## Permit Descriptions

---

**CAFRA** - A Coastal Area Facility Act permit is required to construct residential, commercial, public, transportation, utility and energy-related facilities in the coastal area as defined by the Act.

**Coastal Permit:** A permit or an authorization issued under this chapter pursuant to CAFRA, the Wetlands Act of 1970, N.J.S.A. 13:9A-1 et seq., or the Waterfront Development Law, N.J.S.A. 12:5-3.

**Coastal Wetlands:** A permit authorizing disturbances to Mapped Tidal Wetlands under the Wetlands Act of 1970, N.J.S.A. 13:9A”

**Federal Consistency Activity:** Certain federal permits, not limited to the U.S. Army Corps of Engineers Dredge and Fill Permits, require certification by the DEP prior to the issuance of the permit by the federal agency.

**Flood Hazard Area:** A Flood Hazard permit or verification is required for disturbances within the floodway, floodplain or riparian zone in areas regulated under the Flood Hazard Area Control Act.

**Freshwater Wetlands:** A Permit (Letters of Exemption, Letters of Interpretation, Statewide General Permit, Open Water Fill, Individual, Transition Area Waiver, Water Quality Certificate) is needed prior to engaging in a regulated activity in or around freshwater wetlands and associated transition areas.

**General Groundwater Petroleum Products Cleanup:** This general permit authorizes the surface water discharge of treated groundwater previously contaminated with petroleum products.

**NJPDES permits:** A permit is required for the discharge of pollutants to surface and groundwater, a discharge from an indirect user or the land application of municipal and/or industrial residuals. (A more comprehensive definition of activities, which require a permit, may be found at N.J.A.C. 7:14A-2.4)

**Solid Waste Facility:** A permit is required to conduct or operate any solid waste facility as defined under the Solid Waste Management Act, N.J.S.A. 13:1E-1 et seq., and N.J.A.C. 7:26-1 et seq.

**Highlands Resource:** A Highland Preservation Area Approval is required for regulated activities within the Highland Preservation Area as defined in the Highlands Water Protection & Planning Act Preservation Area Rules. Highlands Applicability Determinations verifies certain exemptions allowed by the regulations.

**Tidal Wetlands:** A Coastal Wetlands Permit is needed to excavate, dredge, fill or erect structures on coastal wetlands.

**Treatment Works Approval:** A TWA permit is required for the construction, modification or operation of a treatment works, including sanitary/industrial sewage pretreatment or treatment systems, sewage conveyance systems, sewer extensions and subsurface sewage disposal systems.

**Waterfront Development:** A permit is required for any project involving the development of waterfront near or upon any tidal or navigable waterway in the State.

## General Information

---

The DEP Bulletin is an information service provided by the New Jersey Department of Environmental Protection. In compliance with the Rules and Regulations Governing 90 Day Construction Permits (NJAC 7:1C-1.1 et seq.) this semi-monthly publication contains a list of construction permit applications recently filed or acted upon by the DEP. Using the Application Milestone Codes located on the inside front cover, interested persons can determine the status of Coastal Area Facility Review Act (CAFRA) permits, Federal Consistency Activity permits, Freshwater Wetlands Individual and Statewide General permits, General Groundwater Petroleum Products Cleanup permits, Open Water Fill permits, Solid Waste Facility permits (SWF), Flood Hazard Area (FHA) permits, Tidal Wetlands permits, Waterfront Development permits and Treatment Works Approvals (TWA). In addition, this publication lists status of Highlands application and Highlands Applicability Determinations.

In addition, a calendar of Events of Interest and a Schedule of Public Hearings is provided. The public hearings listed do not, however, constitute an official notice. Environmental Impact Statements acted upon during the period are also shown. Additional information concerning the permit applications can be obtained by calling the project manager at the appropriate office listed on the inside back cover.

Public Hearings are held for the purpose of obtaining input and reaction to a proposed rule, regulation, or new program. Some hearings may be mandated by law. Generally, their scope of impact is statewide or of broad general interest and open to the public.

Contested Case Hearings are held between the State and a particular party involving an application, enforcement violation or an appeal. Interest in these hearings is generally limited to those directly involved.

DEP Events of Public Interest include public hearings, council meetings, workshops, public information meetings, and exams.

## Appeals on Applications

---

Any individual who would like to appeal a decision on an application should direct their remarks to:

Office of Legal Affairs  
Attn: Adjudicatory Hearing Requests  
Department of Environmental Protection  
PO Box 402  
Trenton, NJ 08625-0402

**NEW JERSEY DEPARTMENT OF ENVIRONMENTAL PROTECTION**  
**EVENTS OF PUBLIC INTEREST**

**DATE:** August 2, 2017

**TIME:** 9:30 a.m.

**PLACE:** Water and Wastewater Operator Licensing Meeting  
401 East State Street, 4th floor conference room  
Trenton, NJ 08625

## Waiver Rule Requests

NOTE: Pursuant to N.J.A.C. 7:1B-2.3(c), this section contains only those waiver rule requests related to rules for which the Department publishes notice of permit decisions in the DEP Bulletin. To access information on all waiver rule requests received by the Department, use the interactive reports on the Department's DataMiner website. Please visit <http://www.nj.gov/dep/waiverrule> and click on the "Search for Waiver Requests and Decisions" button to access these reports.

Narrative	
	<p>Waste Management of New Jersey, Inc. is requesting a waiver of NJAC 7:26A-4.5(a)(15)(ii), which requires that an enclosed Class C facility be located at least 50 feet from the property line. The recycling center is proposed to be located at 847 Flora St., Elizabeth, NJ. WMNJ's waiver application is based on the undue burden that would result from strict compliance with the setback requirement. Compliance with the requirement would require partial demolition of an existing structure, at great expense. The added expense would result in higher fees for users of the facility, possibly making the facility more expensive than traditional disposal options. This would result in loss of the expected benefits of the facility: increased recycling of vegetative materials; reduction of landfill use for that portion of the waste stream; production of a marketable product (soil enhancers) and/or production of feed stock for use by an energy-generating facility. The handling and processing of the Class C material at WMNJ's proposed facility will be much different than any processing contemplated in 2002, when the setback regulation was adopted. The proposed facility will receive vegetative material from collection vehicles or from totes/containers collected at generators sites. The material will be discharged to the tipping floor before being placed into a feed hopper for the bio-separator. Once the material enters the bio-separator, it will remain in a closed system for processing and eventual discharge to tanker trucks, which will then transport the processed material off-site. The design of WMNJ's proposed facility will reduce the amount of time that the material is handled outside of the closed system. WMNJ seeks approval of a 500 ton/day capacity, and the processing equipment is designed to handle 50 tons/hour. This design will minimize the amount of time that inbound material is on-site before being moved into the closed system for processing.</p>

	Section	20
	Subsection	a
	Paragraph	1
	Subparagraph	

### Narrative

Permit-by-rule 20 authorizes the construction of a fence, provided the conditions at N.J.A.C. 7:13-6.7 are met: No disturbance within 25 feet of any top of bank, no trees will be disturbed and fence has sufficiently large openings so as not to catch debris during a flood and thereby obstruct floodwaters, such as a split-rail. We are requesting approval to install a split-rail fence along the left side of our property line for the safety of our grandchildren. 3 sections of the fence would be in the stream encroachment area. We respectfully request approval. NJAC7:13 7.20 Permit by rule 20 construction of a fence. Thank you! John McConnell 484-614-0424

## ***Public notice of proposed permit actions***

**NEW JERSEY DEPARTMENT OF ENVIRONMENTAL PROTECTION**  
**DIVISION OF WATER QUALITY**  
**PUBLIC NOTICE**

Notice is hereby given that the New Jersey Department of Environmental Protection (NJDEP) proposes to issue the following New Jersey Pollutant Discharge Elimination System (NJPDES) permit actions in accordance with N.J.A.C. 7:14A-1 et seq. and by authority of N.J.S.A. 58:10A-1 et seq. The description of each proposed permit action is contained in the accompanying table.

This public notice has been prepared for these facilities as part of the administrative record to be filed at NJDEP, 401 East State Street, Trenton. Copies of the draft document are obtainable, for a nominal charge, and the administrative record is available for inspection by appointment only, Monday through Friday, by contacting the NJDEP file room at (609) 292-0400. Additional information regarding the draft document may be obtained from the contact person listed in the accompanying table.

Comments on the draft document or a request that NJDEP hold a non-adversarial public hearing on the document must be submitted, in writing, to the individual specified below (refer to the accompanying table for the appropriate permitting bureau) during the public comment period, which closes either:

1. 30 calendar days after publication of the last newspaper notice when a notice is published in the DEP Bulletin *and* a newspaper(s); or
2. 30 calendar days after publication of the DEP Bulletin notice when a notice is published in the DEP Bulletin *only*.

All persons, including permittees who believe that any condition of NJDEP's tentative decision to issue these permit actions is inappropriate must raise all reasonable issues of concern and submit all arguments and factual materials supporting their position during the public comment period. Any request for a public hearing shall state the nature of the proposed issues to be raised in the hearing. A public hearing will be conducted if NJDEP determines there is a significant degree of public interest. If a public hearing is held, the public comment period is automatically extended through the close of the hearing.

NJDEP will consider and respond to all significant and timely submitted comments. The permittee and each person who submitted written comments, will receive notice of NJDEP's final decision to issue, revoke or redraft the document.

***Written comments should be submitted to the appropriate permitting bureau:***

PSEG FOSSIL-BURLINGTON GENERATING STATION NJ0005002 DSW Minor	W BROAD ST & DEVLIN AVE Burlington, NJ 08016  Burlington County	Adam Sarafan  Bureau of Surface Water Permitting  (609) 984-8212	Delaware River-Discharge Canal  Mainstem Delaware-Zone 2  Burlington/Edgewater Park Delaware tribs	Surface Water Renewal Permit Action The facility is a 557 megawatt (MW) station that consists of four operating fossil-fueled simple-cycle combustion turbine/generators. These units are air-cooled and therefore there is no discharge from these units. The NJPDES permit renewal serves to authorize the discharge from the on-site wastewater treatment plant as well as emergency fire pump testing water via outfall A.
WEST MILFORD SHOPPING CENTER STP NJ0024414 DSW Minor	9-27 MARSHALL HILL RD West Milford Twp, NJ 07480  Passaic County	Ramanathan Asokan  Bureau of Surface Water Permitting  (609) 292-4860	Belchers Crk via unnamed trib  FW2-NT(C2)  Wanaque River	Surface Water Renewal Permit Action This is a minor modification to correct the final phosphorus effluent limitations. The Department misinterpreted the TMDL and imposed mass loading and concentration limitations for phosphorus. Specifically, the final phosphorus effluent loading limitations should be 0.02 kg/d as a monthly average and monitoring only as a weekly average. In addition, the final phosphorus effluent concentration limitations should be monitoring only as a monthly average and as a weekly average.
CHESTER SHOPPING CENTER NJ0026824 DSW Minor	CORNER OF RTS 206 & 24 Chester, NJ 07930  Morris County	Ramanathan Asokan  Bureau of Surface Water Permitting  (609) 292-4860	Unnamed tributary to Lamington  FW2-TP(C1)  Lamington River	Surface Water Renewal Permit Action This application is for a renewal of a NJPDES permit to discharge an average of 0.011 mgd of treated domestic wastewater. Wastewater originates from the businesses within the shopping center. Treatment consists of an equalization tank, an anoxic reactor tank, an aeration tank, an aerobic digestion tank, two ultraviolet disinfection units, and a re-aeration tank.
