

The logo features a stylized map of New Jersey in green and yellow, positioned between the words "NEW" and "JERSEY'S". Below this, the words "Talent Networks" are written in a large, bold, blue sans-serif font. The entire logo is centered and flanked by two horizontal orange lines.

NEW JERSEY'S Talent Networks

Life Sciences Talent Network

For employers and education/training providers

The growth of biotechnology companies in New Jersey depends on the availability of a superior workforce. The Life Sciences Talent Network, collaborates with other interested stakeholders to build the workforce this industry needs. Through the Talent Network, state and federal government agencies, academic institutions, and employers connect to create and provide effective resources for talent acquisition, training and education, and employee transition services.

What can being a part of the Life Sciences Talent Network do for you?

Employers

- Get up-to-date workforce data and information for the life sciences industry
- Gain access to assistance with grant opportunities for training designed specifically for your organization
- Enjoy increased capacity to identify and communicate career opportunities with the local talent pool
- Get information about — and help securing — incentives and other state and federal resources
- Provide the opportunity to shape the future of your industry. From education to internships and job opportunities to transition services, industry leaders in the Talent Network will work to expand services and resources to accommodate the needs of the life sciences industry

Education/Training Providers

- Get meaningful input from employers to assist in crafting curriculum, plus opportunities to get state funding for certain curriculum
- Gain direct access to potential students who have already shown an interest in the life sciences industry — and who will be directed to your program
- Leverage the experience of the Life Sciences Talent Network to get information on grants and services available from the New Jersey Department of Labor and Workforce Development
- Develop relationships with industry insiders who can offer valuable real-world insights to help your students succeed

NEW JERSEY'S Talent Networks

Life Sciences Talent Network

For jobseekers

The Life Sciences Talent Network helps jobseekers create career paths in the field of life sciences by working with education partners to develop industry-specific training programs. Curricula developed with the insight of industry insiders is designed to be highly relevant to the current needs of hiring employers. Talent Network partners include New Jersey universities and colleges, high schools with a strong focus on science (or those who are creating such programs), and private training organizations.

Why should you join the Life Sciences Talent Network?

- Learn about the many types of careers within the life sciences industry
- Participate in jobseeker networking groups with your peers
- Connect directly with employers through various events hosted by the Life Sciences Talent Network
- Learn about training opportunities and career paths available in the industry
- Get insider information on hiring trends within the industry by following the Life Sciences Talent Network on LinkedIn, Facebook and Twitter
- Receive information on training developed with employers' input and crafted to lead students directly to the openings in the job market
