SUBCHAPTER 1. GENERAL PROVISIONS

10:15-1.1 Purpose and scope

(a) The purpose of this manual is to set forth the policies and procedures on a Statewide basis for the efficient and equitable provisions of child care services, through the supervision of the New Jersey Department of Human Services (DHS). The Department has been designated the lead State agency responsible for the development and implementation of a Statewide comprehensive child care system that supports the needs of eligible families in the State as a priority initiative of the Governor. Eventually, child care resources available in the State will be accessed through this single comprehensive system.

(b) The child care service programs, described herein, were made available originally through block grant monies of the Omnibus Budget Reconciliation Act (OBRA) of 1990, Public Law 101-508. The block grant child care service programs are: The Aid to Families with Dependent Children (AFDC) At-Risk Child Care (ARCC) Program as implemented originally by Section 5081 of OBRA 1990; and the Child Care and Development Block Grant (CCDBG) Act of 1990 as implemented originally by Section 5082 of OBRA 1990. Through the original and subsequent allocations, funds are offered by the Administration of Children and Families (ACF), U.S. Department of Health and Human Services, to states with approved State Plans to increase the availability, affordability, and quality of child care.

(c) The AFDC At-Risk Program (also known as IV-A At-Risk Program) and the CCDBG eligibility requirements, specific for each of those funding streams, are described at N.J.A.C. 15B-1 and 10:15B-2 respectively. DHS shall operate these child care service programs through the coordination efforts of its Divisions of Youth and Family Services (DYFS) and Family Development (DFD), as described in rules set forth at N.J.A.C. 10:81 and 10:82. The policy provisions and terms in this chapter are general provisions which are applicable throughout all chapters N.J.A.C. 10:15A, 10:15B and 10:15C on child care services through the Department of Human Services.

1. The policies and procedures set forth in this manual are binding on those agencies contracting with the Department to provide services through these child care programs, and are enforceable through the Divisions of the Department that are jointly responsible for overseeing the programs, the Divisions of Youth and Family Services and Family Development. Questions of interpretation shall be resolved by the aforementioned Divisions.

2. The child care programs shall be administered within the framework of Federal and State law and regulations. Requirements, other than those established pursuant to Federal and State law and these regulations, shall

not be imposed as a condition of receiving child care services.

(d) New Jersey has the opportunity to expand, improve and develop child care services for the families of this State. A primary objective of the New Jersey Department of Human Services (NJ DHS) is to offer families comprehensive child care services that will enable them to secure or maintain employment and thus become self-sufficient from public assistance benefit programs. Additionally, both the IV-A "At-Risk" and the CCDBG programs emphasize the availability of child care services for families under DYFS' Child Protective Services (CPS) supervision. For families serving as substitute care settings for protective services children (foster care) identified by DYFS, the CCDBG program emphasizes the availability of child care services. Such families must satisfy the eligibility criteria for those programs. Based on its extensive experience in child care and early education programs, the Department of Human Services sets forth the following principles for a comprehensive delivery system of child care services in the State.

1. New Jersey supports programs that encourage family stability and self-sufficiency. As such, the Department supports child care services addressing the needs and concerns of working families, employers and government.

2. The Department believes that consumers of child care should have the maximum choice possible among types of child care options available (including center-based care, family child care, in-home care, and care by relatives) under contracts between providers and the DHS for the provision of child care services, or through the child care certificate process.

3. The Department encourages the development of diverse types of child care by type of sponsorship (employers, public schools, religious institutions, community organizations, and recreation programs), and by types of corporate status (both for profit and non-profit).

4. The Department believes that mechanisms should exist for improving child care program quality, including, but not limited to, supports for the improvement of curriculum development and administration, a comprehensive training initiative for child care staff members, and monies for building repairs to child care sites.

5. The Department believes that child care should be provided in settings that meet basic health and life/safety guidelines. To this end, the Department authorizes payments for child care in programs in compliance with laws, and regulations pertaining to health and life/safety.

6. The Department incorporates into its ongoing child care planning process recommendations received from interdepartmental agencies of the State; child care organizations within the State, including, but not limited to, the New Jersey Child Care Advisory Council; the human services community; the State Human Services Advisory Council; units of local government; child care resource and referral agencies; providers of child care services; employers; and the general public. That input is used by the Department to support local child care needs.

7. The Department supports unlimited access by parents to their children and to the providers caring for their children during the normal hours of operations, or whenever such children are in the care of such providers.

8. The Department believes that an informed consumer of child care services is that individual who has available to him or her information on child care concerns, such as licensing and regulatory requirements, compliant procedures, and policies and practices relative to child care services available in the State. The Department shall make available consumer materials for that purpose.

9. The Department ensures that child care service programs shall be established in the respective counties of the State in accordance with Federal provisions as agreed upon in State Plan submittals to the Federal ACF on specific Federally-funded programs. DHS shall ensure compliance of the designated agencies within State Plan provisions. The State Plan(s) shall be updated by DHS routinely, as changes are made to program requirements by Federal and/or State government.

10. The Department, to the best of its ability within annual State Legislative appropriations, shall ensure that payment rates for services through the child care service programs are sufficient to ensure equal access for eligible children under these subsidized programs to comparable child care services in the State that are provided to children whose parents are not eligible to receive assistance under these programs.

11. The Department promotes the development of employer-supported child care. DYFS provides technical assistance and consultation services to public/private/volunteer advocacy organizations seeking to promote employer-supported child care services throughout the State.

(e) Nothing in these rules shall be construed as conferring on a parent/applicant receiving child care services an entitlement to those services. If the fiscal or other resources necessary for child care service provision to a parent/applicant are unavailable, that individual shall not be deemed to have a right to such services and the individual and the county designated agency shall be released from all obligations for those services under these rules.

(f) Financial assistance provided through the Department's child care service programs shall not be authorized when, during the same period, such needs are actually being provided by any other source, including child care resources under the various funding streams through the Department sponsored programs described at N.J.A.C. 10:81-14 and 10:82.

(g) Each county shall coordinate child care service programs with units of local government; existing child care resource and referral agencies; with early childhood education programs in the county, including Head Start programs; preschool programs funded under Chapter 1 of the Education Consolidation and Improvement Act of 1981 (Public Law 97-35); school and nonprofit child care programs (including community-based organizations receiving funds designated for preschool programs for disabled children); with organizations sponsoring before-and-after school activities; with the REACH/JOBS/FDP program; DYFS contracted centers; private providers; sectarian providers; and with Federal and/or State demonstration programs, such as the Goodstarts program, the REACH/JOBS Capital Expansion Program, and the Mini-Child Care Center program.
