(1) The Budgetary Cost per Pupil that represents comparisons with districts of similar budget type. The components that comprise the budgetary cost per pupil are as follows: classroom instructional costs; support services (attendance and social work, health services, guidance office, child study team, library and other educational media); administrative costs (general administration, school administration, business administration, and improvement of instruction); operations/maintenance of plant; food services, and extracurricular costs. The total of these expenditures is divided by the average daily enrollment for a total budgetary cost per pupil.

(2) Second is the Total Cost Per Pupil which, in addition to all of the costs listed above for the budgetary cost, includes costs for tuition expenditures and payments to preschool providers; transportation; other current expenses (lease purchase interest, residential costs, and judgments against schools); equipment; facilities/acquisition; and restricted expenses less nonpublic services and adult schools. The total of these expenditures is divided by the average daily enrollment, combined with all students sent out of the district as reported on the ASSA (annual state aid collection) to calculate a total cost per pupil.

(1) The Budgetary Cost per Pupil that represents comparisons with districts of similar budget type. The components that comprise the budgetary cost per pupil are as follows: classroom instructional costs; support services (attendance and social work, health services, guidance office, child study team, library and other educational media); administrative costs (general administration, school administration, business administration, and improvement of instruction); operations/maintenance of plant; food services, and extracurricular costs. The total of these expenditures is divided by the average daily enrollment for a total budgetary cost per pupil.

(2) Second is the Total Cost Per Pupil which, in addition to all of the costs listed above for the budgetary cost, includes costs for tuition expenditures and payments to preschool providers; transportation; other current expenses (lease purchase interest, residential costs, and judgments against schools); equipment; facilities/acquisition; and restricted expenses less nonpublic services and adult schools. The total of these expenditures is divided by the average daily enrollment, combined with all students sent out of the district as reported on the ASSA (annual state aid collection) to calculate a total cost per pupil.

(1) The Budgetary Cost per Pupil that represents comparisons with districts of similar budget type. The components that comprise the budgetary cost per pupil are as follows: classroom instructional costs; support services (attendance and social work, health services, guidance office, child study team, library and other educational media); administrative costs (general administration, school administration, business administration, and improvement of instruction); operations/maintenance of plant; food services, and extracurricular costs. The total of these expenditures is divided by the average daily enrollment for a total budgetary cost per pupil.

(2) Second is the Total Cost Per Pupil which, in addition to all of the costs listed above for the budgetary cost, includes costs for tuition expenditures and payments to preschool providers; transportation; other current expenses (lease purchase interest, residential costs, and judgments against schools); equipment; facilities/acquisition; and restricted expenses less nonpublic services and adult schools. The total of these expenditures is divided by the average daily enrollment, combined with all students sent out of the district as reported on the ASSA (annual state aid collection) to calculate a total cost per pupil.

The federal *No Child Left Behind (NCLB) Act* has imposed specific accountability and reporting requirements on states. The *NCLB* reports present school-, district-, and state-level information in those areas mandated by *NCLB*, which are as follows: status regarding Adequate Yearly Progress; information on highly qualified teachers; attendance and dropout data; and assessment data that has incorporated all of the conditions mandated under *NCLB* for meeting federally approved proficiency levels.

The results displayed on *NCLB* Reports are based on the state assessment data with the *NCLB* conditions applied. Additionally, the *NCLB* data incorporates the data appeals submitted by districts/schools that have been granted by the NJDOE. Therefore, the data in the *NCLB* Reports may be different from the data displayed on the NJ School Report Cards.

>>[New Jersey School Report Card](#)

The annual New Jersey School Report Card is required under a 1995 state law. It presents thirty-five fields of information for each school in the following categories: school environment, students, student performance indicators, staff, and district finances.

The assessment results displayed on the New Jersey School Report Cards are based on the state assessment data without any *NCLB* conditions applied. Therefore, the assessment data in the NJ School Report Card may be different from the assessment data displayed on the *NCLB* Reports where there have been *NCLB* conditions applied to the test results.

WELCOME TO THE NEW JERSEY SCHOOL REPORT CARD FOR 2011

One of the major goals of the Department of Education is to increase school- and district-level accountability for educational progress by communicating useful information to members of the public to be used in measuring how well their schools are doing. The New Jersey School Report Card has provided the public with information about every school in New Jersey since 1995 when the Legislature mandated the annual accountability report.

The 2011 edition of the New Jersey School Report Card offers the same level of information as last year. We encourage you to examine your school's report card to decide for yourself whether your school is making satisfactory progress in helping your child meet New Jersey's Core Curriculum Content Standards. If you would like to give the department feedback on the report card process, please contact us: reportcard@doe.state.nj.us.

Above all, the Department of Education urges you to become involved with your local schools. With the scrutiny and support of the community, our schools can and will provide an excellent education for all of our students.

NEW JERSEY DEPARTMENT OF EDUCATION

PATERSON CITY (31-4010)

The Paterson Public School District is an urban school district located in northern New Jersey, 18 miles west of New York City. The third largest school district in New Jersey and one of its most diverse, the Paterson Public School District enrolls 28,400 students in preschool to grade 12. The population in the Paterson Public School District mirrors the demographic trend of urban communities in New Jersey: 60 percent of all students are of Hispanic origin; 30 percent are African-American and approximately 9 percent are of Caucasian, Middle Eastern or Asian descent. Nearly 50 percent of all students in Paterson speak a primary language other than English, with a total of 37 languages spoken in district schools.

The Paterson Public School District is led by state appointed District Superintendent, Dr. Donnie W. Evans, who works closely with the New Jersey Department of Education and nine elected members of the Paterson Board of Education. After state takeover in 1991, the district began to establish and implement stringent controls and monitoring procedures related to school and district office operations. To ensure consistent operations, all board policies and regulations were reviewed, updated and are currently accessible on the district's website. This district has 52 schools that house 2,760 certified teachers to accommodate students in kindergarten through grade 12. District high schools were recently restructured and reorganized into "thematic choice schools." At the elementary level (K-8), four schools are schools of choice.

Preparing our students for success begins at an early age. To that end, the Paterson Public School District provides a comprehensive preschool program, serving 3,600 three- and four-year-old students in 33 early childhood community provider centers and four in-district sites. The program provides a full day of developmentally appropriate instruction that promotes children's social-emotional development and learning in the core areas of language and literacy, mathematics, science and social studies. Teachers utilize a research-based comprehensive curriculum adopted by the Paterson Board of Education in order to provide a seamless transition to the kindergarten curriculum.

During the 2009-2010 school year the Paterson Public School District developed an ambitious five-year Strategic Plan for transforming itself into a high performing urban school system. The Plan known as *Bright Futures*, includes the vision for Paterson Public Schools "to be a leader in educating New Jersey's urban youth" and its *college ready* mission "to prepare each student for success in the institution of higher education of their choosing and in their chosen career."

Bright Futures driven by an urgent need to improve student academic outcomes, school and district culture, family and community involvement, and operational functions is organized by four priorities:

- **Effective Academic Programs:** Programs are research-based and outcomes driven
- **Safe, Caring, and Orderly Schools:** Schools are safe which enable teachers

to teach and students to learn

- **Family and Community Engagement:** District and school staff collaborate with and engage families and community institutions, organizations, and agencies
- **Efficient and Responsive Operations:** Operations support the district and school's core business and are responsive to the needs of staff, students, and community

Twenty-three measurable goals and numerous school improvement strategies are aligned with each priority. These priorities, goals, and strategies are intended to create an aligned instructional system, build capacity among teachers and principals, create a strong district-level support system, and involve parents and community partners.

Since the development of *Bright Futures*, the district has aggressively implemented many of its strategies, such as:

1. Transforming (reorganizing and re-staffing) its large comprehensive high schools into autonomous small schools (Eastside and John F. Kennedy High Schools)
2. Restructuring and re-staffing its lowest performing elementary schools (Schools 4, 6, & 10)
3. Converting all high schools into "thematic schools of choice"
4. Creating three full service community schools (Schools 4, 5, & New Roberto Clemente)
5. Reorganizing and re-staffing district operational divisions (finance, human resources, and facilities)
6. Creating the state's first curriculum based, student operated credit union
7. Creating and implementing the Paterson Effective Schools' Initiative to change the culture in district schools and the District Office.
8. Significant expansion of alternative schools in the district.
9. Implementing academic interventions for each student performing below proficient in mathematics and/or language arts literacy on NJASK and HSPA.
10. Establishing parent-teacher organizations in each school.
11. Acquired grant funding to support school improvement initiatives
12. Promise Community Grant to support Full Service Community Schools - \$2.3 million
13. Affordable Care Act Grant for School-Based Health Centers in full service schools - \$500,000
14. Talent 21 grant to support technology initiatives - \$2.2 million
15. School Improvement Grants (SIG) for Schools 4 & 10 - \$12 million

These and other changes have contributed to improvements in student outcomes including:

1. The percent of first-time takers of HSPA performing at or above proficient in language arts literacy, increased from 51.7% to 59.5% from 2009-10 to 2010-11, with International High School demonstrating a 28% increase, Garrett Morgan demonstrating a 39% increase, and the three Eastside High Schools cumulatively increased by 6.5%.
2. The percent of students in grades three through eight performing at or above proficiency in mathematics on NJASK increased from 45.9% to 49.1% from 2009-10 to 2010-11.
3. Within cohort analysis of grade 3-8 students on NJASK for the same period finds that four of five cohorts increased their performance in mathematics and three of five increased their performance in language arts literacy.
4. Our graduation rate using the cohort method (a comparison of students entering 9th grade as a cohort to those who graduated as a cohort four years later) for the 2011 graduating class increased to 58.7%, which is an increase from 50.4% in 2010 and 45% in 2009.

Although the district is beginning to realize limited improvements in academic outcomes, much more work is needed to accelerate improvements. To this end, the district is taking major steps to accelerate improvements in academic and non-academic outcomes. These steps include the creation of *The Paterson Innovation Zone*.

The Paterson Innovation Zone is a pilot initiative designed to accelerate improvements in student achievement and non-academic outcomes. This program will accomplish *Bright Futures'* goals by creating an aligned instructional system, increasing capacity among teachers to become more effective, helping principals to become effective instructional leaders, creating a strong district-level support system, and increasing the involvement of parents and community partners.

Additional steps include:

NEW INITIATIVES FOR 2011-2012

1. Increase district office capacity to support school improvement
2. Evaluate & restructure Special Education
3. Evaluate & restructure English as a Second Language Program
4. Restructure support system for academics
5. Increase capacity for supporting Math instruction in high school
6. Increase capacity for supporting Language Arts instruction in elementary schools
 1. Expand Fine Arts in K-8 Schools
7. Restructure program to provide music and art to all students in K-8
8. Restructure and relocate APA
 1. Create/implement more choice options
9. All high schools will become Choice Schools
10. Create more choice options for K-8 students
 1. Create Gifted and Talented continuum for grades 3-12
 2. Institute a uniform policy for all schools
 3. Implement the Paterson Effective Schools Model district-wide
 4. Develop and implement a Parent Outreach Initiative to increase parent

involvement in schools

1. Create a Leadership Development Institute
2. Aspiring Leaders Academy
3. Practitioners' Academy
 1. Implement an outcome-based performance appraisal system for teachers and

administrators

1. Create and implement a student progression plan
2. Reduce dependence on leased facilities

The Paterson Public School district is aggressively implementing school and district-level initiatives to transform the system into a high performing organization. In doing so, it is confident that its mission to prepare every student for success in the institution of higher education of their choosing and in their chosen career will be realized.

Spanish Narrative:

El Distrito de Escuelas Públicas de Paterson es un distrito escolar urbano ubicado en el norte de Nueva Jersey, 18 millas al oeste de la ciudad de Nueva York. El tercer distrito escolar más grande en Nueva Jersey y uno de los más diversos, el Distrito de Escuelas Públicas de Paterson inscribe a 28,400 estudiantes de preescolar hasta el grado 12. La población en el Distrito de Escuelas Públicas de Paterson refleja la tendencia demográfica de las comunidades urbanas de Nueva Jersey: 60 por ciento de todos los estudiantes son de origen hispano, 30 por ciento son afro-americanos y aproximadamente el 9 por ciento son de raza blanca, Medio Oriente o de origen asiático. Casi el 50 por ciento de todos los estudiantes de Paterson hablan un idioma primario que no sea inglés, con un total de 37 lenguas que se hablan en las escuelas del distrito.

El Distrito de Escuelas Públicas de Paterson es dirigido por el Superintendente Estatal del Distrito, el Dr. Donnie W. Evans, quien trabaja en estrecha

colaboración con el Departamento de Educación de Nueva Jersey y nueve miembros electos de la Junta de Educación de Paterson. Después de que el estado tomó control en 1991, el distrito comenzó a establecer y aplicar estrictos controles y procedimientos de monitoreo relacionados con las operaciones de las escuelas y oficinas centrales. Para garantizar un funcionamiento coherente de las operaciones, todas las pólizas y reglamentos de la junta han sido revisados, actualizados y son accesibles en la página web del distrito.

Este distrito tiene 52 escuelas que albergan 2,760 maestros certificados para acomodar a estudiantes en kindergarten hasta el 12 grado. Escuelas secundarias del distrito se han reestructurado y reorganizado recientemente en “escuelas de elección temática.” A nivel elemental (K-8), cuatro escuelas son de elección.

Preparar a los estudiantes para el éxito comienza a una temprana edad. Con ese fin, el Distrito de Escuelas Públicas de Paterson ofrece un programa preescolar integral, sirviendo a 3,600 estudiantes de tres y cuatro años de edad en 33 centros proveedores comunitarios de primera infancia y cuatro centros dentro del distrito. El programa provee un día completo de instrucción apropiada para el desarrollo que promueve el desarrollo socio-emocional de los niños y el aprendizaje en las áreas básicas de la lengua y alfabetización, matemática, ciencias y estudios sociales. Los maestros utilizan un currículo basado en la investigación y aprobado por la Junta de Educación de Paterson a fin de proporcionar una fluida transición al currículo de kindergarten.

Durante el año escolar 2009-2010, el Distrito de Escuelas Públicas de Paterson desarrolló un ambicioso Plan Estratégico de cinco años para transformarse en un sistema de escuelas urbanas de alto desempeño. El Plan conocido como “*Bright Futures*”, incluye la visión de las Escuelas Públicas de Paterson “para ser un líder en la educación de la juventud urbana de Nueva Jersey” y su misión “*listos para la universidad*” “para preparar a cada estudiante para el éxito en la institución de educación superior de su elección y en su carrera elegida.”

Bright Futures impulsado por una necesidad urgente de mejorar los resultados académicos de los estudiantes, la cultura de las escuelas y el distrito, la participación de la familia y la comunidad, y las funciones operativas está organizado en torno a cuatro prioridades:

- **Programas Académicos Eficaces:** Programas que están basados en la investigación e impulsados por los resultados
- **Escuelas, Seguras, Afectuosas y Ordenadas:** Las escuelas están seguras lo cual les permite a los maestros enseñar y a los estudiantes a aprender
- **Compromiso de la Familia y la Comunidad:** El distrito y el personal escolar colaboran e involucran a las familias, las instituciones de la comunidad, organizaciones y agencias
- **Operaciones eficientes y sensibles:** Las operaciones apoyan al distrito y al principal interés de las escuelas y responden a las necesidades del personal, estudiantes y la comunidad

Veintitrés metas y numerosas estrategias de mejora de las escuelas están alineadas con cada prioridad. Estas prioridades, metas y estrategias están destinadas a crear un sistema alineado de enseñanza, fortalecer la capacidad entre los maestros y directores, crear un fuerte sistema de apoyo a nivel del distrito e involucrar a padres y miembros de la comunidad.

Desde el desarrollo de *Bright Futures*, el distrito ha implementado agresivamente muchas de sus estrategias, tales como:

1. Transformando (reorganizando re-surtiendo el personal) de las mayores escuelas secundarias en pequeñas escuelas autónomas (Escuelas Secundarias Eastside y John F. Kennedy)
2. Reestructurando y re-organizando el personal de las escuelas primarias de mas bajo rendimiento (Escuelas 4, 6, y 10)
3. Convirtiendo todas las escuelas secundarias en "escuelas de elección temática"
4. Creando tres escuelas comunitarias de servicio completo (escuelas 4, 5, y Nueva Roberto Clemente)
5. Reorganizando y re-surtiendo el personal en las divisiones operativas del distrito (finanzas, recursos humanos e instalaciones)
6. Creando el primer banco de crédito en el estado basado en el currículo y operado por estudiantes
7. Creando e implementando la Iniciativa de las Escuelas Eficaces de Paterson para cambiar la cultura en las escuelas y oficinas del distrito
8. Significativa expansión de las escuelas alternativas en el distrito
9. Implementando intervenciones académicas para cada estudiante con desempeño por debajo del nivel en matemáticas y / o las Artes del Lenguaje y alfabetización en NJASK y HSPA
10. Estableciendo organizaciones de padres y maestros en cada escuela
11. Se obtuvieron fondos de becas para apoyar iniciativas de mejoramiento escolar
12. Beca Promesa Comunitaria para apoyar las Escuelas Comunitarias de Servicio Completo - \$2.3 millones
13. Beca “Affordable Care Act” de subvención para los Centros de Salud Escolares dentro de las escuelas de servicio completo - \$ 500.000
14. Fondos de Beca Talento 21 para apoyar iniciativas de tecnología - \$ 2.2 millones
15. Becas de Mejoramiento de Escuelas (SIG, por sus siglas en inglés) para las Escuelas 4 y 10 - \$ 12 millones

Estos y otros cambios han contribuido a la mejora de resultados de los estudiantes, incluyendo:

1. El porcentaje de estudiantes que tomaron por primera vez el examen HSPA con rendimiento a nivel o por encima de competencia en las Artes del Lenguaje y alfabetización, aumentó de 51.7% a 59.5% del 2009-10 al 2010-11, con la Escuela Secundaria Internacional demostrando un aumento del 28%, Garrett Morgan demostrando una 39% de aumento, y las tres escuelas de la Secundaria Eastside con un aumento acumulativo de 6.5%.
2. El porcentaje de estudiantes en los grados tres al ocho con rendimiento a nivel o por encima de competencia en matemáticas en NJASK aumentó del 45.9% al 49.1% del 2009-10 al 2010-11.
3. Un análisis entre grupos de estudiantes de grados 3-8 en NJASK para el mismo período encuentra que cuatro de cinco grupos incrementaron su rendimiento en matemáticas y tres de cinco aumentaron su rendimiento en artes del lenguaje y alfabetización.
4. Nuestra tasa de graduación utilizando el método de grupos (una comparación de los estudiantes entrando al 9no grado como grupo a los que se graduaron en grupo cuatro años más tarde) para la clase de graduados en 2011 aumentó a 58.7%, lo que supone un incremento de 50.4% en 2010 y 45% en 2009.

Aunque el distrito está empezando a ver mejoras limitadas en los resultados académicos, se necesita trabajar mucho más para acelerar las mejoras.

Con este fin, el distrito está tomando importantes medidas para acelerar mejoras en los resultados académicos y no académicos. Estas medidas incluyen la creación de la Zona de Innovación de Paterson.

La Zona de Innovación de Paterson es una iniciativa piloto diseñada para acelerar mejoras en el rendimiento escolar y los resultados no académicos. Este programa llevará a cabo los objetivos de *Bright Futures* mediante la creación de un sistema alineado de enseñanza, aumentando la capacidad de los maestros a ser más eficaces, ayudando a los directores a convertirse en líderes efectivos de enseñanza, creando un fuerte sistema de apoyo a nivel del distrito, y aumentando la participación de los padres y socios de la comunidad.

Pasos adicionales incluyen:

NUEVAS INICIATIVAS PARA 2011-2012

1. Aumentar la capacidad de las oficinas del distrito para apoyar mejoras escolares
 - a. Evaluar y reestructurar la Educación Especial
 - b. Evaluar y reestructurar Programas de Inglés como Segundo Idioma
 - c. Reestructurar el sistema de apoyo académico
 - d. Aumentar la capacidad de apoyo a la enseñanza de matemáticas en la escuela secundaria
 - e. Aumentar la capacidad de apoyo a la instrucción de Artes de Lenguaje en las escuelas primarias
2. Ampliar el programa de Bellas Artes en las escuelas K-8
 - a. Reestructurar el programa para proporcionar música y arte a todos los estudiantes de K-8
 - b. Reestructurar y reubicar a APA
3. Crear / implementar más opciones de elección
 - a. Todas las escuelas secundarias se convertirán en escuelas de elección
 - b. Crear más opciones de elección para los estudiantes K-8
4. Crear un continuo de Dotados y Talentosos para los grados 3-12
5. Establecer una política uniforme para todas las escuelas
6. Implementar el Modelo de Escuelas Efectivas de Paterson en todo el distrito
7. Desarrollar y ejecutar la Iniciativa Alcance de Padres para aumentar la participación de padres en las escuelas
8. Crear un Instituto de Desarrollo de Liderazgo
 - a. Academia de Aspirantes a Líderes
 - b. Academia de Practicantes
9. Implementar un sistema de evaluación basado en los resultados de desempeño para los maestros y los administradores
10. Crear e implementar un plan de progresión para los estudiantes
11. Reducir la dependencia de las instalaciones alquiladas

El distrito de Escuelas Públicas de Paterson está implementando de manera agresiva iniciativas a nivel de escuelas y el distrito para transformar el sistema en una organización de alto rendimiento. De este modo, confía en que su misión de preparar a cada estudiante para el éxito en la institución de educación superior de su elección y en su carrera elegida se hará realidad.

Report Card Narratives

NEW JERSEY DEPARTMENT OF EDUCATION

DALE AVE (31-4010-045)

The Dale Avenue School is an early childhood learning center serving Preschool Handicapped, Special Education, Kindergarten, and First Grade students. The parents and community members play an integral part in our students' lives. Our goal is to provide an atmosphere that enables every child to develop a positive self-image, work to reach his/her maximum potential, and have a successful school experience.

The population at Dale Avenue is a cross section of the district. It was designed to accommodate the overflow of students in neighborhood schools. Due to this situation, Dale Avenue felt the need to incorporate character education into the curriculum. Responsive Classroom is a program used to precipitate the development of increased cooperative behavior among students, as well as, reducing problem behavior in classrooms.

Our philosophy is all children can and will learn. The staff at Dale Avenue understands each child progresses differently. Therefore, many opportunities are provided to address individual student needs and various learning styles. A collaborative in-class model is incorporated into our daily schedule to meet some of those special needs. Our main objective is to incorporate the Core Curriculum Content Standards throughout the curriculum to develop independent, self-reliant, lifelong learners.

The School Instructional Leadership Team plans social, academic, and staff development programs to improve teaching and learning at Dale Avenue School.

Our teachers meet to brainstorm and collaborate on curriculum issues and to analyze data for planning instruction. Developmentally appropriate, strategies and activities are also planned to make learning more meaningful. Our staff and school community have worked diligently to provide a strong academic foundation, in order to prepare our students to successfully move on to their neighborhood schools.

Kindergarten and First Grade teachers at Dale Avenue utilize MONDO, DIBELS, Literacy and Math Benchmarks to measure every student's progress to make educational decisions about individual needs. The staff measures each child's performance against his/her previous performance, rather than against those of other students, to determine growth in curriculum areas throughout the school year. This process ensures each child's instructional program will be developmentally appropriate based on age, grade level, and individual expectations.

We continue to strive for student improvement in the acquisition of the Core Curriculum Content Standards in Language Arts and Literacy, Math, Science and Social Studies by incorporating the following strategies:

- Partnership with neighborhood Pre-Schools to ensure a smoother transition into Kindergarten
- Interdisciplinary Coach provides resources and models lessons to enhance Language Arts, Math, Science and Social Studies.
- Ongoing staff development for teachers regarding the Core Content Curriculum Standards and other district initiatives.
- Integration of technology Leap Frog and SMARTBoard into instruction through the use of computers in the classroom and in our library media center.
- Differentiated instruction geared to the academic level of each student.
- Collaboration of support staff with classroom teachers to address individual needs for instruction and ongoing progress monitoring.

It is our mission every child be given the opportunity and resources to meet his/her individual needs to achieve success.

Spanish Narrative:

La Escuela Dale Avenue es un centro de aprendizaje para niños pequeños que le ofrece servicios educacionales a niños con impedimentos, a niños de educación especial y educación regular, estudiantes del primer grado y de Kindergarten. Los padres y los miembros de la comunidad también toman un papel primordial en la vida de nuestros estudiantes. Nuestra meta es proveer un medio-ambiente que proporcione a cada niño un desarrollo positivo de sí mismo, trabajar para alcanzar el máximo de su potencial y que tenga una experiencia escolar exitosa.

La población de estudiantes de la Escuela Dale Avenue es una combinación de varios estudiantes del distrito educacional de Paterson. Está designada para acomodar a los estudiantes que sobrelenan las escuelas del vecindario. Debido a esta situación, la Escuela Dale Avenue encontró la necesidad de incorporar en el currículo la educación del carácter del estudiante. El Salón Responsivo es un programa que se usa para precipitar el desarrollo del comportamiento cooperativo entre los estudiantes, además, reduce los problemas de comportamiento en los salones de clase.

Nuestra filosofía esta basada en el convencimiento que todos los estudiantes pueden, y van a aprender. El personal de la Escuela Dale Avenue, comprende que cada estudiante progresa de un modo diferente y tiene distintas necesidades académicas. Por esto, cada oportunidad de aprender está provista de asistencia individual a cada estudiante. Nuestro objetivo principal es incorporar los Estándares del Programa Básico de Estudios del Currículo; en inglés le llaman, el Core Curriculum Content Standards, (C.C.C.S.) y desarrollar estudiantes con independencia, confiables en sí mismos, y que puedan estudiar para toda la vida.

El comité académico se encarga de planear todos los programas sociales, académicos y programas de entrenamiento. Su meta es de mejorar la enseñanza y aprendizaje de nuestros estudiantes aquí en la escuela Dale Avenue.

Nuestros maestros se reúnen para discutir los resultados académicos de los estudiantes y así poder planear como mejorar e incorporar mejores métodos y estrategias de enseñanza y poder facilitar una mejor ayuda a los estudiantes.

Todas las actividades que se planean durante estas reuniones son basadas en el desarrollo cronológico de sus niños es decir de acuerdo a la edad del estudiante.

Nuestro personal escolar y comunidad han trabajado arduosamente para proveer una base académica fuerte y preparar a nuestros estudiantes. De esta manera, ellos estarán listos para regresar a sus escuelas correspondientes de acuerdo a su vecindario.

Los maestros de Kindergarden y el primer grado en Dale Avenue utilizan MONDO, DIBELS, Literacy Linguisticas y Matematicas para ayudar a los estudiantes en el salón de clase. Con estos datos el maestro puede hacer decisiones educativas acerca de las necesidades individuales de los estudiantes. Lo que el estudiante adelanta es medido para determinar su crecimiento en las áreas del currículo durante el año escolar. Este proceso se desarrolla en base de la edad, el nivel del grado y lo que se espera del estudiante.

Nosotros continuamos esforzándonos para mejorar a los estudiantes en la adquisición de los conocimientos esenciales en la Ciencias de las Artes Lingüísticas, y Matemáticas, incorporando las siguientes estrategias:

- Una sociedad entre las escuelas Pre- Escolares y nuestra escuela facilitara una transición más fácil cuando los estudiantes vengan al kindergarten.
- El entrenamiento continuo para el desarrollo profesional de los maestros acerca de los conocimientos esenciales del los Estándares del Programa Básico del Currículo (C.C.C.S.)
- Integración de tecnología (Leap Frog) en la instrucción a través del uso de computadoras en los salones de clase.
- Instrucción dirigida al estilo de aprendizaje de cada estudiante.
- Colaboración entre los otros profesionales y los maestros para formar una instrucción específica a las necesidades de los estudiantes, este proceso es continuo.

Es nuestra firme convicción que todos los estudiantes deberían recibir la oportunidad y tener los recursos para satisfacer sus necesidades individuales y lograr el éxito académico.

GUIDE TO THE NEW JERSEY SCHOOL REPORT CARD 2011

INTRODUCTION

This report card issued in May 2012 contains data for the 2010-11 school year. Enrollment numbers are based on the October 15, 2010 NJSMART submission. The information in the report card is school-level data, except for the finance section which contains district-level information. For charter schools, however, the finance section is school-level. The source of the information contained in the New Jersey School Report Card is the school district or the charter school, unless otherwise indicated in this guide.

There are several general practices and rules that are used throughout the document. They are as follows:

- **SUPPRESSION:** In reporting any type of assessment results, an asterisk indicates that the data were suppressed in order to protect privacy. Suppression includes cell sizes of less than 11 students, proficiency levels that are greater than 90% partially proficient, and other combinations of small cell sizes that might not protect privacy if they were not suppressed.
- **ZERO:** A zero in a data field in most cases means that there is no data to report for that field for this report card year.
- **BLANK:** A blank in most cases means this data element does not apply to this school.
- **STATE AVERAGE:** Unless otherwise stated, state averages are computed by four school types as follows: vocational schools; Special Services School Districts/special education schools; all elementary schools (regular and charter); or all secondary schools (regular and charter).
- **FACULTY:** In fields that refer to faculty, this term includes classroom teachers and educational support services personnel, such as guidance counselors and librarians.
- **ADMINISTRATORS:** In fields that refer to administrators, this term includes the certificated personnel such as the superintendent, assistant superintendents, school business administrator, principals, assistant principals, supervisors, non-supervisory coordinators, and directors.

REPORT CARD FIELDS

The following sections explain the data in the various report card fields.

SCHOOL ENVIRONMENT

Average Class Size

Average class size for elementary schools (Pre-K-8) is based on the enrollment per grade divided by the total number of classrooms for that grade. For elementary grades, the state average is the statewide total enrollment for each grade divided by the statewide total number of classrooms in that grade.

Average Class size for secondary schools (9-12) is based on the total enrollment per grade divided by the total number

of English classes for the same grade. For secondary grades, the state average is the total enrollment for each grade divided by the total number of English classes for the same grade.

For Special Services School Districts and special education schools, average class size is calculated by dividing the total enrollment by the total number of classrooms.

Length of School Day

This is the amount of time a school is in session for a typical student on a normal school day.

Instructional Time

This is the amount of time per day that a typical student is engaged in instructional activities under the supervision of a certified teacher.

Student/Computer Ratio

This shows the average number of students served by each instructional, multimedia-capable computer with a manufacture date after July 1, 2007 that is available for the purposes of supervised instruction. The ratio is calculated by dividing the total enrollment by the total number of multimedia-capable computers that are used for instruction. In previous years, this data was collected based on the computers' processor, i.e. Pentium IV or Mac G4 or above. Due to the revised parameters, only the 2010-11 data are published in this report.

Internet Connectivity

This shows the numbers of instructional, multimedia-capable computers with a manufacture date after July 1, 2006 available for instruction at various locations and how many of those computers have a connection to the Internet. In previous years, this data was collected based on the computers' processor, i.e. Pentium IV or Mac G4 or above. Due to the revised parameters, only the 2009-10 data are published in this report.

Length of School Year (charter schools only)

This is the number of days in the regular school year.

School Waiting List (charter schools only)

The list contains numbers of students who are waiting for openings in the charter school roster as of the opening of school.

School Classrooms (charter schools only)

This is the number of classrooms in the school.

STUDENT INFORMATION

Enrollment by Grade

The enrollment has been obtained from the school districts' NJ SMART state submission. NJ Standards Measurement and Resource for Teaching (NJ SMART), is a comprehensive data warehouse, student level data reporting, and

unique statewide student identification (SID) system

Students with Disabilities

This shows the percentage of students with an Individualized Education Program (IEP), including speech, regardless of placement and programs. This is calculated by dividing the total number of students with IEPs by the total enrollment.

Language Diversity

This is the percentage of students in the school by first language spoken at home. The list includes up to seven languages in descending order of frequency plus “all others.” This is calculated by dividing the number of students who speak a given language by the total enrollment. There is a calculation for each language listed, including English and “all others.”

Limited English Proficient (LEP) Students

This is the percentage of LEP students in the school. It is calculated by dividing the total number of students who are in limited English proficient programs by the total enrollment.

Student Mobility Rate

This is the percentage of students who both entered and left during the school year. The calculation is derived from the sum of students entering and leaving after the October enrollment count divided by the total enrollment.

STUDENT PERFORMANCE INDICATORS

Assessments

Performance on State Tests – High School Proficiency Assessment (HSPA), and New Jersey Assessment of Skills and Knowledge (NJASK) 3, 4, 5, 6, 7, and 8

The statewide assessment system comprises state tests that are designed to measure student progress in the attainment of the Core Curriculum Content Standards. Under the *No Child Left Behind Act of 2001 (NCLB)*, all states are required to assess student progress in language arts and math in grades 3-8 and grade 11. The state also assesses science in grades four and eight.

High schools show assessment results from the 11th grade spring 2011 administration of the High School Proficiency Assessment (HSPA) in language arts and math. The HSPA is the test that students must pass in order to graduate from high school. Retests are not included in these results.

The data presented in this report card will differ slightly from the data in the *No Child Left Behind (NCLB)* reports required by federal law. The *NCLB* reports show assessment results in three grade spans after the application of *NCLB* rules for the purpose of calculating adequate yearly progress (AYP) and identifying schools in need of improvement. By contrast, the assessment results presented in this report card have had no restrictions or

conditions applied to them. These data are the state's assessment results that have been disaggregated into subgroups for all students who attend a school.

State assessments are administered with the assistance of test contractors who collect and tally the student-level data. The results are distributed to local districts that have an opportunity to correct any errors. The Department of Education's Office of Assessment conducts the final quality control of all test data and is the source of the assessment results for all state reports, including the New Jersey School Report Card. The assessment office also produces the annual state assessment summary report that differs slightly from the school report card. **The report card information contains only the scores of the students who physically attend that school, while the assessment summary for a school adds in the scores of the special education students who are sent to out-of-district placements.** The addition of these out-of-district scores creates some differences in totals when compared to the report card totals.

National Assessment of Educational Progress (NAEP)

The National Assessment of Educational Progress (NAEP) is the largest national assessment of what our nation's students know and can do. NAEP assesses fourth-, eighth-, and twelfth-grade students in subjects such as reading, mathematics, science, and writing. The National Assessment Governing Board, which sets NAEP policy, also develops the content frameworks for the assessment. NAEP is administered by the National Center for Education Statistics (NCES), located within the Institute of Education Sciences (IES) in the U.S. Department of Education, and the reporting of NAEP scores on state report cards is a federal mandate. The results of NAEP are also published as the Nation's Report Card, and are available for the nation, states, and, in some cases, urban districts. The NAEP scores on the report card include grades four and eight 2009 reading and math scores for New Jersey which are the last scores published. For more information, visit <http://nces.ed.gov/nationsreportcard/>.

Graduation Type

This field shows the percentages of students who met or otherwise satisfied the state's testing requirements for graduation in several different ways – passing both sections of HSPA (scale $\geq$ 200), exempt from passing the HSPA and via Alternative High School Assessment (AHSA), Appeals or Other processes.

The Alternative High School Assessment¹ (AHSA) measures high school competency in selected areas of the Core Curriculum Content Standards. It is intended to offer an alternative means of meeting the state graduation proficiency test requirement. The AHSA is available to students who have met all high school graduation requirements except for demonstrating proficiency in selected areas of the Core Curriculum Content Standards. (N.J.S.A. 18A:7C-3 & N.J.A.C. 6A:8-4.1)

High School seniors who have not yet demonstrated proficiency on the High School Proficiency Assessment (HSPA) or the Alternate High School Assessment (AHSA) are eligible for an appeal. The appeal can only be made by the district. The district must make the determination that the student, though not meeting the minimum scores needed on the assessments, can perform in language arts literacy and in math at a high school level. The district submits, on behalf of the student, HSPA scores, AHSA results, work samples and any other evidence of performance in ELA and/or math. There is an Educational Proficiency Plan form, developed by the department, to aid districts in submitting the appeals. The

document is designed to be used while students are receiving intervention/remediation (as required in statute). The document also asks for the intervention plan, the results and duration of the interventions, parent and student signatures, dates of conferences with parents, etc. While the form is not required for an appeal, the data on the form is required.

Other includes those students who have not been able to demonstrate a scale score ≥ 200 on a single HSPA administration, but have shown proficiency in the different levels of the HSPA during any of the administrations given. An example would be a student who during all 3 administrations of HSPA does not reach a scale score ≥ 200 , but when looking at their individual proficiency on each section of the exam they have passed each section during the 3 administrations. These students would be considered eligible to graduate via other.

Scholastic Assessment Test (SAT)

The Scholastic Assessment Test is a voluntary test administered by the College Board, usually for the purpose of college admission. The percentile scores are the average scores of the students whose performance places them along a range from 1-99. The score listed under the 25th percentile means that a quarter of the students' scores fell below that point and the rest were above. Under the 50th percentile, half of the students' scores fell above that score and half fell below. In the 75th percentile, a quarter of the students' scores were above that score and the rest were below. The source of the data for the report card is the College Board.

Advanced Placement (AP)

This information is obtained from the College Board for students who have taken an advanced placement exam. It shows the classes offered at the school, the numbers of students in each class and the numbers who took the test for the course. The total number of students in class is a duplicated count because the same student may take multiple AP classes. The total number of test-takers may exceed the number of enrollees because students may take the test without taking the class.

NOTE: The AP numbers reported in this report card are based on a snapshot in time that allows the College Board to provide consistent data from year to year. The AP reports from the College Board contain data from files created in July which include approximately 97-99% of the test-takers. The database created by the July snapshot is not updated by College Board for reporting purposes. Therefore, the numbers in the report card can only be considered correct as of the cut-off date.

Advanced Placement Results Summary

This shows the total who scored 3 or greater on the AP tests. It is a duplicated number which means that a single student may be counted more than once in this total, if the student took more than one test and scored 3 or above.

Advanced Placement Participation Data

The percentage of students taking Advanced Placement tests is calculated by dividing the number of students who took at least one AP test by the total number of students enrolled in grades 11 and 12 based on the October 15 enrollment count.

National Occupational Competency Testing Institute (NOCTI) (vocational only)

The NOCTI develops and administers national job-ready examinations that include both written and performance tests

that measure a student's knowledge and skills for entry into an occupational field. The number of students taking the tests is listed, along with school and state average scores for written and performance tests.

Certification/Licensure and Required Examination Results (vocational only)

This section lists by program area the test results for those occupations that require a license, certification, or examination. The data reflect those students who were tested in an occupational program during the school year.

Other Performance Measures

Student Attendance Rate

These are the grade-level percentages of students on average who are present at school each day. They are calculated by dividing the sum of days present in each grade level by the sum of possible days present for all students in each grade. The school and state totals are calculated by the sum of days present in all applicable grade levels divided by the total possible days present for all students.

Dropout Rate (secondary only)

These are the percentages of students who dropped out of grades 9-12 presented by various subgroups. The percentages are calculated by dividing the number of students in grades 9 through 12 who dropped out of school during the school year by the October enrollment reported for grades 9 through 12.

Graduation Rate (secondary only)

The graduation rate is calculated by using the new federally required adjusted cohort graduation rate. The four-year adjusted cohort graduation rate is the number of students who graduate in four years divided by the number of students who form the adjusted cohort for the graduating class. From the beginning of 9th grade, students who are entering that grade for the first time form a cohort that is subsequently "adjusted" by adding any students who transfer into the cohort later during the 9th grade and the next three years and subtracting any students who transfer out, emigrate to another country, or die during that same period. For example, The 2007 freshmen plus "transfers in" minus "transfers out" over four years will be divided into the number of 2011 graduates for the 2011 adjusted cohort graduation rate. Students who drop out remain in the cohort for this calculation. The source of the data is the state's student-level record system called NJ SMART. The "Other" category includes all other students awarded a regular high school diploma by their school districts, including students who passed the alternative high school proficiency exams.

Student Suspensions

These are percentages of students who were suspended at least once during the school year. Students suspended more than one time are counted once. The percents are calculated by dividing the total number suspended by the total enrollment.

Student Expulsions

This shows the number of students who were expelled from the school and district during the year. The total represents the total number of students expelled statewide.

Completion Data (vocational only)

These are the percentages of students who successfully completed an occupational program categorized by their enrollment status. This is calculated by dividing the number of students in each enrollment status by the total graduates.

STAFF INFORMATION**Student/Administrator Ratio**

This is the number of students per administrator in the school. It is calculated by dividing the total school enrollment in October by the number of administrators reported in full-time equivalents (FTEs). Where a single administrator has responsibility for more than one school, the FTE may represent the administrator as less than one.

Student/Faculty Ratio

This is the number of students per faculty member. It is calculated by dividing the reported October school enrollment by the combined full-time equivalents (FTEs) of classroom teachers and educational support services personnel assigned to the school as of October of the school year.

Faculty Attendance Rate

This is the average daily attendance for the faculty of the school. It is calculated by dividing the total number of days present by the total number of days contracted for all faculty members.

Faculty Mobility Rate

This represents the rate at which faculty members come and go during the school year. It is calculated by using the number of faculty who entered or left employment in the school after October 15 divided by the total number of faculty reported as of that same date.

Faculty and Administrator Credentials

These are percentages of faculty and administrative members in the school who hold a bachelor's, master's, or doctoral degree. For vocational and special services schools, there is also information about licenses or certification in addition to or in place of degrees.

National Board Certification

This shows the number of teachers at the school and district levels who have been certified by the National Board for Professional Teaching Standards. In addition to teachers actively working in the districts, the state total may also include teachers who work in nonpublic schools, as well as those who became administrators, have retired or are on leave. This rigorous certification is encouraged, but not required.

DISTRICT/CHARTER FINANCIAL DATA

This section containing the financial data is district-level information for all schools except charter schools. Charter schools are public schools that are operated under a charter granted by the Commissioner of Education. The school is independent

of the school district and managed by a board of trustees. In accordance with charter school law, the school district of residence must pay directly to the charter school for each student enrolled in the charter school who resides in the district an amount equal to 90% of the sum of the budget year equalization aid per pupil and the prebudget year general fund tax levy per pupil inflated by the Consumer Price Index (CPI) rate in effect at the time of the calculation. In addition, the school district of residence must pay directly to the charter school the security categorical aid attributable to the student and a percentage of the district's special education categorical aid equal to the percentage of the district's special education students enrolled in the charter school and, if applicable, 100% of preschool education aid.

The financial information for the charter schools shows school average compared to charter average, while all other school report cards show district average compared to a state average for districts of a similar budget type. Budget type refers to the grade span that a district must budget for. If a district sends its 9-12 students to another district, it has a budget type that is K-12 (the district pays tuition to the receiving district for the 9-12 students), but the district has an operating type of K-8.

Administrative and Faculty Personnel

These include the number of administrators in the district reported in FTEs in October of each year, the number of schools in the districts, the ratio of students to administrators, and the ratio of faculty to administrators in the district. Similar information at the school level is shown earlier in this report card. Administrators include certificated administrative personnel in the central office, principals and school administrators -- both supervisory and non-supervisory. The number of faculty per administrator is calculated by dividing the combined FTE of classroom teachers and educational support personnel by the FTE of administrators as reported in October.

Median Salary and Years of Experience of Administrative and Faculty Personnel

This contains the median salary -- half of the salaries are above the median and half are below -- for both administrators and faculty. It also contains the median years of experience based on total number of years in public education.

Teacher Salaries and Benefits

Total teacher salaries and benefits are represented as a percent of total expenditures for this category, as reported in the Per-Pupil Expenditure section that follows. The percent increase or decrease represents the change in expenditures in teacher salaries/benefits from one year to the next.

Administrative Salaries and Benefits

Total administrative salaries and benefits are represented as a percent of total expenditures for this category, as reported in the Per-Pupil Expenditure section that follows. The percent increase or decrease represents the change in expenditures in administrator salaries/benefits from one year to the next.

Revenues

This presents the total revenues from various sources reflecting the combination of the ways districts are funded through local taxes, state aid, federal aid, and other sources, such as local district surplus and tuition income.

Budgets and Per-pupil Expenditures

There are two district-wide costs per pupil amounts for three years that correspond to the rest of the data in the report card. First is the Budgetary Cost per Pupil that represents comparisons with districts of similar budget type. The components that comprise the budgetary cost per pupil are as follows: classroom instructional costs; support services (attendance and social work, health services, guidance office, child study team, library and other educational media); administrative costs (general administration, school administration, business administration, and improvement of instruction); operations/maintenance of plant; food services, and extracurricular costs. The total of these expenditures is divided by the average daily enrollment for a total budgetary cost per pupil.

Second is the Total Cost Per Pupil which, in addition to all of the costs listed above for the budgetary cost, includes costs for tuition expenditures and payments to preschool providers; transportation; other current expenses (lease purchase interest, residential costs, and judgments against schools); equipment; facilities/acquisition; and restricted expenses less nonpublic services and adult schools. The total of these expenditures is divided by the average daily enrollment, combined with all students sent out of the district as reported on the ASSA (annual state aid collection) to calculate a total cost per pupil.

(1) The Budgetary Cost per Pupil that represents comparisons with districts of similar budget type. The components that comprise the budgetary cost per pupil are as follows: classroom instructional costs; support services (attendance and social work, health services, guidance office, child study team, library and other educational media); administrative costs (general administration, school administration, business administration, and improvement of instruction); operations/maintenance of plant; food services, and extracurricular costs. The total of these expenditures is divided by the average daily enrollment for a total budgetary cost per pupil.

(2) Second is the Total Cost Per Pupil which, in addition to all of the costs listed above for the budgetary cost, includes costs for tuition expenditures and payments to preschool providers; transportation; other current expenses (lease purchase interest, residential costs, and judgments against schools); equipment; facilities/acquisition; and restricted expenses less nonpublic services and adult schools. The total of these expenditures is divided by the average daily enrollment, combined with all students sent out of the district as reported on the ASSA (annual state aid collection) to calculate a total cost per pupil.

>>[NCLB School, District, and State Reports](#)

The federal *No Child Left Behind (NCLB) Act* has imposed specific accountability and reporting requirements on states. The *NCLB* reports present school-, district-, and state-level information in those areas mandated by *NCLB*, which are as follows: status regarding Adequate Yearly Progress; information on highly qualified teachers; attendance and dropout data; and assessment data that has incorporated all of the conditions mandated under *NCLB* for meeting federally approved proficiency levels.

The results displayed on *NCLB* Reports are based on the state assessment data with the *NCLB* conditions applied. Additionally, the *NCLB* data incorporates the data appeals submitted by districts/schools that have been granted by the NJDOE. Therefore, the data in the *NCLB* Reports may be different from the data displayed on the NJ School Report Cards.

>>[New Jersey School Report Card](#)

The annual New Jersey School Report Card is required under a 1995 state law. It presents thirty-five fields of information for each school in the following categories: school environment, students, student performance indicators, staff, and district finances.

The assessment results displayed on the New Jersey School Report Cards are based on the state assessment data without any *NCLB* conditions applied. Therefore, the assessment data in the NJ School Report Card may be different from the assessment data displayed on the *NCLB* Reports where there have been *NCLB* conditions applied to the test results.

WELCOME TO THE NEW JERSEY SCHOOL REPORT CARD FOR 2011

One of the major goals of the Department of Education is to increase school- and district-level accountability for educational progress by communicating useful information to members of the public to be used in measuring how well their schools are doing. The New Jersey School Report Card has provided the public with information about every school in New Jersey since 1995 when the Legislature mandated the annual accountability report.

The 2011 edition of the New Jersey School Report Card offers the same level of information as last year. We encourage you to examine your school's report card to decide for yourself whether your school is making satisfactory progress in helping your child meet New Jersey's Core Curriculum Content Standards. If you would like to give the department feedback on the report card process, please contact us: reportcard@doe.state.nj.us.

Above all, the Department of Education urges you to become involved with your local schools. With the scrutiny and support of the community, our schools can and will provide an excellent education for all of our students.

NEW JERSEY DEPARTMENT OF EDUCATION

PATERSON CITY (31-4010)

The Paterson Public School District is an urban school district located in northern New Jersey, 18 miles west of New York City. The third largest school district in New Jersey and one of its most diverse, the Paterson Public School District enrolls 28,400 students in preschool to grade 12. The population in the Paterson Public School District mirrors the demographic trend of urban communities in New Jersey: 60 percent of all students are of Hispanic origin; 30 percent are African-American and approximately 9 percent are of Caucasian, Middle Eastern or Asian descent. Nearly 50 percent of all students in Paterson speak a primary language other than English, with a total of 37 languages spoken in district schools.

The Paterson Public School District is led by state appointed District Superintendent, Dr. Donnie W. Evans, who works closely with the New Jersey Department of Education and nine elected members of the Paterson Board of Education. After state takeover in 1991, the district began to establish and implement stringent controls and monitoring procedures related to school and district office operations. To ensure consistent operations, all board policies and regulations were reviewed, updated and are currently accessible on the district's website. This district has 52 schools that house 2,760 certified teachers to accommodate students in kindergarten through grade 12. District high schools were recently restructured and reorganized into "thematic choice schools." At the elementary level (K-8), four schools are schools of choice.

Preparing our students for success begins at an early age. To that end, the Paterson Public School District provides a comprehensive preschool program, serving 3,600 three- and four-year-old students in 33 early childhood community provider centers and four in-district sites. The program provides a full day of developmentally appropriate instruction that promotes children's social-emotional development and learning in the core areas of language and literacy, mathematics, science and social studies. Teachers utilize a research-based comprehensive curriculum adopted by the Paterson Board of Education in order to provide a seamless transition to the kindergarten curriculum.

During the 2009-2010 school year the Paterson Public School District developed an ambitious five-year Strategic Plan for transforming itself into a high performing urban school system. The Plan known as *Bright Futures*, includes the vision for Paterson Public Schools "to be a leader in educating New Jersey's urban youth" and its *college ready* mission "to prepare each student for success in the institution of higher education of their choosing and in their chosen career."

Bright Futures driven by an urgent need to improve student academic outcomes, school and district culture, family and community involvement, and operational functions is organized by four priorities:

- **Effective Academic Programs:** Programs are research-based and outcomes driven
- **Safe, Caring, and Orderly Schools:** Schools are safe which enable teachers

to teach and students to learn

- **Family and Community Engagement:** District and school staff collaborate with and engage families and community institutions, organizations, and agencies
- **Efficient and Responsive Operations:** Operations support the district and school's core business and are responsive to the needs of staff, students, and community

Twenty-three measurable goals and numerous school improvement strategies are aligned with each priority. These priorities, goals, and strategies are intended to create an aligned instructional system, build capacity among teachers and principals, create a strong district-level support system, and involve parents and community partners.

Since the development of *Bright Futures*, the district has aggressively implemented many of its strategies, such as:

1. Transforming (reorganizing and re-staffing) its large comprehensive high schools into autonomous small schools (Eastside and John F. Kennedy High Schools)
2. Restructuring and re-staffing its lowest performing elementary schools (Schools 4, 6, & 10)
3. Converting all high schools into "thematic schools of choice"
4. Creating three full service community schools (Schools 4, 5, & New Roberto Clemente)
5. Reorganizing and re-staffing district operational divisions (finance, human resources, and facilities)
6. Creating the state's first curriculum based, student operated credit union
7. Creating and implementing the Paterson Effective Schools' Initiative to change the culture in district schools and the District Office.
8. Significant expansion of alternative schools in the district.
9. Implementing academic interventions for each student performing below proficient in mathematics and/or language arts literacy on NJASK and HSPA.
10. Establishing parent-teacher organizations in each school.
11. Acquired grant funding to support school improvement initiatives
12. Promise Community Grant to support Full Service Community Schools - \$2.3 million
13. Affordable Care Act Grant for School-Based Health Centers in full service schools - \$500,000
14. Talent 21 grant to support technology initiatives - \$2.2 million
15. School Improvement Grants (SIG) for Schools 4 & 10 - \$12 million

These and other changes have contributed to improvements in student outcomes including:

1. The percent of first-time takers of HSPA performing at or above proficient in language arts literacy, increased from 51.7% to 59.5% from 2009-10 to 2010-11, with International High School demonstrating a 28% increase, Garrett Morgan demonstrating a 39% increase, and the three Eastside High Schools cumulatively increased by 6.5%.
2. The percent of students in grades three through eight performing at or above proficiency in mathematics on NJASK increased from 45.9% to 49.1% from 2009-10 to 2010-11.
3. Within cohort analysis of grade 3-8 students on NJASK for the same period finds that four of five cohorts increased their performance in mathematics and three of five increased their performance in language arts literacy.
4. Our graduation rate using the cohort method (a comparison of students entering 9th grade as a cohort to those who graduated as a cohort four years later) for the 2011 graduating class increased to 58.7%, which is an increase from 50.4% in 2010 and 45% in 2009.

Although the district is beginning to realize limited improvements in academic outcomes, much more work is needed to accelerate improvements. To this end, the district is taking major steps to accelerate improvements in academic and non-academic outcomes. These steps include the creation of *The Paterson Innovation Zone*.

The Paterson Innovation Zone is a pilot initiative designed to accelerate improvements in student achievement and non-academic outcomes. This program will accomplish *Bright Futures'* goals by creating an aligned instructional system, increasing capacity among teachers to become more effective, helping principals to become effective instructional leaders, creating a strong district-level support system, and increasing the involvement of parents and community partners.

Additional steps include:

NEW INITIATIVES FOR 2011-2012

1. Increase district office capacity to support school improvement
2. Evaluate & restructure Special Education
3. Evaluate & restructure English as a Second Language Program
4. Restructure support system for academics
5. Increase capacity for supporting Math instruction in high school
6. Increase capacity for supporting Language Arts instruction in elementary schools
 1. Expand Fine Arts in K-8 Schools
7. Restructure program to provide music and art to all students in K-8
8. Restructure and relocate APA
 1. Create/implement more choice options
9. All high schools will become Choice Schools
10. Create more choice options for K-8 students
 1. Create Gifted and Talented continuum for grades 3-12
 2. Institute a uniform policy for all schools
 3. Implement the Paterson Effective Schools Model district-wide
 4. Develop and implement a Parent Outreach Initiative to increase parent

involvement in schools

1. Create a Leadership Development Institute
2. Aspiring Leaders Academy
3. Practitioners' Academy
 1. Implement an outcome-based performance appraisal system for teachers and

administrators

1. Create and implement a student progression plan
2. Reduce dependence on leased facilities

The Paterson Public School district is aggressively implementing school and district-level initiatives to transform the system into a high performing organization. In doing so, it is confident that its mission to prepare every student for success in the institution of higher education of their choosing and in their chosen career will be realized.

Spanish Narrative:

El Distrito de Escuelas Públicas de Paterson es un distrito escolar urbano ubicado en el norte de Nueva Jersey, 18 millas al oeste de la ciudad de Nueva York. El tercer distrito escolar más grande en Nueva Jersey y uno de los más diversos, el Distrito de Escuelas Públicas de Paterson inscribe a 28,400 estudiantes de preescolar hasta el grado 12. La población en el Distrito de Escuelas Públicas de Paterson refleja la tendencia demográfica de las comunidades urbanas de Nueva Jersey: 60 por ciento de todos los estudiantes son de origen hispano, 30 por ciento son afro-americanos y aproximadamente el 9 por ciento son de raza blanca, Medio Oriente o de origen asiático. Casi el 50 por ciento de todos los estudiantes de Paterson hablan un idioma primario que no sea inglés, con un total de 37 lenguas que se hablan en las escuelas del distrito.

El Distrito de Escuelas Públicas de Paterson es dirigido por el Superintendente Estatal del Distrito, el Dr. Donnie W. Evans, quien trabaja en estrecha

colaboración con el Departamento de Educación de Nueva Jersey y nueve miembros electos de la Junta de Educación de Paterson. Después de que el estado tomó control en 1991, el distrito comenzó a establecer y aplicar estrictos controles y procedimientos de monitoreo relacionados con las operaciones de las escuelas y oficinas centrales. Para garantizar un funcionamiento coherente de las operaciones, todas las pólizas y reglamentos de la junta han sido revisados, actualizados y son accesibles en la página web del distrito.

Este distrito tiene 52 escuelas que albergan 2,760 maestros certificados para acomodar a estudiantes en kindergarten hasta el 12 grado. Escuelas secundarias del distrito se han reestructurado y reorganizado recientemente en “escuelas de elección temática.” A nivel elemental (K-8), cuatro escuelas son de elección.

Preparar a los estudiantes para el éxito comienza a una temprana edad. Con ese fin, el Distrito de Escuelas Públicas de Paterson ofrece un programa preescolar integral, sirviendo a 3,600 estudiantes de tres y cuatro años de edad en 33 centros proveedores comunitarios de primera infancia y cuatro centros dentro del distrito. El programa provee un día completo de instrucción apropiada para el desarrollo que promueve el desarrollo socio-emocional de los niños y el aprendizaje en las aéreas básicas de la lengua y alfabetización, matemática, ciencias y estudios sociales. Los maestros utilizan un currículo basado en la investigación y aprobado por la Junta de Educación de Paterson a fin de proporcionar una fluida transición al currículo de kindergarten.

Durante el año escolar 2009-2010, el Distrito de Escuelas Públicas de Paterson desarrolló un ambicioso Plan Estratégico de cinco años para transformarse en un sistema de escuelas urbanas de alto desempeño. El Plan conocido como “*Bright Futures*”, incluye la visión de las Escuelas Públicas de Paterson “para ser un líder en la educación de la juventud urbana de Nueva Jersey” y su misión “*listos para la universidad*” “para preparar a cada estudiante para el éxito en la institución de educación superior de su elección y en su carrera elegida.”

Bright Futures impulsado por una necesidad urgente de mejorar los resultados académicos de los estudiantes, la cultura de las escuelas y el distrito, la participación de la familia y la comunidad, y las funciones operativas está organizado en torno a cuatro prioridades:

- **Programas Académicos Eficaces:** Programas que están basados en la investigación e impulsados por los resultados
- **Escuelas, Seguras, Afectuosas y Ordenadas:** Las escuelas están seguras lo cual les permite a los maestros enseñar y a los estudiantes a aprender
- **Compromiso de la Familia y la Comunidad:** El distrito y el personal escolar colaboran e involucran a las familias, las instituciones de la comunidad, organizaciones y agencias
- **Operaciones eficientes y sensibles:** Las operaciones apoyan al distrito y al principal interés de las escuelas y responden a las necesidades del personal, estudiantes y la comunidad

Veintitrés metas y numerosas estrategias de mejora de las escuelas están alineadas con cada prioridad. Estas prioridades, metas y estrategias están destinadas a crear un sistema alineado de enseñanza, fortalecer la capacidad entre los maestros y directores, crear un fuerte sistema de apoyo a nivel del distrito e involucrar a padres y miembros de la comunidad.

Desde el desarrollo de *Bright Futures*, el distrito ha implementado agresivamente muchas de sus estrategias, tales como:

1. Transformando (reorganizando re-surtiendo el personal) de las mayores escuelas secundarias en pequeñas escuelas autónomas (Escuelas Secundarias Eastside y John F. Kennedy)
2. Reestructurando y re-organizando el personal de las escuelas primarias de mas bajo rendimiento (Escuelas 4, 6, y 10)
3. Convirtiendo todas las escuelas secundarias en "escuelas de elección temática"
4. Creando tres escuelas comunitarias de servicio completo (escuelas 4, 5, y Nueva Roberto Clemente)
5. Reorganizando y re-surtiendo el personal en las divisiones operativas del distrito (finanzas, recursos humanos e instalaciones)
6. Creando el primer banco de crédito en el estado basado en el currículo y operado por estudiantes
7. Creando e implementando la Iniciativa de las Escuelas Eficaces de Paterson para cambiar la cultura en las escuelas y oficinas del distrito
8. Significativa expansión de las escuelas alternativas en el distrito
9. Implementando intervenciones académicas para cada estudiante con desempeño por debajo del nivel en matemáticas y / o las Artes del Lenguaje y alfabetización en NJASK y HSPA
10. Estableciendo organizaciones de padres y maestros en cada escuela
11. Se obtuvieron fondos de becas para apoyar iniciativas de mejoramiento escolar
12. Beca Promesa Comunitaria para apoyar las Escuelas Comunitarias de Servicio Completo - \$2.3 millones
13. Beca “Affordable Care Act” de subvención para los Centros de Salud Escolares dentro de las escuelas de servicio completo - \$ 500.000
14. Fondos de Beca Talento 21 para apoyar iniciativas de tecnología - \$ 2.2 millones
15. Becas de Mejoramiento de Escuelas (SIG, por sus siglas en inglés) para las Escuelas 4 y 10 - \$ 12 millones

Estos y otros cambios han contribuido a la mejora de resultados de los estudiantes, incluyendo:

1. El porcentaje de estudiantes que tomaron por primera vez el examen HSPA con rendimiento a nivel o por encima de competencia en las Artes del Lenguaje y alfabetización, aumentó de 51.7% a 59.5% del 2009-10 al 2010-11, con la Escuela Secundaria Internacional demostrando un aumento del 28%, Garrett Morgan demostrando una 39% de aumento, y las tres escuelas de la Secundaria Eastside con un aumento cumulativo de 6.5%.
2. El porcentaje de estudiantes en los grados tres al ocho con rendimiento a nivel o por encima de competencia en matemáticas en NJASK aumentó del 45.9% al 49.1% del 2009-10 al 2010-11.
3. Un análisis entre grupos de estudiantes de grados 3-8 en NJASK para el mismo período encuentra que cuatro de cinco grupos incrementaron su rendimiento en matemáticas y tres de cinco aumentaron su rendimiento en artes del lenguaje y alfabetización.
4. Nuestra tasa de graduación utilizando el método de grupos (una comparación de los estudiantes entrando al 9no grado como grupo a los que se graduaron en grupo cuatro años más tarde) para la clase de graduados en 2011 aumentó a 58.7%, lo que supone un incremento de 50.4% en 2010 y 45% en 2009.

Aunque el distrito está empezando a ver mejoras limitadas en los resultados académicos, se necesita trabajar mucho más para acelerar las mejoras.

Con este fin, el distrito está tomando importantes medidas para acelerar mejoras en los resultados académicos y no académicos. Estas medidas incluyen la creación de la Zona de Innovación de Paterson.

La Zona de Innovación de Paterson es una iniciativa piloto diseñada para acelerar mejoras en el rendimiento escolar y los resultados no académicos. Este programa llevará a cabo los objetivos de *Bright Futures* mediante la creación de un sistema alineado de enseñanza, aumentando la capacidad de los maestros a ser más eficaces, ayudando a los directores a convertirse en líderes efectivos de enseñanza, creando un fuerte sistema de apoyo a nivel del distrito, y aumentando la participación de los padres y socios de la comunidad.

Pasos adicionales incluyen:

NUEVAS INICIATIVAS PARA 2011-2012

1. Aumentar la capacidad de las oficinas del distrito para apoyar mejoras escolares
 - a. Evaluar y reestructurar la Educación Especial
 - b. Evaluar y reestructurar Programas de Inglés como Segundo Idioma
 - c. Reestructurar el sistema de apoyo académico
 - d. Aumentar la capacidad de apoyo a la enseñanza de matemáticas en la escuela secundaria
 - e. Aumentar la capacidad de apoyo a la instrucción de Artes de Lenguaje en las escuelas primarias
2. Ampliar el programa de Bellas Artes en las escuelas K-8
 - a. Reestructurar el programa para proporcionar música y arte a todos los estudiantes de K-8
 - b. Reestructurar y reubicar a APA
3. Crear / implementar más opciones de elección
 - a. Todas las escuelas secundarias se convertirán en escuelas de elección
 - b. Crear más opciones de elección para los estudiantes K-8
4. Crear un continuo de Dotados y Talentosos para los grados 3-12
5. Establecer una política uniforme para todas las escuelas
6. Implementar el Modelo de Escuelas Efectivas de Paterson en todo el distrito
7. Desarrollar y ejecutar la Iniciativa Alcance de Padres para aumentar la participación de padres en las escuelas
8. Crear un Instituto de Desarrollo de Liderazgo
 - a. Academia de Aspirantes a Líderes
 - b. Academia de Practicantes
9. Implementar un sistema de evaluación basado en los resultados de desempeño para los maestros y los administradores
10. Crear e implementar un plan de progresión para los estudiantes
11. Reducir la dependencia de las instalaciones alquiladas

El distrito de Escuelas Públicas de Paterson está implementando de manera agresiva iniciativas a nivel de escuelas y el distrito para transformar el sistema en una organización de alto rendimiento. De este modo, confía en que su misión de preparar a cada estudiante para el éxito en la institución de educación superior de su elección y en su carrera elegida se hará realidad.

NEW JERSEY DEPARTMENT OF EDUCATION

EDWARD W KILPATRICK (31-4010-047)

Edward W. Kilpatrick School strives to create a community of learners. The faculty and staff are committed to “Children First.” We accept the challenge that effective schools take responsibility for the success of each student. We serve a population of students with diverse cultures, backgrounds and learning styles. Edward W. Kilpatrick School is sensitive to this diversity and employs varied instructional strategies and techniques to meet the needs of our students.

Over the years E.W.K. has included the community to help students succeed. Several partnerships have been developed that have brought people into the school and taken our students into the community. The Mayor of Paterson and other prominent members of the community have joined us to read to our students and speak about their careers. The American Automobile Association has provided equipment for our Safety Patrol and traffic safety and map reading programs for the children. We have developed relationships with the Passaic County Sheriff’s Department, the New Jersey Devils, and New Jersey Transit, all of whom have generously offered to speak to our students. The Kilpatrick School family also continues to participate in activities with the Paterson Education Fund, the 50 Book Read-A-Thon, and the Liberty Science Center Project.

Involving the parents of our students in school activities is an important component of the E.W.K. school culture. Parents are encouraged to participate in assemblies as class helpers, Home-School-Council and as School leadership Council members.

The faculty at E.W.K. maintains high expectations for the success of their students. Acquisition of knowledge outlined in the National Content Standards guides planning and implementation in the classroom. Differentiated instructional techniques are employed to assure the success of all students.

The goal of E.W.K. is to instill in our students a lifelong love of learning. In today’s world of rapidly evolving technological advances one must be constantly ready to adapt to new paradigms. We dedicate ourselves to preparing our students to meet the challenges that they will face in the information driven society of the future. The administration, staff, parents, and community that make up the Edward W. Kilpatrick family are committed to a future filled with achievement and success.

GUIDE TO THE NEW JERSEY SCHOOL REPORT CARD 2011

INTRODUCTION

This report card issued in May 2012 contains data for the 2010-11 school year. Enrollment numbers are based on the October 15, 2010 NJSMART submission. The information in the report card is school-level data, except for the finance section which contains district-level information. For charter schools, however, the finance section is school-level. The source of the information contained in the New Jersey School Report Card is the school district or the charter school, unless otherwise indicated in this guide.

There are several general practices and rules that are used throughout the document. They are as follows:

- **SUPPRESSION:** In reporting any type of assessment results, an asterisk indicates that the data were suppressed in order to protect privacy. Suppression includes cell sizes of less than 11 students, proficiency levels that are greater than 90% partially proficient, and other combinations of small cell sizes that might not protect privacy if they were not suppressed.
- **ZERO:** A zero in a data field in most cases means that there is no data to report for that field for this report card year.
- **BLANK:** A blank in most cases means this data element does not apply to this school.
- **STATE AVERAGE:** Unless otherwise stated, state averages are computed by four school types as follows: vocational schools; Special Services School Districts/special education schools; all elementary schools (regular and charter); or all secondary schools (regular and charter).
- **FACULTY:** In fields that refer to faculty, this term includes classroom teachers and educational support services personnel, such as guidance counselors and librarians.
- **ADMINISTRATORS:** In fields that refer to administrators, this term includes the certificated personnel such as the superintendent, assistant superintendents, school business administrator, principals, assistant principals, supervisors, non-supervisory coordinators, and directors.

REPORT CARD FIELDS

The following sections explain the data in the various report card fields.

SCHOOL ENVIRONMENT

Average Class Size

Average class size for elementary schools (Pre-K-8) is based on the enrollment per grade divided by the total number of classrooms for that grade. For elementary grades, the state average is the statewide total enrollment for each grade divided by the statewide total number of classrooms in that grade.

Average Class size for secondary schools (9-12) is based on the total enrollment per grade divided by the total number

of English classes for the same grade. For secondary grades, the state average is the total enrollment for each grade divided by the total number of English classes for the same grade.

For Special Services School Districts and special education schools, average class size is calculated by dividing the total enrollment by the total number of classrooms.

Length of School Day

This is the amount of time a school is in session for a typical student on a normal school day.

Instructional Time

This is the amount of time per day that a typical student is engaged in instructional activities under the supervision of a certified teacher.

Student/Computer Ratio

This shows the average number of students served by each instructional, multimedia-capable computer with a manufacture date after July 1, 2007 that is available for the purposes of supervised instruction. The ratio is calculated by dividing the total enrollment by the total number of multimedia-capable computers that are used for instruction. In previous years, this data was collected based on the computers' processor, i.e. Pentium IV or Mac G4 or above. Due to the revised parameters, only the 2010-11 data are published in this report.

Internet Connectivity

This shows the numbers of instructional, multimedia-capable computers with a manufacture date after July 1, 2006 available for instruction at various locations and how many of those computers have a connection to the Internet. In previous years, this data was collected based on the computers' processor, i.e. Pentium IV or Mac G4 or above. Due to the revised parameters, only the 2009-10 data are published in this report.

Length of School Year (charter schools only)

This is the number of days in the regular school year.

School Waiting List (charter schools only)

The list contains numbers of students who are waiting for openings in the charter school roster as of the opening of school.

School Classrooms (charter schools only)

This is the number of classrooms in the school.

STUDENT INFORMATION

Enrollment by Grade

The enrollment has been obtained from the school districts' NJ SMART state submission. NJ Standards Measurement and Resource for Teaching (NJ SMART), is a comprehensive data warehouse, student level data reporting, and

unique statewide student identification (SID) system

Students with Disabilities

This shows the percentage of students with an Individualized Education Program (IEP), including speech, regardless of placement and programs. This is calculated by dividing the total number of students with IEPs by the total enrollment.

Language Diversity

This is the percentage of students in the school by first language spoken at home. The list includes up to seven languages in descending order of frequency plus “all others.” This is calculated by dividing the number of students who speak a given language by the total enrollment. There is a calculation for each language listed, including English and “all others.”

Limited English Proficient (LEP) Students

This is the percentage of LEP students in the school. It is calculated by dividing the total number of students who are in limited English proficient programs by the total enrollment.

Student Mobility Rate

This is the percentage of students who both entered and left during the school year. The calculation is derived from the sum of students entering and leaving after the October enrollment count divided by the total enrollment.

STUDENT PERFORMANCE INDICATORS

Assessments

Performance on State Tests – High School Proficiency Assessment (HSPA), and New Jersey Assessment of Skills and Knowledge (NJASK) 3, 4, 5, 6, 7, and 8

The statewide assessment system comprises state tests that are designed to measure student progress in the attainment of the Core Curriculum Content Standards. Under the *No Child Left Behind Act of 2001 (NCLB)*, all states are required to assess student progress in language arts and math in grades 3-8 and grade 11. The state also assesses science in grades four and eight.

High schools show assessment results from the 11th grade spring 2011 administration of the High School Proficiency Assessment (HSPA) in language arts and math. The HSPA is the test that students must pass in order to graduate from high school. Retests are not included in these results.

The data presented in this report card will differ slightly from the data in the *No Child Left Behind (NCLB)* reports required by federal law. The *NCLB* reports show assessment results in three grade spans after the application of *NCLB* rules for the purpose of calculating adequate yearly progress (AYP) and identifying schools in need of improvement. By contrast, the assessment results presented in this report card have had no restrictions or

conditions applied to them. These data are the state's assessment results that have been disaggregated into subgroups for all students who attend a school.

State assessments are administered with the assistance of test contractors who collect and tally the student-level data. The results are distributed to local districts that have an opportunity to correct any errors. The Department of Education's Office of Assessment conducts the final quality control of all test data and is the source of the assessment results for all state reports, including the New Jersey School Report Card. The assessment office also produces the annual state assessment summary report that differs slightly from the school report card. **The report card information contains only the scores of the students who physically attend that school, while the assessment summary for a school adds in the scores of the special education students who are sent to out-of-district placements.** The addition of these out-of-district scores creates some differences in totals when compared to the report card totals.

National Assessment of Educational Progress (NAEP)

The National Assessment of Educational Progress (NAEP) is the largest national assessment of what our nation's students know and can do. NAEP assesses fourth-, eighth-, and twelfth-grade students in subjects such as reading, mathematics, science, and writing. The National Assessment Governing Board, which sets NAEP policy, also develops the content frameworks for the assessment. NAEP is administered by the National Center for Education Statistics (NCES), located within the Institute of Education Sciences (IES) in the U.S. Department of Education, and the reporting of NAEP scores on state report cards is a federal mandate. The results of NAEP are also published as the Nation's Report Card, and are available for the nation, states, and, in some cases, urban districts. The NAEP scores on the report card include grades four and eight 2009 reading and math scores for New Jersey which are the last scores published. For more information, visit <http://nces.ed.gov/nationsreportcard/>.

Graduation Type

This field shows the percentages of students who met or otherwise satisfied the state's testing requirements for graduation in several different ways – passing both sections of HSPA (scale ≥ 200), exempt from passing the HSPA and via Alternative High School Assessment (AHSA), Appeals or Other processes.

The Alternative High School Assessment¹ (AHSA) measures high school competency in selected areas of the Core Curriculum Content Standards. It is intended to offer an alternative means of meeting the state graduation proficiency test requirement. The AHSA is available to students who have met all high school graduation requirements except for demonstrating proficiency in selected areas of the Core Curriculum Content Standards. (N.J.S.A. 18A:7C-3 & N.J.A.C. 6A:8-4.1)

High School seniors who have not yet demonstrated proficiency on the High School Proficiency Assessment (HSPA) or the Alternate High School Assessment (AHSA) are eligible for an appeal. The appeal can only be made by the district. The district must make the determination that the student, though not meeting the minimum scores needed on the assessments, can perform in language arts literacy and in math at a high school level. The district submits, on behalf of the student, HSPA scores, AHSA results, work samples and any other evidence of performance in ELA and/or math. There is an Educational Proficiency Plan form, developed by the department, to aid districts in submitting the appeals. The

document is designed to be used while students are receiving intervention/remediation (as required in statute). The document also asks for the intervention plan, the results and duration of the interventions, parent and student signatures, dates of conferences with parents, etc. While the form is not required for an appeal, the data on the form is required.

Other includes those students who have not been able to demonstrate a scale score ≥ 200 on a single HSPA administration, but have shown proficiency in the different levels of the HSPA during any of the administrations given. An example would be a student who during all 3 administrations of HSPA does not reach a scale score ≥ 200 , but when looking at their individual proficiency on each section of the exam they have passed each section during the 3 administrations. These students would be considered eligible to graduate via other.

Scholastic Assessment Test (SAT)

The Scholastic Assessment Test is a voluntary test administered by the College Board, usually for the purpose of college admission. The percentile scores are the average scores of the students whose performance places them along a range from 1-99. The score listed under the 25th percentile means that a quarter of the students' scores fell below that point and the rest were above. Under the 50th percentile, half of the students' scores fell above that score and half fell below. In the 75th percentile, a quarter of the students' scores were above that score and the rest were below. The source of the data for the report card is the College Board.

Advanced Placement (AP)

This information is obtained from the College Board for students who have taken an advanced placement exam. It shows the classes offered at the school, the numbers of students in each class and the numbers who took the test for the course. The total number of students in class is a duplicated count because the same student may take multiple AP classes. The total number of test-takers may exceed the number of enrollees because students may take the test without taking the class.

NOTE: The AP numbers reported in this report card are based on a snapshot in time that allows the College Board to provide consistent data from year to year. The AP reports from the College Board contain data from files created in July which include approximately 97-99% of the test-takers. The database created by the July snapshot is not updated by College Board for reporting purposes. Therefore, the numbers in the report card can only be considered correct as of the cut-off date.

Advanced Placement Results Summary

This shows the total who scored 3 or greater on the AP tests. It is a duplicated number which means that a single student may be counted more than once in this total, if the student took more than one test and scored 3 or above.

Advanced Placement Participation Data

The percentage of students taking Advanced Placement tests is calculated by dividing the number of students who took at least one AP test by the total number of students enrolled in grades 11 and 12 based on the October 15 enrollment count.

National Occupational Competency Testing Institute (NOCTI) (vocational only)

The NOCTI develops and administers national job-ready examinations that include both written and performance tests

that measure a student's knowledge and skills for entry into an occupational field. The number of students taking the tests is listed, along with school and state average scores for written and performance tests.

Certification/Licensure and Required Examination Results (vocational only)

This section lists by program area the test results for those occupations that require a license, certification, or examination. The data reflect those students who were tested in an occupational program during the school year.

Other Performance Measures

Student Attendance Rate

These are the grade-level percentages of students on average who are present at school each day. They are calculated by dividing the sum of days present in each grade level by the sum of possible days present for all students in each grade. The school and state totals are calculated by the sum of days present in all applicable grade levels divided by the total possible days present for all students.

Dropout Rate (secondary only)

These are the percentages of students who dropped out of grades 9-12 presented by various subgroups. The percentages are calculated by dividing the number of students in grades 9 through 12 who dropped out of school during the school year by the October enrollment reported for grades 9 through 12.

Graduation Rate (secondary only)

The graduation rate is calculated by using the new federally required adjusted cohort graduation rate. The four-year adjusted cohort graduation rate is the number of students who graduate in four years divided by the number of students who form the adjusted cohort for the graduating class. From the beginning of 9th grade, students who are entering that grade for the first time form a cohort that is subsequently "adjusted" by adding any students who transfer into the cohort later during the 9th grade and the next three years and subtracting any students who transfer out, emigrate to another country, or die during that same period. For example, The 2007 freshmen plus "transfers in" minus "transfers out" over four years will be divided into the number of 2011 graduates for the 2011 adjusted cohort graduation rate. Students who drop out remain in the cohort for this calculation. The source of the data is the state's student-level record system called NJ SMART. The "Other" category includes all other students awarded a regular high school diploma by their school districts, including students who passed the alternative high school proficiency exams.

Student Suspensions

These are percentages of students who were suspended at least once during the school year. Students suspended more than one time are counted once. The percents are calculated by dividing the total number suspended by the total enrollment.

Student Expulsions

This shows the number of students who were expelled from the school and district during the year. The total represents the total number of students expelled statewide.

Completion Data (vocational only)

These are the percentages of students who successfully completed an occupational program categorized by their enrollment status. This is calculated by dividing the number of students in each enrollment status by the total graduates.

STAFF INFORMATION**Student/Administrator Ratio**

This is the number of students per administrator in the school. It is calculated by dividing the total school enrollment in October by the number of administrators reported in full-time equivalents (FTEs). Where a single administrator has responsibility for more than one school, the FTE may represent the administrator as less than one.

Student/Faculty Ratio

This is the number of students per faculty member. It is calculated by dividing the reported October school enrollment by the combined full-time equivalents (FTEs) of classroom teachers and educational support services personnel assigned to the school as of October of the school year.

Faculty Attendance Rate

This is the average daily attendance for the faculty of the school. It is calculated by dividing the total number of days present by the total number of days contracted for all faculty members.

Faculty Mobility Rate

This represents the rate at which faculty members come and go during the school year. It is calculated by using the number of faculty who entered or left employment in the school after October 15 divided by the total number of faculty reported as of that same date.

Faculty and Administrator Credentials

These are percentages of faculty and administrative members in the school who hold a bachelor's, master's, or doctoral degree. For vocational and special services schools, there is also information about licenses or certification in addition to or in place of degrees.

National Board Certification

This shows the number of teachers at the school and district levels who have been certified by the National Board for Professional Teaching Standards. In addition to teachers actively working in the districts, the state total may also include teachers who work in nonpublic schools, as well as those who became administrators, have retired or are on leave. This rigorous certification is encouraged, but not required.

DISTRICT/CHARTER FINANCIAL DATA

This section containing the financial data is district-level information for all schools except charter schools. Charter schools are public schools that are operated under a charter granted by the Commissioner of Education. The school is independent

of the school district and managed by a board of trustees. In accordance with charter school law, the school district of residence must pay directly to the charter school for each student enrolled in the charter school who resides in the district an amount equal to 90% of the sum of the budget year equalization aid per pupil and the prebudget year general fund tax levy per pupil inflated by the Consumer Price Index (CPI) rate in effect at the time of the calculation. In addition, the school district of residence must pay directly to the charter school the security categorical aid attributable to the student and a percentage of the district's special education categorical aid equal to the percentage of the district's special education students enrolled in the charter school and, if applicable, 100% of preschool education aid.

The financial information for the charter schools shows school average compared to charter average, while all other school report cards show district average compared to a state average for districts of a similar budget type. Budget type refers to the grade span that a district must budget for. If a district sends its 9-12 students to another district, it has a budget type that is K-12 (the district pays tuition to the receiving district for the 9-12 students), but the district has an operating type of K-8.

Administrative and Faculty Personnel

These include the number of administrators in the district reported in FTEs in October of each year, the number of schools in the districts, the ratio of students to administrators, and the ratio of faculty to administrators in the district. Similar information at the school level is shown earlier in this report card. Administrators include certificated administrative personnel in the central office, principals and school administrators -- both supervisory and non-supervisory. The number of faculty per administrator is calculated by dividing the combined FTE of classroom teachers and educational support personnel by the FTE of administrators as reported in October.

Median Salary and Years of Experience of Administrative and Faculty Personnel

This contains the median salary -- half of the salaries are above the median and half are below -- for both administrators and faculty. It also contains the median years of experience based on total number of years in public education.

Teacher Salaries and Benefits

Total teacher salaries and benefits are represented as a percent of total expenditures for this category, as reported in the Per-Pupil Expenditure section that follows. The percent increase or decrease represents the change in expenditures in teacher salaries/benefits from one year to the next.

Administrative Salaries and Benefits

Total administrative salaries and benefits are represented as a percent of total expenditures for this category, as reported in the Per-Pupil Expenditure section that follows. The percent increase or decrease represents the change in expenditures in administrator salaries/benefits from one year to the next.

Revenues

This presents the total revenues from various sources reflecting the combination of the ways districts are funded through local taxes, state aid, federal aid, and other sources, such as local district surplus and tuition income.

Budgets and Per-pupil Expenditures

There are two district-wide costs per pupil amounts for three years that correspond to the rest of the data in the report card. First is the Budgetary Cost per Pupil that represents comparisons with districts of similar budget type. The components that comprise the budgetary cost per pupil are as follows: classroom instructional costs; support services (attendance and social work, health services, guidance office, child study team, library and other educational media); administrative costs (general administration, school administration, business administration, and improvement of instruction); operations/maintenance of plant; food services, and extracurricular costs. The total of these expenditures is divided by the average daily enrollment for a total budgetary cost per pupil.

Second is the Total Cost Per Pupil which, in addition to all of the costs listed above for the budgetary cost, includes costs for tuition expenditures and payments to preschool providers; transportation; other current expenses (lease purchase interest, residential costs, and judgments against schools); equipment; facilities/acquisition; and restricted expenses less nonpublic services and adult schools. The total of these expenditures is divided by the average daily enrollment, combined with all students sent out of the district as reported on the ASSA (annual state aid collection) to calculate a total cost per pupil.

(1) The Budgetary Cost per Pupil that represents comparisons with districts of similar budget type. The components that comprise the budgetary cost per pupil are as follows: classroom instructional costs; support services (attendance and social work, health services, guidance office, child study team, library and other educational media); administrative costs (general administration, school administration, business administration, and improvement of instruction); operations/maintenance of plant; food services, and extracurricular costs. The total of these expenditures is divided by the average daily enrollment for a total budgetary cost per pupil.

(2) Second is the Total Cost Per Pupil which, in addition to all of the costs listed above for the budgetary cost, includes costs for tuition expenditures and payments to preschool providers; transportation; other current expenses (lease purchase interest, residential costs, and judgments against schools); equipment; facilities/acquisition; and restricted expenses less nonpublic services and adult schools. The total of these expenditures is divided by the average daily enrollment, combined with all students sent out of the district as reported on the ASSA (annual state aid collection) to calculate a total cost per pupil.

(1) The Budgetary Cost per Pupil that represents comparisons with districts of similar budget type. The components that comprise the budgetary cost per pupil are as follows: classroom instructional costs; support services (attendance and social work, health services, guidance office, child study team, library and other educational media); administrative costs (general administration, school administration, business administration, and improvement of instruction); operations/maintenance of plant; food services, and extracurricular costs. The total of these expenditures is divided by the average daily enrollment for a total budgetary cost per pupil.

(2) Second is the Total Cost Per Pupil which, in addition to all of the costs listed above for the budgetary cost, includes costs for tuition expenditures and payments to preschool providers; transportation; other current expenses (lease purchase interest, residential costs, and judgments against schools); equipment; facilities/acquisition; and restricted expenses less nonpublic services and adult schools. The total of these expenditures is divided by the average daily enrollment, combined with all students sent out of the district as reported on the ASSA (annual state aid collection) to calculate a total cost per pupil.

Advanced Placement Results		
Test Name	# of Students in Class	# of Students Taking Test
*The total number of students in class is a duplicated count as the same student may take multiple AP classes.The total number of test-takers may exceed the number of enrollees as students may take the test without taking the class.

(1) The Budgetary Cost per Pupil that represents comparisons with districts of similar budget type. The components that comprise the budgetary cost per pupil are as follows: classroom instructional costs; support services (attendance and social work, health services, guidance office, child study team, library and other educational media); administrative costs (general administration, school administration, business administration, and improvement of instruction); operations/maintenance of plant; food services, and extracurricular costs. The total of these expenditures is divided by the average daily enrollment for a total budgetary cost per pupil.

(2) Second is the Total Cost Per Pupil which, in addition to all of the costs listed above for the budgetary cost, includes costs for tuition expenditures and payments to preschool providers; transportation; other current expenses (lease purchase interest, residential costs, and judgments against schools); equipment; facilities/acquisition; and restricted expenses less nonpublic services and adult schools. The total of these expenditures is divided by the average daily enrollment, combined with all students sent out of the district as reported on the ASSA (annual state aid collection) to calculate a total cost per pupil.

(1) The Budgetary Cost per Pupil that represents comparisons with districts of similar budget type. The components that comprise the budgetary cost per pupil are as follows: classroom instructional costs; support services (attendance and social work, health services, guidance office, child study team, library and other educational media); administrative costs (general administration, school administration, business administration, and improvement of instruction); operations/maintenance of plant; food services, and extracurricular costs. The total of these expenditures is divided by the average daily enrollment for a total budgetary cost per pupil.

(2) Second is the Total Cost Per Pupil which, in addition to all of the costs listed above for the budgetary cost, includes costs for tuition expenditures and payments to preschool providers; transportation; other current expenses (lease purchase interest, residential costs, and judgments against schools); equipment; facilities/acquisition; and restricted expenses less nonpublic services and adult schools. The total of these expenditures is divided by the average daily enrollment, combined with all students sent out of the district as reported on the ASSA (annual state aid collection) to calculate a total cost per pupil.

(1) The Budgetary Cost per Pupil that represents comparisons with districts of similar budget type. The components that comprise the budgetary cost per pupil are as follows: classroom instructional costs; support services (attendance and social work, health services, guidance office, child study team, library and other educational media); administrative costs (general administration, school administration, business administration, and improvement of instruction); operations/maintenance of plant; food services, and extracurricular costs. The total of these expenditures is divided by the average daily enrollment for a total budgetary cost per pupil.

(2) Second is the Total Cost Per Pupil which, in addition to all of the costs listed above for the budgetary cost, includes costs for tuition expenditures and payments to preschool providers; transportation; other current expenses (lease purchase interest, residential costs, and judgments against schools); equipment; facilities/acquisition; and restricted expenses less nonpublic services and adult schools. The total of these expenditures is divided by the average daily enrollment, combined with all students sent out of the district as reported on the ASSA (annual state aid collection) to calculate a total cost per pupil.

(1) The Budgetary Cost per Pupil that represents comparisons with districts of similar budget type. The components that comprise the budgetary cost per pupil are as follows: classroom instructional costs; support services (attendance and social work, health services, guidance office, child study team, library and other educational media); administrative costs (general administration, school administration, business administration, and improvement of instruction); operations/maintenance of plant; food services, and extracurricular costs. The total of these expenditures is divided by the average daily enrollment for a total budgetary cost per pupil.

(2) Second is the Total Cost Per Pupil which, in addition to all of the costs listed above for the budgetary cost, includes costs for tuition expenditures and payments to preschool providers; transportation; other current expenses (lease purchase interest, residential costs, and judgments against schools); equipment; facilities/acquisition; and restricted expenses less nonpublic services and adult schools. The total of these expenditures is divided by the average daily enrollment, combined with all students sent out of the district as reported on the ASSA (annual state aid collection) to calculate a total cost per pupil.

(1) The Budgetary Cost per Pupil that represents comparisons with districts of similar budget type. The components that comprise the budgetary cost per pupil are as follows: classroom instructional costs; support services (attendance and social work, health services, guidance office, child study team, library and other educational media); administrative costs (general administration, school administration, business administration, and improvement of instruction); operations/maintenance of plant; food services, and extracurricular costs. The total of these expenditures is divided by the average daily enrollment for a total budgetary cost per pupil.

(2) Second is the Total Cost Per Pupil which, in addition to all of the costs listed above for the budgetary cost, includes costs for tuition expenditures and payments to preschool providers; transportation; other current expenses (lease purchase interest, residential costs, and judgments against schools); equipment; facilities/acquisition; and restricted expenses less nonpublic services and adult schools. The total of these expenditures is divided by the average daily enrollment, combined with all students sent out of the district as reported on the ASSA (annual state aid collection) to calculate a total cost per pupil.

(1) The Budgetary Cost per Pupil that represents comparisons with districts of similar budget type. The components that comprise the budgetary cost per pupil are as follows: classroom instructional costs; support services (attendance and social work, health services, guidance office, child study team, library and other educational media); administrative costs (general administration, school administration, business administration, and improvement of instruction); operations/maintenance of plant; food services, and extracurricular costs. The total of these expenditures is divided by the average daily enrollment for a total budgetary cost per pupil.

(2) Second is the Total Cost Per Pupil which, in addition to all of the costs listed above for the budgetary cost, includes costs for tuition expenditures and payments to preschool providers; transportation; other current expenses (lease purchase interest, residential costs, and judgments against schools); equipment; facilities/acquisition; and restricted expenses less nonpublic services and adult schools. The total of these expenditures is divided by the average daily enrollment, combined with all students sent out of the district as reported on the ASSA (annual state aid collection) to calculate a total cost per pupil.

(1) The Budgetary Cost per Pupil that represents comparisons with districts of similar budget type. The components that comprise the budgetary cost per pupil are as follows: classroom instructional costs; support services (attendance and social work, health services, guidance office, child study team, library and other educational media); administrative costs (general administration, school administration, business administration, and improvement of instruction); operations/maintenance of plant; food services, and extracurricular costs. The total of these expenditures is divided by the average daily enrollment for a total budgetary cost per pupil.

(2) Second is the Total Cost Per Pupil which, in addition to all of the costs listed above for the budgetary cost, includes costs for tuition expenditures and payments to preschool providers; transportation; other current expenses (lease purchase interest, residential costs, and judgments against schools); equipment; facilities/acquisition; and restricted expenses less nonpublic services and adult schools. The total of these expenditures is divided by the average daily enrollment, combined with all students sent out of the district as reported on the ASSA (annual state aid collection) to calculate a total cost per pupil.

(1) The Budgetary Cost per Pupil that represents comparisons with districts of similar budget type. The components that comprise the budgetary cost per pupil are as follows: classroom instructional costs; support services (attendance and social work, health services, guidance office, child study team, library and other educational media); administrative costs (general administration, school administration, business administration, and improvement of instruction); operations/maintenance of plant; food services, and extracurricular costs. The total of these expenditures is divided by the average daily enrollment for a total budgetary cost per pupil.

(2) Second is the Total Cost Per Pupil which, in addition to all of the costs listed above for the budgetary cost, includes costs for tuition expenditures and payments to preschool providers; transportation; other current expenses (lease purchase interest, residential costs, and judgments against schools); equipment; facilities/acquisition; and restricted expenses less nonpublic services and adult schools. The total of these expenditures is divided by the average daily enrollment, combined with all students sent out of the district as reported on the ASSA (annual state aid collection) to calculate a total cost per pupil.

>>[NCLB School, District, and State Reports](#)

The federal *No Child Left Behind (NCLB) Act* has imposed specific accountability and reporting requirements on states. The *NCLB* reports present school-, district-, and state-level information in those areas mandated by *NCLB*, which are as follows: status regarding Adequate Yearly Progress; information on highly qualified teachers; attendance and dropout data; and assessment data that has incorporated all of the conditions mandated under *NCLB* for meeting federally approved proficiency levels.

The results displayed on *NCLB* Reports are based on the state assessment data with the *NCLB* conditions applied. Additionally, the *NCLB* data incorporates the data appeals submitted by districts/schools that have been granted by the NJDOE. Therefore, the data in the *NCLB* Reports may be different from the data displayed on the NJ School Report Cards.

>>[New Jersey School Report Card](#)

The annual New Jersey School Report Card is required under a 1995 state law. It presents thirty-five fields of information for each school in the following categories: school environment, students, student performance indicators, staff, and district finances.

The assessment results displayed on the New Jersey School Report Cards are based on the state assessment data without any *NCLB* conditions applied. Therefore, the assessment data in the NJ School Report Card may be different from the assessment data displayed on the *NCLB* Reports where there have been *NCLB* conditions applied to the test results.

WELCOME TO THE NEW JERSEY SCHOOL REPORT CARD FOR 2011

One of the major goals of the Department of Education is to increase school- and district-level accountability for educational progress by communicating useful information to members of the public to be used in measuring how well their schools are doing. The New Jersey School Report Card has provided the public with information about every school in New Jersey since 1995 when the Legislature mandated the annual accountability report.

The 2011 edition of the New Jersey School Report Card offers the same level of information as last year. We encourage you to examine your school's report card to decide for yourself whether your school is making satisfactory progress in helping your child meet New Jersey's Core Curriculum Content Standards. If you would like to give the department feedback on the report card process, please contact us: reportcard@doe.state.nj.us.

Above all, the Department of Education urges you to become involved with your local schools. With the scrutiny and support of the community, our schools can and will provide an excellent education for all of our students.

NEW JERSEY DEPARTMENT OF EDUCATION

PATERSON CITY (31-4010)

The Paterson Public School District is an urban school district located in northern New Jersey, 18 miles west of New York City. The third largest school district in New Jersey and one of its most diverse, the Paterson Public School District enrolls 28,400 students in preschool to grade 12. The population in the Paterson Public School District mirrors the demographic trend of urban communities in New Jersey: 60 percent of all students are of Hispanic origin; 30 percent are African-American and approximately 9 percent are of Caucasian, Middle Eastern or Asian descent. Nearly 50 percent of all students in Paterson speak a primary language other than English, with a total of 37 languages spoken in district schools.

The Paterson Public School District is led by state appointed District Superintendent, Dr. Donnie W. Evans, who works closely with the New Jersey Department of Education and nine elected members of the Paterson Board of Education. After state takeover in 1991, the district began to establish and implement stringent controls and monitoring procedures related to school and district office operations. To ensure consistent operations, all board policies and regulations were reviewed, updated and are currently accessible on the district's website. This district has 52 schools that house 2,760 certified teachers to accommodate students in kindergarten through grade 12. District high schools were recently restructured and reorganized into "thematic choice schools." At the elementary level (K-8), four schools are schools of choice.

Preparing our students for success begins at an early age. To that end, the Paterson Public School District provides a comprehensive preschool program, serving 3,600 three- and four-year-old students in 33 early childhood community provider centers and four in-district sites. The program provides a full day of developmentally appropriate instruction that promotes children's social-emotional development and learning in the core areas of language and literacy, mathematics, science and social studies. Teachers utilize a research-based comprehensive curriculum adopted by the Paterson Board of Education in order to provide a seamless transition to the kindergarten curriculum.

During the 2009-2010 school year the Paterson Public School District developed an ambitious five-year Strategic Plan for transforming itself into a high performing urban school system. The Plan known as *Bright Futures*, includes the vision for Paterson Public Schools "to be a leader in educating New Jersey's urban youth" and its *college ready* mission "to prepare each student for success in the institution of higher education of their choosing and in their chosen career."

Bright Futures driven by an urgent need to improve student academic outcomes, school and district culture, family and community involvement, and operational functions is organized by four priorities:

- **Effective Academic Programs:** Programs are research-based and outcomes driven
- **Safe, Caring, and Orderly Schools:** Schools are safe which enable teachers

to teach and students to learn

- **Family and Community Engagement:** District and school staff collaborate with and engage families and community institutions, organizations, and agencies
- **Efficient and Responsive Operations:** Operations support the district and school's core business and are responsive to the needs of staff, students, and community

Twenty-three measurable goals and numerous school improvement strategies are aligned with each priority. These priorities, goals, and strategies are intended to create an aligned instructional system, build capacity among teachers and principals, create a strong district-level support system, and involve parents and community partners.

Since the development of *Bright Futures*, the district has aggressively implemented many of its strategies, such as:

1. Transforming (reorganizing and re-staffing) its large comprehensive high schools into autonomous small schools (Eastside and John F. Kennedy High Schools)
2. Restructuring and re-staffing its lowest performing elementary schools (Schools 4, 6, & 10)
3. Converting all high schools into "thematic schools of choice"
4. Creating three full service community schools (Schools 4, 5, & New Roberto Clemente)
5. Reorganizing and re-staffing district operational divisions (finance, human resources, and facilities)
6. Creating the state's first curriculum based, student operated credit union
7. Creating and implementing the Paterson Effective Schools' Initiative to change the culture in district schools and the District Office.
8. Significant expansion of alternative schools in the district.
9. Implementing academic interventions for each student performing below proficient in mathematics and/or language arts literacy on NJASK and HSPA.
10. Establishing parent-teacher organizations in each school.
11. Acquired grant funding to support school improvement initiatives
12. Promise Community Grant to support Full Service Community Schools - \$2.3 million
13. Affordable Care Act Grant for School-Based Health Centers in full service schools - \$500,000
14. Talent 21 grant to support technology initiatives - \$2.2 million
15. School Improvement Grants (SIG) for Schools 4 & 10 - \$12 million

These and other changes have contributed to improvements in student outcomes including:

1. The percent of first-time takers of HSPA performing at or above proficient in language arts literacy, increased from 51.7% to 59.5% from 2009-10 to 2010-11, with International High School demonstrating a 28% increase, Garrett Morgan demonstrating a 39% increase, and the three Eastside High Schools cumulatively increased by 6.5%.
2. The percent of students in grades three through eight performing at or above proficiency in mathematics on NJASK increased from 45.9% to 49.1% from 2009-10 to 2010-11.
3. Within cohort analysis of grade 3-8 students on NJASK for the same period finds that four of five cohorts increased their performance in mathematics and three of five increased their performance in language arts literacy.
4. Our graduation rate using the cohort method (a comparison of students entering 9th grade as a cohort to those who graduated as a cohort four years later) for the 2011 graduating class increased to 58.7%, which is an increase from 50.4% in 2010 and 45% in 2009.

Although the district is beginning to realize limited improvements in academic outcomes, much more work is needed to accelerate improvements. To this end, the district is taking major steps to accelerate improvements in academic and non-academic outcomes. These steps include the creation of *The Paterson Innovation Zone*.

The Paterson Innovation Zone is a pilot initiative designed to accelerate improvements in student achievement and non-academic outcomes. This program will accomplish *Bright Futures'* goals by creating an aligned instructional system, increasing capacity among teachers to become more effective, helping principals to become effective instructional leaders, creating a strong district-level support system, and increasing the involvement of parents and community partners.

Additional steps include:

NEW INITIATIVES FOR 2011-2012

1. Increase district office capacity to support school improvement
2. Evaluate & restructure Special Education
3. Evaluate & restructure English as a Second Language Program
4. Restructure support system for academics
5. Increase capacity for supporting Math instruction in high school
6. Increase capacity for supporting Language Arts instruction in elementary schools
 1. Expand Fine Arts in K-8 Schools
7. Restructure program to provide music and art to all students in K-8
8. Restructure and relocate APA
 1. Create/implement more choice options
9. All high schools will become Choice Schools
10. Create more choice options for K-8 students
 1. Create Gifted and Talented continuum for grades 3-12
 2. Institute a uniform policy for all schools
 3. Implement the Paterson Effective Schools Model district-wide
 4. Develop and implement a Parent Outreach Initiative to increase parent

involvement in schools

1. Create a Leadership Development Institute
2. Aspiring Leaders Academy
3. Practitioners' Academy
 1. Implement an outcome-based performance appraisal system for teachers and

administrators

1. Create and implement a student progression plan
2. Reduce dependence on leased facilities

The Paterson Public School district is aggressively implementing school and district-level initiatives to transform the system into a high performing organization. In doing so, it is confident that its mission to prepare every student for success in the institution of higher education of their choosing and in their chosen career will be realized.

Spanish Narrative:

El Distrito de Escuelas Públicas de Paterson es un distrito escolar urbano ubicado en el norte de Nueva Jersey, 18 millas al oeste de la ciudad de Nueva York. El tercer distrito escolar más grande en Nueva Jersey y uno de los más diversos, el Distrito de Escuelas Públicas de Paterson inscribe a 28,400 estudiantes de preescolar hasta el grado 12. La población en el Distrito de Escuelas Públicas de Paterson refleja la tendencia demográfica de las comunidades urbanas de Nueva Jersey: 60 por ciento de todos los estudiantes son de origen hispano, 30 por ciento son afro-americanos y aproximadamente el 9 por ciento son de raza blanca, Medio Oriente o de origen asiático. Casi el 50 por ciento de todos los estudiantes de Paterson hablan un idioma primario que no sea inglés, con un total de 37 lenguas que se hablan en las escuelas del distrito.

El Distrito de Escuelas Públicas de Paterson es dirigido por el Superintendente Estatal del Distrito, el Dr. Donnie W. Evans, quien trabaja en estrecha

colaboración con el Departamento de Educación de Nueva Jersey y nueve miembros electos de la Junta de Educación de Paterson. Después de que el estado tomó control en 1991, el distrito comenzó a establecer y aplicar estrictos controles y procedimientos de monitoreo relacionados con las operaciones de las escuelas y oficinas centrales. Para garantizar un funcionamiento coherente de las operaciones, todas las pólizas y reglamentos de la junta han sido revisados, actualizados y son accesibles en la página web del distrito.

Este distrito tiene 52 escuelas que albergan 2,760 maestros certificados para acomodar a estudiantes en kindergarten hasta el 12 grado. Escuelas secundarias del distrito se han reestructurado y reorganizado recientemente en “escuelas de elección temática.” A nivel elemental (K-8), cuatro escuelas son de elección.

Preparar a los estudiantes para el éxito comienza a una temprana edad. Con ese fin, el Distrito de Escuelas Públicas de Paterson ofrece un programa preescolar integral, sirviendo a 3,600 estudiantes de tres y cuatro años de edad en 33 centros proveedores comunitarios de primera infancia y cuatro centros dentro del distrito. El programa provee un día completo de instrucción apropiada para el desarrollo que promueve el desarrollo socio-emocional de los niños y el aprendizaje en las aéreas básicas de la lengua y alfabetización, matemática, ciencias y estudios sociales. Los maestros utilizan un currículo basado en la investigación y aprobado por la Junta de Educación de Paterson a fin de proporcionar una fluida transición al currículo de kindergarten.

Durante el año escolar 2009-2010, el Distrito de Escuelas Públicas de Paterson desarrolló un ambicioso Plan Estratégico de cinco años para transformarse en un sistema de escuelas urbanas de alto desempeño. El Plan conocido como “*Bright Futures*”, incluye la visión de las Escuelas Públicas de Paterson “para ser un líder en la educación de la juventud urbana de Nueva Jersey” y su misión “*listos para la universidad*” “para preparar a cada estudiante para el éxito en la institución de educación superior de su elección y en su carrera elegida.”

Bright Futures impulsado por una necesidad urgente de mejorar los resultados académicos de los estudiantes, la cultura de las escuelas y el distrito, la participación de la familia y la comunidad, y las funciones operativas está organizado en torno a cuatro prioridades:

- **Programas Académicos Eficaces:** Programas que están basados en la investigación e impulsados por los resultados
- **Escuelas, Seguras, Afectuosas y Ordenadas:** Las escuelas están seguras lo cual les permite a los maestros enseñar y a los estudiantes a aprender
- **Compromiso de la Familia y la Comunidad:** El distrito y el personal escolar colaboran e involucran a las familias, las instituciones de la comunidad, organizaciones y agencias
- **Operaciones eficientes y sensibles:** Las operaciones apoyan al distrito y al principal interés de las escuelas y responden a las necesidades del personal, estudiantes y la comunidad

Veintitrés metas y numerosas estrategias de mejora de las escuelas están alineadas con cada prioridad. Estas prioridades, metas y estrategias están destinadas a crear un sistema alineado de enseñanza, fortalecer la capacidad entre los maestros y directores, crear un fuerte sistema de apoyo a nivel del distrito e involucrar a padres y miembros de la comunidad.

Desde el desarrollo de *Bright Futures*, el distrito ha implementado agresivamente muchas de sus estrategias, tales como:

1. Transformando (reorganizando re-surtiendo el personal) de las mayores escuelas secundarias en pequeñas escuelas autónomas (Escuelas Secundarias Eastside y John F. Kennedy)
2. Reestructurando y re-organizando el personal de las escuelas primarias de mas bajo rendimiento (Escuelas 4, 6, y 10)
3. Convirtiendo todas las escuelas secundarias en "escuelas de elección temática"
4. Creando tres escuelas comunitarias de servicio completo (escuelas 4, 5, y Nueva Roberto Clemente)
5. Reorganizando y re-surtiendo el personal en las divisiones operativas del distrito (finanzas, recursos humanos e instalaciones)
6. Creando el primer banco de crédito en el estado basado en el currículo y operado por estudiantes
7. Creando e implementando la Iniciativa de las Escuelas Eficaces de Paterson para cambiar la cultura en las escuelas y oficinas del distrito
8. Significativa expansión de las escuelas alternativas en el distrito
9. Implementando intervenciones académicas para cada estudiante con desempeño por debajo del nivel en matemáticas y / o las Artes del Lenguaje y alfabetización en NJASK y HSPA
10. Estableciendo organizaciones de padres y maestros en cada escuela
11. Se obtuvieron fondos de becas para apoyar iniciativas de mejoramiento escolar
12. Beca Promesa Comunitaria para apoyar las Escuelas Comunitarias de Servicio Completo - \$2.3 millones
13. Beca “Affordable Care Act” de subvención para los Centros de Salud Escolares dentro de las escuelas de servicio completo - \$ 500.000
14. Fondos de Beca Talento 21 para apoyar iniciativas de tecnología - \$ 2.2 millones
15. Becas de Mejoramiento de Escuelas (SIG, por sus siglas en inglés) para las Escuelas 4 y 10 - \$ 12 millones

Estos y otros cambios han contribuido a la mejora de resultados de los estudiantes, incluyendo:

1. El porcentaje de estudiantes que tomaron por primera vez el examen HSPA con rendimiento a nivel o por encima de competencia en las Artes del Lenguaje y alfabetización, aumentó de 51.7% a 59.5% del 2009-10 al 2010-11, con la Escuela Secundaria Internacional demostrando un aumento del 28%, Garrett Morgan demostrando una 39% de aumento, y las tres escuelas de la Secundaria Eastside con un aumento cumulativo de 6.5%.
2. El porcentaje de estudiantes en los grados tres al ocho con rendimiento a nivel o por encima de competencia en matemáticas en NJASK aumentó del 45.9% al 49.1% del 2009-10 al 2010-11.
3. Un análisis entre grupos de estudiantes de grados 3-8 en NJASK para el mismo período encuentra que cuatro de cinco grupos incrementaron su rendimiento en matemáticas y tres de cinco aumentaron su rendimiento en artes del lenguaje y alfabetización.
4. Nuestra tasa de graduación utilizando el método de grupos (una comparación de los estudiantes entrando al 9no grado como grupo a los que se graduaron en grupo cuatro años más tarde) para la clase de graduados en 2011 aumentó a 58.7%, lo que supone un incremento de 50.4% en 2010 y 45% en 2009.

Aunque el distrito está empezando a ver mejoras limitadas en los resultados académicos, se necesita trabajar mucho más para acelerar las mejoras.

Con este fin, el distrito está tomando importantes medidas para acelerar mejoras en los resultados académicos y no académicos. Estas medidas incluyen la creación de la Zona de Innovación de Paterson.

La Zona de Innovación de Paterson es una iniciativa piloto diseñada para acelerar mejoras en el rendimiento escolar y los resultados no académicos. Este programa llevará a cabo los objetivos de *Bright Futures* mediante la creación de un sistema alineado de enseñanza, aumentando la capacidad de los maestros a ser más eficaces, ayudando a los directores a convertirse en líderes efectivos de enseñanza, creando un fuerte sistema de apoyo a nivel del distrito, y aumentando la participación de los padres y socios de la comunidad.

Pasos adicionales incluyen:

NUEVAS INICIATIVAS PARA 2011-2012

1. Aumentar la capacidad de las oficinas del distrito para apoyar mejoras escolares
 - a. Evaluar y reestructurar la Educación Especial
 - b. Evaluar y reestructurar Programas de Inglés como Segundo Idioma
 - c. Reestructurar el sistema de apoyo académico
 - d. Aumentar la capacidad de apoyo a la enseñanza de matemáticas en la escuela secundaria
 - e. Aumentar la capacidad de apoyo a la instrucción de Artes de Lenguaje en las escuelas primarias
2. Ampliar el programa de Bellas Artes en las escuelas K-8
 - a. Reestructurar el programa para proporcionar música y arte a todos los estudiantes de K-8
 - b. Reestructurar y reubicar a APA
3. Crear / implementar más opciones de elección
 - a. Todas las escuelas secundarias se convertirán en escuelas de elección
 - b. Crear más opciones de elección para los estudiantes K-8
4. Crear un continuo de Dotados y Talentosos para los grados 3-12
5. Establecer una política uniforme para todas las escuelas
6. Implementar el Modelo de Escuelas Efectivas de Paterson en todo el distrito
7. Desarrollar y ejecutar la Iniciativa Alcance de Padres para aumentar la participación de padres en las escuelas
8. Crear un Instituto de Desarrollo de Liderazgo
 - a. Academia de Aspirantes a Líderes
 - b. Academia de Practicantes
9. Implementar un sistema de evaluación basado en los resultados de desempeño para los maestros y los administradores
10. Crear e implementar un plan de progresión para los estudiantes
11. Reducir la dependencia de las instalaciones alquiladas

El distrito de Escuelas Públicas de Paterson está implementando de manera agresiva iniciativas a nivel de escuelas y el distrito para transformar el sistema en una organización de alto rendimiento. De este modo, confía en que su misión de preparar a cada estudiante para el éxito en la institución de educación superior de su elección y en su carrera elegida se hará realidad.

NEW JERSEY DEPARTMENT OF EDUCATION

NUMBER 1 (31-4010-050)

Renaissance One School of Humanities is a Pre-K-5 elementary school. The vision of our school states that it is the shared responsibility of the entire educational community to provide a safe and caring environment. We support children emotionally, socially, and cognitively in an intellectually stimulating setting where individual ideas are valued. Parental and community support are evident in the dedicated Home School Council, by the financial backing of our benefactors, and in the commitment of our volunteers.

Our action plan addresses all the needs of our students in a cohesive and organized manner. The departure point for meeting the needs of our students is the National Core Curriculum Standards, including the Core Curriculum Workplace Readiness. Faculty and students strive to achieve the standards through an integrated, thematic approach. The domains of Multiple Intelligences enable us to utilize a variety of activities to accommodate all teaching and learning styles. The Responsive Classroom Program establishes a social and academic context for learning.

The use of Bloom's Taxonomy and the concept of essential questions assure that instruction moves clearly through the acquisition of information to the critical thinking and problem-solving level, which is crucial to student learning.

The CCSS and the CCWR Standards are addressed school wide as follows:

- *By providing a research-based, balanced literacy program (Standard 3)
- *By incorporating a storytelling program (Standard 3)
- *By mainstreaming students through inclusion (All Standards)
- *By enhancing the experiences of students through cultural activities (CCWR)
- *By celebrating student learning through exhibits, displays and celebrations.
- *By offering extensive professional development opportunities to our staff
- *By extending our students' appreciation of the visual and performing arts by attending live performances and participating in performances and displays. (Standard 1.2 – 1.4)

We have been working to achieve school, state, and federal benchmarks. Our technological capacity continues to be expanded through a variety of sources. All Pre K-5 classrooms are internet accessible and internet capable. Computers and other equipment have been purchased for all classrooms. Extensive staff development on the use of technology in the classroom continues to be provided; therefore, technology is integrated in all content areas.

In 2002 we were named a Star School by the NJ State Department of Education. Even though we have reached our milestone, we choose to continue on our educational journey through the implementation of high expectations and outstanding instructional practices.

Spanish Narrative:

La Escuela No. 1 (Renaissance One, "Escuela de humanidades") abarca los grados del Pre-kinder a quinto. Nuestra visión escolar establece que la comunidad escolar entera comparta la responsabilidad de proveer un ambiente seguro y de cuidado. Apoyamos a nuestros estudiantes emocionalmente, socialmente, y educativamente proveyéndoles un medio ambiente estimulante al intelecto donde las ideas individuales son valoradas. El apoyo de los padres y de la comunidad que disfrutamos es palpable en la dedicación del Concilio de Hogar y Escuela, en el respaldo económico de nuestros benefactores, y en el compromiso de nuestros voluntarios.

Nuestro plan de acción esta dirigido hacia las necesidades de los estudiantes de una manera coherente y organizada. Para atender las necesidades de nuestros estudiantes, el punto de partida son los Estandares Esenciales Nacionales (CCSS). La facultad y los estudiantes se esfuerzan para lograr aprovechamiento académico através de la integración temática. El dominio de Inteligencias Múltiples nos capacitan para utilizar actividades que acomodan los distintos estilos de enseñanza y aprendizaje. El programa "Responsive Classroom" (Salones que corresponden) establece un contexto social y académico para el aprendizaje.

El uso de la Taxonomía de Bloom y las preguntas esenciales aseguran que la instrucción se dirija hacia la adquisición de información, al pensamiento crítico, y al nivel de la resolución de problemas, los cuales son cruciales al aprendizaje de los estudiantes.

Los Estandares de CCSS están cubiertos en esta escuela en las siguientes formas:

- *Proveyendo una instrucción de lectura balanceada (Estandar 3)
- *Incorporando un programa de hacer cuentos/historietas (Estandar 3)
- *Incluyendo a los estudiantes de educación especial en el grupo general
- *Realzar las experiencias de los estudiantes através de actividades culturales
- *Celebrando los acontecimientos de los estudiantes con exhibiciones de sus conocimientos y celebraciones.
- *Ofreciéndole a la facultad un programa extenso de capacitación profesional
- *Aumentando en los estudiantes la apreciación de los artes visuales y representativas al asistir a presentaciones en vivo y al participar en presentaciones y exhibiciones (Estandares 1.2-1.4)

Hemos estado trabajando para lograr los objetivos del distrito, del estado, y del gobierno. Nuestra capacidad tecnológica ha aumentado por varios medios. Todas las aulas del pre escolar al 5to están conectadas a la red del internet y nuevas computadoras con acceso rápido al internet, y otros equipos fueron adquiridos. Un amplio programa de adiestramiento para los maestros se continua proveyendo, para que ellos puedan incorporar el uso de la tecnología en sus lecciones.

En el 2002 fuimos nombrados Escuela Estrella por el Departamento de Educación de Nueva Jersey. Aunque llegamos a este logro tan importante, continuamos nuestra peregrinación educativa através de expectativas altas y el ejercicio de prácticas educativas sobresalientes.

GUIDE TO THE NEW JERSEY SCHOOL REPORT CARD 2011

INTRODUCTION

This report card issued in May 2012 contains data for the 2010-11 school year. Enrollment numbers are based on the October 15, 2010 NJSMART submission. The information in the report card is school-level data, except for the finance section which contains district-level information. For charter schools, however, the finance section is school-level. The source of the information contained in the New Jersey School Report Card is the school district or the charter school, unless otherwise indicated in this guide.

There are several general practices and rules that are used throughout the document. They are as follows:

- **SUPPRESSION:** In reporting any type of assessment results, an asterisk indicates that the data were suppressed in order to protect privacy. Suppression includes cell sizes of less than 11 students, proficiency levels that are greater than 90% partially proficient, and other combinations of small cell sizes that might not protect privacy if they were not suppressed.
- **ZERO:** A zero in a data field in most cases means that there is no data to report for that field for this report card year.
- **BLANK:** A blank in most cases means this data element does not apply to this school.
- **STATE AVERAGE:** Unless otherwise stated, state averages are computed by four school types as follows: vocational schools; Special Services School Districts/special education schools; all elementary schools (regular and charter); or all secondary schools (regular and charter).
- **FACULTY:** In fields that refer to faculty, this term includes classroom teachers and educational support services personnel, such as guidance counselors and librarians.
- **ADMINISTRATORS:** In fields that refer to administrators, this term includes the certificated personnel such as the superintendent, assistant superintendents, school business administrator, principals, assistant principals, supervisors, non-supervisory coordinators, and directors.

REPORT CARD FIELDS

The following sections explain the data in the various report card fields.

SCHOOL ENVIRONMENT

Average Class Size

Average class size for elementary schools (Pre-K-8) is based on the enrollment per grade divided by the total number of classrooms for that grade. For elementary grades, the state average is the statewide total enrollment for each grade divided by the statewide total number of classrooms in that grade.

Average Class size for secondary schools (9-12) is based on the total enrollment per grade divided by the total number

of English classes for the same grade. For secondary grades, the state average is the total enrollment for each grade divided by the total number of English classes for the same grade.

For Special Services School Districts and special education schools, average class size is calculated by dividing the total enrollment by the total number of classrooms.

Length of School Day

This is the amount of time a school is in session for a typical student on a normal school day.

Instructional Time

This is the amount of time per day that a typical student is engaged in instructional activities under the supervision of a certified teacher.

Student/Computer Ratio

This shows the average number of students served by each instructional, multimedia-capable computer with a manufacture date after July 1, 2007 that is available for the purposes of supervised instruction. The ratio is calculated by dividing the total enrollment by the total number of multimedia-capable computers that are used for instruction. In previous years, this data was collected based on the computers' processor, i.e. Pentium IV or Mac G4 or above. Due to the revised parameters, only the 2010-11 data are published in this report.

Internet Connectivity

This shows the numbers of instructional, multimedia-capable computers with a manufacture date after July 1, 2006 available for instruction at various locations and how many of those computers have a connection to the Internet. In previous years, this data was collected based on the computers' processor, i.e. Pentium IV or Mac G4 or above. Due to the revised parameters, only the 2009-10 data are published in this report.

Length of School Year (charter schools only)

This is the number of days in the regular school year.

School Waiting List (charter schools only)

The list contains numbers of students who are waiting for openings in the charter school roster as of the opening of school.

School Classrooms (charter schools only)

This is the number of classrooms in the school.

STUDENT INFORMATION**Enrollment by Grade**

The enrollment has been obtained from the school districts' NJ SMART state submission. NJ Standards Measurement and Resource for Teaching (NJ SMART), is a comprehensive data warehouse, student level data reporting, and

unique statewide student identification (SID) system

Students with Disabilities

This shows the percentage of students with an Individualized Education Program (IEP), including speech, regardless of placement and programs. This is calculated by dividing the total number of students with IEPs by the total enrollment.

Language Diversity

This is the percentage of students in the school by first language spoken at home. The list includes up to seven languages in descending order of frequency plus “all others.” This is calculated by dividing the number of students who speak a given language by the total enrollment. There is a calculation for each language listed, including English and “all others.”

Limited English Proficient (LEP) Students

This is the percentage of LEP students in the school. It is calculated by dividing the total number of students who are in limited English proficient programs by the total enrollment.

Student Mobility Rate

This is the percentage of students who both entered and left during the school year. The calculation is derived from the sum of students entering and leaving after the October enrollment count divided by the total enrollment.

STUDENT PERFORMANCE INDICATORS

Assessments

Performance on State Tests – High School Proficiency Assessment (HSPA), and New Jersey Assessment of Skills and Knowledge (NJASK) 3, 4, 5, 6, 7, and 8

The statewide assessment system comprises state tests that are designed to measure student progress in the attainment of the Core Curriculum Content Standards. Under the *No Child Left Behind Act of 2001 (NCLB)*, all states are required to assess student progress in language arts and math in grades 3-8 and grade 11. The state also assesses science in grades four and eight.

High schools show assessment results from the 11th grade spring 2011 administration of the High School Proficiency Assessment (HSPA) in language arts and math. The HSPA is the test that students must pass in order to graduate from high school. Retests are not included in these results.

The data presented in this report card will differ slightly from the data in the *No Child Left Behind (NCLB)* reports required by federal law. The *NCLB* reports show assessment results in three grade spans after the application of *NCLB* rules for the purpose of calculating adequate yearly progress (AYP) and identifying schools in need of improvement. By contrast, the assessment results presented in this report card have had no restrictions or

conditions applied to them. These data are the state's assessment results that have been disaggregated into subgroups for all students who attend a school.

State assessments are administered with the assistance of test contractors who collect and tally the student-level data. The results are distributed to local districts that have an opportunity to correct any errors. The Department of Education's Office of Assessment conducts the final quality control of all test data and is the source of the assessment results for all state reports, including the New Jersey School Report Card. The assessment office also produces the annual state assessment summary report that differs slightly from the school report card. **The report card information contains only the scores of the students who physically attend that school, while the assessment summary for a school adds in the scores of the special education students who are sent to out-of-district placements.** The addition of these out-of-district scores creates some differences in totals when compared to the report card totals.

National Assessment of Educational Progress (NAEP)

The National Assessment of Educational Progress (NAEP) is the largest national assessment of what our nation's students know and can do. NAEP assesses fourth-, eighth-, and twelfth-grade students in subjects such as reading, mathematics, science, and writing. The National Assessment Governing Board, which sets NAEP policy, also develops the content frameworks for the assessment. NAEP is administered by the National Center for Education Statistics (NCES), located within the Institute of Education Sciences (IES) in the U.S. Department of Education, and the reporting of NAEP scores on state report cards is a federal mandate. The results of NAEP are also published as the Nation's Report Card, and are available for the nation, states, and, in some cases, urban districts. The NAEP scores on the report card include grades four and eight 2009 reading and math scores for New Jersey which are the last scores published. For more information, visit <http://nces.ed.gov/nationsreportcard/>.

Graduation Type

This field shows the percentages of students who met or otherwise satisfied the state's testing requirements for graduation in several different ways – passing both sections of HSPA (scale $\geq$ 200), exempt from passing the HSPA and via Alternative High School Assessment (AHSA), Appeals or Other processes.

The Alternative High School Assessment¹ (AHSA) measures high school competency in selected areas of the Core Curriculum Content Standards. It is intended to offer an alternative means of meeting the state graduation proficiency test requirement. The AHSA is available to students who have met all high school graduation requirements except for demonstrating proficiency in selected areas of the Core Curriculum Content Standards. (N.J.S.A. 18A:7C-3 & N.J.A.C. 6A:8-4.1)

High School seniors who have not yet demonstrated proficiency on the High School Proficiency Assessment (HSPA) or the Alternate High School Assessment (AHSA) are eligible for an appeal. The appeal can only be made by the district. The district must make the determination that the student, though not meeting the minimum scores needed on the assessments, can perform in language arts literacy and in math at a high school level. The district submits, on behalf of the student, HSPA scores, AHSA results, work samples and any other evidence of performance in ELA and/or math. There is an Educational Proficiency Plan form, developed by the department, to aid districts in submitting the appeals. The

document is designed to be used while students are receiving intervention/remediation (as required in statute). The document also asks for the intervention plan, the results and duration of the interventions, parent and student signatures, dates of conferences with parents, etc. While the form is not required for an appeal, the data on the form is required.

Other includes those students who have not been able to demonstrate a scale score ≥ 200 on a single HSPA administration, but have shown proficiency in the different levels of the HSPA during any of the administrations given. An example would be a student who during all 3 administrations of HSPA does not reach a scale score ≥ 200 , but when looking at their individual proficiency on each section of the exam they have passed each section during the 3 administrations. These students would be considered eligible to graduate via other.

Scholastic Assessment Test (SAT)

The Scholastic Assessment Test is a voluntary test administered by the College Board, usually for the purpose of college admission. The percentile scores are the average scores of the students whose performance places them along a range from 1-99. The score listed under the 25th percentile means that a quarter of the students' scores fell below that point and the rest were above. Under the 50th percentile, half of the students' scores fell above that score and half fell below. In the 75th percentile, a quarter of the students' scores were above that score and the rest were below. The source of the data for the report card is the College Board.

Advanced Placement (AP)

This information is obtained from the College Board for students who have taken an advanced placement exam. It shows the classes offered at the school, the numbers of students in each class and the numbers who took the test for the course. The total number of students in class is a duplicated count because the same student may take multiple AP classes. The total number of test-takers may exceed the number of enrollees because students may take the test without taking the class.

NOTE: The AP numbers reported in this report card are based on a snapshot in time that allows the College Board to provide consistent data from year to year. The AP reports from the College Board contain data from files created in July which include approximately 97-99% of the test-takers. The database created by the July snapshot is not updated by College Board for reporting purposes. Therefore, the numbers in the report card can only be considered correct as of the cut-off date.

Advanced Placement Results Summary

This shows the total who scored 3 or greater on the AP tests. It is a duplicated number which means that a single student may be counted more than once in this total, if the student took more than one test and scored 3 or above.

Advanced Placement Participation Data

The percentage of students taking Advanced Placement tests is calculated by dividing the number of students who took at least one AP test by the total number of students enrolled in grades 11 and 12 based on the October 15 enrollment count.

National Occupational Competency Testing Institute (NOCTI) (vocational only)

The NOCTI develops and administers national job-ready examinations that include both written and performance tests

that measure a student's knowledge and skills for entry into an occupational field. The number of students taking the tests is listed, along with school and state average scores for written and performance tests.

Certification/Licensure and Required Examination Results (vocational only)

This section lists by program area the test results for those occupations that require a license, certification, or examination. The data reflect those students who were tested in an occupational program during the school year.

Other Performance Measures

Student Attendance Rate

These are the grade-level percentages of students on average who are present at school each day. They are calculated by dividing the sum of days present in each grade level by the sum of possible days present for all students in each grade. The school and state totals are calculated by the sum of days present in all applicable grade levels divided by the total possible days present for all students.

Dropout Rate (secondary only)

These are the percentages of students who dropped out of grades 9-12 presented by various subgroups. The percentages are calculated by dividing the number of students in grades 9 through 12 who dropped out of school during the school year by the October enrollment reported for grades 9 through 12.

Graduation Rate (secondary only)

The graduation rate is calculated by using the new federally required adjusted cohort graduation rate. The four-year adjusted cohort graduation rate is the number of students who graduate in four years divided by the number of students who form the adjusted cohort for the graduating class. From the beginning of 9th grade, students who are entering that grade for the first time form a cohort that is subsequently "adjusted" by adding any students who transfer into the cohort later during the 9th grade and the next three years and subtracting any students who transfer out, emigrate to another country, or die during that same period. For example, The 2007 freshmen plus "transfers in" minus "transfers out" over four years will be divided into the number of 2011 graduates for the 2011 adjusted cohort graduation rate. Students who drop out remain in the cohort for this calculation. The source of the data is the state's student-level record system called NJ SMART. The "Other" category includes all other students awarded a regular high school diploma by their school districts, including students who passed the alternative high school proficiency exams.

Student Suspensions

These are percentages of students who were suspended at least once during the school year. Students suspended more than one time are counted once. The percents are calculated by dividing the total number suspended by the total enrollment.

Student Expulsions

This shows the number of students who were expelled from the school and district during the year. The total represents the total number of students expelled statewide.

Completion Data (vocational only)

These are the percentages of students who successfully completed an occupational program categorized by their enrollment status. This is calculated by dividing the number of students in each enrollment status by the total graduates.

STAFF INFORMATION**Student/Administrator Ratio**

This is the number of students per administrator in the school. It is calculated by dividing the total school enrollment in October by the number of administrators reported in full-time equivalents (FTEs). Where a single administrator has responsibility for more than one school, the FTE may represent the administrator as less than one.

Student/Faculty Ratio

This is the number of students per faculty member. It is calculated by dividing the reported October school enrollment by the combined full-time equivalents (FTEs) of classroom teachers and educational support services personnel assigned to the school as of October of the school year.

Faculty Attendance Rate

This is the average daily attendance for the faculty of the school. It is calculated by dividing the total number of days present by the total number of days contracted for all faculty members.

Faculty Mobility Rate

This represents the rate at which faculty members come and go during the school year. It is calculated by using the number of faculty who entered or left employment in the school after October 15 divided by the total number of faculty reported as of that same date.

Faculty and Administrator Credentials

These are percentages of faculty and administrative members in the school who hold a bachelor's, master's, or doctoral degree. For vocational and special services schools, there is also information about licenses or certification in addition to or in place of degrees.

National Board Certification

This shows the number of teachers at the school and district levels who have been certified by the National Board for Professional Teaching Standards. In addition to teachers actively working in the districts, the state total may also include teachers who work in nonpublic schools, as well as those who became administrators, have retired or are on leave. This rigorous certification is encouraged, but not required.

DISTRICT/CHARTER FINANCIAL DATA

This section containing the financial data is district-level information for all schools except charter schools. Charter schools are public schools that are operated under a charter granted by the Commissioner of Education. The school is independent

of the school district and managed by a board of trustees. In accordance with charter school law, the school district of residence must pay directly to the charter school for each student enrolled in the charter school who resides in the district an amount equal to 90% of the sum of the budget year equalization aid per pupil and the prebudget year general fund tax levy per pupil inflated by the Consumer Price Index (CPI) rate in effect at the time of the calculation. In addition, the school district of residence must pay directly to the charter school the security categorical aid attributable to the student and a percentage of the district's special education categorical aid equal to the percentage of the district's special education students enrolled in the charter school and, if applicable, 100% of preschool education aid.

The financial information for the charter schools shows school average compared to charter average, while all other school report cards show district average compared to a state average for districts of a similar budget type. Budget type refers to the grade span that a district must budget for. If a district sends its 9-12 students to another district, it has a budget type that is K-12 (the district pays tuition to the receiving district for the 9-12 students), but the district has an operating type of K-8.

Administrative and Faculty Personnel

These include the number of administrators in the district reported in FTEs in October of each year, the number of schools in the districts, the ratio of students to administrators, and the ratio of faculty to administrators in the district. Similar information at the school level is shown earlier in this report card. Administrators include certificated administrative personnel in the central office, principals and school administrators -- both supervisory and non-supervisory. The number of faculty per administrator is calculated by dividing the combined FTE of classroom teachers and educational support personnel by the FTE of administrators as reported in October.

Median Salary and Years of Experience of Administrative and Faculty Personnel

This contains the median salary -- half of the salaries are above the median and half are below -- for both administrators and faculty. It also contains the median years of experience based on total number of years in public education.

Teacher Salaries and Benefits

Total teacher salaries and benefits are represented as a percent of total expenditures for this category, as reported in the Per-Pupil Expenditure section that follows. The percent increase or decrease represents the change in expenditures in teacher salaries/benefits from one year to the next.

Administrative Salaries and Benefits

Total administrative salaries and benefits are represented as a percent of total expenditures for this category, as reported in the Per-Pupil Expenditure section that follows. The percent increase or decrease represents the change in expenditures in administrator salaries/benefits from one year to the next.

Revenues

This presents the total revenues from various sources reflecting the combination of the ways districts are funded through local taxes, state aid, federal aid, and other sources, such as local district surplus and tuition income.

Budgets and Per-pupil Expenditures

There are two district-wide costs per pupil amounts for three years that correspond to the rest of the data in the report card. First is the Budgetary Cost per Pupil that represents comparisons with districts of similar budget type. The components that comprise the budgetary cost per pupil are as follows: classroom instructional costs; support services (attendance and social work, health services, guidance office, child study team, library and other educational media); administrative costs (general administration, school administration, business administration, and improvement of instruction); operations/maintenance of plant; food services, and extracurricular costs. The total of these expenditures is divided by the average daily enrollment for a total budgetary cost per pupil.

Second is the Total Cost Per Pupil which, in addition to all of the costs listed above for the budgetary cost, includes costs for tuition expenditures and payments to preschool providers; transportation; other current expenses (lease purchase interest, residential costs, and judgments against schools); equipment; facilities/acquisition; and restricted expenses less nonpublic services and adult schools. The total of these expenditures is divided by the average daily enrollment, combined with all students sent out of the district as reported on the ASSA (annual state aid collection) to calculate a total cost per pupil.

(1) The Budgetary Cost per Pupil that represents comparisons with districts of similar budget type. The components that comprise the budgetary cost per pupil are as follows: classroom instructional costs; support services (attendance and social work, health services, guidance office, child study team, library and other educational media); administrative costs (general administration, school administration, business administration, and improvement of instruction); operations/maintenance of plant; food services, and extracurricular costs. The total of these expenditures is divided by the average daily enrollment for a total budgetary cost per pupil.

(2) Second is the Total Cost Per Pupil which, in addition to all of the costs listed above for the budgetary cost, includes costs for tuition expenditures and payments to preschool providers; transportation; other current expenses (lease purchase interest, residential costs, and judgments against schools); equipment; facilities/acquisition; and restricted expenses less nonpublic services and adult schools. The total of these expenditures is divided by the average daily enrollment, combined with all students sent out of the district as reported on the ASSA (annual state aid collection) to calculate a total cost per pupil.

(2)TOTAL COST PER PUPIL	\$19,042	\$17,455	\$20,229	\$17,885	\$19,921	\$17,322

(1) The Budgetary Cost per Pupil that represents comparisons with districts of similar budget type. The components that comprise the budgetary cost per pupil are as follows: classroom instructional costs; support services (attendance and social work, health services, guidance office, child study team, library and other educational media); administrative costs (general administration, school administration, business administration, and improvement of instruction); operations/maintenance of plant; food services, and extracurricular costs. The total of these expenditures is divided by the average daily enrollment for a total budgetary cost per pupil.

(2) Second is the Total Cost Per Pupil which, in addition to all of the costs listed above for the budgetary cost, includes costs for tuition expenditures and payments to preschool providers; transportation; other current expenses (lease purchase interest, residential costs, and judgments against schools); equipment; facilities/acquisition; and restricted expenses less nonpublic services and adult schools. The total of these expenditures is divided by the average daily enrollment, combined with all students sent out of the district as reported on the ASSA (annual state aid collection) to calculate a total cost per pupil.

(1) The Budgetary Cost per Pupil that represents comparisons with districts of similar budget type. The components that comprise the budgetary cost per pupil are as follows: classroom instructional costs; support services (attendance and social work, health services, guidance office, child study team, library and other educational media); administrative costs (general administration, school administration, business administration, and improvement of instruction); operations/maintenance of plant; food services, and extracurricular costs. The total of these expenditures is divided by the average daily enrollment for a total budgetary cost per pupil.

(2) Second is the Total Cost Per Pupil which, in addition to all of the costs listed above for the budgetary cost, includes costs for tuition expenditures and payments to preschool providers; transportation; other current expenses (lease purchase interest, residential costs, and judgments against schools); equipment; facilities/acquisition; and restricted expenses less nonpublic services and adult schools. The total of these expenditures is divided by the average daily enrollment, combined with all students sent out of the district as reported on the ASSA (annual state aid collection) to calculate a total cost per pupil.

(1) The Budgetary Cost per Pupil that represents comparisons with districts of similar budget type. The components that comprise the budgetary cost per pupil are as follows: classroom instructional costs; support services (attendance and social work, health services, guidance office, child study team, library and other educational media); administrative costs (general administration, school administration, business administration, and improvement of instruction); operations/maintenance of plant; food services, and extracurricular costs. The total of these expenditures is divided by the average daily enrollment for a total budgetary cost per pupil.

(2) Second is the Total Cost Per Pupil which, in addition to all of the costs listed above for the budgetary cost, includes costs for tuition expenditures and payments to preschool providers; transportation; other current expenses (lease purchase interest, residential costs, and judgments against schools); equipment; facilities/acquisition; and restricted expenses less nonpublic services and adult schools. The total of these expenditures is divided by the average daily enrollment, combined with all students sent out of the district as reported on the ASSA (annual state aid collection) to calculate a total cost per pupil.

(1) The Budgetary Cost per Pupil that represents comparisons with districts of similar budget type. The components that comprise the budgetary cost per pupil are as follows: classroom instructional costs; support services (attendance and social work, health services, guidance office, child study team, library and other educational media); administrative costs (general administration, school administration, business administration, and improvement of instruction); operations/maintenance of plant; food services, and extracurricular costs. The total of these expenditures is divided by the average daily enrollment for a total budgetary cost per pupil.

(2) Second is the Total Cost Per Pupil which, in addition to all of the costs listed above for the budgetary cost, includes costs for tuition expenditures and payments to preschool providers; transportation; other current expenses (lease purchase interest, residential costs, and judgments against schools); equipment; facilities/acquisition; and restricted expenses less nonpublic services and adult schools. The total of these expenditures is divided by the average daily

enrollment, combined with all students sent out of the district as reported on the ASSA (annual state aid collection) to calculate a total cost per pupil.

(1) The Budgetary Cost per Pupil that represents comparisons with districts of similar budget type. The components that comprise the budgetary cost per pupil are as follows: classroom instructional costs; support services (attendance and social work, health services, guidance office, child study team, library and other educational media); administrative costs (general administration, school administration, business administration, and improvement of instruction); operations/maintenance of plant; food services, and extracurricular costs. The total of these expenditures is divided by the average daily enrollment for a total budgetary cost per pupil.

(2) Second is the Total Cost Per Pupil which, in addition to all of the costs listed above for the budgetary cost, includes costs for tuition expenditures and payments to preschool providers; transportation; other current expenses (lease purchase interest, residential costs, and judgments against schools); equipment; facilities/acquisition; and restricted expenses less nonpublic services and adult schools. The total of these expenditures is divided by the average daily enrollment, combined with all students sent out of the district as reported on the ASSA (annual state aid collection) to calculate a total cost per pupil.

(1) The Budgetary Cost per Pupil that represents comparisons with districts of similar budget type. The components that comprise the budgetary cost per pupil are as follows: classroom instructional costs; support services (attendance and social work, health services, guidance office, child study team, library and other educational media); administrative costs (general administration, school administration, business administration, and improvement of instruction); operations/maintenance of plant; food services, and extracurricular costs. The total of these expenditures is divided by the average daily enrollment for a total budgetary cost per pupil.

(2) Second is the Total Cost Per Pupil which, in addition to all of the costs listed above for the budgetary cost, includes costs for tuition expenditures and payments to preschool providers; transportation; other current expenses (lease purchase interest, residential costs, and judgments against schools); equipment; facilities/acquisition; and restricted expenses less nonpublic services and adult schools. The total of these expenditures is divided by the average daily enrollment, combined with all students sent out of the district as reported on the ASSA (annual state aid collection) to calculate a total cost per pupil.

(2)TOTAL COST PER PUPIL	\$19,042	\$17,455	\$20,229	\$17,885	\$19,921	\$17,322

(1) The Budgetary Cost per Pupil that represents comparisons with districts of similar budget type. The components that comprise the budgetary cost per pupil are as follows: classroom instructional costs; support services (attendance and social work, health services, guidance office, child study team, library and other educational media); administrative costs (general administration, school administration, business administration, and improvement of instruction); operations/maintenance of plant; food services, and extracurricular costs. The total of these expenditures is divided by the average daily enrollment for a total budgetary cost per pupil.

(2) Second is the Total Cost Per Pupil which, in addition to all of the costs listed above for the budgetary cost, includes costs for tuition expenditures and payments to preschool providers; transportation; other current expenses (lease purchase interest, residential costs, and judgments against schools); equipment; facilities/acquisition; and restricted expenses less nonpublic services and adult schools. The total of these expenditures is divided by the average daily

enrollment, combined with all students sent out of the district as reported on the ASSA (annual state aid collection) to calculate a total cost per pupil.

(1) The Budgetary Cost per Pupil that represents comparisons with districts of similar budget type. The components that comprise the budgetary cost per pupil are as follows: classroom instructional costs; support services (attendance and social work, health services, guidance office, child study team, library and other educational media); administrative costs (general administration, school administration, business administration, and improvement of instruction); operations/maintenance of plant; food services, and extracurricular costs. The total of these expenditures is divided by the average daily enrollment for a total budgetary cost per pupil.

(2) Second is the Total Cost Per Pupil which, in addition to all of the costs listed above for the budgetary cost, includes costs for tuition expenditures and payments to preschool providers; transportation; other current expenses (lease purchase interest, residential costs, and judgments against schools); equipment; facilities/acquisition; and restricted expenses less nonpublic services and adult schools. The total of these expenditures is divided by the average daily enrollment, combined with all students sent out of the district as reported on the ASSA (annual state aid collection) to calculate a total cost per pupil.

(1) The Budgetary Cost per Pupil that represents comparisons with districts of similar budget type. The components that comprise the budgetary cost per pupil are as follows: classroom instructional costs; support services (attendance and social work, health services, guidance office, child study team, library and other educational media); administrative costs (general administration, school administration, business administration, and improvement of instruction); operations/maintenance of plant; food services, and extracurricular costs. The total of these expenditures is divided by the average daily enrollment for a total budgetary cost per pupil.

(2) Second is the Total Cost Per Pupil which, in addition to all of the costs listed above for the budgetary cost, includes costs for tuition expenditures and payments to preschool providers; transportation; other current expenses (lease purchase interest, residential costs, and judgments against schools); equipment; facilities/acquisition; and restricted expenses less nonpublic services and adult schools. The total of these expenditures is divided by the average daily enrollment, combined with all students sent out of the district as reported on the ASSA (annual state aid collection) to calculate a total cost per pupil.

(1) The Budgetary Cost per Pupil that represents comparisons with districts of similar budget type. The components that comprise the budgetary cost per pupil are as follows: classroom instructional costs; support services (attendance and social work, health services, guidance office, child study team, library and other educational media); administrative costs (general administration, school administration, business administration, and improvement of instruction); operations/maintenance of plant; food services, and extracurricular costs. The total of these expenditures is divided by the average daily enrollment for a total budgetary cost per pupil.

(2) Second is the Total Cost Per Pupil which, in addition to all of the costs listed above for the budgetary cost, includes costs for tuition expenditures and payments to preschool providers; transportation; other current expenses (lease purchase interest, residential costs, and judgments against schools); equipment; facilities/acquisition; and restricted expenses less nonpublic services and adult schools. The total of these expenditures is divided by the average daily enrollment, combined with all students sent out of the district as reported on the ASSA (annual state aid collection) to calculate a total cost per pupil.

(1) The Budgetary Cost per Pupil that represents comparisons with districts of similar budget type. The components that comprise the budgetary cost per pupil are as follows: classroom instructional costs; support services (attendance and social work, health services, guidance office, child study team, library and other educational media); administrative costs (general administration, school administration, business administration, and improvement of instruction); operations/maintenance of plant; food services, and extracurricular costs. The total of these expenditures is divided by the average daily enrollment for a total budgetary cost per pupil.

(2) Second is the Total Cost Per Pupil which, in addition to all of the costs listed above for the budgetary cost, includes costs for tuition expenditures and payments to preschool providers; transportation; other current expenses (lease purchase interest, residential costs, and judgments against schools); equipment; facilities/acquisition; and restricted expenses less nonpublic services and adult schools. The total of these expenditures is divided by the average daily enrollment, combined with all students sent out of the district as reported on the ASSA (annual state aid collection) to calculate a total cost per pupil.

(1) The Budgetary Cost per Pupil that represents comparisons with districts of similar budget type. The components that comprise the budgetary cost per pupil are as follows: classroom instructional costs; support services (attendance and social work, health services, guidance office, child study team, library and other educational media); administrative costs (general administration, school administration, business administration, and improvement of instruction); operations/maintenance of plant; food services, and extracurricular costs. The total of these expenditures is divided by the average daily enrollment for a total budgetary cost per pupil.

(2) Second is the Total Cost Per Pupil which, in addition to all of the costs listed above for the budgetary cost, includes costs for tuition expenditures and payments to preschool providers; transportation; other current expenses (lease purchase interest, residential costs, and judgments against schools); equipment; facilities/acquisition; and restricted expenses less nonpublic services and adult schools. The total of these expenditures is divided by the average daily enrollment, combined with all students sent out of the district as reported on the ASSA (annual state aid collection) to calculate a total cost per pupil.

(1) The Budgetary Cost per Pupil that represents comparisons with districts of similar budget type. The components that comprise the budgetary cost per pupil are as follows: classroom instructional costs; support services (attendance and social work, health services, guidance office, child study team, library and other educational media); administrative costs (general administration, school administration, business administration, and improvement of instruction); operations/maintenance of plant; food services, and extracurricular costs. The total of these expenditures is divided by the average daily enrollment for a total budgetary cost per pupil.

(2) Second is the Total Cost Per Pupil which, in addition to all of the costs listed above for the budgetary cost, includes costs for tuition expenditures and payments to preschool providers; transportation; other current expenses (lease purchase interest, residential costs, and judgments against schools); equipment; facilities/acquisition; and restricted expenses less nonpublic services and adult schools. The total of these expenditures is divided by the average daily enrollment, combined with all students sent out of the district as reported on the ASSA (annual state aid collection) to calculate a total cost per pupil.

(1) The Budgetary Cost per Pupil that represents comparisons with districts of similar budget type. The components that comprise the budgetary cost per pupil are as follows: classroom instructional costs; support services (attendance and social work, health services, guidance office, child study team, library and other educational media); administrative costs (general administration, school administration, business administration, and improvement of instruction); operations/maintenance of plant; food services, and extracurricular costs. The total of these expenditures is divided by the average daily enrollment for a total budgetary cost per pupil.

(2) Second is the Total Cost Per Pupil which, in addition to all of the costs listed above for the budgetary cost, includes costs for tuition expenditures and payments to preschool providers; transportation; other current expenses (lease purchase interest, residential costs, and judgments against schools); equipment; facilities/acquisition; and restricted expenses less nonpublic services and adult schools. The total of these expenditures is divided by the average daily enrollment, combined with all students sent out of the district as reported on the ASSA (annual state aid collection) to calculate a total cost per pupil.

(1) The Budgetary Cost per Pupil that represents comparisons with districts of similar budget type. The components that comprise the budgetary cost per pupil are as follows: classroom instructional costs; support services (attendance and social work, health services, guidance office, child study team, library and other educational media); administrative costs (general administration, school administration, business administration, and improvement of instruction); operations/maintenance of plant; food services, and extracurricular costs. The total of these expenditures is divided by the average daily enrollment for a total budgetary cost per pupil.

(2) Second is the Total Cost Per Pupil which, in addition to all of the costs listed above for the budgetary cost, includes costs for tuition expenditures and payments to preschool providers; transportation; other current expenses (lease purchase interest, residential costs, and judgments against schools); equipment; facilities/acquisition; and restricted expenses less nonpublic services and adult schools. The total of these expenditures is divided by the average daily enrollment, combined with all students sent out of the district as reported on the ASSA (annual state aid collection) to calculate a total cost per pupil.

(1) The Budgetary Cost per Pupil that represents comparisons with districts of similar budget type. The components that comprise the budgetary cost per pupil are as follows: classroom instructional costs; support services (attendance and social work, health services, guidance office, child study team, library and other educational media); administrative costs (general administration, school administration, business administration, and improvement of instruction); operations/maintenance of plant; food services, and extracurricular costs. The total of these expenditures is divided by the average daily enrollment for a total budgetary cost per pupil.

(2) Second is the Total Cost Per Pupil which, in addition to all of the costs listed above for the budgetary cost, includes costs for tuition expenditures and payments to preschool providers; transportation; other current expenses (lease purchase interest, residential costs, and judgments against schools); equipment; facilities/acquisition; and restricted expenses less nonpublic services and adult schools. The total of these expenditures is divided by the average daily

enrollment, combined with all students sent out of the district as reported on the ASSA (annual state aid collection) to calculate a total cost per pupil.

(1) The Budgetary Cost per Pupil that represents comparisons with districts of similar budget type. The components that comprise the budgetary cost per pupil are as follows: classroom instructional costs; support services (attendance and social work, health services, guidance office, child study team, library and other educational media); administrative costs (general administration, school administration, business administration, and improvement of instruction); operations/maintenance of plant; food services, and extracurricular costs. The total of these expenditures is divided by the average daily enrollment for a total budgetary cost per pupil.

(2) Second is the Total Cost Per Pupil which, in addition to all of the costs listed above for the budgetary cost, includes costs for tuition expenditures and payments to preschool providers; transportation; other current expenses (lease purchase interest, residential costs, and judgments against schools); equipment; facilities/acquisition; and restricted expenses less nonpublic services and adult schools. The total of these expenditures is divided by the average daily enrollment, combined with all students sent out of the district as reported on the ASSA (annual state aid collection) to calculate a total cost per pupil.

(1) The Budgetary Cost per Pupil that represents comparisons with districts of similar budget type. The components that comprise the budgetary cost per pupil are as follows: classroom instructional costs; support services (attendance and social work, health services, guidance office, child study team, library and other educational media); administrative costs (general administration, school administration, business administration, and improvement of instruction); operations/maintenance of plant; food services, and extracurricular costs. The total of these expenditures is divided by the average daily enrollment for a total budgetary cost per pupil.

(2) Second is the Total Cost Per Pupil which, in addition to all of the costs listed above for the budgetary cost, includes costs for tuition expenditures and payments to preschool providers; transportation; other current expenses (lease purchase interest, residential costs, and judgments against schools); equipment; facilities/acquisition; and restricted expenses less nonpublic services and adult schools. The total of these expenditures is divided by the average daily enrollment, combined with all students sent out of the district as reported on the ASSA (annual state aid collection) to calculate a total cost per pupil.

(1) The Budgetary Cost per Pupil that represents comparisons with districts of similar budget type. The components that comprise the budgetary cost per pupil are as follows: classroom instructional costs; support services (attendance and social work, health services, guidance office, child study team, library and other educational media); administrative costs (general administration, school administration, business administration, and improvement of instruction); operations/maintenance of plant; food services, and extracurricular costs. The total of these expenditures is divided by the average daily enrollment for a total budgetary cost per pupil.

(2) Second is the Total Cost Per Pupil which, in addition to all of the costs listed above for the budgetary cost, includes costs for tuition expenditures and payments to preschool providers; transportation; other current expenses (lease purchase interest, residential costs, and judgments against schools); equipment; facilities/acquisition; and restricted expenses less nonpublic services and adult schools. The total of these expenditures is divided by the average daily enrollment, combined with all students sent out of the district as reported on the ASSA (annual state aid collection) to calculate a total cost per pupil.

(1) The Budgetary Cost per Pupil that represents comparisons with districts of similar budget type. The components that comprise the budgetary cost per pupil are as follows: classroom instructional costs; support services (attendance and social work, health services, guidance office, child study team, library and other educational media); administrative costs (general administration, school administration, business administration, and improvement of instruction); operations/maintenance of plant; food services, and extracurricular costs. The total of these expenditures is divided by the average daily enrollment for a total budgetary cost per pupil.

(2) Second is the Total Cost Per Pupil which, in addition to all of the costs listed above for the budgetary cost, includes costs for tuition expenditures and payments to preschool providers; transportation; other current expenses (lease purchase interest, residential costs, and judgments against schools); equipment; facilities/acquisition; and restricted expenses less nonpublic services and adult schools. The total of these expenditures is divided by the average daily enrollment, combined with all students sent out of the district as reported on the ASSA (annual state aid collection) to calculate a total cost per pupil.

(1) The Budgetary Cost per Pupil that represents comparisons with districts of similar budget type. The components that comprise the budgetary cost per pupil are as follows: classroom instructional costs; support services (attendance and social work, health services, guidance office, child study team, library and other educational media); administrative costs (general administration, school administration, business administration, and improvement of instruction); operations/maintenance of plant; food services, and extracurricular costs. The total of these expenditures is divided by the average daily enrollment for a total budgetary cost per pupil.

(2) Second is the Total Cost Per Pupil which, in addition to all of the costs listed above for the budgetary cost, includes costs for tuition expenditures and payments to preschool providers; transportation; other current expenses (lease purchase interest, residential costs, and judgments against schools); equipment; facilities/acquisition; and restricted expenses less nonpublic services and adult schools. The total of these expenditures is divided by the average daily enrollment, combined with all students sent out of the district as reported on the ASSA (annual state aid collection) to calculate a total cost per pupil.

(1) The Budgetary Cost per Pupil that represents comparisons with districts of similar budget type. The components that comprise the budgetary cost per pupil are as follows: classroom instructional costs; support services (attendance and social work, health services, guidance office, child study team, library and other educational media); administrative costs (general administration, school administration, business administration, and improvement of instruction); operations/maintenance of plant; food services, and extracurricular costs. The total of these expenditures is divided by the average daily enrollment for a total budgetary cost per pupil.

(2) Second is the Total Cost Per Pupil which, in addition to all of the costs listed above for the budgetary cost, includes costs for tuition expenditures and payments to preschool providers; transportation; other current expenses (lease purchase interest, residential costs, and judgments against schools); equipment; facilities/acquisition; and restricted expenses less nonpublic services and adult schools. The total of these expenditures is divided by the average daily enrollment, combined with all students sent out of the district as reported on the ASSA (annual state aid collection) to calculate a total cost per pupil.

(1) The Budgetary Cost per Pupil that represents comparisons with districts of similar budget type. The components that comprise the budgetary cost per pupil are as follows: classroom instructional costs; support services (attendance and social work, health services, guidance office, child study team, library and other educational media); administrative costs (general administration, school administration, business administration, and improvement of instruction); operations/maintenance of plant; food services, and extracurricular costs. The total of these expenditures is divided by the average daily enrollment for a total budgetary cost per pupil.

(2) Second is the Total Cost Per Pupil which, in addition to all of the costs listed above for the budgetary cost, includes costs for tuition expenditures and payments to preschool providers; transportation; other current expenses (lease purchase interest, residential costs, and judgments against schools); equipment; facilities/acquisition; and restricted expenses less nonpublic services and adult schools. The total of these expenditures is divided by the average daily

enrollment, combined with all students sent out of the district as reported on the ASSA (annual state aid collection) to calculate a total cost per pupil.

(1) The Budgetary Cost per Pupil that represents comparisons with districts of similar budget type. The components that comprise the budgetary cost per pupil are as follows: classroom instructional costs; support services (attendance and social work, health services, guidance office, child study team, library and other educational media); administrative costs (general administration, school administration, business administration, and improvement of instruction); operations/maintenance of plant; food services, and extracurricular costs. The total of these expenditures is divided by the average daily enrollment for a total budgetary cost per pupil.

(2) Second is the Total Cost Per Pupil which, in addition to all of the costs listed above for the budgetary cost, includes costs for tuition expenditures and payments to preschool providers; transportation; other current expenses (lease purchase interest, residential costs, and judgments against schools); equipment; facilities/acquisition; and restricted expenses less nonpublic services and adult schools. The total of these expenditures is divided by the average daily enrollment, combined with all students sent out of the district as reported on the ASSA (annual state aid collection) to calculate a total cost per pupil.

(1) The Budgetary Cost per Pupil that represents comparisons with districts of similar budget type. The components that comprise the budgetary cost per pupil are as follows: classroom instructional costs; support services (attendance and social work, health services, guidance office, child study team, library and other educational media); administrative costs (general administration, school administration, business administration, and improvement of instruction); operations/maintenance of plant; food services, and extracurricular costs. The total of these expenditures is divided by the average daily enrollment for a total budgetary cost per pupil.

(2) Second is the Total Cost Per Pupil which, in addition to all of the costs listed above for the budgetary cost, includes costs for tuition expenditures and payments to preschool providers; transportation; other current expenses (lease purchase interest, residential costs, and judgments against schools); equipment; facilities/acquisition; and restricted expenses less nonpublic services and adult schools. The total of these expenditures is divided by the average daily

enrollment, combined with all students sent out of the district as reported on the ASSA (annual state aid collection) to calculate a total cost per pupil.
