1. How has your life changed since March as a result of the Covid-19 Pandemic? My life has not been the same ever since Covid-19 Pandemic came I was ^{attending} college at the time until we had to do online class instead of face to face session to protect ourself from spreading the virus around I haven't been able to go home cause my family thinks I had the virus and that they were afraid that I was going giving it to them which that had made me feel very sad that I had to keep my distance from them.

2. What surprised you about the pandemic? What had surprised me about the pandemic is how over thousands of people had die cause of the virus and I'm ~~afraid~~ afraid that more people and more people are dying everyday when I watch the news I always hear the numbers goes ^{up} instead of the number going down some people don't wear they mask to protect themselves from other getting it cause they think it is a big joke like oh it is not going to effect me and so on but they don't know what it becoming to them sooner or later.
