Student Growth Trends and Progress

These graphs illustrate trends in student growth over the last three years. Student growth is measured by median student growth percentile. The table below tells us how student growth over the last three years compares to the state standard of 40-59.5 and to the statewide median.

Student growth is a measure of how much students are learning each year. Each student receives a Student Growth Percentile (SGP) for English Language Arts (ELA) in grades 4 through 8 and for Mathematics in grades 4 through 7 that explains their progress compared to students who had the same test scores in previous years.

A student's SGP falls between 1 and 99 and can be grouped into three levels: **Low Growth: Less than 35** **Typical Growth: Between 35 and 65** **High Growth: Greater than 65**

If the student growth percentiles for all students in the school are ordered from smallest to largest, the median student growth percentile (mSGP) for the school is the percentile in the middle of that list. Watch a short [video about Student Growth Percentiles](#) that explains how they are calculated for students and how median Student Growth Percentiles (mSGP) are calculated for groups of students.

Student Growth

This table shows the **median Student Growth Percentile (mSGP)** for both English Language Arts (ELA) and Mathematics both overall and for each student group with comparisons to the district and the state. This table also shows whether each mSGP Met Standard (40-59.5) as required by ESSA accountability.

English Language Arts and Mathematics Performance Trends

These graphs show trends in the Proficiency Rate for Federal Accountability over the last three years. The data includes the results of students taking both the statewide assessment (NJSLA for 2018-19 and PARCC for 2016-17 and 2017-18) and the DLM alternate assessment. The Proficiency Rate for Federal Accountability measures the percentage of students that met or exceeded expectations on the assessments (NJSLA/PARCC or DLM) with an adjustment made if the participation rate is below 95% to ensure reporting on at least 95% of students. NJSLA/PARCC results include only students in grades 3 through 10. Students that were enrolled for less than half a school year are excluded from performance results. The table below provides participation rates, proficiency rates, annual targets and status in meeting the targets, and statewide proficiency rates.

English Language Arts Assessment - Participation and Performance

This table shows performance on statewide assessments for English Language Arts both overall and by student group. It includes the results of students taking both the NJSLA and DLM assessments. NJSLA results include only students in grades 3 through 10. Students that were enrolled for less than half a school year are excluded from performance results. A student is considered to have met or exceeded expectations if he/she scores at Level 4 or 5 on the NJSLA assessment or at Level 3 or 4 on the DLM assessment.

This table shows both the percentage of students that met or exceeded expectations and a proficiency rate used for federal accountability. The proficiency rate for federal accountability will be lower if the participation rate is below 95%. This table also shows progress towards meeting the state's long term goal of 80% proficiency by 2030. Annual targets are specific to each subgroup, school, and district and represent the expected proficiency needed to stay on track to meet the state's long term goal. Student groups where the annual target fields are grayed out are not required to meet annual targets under ESSA accountability. For more details on New Jersey's accountability system, see our [accountability resources](#).

Mathematics Assessment - Participation and Performance

This table shows performance on statewide assessments for Mathematics both overall and by student group. It includes the results of students taking both the NJSLA and DLM assessments. NJSLA results include only students in grades 3 through 10. Students that were enrolled for less than half a school year are excluded from performance results. A student is considered to have met or exceeded expectations if he/she scores at Level 4 or 5 on the NJSLA assessment or at Level 3 or 4 on the DLM assessment.

This table shows both the percentage of students that met or exceeded expectations and a proficiency rate used for federal accountability. The proficiency rate for federal accountability will be lower if the participation rate is below 95%. This table also shows progress towards meeting the state's long term goal of 80% proficiency by 2030. Annual targets are specific to each subgroup, school, and district and represent the expected proficiency needed to stay on track to meet the state's long term goal. Student groups where the annual target fields are grayed out are not required to meet annual targets under ESSA accountability. For more details on New Jersey's accountability system, see our [accountability resources](#).

Mathematics Assessment – Performance Trends

This graph shows the percentage of students who met or exceeded expectations on each grade level or end-of-course exam on the statewide assessment for Mathematics for the past three years. 2018-19 data is from the New Jersey Student Learning Assessment (NJSLA) and 2016-17 and 2017-18 data is from the PARCC assessment.

† 2018-19 results for Algebra I, Geometry, and Algebra II do not include students in grade 11, but 2016-17 and 2017-18 results do include students in grade 11. Therefore, trend data for these assessments may not be comparable.

English Language Progress to Proficiency

This table shows the percentage of English Learners who demonstrated the expected amount of growth on the ACCESS for ELLs 2.0 Assessment for English Language proficiency. A student's expected growth is based on the student's initial year proficiency level and student growth expectations are increased by equal intervals each year so that the student meets the proficiency cut score of 4.5 within five years. The table shows the annual target for the percentage of students making expected growth and whether that target was met.

The New Jersey Student Learning Assessment for Science (NJSLA-S) measures student proficiency with the New Jersey Student Learning Standards for Science. All students in grades 5, 8, and 11 will take the NJSLA-Science assessment. Students receive a score of Level 1, 2, 3, or 4 where levels 3 and 4 represent proficiency. Visit the [NJSLA-Science website](#) for more information about NJSLA-S. These results do not include students that took the Dynamic Learning Maps (DLM) Science assessment, visit the [assessment reports page](#) for DLM results.

Student absences provide important information about a school's culture and climate. Research shows that absences impact a student's ability to succeed in school. The New Jersey Department of Education used input from New Jersey communities to select chronic absenteeism as its measure of school quality and student success for the ESSA accountability plan. **Chronic absenteeism** is defined as being absent for 10% or more of the days enrolled during the school year. A student who is not present for any reason, whether excused, unexcused, or for disciplinary action, is considered absent unless permitted by state statute or regulations. Students with fewer than 45 days in membership are excluded from attendance calculations.

Chronic Absenteeism

This table shows the number and percentage of students in grades K-12 both overall and by student group who were chronically absent during the school year. The last two columns show the chronic absenteeism state average for students in the grades offered and whether the rate for each student group was above the state average ("Not Met") or less than or equal to the state average ("Met").

The New Jersey Department of Education migrated to a new reporting system, the Student Safety Data System (SSDS), starting in 2017-18, which includes improved definitions, new reporting fields, and updated guidance for reporting incidents. Comparing current data to data from 2016-17 and earlier could lead to inaccurate conclusions in many reporting categories.

Violence, Vandalism, HIB, and Substance Offenses

This table shows the number of incidents reported by type. A single incident may be counted under multiple incident types. The total unique incidents row provides an unduplicated count of incidents. The last row shows the rate of incidents for every 100 students enrolled.

Device Ratios

This table shows the student to device ratio, which is the number of students in tested grades 3 through 10 per device. Devices are computers such as tablets, iPads, laptops and Chromebooks. The count includes only devices that meet nationally recommended specifications for digital learning in grades 3 through 10. This information comes from the elective NJTRAx survey, therefore data may not be available for all schools. Additionally, schools that have adopted a Bring Your Own Device policy may appear to have a very low Student to Device ratio due to this policy decision.

Per-Pupil Expenditures by Source

The link below produces a table summarizing the most recently available expenses for regular and special education students taught at schools in the district. The amounts shown include expenditures for instruction, support services, administration, operations and maintenance, and extra-curricular activities.

For more information regarding this table please refer to the guidance for school level reporting, which is available on the [NJDOE webpage ESSA School Level Reporting Information](#). More in-depth information about district and charter school spending can be found in the [User Friendly Budget](#) and the [Comprehensive Annual Financial Report \(CAFR\) and Auditor Management Reports \(AMRs\)](#).

Please be aware that the total district expenditures represented in these reports are taken from audited district financial data, but the subsequent allocation of these resources to specific schools is not audited or otherwise verified by the New Jersey Department of Education. If you have specific questions about the assignment (or lack of assignment) of school-level amounts, please contact the district for additional information.

An option to [download all school-level summaries by district](#) in one spreadsheet is also available. However, because districts have flexibility in how certain costs are allocated to individual schools, school-level costs should not be compared between schools in different districts.

New Jersey's school accountability system identifies schools that are in need of comprehensive and targeted support as required by the Every Student Succeeds Act (ESSA).

Every three years (last identification in 2019, next identification in 2022), NJDOE will identify schools in the following three federal categories:

Comprehensive Support and Improvement - Overall Low Performing: Schools with a summative score in the bottom 5% of Title I schools.

Comprehensive Support and Improvement - Low Graduation Rate: High schools with a four-year graduation rate of 67% or less

Targeted Support and Improvement - Low Performing Student Group: Schools with one or more student group with a summative score that would be in the bottom 5% of Title I schools

Annually, NJDOE will identify schools in the following federal category:

Targeted Support and Improvement - Consistently Underperforming Student Group: Schools with one or more students group that missed annual targets or standards for all indicators for two years in a row

For more information about New Jersey's accountability system, how indicator and summative scores were calculated, and how federal accountability status is determined, see these [accountability resources](#).

ESSA Accountability Status

The table below provides the school's federal school status for the 2020-21 school year, the category (or reason) for identification, the year the school is eligible to exit status, and, if applicable, the student groups identified for support.

ESSA Accountability Progress

The table below shows performance on each of New Jersey's ESSA accountability indicators for the last three years. ELA and Math Proficiency represent the percentage of students that met or exceeded expectations on statewide assessments (NJSLA/PARCC or DLM). ELA and Math Growth represent the median student growth percentile. Four- and five-year graduation rates represent the adjusted cohort graduation rates. Progress toward English Language Proficiency, which was first available in 2017-18, shows the percentage of English Learners that demonstrated the expected amount of growth on the ACCESS for ELLs 2.0 Assessment for English Language proficiency. Chronic absenteeism represents the percentage of students that were absent for 10% or more of the days enrolled during the school year.

Accountability Indicator Scores and Summative Ratings - 2018-19 School Year

New Jersey developed a school accountability system as required by the Every Student Succeeds Act (ESSA) to identify schools that are in need of Comprehensive Support and Improvement every three years. During the three-year federal status period, schools receive additional resources and support. NJDOE will next identify schools for Comprehensive Support and Improvement in 2022.

This year accountability indicator scores and summative ratings are not used to identify schools for Comprehensive Support and Improvement, so these data are not included in the School Performance Reports. Review the previous two pages to see a school's current status, in the ESSA Accountability Status table, and to monitor a school's school progress on each accountability indicator over the last three years using the new ESSA Accountability Progress table.

Accountability Summary by Student Group - 2018-19 School Year

This table shows whether student groups in this school met annual ESSA accountability targets and standards for each indicator. Annual targets for proficiency and graduation rate were set based on a school or student group's performance in 2015-16 or the first year data was available. The standard for student growth is a median student growth percentile of 40-59.5. The target for chronic absenteeism is the statewide chronic absenteeism rate based on students enrolled in the grades served by the school. For more details on accountability targets, see these [accountability resources](#).

The accountability system will not be used to identify schools for Targeted Support and Improvement – Low Performing Student Group for 2018-19, so student group summative scores are not included in this table this year.

 <p>Courses, Curriculum, Instruction:</p>	<p>Students build upon their academic, social, and emotional skills and knowledge as they progress through courses that are both engaging and challenging. Curriculum is aligned to the NJSLs and continually reinforces the 21st century skills of communication, collaboration, critical thinking, and creativity. Instruction across all content areas is aligned to best-practices in pedagogy, including differentiated learning opportunities for all students and student-centered instructional design.</p>
 <p>Sports and Athletics:</p>	<p>Sports Offered: Baseball (Boys), Basketball (Boys & Girls), Soccer (Boys & Girls), Softball (Girls), Track and Field - Spring (Coed), Volleyball (Girls)</p> <p>Fieldstone Middle School in Montvale offers athletic programs for the Fall, Winter, and Spring seasons. The sports program at FMS is based on the premise that athletics is an integral part of the fifth, sixth, seventh and eighth grade total school experience. The sport programs will emphasize team building, sportsmanship, cooperation, and fair play. Students will be afforded many opportunities designed to build self-esteem, self-confidence, and a positive attitude.</p>
 <p>Clubs and Activities:</p>	<p>Our school district offers a variety of Co-curricular clubs. These clubs range from band and choir, to peer tutoring and service learning. To stay current with the ever-changing world of technology, our students participate in building robots in Robotics Club and create online video casts during Audio/Visual Club. The clubs are lead by different staff members. Clubs meet before, during, and after school. These clubs help to create a positive environment in both the school and local community.</p>

Before and After School Programs:

The Montvale Child Care Program (MCC) is a tuition supported program designed to provide high quality before and after school care for the children who attend the Montvale Schools. Children are afforded opportunities to explore, discover, play, cooperate, create, and learn new skills as well as be provided with quiet opportunities for reflection. Through team building and individualized experiences, children will be enveloped in a safe environment where parents are able to rely upon a strong community of supporters to provide care while they are at work.

Staff and Professional Learning:

Staff are both provided, and encouraged to seek, varied and high quality learning opportunities that meet district and individual professional development needs. Emphasis is placed on the development of PLCs, promoting teachers and administrators as reflective practitioners, acquisition and implementation of instructional best practices, support for the development of quality SGOs, and effective data use to inform instruction at the student, class, school, and district levels.

 <p>Climate Surveys:</p>	<p>Is a Climate Survey Used: Yes; Who is surveyed: Students, Parents, Teachers The district has utilized informal and formal methods to collect data on school climate ranging from exit surveys of graduating students to surveys of staff and students. In addition, data gathered from meetings of parents/guardians, Parent Teacher Organization (PTO), Montvale Educational Foundation (MEF), and other school related programs is utilized to determine how we can enhance our district climate, and how we can grow together as a community.</p>
 <p>Facilities:</p>	<p>The Montvale Schools are made up of Memorial Elementary School and Fieldstone Middle School. Memorial houses grades PreK-4, and is approximately 85,000 sq. ft. Fieldstone Middle School houses grades 5-8 and is approximately 90,000 sq. ft. The District values having safe and secure facilities for students and staff, and earmarks approximately 7% of the operating budget, or \$1.4 million dollars, for Buildings and Grounds appropriations. The Facilities Staff is comprised of 12 individuals.</p>
 <p>School Safety:</p>	<p>In Montvale, we have made several changes over the past few years to improve safety and security in our schools. All staff and students participate in school safety drills every month to practice how to respond in the event there is a school emergency. We work closely with the Montvale Police to ensure safety protocols are being followed. We have had the New Jersey Department of Education's Office of School Preparedness and Emergency Planning (OSPEP) visit the Montvale School District as part of the Governor's K-12 Safe School Initiative. With this site visit, an unannounced drill for an active shooter was conducted at both schools. OSPEP and the Montvale PD provided guidance to the school/district leadership team on what went well and areas in need of improvement. In addition, the Montvale PD has utilized our buildings when school is not in session to conduct active shooter response drills. We have improved our facilities and technological resources to enhance safety and security.</p>

Technology and STEM:

Teaching staff is working with consultants from Innovative Designs for Education (IDE). IDE specializes in supporting professional learning communities and guiding educators in engaging students in a learner-active technology-infused classroom. Our goal is to create "learning environments that provide students with authentic learning opportunities that prepare them for secondary school and the future." Students are utilizing 3D printers and other resources to create rockets, mazes, etc. By providing authentic-based assessments for students to engage in, students are learning by doing. With 3D printing, there is increased student engagement as they see their ideas brought to reality. Students are using CAD and are able to test printed designs. Our grade level teams collaborate on ways to work on STEM projects across the different academic disciplines.

Other Information

Welcome! Montvale is a charming, child-centered community of approximately 8,000 residents nestled away in picturesque northern Bergen County, NJ. Our community is proud of our hard working students, dedicated faculty and staff, innovative administrative team, caring and involved parents, and supportive Board of Education. We strongly believe that the Montvale Public Schools provides an educational environment that is both academically challenging and developmentally responsive to the needs of our students. Our students are challenged to develop core life skills and an intellectual curiosity and creativity in all areas of our curriculum. Our students actively partake in a comprehensive language arts program that focuses on developing strong communication skills. Our math program focuses on students becoming excellent problem solvers through real life applications. Our character education program focuses on students treating others as they would want to be treated. Our 1:1 program with chromebooks in grades 6-8 provides a digital tool for each student to communicate and collaborate anywhere, anytime. Our literacy program is comprehensive with a focus on Readers/Writers Workshop in the elementary classrooms. Our collective goal is to reach the gold standard in education: SUCCESS FOR ALL. It is our hope that our students move on to secondary school with the desire to utilize their time, talents and skills to improve the world around them. Student growth is a measure of how much students are learning each year. Each student receives a Student Growth Percentile (SGP) for English Language Arts (ELA) in grades 4 through 8 and for Mathematics in grades 4 through 7 that explains their progress compared to students who had the same test scores in previous years.

A student's SGP falls between 1 and 99 and can be grouped into three levels: **Low Growth: Less than 35** **Typical Growth: Between 35 and 65** **High Growth: Greater than 65**

If the student growth percentiles for all students in the school are ordered from smallest to largest, the median student growth percentile (mSGP) for the school is the percentile in the middle of that list. Watch a short [video about Student Growth Percentiles](#) that explains how they are calculated for students and how median Student Growth Percentiles (mSGP) are calculated for groups of students.

English Language Arts and Mathematics Performance Trends

These graphs show trends in the Proficiency Rate for Federal Accountability over the last three years. The data includes the results of students taking both the statewide assessment (NJSLA for 2018-19 and PARCC for 2016-17 and 2017-18) and the DLM alternate assessment. The Proficiency Rate for Federal Accountability measures the percentage of students that met or exceeded expectations on the assessments (NJSLA/PARCC or DLM) with an adjustment made if the participation rate is below 95% to ensure reporting on at least 95% of students. NJSLA/PARCC results include only students in grades 3 through 10. Students that were enrolled for less than half a school year are excluded from performance results. The table below provides participation rates, proficiency rates, annual targets and status in meeting the targets, and statewide proficiency rates.

English Language Arts Assessment - Participation and Performance

This table shows performance on statewide assessments for English Language Arts both overall and by student group. It includes the results of students taking both the NJSLA and DLM assessments. NJSLA results include only students in grades 3 through 10. Students that were enrolled for less than half a school year are excluded from performance results. A student is considered to have met or exceeded expectations if he/she scores at Level 4 or 5 on the NJSLA assessment or at Level 3 or 4 on the DLM assessment.

This table shows both the percentage of students that met or exceeded expectations and a proficiency rate used for federal accountability. The proficiency rate for federal accountability will be lower if the participation rate is below 95%. This table also shows progress towards meeting the state's long term goal of 80% proficiency by 2030. Annual targets are specific to each subgroup, school, and district and represent the expected proficiency needed to stay on track to meet the state's long term goal. Student groups where the annual target fields are grayed out are not required to meet annual targets under ESSA accountability. For more details on New Jersey's accountability system, see our [accountability resources](#).

Mathematics Assessment - Participation and Performance

This table shows performance on statewide assessments for Mathematics both overall and by student group. It includes the results of students taking both the NJSLA and DLM assessments. NJSLA results include only students in grades 3 through 10. Students that were enrolled for less than half a school year are excluded from performance results. A student is considered to have met or exceeded expectations if he/she scores at Level 4 or 5 on the NJSLA assessment or at Level 3 or 4 on the DLM assessment.

This table shows both the percentage of students that met or exceeded expectations and a proficiency rate used for federal accountability. The proficiency rate for federal accountability will be lower if the participation rate is below 95%. This table also shows progress towards meeting the state's long term goal of 80% proficiency by 2030. Annual targets are specific to each subgroup, school, and district and represent the expected proficiency needed to stay on track to meet the state's long term goal. Student groups where the annual target fields are grayed out are not required to meet annual targets under ESSA accountability. For more details on New Jersey's accountability system, see our [accountability resources](#).

English Language Progress to Proficiency

This table shows the percentage of English Learners who demonstrated the expected amount of growth on the ACCESS for ELLs 2.0 Assessment for English Language proficiency. A student's expected growth is based on the student's initial year proficiency level and student growth expectations are increased by equal intervals each year so that the student meets the proficiency cut score of 4.5 within five years. The table shows the annual target for the percentage of students making expected growth and whether that target was met.

The New Jersey Student Learning Assessment for Science (NJSLA-S) measures student proficiency with the New Jersey Student Learning Standards for Science. All students in grades 5, 8, and 11 will take the NJSLA-Science assessment. Students receive a score of Level 1, 2, 3, or 4 where levels 3 and 4 represent proficiency. Visit the [NJSLA-Science website](#) for more information about NJSLA-S. These results do not include students that took the Dynamic Learning Maps (DLM) Science assessment, visit the [assessment reports page](#) for DLM results.

Student absences provide important information about a school's culture and climate. Research shows that absences impact a student's ability to succeed in school. The New Jersey Department of Education used input from New Jersey communities to select chronic absenteeism as its measure of school quality and student success for the ESSA accountability plan. **Chronic absenteeism** is defined as being absent for 10% or more of the days enrolled during the school year. A student who is not present for any reason, whether excused, unexcused, or for disciplinary action, is considered absent unless permitted by state statute or regulations. Students with fewer than 45 days in membership are excluded from attendance calculations.

Chronic Absenteeism

This table shows the number and percentage of students in grades K-12 both overall and by student group who were chronically absent during the school year. The last two columns show the chronic absenteeism state average for students in the grades offered and whether the rate for each student group was above the state average ("Not Met") or less than or equal to the state average ("Met").

The New Jersey Department of Education migrated to a new reporting system, the Student Safety Data System (SSDS), starting in 2017-18, which includes improved definitions, new reporting fields, and updated guidance for reporting incidents. Comparing current data to data from 2016-17 and earlier could lead to inaccurate conclusions in many reporting categories.

Violence, Vandalism, HIB, and Substance Offenses

This table shows the number of incidents reported by type. A single incident may be counted under multiple incident types. The total unique incidents row provides an unduplicated count of incidents. The last row shows the rate of incidents for every 100 students enrolled.

This table shows the start and end times and length of school day for a typical student at this school. Instructional time is the amount of time that a typical student was engaged in instructional activities under the supervision of a certified teacher. Full time students attend this school for more than half of the school day and shared-time students attend the school for half of the school day or less.

Category	School
Typical Start Time	8:40 AM
Typical End Time	3:00 PM
Length of School Day	6 Hrs 20 Mins
Full Time - Instructional Time	5 Hrs 37 Mins
Shared Time - Instructional Time	5 Hrs. 37 Mins.

Device Ratios

This table shows the student to device ratio, which is the number of students in tested grades 3 through 10 per device. Devices are computers such as tablets, iPads, laptops and Chromebooks. The count includes only devices that meet nationally recommended specifications for digital learning in grades 3 through 10. This information comes from the elective NJTRAx survey, therefore data may not be available for all schools. Additionally, schools that have adopted a Bring Your Own Device policy may appear to have a very low Student to Device ratio due to this policy decision.

Per-Pupil Expenditures by Source

The link below produces a table summarizing the most recently available expenses for regular and special education students taught at schools in the district. The amounts shown include expenditures for instruction, support services, administration, operations and maintenance, and extra-curricular activities.

For more information regarding this table please refer to the guidance for school level reporting, which is available on the [NJDOE webpage ESSA School Level Reporting Information](#). More in-depth information about district and charter school spending can be found in the [User Friendly Budget](#) and the [Comprehensive Annual Financial Report \(CAFR\) and Auditor Management Reports \(AMRs\)](#).

Please be aware that the total district expenditures represented in these reports are taken from audited district financial data, but the subsequent allocation of these resources to specific schools is not audited or otherwise verified by the New Jersey Department of Education. If you have specific questions about the assignment (or lack of assignment) of school-level amounts, please contact the district for additional information.

An option to [download all school-level summaries by district](#) in one spreadsheet is also available. However, because districts have flexibility in how certain costs are allocated to individual schools, school-level costs should not be compared between schools in different districts.

New Jersey's school accountability system identifies schools that are in need of comprehensive and targeted support as required by the Every Student Succeeds Act (ESSA).

Every three years (last identification in 2019, next identification in 2022), NJDOE will identify schools in the following three federal categories:

Comprehensive Support and Improvement - Overall Low Performing: Schools with a summative score in the bottom 5% of Title I schools.

Comprehensive Support and Improvement - Low Graduation Rate: High schools with a four-year graduation rate of 67% or less

Targeted Support and Improvement - Low Performing Student Group: Schools with one or more student group with a summative score that would be in the bottom 5% of Title I schools

Annually, NJDOE will identify schools in the following federal category:

Targeted Support and Improvement - Consistently Underperforming Student Group: Schools with one or more students group that missed annual targets or standards for all indicators for two years in a row

For more information about New Jersey's accountability system, how indicator and summative scores were calculated, and how federal accountability status is determined, see these [accountability resources](#).

ESSA Accountability Status

The table below provides the school's federal school status for the 2020-21 school year, the category (or reason) for identification, the year the school is eligible to exit status, and, if applicable, the student groups identified for support.

ESSA Accountability Progress

The table below shows performance on each of New Jersey's ESSA accountability indicators for the last three years. ELA and Math Proficiency represent the percentage of students that met or exceeded expectations on statewide assessments (NJSLA/PARCC or DLM). ELA and Math Growth represent the median student growth percentile. Four- and five-year graduation rates represent the adjusted cohort graduation rates. Progress toward English Language Proficiency, which was first available in 2017-18, shows the percentage of English Learners that demonstrated the expected amount of growth on the ACCESS for ELLs 2.0 Assessment for English Language proficiency. Chronic absenteeism represents the percentage of students that were absent for 10% or more of the days enrolled during the school year.

Accountability Indicator Scores and Summative Ratings - 2018-19 School Year

New Jersey developed a school accountability system as required by the Every Student Succeeds Act (ESSA) to identify schools that are in need of Comprehensive Support and Improvement every three years. During the three-year federal status period, schools receive additional resources and support. NJDOE will next identify schools for Comprehensive Support and Improvement in 2022.

This year accountability indicator scores and summative ratings are not used to identify schools for Comprehensive Support and Improvement, so these data are not included in the School Performance Reports. Review the previous two pages to see a school's current status, in the ESSA Accountability Status table, and to monitor a school's school progress on each accountability indicator over the last three years using the new ESSA Accountability Progress table.

Accountability Summary by Student Group - 2018-19 School Year

This table shows whether student groups in this school met annual ESSA accountability targets and standards for each indicator. Annual targets for proficiency and graduation rate were set based on a school or student group's performance in 2015-16 or the first year data was available. The standard for student growth is a median student growth percentile of 40-59.5. The target for chronic absenteeism is the statewide chronic absenteeism rate based on students enrolled in the grades served by the school. For more details on accountability targets, see these [accountability resources](#).

The accountability system will not be used to identify schools for Targeted Support and Improvement – Low Performing Student Group for 2018-19, so student group summative scores are not included in this table this year.

Courses, Curriculum, Instruction:

Students build upon their academic, social, and emotional skills and knowledge as they progress through courses that are both engaging and challenging. Curriculum is aligned to the NJSLs and continually reinforces the 21st century skills of communication, collaboration, critical thinking, and creativity. Instruction across all content areas is aligned to best-practices in pedagogy, including differentiated learning opportunities for all students and student-centered instructional design.

Clubs and Activities:

Our school district offers a variety of Co-curricular clubs. These clubs range from band and choir, to peer tutoring and service learning. To stay current with the ever-changing world of technology, our students participate in building robots in Robotics Club and create online video casts during Audio/Visual Club. The clubs are lead by different staff members. Clubs meet before, during, and after school. These clubs help to create a positive environment in both the school and local community.

 <p>Student Supports and Services:</p>	<p>The Montvale Schools provides a continuum of services to meet the needs of diverse learners. A variety of general education and special education services are available to students in order to address individual student needs. With a focus on educating students in the least restrictive environment, Montvale Schools provides inclusive opportunities for all students.</p>
 <p>Student Health and Wellness:</p>	<p>The Montvale Schools focuses on helping students demonstrate a positive attitude toward self as a unique and worthy person. The administration, guidance counselors, teaching and support staff work together to facilitate the development of responsible social skills and an understanding and appreciation of the life-long process of learning, growing, and changing. Through mindfulness activities and other student wellness initiatives, the Montvale Schools ensures that the social, emotional, and academic health of all students are being addressed.</p>
 <p>Parent and Community Involvement:</p>	<p>The Montvale Schools welcomes parents and community members! Everyone is encouraged to be active participants in with our parent-teacher and educational foundation organizations. Parents are apprised on the happenings and future plans in our school. This is communicated through our school website, email notifications, twitter, social media and our monthly newsletters. Our school district has a wonderful relationship with our town council, fire and police departments, who visit our schools on a regular basis to conduct safety walkthroughs and present information that students can reinforce at home with parents.</p>

In addition, data gathered from meetings of parents/guardians, Parent Teacher Organization (PTO), Montvale Educational Foundation (MEF), and other school related programs is utilized to determine how we can enhance our district climate, and how we can grow together as a community.</p>
 <p>Facilities:</p>	<p>The Montvale Schools are made up of Memorial Elementary School and Fieldstone Middle School. Memorial houses grades PreK-4, and is approximately 85,000 sq. ft. Fieldstone Middle School houses grades 5-8 and is approximately 90,000 sq. ft. The District values having safe and secure facilities for students and staff, and earmarks approximately 7% of the operating budget, or \$1.4 million dollars, for Buildings and Grounds appropriations. The Facilities Staff is comprised of 12 individuals.</p>
 <p>School Safety:</p>	<p>In Montvale, we have made several changes over the past few years to improve safety and security in our schools. All staff and students participate in school safety drills every month to practice how to respond in the event there is a school emergency. We work closely with the Montvale Police to ensure safety protocols are being followed. We have had the New Jersey Department of Education's Office of School Preparedness and Emergency Planning (OSPEP) visit the Montvale School District as part of the Governor's K-12 Safe School Initiative. With this site visit, an unannounced drill for an active shooter was conducted at both schools. OSPEP and the Montvale PD provided guidance to the school/district leadership team on what went well and areas in need of improvement. In addition, the Montvale PD has utilized our buildings when school is not in session to conduct active shooter response drills. We have improved our facilities and technological resources to enhance safety and security.</p>

Technology and STEM:

Teaching staff is working with consultants from Innovative Designs for Education (IDE). IDE specializes in supporting professional learning communities and guiding educators in engaging students in a learner-active technology-infused classroom. Our goal is to create "learning environments that provide students with authentic learning opportunities that prepare them for secondary school and the future." Students are utilizing 3D printers and other resources to create rockets, mazes, etc. By providing authentic-based assessments for students to engage in, students are learning by doing. With 3D printing, there is increased student engagement as they see their ideas brought to reality. Students are using CAD and are able to test printed designs. Our grade level teams collaborate on ways to work on STEM projects across the different academic disciplines.

Early Childhood Education:

We believe the preschool educational experience for 3 and 4 year-olds provides an important foundation for later social, emotional and academic success for children. We offer a half-day preschool program for students that are 3 or 4 years-old. The program focuses on the needs of children who have been identified as requiring special education, as well as of those who have not been so identified. A lottery is conducted each year as spaces for preschool are limited. The preschool curriculum consists of developmentally appropriate experiences that provide each child with individual opportunities to develop positive self-esteem, social/emotional growth, language skills, motor development and conceptual skill development. Proof of immunizations against communicable diseases and examinations is in accord with requirements for kindergarten and first grade admission. Our preschool program is well received by parents.

Other Information

Welcome! Montvale is a charming, child-centered community of approximately 8,000 residents nestled away in picturesque northern Bergen County, NJ. Our community is proud of our hard working students, dedicated faculty and staff, innovative administrative team, caring and involved parents, and supportive Board of Education. We strongly believe that the Montvale Public Schools provides an educational environment that is both academically challenging and developmentally responsive to the needs of our students. Our students are challenged to develop core life skills and an intellectual curiosity and creativity in all areas of our curriculum. Our students actively partake in a comprehensive language arts program that focuses on developing strong communication skills. Our math program focuses on students becoming excellent problem solvers through real life applications. Our character education program focuses on students treating others as they would want to be treated. Our 1:1 program with chromebooks in grades 6-8 provides a digital tool for each student to communicate and collaborate anywhere, anytime. Our literacy program is comprehensive with a focus on Readers/Writers Workshop in the elementary classrooms. Our collective goal is to reach the gold standard in education: SUCCESS FOR ALL. It is our hope that our students move on to secondary school with the desire to utilize their time, talents and skills to improve the world around them. We invite you to visit our website at www.montvalek8.org
