not met by our present congressional districts. I recommend that a bi-partisan study commission be established to study changes based upon the findings embodied in the recent Rutgers report on congressional redistricting, copies of which have been distributed to the members of the Legislature.

Provision must also be made to require the future use of voting machines in all counties. Experience in the 12 counties which now use them shows that they insure a secret ballot with fast, accurate tabulation of the votes and that use of voting machines more than pays for itself in time and money in the first fifteen years of their estimated 50-year life. A sorely needed revision of Title 19 should also be given a high priority in order to simplify, clarify and modernize our present hodgepodge of election laws.

VI. CONCLUSION

The legislation necessary to grant the Highway Commissioner the power to declare our interstate highways as freeways, to set up both uniform police training and crime reporting, to authorize the Mental Health Study Commission, and to provide for the use of voting machines in all counties is already before you. In addition, I am submitting to the legislative leaders, drafts of the legislation necessary to enact the suggested one-cent increase in the motor fuels tax and appropriating the additional revenue for highway construction, to authorize the Port of New York Authority and the Waterfront Commission to implement their objectives as set forth in their recommendations, to inaugurate a building program, and to establish commissions to study flood insurance and congressional redistricting.

The recommendations in this message are based upon the clear needs of the State and if we intend to keep New Jersey in a position to meet the demands of its continuing growth, immediate legislative action must be taken on these matters.

We must not fear or impede progress. We must not only keep pace but we must also plan for the continued preeminence of New Jersey among the 48 States.

ROBERT B. MEYNER,
Governor.

Attest:
BRENDAN T. BYRNE,
Acting Secretary to the Governor.

The Clerk read the following messages from the Governor:

STATE OF NEW JERSEY,
EXECUTIVE DEPARTMENT,
September 17, 1956.

ASSEMBLY BILL No. 49

To the General Assembly:

I am returning herewith Assembly Bill No. 49, without my approval, for the following reasons:

This bill authorizes the creation of special service districts within townships. These districts are to have all the corporate powers necessary for (1) the elimination of mosquito breeding areas in the district, (2) the development, maintenance and operation of lake fronts or bathing beaches within the district whether publicly or privately owned, and (3) the elimination and control of aquatic weeds in the district whether or not the body of water is publicly or privately owned.

The procedure for establishing such a district would be instituted by filing with the township committee a petition signed by at least 50 legal voters of the proposed district, requesting the establishment of a district and outlining its boundaries. The township committee would then submit to the legal voters of the district for their approval an ordinance creating a district substantially the same as the one outlined in the petition.

If the district is approved, the legal voters of such a district meet annually on the first Saturday in February to elect 3 persons to serve for a term of 1 year as commissioners, to act as the governing body of the district. At this

same time, the legal voters who are present determine the sums of money to be raised and expended within the district. The sums so fixed are to be certified to the commissioners and also to the township assessor, who would be required to assess them upon the taxable property within the district in the same manner as township taxes are assessed.

I realize that certain types of improvements may enure primarily to the benefit of an area that is geographically smaller in size than the political division that contains it. It is quite proper that the cost of such improvements should be borne by the people of that area to the extent that they are specially benefitted. Such improvements, however, can be accomplished through special assessments rather than through the medium of a special service district.

The use of special service districts merely results in an increase in the number of governmental units in operation and leads to overlapping of functions, to a perplexing diffusion of responsibility and to additional and unnecessary administrative expenses. Any benefit that may result from the use of such districts is more than counter-balanced by these shortcomings. The net effect of this Balkanization is increased confusion and expense.

The functions and powers of such newly created authorities are often obscure and their place in the hierarchy of government is uncertain. There is no reason why the functions assigned to a special service district cannot be adequately exercised by the existing governmental bodies. If existing facilities should be inadequate, they can be expanded within the present governmental framework. There need not be an entirely new authority created.

In so far as the special service districts authorized by Assembly Bill No. 49 are concerned, there is no apparent reason for their existence. Such districts involve improvements which are the concern of the entire community and which should not be the responsibility of the people of a particular geographical area, the boundaries of which are essentially determined by a small number of voters in that area. The benefits that would be derived from the improvement of bathing facilities, the elimination of aquatic weeds and mosquito control would extend to individuals and properties beyond district boundaries.

Aside from these basic defects, Assembly Bill No. 49 contains other shortcomings which make it equally unacceptable. The authority to create the special districts would apply only in townships. No reason is apparent why the township form of municipal government should be so favored if the proposal is otherwise meritorious.

Among the powers such a district could have is the power to borrow money, but no debt limitation is specified. Accordingly, special districts could be created to avoid municipal debt limitations in certain instances. Further, any obligations incurred by a special district may well adversely affect the credit ratings of the municipality and school district which encompass the district and render it more difficult for the latter to borrow money.

Again, section 17 provides that the sums appropriated by the district are to be raised by assessing the same upon the taxable property within the district in the same manner as township taxes are assessed. This procedure ignores the possibility that the cost of the improvements may exceed the special benefits received by particular land owners. It also ignores the possibility that some tracts of land within the district may be benefitted to a greater or lesser extent than they are assessed. If either contingency should arise, there might be an unconstitutional taking of property; in any event, the validity of this method of assessment is doubtful. (See *Jardine* vs. *Borough of Rumson,* 30 N. J. Super. 509 (App. Div. 1954); *State, Agens, pros.,* vs. *Mayor, &c., of Newark,* 37 N. J. L. 415, (E. & A. 1874)).

The provision in section 21, for the retention of unexpended funds by the township upon the dissolution of a district, also seems imprudent. If the entire cost of the improvement is to be borne by the owners of property within the district, there seems to be no justification for a retention of unexpended funds by the township at large. Such action, aside from being inequitable, would only result in prolonging the existence of otherwise useless and defunct districts.

In addition to the foregoing, there are a number of technical defects that render this bill unwieldy. In section 8, the petition filed on behalf of a candidate for commissioner, must state that he "is legally qualified to be elected a commissioner". The meaning of that phrase is uncertain since the bill establishes no qualifications as to age, residence, citizenship or otherwise.

In section 5, a person designated by the county mosquito extermination commission or if there is none, by the Director of the New Jersey Agricultural Experiment Station, is to serve as a member of the commission and technical advisor if the district includes mosquito control. The bill fails to clarify his status. It is not certain whether he is an active member, with a right to vote and participate generally, or whether he is merely an advisory member.

Section 1 provides that the ordinance to create a district shall be submitted to the legal voters of the district at the next general election following the 35th day succeeding the date of the *filing* of the *petition*. If the petition is filed not much more than 35 days before the general election, serious problems may arise. Much and perhaps all of the period would be consumed by the proceedings and hearing necessary for the adoption of an ordinance leaving insufficient time for compliance with the provisions of the Election Law applicable to voting on public questions.

Similarly, the provision in section 11 allowing petitions of candidates for commissioner to be filed up to 5 days before the election seems unrealistic. In light of the provisions found in section 12 relating to the refilng of defective petitions, a longer period would seem more prudent, particularly when there is no essential reason for the short 5-day period.

The provisions of section 5, relating to voting are also confusing. According to section 6, the election polls are open for a 6-hour period on election day. Section 5 provides, however, that the sums of money to be raised and expended within the district are to be determined by vote of the majority of those *present and voting*. This language is not consistent with a 6-hour voting day.

Finally, the bill is silent as to the salary or compensation, if any, of the commissioners, and as to the applicability of various statutory limitations and restrictions relating to political subdivisions generally, such as provisions for award of construction or purchasing contracts to the lowest responsible bidder after proper public advertisement for bids.

For these reasons, I am returning herewith, without my approval, Assembly Bill No. 49.

Respectfully,

ROBERT B. MEYNER,
Governor.

ASSEMBLY BILL No. 535

To the General Assembly:

I am returning herewith Assembly Bill No. 535, without my approval, for the following reasons:

This bill would amend sections 45:4A–2 and 45:4A–3 of the Revised Statutes which relate to the organization of the State Board of Beauty Culture Control. It would eliminate the present position of secretary to the board, who is required to be an employee of the Department of Health appointed as secretary at each annual organization meeting of the board. Instead it creates the office of executive secretary, to be filled by appointment by the Governor for a term of 5 years. The executive secretary would be required to keep a record of all proceedings of the board and to supervise the office and field personnel. He would also be required to file a bond in the sum of $5,000.00, conditioned for the faithful performance of his duties. The bill would also increase the salaries of members of the board from $2,500.00 to $2,800.00 per annum and eliminate the additional salary of $1,000.00 per annum now paid to the chairman.

At the present time the position of secretary to the board is in the unclassified service, a status obviously based upon the assumption that the secretary's duties are largely at the policy level so that each board should be in a position to select a secretary in accord with its policy determinations. This bill would give the executive secretary a term of 5 years even though the members are appointed only for

a term of 3 years; it would give him the power to supervise office and field personnel. The desirability of creating the office of executive secretary is not evident. If, as has been suggested in support of the bill, the need is for an executive secretary whose functions will be at the ministerial rather than at the policy level, the position should be created as a classified position under Civil Service, not as one to be filled by gubernatorial appointment for a fixed term.

The additional requirement that the executive secretary be bonded in the sum of $5,000.00 is unnecessary and would result in unnecessary additional expense. The incumbent would be covered by a blanket State fidelity bond which applies to all State employees not specifically required by statute to be bonded.

I have been advised that one underlying motivation for the elimination of the additional $1,000.00 salary of the chairman is the friction which has developed at recent annual organization meetings of the board when at least some of the candidates for the office of chairman sought it primarily because of the additional compensation received by the chairman. If this be true, then, for the best interests of the State, consideration should be given to the elimination of the provision for the additional $1,000.00 annual compensation to the chairman.

Finally, no justification is shown for the proposed increase in the compensation of the members of the board. Those positions are part-time; meetings are held twice a month and only rarely does any board member receive an assignment of special duties. This may be contrasted with members of the Board of Barber Examiners who receive a compensation of $5,000.00 a year and are required to devote full time to their duties (R. S. 45:4–48).

I am, therefore, returning Assembly Bill No. 535 herewith, without my approval.

Respectfully,

ROBERT B. MEYNER,
Governor.

A message was received from the Secretary of the Senate as follows—and was read by the Clerk:

STATE OF NEW JERSEY,
SENATE CHAMBER,
Mr. Speaker: November 19, 1956.

I am directed by the Senate to inform the General Assembly that the Senate has passed the following concurrent resolution:

WHEREAS, The Honorable Walter E. Edge, former Governor of the State of New Jersey, departed this life on the 29th day of October, 1956; and

WHEREAS, Governor Edge served his State and the Nation with great distinction during his two terms as Governor, as United States Senator and as Ambassador to France; and

WHEREAS, He served as the Chief Executive of this State during World War I and World War II, and guided the public affairs of this State during each of those critical periods; and

WHEREAS, During the interval between World War I and World War II, Governor Edge represented this State in the Congress of the United States as United States Senator

from 1919 to 1929, and represented the United States as Ambassador to France from 1929 to 1933; and

WHEREAS, In his public and private life, he exhibited his great talent for effective service and a rare combination for a practical and realistic approach to the problems of leadership with the added asset of a statesman-like vision; and

WHEREAS, Many of the advances in the efficiency of the State Government and of progress toward the best advances resulting from progessive enlightenment are attributable to the foresight, wisdom, political skill and determination of Governor Edge; and

WHEREAS, Such projects as the State Highway System, Holland Tunnel and the Delaware River bridge had their origin in Governor Edge's sponsorship; and

WHEREAS, Governor Edge's ability to inspire and obtain the loyalty and co-operation of those about him throws a strong light upon his character, sincerity and integrity in both his public and private life; and

WHEREAS, The death of Governor Edge leaves a great void in the minds and hearts of the people of our State but his example will continue to be a safe guide for the present generation and for many generations to come; now, therefore,

Be It Resolved by the Senate of the State of New Jersey (the General Assembly concurring):

That the Legislature of the State of New Jersey does record its deep sorrow upon the death of Walter E. Edge and expresses its profound condolences to his bereaved family and to his legion of friends; and

Be It Further Resolved, That this resolution be spread in full on the Journals of the Senate and the General Assembly; and

Be It Further Resolved, That a copy of this resolution, signed by the President of the Senate and the Speaker of the General Assembly, and attested by the Secretary of the Senate and the Clerk of the General Assembly, be sent to his family.

In which the concurrence of the General Assembly is requested.

HENRY H. PATTERSON,
Secretary of the Senate.

A concurrent resolution commending the courageous efforts of the freedom-seeking people of Hungary and urging suport in assisting refugees from Communist tyranny.

WHEREAS, During the next few weeks thousands of freedom-loving people driven from their homes in Hungary by communist terrorism are arriving at Camp Kilmer on the first step to a new life in America; and

WHEREAS, Other thousands of equally destitute and friendless Hungarians will be taking similar steps to establishing a new life in Austria and other countries of western Enrope who are extending the hand of welcome and friendship to these brave people; and

WHEREAS, It is fitting that we, the members of the Legislature, as the elected representatives of the citizens of New Jersey, recognize the valiant fight being made by the people of Hungary under insuperable odds, and that we recognize the true implication of this valiant struggle for freedom; now, therefore,

Be It Resolved by the General Assembly of the State of New Jersey (the Senate concurring):

1. The valor, courage and devotion to the cause of freedom demonstrated by the people of Hungary is commended to the citizens of New Jersey and freedom-loving peoples everywhere.

2. The current efforts by the Hungarian relief agencies operating in coordination with civic, church, charitable and patriotic organizations to meet the immediate and long-range needs of refugees arriving in the United States and other free countries are endorsed and highly recommended for support by the citizens of New Jersey and all freedom-loving peoples.

3. The Legislature calls upon the people of the State to support with funds and gifts of clothing and other personal necessaries, including children's toys, the collections being made for refugees at Camp Kilmer and likewise the collections being made for distribution by the Red Cross to refugees in Austria and elsewhere.

4. The Legislature commends to the people of the State the opportunity afforded to extend the long- range helping hand to these valiant refugees by assisting them in finding sponsors, homes and jobs and assisting them in the founding of new lives in a land of freedom; and

Be It Further Resolved, That copies of this concurrent resolution signed by the President of the Senate and the Speaker of the General Assembly and attested by the Secretary of the Senate and the Clerk of the General Assembly be forwarded to Mrs. Louis A. Monsko, Chairman of the Hungarian Relief Society of Elizabeth.

STATE OF NEW JERSEY,
SENATE CHAMBER,
Mr. Speaker: November 29, 1956.

I am directed by the Senate to inform the General Assembly that the Senate has concurred in the following concurrent resolution:

A CONCURRENT RESOLUTION commending the courageous efforts of the freedom-seeking people of Hungary and urging support in assisting refugees from Communist tyranny.

WHEREAS, During the next few weeks thousands of freedom-loving people driven from their homes in Hungary by Communist terrorism are arriving at Camp Kilmer on the first step to a new life in America; and

WHEREAS, Other thousands of equally destitute and friendless Hungarians will be taking similar steps to establishing a new life in Austria and other countries of western Europe who are extending the hand of welcome and friendship to those brave people; and

WHEREAS, It is fitting that we, the members of the Legislature, as the elected representatives of the citizens of New Jersey, recognize the valiant fight being made by the people of Hungary under insuperable odds, and that we recognize the true implication of this valiant struggle for freedom; now, therefore,

Be It Resolved by the General Assembly of the State of New Jersey (the Senate concurring):

1. The valor, courage and devotion to the cause of freedom demonstrated by the people of Hungary is commended to the citizens of New Jersey and freedom-loving peoples everywhere.

2. The current efforts by the Hungarian relief agencies operating in co-ordination with civic, church, charitable and patriotic organizations to meet the immediate and long range needs of refugees arriving in the United States and other free countries are endorsed and highly recommended for support by the citizens of New Jersey and all freedom-loving peoples.

3. The Legislature calls upon the people of the State to support with funds and gifts of clothing and other personal necessaries, including children's toys, the collections being made for refugees at Camp Kilmer and likewise the collections being made for distribution by the Red Cross to refugees in Austria and elsewhere.

4. The Legislature commends to the people of the State the opportunity afforded to extend the long range helping hand to these valiant refugees by assisting them in finding sponsors, homes and jobs and assisting them in the founding of new lives in a land of freedom; and

Be It Further Resolved, That copies of this Concurrent Resolution, signed by the President of the Senate and the Speaker of the General Assembly and attested by the Secretary of the Senate and the Clerk of the General Assembly, be forwarded to Mrs. Louis A. Monsko, Chairman of the Hungarian Relief Society of Elizabeth.

HENRY H. PATTERSON,
Secretary of the Senate.

WHEREAS, The United States together with the other free nations of the world is observing Human Rights Day, today,

the eighth anniversary of the adoption by the General Assembly of the United Nations of the Universal Declaration of Human Rights; and

WHEREAS, The President of the United States had called attention to the fact that on this anniversary "the free world has the most compelling reasons for observing Human Rights Day **** but it has little cause to 'celebrate' that day" because of the horror and revulsion of people everywhere at the recent outbreak of brutality in Hungary; and

WHEREAS, The hearts of people everywhere in the free world are filled with sorrow and sympathy for the courageous, liberty-loving people of Hungary;

Be It Resolved by the General Assembly of New Jersey, that:

1. In the words of the President of the United States we "resolve on this day that the world shall never forget what tyranny has done to our fellow man in Hungary"; and

2. That the members of the General Assembly do now stand for a moment of silent prayer for the people of Hungary, and to reaffirm our faith in the cause of freedom everywhere, and for the spread throughout the world of the principles of the Universal Declaration of Human Rights.

Speaker Mosch asked the members of the General Assembly to stand for a moment in silent prayer.

WHEREAS, Old Barnegat Light, a beacon located in Ocean County on the New Jersey shore, has guided many a mariner to a safe harbor since 1834; and

WHEREAS, "Old Barney", as it is familiarly known, was the second lighthouse tower in the United States; and

WHEREAS, The historical landmark and the parcel of land surrounding it was conveyed to the State of New Jersey on April 13, 1926; and

WHEREAS, This light was decommissioned by the Coast Guard on January 11, 1944; and

WHEREAS, This distinguished monument will be given appropriate recognition in ceremonies conducted during 1957-58; therefore,

Be It Resolved, That the members of the General Assembly request the appropriate authorities to confer on the new ship nuclear-powered guided missile cruiser now under construction at Quincey, Massachusetts, the name "Barnegat Light"; and

Be It Further Resolved, That a copy of this resolution, signed by the Speaker and attested by the Clerk be forwarded to the Secretary of the Navy.

Which motion was adopted.

TRIBUTE BY ASSEMBLYMAN J. VANCE MCIVER OF ESSEX COUNTY

As we gather today and at this time, we are reminded of the frailty of man and the certainty of death.

It is natural to feel the impact and the blow more keenly when we witness the passing of one in the prime or beginning of life. When one has reached maturity or the three score and ten, it is natural to look forward to and expect the inevitable. But to witness the home-going of one whose life is just beginning to unfold certainly makes an impression. Youth has such promise and possibilities.

As we read the obituary today we were made aware that John Junda had prepared himself for his task and life's

work. He entered upon his chosen profession with high hopes and all the anticipation of any normal youth. Then when opportunity presented itself he entered the service of his country and served with honor and distinction in the most difficult branch of service—that of Signal Intelligence.

His chosen profession would indicate that he was interested in justice and wanted to make his contribution to the world in this legal way. Being a newcomer in these halls, I soon found him to be warm, affable, congenial and sincere. He possessed the power of being able to disagree without being disagreeable. What time we were permitted to serve with him we saw and witnessed that he could violently disagree and give a meaningful smile and handshake. Yes, he was a clear thinker and an efficient legislator.

The one thing we all did appreciate so much was his determined effort to serve, even when ill. At no time did he complain. When his frail body was unable to stand the strain, yet he tried to fulfill his duty to those who had made him responsible to and for the citizens of this State. His wit, humor and refusal to submit even to the inevitable will be a challenge to us all.

It is not a matter of how long one lives, but how well. Life is not measured in years but by deeds.

We are confident that yesterday when the grim monster invaded the Junda home and claimed John as its victim, he met it as bravely and courageously as he met the other incidents in his life. It is indeed fitting and proper that we pause and recognize the passing of our comrade and share with his family the sorrow that is theirs.

Life's race well run,
Life's crown well won.

Father, in Thy gracious keeping,
Leave we now Thy servant sleeping.

Mr. Swick offered the following resolution, which was read by the Clerk and adopted:

WHEREAS, It has pleased Almighty God in His infinite mercy to call from this world Theodore B. Dawes; and

WHEREAS, Mr. Dawes had served two terms in the New Jersey Senate, representing Warren County; and

WHEREAS, Mr. Dawes had been active in political, civic and charitable enterprises for his entire adult life and had gained the respect, confidence and affection of his associates, by whom he will be greatly missed; therefore,

Be It Resolved, That the members of the General Assembly express their heartfelt regret at his passing and extend their deepest sympathy to his wife and family; and

Be It Further Resolved, That a copy of this resolution, signed by the Speaker and attested by the Clerk, be forwarded to his widow, Mrs. Annie Dawes, and to his son, Theodore W. Dawes.

Mrs. Savage offered the following resolution, which was read by the Clerk and adopted:

WHEREAS, It has pleased Almighty God in His infinite wisdom to call from this world Jesse Foster of Ocean County; and

WHEREAS, Mr. Foster was a member of the Berkeley Township Board of Education and had served in many capacities in municipalities of Ocean County, including service as a Minister of Ocean Gate and Bayville, a member of the Berkeley Township Committee and Tax Collector for that community, as President of the Berkeley Township Board of Education, a member of the Central Regional High School, Board of Education, President of the Ocean County School Board, Executive Secretary of the State Federation District Boards of Education; now, therefore,

Be It Resolved, That the members of the General Assembly express their deep regret at his passing and extend their deepest sympathy to the members of his family; and

Be It Further Resolved, That a copy of this resolution, signed by the Speaker and attested by the Clerk, be forwarded to the members of Mr. Jesse Foster's family.

A message was received from the Secretary of the Senate as follows—and was read by the Clerk:

L. 1942, c. 112), so that the same shall read "An act authorizing municipalities to adopt ordinances relating to the repair, closing and demolition of buildings unfit for human habitation or occupancy or use; and providing for the remedies and procedure in connection with action taken under such ordinances,' and to amend the body of said act,"

Assembly Bill No. 503, entitled "An act to amend 'An act to provide for the creation, setting apart, maintenance and administration of a county employees' pension fund in counties having a population exceeding 800,000 inhabitants,' approved April 8, 1943 (P. L. 1943, c. 160),"

Assembly Bill No. 531, entitled "A supplement to 'An act for the establishment of a police and firemen's retirement system for the police and firemen of a municipality, county or political subdivision thereof,' approved May 23, 1944 (P. L. 1944, c. 255),"

Assembly Bill No. 544, entitled "A supplement to the 'Housing Co-operation Law,' approved March 8, 1938 (P. L. 1938, c. 20) to authorize counties, cities, towns, townships, boroughs, and villages to aid redevelopment projects of housing authorities and redevelopment agencies which include undertakings and activities for the elimination (and for the prevention of the development or spread) of

blighted, deteriorated, or deteriorating areas and involve conservation or rehabilitation work or redevelopment of such areas or a combination of such undertakings or work,''

Assembly Bill No. 546, entitled ''A supplement to the 'Redevelopment Agencies Law,' approved June 14, 1949 (P. L. 1949, c. 306) to authorize redevelopment agencies to undertake additional activities for the elimination and for the prevention of the development or spread of blight, including functions with respect to conservation and rehabilitation for the restoration and renewal of blighted, deteriorated, or deteriorating areas; and defining the meaning thereof; to provide that all of the rights, powers, privileges, and immunities of public or private bodies or agencies applicable with respect to redevelopment projects under said act shall be applicable with respect to these additional activities; to authorize the governing body of the municipality, or such public officer of public body as it may designate, to prepare a workable program for utilizing appropriate private and public resources to eliminate and prevent the development or spread of blight in the community; and to provide for co-operation among public bodies,''

HENRY H. PATTERSON,
Secretary of the Senate.

STATE OF NEW JERSEY,
SENATE CHAMBER,
December 20, 1956.

Mr. Speaker:

I am directed by the Senate to inform the General Assembly that the Senate has passed the following bills:

Assembly Bill No. 545, entitled ''A supplement to 'An act to authorize housing authorities to clear blighted areas and prevent blight; to acquire real property and make it available for redevelopment by private enterprise or by public agencies in accordance with approved redevelopment plans; and to confer necessary powers on housing authorities, cities and other public bodies, and to make obligations issued by housing authorities in connection with redevelopment projects legal investments and security for deposits; to enable the advance preparation of projects so they can provide jobs and stimulate industry when necessary in the period of reconversion; and to authorize the creation of an advisory board to housing authorities composed of representatives of business, real estate, home financing and other

interests,' approved June 14, 1949 (P. L. 1949, c. 300) by authorizing housing authorities to undertake additional activities for the elimination and for the prevention of the development or spread of blight, including functions with respect to conservation and rehabilitation for the restoration and renewal of blighted,deteriorated, or deteriorating areas and defining the meaning thereof; to provide that all of the rights, powers, privileges, and immunities of public or private bodies or agencies applicable with respect to projects under said act shall be applicable with respect to these additional activities; to authorize the governing body of the municipality, or such public officer or public body as it may designate, to prepare a workable program for utilizing appropriate private and public resources to eliminate and prevent the development or spread of blight in the community; and to provide for co-operation among public bodies,''

Assembly Bill No. 578, entitled ''An act to amend an act entitled 'An act to regulate and control the production, distribution and sale of milk as herein defined; to create a milk control board for such purposes; to prescribe the jurisdiction, duties and powers of said board; to require licenses of and establish fees to be paid by stores, milk dealers, processors and subdealers; to provide methods for enforcement and penalties for violations thereof and declaring an emergency affecting the production, distribution and sale of milk as defined herein,' passed July 15, 1941 (P. L. 1941, c. 274), and providing for an appropriation,''

Assembly Bill No. 588, entitled ''An act concerning counties,''

Assembly Bill No. 609, entitled ''An act providing a method for making certain the dividing line between 2 or more counties and 2 or more municipalities, or 2 or more municipalities, in certain cases, and supplementing Title 40 of the Revised Statutes,''

HENRY H. PATTERSON,
Secretary of the Senate.

Whereupon the Clerk delivered Assembly bills referred to in the Senate messages to Mr. Marryatt, Chairman of the Assembly Joint Committee on Passed Bills for presentation to the Governor for his approbation.

The following communication was sent to the desk and read by the Clerk:

December 20, 1956.

Honorable Leo J. Mosch,
Speaker, General Assembly,
State House,
Trenton, N. J.

Dear Mr. Mosch:

I hereby tender my resignation as a member of the General Assembly, effective immediately.

Very truly yours,

(signed) Mrs. Florence P. Dwyer.

Mr. Mills moved that Mrs. Dwyer's resignation be accepted.

Which motion was adopted.

The following Assemblywomen, Mrs. Newton and Mrs. Savage, and Assemblymen Mills, Hauser, Cundari, Thomas and Stepacoff, in behalf of the members of the General Assembly, extended their best wishes to Mrs. Dwyer, and wished her best of luck in her new office as representative of the 6th Congressional District of New Jersey.

Mr. Mills offered the following resolution which was read by the Clerk and adopted:

Be It Resolved, That when the General Assembly adjourns it be to meet on Saturday, December 22, at 10:00 o'clock A. M. STATE OF NEW JERSEY,
EXECUTIVE DEPARTMENT,
January 8, 1957.

ASSEMBLY BILL No. 78

To the General Assembly:

I am returning herewith, without my approval, Assembly Bill No. 78 for the following reasons:

This bill would supplement the law governing County Courts to provide that in any civil action founded upon a tort brought in a County Court, if the cause of action arose in the county or if any plaintiff or defendant properly named therein resided in the county, service of process may be effected in any county of the State by the sheriff of that county. At the present time, service of process in a civil action in the County Court may be made only within the county.

No valid reason exists for the enactment of this legislation. A plaintiff residing in one county who wishes to bring a law action against a defendant in another county, laying the venue in the county where the cause of action arose or where the plaintiff resides, may do so by bringing the action in the Superior Court, Law Division, which has State-wide jurisdiction. Process may be served in such action by the sheriff of any county of the State. No prejudice arises by reason of his inability to bring the action in the County Court. The fees payable in each court are the same and law actions in the County Court and Superior Court are tried in each county by the same judges on an integrated list.

Approval of this bill might well entail a substantial loss in revenue to the State. Approximately 6,000 tort cases are instituted each year in the Law Division of the Superior Court. The State receives filing fees of $25.00 for a complaint and $5.00 for an answer or $30.00 per case, a total of approximately $180,000.00 per year. If any substantial part of these cases are diverted to County Courts, the State might well lose much of that $180,000.00 per year while still being obligated, under existing State law, to assume part

of the cost of operation of the County Courts. $282,200.00 was appropriated by the State this year for that purpose.

Further, enactment of Assembly Bill No. 78 would take away from defendants the right which they now have in actions instituted in the Superior Court, the right to move, where adequate reasons exist, for a change of venue.

I am, therefore, returning Assembly Bill No. 78 herewith without my approval.

Respectfully,

[SEAL] ROBERT B. MEYNER,
Attest: *Governor.*
BRENDAN T. BYRNE,
Acting Secretary to the Governor.

Mr. Mills moved that the message be spread in full upon the minutes.

Which motion was adopted.

The Clerk read the following message from the Governor:

STATE OF NEW JERSEY,
EXECUTIVE DEPARTMENT,
January 8, 1957.

ASSEMBLY BILL NO. 454

To the General Assembly:

I am returning herewith, without my approval, Assembly Bill No. 454 for the following reasons:

This bill would supplement the Police and Firemen's Retirement Act to provide that any present or future member of the pension system provided by that act "who shall be elected to any public office and shall be granted official leave of absence from his regular position as a policeman or fireman" may continue his membership in that system "without loss or forfeiture of benefits or credits for service because of such absence during the period of such leave of absence". To continue such membership, the member would be required to give written notice of his intention to remain

in the system and would further be required to make payments of both the employer's and the employee's contribution under the act, based on the salary received at the time the leave of absence is granted. The bill further provides that if such member resigns or is dismissed from service as a policeman or fireman he shall be entitled to have returned to him the aggregate of all contributions paid by him during such leave of absence. As drawn, this bill would apply only to members of the Police and Firemen's Retirement System hereafter elected to public office.

I am in accord with the basic principle that public employees should not be penalized, through loss of retirement or pension credits, for seeking election to public office. But the bill fails to provide a workable plan for the situation with which it seeks to deal. In various aspects, its provisions are incomplete and the legislative intent obscure.

For example, it is not clear whether it is intended that the member shall continue to accrue credit under the Police and Firemen's Retirement System during the time he is in elective office or whether the intent is only to provide for the maintenance of membership without accruing credit during the period of the leave of absence. If the member is not to be considered a member "in service" during such leave, there would appear to be no reason for requiring him to make contributions during the period of leave. On the other hand, if the purpose is to provide for the accrual of service credit while he is in elective office, it would appear equitable to require that, during the time he holds elective office, he shall pay his normal contribution and that normally required of his employer on his behalf.

Further, the bill fails to make clear what benefits, if any, will be paid upon the death or disability of the member occurring during the period of his official leave of absence. Under the act only a member "in service" is entitled to benefits; if an exception is to be made in cases covered by the bill, the act should be amended to so provide. Nor does the bill indicate whether the member on leave would have to return to service as a policeman or fireman in order to qualify for retirement. "Retirement" is presently defined by the act to mean "withdrawal from active service".

Under the act, where a member resigns from his position or is dismissed therefrom, the employer's contributions made on his behalf are retained by the system. Assembly

Bill No. 454 would permit such a member to have returned to him the aggregate of all contributions paid by him during such leave of absence, including the portion representing the employer's contributions. It would appear desirable to follow in all cases the present pattern of the act and to provide that such portion of the payment as represents the employer's contribution should be retained by the pension system.

Finally, the bill does not contain any provision as to the length of time during which a person may continue to be a member of the system while on leave of absence. Since holding an elective office does not involve employment in as hazardous an occupation as that of policman or fireman, and since the holder of such elective office normally would be entitled to join some other pension system, consideration should be given to a provision limiting the length of time during which such membership in the Police and Firemen's Retirement System may be maintained.

For these reasons I am returning herewith Assembly Bill No. 454 without my approval.

Respectfully,

[SEAL] ROBERT B. MEYNER,
Attest: *Governor.*
BRENDAN T. BYRNE,
Acting Secretary to the Governor.

Mr. Mills moved that the message be spread in full upon the minutes.

Which motion was adopted.

The Clerk read the following message from the Governor:

STATE OF NEW JERSEY,
EXECUTIVE DEPARTMENT,
January 8, 1957.

ASSEMBLY BILL No. 531

To the General Assembly:

I am returning herewith Assembly Bill No. 531, without my approval, for the following reasons:

This bill would permit a member of the Police and Firemen's Retirement System to purchase credit in that system for service rendered, prior to becoming a member of the Retirement System, as an inspector of the parking meter department of any municipality. The bill further provides that such member shall make "payment into the fund established under said system, in such manner as shall be determined by the board of trustees of said system, of all arrearages which said board shall determine to be due in order to give such member the same standing as all other members who join said pension fund at the time when said member's service as such inspector began".

Equitable considerations may indicate that provision should be made for public employees to receive full credit for all public employment, regardless of the specific area in which it is performed, toward their eventual retirement. If such be the case, the establishment of such a credit system should be accomplished through legislation which covers all prior public employment and not merely service in one particular job classification. There is no justification for allowing parking meter inspectors to receive special treatment when others who joined the Police and Firemen's Retirement System, after having served creditably in various areas of public employment, are not similary privileged.

In addition, Assembly Bill No. 531 contains technical difficulties that render it unacceptable. For example, the law establishing the Police and Firemen's Retirement System makes no provision for the purchase of credit for public service rendered prior to becoming a member. This bill would permit the purchase of such credits by parking meter inspectors but it does not indicate into which of the several funds now existing in the system such money should be paid.

Moreover, the bill does not expressly detail by whom or in what proportions the contributions normally made by the employer should be paid. Nor does Assembly Bill No. 531 clearly indicate what contributions an individual should make, how such contributions should be calculated and what rights of withdrawal an individual affected by this bill would have.

Finally, the bill does not indicate what credit, if any, is to be given for service rendered as an inspector of the parking meter department prior to the establishment of the Police and Firemen's Retirement System.

For the foregoing reasons, I am returning herewith Assembly Bill No. 531 without my approval.

Respectfully,

[SEAL] ROBERT B. MEYNER,
Attest: *Governor.*
BRENDAN T. BYRNE,
Acting Secretary to the Governor.

Mr. Mills moved that the message be spread in full upon the minutes.

Which motion was adopted.

The Clerk read the following message from the Governor:

STATE OF NEW JERSEY,
EXECUTIVE DEPARTMENT,
January 8, 1957.

ASSEMBLY BILL No. 554

To the General Assembly:

I am returning herewith, without my approval, Assembly Bill No. 554 for the following reasons:

Section 3A:4–1 of the New Jersey Statutes provides that the real and personal property of a person dying intestate shall descend and be distributed in the manner set forth in that chapter. This bill would amend the section to provide that such property shall descend and be distributed in the

manner set forth in that chapter "subject to the provisions of sections 3A:6–5, 3A:6–6 and 3A:6–7 of the New Jersey Statutes".

Where the total value of the real and personal assets of the estate of an intestate will not exceed $1,000.00, N. J. S. 3A:6–5 provides that the surviving spouse, upon the execution before the County Surrogate of an affidavit so stating, is entitled to all of the assets without administration and free from all of the debts of the intestate. N. J. S. 3A:6–6 provides that, where there is no surviving spouse, a next of kin who obtains the consent of the remaining next of kin may file a similar affidavit on behalf of all the next of kin and creditors. Upon such a filing, the applicant is entitled to receive the personal assets of the intestate for the benefit of all of the next of kin and creditors without administration and without entering into a bond. Persons and organizations which pay over assets of such an intestate to the persons executing the affidavit are discharged from all liability by the action of N.J.S. 3A:6–7 notwithstanding that the total value of the assets does in fact exceed $1,000.00.

No legal consequences appear to result from making chapter 4 of Title 3A subject to the provisions of N. J. S. 3A:6–6 and 3A:6–7. Both of these sections are purely administrative in character and do not affect the substantive law covering the descent and distribution of intestate property.

There is some dispute, however, as to whether N. J. S. 3A:6–5 affects the substantive law. Some authorities are of the opinion that it does not and that the purpose of this section was to eliminate the expense of formal administration where the intestate leaves property having only nominal value. See 13 N. J. Practice, Lieberman, *Abstracts and Titles,* section 598, p. 241. Other authorities are of the opinion that this section is part of the substantive law. See 7 N. J. Practice, Clapp, *Laws and Administration,* section 789, p. 263. Assembly Bill No. 554 would not resolve the problems involved, particularly those relating to title to real property.

If it is the desire of the Legislature to change the law of descent and distribution, such a change should be clearly expressed in the sections governing descent and distribution. It should not be done in the manner attempted by this bill.

In view of the foregoing, I am constrained to return herewith Assembly Bill No. 554 without my approval.

Respectfully,

[SEAL] ROBERT B. MEYNER,
Attest: *Governor.*
BRENDAN T. BYRNE,
Acting Secretary to the Governor.

Mr. Mills moved that the message be spread in full upon the minutes.

Which motion was adopted.

In the negative were—

Messrs. Brady, Brown, Crabiel, Davis, Gray, Knoblauch, Kurtz, Panaro, Sabello, Stepacoff, Stewart, Swick, Thuring—13.

The Speaker declared Senate Bill No. 317 lost.

Messrs. Kay, Salsburg, Glenn and Gant offered the following resolution, which was read by the Clerk and adopted:

WHEREAS, Almighty God in His infinite wisdom has called from this earth the Honorable T. Millet Hand, Member of Congress and Representative therein from the Second District of New Jersey in the House of Representatives; and

WHEREAS, Mr. Hand was a distinguished citizen and resident of Cape May, New Jersey, a man of absolute integrity and outstanding ability, a man of courage, renowned for his loyalty to principle and to his host of friends, and a man of great warmth of character; and

WHEREAS, Mr. Hand was admitted to the New Jersey Bar in February, 1924, after graduating from Dickinson College with the degree of LL.B., and thereafter attained high distinction as an attorney and counsellor-at-law of this State; and

WHEREAS, Mr. Hand was active in city and county and municipal affairs, serving in the several capacities of Clerk to the Board of Chosen Freeholders, Prosecuting Attorney and Mayor of Cape May; and

WHEREAS, Mr. Hand's outstanding characteristics were publicly recognized in the fact that he was a potential candidate for Governor in 1957; and

WHEREAS, In November last, Mr. Hand was elected to his seventh term as a Member of the House of Representatives in the Congress and, but for his untimely death would undoubtedly have been elevated to higher positions in the State and Nation; and

WHEREAS, As a Congressman, Mr. Hand distinguished himself and became an authority on the subject of coastal protection and the Federal operation of inland waterways; and

WHEREAS, In the passing of T. Millet Hand, the State of New Jersey, and particularly the Second Congressional District of New Jersey, embracing the counties of Atlantic, Cape May and Cumberland have suffered a very great loss; now, therefore,

Be It Resolved by the General Assembly of the State of New Jersey, That this body does hereby express its profound sorrow on the passing of T. Millet Hand and does hereby extend to his bereaved family its condolences and sympathy; and

Be It Further Resolved, That this resolution be spread upon the Minutes of the General Assembly and that a copy, signed by the Speaker and attested by the Clerk, be sent to the family of Mr. Hand.

Messrs. Bowkley, Mills, Stewart and Bush offered the following resolution, which was read by the Clerk and adopted:

WHEREAS, The General Assembly has learned with extreme regret of the untimely passing of Augustus C. Studer, Jr., on Friday, January 4, 1957; and

WHEREAS, Mr. Studer was a prominent member of the bar of the State of New Jersey and during his long career as a lawyer he displayed in abundance the qualities of great learning and advocacy, having been a former President of

the New Jersey State Bar Association, a member of the Essex County, the State and the American Bar Associations, and a former member of the Judicial Council seeking court reforms in the State; and

WHEREAS, Mr. Studer served his State with great distinction as head of a Citizens Committee probe of State investment practices, which resulted in the revision of such practices and in the establishment of the State Investment Council, and also served as counsel to the Joint Legislative Committee to investigate and report to the Legislature on law enforcement in New Jersey; and

WHEREAS, Mr. Studer won the respect and admiration of the public for the impartial and efficient manner in which he conducted the State investigations to which he was assigned; and

WHEREAS, His loss to the State of New Jersey has been recognized by Governor Meyner and ex-Governor Driscoll; and

WHEREAS, The General Assembly recognizes the great loss that his State, his community and the legal profession have sustained in the passing of a man of high integrity and competence; now, therefore,

Be It Resolved, That the General Assembly does hereby express its profound sorrow and extends its sincere condolences to his family in their bereavement; and

Be It Further Resolved, That this resolution be spread in full upon the Minutes of the General Assembly and that a copy, signed by the Speaker and attested by the Clerk, be sent to his family.

A message was received from the Secretary of the Senate as follows—and was read by the Clerk:

STATE OF NEW JERSEY,
SENATE CHAMBER,
Mr. Speaker: January 7, 1957.

I am directed by the Senate to inform the General Assembly that the Senate has passed the following resolution:
