June 2012

Monthly Traffic Report

Newark Liberty International John F.Kennedy International LaGuardia Stewart International Teterboro & regional satellite airport summaries

Aviation Department - Traffic Statistics

JoJo Quayson
John Cuneo
Deyssi Mesa

Notes1: The section entitled Air Transport Association Carriers is included to give a comparison between Port Authority Airport traffic growth and aggregate growth as measured by the majority of the U.S. carrier industry.

Note2: The page 2 Access Mode: residents report excludes passengers arriving by hotel courtesy vehicles, helicopters, and the miscellaneous "other" category. The airline OAG summary uses schedules effective for the week in the middle of the month being summarized. "Flights (daily) refers to the daily-each-way average flights which can be thought of as 1 directional departing or arriving flights.

The region's passenger traffic grew 4.6% in the first half of 2012 despite a 5.7% increase in ticket prices. YTD domestic traffic gained 5.3% and international traffic grew 3.2%. Though growth slowed in May and June, average monthly gains in excess of 5% from January through April helped sustain the first-half gains. Factors contributing to the strong growth included a mild winter compared to blizzard conditions a year ago, a leap year this February, and stronger pace of economic growth in January and February. Cargo continues to remain weak though as the YTD June level fell 8.3%. Due to the continued weakness, we anticipate that the magnitude of the 2012 cargo decline will probably be larger than the 4% decline predicted for this year.
