

HYBRID

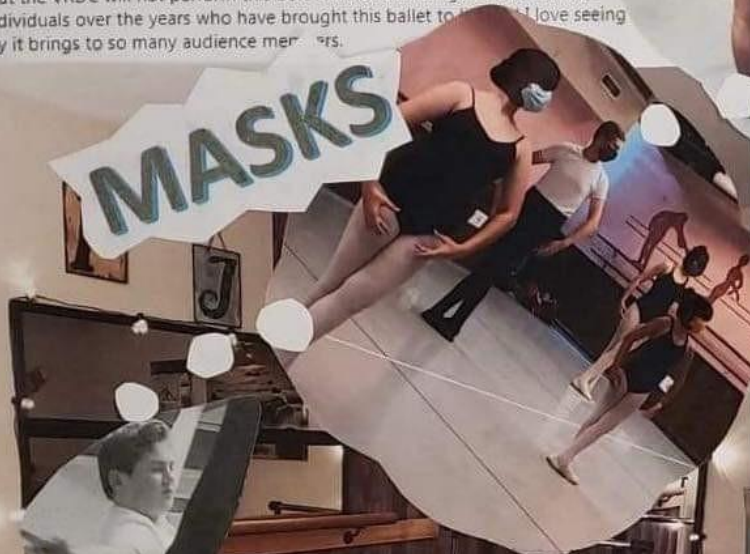

must announce, with a heavy heart, that the Vineland Regional Dance Center (VRDC) will not present its 43rd annual Nutcracker Ballet due to the Covid-19

takes hundreds of dancers, students, crew members and backstage personnel in preparing the Nutcracker to the stage. Their safety and the safety of our audience members are our top priority when making this difficult decision.

This will be the first time since the premiere production of the Nutcracker in 1977 that the VRDC will not perform this beloved classic. I am grateful for all the individuals over the years who have brought this ballet to life and the joy seeing it brings to so many audience members.
