DIVISION OF DAIRY INDUSTRY

Proposed Rules Requiring License Applicants To Supply Information to the Director

Woodson W. Moffett Jr., Director of the Division of Dairy Industry in the Department of Agriculture, pursuant to authority of N.J.S.A. 4:12A-7, 4:12A-20, 4:12A-21, 4:12A-28, 4:12A-33 and 4:12A-35, proposes to adopt new rules requiring license applicants to supply certain information to the Director.

Full text of the proposed rules follows:

SUBCHAPTER 5. INFORMATION REQUIRED FROM APPLICANTS PREAMBLE

As a result of the abolition of wholesale price regulation of fluid milk and fluid milk products in September, 1972 to maximize competition in New Jersey, the Division is concerned about assuring orderly distribution of milk at the wholesale and other levels. The producer and the consumer in New Jersey will benefit directly from a proper balance between an orderly processing and distribution system and competition.

The experience in this State in 1962, and the experience of other states which have discarded price regulation at some levels, indicates that conditions are likely to arise which could lead to destructive and demoralizing practices injurious to the distribution system of fluid milk and fluid milk products from unrestrained competition at the whole-

sale level unless some additional information is received and non-price regulation adopted.

To this end the Director, Division of Dairy Industry, proposes to adopt a series of regulations providing for closer scrutiny of license applicants and determination that the marketing areas in the State are properly served; providing for fixing of prices to customers; and prohibiting unjustified price discrimination between customers of a processor or dealer.

This regulation, the first of the series, is proposed to be adopted pursuant to the provisions of L. 1941, c. 274, p. 713 and particularly the preamble thereto; N.J.S.A. 4:12A-7, 4:12A-20, 4:12A-21, 4:12A-28, 4:12A-33 and 4:12A-35.

2:52-5.1 License applicants to supply information to Director

(a) All milk dealers, processors and/or subdealers presently holding licenses issued by the Director, or whose applications are pending, shall, on or before January 30, 1973, submit to the Director in writing the following information:

1. A statement of the applicant's or the licensee's experience in the processing, handling and selling of milk and/or milk products;

2. Audited financial statements for the two fiscal years immediately preceding January 1, 1973;

3. A statement of all administrative proceedings or court proceedings involving the applicant or the licensee or any officer, director or partner of said applicant or licensee, resulting in fines, penalties or convictions for violations of any laws pertaining to milk or milk products of any state or political subdivision thereof for the past two years, identified by docket number;

4. A statement of any proceedings involving the applicant or licensee relating to alleged violation of Federal anti-trust laws, or the anti-trust laws of any state, together with a statement of the final result of each such proceeding, during the past two years;

5. A statement as to the marketing area within New Jersey where licensee or applicant is actually engaged in business as a milk dealer, processor or subdealer. For purposes of this paragraph, the words "actually engaged" are defined as the handling, processing, distributing or selling of packaged milk and milk products at wholesale or on home-delivery routes within the period from July 1, 1972, through December 31, 1972. The marketing area shall be as defined in Regulation H-7 of the Division of Dairy Industry.

(b) In the event that the statements referred to in paragraph 1 are not filed on or before January 30, 1973, the failure to so file will be considered a violation of this regulation and subject the licensee to suspension or revocation of his license as provided by the Milk Control Act.

(c) Amended licenses shall be issued to licensees actually engaged in business as defined in paragraph 5. of subsection (a) of this Section and who submit the statements required by subsection (a) of this Section, limited to marketing area(s) set forth in answer to paragraph 5. of subsection (a) of this Section. In the event that a licensee wishes to be engaged in the business as a handler, processor, distributor or subdealer of packaged milk after January 30, 1973, in a marketing area other than those set forth in answer to paragraph 5. of subsection (a) of this Section, such licensee must submit an application for an amended license, stating in such application the new or additional marketing area in which he desires to do business. Any sales in a new or additional marketing area prior to the issuance of the amended license shall be a violation of this regulation.

(d) The information required in subsection (a) of this Section shall be made a part of the application for license,

or license renewal, for applications pending on the effective date of this regulation, and applicants not actually engaged in business as defined in paragraph 5. of subsection (a) of this Section shall not make any sales in the marketing area covered by his application until after his license is issued.

(e) From the date of this regulation, all applicants for new licenses as milk dealers, processors or subdealers must submit to the Director the information set forth in paragraph (a) above. Applications for license renewals shall include the information since the last report as required in paragraphs 2, 3, 4 and 5 of subsection (a) of this Section.

(f) No license or amended license shall be issued or renewed if, after hearing, the Director is satisfied that any one or more of the 12 conditions set forth in N.J.S.A. 4:12A-35 will exist in the marketing area or areas covered by the license.

Interested persons may present statements or arguments in writing, orally in person or by telephone relevant to the proposed action on or before January 24, 1973 to:

SWEET POTATO COMMISSION

Results of Referendum

Notice is hereby given that Secretary of Agriculture Phillip Alampi has conducted the New Jersey Sweet Potato Commission Referendum, October 1972, pursuant to the authority delegated in N.J.S.A. 54:47E-17.

The referendum presented the following questions to each sweet potato grower of record:

I am growing acres of sweet potatoes for market in 1972.

I am not growing sweet potatoes this year—1972.

I favor continuation of the Sweet Potato Promotion and Assessment Act.

I oppose continuation of the Sweet Potato Promotion and Assessment Act.

The results of the referendum were as follows:

Continuance of the New Jersey Sweet Potato Industry Commission for another three years was approved by producers of the commodity (pursuant to N.J.S.A. 54:47E-17) by 78 per cent of the growers producing 35.93 per cent of the 1972 crop. An affirmative vote of 65 per cent of the growers producing 51 per cent of the 1972 crop or 51 per cent of the growers producing 65 per cent of the 1972 crop was required.

The Sweet Potato Commission was established in September, 1966 by State law which provided that a referendum on its continuance must be held every three years. The Commission conducts programs of marketing, grad-

ing, promotion, advertising and research for the benefit of the New Jersey sweet potato industry. The programs are supported by a two-cent-per-bushel tax on all sweet potatoes produced in the State, paid by the growers and collected by sweet potato distributors and processors.

Membership of the Commission is composed of 11 growers and two ex-officio members, the Secretary of Agriculture and the dean of Rutgers College of Agriculture and Environmental Science. The Commission's manager is a member of the staff of the New Jersey Department of Agriculture.

All parties who were eligible to vote will be notified individually of the results of the referendum and through publication in local newspapers. Likewise, the results of the referendum will be included in appropriate New Jersey Department of Agriculture publications, news releases and New Jersey Statutes Annotated, as well as in the annual report to the Governor and the Legislature required under N.J.S.A. 54:47E-14.

Such rules may be cited as N.J.A.C. 5:20-1.1 et seq.

An order adopting these rules was filed and effective December 7, 1972, as R.1972 d.248.

CHAPTER 2. ADMINISTRATIVE POLICIES

SUBCHAPTER 9. TENURE POLICIES IN STATE COLLEGES OF NEW JERSEY

9:2-9.1 Preparation of a ten-year plan

(a) Each college board of trustees shall prepare a ten-year plan for its institution indicating the steps it plans to take to achieve a future balance of faculty in which no more than a reasonable proportion are ultimately tenured.

(b) The purpose of limiting the proportion of tenured faculty on each campus is to retain flexibility to enable the institution to respond to changing educational needs in the future.

(c) The plan established by each board shall include the proportion of tenured faculty projected each year during the ten-year period.

(d) The college trustees shall report their plan to the Board of Higher Education and shall inform the Board each year of the progress being made in achieving their goals.

9:2-9.2 Establishment of internal policies

(a) Each state college board of trustees shall establish internal policies which indicate either that it will impose specific restrictions or more intensive and rigorous review procedures for any reappointment conferring tenure which brings the proportion of individuals in a department (or other major academic sub-unit) or in the college as a whole above its present level.

(b) Reappointments conferring tenure which raise the tenure rate above that level shall be made only as an unusual action when judged by the college board of trustees as being in the best interests of the college.

9:2-9.3 Reappointment

A reappointment conferring tenure may be offered only to faculty members who possess an appropriate terminal degree or its equivalent, except under unusual circumstances when the granting of tenure to an individual not having these qualifications is judged by a college board of trustees as being in the best interests of the institution.

9:2-9.4 Performance during probationary period

Tenure should be awarded only to individuals whose performance during their probationary period gives clear evidence of the ability and willingness to make a significant and continuing contribution to the growth and development of the institution.

9:2-9.5 Positive evidence of excellence

Tenure should be awarded after presentation of positive evidence of excellence in teaching, scholarly achievement, contribution to college and community, and fulfillment of professional responsibilities, and not solely because negative evidence to the contrary is not presented.

9:2-9.6 Evaluation procedures

(a) Each college board of trustees should establish a procedure which the college will employ to regularly evaluate the performance of tenured faculty members.

(b) Such evaluations should occur not less frequently than every five years.

(c) These evaluations, which should include student input, should comprehend such factors as continued teaching competence, professional preparation and attainments which are directly related to teaching or administrative assignments, contributions to campus life beyond formal, assigned instructional activity and significant research, scholarly or community activity.

Proposed Revisions to Special Hospital Manual

Robert L. Clifford, Commissioner of Institutions and Agencies, pursuant to authority of N.J.S.A. 30:4D-1 et seq., proposes to adopt revisions to the Special Hospital Manual concerning classifications on standards for participation and reimbursement.

Such revisions, if adopted, will be included in Chapter 53 of Title 10 of the New Jersey Administrative Code.

Full text of the proposed revisions follows (additions indicated in boldface thus; deletions indicated in brackets [thus]):

200.1 Approved Special Hospital

Because of the wide variances of special hospitals it is necessary to identify these by three classifications. Each hospital will be required to be listed under one of the classifications and must meet the standards as set forth to qualify as a provider.

All special hospitals would be divided into the following three classifications based on standards for participation and reimbursement:

Classification A. (Acute or short-term): May be reimbursed on the basis of reasonable costs if all following criteria are met:

1. Licensed as a special hospital by the State of New Jersey.
2. Accredited by the Joint Commission [of Accredited Hospitals.] on Accreditation of Hospitals as a hospital.
3. Adoption of Approval by Individual Diagnosis (AID) program.
4. Have departmental cost findings and RCCAC cost allocation capabilities to provide facts for rate determination.
5. Signed agreement to participate in the Health Services program.

Classification B. (Rehabilitation [or long term]): May be reimbursed on the basis of reasonable costs if all following criteria are met:

1. Licensed as a special hospital by the State of New Jersey.
2. Accredited by the Joint Commission [of Accredited Hospitals.] on Accreditation of Hospitals as a hospital or rehabilitation facility.
3. Adoption of utilization review as follows:
21-day recertification by attending physician.
Active utilization review committee.
Prior authorization through local medical assistance unit or Medicaid's Bureau of Child Health Services* for each additional 30-day period after the first 21 days, with authorizations to list expiration dates.
Treatment plan required to support authorization request.
Note: See Section 203.4 for procedure on obtaining prior authorization.
*Special Hospitals for children are to submit prior authorization requests to: Chief, Bureau of Child Health Services, Division of Medical Assistance & Health Services, P.O. Box 2486, Trenton, New Jersey 08625.
4. Have departmental cost findings and RCCAC cost allocation capabilities to provide facts for rate determination.

5. Signed agreement to participate in the Health Services program.

Classification C. (Special hospital not qualifying to meet the standards of classification A or B.) [Special hospital in this classification will be reimbursed on negotiated rate as determined by certified cost information furnished by the hospital. However, said per diem rate is limited by the ceiling established for the skilled nursing home.

1. Licensed as a special hospital by the State of New Jersey.

2. Adoption of the AID Program (as in A) or utilization review (as in B) whichever is applicable to service provided.

3. Signed agreement to participate in the Health Services program.]

Special hospitals in this classification approved for participation in the Health Services program must adhere to the skilled nursing home policies and procedures or the classification B special hospital regulations, e.g., prior authorization for each additional 30-day period after the first 21 days. Reimbursement is based upon a negotiated rate as determined by certified cost information furnished by the special hospital and is limited by the ceiling established for skilled nursing homes under the New Jersey Health Services program. The following criteria must be met for all Class C special hospitals:

1. Licensed as a special hospital by the State of New Jersey.

2. Signed agreement to participate in the Health Services program.

3. Prior authorization as follows:

a. For those participating under skilled nursing home procedures:

Prior authorization through the local medical assistance unit for admission and continued care. Exception: Eligible Medicaid recipients admitted from acute care general hospital or Class A special hospital do not require prior authorization for the first 30 days, provided the eligible recipient had been duly admitted as a bed patient in the hospital for three days immediately preceding the admission to the Class C special hospital. Prior authorization is required for payment beyond the 30th day. These facilities will receive the skilled nursing home manual and must adhere to all rules, regulations and procedures stated therein.

b. For those participating under Class B special hospital procedures:

Prior authorization through local medical assistance unit or Medicaid's Bureau of Child Health Services* for each additional 30-day period after the first 21 days, with authorizations to list expiration dates. Hospital must submit treatment plan to support authorization request. (See Section 203.4 for procedure on obtaining prior authorizations.) These facilities will receive the special hospital manual and must adhere to all rules, regulations and procedures stated therein.

*Special hospitals for children are to submit prior authorization requests to: Chief, Bureau of Child Health Services, Division of Medical Assistance & Health Services, P.O. Box 2486, Trenton, New Jersey 08625.

200.2 Special Hospitals Outside the State

Special hospitals outside the State of New Jersey must be licensed by the appropriate agency under the laws of the respective state and must meet the requirements of Number 2 and 3 under Classification A or B or Number [2] 3 under Classification C, whichever is applicable.

Interested persons may present statements or arguments

in writing relevant to the proposed action on or before January 25, 1973 to:

Proposed Revisions to Manual of Administration Concerning Employment and Training

Robert L. Clifford, Commissioner of Institutions and Agencies, pursuant to authority of N.J.S.A. 44:7-6 and 44:10-3, proposes to revise in its entirety Section 2286 of the Division of Public Welfare's Manual of Administration concerning employment and training (ADC).

Such rules, if adopted, will be included in Chapter 81 of Title 10 of the New Jersey Administrative Code.

Full text of the proposed revised Section follows:

2286. Employment and training

The goal of public assistance is to help the client realize his full potential and make use of his own capacities for self-support. Therefore every individual, unless exempt as specified below, shall personally register for manpower services, training and employment.

The county welfare board as agent of the Department of Labor is responsible, through the income maintenance staff, for determining who is required to register and who is exempt. A personal interview with each individual is desirable but not mandatory. However, each registrant must personally sign the registration form (e.g., a mother cannot sign for her 16-year-old child).

When an individual claims exemption under one of the exemption criteria but further verification is necessary (e.g., a medical examination), the individual will be regarded as exempt under that criterion, so that such individual's needs may be included in the ADC payment while the status is being verified. Verification of the exemption shall be made as expeditiously as possible but in no event longer than 60 days.

.1 Individuals not required to register

The following individuals are not required to register:

a. A child who is under age 16 or a child who is age 16 but not yet age 21 who is enrolled or has been accepted for enrollment as a full-time student for the next school term;

b. A person who:

(1) Has an illness or injury verified by a physician which temporarily prevents entry into employment or training. This exemption will not exceed 90 days. Exemptions for "illness" in excess of 90 days should be reviewed for possible determination as "incapacity";

(2) Is incapacitated with a medically determinable physical or mental impairment which, by itself or in conjunction with age, prevents the individual from engaging in employment or training under WIN, and which is expected to exist for a continuous period of at least three months;

- (3) Is of advanced age, 65 years or older;
- c. A person so remote from a work incentive project that his effective participation is precluded;
- d. A person whose presence in the home is required because of illness or incapacity of another member of the household;
- e. A mother or other relative of a child under the age of six who is caring for the child; or
- f. The mother or other female caretaker of a child, if the father or another adult male relative is in the home and not excluded by items a. through e. above, unless he has failed to register as required or has been found to have refused without good cause to participate under a work incentive program or accept employment.

.2 Referral to vocational rehabilitation

Individuals who have been determined to be exempt from registration on the basis of incapacity will be referred to the appropriate State vocational rehabilitation agency.

.3 Voluntary registration

a. A mother or other relative of a child under six who is caring for the child shall be advised of her option to register if she so desires, and of the fact that child care will be provided if needed.

b. Other exempted individuals may volunteer to register.

.4 Failure to register

a. The needs of any individual who fails to register as required shall not be taken into account in determining the need of the family and the amount of assistance.

b. Assistance shall be furnished to the eligible members of the family.

.5 Refusal to participate

a. If and for so long as an individual certified to the WIN program has been determined to have refused without good cause to participate in the Work Incentive Program or to accept a bona fide offer of employment in which he is able to engage, the following sanctions shall apply.

(1) If such individual is a caretaker relative receiving ADC, his needs will not be taken into account in determining the family's need for assistance, and assistance in the form of protective or vendor payments will be provided;

(2) If such an individual is the only dependent child in the family, assistance for the family will be denied; and

(3) If such individual is one of several dependent children in the family, assistance for such child will be denied and his needs will not be taken into account in determining the family's need for assistance.

b. The specified sanctions shall not be applied during the period of 60 days in which an individual is being provided counseling and other services except for a. (1) above.

2286.5 c. If an individual registered on a voluntary basis discontinues participation in the WIN program, he and his family are not subject to the sanctions.

.6 Determination as to bona-fide offer and refusal for good cause

a. In the event the individual who has been certified to the WIN program refuses to accept employment which is offered to him by an employer, whether directly or through the employment service, the determination as to whether the offer is bona-fide or there was good cause to refuse the offer will be made by the Labor Department (after providing opportunity for fair hearing) and will be binding upon the CWB.

b. In the event an individual certified to the manpower agency should need to be referred to CWB as having good cause for not continuing on a training plan or a job, CWB shall promptly restore the assistance payment to the individual or make other necessary payment adjustments.

.7 Fair hearing

Any individuals who are dissatisfied with a determination that they must register may request a fair hearing. The Division of Public Welfare will provide the hearing as an agent of the WIN manpower agency.

Interested persons may present statements or arguments in writing relevant to the proposed action on or before January 24, 1973, to:

Division of Public Welfare

DIVISION OF EMPLOYMENT SECURITY

Proposed Rules On Group Accounts And Payments in Lieu of Contributions

Ronald M. Heymann, Commissioner of Labor and Industry and Acting Director of the Division of Employment Security in the Department of Labor and Industry, pursuant to authority of N.J.S.A. 43:21-7.2(i), proposes to adopt new rules concerning group accounts for employers that have become liable for employment benefit payments in lieu of contributions.

Such rules, if adopted, will be included in the new Chapter 16A of Title 12 of the New Jersey Administrative Code and may be cited as N.J.A.C. 12:16A-11.1.

Full text of the proposed rules follows:

CHAPTER 16A. PAYMENTS IN LIEU OF CONTRIBUTIONS

SUBCHAPTER 11. GROUP ACCOUNT

12:16A-11.1 Establishment

(a) Two or more employers liable for payments in lieu of contributions may apply for the establishment of a group account for the purpose of sharing the risk of unemployment benefit costs.

(b) The group account will be established as of the first day of any calendar quarter and will remain in effect for not less than two calendar years unless otherwise determined by the Director.

(c) The request for establishment of a group account shall be filed by the designated group agent listing the names and New Jersey registration numbers assigned by the Division to the employers seeking group membership. The request shall be accompanied by consent documents executed by each applicant for membership authorizing the group agent to act in their behalf for the group account.

(d) In establishing the group account, the Division may modify or waive the security required of any of the group members and in lieu thereof the Division may establish a security requirement for the group as a whole.

12:16A-11.2 Membership

(a) Participation in a group account is available to any employer for whom the Division has approved an election for payment of benefit costs by reimbursement in lieu of contributions.

(b) Group membership will be terminated for any employer upon the cancellation of his reimbursement payment option by the Director.

(c) Membership in the group will be terminated for any member at the request of that member or at the request of the group agent. The membership will be terminated at the end of the calendar quarter in which the request for termination is received by the Division.

(d) New members may be added to an established group at the request of the group agent. The request for the addition of the new member will require the filing with the Division of a consent document executed by the new applicant for membership authorizing the group agent to act in its behalf for the group account.

(e) No employer may be a member of more than one group at any time.

12:16A-11.3 Liability

(a) The group account will provide risk sharing for its members only with respect to unemployment benefits liability and interest attributable thereto.

(b) Membership in the group will not relieve any member of any liability charged to its account before, during or after its period of membership.

(c) The group will be liable to the Division for payment of reimbursable unemployment benefits charged to its members' accounts during their period of membership in the group; plus the reimbursable unemployment benefits charged to any terminated member through the next two complete calendar quarters following the date of its membership termination.

(d) Amounts received in payment of liability payable through the group account will be applied against the outstanding liability of each group member on the basis of the ratio of its liability to the total liability of the group in each quarterly period, beginning with the outstanding liability in the earliest quarterly period, and in each succeeding quarter in the liability ratio similarly determined for such quarter.

12:16A-11.4 Dissolution

(a) Request for dissolution of a group account will require the consent of two-thirds of its active members. The effective date of dissolution will be determined by the Director. Any liability outstanding at the time of dissolution will be immediately due from each of the members in accordance with the balance of group liability remaining in their accounts.

(b) A group account may be dissolved by the Director for reporting or payment delinquency, failure to post required bond or other security, or for similar good cause.

(c) Except as required herein, the Division is not a party to any agreement between the group and any of its members.

Interested persons may present statements or arguments in writing relevant to the proposed action on or before January 24, 1973, to:

Commissioner of Labor and Industry and
Acting Director of the Division of

STATE TO ADOPT REGULATIONS CONTROLLING CABLE TELEVISION

Gov. William T. Cahill last month signed into law a bill regulating cable television in New Jersey.

Cable television, known as CATV, is a method of piping television programs directly from the station to the homes rather than the alternate method of broadcasting from station antenna to home antenna.

Under Senate Bill 840, sponsored by Sen. Harold C. Hollenbeck (R., Bergen), the State ends an 18-month moratorium on the issuance of cable TV franchises and provides for municipal and state Public Utility Commission approval and supervision.

Commenting on the measure, Governor Cahill stated that CATV has the potential to influence the life style of the average American perhaps more than any currently known technical development because of its 100-channel capacity and its two-way sending and receiving capability.

"It could, over the next 50 years, dramatically affect education, merchandising, government, business, transportation and entertainment. For these reasons, economically sound and technically competent operations are definitely in the public interest," he declared.

The new law provides that a company applying for a CATV franchise must first obtain municipal consent before receiving approval of the P.U.C. The municipality will receive two per cent of the company's annual gross revenues from operations in the municipality and the P.U.C. may tax an additional two per cent to cover the cost of administration.

The law creates an office of cable television under a director in the Public Utilities Commission and also creates an advisory council comprised of six ex-officio members and five public members, appointed by the Governor, to assist the director and the board.

The bill is effective immediately but no franchises may be issued within 120 days from Dec. 15 pending the development of regulations by the P.U.C.

Other provisions of the law include:

- Creation of municipal complaint officers to receive and act on complaints regarding CATV.

- No municipal officer or employee may have an interest in a CATV company applying for municipal consent.

- No CATV may discontinue service without approval of the P.U.C. and there may be no merger or consolidation without P.U.C. approval.

- The P.U.C. may order a company to construct and operate reasonable extensions of its existing system.

- No landlord may prevent a tenant from receiving CATV service.

MINIMUM MILK PRICE INCREASED BY ONE-HALF CENT ON JANUARY 1

Effective New Year's Day, minimum prices for milk sold at stores in New Jersey went to 30½ cents a quart, 56 cents a half-gallon and \$1.06 a gallon, an increase of one-half cent per quart.

In making the announcement, Woodson W. Moffett Jr., Director of the Division of Dairy Industry in the Department of Agriculture, said that prices to dairy farmers had increased each month since the previous minimums went into effect Sept. 18.

The total increase in the farm price since that date, he said, is more than one-half cent per quart, but the bracketing system under State Milk Order 69-1 provided for only a one-half cent increase at this time.

The price increases to dairy farmers, Moffett explained, reflect both increased demand for milk and milk products and the effects of adverse weather conditions. Dairy farmers in the northeast, he said, have been particularly hard hit by the adverse weather which has reduced feed supplies and sharply increased production costs.

AETNA CUTS AUTOMOBILE INSURANCE RATES 19 PER CENT UNDER "NO FAULT"

Aetna Life & Casualty Co. announced a Jan. 1 cut in its insurance rates by an average of 19.1 per cent Statewide for New Jersey motorists.

Aetna, one of the biggest car insurers in New Jersey, said the major part of its cut in rates was in response to the no-fault law now in effect.

A 15 per cent reduction of automobile insurance premiums was mandated under the new law.

The primary aim of the no-fault law is to provide that an insured in an auto accident collects from his own company regardless of which party is at fault.

Aetna said the effect of combined Statewide reduction of its rates would mean an 18.5 per cent decrease in the cost of family insurance policies, the company's most widely-purchased plan, and a 22.5 per cent drop in the cost of its special "good driver" policies.

Aetna Vice President John M. Parsons said, "As one of the first and strongest supporters of no-fault car insurance, Aetna is pleased that New Jersey has elected a system that not only will lower the cost of an essential consumer purchase but will in effect create a bill of rights for the accident victim—guaranteeing him compensation that is both fast and fair."

He said the reduction in rates reflects the company's improved claims experience in its liability and collision coverages.

PUBLIC DEFENDER VAN NESS BACKS CAHILL'S PAROLE BILL

State Public Defender Stanley Van Ness said last month that Gov. William T. Cahill's controversial parole bill would relieve overcrowding in the prisons.

In a Dec. 11 letter to the Senate Committee on Institutions, Health and Welfare, Van Ness said:

"We must confront the reality that overcrowding is a prime cause of institutional unrest. This bill would allow for the alleviation of this problem in a manner consistent with the greater public good."

"It is clear that the central concern of the parole system is the removal from prison of those offenders for

whom successful reintegration and rehabilitation is predicted."

The measure is Senate Bill No. 1122.

Van Ness said under the bill's terms, prisoners who are ready to be returned to society can be, "while prisoners who are not can be provided with those services, made more manageable by a lowered population, that will tend to prepare them for their eventual release."

The parole bill, one of the major elements in Cahill's prison reform program, became stalled in the Senate after New Jersey's prosecutors voiced objection to its passage in its present form.

The New Jersey Prosecutors Association said the bill would not serve as a deterrent to crime.

Under the bill's terms, the State Parole Board would be able to release a prisoner who has served a minimum of six months.

The Board would be required to release a prisoner after he has served either his minimum or one-half of his adjusted maximum sentence (whichever comes first) unless it can show the inmate has not been rehabilitated or would endanger the community.

According to the bill, a sentencing judge must provide the reasons for imposing sentence.

TRIPPLING OF FINES SHOWS THAT POLLUTING AIR IS COSTLY

In the first nine months of 1972, the Department of Environmental Protection reports, violators of the State's air pollution code were assessed \$715,550 in penalties, more than triple the amount for all of 1971.

More than half the total collected this year came from only seven concerns. Firms with the highest fines were U.S. Mineral Products, Corp. Stanhope, \$250,000; NL Industries, Sayreville, \$100,000; Continental Company, Paterson, \$50,000; Merck Company, Rahway, \$50,000; Flock Industries, Phillipsburg, \$30,000; Rawlins-Purle Industries, Winslow Township, \$30,000; and General Foods Maxwell House Division, Hoboken, \$30,000.

JERSEY BANKS PRESSURED ON 'WORKING COUPLE' LOANS

Acting State Banking Commissioner Richard F. Schaub is critical of New Jersey banks which refuse to consider a working wife's income in determining whether to grant a mortgage or loan.

Warning that the traditional practice of ignoring a wife's income may be "discriminatory in certain instances", Schaub called upon lending institutions to update their policies.

While Schaub said he could not order banks to follow his instructions, he recommended the policy change in a strongly-worded letter to the financial institutions under his jurisdiction.

Schaub also disclosed that an unidentified lending institution apparently was denying loans to couples that failed to practice birth control and cautioned all mortgage lenders against asking such questions.

According to the Banking Department, the mortgage lender asked the birth control question to determine whether the wife's income might be cut off because of pregnancy.

But Schaub urged them to consider all, or at least part, of a wife's income when making credit determinations.

"There is an increasing number of career working wives

in New Jersey and their incomes should be considered, particularly in the area of mortgage loans," he said.

"Housing is so expensive in New Jersey that many wives have just continued to work so their families can afford decent housing."

The acting Commissioner contended that most banks in the State have updated their lending policies to give at least some consideration to a working wife's income.

But there are still many who are following the traditional practice of discounting a wife's income, he said.

"I hope they do reassess their policy and those that are not considering the wife's salary will have a change of heart," he added.

Schaub said "the practice of automatically eliminating the working wife's income when considering a loan request is inconsistent with contemporary bank credit policy and could, in fact, be considered discriminatory in certain instances".

In his letter, Schaub asked the banks to voluntarily consider all or at least a portion of the working wife's income when making a credit determination.

"In many instances," he said, "the wife's income is at least as dependable as the husband's despite the fact that she might have had periodic job interruptions to have her family."

Schaub added, "The days of the casually or seasonally employed wife and mother have given way to full-time career wives and mothers whose salaries should be considered along with the husband's in determining whether a loan should be denied or granted."

The Commissioner told mortgage lenders not to question couples applying for mortgage loans about their sexual habits.

He said it is "at best, an unconscionable practice which could be construed as unconstitutional since it invades a person's privacy".

"Home buyers who have been questioned on such a personal matter should report it to his Department," he said.

SPECIAL COMMISSION WILL REVIEW STATE'S WORKMEN'S COMPENSATION

Appointment of a special commission to review the State's workmen's compensation program and to make recommendations for improvement has been announced by Gov. William T. Cahill.

The new seven-man Workmen's Compensation Study Commission, established by executive order, will review the work of the National Commission of State Workmen's Compensation Laws and the history of the New Jersey System to date, including surveys done by previous similar commissions, the Governor said.

"While New Jersey is a national leader in the field of workmen's compensation," the Governor said, "the time has come to review the system thoroughly in terms of administration, level of benefits, method of assessing the needs and extent of injury of injured employees and the costs of administering the program.

"We have been fortunate in obtaining some very able men to serve on the study commission. They include experts in the field of compensation, including three members of the National Commission of State Workmen's Compensation laws."

Members are: Clarence E. Carothers, retired administrator for workmen's compensation, Ford Motor Company, Dearborn, Mich.; John K. Dane, vice president, Liberty Mutual Insurance Co., Boston; Dickinson Debevoise, attorney, Newark; Dr. Henry H. Kessler, director, Professional Education and Research, Kessler Institute for Rehabilitation, West Orange; Attorney General George

F. Kugler Jr.; Bruce J. Legge, chairman, Workmen's Compensation Board of Ontario, Toronto; and James R. O'Brien, assistant director, AFL-CIO, Department of Social Security, Washington, D.C.

The Governor said he hopes to receive the Commission's initial report early this year and a final report by June 30. The Commission will analyze the problems of workmen's compensation and suggest reforms which can be translated into a significant legislative package, he said. There is no limitation on the Commission with respect to the type of problem or specific areas of inquiry.

Governor Cahill noted that the National Commission on State Workmen's Compensation Laws recommended last July that there be an advisory committee in each state to conduct a thorough examination of workmen's compensation laws in the light of their report.

PUC REPORTS ONE-THIRD OF SCHOOL BUSES FAILING INITIAL SAFETY CHECKS

William E. Ozzard, President of the State Public Utilities Commission, reported last month that one-third of 21 buses recently checked had failed to meet safety requirements and were removed from service pending a complete re-inspection.

The seven defective vehicles were "grounded" when PUC inspectors conducted an unannounced road safety check at Penn Station in Newark. The buses were rejected for various defects, including faulty brakes, worn tires, inoperative speedometers and lack of emergency equipment.

Ozzard noted that none of these buses will be allowed back in operation until the PUC is satisfied all safety requirements have been met.

"Removing buses from service is a nuisance and an inconvenience to the riding public," said Ozzard. "Still, we cannot allow defective vehicles on the road. Each year the PUC is forced to reject more and more buses because of a lack of proper safety maintenance. In fiscal 1972, nine out of every ten vehicles checked failed inspection on the first attempt."

Ozzard attributed the high rejection rate to the depressed financial state of the bus industry in New Jersey. Heavy losses in recent years have forced companies to cut back on safety inspections and to severely limit purchases of new equipment.

Ozzard noted that passage of the \$650 million transportation bond issue, which was defeated by voters in November, would have provided funds for 1,500 new buses to replace the oldest portion of the 5,500-bus fleet now in operation.

"The industry itself," said Ozzard, "is financially incapable of making such a purchase. The public cannot and will not be served safely and adequately until there is a suitable fleet of safe and modern vehicles back on the road. While operating subsidies and State take-over are undesirable, a cooperative partnership between the State and the public transportation companies can be mutually beneficial."

PUC APPROVES FURTHER EXTENSIONS FOR THREE ELECTRICAL INSPECTION UNITS

The State Board of Public Utility Commissioners last month approved requests from three of the State's five electrical inspection firms to expand their service areas.

The PUC first approved five electrical inspection authorities to operate in the state last June after promulgating new rules governing electrical inspections.

But, it found at the time that three of the companies—

STATE NEWS OF PUBLIC INTEREST

Garden State Electrical Inspection Service, Atlantic Inland and Middle Atlantic Electrical Inspections—had inadequate personnel and facilities and so they were awarded only limited franchise areas, the PUC said.

Garden State was authorized to operate in Union, Middlesex, Monmouth, Ocean and Somerset counties; Atlantic Inland in Camden, Gloucester and Burlington; and Middle Atlantic in Cape May, Atlantic and Cumberland.

According to the order issued Dec. 7, Garden State is now also permitted to do business in Essex, Morris, Sussex, Passaic and Bergen; Atlantic Inland in Middlesex, Mercer, Somerset, Salem, Atlantic, Ocean and Hunterdon, and Middle Atlantic in Camden, Gloucester, Ocean, Salem, Mercer, Monmouth and Burlington.

The order, signed by Commissioner Anthony J. Grossi, said the PUC had found that the three companies have now adequately established offices, inspectors and supervisors and have furnished adequate electrical inspection service in their franchise areas.

However, the board stipulated that Garden State is required to establish another office in Morris and hire two more inspectors; Atlantic Inland must create an office in Mercer or Somerset and hire two inspectors; and Middle Atlantic must establish an office in Burlington and also employ two more inspectors.

These requirements will double present staffs for each firm.

OSBORNE NEW OPERATIONS DIRECTOR OF HOUSING FINANCE AGENCY

John P. Renna Jr., executive director of the New Jersey Housing Finance Agency, last month named Harris H. Osborne of Bridgeton as their new director of operations.

Osborne, 39, former chief of operations for the agency, succeeded Vincent Corrado of Newark, who resigned for health reasons.

As director of operations, Osborne is responsible for supervising the processing of all NJHFA developments, from applications for mortgage loans through construction.

At a \$22,800 level in his new post, Osborne joined the Housing Finance Agency in 1969 as a senior project manager. He had previously been Cumberland County supervisor for the Farmers Home Administration.

A graduate of Delaware Valley College and Glassboro State College, he is married and lives with his wife and son at 19 Meadowood Drive, Bridgeton.

BROOKS ACTING SUPERINTENDENT OF SOMERSET COUNTY SCHOOLS

Dr. William W. Brooks, deputy assistant commissioner in the State Department of Education's Division of Curriculum and Instruction, has been named acting county superintendent of schools in Somerset County.

The appointment was made by State Education Commissioner Carl L. Marburger and approved by the State Board of Education at its meeting Dec. 6. The vacancy in the Somerset County superintendency was created by the

death Nov. 26 of Ernest L. Gilliland, who had served for 16 years.

Dr. Brooks will carry out the duties of the superintendent until a successor to Gilliland has been appointed and confirmed by the State Board. While serving as acting county superintendent, Brooks will continue to serve as deputy assistant commissioner.

APPOINTED TO NEW DEPUTY DIRECTOR POST IN STATE EDUCATION DIVISION

Appointment of Catherine Havrilesky as Deputy Director of the Division of Field Services in the State Department of Education has been announced by State Education Commissioner Carl L. Marburger.

Ms. Havrilesky had been serving as assistant director of the division.

According to John Rosser, Director of the Division, the new position of Deputy Director, with a \$20,731-27,990 salary range, was established to enable the Division to handle more efficiently the administration of its seven bureaus.

The Division includes the bureaus of Adult and Continuing Education, Facility Planning Services, Food Program Administration, Non-Public School Secular Education, Pupil Transportation, Teacher Education and Academic Credentials, and Instructional Technology.

Ms. Havrilesky, 35, was director of the State's high school equivalency program before being named assistant director last year. She joined the Department of Education in 1969, coming from the Department of Community Affairs where she supervised literacy programs.

She worked previously as educational administrator for United Progress, Trenton's anti-poverty agency, and as a teacher of adult education in Philadelphia. A graduate of Pennsylvania State University with a master's degree from Temple University, she lives in Ewing Township.

NAMED HEAD OF STATE BUREAU OF SPECIAL EDUCATION SERVICES

James W. Richardson has been appointed director of the State Department of Education's bureau of Special Education Services, according to State Education Commissioner Carl L. Marburger.

The bureau is in the branch of Special Education and Pupil Personnel Services, Division of Curriculum and Instruction, where Richardson had been serving as coordinator of special education programs in nonpublic schools.

Richardson, 35, fills a vacancy created by the resignation last year of John A. Visceglia.

As bureau head in a \$20,731-27,990 salary range, Richardson will direct the activities of regional special education coordinators and regional child study teams which provide help to local school districts in programs and services for handicapped children.

Richardson was born in Hackensack and graduated from Tusculum College, Greenville, Tenn. He was a special education teacher at Woods School, Langhorne, Pa., the Johnstone Training and Research Center, Bordentown, and in the Toms River school system before joining the Education Department as county supervisor of child study in Warren County. He came to Trenton in 1967 as a special education supervisor.

He holds a master's degree from Trenton State College and is completing work for his doctorate at Fairleigh Dickinson University. Married and with two children, he lives in Toms River.

The State Civil Service Commission last month distributed a new brochure entitled New Jersey Civil Service Commission Appeals Procedure—Disciplinary and Other Actions, to State and local governmental agencies operating under Civil Service, employee organizations and other groups.

James A. Alloway, President of the Civil Service Commission, said "this appeals procedure brochure has been issued to provide public employers, public employees and the general public with useful information concerning appeals to the Civil Service Commission from disciplinary and other actions.

"While the Civil Service Act and the Civil Service rules are operative in any hearing matter, this brochure outlines in nonlegal language the rights as well as the obligations that govern public employers and employees in matters related to appeals for hearings or reviews by the Civil Service Commission."

Individuals may obtain a copy of the 16-page booklet by sending a request to: Appeals Brochure, Department of Civil Service, State House, Trenton, N.J. 08625.

SHORT HILLS INDUSTRIALIST NAMED BY GOVERNOR AS STATE TREASURER

Gov. William T. Cahill last month named William E. Mariuggi of Short Hills, an industrialist and business executive, to the \$40,000 post of State Treasurer.

Mariuggi succeeds State Treasurer Joseph McCrane, who earlier had submitted his resignation to take effect Jan. 1. In announcing the nomination, Governor Cahill said:

"I am very pleased that Bill Mariuggi has agreed to join this administration in what I consider one of the key positions in the Cabinet. He is a man of ability and integrity and his business background will enable him to continue the effort of this administration and his predecessor, Joe McCrane, to bring fiscal responsibility to State government.

"The fact that Joe McCrane advised me some time ago of his intention to resign has made it possible for me to act promptly to send to the Senate the name of an outstanding successor in Bill Mariuggi," the Governor said.

Mariuggi, 49, is vice president of Victory Optical Manufacturing Co.; president of the M. B. Optical Co. and secretary-treasurer of the Plaza Sunglasses, Inc., all of Newark. The firms are engaged in the manufacture of optical frames.

Mariuggi is also a director of the Broad National Bank of Newark. He will resign the bank post and divest himself of the stock he holds in the bank, he said.

A native of Newark, Mariuggi attended Stevens Institute of Technology in Hoboken before enlisting in the Army during World War II. He was commissioned an officer in the Corps of Engineers.

After the war, Mariuggi entered the U.S. Military Academy at West Point and was graduated in 1949 with a degree or bachelor of science.

Mariuggi is vice chairman of the State's Veterans Affairs Council, a member of the Boards of the New Jersey Foundation for Boys and United Cerebral Palsy of North Jersey and a trustee of the Columbian Foundation.

Politically, Mariuggi assumed an active role in the unsuccessful U.S. Senate campaign of Nelson G. Gross two years ago. At that time, Mariuggi served as chairman of the Statewide Citizens for Gross.

Mariuggi is married to the former Rose Salerno and they have two sons, William, 21, and Vincent, 19, and a daughter, Victoria, 15.
