In testimony whereof, I have hereunto set my hand [SEAL.] and affixed my official seal, at Trenton, this fourteenth day of January, A. D., 1930.

JOSEPH F. S. FITZPATRICK,  
*Secretary of State.*

Mr. Wise offered the following resolution which was read and adopted :

*Resolved*, That the Hon. Joseph Greenberg, of Hudson County, who is a Master in Chancery of this State, and a member of this House, administer the oath of office to the Hon. Joseph W. Marini, of Bergen County, a member-elect, by whom the oath of office shall be administered to the members-elect.

The Hon. Joseph Greenberg then administered the oath of office to the Hon. Joseph W. Marini.

The Hon. Joseph W. Marini, of Bergen County, then requested the members-elect to rise and administered the oath of office to the members.

All members present then signed the roll.

Mr. Wise offered the following resolution which was read and adopted :

*Resolved*, That the Hon. Anthony J. Siracusa, of Atlantic County, who is a Master in Chancery of this State and a member of this House, administer the oath of office to the Speaker and other officers when they are elected.

Mr. Wise offered the following resolution which was read and adopted :

*Resolved*, That the House do now proceed with the election of Speaker, for the One Hundred Fifty-fourth Session of the Assembly.

Mr. Walter T. Gross, of Camden County, then placed in nomination the name of Mr. William B. Knight, of Camden County, as a candidate for Speaker of the House.

The nomination of Mr. Knight was seconded by Miss Carty, of Hudson County, as follows :

While in previous years, the Democratic Minority has made a courtesy nomination from its members for the Speaker of the House, this year I have instructed our group to go along with the Republican nomination of Mr. Knight for speaker. For three years, I have observed Assemblyman Knight and found him to be a diligent, courteous and sensible legislator. And I now welcome the opportunity and am happy to second the nomination of a man whom I consider the most capable legislator I have met during my seven years in the Legislature.

The nomination of Mr. Knight was further seconded by Mr. Barbour, of Passaic County, Mr. Muir, of Union County, and by Miss Haines, of Essex County.

The Clerk called for further nominations. There being none, upon motion of Mr. Wise the nomination was closed.

Which was agreed to.

Upon calling the roll Mr. Knight was elected Speaker of the House by the following vote:

In the affirmative were—

Messrs. Altman, Barbour, Barlow, Basile, Bleakly, Bradley, Brown, E. E., Brown, F. A., Bucino, Carty, Demarest, Dolce, Durand, Duszynski, Flockhart, Fort, Gopsill, Greenberg, Grimm, Gross, Guarini, Haines, Hand, Hargrave, Hollinshed, Jones, Karcher, Kautz, Knight (Speaker), Litwin, Marini, McDermott, McMurray, McWilliams, Muir, Newcomb, Otto, Parentini, Peters, Power, Purdy, Pursel, Rittenhouse, Schoenfeld, Siracusa, Smith, Spair, Stein, Stelle, Summerill, Tamboer, Thompson, Turner, Vanderbach, Vollmer, Ward, Weber, Wise, Young, Zink—60.

In the negative were—none.

The Clerk declared the Hon. William B. Knight Speaker of the General Assembly for the session of 1930.

The Clerk then appointed Mr. F. Stanley Bleakly, of Camden County, Miss Carty, of Hudson County, and Mr. Gopsill, of Monmouth County, as a committee to escort Mr. Knight to the Bar of the House.

The committee then escorted Mr. Knight, the newly elected Speaker, to the Bar of the House, where the oath of office was administered by the Hon. Anthony Siracusa, of Atlantic County, who subscribed to the same, and he was then escorted to the Chair. Upon assuming the Chair, the Speaker addressed the House as follows:

Address of the Honorable William B. Knight, Speaker of the House of Assembly for the One Hundred Fifty-fourth Session of the Legislature.

*Members of the House of Assembly:*

I deeply appreciate the honor which you have conferred upon me today and am fully conscious of the duties and the responsibilities now assumed. Words cannot convey my feeling of gratitude occasioned by this expression of your confidence.

It is my hope when this, the 154th Legislature shall have become history, sincerity of purpose, service rendered and conduct in office will have demonstrated that I have endeavored to exem-

plify gratitude. Such endeavors I am confident will be more pleasing to you than a pretty speech at this time.

The ceremonies just completed and in which we have participated are of great significance, having more than ritualistic value. They represent the consummation of the wishes of the thousands of citizens of this State, that we represent in this important branch of Legislature. We are their spokesmen, their representatives.

We, therefore, have taken upon ourselves a responsibility unsurpassed. As members of the Legislature it will be our privilege to participate in the making of laws. This will be the part we will take in the business of the State in 1930, and because of the grave nature of these duties and responsibilities, of the far-reaching and lasting character of our combined efforts, symbolized by legislation, and because of the indiscriminate application of the laws enacted, it is highly imperative that such business be conducted under the most favorable conditions. Order and due solemnity should mark our daily procedure. That these conditions may be made to surround our efforts, your Speaker solicits acquiescence and hearty co-operation.

As in the past, many bills will be introduced during the session. It is particularly incumbent upon the proponent to study each proposal closely and thoroughly before introduction. The Speaker in this connection, urges a very careful and conscientious examination by the proponents of all bills, to the end that only such bills be enacted into legislation as are necessary and beneficial.

I recommend a discontinuance of the practice of "Introductions by request." Unless a member of this body be willing to study thoroughly and unqualifiedly support an introduction he or she should refuse to become party to a meaningless practice. Such practice entails needless expenditures of the State's money and burdens members of the Legislature with unnecessary extra work. These recommendations are made that the maximum good be accomplished.

It is my purpose to be present and call the House to order on the hour to which it was adjourned, and it is hoped and fully expected that every member will take cognizance of this intention and support the Speaker by prompt attendance. Dereliction on the part of the majority to so co-operate will render this expression futile, so that, failure of observance can be chargeable only to the majority.

The consideration and attention which you have given me bespeaks your co-operation during the session, and I earnestly hope

that our united efforts as legislators will be to the everlasting credit of the entire Legislature and to the glory and general welfare of the great State of New Jersey.

The Speaker announced the appointment of George D. Rothermel, of Collingswood, Camden County, as Secretary to the Speaker, and Frank M. Travaline, Jr., of Camden, Camden County, as Assistant Secretary to the Speaker.

Mr. Wise offered the following resolution which was read and adopted:

*Resolved*, That the House do now proceed with the election of the Clerk of the House, for the One Hundred Fifty-fourth Session of the Assembly.

The Hon. Charles A. Otto, Jr., of Union County, placed in nomination the name of Frederick A. Brodesser, of Union County, as Clerk of the General Assembly, which nomination was seconded by the Hon. Miss May Carty, of Hudson County, Hon. Russell S. Wise, of Passaic County; Hon. Thomas M. Muir, of Union County, and the Hon. Frederick G. Kautz, of Essex county.

The Speaker then called for any further nominations, and there being none, Mr. Wise, of Passaic county, then moved that the nomination be closed.

Which motion was adopted.

Upon the roll being called by Mr. Paul Williams, a former Assistant Clerk of the Assembly, Mr. Brodesser was elected by the following vote:

In the affirmative were—

Messrs. Altman, Barbour, Barlow, Basile, Bleakly, Bradley, Brown E. F., Brown F. A., Bucino, Carty, Demarest, Dolce, Durand, Duszynski, Flockhart, Fort, Gopsill, Greenberg, Grimm, Gross, Guarini, Haines Hand, Hargrave, Hollinshed, Jones, Karcher, Kautz, Knight (Speaker), Litwin, Marini, McDermott, McMurray, McWilliams, Muir, Newcomb, Otto, Parentini, Peters, Powers, Purdy, Pursel, Rittenhouse, Schoenfeld, Syracuse, Smith, Spair, Stein, Stelle, Summerill, Tamboer, Thompson, Turner, Vanderbach, Vollmer, Ward, Weber, Wise, Young, Zink—60.

In the negative—None.

The Speaker declared Frederick A. Brodesser unanimously elected Clerk of the General Assembly for the year 1930.

Hon. Anthony J. Siracusa, of Atlantic county, then administered the oath of office to Mr. Brodesser, who subscribed to the same.

Mr. Wise offered the following resolution which was read and adopted:

*Resolved*, That the Speaker appoint forthwith a committee of three consisting of Messrs. Frederick G. Kautz, of Essex, John C. Barbour, of Passaic, and Harry W. Vanderbach, of Hudson, to wait upon the Governor and inform him that the House of Assembly has organized by the election as Speaker of the Hon. William B. Knight, of Camden county, and of Frederick A. Brodesser, of Union county, as Clerk of the House, and is now ready to proceed to business and to receive any communication he may be pleased to make.

At the direction of the Speaker the above named committee then retired to await upon the Governor, and later returned and reported through Mr. Kautz that the Governor had no communication to make to the House at this time.

Mr. Wise offered the following resolution which was read and adopted:

*Resolved*, That the Clerk of the House is hereby directed to inform the Senate that the House of Assembly has organized by the election as Speaker of the Hon. William B. Knight, of Camden county, and of Frederick A. Brodesser, of Union county, as Clerk of the House, and has proceeded to business.

A message was received from the Senate by the hands of its Secretary as follows, and was read by the Clerk:

STATE OF NEW JERSEY,  
SENATE CHAMBER  
January 14th, 1930

*Mr. Speaker:*

I am directed by the Senate to inform the House of Assembly that the Senate has passed the following resolution:

*Resolved*, That the Secretary of the Senate be directed to inform the House of Assembly that the Senate has organized and elected the Honorable Arthur N. Pierson, of the county of Union, President, and Oliver Van Camp, of the county of Ocean, Secretary, and proceeded to business.

O. F. VAN CAMP,  
*Secretary of the Senate.*

A message was received from the Senate by the hands of its Secretary as follows, and was read by the Clerk:

STATE OF NEW JERSEY,  
SENATE CHAMBER

*Mr. Speaker:*

January 14th, 1930. }

I am directed by the Senate to inform the House of Assembly that the Senate has passed the following concurrent resolution:

BE IT RESOLVED *by the Senate of the State of New Jersey* (the House of Assembly concurring), That both Houses of the Legislature meet in joint session in the Assembly Chamber at 12:45 noon, for the purpose of receiving the Message of Governor Larson, which will be delivered at 1 P. M. precisely.

In which the concurrence of the House of Assembly is requested.

O. F. VAN CAMP,  
*Secretary of the Senate.*

Mr. Wise moved that the House concur in the Senate resolution,

Which motion was adopted.

The Speaker declared the Senate Concurrent Resolution concurred in.

Mr. Wise moved that the House do now arise for the purpose of going into a joint session to hear His Excellency the Governor, Morgan F. Larson, deliver his annual message, which motion was adopted.

Following the joint session the House reconvened.

Upon calling the roll the following members appeared and answered to their names.

Messrs. Altman, Barbour, Barlow, Basile, Bleakly, Bradley, Brown E. F., Brown F. A., Bucino, Carty, Demarest, Dolce, Durand, Duszynski, Flockhart, Fort, Gopsill, Greenberg, Grimm, Gross, Guarini, Haines Hand, Hargrave, Hollinshed, Jones, Karcher, Kautz, Knight (Speaker), Litwin, Marini, McDermott, McMurray, McWilliams, Muir, Newcomb, Otto, Parentini, Peters, Powers, Purdy, Pursel, Rittenhouse, Schoenfeld, Siracusa, Smith, Spair, Stein, Stelle, Summerill, Tamboer, Thompson, Turner, Vanderbach, Vollmer, Ward, Weber, Wise, Young, Zink—60.

Absent—None.

The Annual Message and the Budget Message of His Excellency, Morgan F. Larson, were sent to the desk of the Clerk, and upon motion by Mr. Wise, were ordered received and spread in full upon the minutes.

## GOVERNOR'S MESSAGE

STATE OF NEW JERSEY,  
EXECUTIVE DEPARTMENT,  
JANUARY 14, 1930.

*To the Legislature:*

With a sense of profound responsibility, I submit my annual message to you.

Last year in my inaugural address I expressed the hope that the Legislature and the Governor might work in thorough harmony. The accomplishments of the past year and the progress made by the State have made that hope a realization.

The finances of the State are in a satisfactory condition. The previous Legislature co-operated with me in holding down expenditures, resulting in a distinct saving to the taxpayer, and as the result of a scientific study of the State's financial requirements, I have been enabled to make such recommendations in my budget message as will not only adequately provide for the financial needs of the State, but also result in a substantial reduction.

Last year I made certain specific recommendations and it is with a degree of pardonable pride that I report that practically each recommendation has been put into effect, or substantial progress made toward carrying it out.

## STATE AUDIT

In accordance with my suggestion, the Legislature of last year enacted necessary legislation providing for an audit of the State's financial affairs and departments. The audit has been completed and within the past few days a report has been submitted to me. It is unfortunate that the report had not been submitted in time for me to make a proper study of its contents, as it is a voluminous one. It is my purpose, however, to make a thorough study of it at the earliest opportunity and to transmit such recommendations to you as seem important.

Some of its recommendations, I can already see, are far reaching, and will require considerable study and time to carry them out if deemed advisable. I am approaching it with an open mind and will not hesitate to make any recommendation that I consider for the best interest of the State and the taxpayer.

## ELECTION LAW REVISION

A legislative commission has been working diligently on a proposed revision of the election laws during practically the whole of the past year. It has held meetings in various sections

of the State, securing the views of election officers, voters, and officials of the different classes of municipalities of the State. I am confident that the commission will offer a thorough, comprehensive report.

I urge your careful consideration of the report and of its recommendations when submitted, and I shall make a careful study of it and make such recommendations to you as may seem advisable.

#### BANKING

Generally speaking, the banks, building and loan associations and other financial institutions of this State are in a sound condition. It is noteworthy that during the recent financial disturbances, no institution of New Jersey was seriously affected.

The Commissioner of Banking and Insurance performed creditably during a trying year. Such irregularities that came to his attention met with prompt and effective action. His conduct of the office did much to maintain the confidence of the public.

I am still of the opinion that chain banking, through holding corporations, is not for the best interests of the public. People have confidence in their Community Banks, and feel that they can go to them with their financial problems, the solving of which in a friendly, neighborly way, often means so much to the individual.

In my opinion, no drastic changes are necessary. Our institutions are in the hands of capable, honest men who are interested in the welfare of the community and the State, and who will work out and solve whatever problems may arise.

Strict supervision is necessary but individual initiative and resourcefulness should not be hampered.

#### BUILDING AND LOAN ASSOCIATIONS

The building and loan associations of this State have contributed largely to its progress. Purely local organizations, serving the particular communities where located, have been the means of enabling thousands of families to secure their own homes. In addition, they have provided the opportunity for, and encouraged, systematic saving and thrift. In recent years, however, there has been a radical departure from this original purpose on the part of some building and loan associations who have engaged in the business of mortgage loans on speculative enterprises.

As long as the functions of the building and loan associations were limited to the financing of private homes, their affairs

were conservatively and profitably managed, as mutual institutions in which all of the subscribers benefitted, but when they departed from that original purpose and engaged in the loaning of large sums of money for speculative enterprises, they stepped outside the field of their present regulation, and entered the investment field of insurance companies, savings banks and mortgage loan companies which are investing their own money and whose action is governed by conservative judgment of values and risk; but the directors of building and loan associations act in a fiduciary capacity and are investing someone else's money. Abuses have also crept in, in the way of inflated values, bonuses, and special commissions to officers of the association who undertake to influence the directors in favor of excessive loans.

If the building and loan associations are to continue in this new field, additional safeguards and restrictions should be imposed by law commensurate with the hazards of the enterprise.

Three specific suggestions are submitted:

1. The Banking Commissioner should be invested with the same authority over building and loan associations as he now possesses over banking institutions.
2. Examination fees should be placed solely on a cost basis.
3. A greater liquidity in the associations' investments should be required.

#### STATE HIGHWAYS

In 1927 a comprehensive highway system was laid out. Routes were defined at that time which would, in the opinion of the Legislature, provide adequate transportation facilities for several years to come. A large part of this system is completed and people are enjoying the benefits thereof.

During the next two years there will be available for road purposes approximately \$60,000,000.00. A large part of this will necessarily have to be spent in the northern part of the State and to provide for the approaches to the Fort Lee Bridge. This money is practically all allocated to definite projects and in order to carry out this program, careful planning and supervision will be necessary.

I recommend that no additional routes be added to the existing system so nothing may interfere with the carrying out of this necessary and essential program.

#### GRADE CROSSINGS

For two years past the Board of Public Utility Commissioners has called attention in its annual report to the unsatisfactory progress being made in New Jersey in the elimination of grade

crossings, which it ascribes to the policy of this State of attempting to require the railroad companies to pay all or substantially all of the costs thereof. Attention is called in those reports to the different policy of sister States, such as New York where the cost is apportioned equally between the railroads and the public, and Pennsylvania where the Public Service Commission has jurisdiction to apportion the cost but follows the general policy of dividing it equally between the railroads and the public. Other States make apportionments on a percentage basis varying slightly in amounts, but New Jersey is the only State in the Union which undertakes to impose substantially all the cost upon the railroads. The board calls attention to the fact that the situation which existed at grade crossings in 1913, when the Fielder Act was passed, has been materially altered by the subsequent increase in the use of motor vehicles and the development of transportation by auto busses, which have added to the hazard of grade crossings. The toll of lives taken and injuries inflicted at grade crossings has increased relatively with the increase of the use of motor vehicles. The number and speed of trains appears not to have materially increased.

At the 1928 session the Legislature adopted a resolution appointing a joint commission to investigate this subject, which made a report at the last session, recommending the adoption of the policy of equal division of cost between the railroads and the public and suggesting an additional gasoline tax of one-half cent per gallon to defray the expense chargeable to the public. That commission brought in a bill which was enacted into law as Chapter 88 applying this policy of equal apportionment of cost to grade crossings on State highways. It also adopted a concurrent resolution continuing the commission for the purpose of inquiring into the question of financing the public share on the same basis of apportionment of cost for the elimination of grade crossings on public highways other than State highways, and to report at this session of the Legislature, including the formulation and presentation of an act for that purpose.

The elimination of dangerous grade crossings is of primary importance to the development of the traffic and commerce on our public highways. Naturally the railroad companies resist as far as possible orders of the Board of Public Utility Commissioners which impose upon them substantially all the cost of projects involving large sums of money. The report of the board for last year shows that projects whose estimated costs aggregate approximately \$14,325,000.00 are now under review in the courts. If this State is to receive its fair share of the elimination of grade crossings it will be necessary, as soon as

practicable, to adopt a policy of apportionment of cost in line with that of sister States and my recommendation is that this Legislature give consideration to the subject by enacting a law that would be fair to all parties concerned and at the same time promote increased safety and convenience in the use of our public highways where grade crossings are involved.

#### HIGHWAY SAFETY

Serious accidents are constantly occurring at railroad grade crossings and highway intersections where the view of approaching trains or vehicles in conflicting directions have been obscured by advertising sign boards erected on private property in close proximity to such intersections. While these structures are located on private property and are under the present state of the law lawful structures, they are nevertheless public nuisances, for which there is now no legal relief.

A great improvement can be accomplished through an intelligent public sentiment. Property owners and advertisers should be impressed through such public sentiment with the fact that they are responsible for the life and safety of the traveling public.

In some States power has been given to highway commissions to condemn the use of the angles of intersection highways in such a manner as to limit that use to purposes which will not obstruct the view, leaving the owner of the property to make such other uses thereof as will not be inconsistent with public safety. This situation applies primarily to rural or suburban communities. We are spending large amounts of money to improve our highways and the safety of their use. This important element of safety should not be neglected.

In this connection attention is also called to the fact that property owners allow brush and other matter to accumulate in such a manner as to obstruct the view of highway travel. It is also observed that at many of such intersections property owners plant shrubbery and trees and erect walls or fences which produce the same result. There is now no law to prevent or remove such obstructions but an intelligent public sentiment would go a long way toward impressing upon the minds of property owners that they have a duty to the public and cannot avoid moral responsibility for the result of their neglect.

During the progress of civilization in the last century the strict laws of property rights have been constantly required to yield to the public welfare, and while the security of property should always be protected, regard must nevertheless be had for

the welfare and safety of our people which it is the duty of government to protect, and since this is a government of the people, by the people and for the people, it is necessary that the people themselves make a reasonable surrender of abstract rights to serve the common welfare.

I recommend that you give consideration to this subject for the purpose of working out some method of relief.

#### AGRICULTURE

Agricultural conditions in New Jersey can be improved through the enactment of constructive legislation of a type that is not only helpful directly to that important industry but indirectly to all our citizens as well.

Rapid progress is being made in the construction of the finest system of main-stem highways in the country. In this day of motor transportation, hard surfaced roads are of prime importance to agriculture and every mile added to the system is a connecting link to market. As we look forward to the completion of main-stem construction it is not too early to give consideration to the next logical step, namely, the improvement of rural and township roads as a means of connecting the farms to the main highways. Construction of such highways, of which there are 11,597 miles in the State, 8,576 miles being unimproved, calls for engineering and organization plans to insure economy as well as financial means to undertake such a program. Consideration has been given to this problem by the Department of Agriculture and other agencies, including the Highway Department. The last Legislature authorized the appointment of a legislative commission to study the rural road problem. It is highly important that this work be continued in order that definite plans be available for meeting this public need.

During the past summer a serious tie-up faced the producers and consumers of the metropolitan area caused by a strike of food handlers in New York City. It was necessary for the State to take action to effect a settlement. The appalling congestion in the distribution area, which was the underlying cause of the dispute, continues, and calls for marketing centers in our own commonwealth for serving consumers much more directly than by present methods.

Formerly it required approximately half the time of the ordinary farmer to market his produce. The improvement of rural roads will eventually change the whole system of marketing farm products by bringing the purchasers to the farms or to the local marketing centers. This will avoid the farmers loss of time,

give him a better price and at the same time afford the consumers the advantage of fresher and more wholesome products without increased cost.

A commission authorized by the Legislature is also working on this problem. Because of its complexity and the many angles involved which need study and well considered action, it is recommended that the work already undertaken be continued on a more intensive basis that there may be no unnecessary delay in reaching a solution.

#### TAXATION

I have already appointed a commission to consider the important subject of taxation, and these gentlemen are now engaged in getting the views of the citizens of our State. In any policy affecting this matter it must be remembered that the taxpayers who are the source of the State's prosperity have paramount rights. In practically all the schemes for taxation the moving forces are the tax spenders and their effort is toward the direction of larger revenues instead of economy of expenditure. In the development of the State and nation, new sources of taxation are continuously sought. New and scientific means for reducing the burdens upon the taxpayers are rarely considered save in the case of President Coolidge, Secretary Mellon and the recent action of President Hoover. The national government's example in lowering taxes is a good one to follow if New Jersey is to keep pace with the prosperity of the nation as a whole.

It has been suggested that the public revenues could be increased by the establishment of an income tax. I am opposed to the imposition of such a tax, which should be reserved for war, pestilence or other such emergencies. An income tax is a tax upon individual industry and thrift; qualities which are necessary in the individual if the State is to progress.

A direct tax upon the use of special facilities is one that can be levied with fairness to all because it falls directly upon those particularly benefitted thereby. An illustration of this principle is to be found in the Holland Tunnel between New Jersey and New York and the Delaware River Bridge between Camden and Philadelphia. In both cases the use is taxed in the form of tolls which have avoided an increase in the public debt and enabled us to pay their cost in a much shorter time than was anticipated. Both of these improvements have greatly advanced the prosperity of the State.

To what extent, if any, this principle of taxation shall be extended requires a most careful study.

## GROSS RECEIPTS TAX

By Act of 1900 the Legislature provided for the taxation of public utilities (other than street railway companies) which use the public streets: Two different taxes were imposed, one assessed locally and at the local rates on tangible property, both real and personal, within the municipality, and the other a tax, measured by 5 per cent. of the gross receipts, upon the franchise or intangible property of the company, including the privilege of occupying the public highways with poles, wires, pipes or other facilities. When this system of taxation was adopted other forms of tax on such corporations existed but were abolished by the enactment of the Act of 1900. For nearly 30 years this system of taxation was applied to all public utilities within the scope of the act, including the telephone companies. After the organization of the New Jersey Bell Telephone Company in its present form, in 1927, it challenged the gross receipts tax insofar as the interstate commerce over its line was included in the measure of gross receipts used for the ascertainment of the tax. It appears that although the New Jersey Bell Telephone Company is a corporation of New Jersey and conducts its business exclusively in New Jersey, nevertheless approximately 25 per cent of its gross receipts are derived from interstate messages which it handles in connection with companies in the adjoining States, the gross receipts tax upon which for the year 1928 amounted to more than \$250,000 00, and for 1929 something in excess of \$300,000 00. This tax is distributed among the municipalities in proportion to the value of the line or facilities of the utility assessed within the municipalities, respectively.

The gross receipts tax of the New Jersey Bell Telephone Company assessed for 1928 was reviewed in our courts on the ground that the tax was unlawful to the extent that it was imposed upon the gross receipts from interstate business. The New Jersey Supreme Court and the Court of Errors and Appeals sustained the tax. An appeal was taken to the United States Supreme Court and on January 6, 1929, that court rendered its decision reversing the New Jersey Court of Errors and Appeals and setting the assessment aside to the extent that it was levied upon gross receipts from interstate business.

Nearly all of our public utilities are now engaged in interstate business of some kind or another, and if this decision of the United States Supreme Court is to be applied to all other utilities subject to that act, our municipalities will be deprived of a very large amount of revenue which they now enjoy. It will be necessary for the Legislature to consider ways and means of restoring

this revenue. It may be that the gross receipts tax will have to be abandoned if its application is fraught with these difficulties, and the State may be compelled to return to some method of taxation which is not subject to this criticism. Originally these utilities were taxed a certain percentage upon their capital stock. In some States they are taxed at a given rate per mile of line. I recommend that consideration be given to this subject in order to avoid the present situation resulting from this decision under which companies will escape entirely any franchise tax or taxes for the use of public streets, on all interstate business. The mere fact that an utility uses a facility granted by the State of New Jersey for interstate commerce should not deprive the State of that fair proportion of revenue which it must receive for the support of its government. Interstate commerce handled over the same facilities receive the same protection and benefits as intra-State commerce, yet it escapes taxation. The burden of taxation must be distributed equitably and if interstate commerce over these lines is to escape taxation entirely, it is obvious that other taxpayers or the local service will have to bear an additional burden on that account, unless some way is found to tax the service equally.

#### SALARY INCREASES

From year to year bills are introduced for increases in salary of public officers. At the present time an increase in judicial salaries is being advocated in certain quarters. It may be that the judges or some of them are underpaid, but the officers of the State in many other departments are likewise underpaid. It is but a few years ago since the judges had a substantial increase in salary. This is not true of other State officers, some of whom have served at the same salary for more than a quarter of a century past. I have not heard of any judges resigning on the ground of inadequate compensation, nor have I lacked candidates for judge-ships when vacancies have presented themselves. I have observed, however, a difficulty in procuring competent persons to fill other State offices because the salary was not commensurate with the talent or time required.

While I recognize the necessity under certain circumstances of increasing salaries, it seems to me unwise to indulge in any general increases of salaries unless and until, after a careful survey, it has been ascertained what salary increases are necessary or advisable, and that by readjustments, economy or increases in revenue, the financial condition of the state is such as to warrant general increases in the State payroll.

## PENSIONS

During the past ten sessions of the Legislature, exactly one hundred separate pension acts have been passed, ranging in numbers from four to twenty per session, representing sporadic, and uncoordinated efforts to provide or increase pensions for one class or another of public employees, or their dependants. The separate acts and the separate classifications to which they apply have become so numerous and the amount of money involved has become so large that it would seem advisable to discontinue the enactment of separate independent acts applicable to separate independent classes or situations without any coordination or rational relationship between them, until some intelligent system or classification or coordination has been developed.

The Legislature may find it necessary to consider legislation providing for pensions for public employees. Such legislation should be passed only upon a clear understanding of the costs of such pensions, built on a sound actuarial basis, with proper reserves. From my observation, many pension bills have been passed without due consideration as to cost and its proper distribution as between the employees and the public.

It is my opinion that no further pension legislation should be passed until a careful study is made of the subject and an analysis and valuation of our existing pension funds are made by a competent actuary.

## DEBT LIMIT

The establishing of a definite debt limit for municipalities and counties was a wise policy and one which has been of immense benefit to the taxpayer.

Departures from this policy should be considered by the Legislature only in extreme emergencies; otherwise the benefit of this policy will be destroyed.

## EDUCATIONAL SURVEY

The Educational Survey Commission appointed in 1928 to survey the activities and work of the public schools and educational institutions within the State, supported in whole or in part by public funds, and to recommend a comprehensive program of public education and sources of revenue for its support, has been at work on their survey for two years. I understand they have about completed their task and will make a report to the Legislature within a few weeks. I trust the members of the Legis-

lature and those interested in the cause of education will give the findings and recommendations of the Commission most careful consideration.

This important feature of our public concern has not been the subject of legislative study for a generation. The social and industrial conditions have changed greatly in this period. It is necessary that our educational program recognize these changed conditions.

The present law apportioning State school moneys for aid of education was passed in 1907, based, no doubt, upon the census of 1900 and valuation distribution of that date. It will be noticed that the average valuation in 1900 was \$473.00 per capita. The lowest county per capita valuation was \$334.00. The highest was \$594.00 per capita. The ratio was substantially less than one to two. The per capita valuation in 1928, however, was an average of \$1,458.00 per capita. The lowest county valuation was \$702.00, and the highest \$4,359.00, or a ratio of more than one to six. From these figures, it can readily be seen that an apportionment schedule based upon the per capita valuation on the former basis would be entirely out of line at the present time. I trust the Commission will make a careful study of this feature of our school affairs in order that the State's moneys shall be equitably distributed in aid of school districts which need assistance for the purpose of providing a reasonable minimum standard of education.

In connection with State moneys for school support I vetoed two bills last year that would have preserved for the benefit of the schools the money being taken from this fund for the benefit of highways and the Institutional Construction Fund. I agreed with the proposal that these moneys should not be taken from this school fund in the future. I vetoed the bills because they were retroactive in taking from the highway and institutional funds moneys that had already been budgeted from these funds for their purposes. I would recommend that bills be passed that would leave these moneys in the School Fund for the future.

The proper education of our children is one of the primary functions of government under our system. The ever increasing standards of education established by institutions of learning throughout the country require a higher degree of common school preparation. The constantly increasing number of scholars and the constantly increasing cost per capita of our educational system are two matters of important public concern. While we cannot lower the standards of our educational system,

we hope that the educational survey now in progress will find a way to coordinate the various branches of the subject in such a manner as to increase its efficiency, capacity and quantity without an increase in the cost.

#### CHILD HYGIENE

There is one department of our State activities that I believe deserves every consideration and support. I refer to the Bureau of Child Hygiene started some eleven years ago as a department of the State Board of Health. The work of this department, through its large corps of nurses, is engaged in work with mothers and expectant mothers throughout the State. Since its organization it has, through practical demonstration, brought the value of this work to the attention of public officials in many municipalities, until today something like 127 child hygiene nurses are engaged in this special type of work in New Jersey.

In 1918, the first year of the Bureau's operation, the infant mortality of our State was 112 per thousand babies born. Today, largely through the instrumentality of this department, the mortality rate has fallen to 65. The work of this department goes much further than simply saving the lives of many thousand infants in the year, but the other many thousands which come under their care have been given a fair start in life with mothers who are better informed as to the care of infants and children. All this is of great economic and social value to our State, and, I am convinced, is one of the greatest preventative agencies we have, as much of our later dependency is traceable to improper care of the baby and child.

I would ask the careful consideration of the Legislature and those good citizens who are interested in this fine social service, that every assistance be given to the furtherance of this type of service.

#### INSTITUTIONS AND AGENCIES

New Jersey takes pride in the progressive, humanitarian character of its public welfare work in caring for dependant wards. Through the State Board of Control and the Department of Institutions and Agencies there have been developed uniform, sensible and economical plans for meeting our responsibility in this worthy field.

Much has been accomplished in applying scientific methods to the treatment of insanity, tuberculosis, and other mental and physical ailments. This work has been advanced during the past

year by the extension of clinics, and cooperation with local hospitals and practicing physicians throughout the State.

The New Jersey idea of co-operative effort in detecting diseases in their early stages, and co-ordinating facilities with county and State hospitals, upon treatment and prevention, is a most progressive step.

I have visited a number of the State institutions and plan to complete my inspection of the work in all of them. I have found a creditable demonstration in the construction of State buildings, made possible through the half mill tax for institutional purposes. These buildings have been so planned and constructed for efficiency of service and administration, as to meet the ever pressing need for relief in their various functions.

#### AVIATION

The science of aviation is making remarkable progress all over the world and is destined to become the most important means of rapid transit between widely separated points. It has already reduced practicable transportation of passengers across the continent to a period of two days. New Jersey is proud of its position in the vanguard of this new and startling enterprise.

Six acts were passed during the last session relating to this subject, authorizing counties and municipalities to acquire, develop and equip aviation fields, and including a general aeronautic act. A commission was also appointed by me, through authority of the Legislature, to investigate and consider the question of the need and advisability of aiding, regulating and controlling aviation, and its report will doubtless be laid before you during the present session.

I recommend that you take such action as may be necessary to promote in a sane and constructive manner this great phase of transportation.

#### THE CIVIL SERVICE

The work of the new commission during its eight months of service has fully justified our decision that a change in the administration of this important branch of the service was necessary. The new commission has attacked its problems intelligently and courageously. Satisfactory progress has been made in correcting wrong administrative practices and in rehabilitating the service. In addition to this the commission has appraised its problems, analyzed the requirements for their proper administra-

tion and has brought forward a series of concrete proposals looking to the improvement of the service.

The civil service required in present day government has grown so large, both in numbers and annual costs, that it has become a major problem. I shall ask that the Legislature give consideration to such revision of the civil service laws which will make possible better administration and more economical service. It is my thought that there should be no weakening of the principles of the law as it now stands, but that its procedure should be improved.

The tenure and protection of the law should apply fully and effectively to the rank and file of the service. It should not apply to the executive and policy determining officials who are directly responsible to the legislative and executive authority in the State or in the counties and municipalities.

#### RADIO

Radio broadcasting and reception has become one of the most important factors in our commercial and social economy. Almost every household in the State enjoys the benefit of radio reception and almost every business enterprise uses radio transmission to promote its business.

The Federal Radio Act declares that the people of all of the zones established under the act are entitled to equality of radio broadcasting service, both of transmission and reception, and the Federal Radio Commission is required to make a fair and equitable allocation of licenses, wave lengths, time for operation, and station power to each of the states. New Jersey has fourteen broadcasting stations, nine of which are located in the northern part of the State. The Federal Radio Commission has permitted nine New York broadcasting stations to erect and operate their transmitters in New Jersey, in this same area. These foreign transmitters have four and one-half times the power of northern New Jersey-licensed stations. Recently the radio commission granted a permit to another broadcasting company to erect a high-powered station in this locality which would have increased the power ratio between foreign and domestic transmitters from four and one-half to one, to ten to one. Such widespread complaint among our citizens arose from the granting of this permit that the Attorney-General on my instructions sought and obtained a hearing in opposition thereto. Testimony and exhibits were presented during a hearing lasting four days, and a brief was prepared and filed, with the result that the company involved announced its intention to abandon the project.

Congress and the courts have declared radio transmission to be interstate commerce and the radio act predicates the granting of licenses upon public convenience, interest and necessity. This gives them the status of public utilities and while the Legislature of a state may not pass laws which affect interstate broadcasting, they may, nevertheless, pass such laws as may be necessary to regulate the establishment of such stations and transmitters within the state as may be necessary to protect the rights of its citizens to have and enjoy an equal reception of stations within the range of their receiving sets. I submit for your consideration the question of the advisability of enacting legislation which will require a certificate of public convenience and necessity before any broadcasting transmitter can be erected within the State of New Jersey. Such a certificate is now necessary before a power line may be constructed across the country or any other utility may commence its operations in any locality. The appropriate body to grant such a certificate would be the Board of Public Utility Commissioners which could hold hearings and determine whether a proposed transmitter would cause undue and unreasonable blanketing or interference to the disadvantage of citizens of the areas involved.

Section 21 of the Federal Radio Act requires a construction permit before any radio apparatus can be constructed. Under the present practice the Federal Radio Commission acts upon applications for such permits without notice to any persons or communities that might be affected. It grants permits to radio stations of one state to erect transmitters in another without any notice to the other state whose own radio stations and whose citizens might be adversely affected thereby.

I favor the procurement of an amendment by Congress of Section 21 of the Federal Radio Act to require in such cases, a notice to the Attorney-General of the state about to be invaded and a hearing at which objections may be heard, in a manner similar to the proceedings provided under Section 20a of the Act to Regulate Commerce on applications for the issuance of securities by interstate carriers operating through the several states. That act requires notice of such application to the Governor of each state in which the carrier operates and gives the railroad or utility commission or other appropriate authorities of that state the right to be heard. A similar provision should be inserted in the Federal Radio Act requiring such notice and hearing before a broadcasting station of one state is allowed to erect a transmitter in another state.

## BLUE SKY LAW

The vigorous growth of our commercial undertakings in the past decade combined with our location in the richest industrial section of the nation has advanced New Jersey to a position of importance in the financial world. The progress made during this period attracted great numbers of business parasites who came here for the purpose of diverting to their own use, by fraudulent methods, as much as possible of the money intended for legitimate enterprises, and the New Jersey Securities Act was passed to check their activities. Over a thousand individuals and organizations have been investigated and the total capitalization of the corporations enjoined or ceasing activity following these investigations is \$56,610,000.00. These corporations were, in addition to this total, further authorized by their charters to issue 5,903,900 shares of stock with no par value. Carrying into effect the provisions of this legislation is most important work and merits an organization of sufficient size to effectively cope with the situation.

The act to incorporate associations not for pecuniary profit was passed to enable persons who so desired, to organize for religious, educational, charitable, fraternal or benevolent purposes. The liberal provisions of this law make it possible for unscrupulous individuals to assume many privileges that they should not be allowed to enjoy and they are able to absolutely defeat the object of the act by preying upon the very people whom it was primarily designed to protect. Legislation should be enacted to correct this evil. Some bills designed to strengthen these laws will be offered by the Attorney-General and I shall recommend them for your favorable consideration.

## INLAND WATERWAYS

Since I discussed this subject in my inaugural address last year, important developments have occurred.

The long-discussed ship canal between the Delaware River and Raritan Bay has been approved by the War Department and is included in the recommendations of the Secretary of War to Congress and also in the program of improvements submitted therewith. This is the last section necessary to complete an inland water way from Maine to Florida which can be navigated by craft unsuitable for ocean service.

In the same program the Secretary of War has recommended the appropriation of something over \$4,000,000 for the improve-

ment of the navigability of the Delaware River and Bay, including \$1,326,000 to provide a channel with a project depth of 20 feet, 200 feet wide, between Philadelphia and Trenton.

At the last election the people of Trenton adopted by referendum a plan for the erection of municipal docks and piers for that city which will not only be worthy of the present commerce, but a strong incentive to future development thereof.

In his annual report to Congress in 1873 the Chief of Engineers of the War Department included a survey and report, comprising 30 pages, accompanied by maps and charts, upon a proposal to provide a navigable channel 12 feet deep and 150 feet wide as far as Easton, Pa -Phillipsburg, N. J. At that time it was considered that the available commerce was insufficient to justify the expenditure involved. Subsequent investigation of the project to extend such a navigable channel as far as Port Jervis, New York, has been included in the report of the Chief of Engineers on a number of occasions, including an extended report in 1924 at which time it was found that the areas to the north and west of Easton are rich in natural resources and are highly developed industrially, producing large quantities of cement, iron and steel, anthracite coal, etc, and that a waterway with facilities for the economical service of this territory might conceivably carry a large tonnage.

It was therein estimated that the then available tonnage for such an improvement was about 525,000 tons and that if and when the ship canal from the Delaware River to Raritan Bay was completed another 790,000 tons would be available.

Such a development of the Delaware River would involve a series of dams with locks that would provide a series of bank-full lakes extending as far as Port Jervis, from which dams water power would be capable of development to the extent of approximately 350,000 horse-power (firm power) or in excess of 2,000,000,000 kilowatt hours per year, of a net value in excess of \$18,000,000 per year on the New Jersey side of the river. Within a radius of 50 miles of the various dam sites there is population in excess of 9,000,000 people affording a ready market for such power at desirable rates.

Unless such a project was carried out by the War Department, the concurrence of Pennsylvania would be necessary therefor.

The War Department has recently disapproved of a plan to increase navigable capacity of the Raritan River above New Brunswick on the ground that the present available commerce would not justify the expense. That is a matter for future consideration.

The city of Newark has made remarkable progress in the development of Port Newark Terminal where a connection between rail and water has been made and an important airport has been developed and a considerable inter-coastal and foreign commerce has already been established there by a number of steamship lines engaged in that trade.

The city of Jersey City in co-operation with the Port of New York Authority is now considering the development of a deep-water steamship terminal in the Little Canal Basin in that city. The development of that project should be encouraged since it will provide rail and steamship connections which will facilitate the handling of import and export commerce without the heavy expense of terminal handling by carfloats and lighters in New York harbor.

These port and navigation projects, whether of present or future contemplation, are important to the commercial development of our State not only for the purpose of providing transportation facilities at the lowest practicable cost, but also for the highest development of our industrial and commercial welfare, and should receive the encouragement and support not only of the Legislature but also of our commercial organizations and our citizens.

#### FLOOD CONTROL

For a number of years consideration has been given by the people of various sections of the State to the subject of flood control of streams which either periodically or frequently overflow large areas of marsh land and cause considerable damage to property and municipalities in the lower reaches of the valley affected. The last Legislature, by Chapter 218, authorized the board of chosen freeholders in certain counties to enter into contracts with municipalities for the erection of dams and other structures to arrest and control the flow of waters in such streams. There is a well developed movement afoot in the northern part of the State looking toward the control of the flood waters of the Passaic River, and it is proposed by the parties interested, that the excess flow of this stream in the upper reaches shall be impounded in a reservoir for the purpose of preventing floods. While several counties are involved, the question is whether the project is not a local one, susceptible of treatment by the region involved.

Such a project would necessarily take out of the ratables of the municipalities affected a large area of land which now produces revenue and would produce considerable local benefit by

placing the border properties on the shores of a lake. Engineering investigation and reports have been made on the Passaic Valley project and its sponsors now advocate the construction of the improvement at State expense. Since the matter is likely to come before the Legislature at this session, consideration should be given to the question of whether this is a project of sufficient territorial scope to be treated as a State project and paid for out of State funds or whether it should be treated as a local project financed by the regions affected, since objection to such a project may come from sections of the State receiving no benefit therefrom to appropriating State moneys for purposes which might be considered a local improvement.

There is some question also from an engineering standpoint whether the impounding of excess waters in a reservoir will serve the purpose unless the capacity of the reservoir is so far in excess of the normal requirements as to provide excess capacity for emergencies. In such a case there would be a considerable area of reserve margin which would be of little or no practical use except in case of emergencies. Elsewhere in the country where projects of this kind have been constructed part of the cost has been borne by the counties affected and the remainder by assessments against property owners in accordance with their benefits. In such cases the structures have not been dams to impound and hold the water in the form of lakes, but rather walls with openings sufficient to carry the normal flow of streams, but which would retard the excess flow and hold it to be gradually carried off by the openings in the wall. Such structures do not produce lakes and while the areas behind them are used for agricultural purposes they are subject to inundation during flood periods.

A commission has been appointed to investigate and report on this subject and careful consideration should be given to that report, particularly with regard to regions affected, benefits to be conferred, costs, and the means of defraying the same. This is a project of considerable magnitude and ample time should be allowed for consideration and discussions. It would probably be the wiser course to continue this commission another year for that purpose.

#### REGIONAL DISTRICTS

In the past several years the Legislature has authorized surveys to be made of matters of general concern affecting several counties comprising a substantial region of our State. I refer to flood control, meadow reclamation, potable water, and transportation.

The several commissions have given us comprehensive reports of the subjects committed to them, but there seems to be one common barrier to the practical consummation of all of them, viz., the lack of a governmental agency which could properly administer and finance such projects and distribute their costs over the zone of benefits.

It is evident that some agency must be created that can accomplish these purposes in order that the growth and development of these sections of our State may not be hindered. The Commission created last year to recommend a plan to administer inter-municipal, intercounty and interstate projects has this subject in hand. I hope they will be able to report definite recommendations as to a plan of governmental agency that can properly administer and finance these larger regional projects.

#### BEACH POLLUTION

Agreeable with the pledge made in my inaugural address of last year respecting the pollution of our beaches by garbage and refuse from the city of New York, I have, with the co-operation of the Legislature, caused the Attorney-General to institute, on May 13, 1929, an original action in the United States Supreme Court in the name of the State of New Jersey against the city of New York praying for an injunction to restrain the dumping of garbage at sea. Pleadings have been filed on both sides and a special master has been appointed to hear the testimony and advise a decree. Hearings were begun December 11, 1929, at Asbury Park, and will be continued until our testimony is completed. Twenty-nine New Jersey municipalities are directly affected and interested and the genuine co-operation of the officials and citizens of those municipalities has enabled the Attorney-General to prepare a vast amount of testimony and a great number of exhibits which present a formidable case. That proceeding will be prosecuted as rapidly as possible with the hope that some relief can be obtained in time to benefit our beaches during the coming summer season.

#### DELAWARE DIVERSION

In my inaugural address of last year I called attention to the tri-state treaty then pending before the Legislature for ratification. Before any action was taken thereon, information was received of the intention of the city of New York to immediately proceed with the development of a water supply project estimated to cost

\$272,587,000 00, involving the building of dams in five of the tributaries of the Delaware River in New York State to impound the run-off of 610 square miles of the Delaware river watershed and to divert therefrom as an additional water supply for the city of New York 600,000,000 gallons per day which the city of New York claims was in accordance with the provisions of the second tri-state treaty as ratified by the State of New York. The city of New York declared that its necessity for additional water supply was such that it could not wait for the ratification by either New Jersey or Pennsylvania and would therefore immediately proceed with its project Pursuant to the power conferred by Joint Resolution No. 14, approved April 16, 1929, the Attorney-General, with my approval, instituted, on May 13, 1929, an original action in the United States Supreme Court in the name of the State of New Jersey against the state and city of New York to restrain the erection of said dams and the proposed diversion of waters without the consent of New Jersey. Pleadings have been filed and our motion is now pending before the Supreme Court for injunction on hearing on bill and answer. The Attorney-General's brief has been completed and the hearing has been set for argument at Washington on the twentieth of this month. That case will be prosecuted to a final conclusion unless and until some mutually satisfactory compact has been ratified between the states.

#### DELAWARE BOUNDARY CASE

The boundary line between the states of Delaware and New Jersey has been the subject of dispute from Colonial days to the present time. At intervals actual warfare has developed among oystermen and fishermen of the two states who have attempted to dredge oysters or catch fish in the disputed area. In 1877, after a period of warfare with powder and ball, the Attorney-General of New Jersey instituted a suit in the United States Supreme Court to settle this question. The suit dragged along and was finally dismissed by consent and without prejudice, in 1906, after commissioners appointed by the Legislatures of each state had negotiated a treaty on jurisdiction and that treaty was ratified by the Legislatures of both states and approved by Congress. That treaty, however, by express reservation left undetermined the question of boundary line or territorial limits of the two states.

Since that time the Legislatures of the two states have appointed commissioners on a number of occasions to negotiate a

boundary treaty, but such negotiations have been unproductive of results. On April 16, 1929, while the Legislature was still in session, the latest appointed committee of New Jersey commissioners reported their inability to agree with the Delaware commissioners on the boundary line and the Legislature on April 17, 1929, adopted Joint Resolution No. 25, pursuant to which the Attorney-General, with my approval, instituted on June 3, 1929, an original action in the United States Supreme Court, for the establishment of the boundary line between the two states. That suit has progressed to the point that on January 6 a special master was appointed to hear the testimony and make a report. Hearings in that case will begin in the near future.

The present importance of the question of this boundary arises from the fact that within the disputed area lies a considerable portion of the only natural seed oyster bed available for either New Jersey or Delaware. The case is therefore of substantial financial importance to the State and its citizens.

#### LIGHTERAGE CASE

By Joint Resolution No. 28 the Attorney-General was instructed to investigate the transportation rates, regulations and practices affecting the commerce of the State of New Jersey and with my approval to take such action as he deemed necessary to remove any unlawful or unjust discrimination or preference prejudicial to the commerce of this State.

An investigation was made by the Attorney-General and his printed report of September 10, 1929, was submitted to me and has been distributed to the members of the Legislature.

That report reviews the history and decisions regarding lighterage and trucking service in New York harbor from 1825 down to the present time. It appears from that report that the freight handling cost in New York harbor is far in excess of that in any other port of the United States and that commerce to and from the east side of the port is handled at the same rates as are charged to the west side of the port or to any other place in New Jersey within the New York rate zone, which extends westward as far as Delaware River and southward to the vicinity of Trenton. A complaint was filed with the Interstate Commerce Commission in the name of the State of New Jersey against the several carriers involved alleging certain violations of the Act to Regulate Commerce, and particularly undue and unjust discrimination against New Jersey commerce in favor of New York City and other points on the east side of the port by reason of the

fact that they receive without extra charge a costly lighterage or trucking service in addition to the regular transportation service by railroad, which destroys the natural advantage of New Jersey's situation and deprives it of a competitive advantage which that location affords, and also particularly alleging violation of Section 6 of the Act to Regulate Commerce, which requires the separate statement in the published tariffs of the carriers of charges for such lighterage and trucking service and the collection of a separate charge therefor. The purpose of this proceeding is to require the assessment and collection for extra-transportation services whenever they are rendered in order that such commerce as does not require or receive such extra-transportation service will not be required to pay rates sufficient to cover the cost thereof to those who do receive it.

Answers have been filed by all of the defendant carriers and leave to intervene has been granted by the Interstate Commerce Commission to the state of New York, the city of New York, and 19 chambers of commerce, boards of trade, or traffic or commercial associations from different cities on the Atlantic seaboard. This is a very important case to the industry and commerce of New Jersey and for that reason will be ably and vigorously contested. The preparation of the case is in progress and it is likely to be set down for hearing in the near future.

The Attorney-General should receive the necessary support in the prosecution of the proceedings.

#### PUNISHMENT OF CRIME

In 1926 the Legislature repealed the Indeterminate Sentence Law. It will be recalled that under such law the Court in sentencing to the State prison had to prescribe a maximum and minimum term, with power in the board of managers of the prison to parole upon the expiration of the minimum term.

The right to so parole is still retained in such board as to prisoners sentenced under that act.

As is well known, our court of pardons under existing law, is constituted a parole board and has ample jurisdiction to grant to any convict undergoing imprisonment in any of the penal institutions of this State a license to be at large. The power to parole inmates of the New Jersey State prison should be vested solely in the court of pardons, and I recommend the enactment of such a law.

## JUVENILE OFFENDERS

By Chapter 157 of the last session the Legislature established a juvenile and domestic relations court in each county with *exclusive* jurisdiction of all cases involving children under 16 years of age, including truancy and some other minor offenses theretofore dealt with under the school law within the jurisdiction of local magistrates.

Aside from the harmful impression upon the mind of the child and its parents, which naturally springs from the abhorrent idea of being dragged off to the county seat for some minor offense like truancy, this change casts an inconvenient burden upon the school authorities who are now required to carry offenders and witnesses to and prosecute them at the county seats

I think this matter should receive your consideration and correction.

## BILL-DRAFTING BUREAU

In a Legislature where each of 81 members, many of whom are not lawyers, have the privilege, as they should have, of introducing bills and where the press of legislative duties is so great during certain parts of the session, when careful attention cannot be given to the form of such bills, it is not unnatural that errors should creep in. The importance of having bills passed by the Legislature in proper legal form and with proper relationship to existing law intended to be amended or supplemented, is illustrated by the fact that a large percentage of the cases in our courts involve the construction of acts of the Legislature, and valuable personal or property rights often depend not only upon the use of the English language, but even upon the punctuation of the sentences. My experience both in the Legislature and as Governor during the past year has impressed very strongly upon my mind the need of greater care of phraseology in legislation and the proper relationship between bills and existing law. I therefore cordially concur in the proposal of the legislative leaders to establish a system for examining and correcting, where necessary, the form of bills before they are enacted into law. I am satisfied that the large number of acts passed by the Legislature each year is due in part to duplications and the failure to incorporate in one bill cognate matters now carried in separate bills. For instance, last year there were 47 separate general acts concerning boroughs; 30 general acts relating to boards of chosen freeholders; 49 general acts relating to counties; 59 general acts relating to municipalities; 20 separate acts relating to pensions. Other

illustrations of numerous duplications of general acts relating to the same subject may be observed by an examination of the index to the laws. We also have instances of obvious omissions and errors which pass through the Legislature undiscovered and uncorrected. Last year a special session of the Legislature was necessary in order to correct two errors in legislation which should have been discovered before the final passage of the bills. There is also a marked inaptitude of language and a lack of correct punctuation which often produces a result contrary to the intention of the introducer or the Legislature. Acts are amended when they should be supplemented and vice versa. Amendments and supplements are introduced to acts that have been repealed. In my judgment the body of the statute law should be arranged under general heads and each should be supplemented or amended by relation to the main body of the law on that subject. Under the present method we pass during the session of the Legislature a number of bills relating to the same subject, changing the law in different particulars, but without relation to or mentioning the existing law or the sections thereof involved.

Competent supervision of bills with due regard to phraseology, punctuation and reference to existing law proposed to be amended or supplemented should result in accuracy and clarity of expression and a reduction in the number of laws necessary to be passed. The cost of such supervision would be inconsequential compared with the expense annually incurred in passing and printing unnecessary duplications and of the litigation involved in the judicial interpretation of ambiguous statutes.

#### OLD RECORDS

My attention has been called to the fact that many old and valuable State and county records are either neglected or kept stored in cellars of public buildings where it is a question whether proper preservation is being made of them. These records will become increasingly valuable as time goes on. It is stated that New Jersey is the only one of the thirteen original states which has not made definite provisions to preserve these old records. I believe they could be recovered and properly preserved at a nominal cost, and believe that effort should be made to this end without further delay.

On account of the close relationship between the functions of the Commission for Marking Historical Places, already in existence, with the collection and preservation of old records, I would recommend to the Legislature the advisability of increasing or

amplifying the powers of that commission so as to include these additional duties.

CONCLUSION

I look forward with absolute confidence to a business-like session which will adequately serve the real needs of the hour and yet omit legislative surplusage serving purely personal ends and clogging the statute books. I offer the fullest executive co-operation with regard to the personnel, or political authorship of bills, to the end that the session may well serve the purpose and needs of the people whom we represent.

Respectfully submitted,

MORGAN F. LARSON,

Mr. Wise offered the following resolution, which was read and adopted:

*Resolved,* That the privilege of the floor be extended to Judge Morris E. Barison, Past Minority Leader of the House of Assembly of New Jersey, a man who has served his State, his people, with great distinction to himself and to them, for the purpose of making a series of presentations

Judge M. E. Barison took the floor and with an appropriate speech presented Miss May Carty, Minority Leader of Hudson county, with an order for an automobile from the women and men of the ninth ward, Jersey City, and many other Hudson county friends. He also presented Assemblyman Schoenfeld, of Jersey City, with presents from the Greenville Democratic Club and the Young Men's Hebrew Association of Jersey City. He also presented Assemblyman Harry Vanderbach, of Guttenberg, Hudson county, with a diamond ring, a present from his parents.

Miss Carty offered the following resolution, which was read and adopted:

*Resolved,* That the privilege of the floor be extended to the Honorable Paul C. Supinski, former Assistant Attorney-General, for the purpose of making a presentation.

Hon. Paul C. Supinski took the floor and made several presentations to various members of the Hudson county delegation.

Mr. Demarest offered the following concurrent resolution, which was read and adopted:

A concurrent resolution memorializing the Federal Government, through the agency of the Department of War, to consider favorably the project for the construction of a sea level canal across the State of New Jersey from the Raritan Bay to the Delaware River

WHEREAS, There has been submitted to the War Department a favorable report upon the construction of a sea level canal across the State of New Jersey from Raritan Bay to the Delaware River; and

WHEREAS, Estimates of proposed tonnage show a saving in freight costs over those of the existing water route which will more than justify the proposed expenditure of ninety million dollars for the construction of this proposed sea level canal; and

WHEREAS, The State of New Jersey has from time to time, by legislative action, approved the existing canal route as monumented by the Federal Government and the Board of Commerce and Navigation, and has promised to the Federal Government full co-operation in the acquisition of land for the proposed waterway; and

WHEREAS, The construction of the proposed sea level canal will be the final link in the Atlantic intra-coastal chain of waterways, therefore,

*Be it resolved by the House of Assembly (the Senate concurring):*

1. The State of New Jersey reiterates to the Federal Government its prior pledge to purchase and cede to the United States a strip of land across the State of New Jersey adequate for the construction of such a canal.

2. The State of New Jersey urges the Federal Government, through the agency of the War Department, and its Board of Engineers for Rivers and Harbors, to consider favorably the report of the engineers for the second district upon this project to make a favorable recommendation to Congress and to the Chief of Engineers.

3. The Attorney-General is requested to attend the hearings, either in person, or by his representatives, to be held before the Board of Engineers for Rivers and Harbors, on January twenty-first and twenty-second, nineteen hundred and thirty, and to outline the statutes passed by the Legislature of the State of New Jersey in furtherance of the project.

4. That copies of this resolution be forwarded to the Secretary of War, the Chief of Engineers, and the United States Senators and members of the House of Representatives representing the State of New Jersey in the Congress of the United States, by the Clerk of the House of Assembly forthwith.

The Speaker announced the appointment of the following committees, which were read by the Clerk:

PORT RARITAN DISTRICT COMMISSION

January 27, 1930.

*Hon. Frederick A. Brodesser, House of the Assembly, Trenton, New Jersey:*

MY DEAR SIR:—Herewith we beg to submit the annual report of the Port Raritan District Commission.

Yours very truly,

C. S. ATKINSON,  
*Secretary*

Mr. Wise moved that the communication be received and spread in full upon the minutes and that the report be filed.

Which motion was adopted.

The following communication and resolution were sent to the desk and read by the Clerk.

NEW JERSEY AUTOMOBILE CLUB,  
NEWARK, N. J.

January 23, 1930.

*Hon. Frederick A. Brodesser, State House, Trenton, N. J.:*

DEAR SIR:—I present to you a Resolution passed by the Board of Trustees of this Club as of December 11th, 1929. There may be more than one method of handling this matter, but there can be no question of the necessity of prompt action for authorization of construction of the second set of tubes. It would greatly benefit New Jersey.

*Resolution*

WHEREAS, The Holland Tunnel will attain a traffic saturation point by 1932, and possibly before; and

WHEREAS, it is estimated that it will return a gross revenue by 1932 of Nine Million Dollars a year, and as a net return of approximately Seven Million Five Hundred Dollars per year is sufficient to enable New York to provide for a second set of tubes, and for New Jersey to discharge the present Holland Tunnel bonds and at the same time carry the interest and amortization of bonds for the new tunnel pending its construction, thereby proving that a second tunnel is possible without inflicting any burden on the taxpayer; and

WHEREAS, the need for a second tunnel will exist before it is possible to finish same even if construction is started at once; and

WHEREAS, New York City is now constructing a set of tubes under the City and the East River; therefore

BE IT RESOLVED, that the Board of Directors of the New Jersey Automobile Club do hereby approve of the immediate construction of a second set of tubes under the river, to be located approximately opposite 38th Street, New York City, which will connect with the New 38th Street City tubes, and be it further resolved that the General Manager be instructed to send a copy of this Resolution to each member of the Legislature.

May we ask for your support,—and state that in our judgment, the present Holland Tunnel Commission is the proper body to do this work.

Very truly yours,

NEW JERSEY AUTOMOBILE CLUB,  
H. D. BOWMAN,  
*Genl. Manager.*

COMMISSION ON FLOOD CONTROL,  
NEWARK, N. J.

January 27, 1930.

*Honorable William B. Knight, Speaker of Assembly, State House, Trenton, N. J.:*

DEAR SIR:—We hand you herewith the report of your Commission appointed under Joint Resolution No. 19 of the Session of 1929 (P. L. 1929, p. 828), to investigate, inquire into and report methods and probable cost of controlling floods and drainage of wet lands in Northern New Jersey.

The Commission is ready to terminate its affairs as soon as its services are no longer required, and will submit the financial report some time before the close of this session of the Legislature.

Respectfully submitted,

ZENAS G. CRANE,  
*Chairman.*

Mr. Wise moved that the communication be received and spread in full upon the minutes and that the report be filed.

Which motion was adopted.

The following communication and data folder were sent to the desk and read by the clerk.

HOBOKEN CHAMBER OF COMMERCE,  
HOBOKEN, N. J.

*To the General Assembly:*

Attention: Mr. Frederick Brodesser, *Clerk*,

As you are doubtless aware, the citizens and the taxpayers of the City of Hoboken have organized a non-partisan committee group called the "City Pier Committee," composed of leading representative business and professional men of Hoboken, for the purpose of endeavoring to have Congress enact legislation directing the U. S. Shipping Board to sell to the highest bidder or bidders for cash, the Shipping Board properties located in Hoboken which were seized from their German owners by the United States shortly after we entered the World War.

Bills are now pending in Congress to this effect—H. R. 5273 introduced on December 18, 1929, by the Honorable Oscar L. Auf der Heide, and S.-2757 introduced on December 18, 1929, by Honorable Hamilton F. Kean, both bills being identical. This committee is endeavoring to have one or the other of these bills passed by Congress at this session in order that these properties may be returned to the Tax Ratables of the City of Hoboken at the earliest possible date. The personnel of the committee is revealed in the enclosed folder which also presents Hoboken's case in full.

You are further doubtless aware of the fact that the U. S. Government has refused to pay any taxes on these properties since title to and possession of these properties were expropriated from their original owners by the United States as of June 28, 1918. The City of Hoboken, as a result of the government operation of these properties and their being forcibly and against the will and over the protest of the City of Hoboken classed as exempt property, has lost taxes on these properties for over eleven years or nearly \$4,000,000 to date. The state of New Jersey and county of Hudson have lost their proportion of taxes on these properties also for the same reason.

These properties have not been utilized to their normal capacities since the U. S. Shipping Board took possession of them on January 1, 1921. By reason of their not having been utilized to the extent they were prior to the World War the merchants and business people of Hoboken have lost millions of dollars in trade.

On January 20, 1930, the Honorable Frank Bucino, the General Chairman of this committee and an Assemblyman from Hudson County, introduced in the Assembly, Joint Resolution No. 2 which proposes to memorialize Congress to expedite the passage of one or the other of the above mentioned bills now pending in Congress. By reason of the limitations imposed by the Legislative Manual, the statement of fact which accompanies this Joint Resolution (being limited to 450 words), this committee feels that the membership of the 1930 Legislature of New Jersey should be more fully acquainted with the facts in this case than we were able to set forth in the preamble of said Assembly Joint Resolution No. 2 and the short statement appended thereto. We are, accordingly, enclosing you a printed copy of a folder containing data on the acquisition of these properties by the U. S. Government and the effects of the government operation of these properties upon the City of Hoboken. This folder contains a copy of H. R. 5273 which is also a copy of S. 2757 relating to these matters and now pending in Congress.

We sincerely trust that you will read over these matters carefully and lend your aid in expediting the passage of Assembly Joint Resolution No. 2, which we believe will greatly assist in securing early passage of one or the other of the bills now pending before Congress.

Yours very truly,

CITY PIER COMMITTEE,  
W. A. D. EVANS,  
*Chairman Ex. Com.*

R. R. RIESER,  
*Secy.*

Mr. Wise moved that the communication be received and spread in full upon the minutes and that the data folder be filed.

Which motion was adopted.

Miss Carty offered the following resolution which was read by the clerk.

WHEREAS, there has appeared in the public press information said to be parts of a report obtained by the commission appointed under Joint Resolution No. 2 of the one hundred fifty-third session of this Legislature; and

WHEREAS, it is desirable that the members of this Legislature be intelligently informed as to the contents of this report; therefore be it

*Resolved*, that the Governor be requested to furnish each member of this House with a copy of this report or such portion thereof as he intends to make public; and be it further

*Resolved*, that a copy of this resolution be forwarded to the Governor by the clerk.

Mr. Siracusa moved that the resolution be referred to the Committee on Judiciary.

Which motion was adopted.

Mr. Spair, Chairman of the Committee on Commerce and Navigation, reported Assembly Bill No. 23.

Favorably, without amendment.

Mr. Wise offered the following concurrent resolution which was read and adopted:

A Concurrent Resolution for the appointment of a commission consisting of the Governor of this State, or his representative, the President of the Senate and two Senators to be named by him, the Speaker of the House of Assembly and two members of the House to be named by the Speaker, who shall constitute a commission to meet with a like commission selected by the Legislature of the State of New York, to confer upon the subject of the necessity of taking immediate steps to provide for the future construction of transportation facilities between the State of New Jersey and the State of New York; and further to determine how such transportation facilities shall be constructed, in the event it is agreed that steps for the construction of such facilities should now be taken.

*Be it resolved by the House of Assembly* (the Senate concurring):

WHEREAS, it is apparent that interstate traffic between the State of New York and the State of New Jersey is increasing with such rapidity, that the existing projected facilities for transportation will soon be insufficient, and in view of the fact that several years will be required for the construction of any new vehicular tunnel or bridge, and the initiation of any new construction should soon be undertaken; and

WHEREAS, any action with regard to the construction of additional transportation facilities between the two States must be taken by the States jointly; and

WHEREAS, for the reasons stated it is apparent that representatives of the two States should confer in order to consider the matters to which this resolution relates; therefore:

1. A commission consisting of the Governor of this State, or his representative, the President of the Senate and two Senators to be named by him, the Speaker of the House of Assembly and two members of the Assembly to be named by the Speaker, are constituted a commission to confer with a like commission, when, and if selected by the Legislature of the State of New York, upon the subject of the necessity of taking immediate steps to provide for future construction of transportation facilities between the State of New Jersey and the State of New York, and to determine what transportation facilities should be constructed in the event it be determined that steps for the construction of such facilities should now be taken.

2. This resolution shall take effect immediately.

Ordered, that the Speaker sign the said Concurrent Resolution, and that the Clerk carry it to the Senate and inform the Senate that the House of Assembly has passed the same, and requests its concurrence therein.

Mr. Wise offered the following Concurrent Resolution which was read and adopted:

A Concurrent Resolution for the appointment of a commission consisting of the Governor of this State, or his representative, the President of the Senate and two Senators to be named by him, the Speaker of the House of Assembly and two members of the House to be named by the Speaker, who shall constitute a commission to meet with the Governor of the Commonwealth of Pennsylvania, and to confer upon the subject of the necessity of taking immediate steps to provide for the future construction of transportation facilities between the State of New Jersey and the Commonwealth of Pennsylvania; and further to determine how such transportation facilities shall be constructed, in the event it is agreed that steps for the construction of such facilities should now be taken.

*Be it resolved by the House of Assembly (the Senate concurring):*

WHEREAS, it is apparent that interstate traffic between the Commonwealth of Pennsylvania and the State of New Jersey is increasing with such rapidity, that the existing projected facilities

for transportation will soon be insufficient, and in view of the fact that several years will be required for the construction of another proposed vehicular tunnel or bridge; and

WHEREAS, any action with regard to the construction of additional transportation facilities between the States must be taken by the States jointly; and

WHEREAS, for the reasons stated it is apparent that representatives of the two States should confer in order to consider the matters to which this resolution relates, therefore:

1. A commission consisting of the Governor of this State, or his representative, the President of the Senate and two Senators to be named by him, the Speaker of the House of Assembly and two members of the Assembly to be named by the Speaker, are constituted a commission to confer with the Governor of Pennsylvania upon the subject of the necessity of taking immediate steps to provide for future construction of transportation facilities between the Commonwealth of Pennsylvania and the State of New Jersey, and to determine what transportation facilities should be constructed in the event it be determined that steps for the construction of such facilities should now be taken.

2. This resolution shall take effect immediately.

Ordered, that the Speaker sign the said Concurrent Resolution, and that the Clerk carry it to the Senate and inform the Senate that the House of Assembly has passed the same, and requests its concurrence therein.

Mr. Wise offered the following resolution which was read and adopted:

*Resolved*, That when the House adjourn it be to meet on Thursday morning at 10 o'clock, and that when it then adjourn it be to meet on Saturday morning at 10 o'clock, and that when it then adjourn it be to meet on Monday evening at 8 o'clock.

COMMISSION ON REVISION AND  
CONSOLIDATION OF  
PUBLIC LAWS

February 3d, 1930.

*Hon Frederick A Brodesser, Clerk of the House of Assembly,  
State House, Trenton, N. J :*

DEAR SIR—I hereby transmit to the Senate and General Assembly of the State of New Jersey a report of the Commission on Revision and Consolidation of Public Statutes, covering the period between February 21, 1929, and January 28, 1930. This report is made in pursuant with Chapter 73 of the Laws of 1925.

Very truly yours,

FRANK TRANSUE,  
*Secretary.*

January 28th, 1930.

*To the Members of the Senate and General Assembly of the State  
of New Jersey*

The Commission for the Revision and Consolidation of the Public Statutes respectfully presents this its annual report :

We presented reports to the sessions of the Legislature for the years 1928 and 1929, to which reports we respectfully refer. Those reports showed the progress of the work of compilation and revision to their dates respectively.

With the report in 1928 there were submitted bills for the repeal of 405 statutes not theretofore expressly repealed but which had been repealed by implication or superseded by later legislation. Those repealers were enacted into law. In our report submitted in the year 1929, we stated that the different revisers who were then dealing with the legislation in particular topics had found in their work and recommended for repeal a large number of additional statutes which had become inoperative because impliedly repealed or held to be unconstitutional by courts of competent jurisdiction, and that it was our belief that at the present session of the Legislature a further very substantial number of such acts could be submitted for repeal. With the aid of our revisers this work has been accomplished and we respectfully submit to the Legislature with this report two bills which will, if enacted, together repeal 843 acts or parts of acts now on the statute books. To this extent, it has been necessary

to clear away portions of what might be called the underbrush standing in the way of an effective revision and clarification of the statute law.

There are, undoubtedly, a number of additional acts which have for one reason or another become obsolete, but concerning the propriety of whose repeal we are at this time undecided and which will have to be considered further.

We have divided the acts which are now to be submitted for repeal to the Legislature into two groups, each of which is contained in a separate repealer bill as follows:

(1) Those acts and parts of acts entirely superseded by other statutes, but not expressly repealed. These are 711 in number

(2) Those acts and parts of acts which have been rendered inoperative by decisions of competent courts as unconstitutional and have not been rendered effective by subsequent legislation. These are 132 in number

The enactment of these measures into law will materially aid in the work of revision.

Originally, the commission felt that the actual work of revising the statutory material assigned to each of the sixty-seven main titles under which it is planned to group all existing legislation could be delegated to various counsellors-at-law of the State, who in their respective practices had become particularly well versed in the subjects proposed to be assigned to them. Up to the present time this plan has been followed with varied degrees of success. One difficulty with it has been that the other demands made upon the time of those so situated have frequently prevented them from devoting the required time to revision work.

This work is, therefore, being increasingly centered in the office maintained by the commission in Trenton, which is in charge of Mr. Richard E. McIntosh, who has had a large experience in revision, compilation and legal editorial work, as well as in the general practice of law before the courts. Under his supervision there are now engaged in the revision of the most difficult and important statutes, Messrs. Martin S. Chandler and George F. Kneip, each of whom was employed for a number of years in similar work by the West Publishing Company and have large experience therein. In addition to these men, the commission now employs five young men in the revision of other statutes, three of whom are graduates of Columbia Law School, one a graduate of the Law School of the University of Michigan, and the other a member of the New Jersey Bar. All of these gentle-

men devote **their entire time** to the work. In addition to those so employed, there are in the Trenton office the number of stenographers, copyists and clerks necessary to transcribe, type, check and compare revision material constantly being received from the revisers working within and without the office.

The commission has also availed itself of the services of other men who may also properly be termed "specialists" in the particular line of work they are now doing for it. One of these is Mr. Herbert Boggs, of Newark, formerly Assistant Attorney-General and Corporation Counsel for the City of Newark, who is devoting almost his entire time to the important and voluminous legislation relating to municipalities. It is estimated that in volume this title alone makes up one-fifth of the statute law of the State. Professor Richard R. Powell, one of the ablest authorities on real property in the United States, who is a resident of this State and a professor in the Law School of Columbia University, has practically completed a revision of all of the statutory law pertaining to real estate. Under the direction of the commission the results of this important task are now being embodied in an entirely new Real Property Act, which it is hoped can be presented to the Legislature in time for its consideration during the present session. It is felt that by means of such a new act the great body of law now in force relating to real estate, which at present is scattered throughout the compiled statutes in laws relating primarily to many separate matters, will at an early date be embodied in one comprehensive statute. An additional purpose of this proposed legislation is the abolition of archaic forms and provisions of law affecting real estate transactions, which although originating in feudal times are still in effect, confusing and dangerous.

The magnitude of the task which has been entrusted to the commission results primarily from the fact that nothing approaching a general revision of the laws of New Jersey has heretofore been undertaken since 1846 (when the volume of statutory law was insignificant compared with today), the Revision of 1874 having been only a limited or partial one. Therefore, all laws which have been enacted since Colonial times, and not heretofore expressly repealed, must be studied to ascertain the extent to which each thereof may still be in force. One of the many problems the commission is constantly facing may be illustrated by reference to many court decisions, in which the construction of a single act, or a single section of an act, or the question of its existence as law because of subsequent legislation, has presented a troublesome question. The commission is required to pass upon and settle literally thousands of similar questions

Numerous titles have been entirely rewritten, checked and approved by the commission and it is hoped that these are now in practically final form. In the case of a number of other titles, a reviser has completed and submitted to the commission either the entire title or various chapters contained in the material assigned to him.

As the material is received, it is minutely examined for the purpose of achieving certainty that every statute which is now in existence is brought under examination. The work is then forwarded to the members of the commission for their examination to be returned with suggestions, criticisms, and questions that have arisen. This work is in the first instance considered by the commissioners separately and then taken up in conference, discussed and disposed of and directions are then given to the revisers as to the course to be pursued.

We expect to put the revision in such form that after its final adoption, amendments or supplements may be made to it by reference to a particular section, so that the statute law may be kept consistent and readily ascertainable.

Respectfully submitted,

Report to the Legislature of New Jersey of the Commission Created by Concurrent Resolution of the Legislature, Passed April 17th, 1929, for the purpose of inquiring into the question of financing the public share of the cost of the alteration or elimination of railroad crossings on public highways other than those included in the State Highway System, on the basis of equal division of the cost thereof between the public and the railroad companies affected.

## REPORT

*To the Legislature of the State of New Jersey:*

The Legislature of 1929 adopted the following concurrent resolution:

“Concurrent Resolution for the continuation of the Joint Commission appointed under a concurrent resolution of the Legislature of 1928, for the purpose of inquiring into the question of the elimination or alteration of railroad crossings.

WHEREAS, The Joint Commission appointed under the concurrent resolution adopted by the Legislature of 1928 has made a report to the effect that it would seem fair and just, and in the public interest, that legislation be enacted providing for the compulsory elimination or alteration of railroad crossings on State highways and that the cost and expense thereof be equally divided as near as

may be between the State and the railroad companies affected; and as to the elimination or alteration of railroad crossings on highways other than those included in State Highway System that the cost and expense should be divided equally between the railroad companies and the public, meaning the users of the highways, and that a means should be provided to pay the public share thereof and that the matter of elimination or alteration of railroad crossings is essentially a State problem; and

WHEREAS, By the enactment into law of Chapter 88, P. L. 1929, the recommendation of the commission as to the compulsory elimination or alteration of railroad crossings on highways, included in the State Highway System is carried out in accordance with said recommendation; and

WHEREAS, A means of financing the cost and expense of elimination or alteration of railroad crossings on public highways other than those included in the State Highway System should be provided before the enactment of legislation for that purpose.

BE IT RESOLVED by the Senate (*the House of Assembly Concurring*):

1. There shall be appointed by the President of the Senate two members of the Senate, and by the Speaker of the House of Assembly two members of the House, who shall constitute a Joint Commission for the purpose of inquiring into the question of financing the public share of the cost of the alteration or elimination of railroad crossings on public highways other than those included in the State Highway System, on the basis of equal division of the cost thereof between the public and the railroad companies affected, and to make a report thereon at the next regular session of the Legislature, including the formulation and presentation of an act for that purpose and to provide means for the financing of the public share of the cost and expense thereof.

2. The Commission shall organize by the selection of a chairman and secretary, and is authorized to request the State Highway Commission, the railroad companies and the

Board of Public Utility Commissioners to furnish such information, co-operation and assistance as they can reasonably render for the accomplishment of the purposes of this concurrent resolution.

3. This resolution shall take effect immediately."

The undersigned, appointed as a commission thereunder, have inquired into the questions stated in section one of said concurrent resolution, and hereby report thereon.

A study of conditions during the past year has confirmed the views expressed in a report of a similar commission to the Legislature at the 1929 session; namely, that the danger at highway grade crossings is constantly increasing as the use of the highways by motor vehicles increases. Formerly the element of danger applied almost entirely to the users of the highways, but with the increasing size and weight of motor trucks and busses a serious element of danger to the travelers on the railroad trains has come into existence. A number of such accidents has occurred in this State in which trains were derailed and some serious injuries have resulted to passengers on the trains.

The tabulation of grade crossing accidents during the year 1929, annexed hereto as Appendix "A," destroys another theory which has generally prevailed; namely, that safety could be accomplished by the protection of crossings by gates or flagmen or by audible or visible signals. Gates were formerly supposed to be the most effective means of protection, yet during the past year the number of accidents occurring at crossings protected by gates or flagmen, or both, is substantially equal to the number of accidents that have occurred at crossings having no protection except crossing signs. This tabulation also shows the error of a former assumption that if the highway traveler was given a warning of the approach of a train, the exercise of his own judgment would be sufficient for his protection. More than twenty-five per cent. of all the accidents that occurred last year were at crossings where audible or visible signals were provided.

These several means of protection were sufficient in the days of horse-drawn vehicles, but in the day of the rapidly-moving

motor vehicle it appears to be unsafe to rely upon the judgment of the driver, even though he may be given audible or visible warning of the approach of the train.

The policy of an equal division of the expense between the public and the railroad companies already in force in a substantial majority of the States was adopted by the Legislature with regard to crossings on State highways by the enactment of Chapter 88, Laws of 1929 (p. 138), and with respect to crossings on highways other than State highways by the adoption of the concurrent resolution, above quoted, under which this commission has acted.

#### PROPOSED LEGISLATION

To effectuate this purpose with respect to crossings on highways other than State highways, we have prepared and submit herewith as Appendix "B" a proposed act. In considering how this could best be accomplished, careful attention has been given to the question of whether a new act should be submitted or whether we should undertake to amend the existing Fielder act (Chapter 57, Laws of 1913, p. 91). We have decided to adopt the latter course for the reason that that act has been construed by the courts, including the United States Supreme Court, and the jurisdiction of the board and the procedure thereunder has been definitely established and is familiar to the Board of Public Utility Commissioners and the public. Appendix "B" annexed hereto undertakes to amend the Fielder act in the following particulars:

1. It expressly limits the act to grade crossings on highways other than State highways, on the theory that Chapter 88, Laws of 1929, already covers the subject of State highways.

2. It applies the act to crossings of the tracks of more than one railroad, if the two railroads adjoin or are in such close proximity to each other as to necessarily involve one elimination project in order to carry the highway over or under the railroad. This is done because in a number of cases objection has been made to the orders of the board on the ground that it has no express authority under the Fielder act to order in one proceeding the elimination of a grade crossing over two or more railroads.

3. It changes section two from the present requirement that all the expense shall be paid by the railroad company, to an equal division of the cost between the public and the railroad company or companies involved, after the deduction of whatever percentage the commission may assess upon a street railway company using the highway at the crossing.

4. Section three is repealed. That section required municipalities to pay the cost of removing or relocating municipal water, sewer or other pipes or facilities in the street, and the expense of paving, curbing and flagging the highway after the crossing elimination was accomplished. We propose to relieve municipalities of this expense, for the reason that on highways where conditions are such as to require elimination of grade crossings a substantial proportion of the traffic is through traffic, and if the problem of eliminating grade crossings is to be a State problem, as stated in the report of the committee last year and repeated in the resolution appointing this committee, there appears to be no reason why the municipalities should be required to pay a part of the cost, which under the present act is always indefinite in amount. Furthermore, it is proposed by a companion bill to pay the public share of the cost of eliminating grade crossings under this act out of the proceeds of the gasoline tax, to which the citizens of the cities make substantial contributions. Consequently, they are already paying, indirectly, under the method of financing hereinafter discussed, their proportion of the cost.

5. Section five is changed to include a county, as well as a municipality, for the reason that the act ought to be applicable to county highways, as well as municipal highways.

#### METHODS OF FINANCING

In the committee's report of last year mention was made of an increase of one-half cent per gallon in the gasoline tax as a means of providing funds to defray the public share of the cost of eliminating grade crossings on the basis of an equal division of the cost. After careful consideration of this subject, we have reached the conclusion that any form of increased taxation should be avoided if possible, and it seems possible to do so and still carry

out the purpose of this proposed legislation. The existing gasoline tax of two cents a gallon has, during the past year, exceeded by approximately \$2,000,000 the most sanguine expectations. The proceeds of the gasoline tax is constantly increasing and is bound to produce more and more revenue each year as the use of gasoline increases.

Since the public benefit resulting from the elimination of grade crossings will inure primarily to motor vehicle traffic, it seems logical that the public share of the cost thereof should come out of the tax revenues which this particular class of traffic produces in the way of a gasoline tax, and since the municipalities were deprived by the enactment of the gasoline tax law of a substantial amount of local revenue, which they theretofore received from taxing automobiles, it seems fair that a portion of the proceeds of that tax should be returned to the benefit of the municipalities in the form of the elimination of their grade crossings.

In view of the amount of the proceeds of the gasoline tax in excess of expectations therefrom, we are satisfied that two million dollars a year of the moneys derived therefrom can be applied to pay the public share of the cost of eliminating grade crossings without depriving the departments or purposes defined in that act of any money which they had reason to expect from that source.

Some consideration was given to the amount of money that should be provided to defray the public share of the cost, since that amount would govern the total annual expenditure for grade crossing elimination, on the basis of the equal division of cost. It is good policy to eliminate the dangerous grade crossings as fast as possible, and while it might be desirable to provide larger sums for that purpose, if they could be found, there are certain practical considerations which govern our conclusions; namely, under Chapter 88, the Highway Department is directed to prepare and carry out an annual program relative to crossings of State highways over railroads involving the expenditure of two million dollars on behalf of the State and a like amount on behalf of the railroads. The necessity of avoiding unnecessary interference with the flow of traffic on both the highways and rail-

roads, and the practical limitations which govern the progress of construction work of that character, have influenced our conclusion that if another two million dollars is provided for the elimination of grade crossings on municipal and county highways and the requirement of a like amount to be expended by the railroad companies for that purpose, we will then have in effect grade crossing programs aggregating eight million dollars per year, half of which is to be provided by the State and the other half by the railroad companies. We believe that this amount is as large as either the State or the railroads can consistently provide. Such an annual program would certainly carry forward the progress of grade crossing elimination at a much greater rate than has ever occurred in the past.

In order that the Board of Public Utility Commissioners, which has jurisdiction over this subject, may know how much money will be available for the purpose and that it may have such money convenient for use when required, we have proposed in the financing bill which we submit herewith as Appendix "C" in the form of an amendment to the gasoline tax act, that a specific amount shall be apportioned and paid out of the proceeds of that tax directly to the Board of Public Utility Commissioners to be kept by it in a separate account for that purpose.

We respectfully submit this report for the consideration of the Legislature and recommend the introduction and passage of the two acts annexed hereto as Appendices "B" and "C."

## APPENDIX "B"

(Chapter 57, P. L. 1913, p. 91)

AN ACT to amend an act entitled "A supplement to an act entitled 'An act concerning public utilities; to create a Board of Public Utility Commissioners and to prescribe its duties and powers,' approved April twenty-first, one thousand nine hundred and eleven," approved March twelfth, one thousand nine hundred and thirteen.

BE IT ENACTED by the Senate and General Assembly of the State of New Jersey:

1. Section one of said act is hereby amended to read as follows:

1. Whenever a public highway, other than a State highway, and the tracks of a railroad, or of more than one railroad, whose rights of way adjoin or are in such close proximity to each other as to be necessarily involved in one elimination project, cross each other at the same level and it shall appear to the board that such crossing is, or such crossings are, dangerous to public safety, or that the public travel on such highway is impeded thereby, the Board of Public Utility Commissioners may order the company, or companies, operating such railroad, or railroads, within such time as said board may fix, to alter such crossing, or crossings, according to plans to be approved by said board, by substituting therefor a crossing, or crossings, not at the grade of such public highway either by carrying such public highway under or over such railroad, or railroads, or by reconstructing such railroad, or railroads, under or over such public highway, or by vacating, relocating or changing the lines, width, direction or location of such highway and the opening of a new highway in the place of the one ordered vacated.

2. Section two of said act is hereby amended to read as follows :

2. The entire expense of such alterations, changes, relocation or opening, including damages to adjacent property, shall be paid fifty per centum by such railroad company, or companies, involved and fifty per centum by said board out of funds to be provided for that purpose under the provisions of an act passed at this session of the Legislature entitled "An act to amend an act entitled 'An act to impose a tax on the sale of motor vehicle fuels as herein defined to be paid by distributors as herein defined; regulating the sale of such fuels; providing for the collection of said tax, for reports of sales of such motor fuels, and for the disposition of the revenue derived from such tax, and fixing penalties for the violation of the terms thereof,' passed April first, one thousand nine hundred and twenty-seven," unless a street

---

railway uses such crossing, or crossings, in which event the board may order not exceeding ten per centum of such expense directly chargeable to the crossing, or crossings, used by the street railway company, to be paid by the company operating such street railway and the balance to be paid [by the company operating such railroad,] as herein provided.

3. Section three of said act is hereby repealed.

4. Section five of said act is hereby amended to read as follows.

5. The board or body having charge of the finances of any municipality or county [wherein] having jurisdiction over any such highway [crossing exists], may present to the Board of Public Utility Commissioners a petition in writing setting forth the facts upon which relief under this act is sought, or upon the petition of any railroad company, or companies, whose tracks cross or are crossed at grade, or said Board of Public Utility Commissioners may, of its own motion, proceed with respect to any such crossing, or crossings; whereupon said Board of Public Utility Commissioners shall fix a time and place for a hearing before it and shall give such notice thereof as it shall deem reasonable to the municipality or county and to the corporations, partnerships or individuals interested therein and after such hearing, shall determine or order what, if any, alterations to or changes in or connected with such crossing, or crossings, and public highway shall be made.

5. This act shall take effect immediately.

---

#### STATEMENT

The purpose of this act is to expedite the elimination of dangerous grade crossings by applying to crossings, other than State highways, the same division of expense between the public and

railroad companies as was provided by Chapter 88, Laws of 1929 (p. 138), with respect to crossings on State highways.

### APPENDIX "C"

(Chapter 334, P. L. 1927, p. 782)

AN ACT to amend an act entitled "An act to impose a tax on the sale of motor vehicle fuels as herein defined to be paid by distributors as herein defined; regulating the sale of such fuels; providing for the collection of said tax, for reports of sales of such motor fuels, and for the disposition of the revenue derived from such tax, and fixing penalties for the violation of the terms thereof," passed April first, one thousand nine hundred and twenty-seven.

BE IT ENACTED by the Senate and General Assembly of the State of New Jersey:

1. Section eight of said act is hereby amended to read as follows:

8. Moneys received in accordance with this act shall be accounted for and forwarded by the Commissioner of Motor Vehicles to the Treasurer of the State of New Jersey, to be paid out and distributed by him as follows:

(a) To the Board of Public Utility Commissioners, two million dollars (\$2,000,000.00) per annum to be used by it to defray the public share of the cost of eliminating grade crossings under the provisions of an act passed at this session of the Legislature entitled "An act to amend an act entitled 'A supplement to an act entitled "An act concerning public utilities; to create a Board of Public Utility Commissioners and to prescribe its duties and powers," approved April twenty-first, one thousand nine hundred and eleven,' approved March twelfth, one thousand nine hundred and thirteen";

(b) The amount appropriated by the Legislature in any annual or supplemental bill to defray the expense of the Motor Vehicle

Department by reason of the provisions of this act which said sum shall become a part of the general State funds;

(c) To the Department of Commerce and Navigation, the sum of ninety thousand dollars (\$90,000) to be used for the construction, reconstruction and maintenance and improvement of the inland waterways;

(d) To the State Highway Commission, the remainder of said moneys to be used for the construction of roads and bridges, included in the State highway system as now or hereafter laid out.

[to be used by the State Highway Commission for the construction of roads and bridges included in the State highway system as now laid out or as the said system may be revised, relocated and laid out by any act of the nineteen hundred and twenty-seven Legislature; *provided, however*, that there shall first be deducted from the moneys as aforesaid the amount appropriated by the Legislature in any annual or supplemental bill to defray the expenses of the Motor Vehicle Department by reason of the provisions of this act, which said sum so deducted shall become a part of the general State funds; *and provided, further*, that there shall first be deducted from the money so received by the Commissioner of Motor Vehicles the sum of ninety thousand dollars (\$90,000) which said sum is to be used by the Department of Commerce and Navigation for the construction, reconstruction and maintenance and improvement of the inland waterway; *and provided, further*, that it shall be the duty of the Commissioner of Motor Vehicles to ascertain as nearly as may be the amount of revenue derived from the tax provided in this act from motor boats and to report to the next Legislature the estimated amount of such tax for the next fiscal year.]

2. This act shall take effect immediately.

STATE OF NEW JERSEY,  
SENATE CHAMBER,  
February 3rd, 1930. }

*Mr. Speaker:*

I am directed by the Senate to inform the House of Assembly that the Senate has concurred in the following concurrent resolution:

A concurrent resolution for the appointment of a commission consisting of the Governor of this State, or his representative, the President of the Senate and two Senators to be named by him, the Speaker of the House of Assembly and two members of the House to be named by the Speaker, who shall constitute a commission to meet with the Governor of the Commonwealth of Pennsylvania, and to confer upon the subject of the necessity of taking immediate steps to provide for the future construction of transportation facilities between the State of New Jersey and the Commonwealth of Pennsylvania; and further to determine how such transportation facilities shall be constructed, in the event it is agreed that steps for the construction of such facilities should now be taken.

*Be it resolved*, by the House of Assembly (the Senate concurring):

WHEREAS, It is apparent that interstate traffic between the Commonwealth of Pennsylvania and the State of New Jersey is increasing with such rapidity, that the existing projected facilities for transportation will soon be insufficient, and in view of the fact that several years will be required for the construction of another proposed vehicular tunnel or bridge; and

WHEREAS, Any action with regard to the construction of additional transportation facilities between the states must be taken by the states jointly; and

WHEREAS, For the reasons stated it is apparent that representatives of the two states should confer, in order to consider the matters to which this resolution relates, therefor:

1. A commission consisting of the Governor of this State or his representative, the President of the Senate and two Senators to be named by him, the Speaker of the House of Assembly and two members of the Assembly to be named by the Speaker, are constituted a commission to confer with the Governor of Pennsylvania upon the subject of the necessity of taking immediate steps to provide for future construction of transportation facilities between the Commonwealth of Pennsylvania and the State of New Jersey, and to determine what transportation facilities should be constructed in the event it be determined that steps for the construction of such facilities should now be taken up.

2 This resolution shall take effect immediately.

OLIVER F. VAN CAMP,  
*Secretary of the Senate.*

DEAR MR. BRODESSER—I am enclosing a program of our coming Conference on Politics. I would appreciate it if you would post this notice with an invitation to the members of the Assembly to attend any or all of the meetings of our conference.

Very truly yours,

C. R. ERDMAN, JR.

Mr. Wise moved that the communication be received and placed on file and affixed on House Bulletin Board.

Which motion was adopted.

The following communication was sent to the desk and read by the clerk:

WHEREAS, As it has been drawn to our attention that Assembly Joint Resolution No. 6 is designed to initiate and finance an investigation of the conditions surrounding migratory juvenile labor in New Jersey,

WHEREAS, At the instance of a New Jersey agricultural organization, the New Jersey State Department of Agriculture has already begun a thorough and impartial investigation of this problem and placed upon this work a man notably able in these matters,

WHEREAS, The said New Jersey State Department of Agriculture will carry out this investigation without special appropriation therefor; now

*Be it resolved,* That the Agricultural Progress Association opposes the passage of Assembly Joint Resolution No 6 as unnecessary to secure the needed information and as involving unnecessary expenditures of public funds

Done at Camden, N J, February 21st, 1930

ISAAC HARRISON,  
*President Agricultural Progress Association.*

STATE OF NEW JERSEY,

SENATE CHAMBER,

February 25th, 1930.

*Mr. Speaker:*

I am directed by the Senate to inform the House of Assembly that the Senate has passed the following concurrent resolution:

WHEREAS, The platforms of the two great political parties of this nation advocate the maintenance of an adequate system of national defense; and

WHEREAS, The people of New Jersey have ever been in the front rank when the safety of this nation has been endangered; and

WHEREAS, The organized reserve will, in case of a national emergency, constitute by far the largest component of the Army of the United States and should therefore receive proper training and equipment; and

WHEREAS, The Reserve Officers' Association of the United States, a patriotic body of citizens of whom the great majority have had active service in the Army of the United States during the late war, have requested the Committees on Appropriations of the House of Representatives and the Senate of the Congress of the United States to appropriate sufficient funds to carry out the training of the organized reserve for the fiscal year 1931; then

*Be it resolved by the Senate of the State of New Jersey (the House of Assembly concurring), That the Congress be and it hereby is requested to appropriate sufficient funds to carry out the provisions of the National Defense Act of 1920 and its accompanying legislation so that the program of the War Department may be effectively carried out; be it further*

*Resolved, That the Secretary of the Senate is hereby instructed to forward certified copies of this resolution, signed by the President and Secretary of the Senate and the Speaker and Clerk of the House to the following:*

The President of the United States, the United States Senate, the House of Representatives, the Senators and members of Congress from the State of New Jersey.

In which the concurrence of the House of Assembly is requested.

O. F. VAN CAMP,  
*Secretary of the Senate.*

With the following committee amendments, which were read by the Clerk:

On page 1, line 12, at the end of said line, strike out the period, insert a semicolon, and add the following: "*provided, however, that where any lot owner or lessee now or hereafter maintains and cares for his said lot, in accordance with the rules and regulations of the governing body of any cemetery association, the assessment by this act authorized may be waived by such governing body.*"

Mrs. Peters moved the adoption of the Committee Amendments to Assembly Bill No. 116.

Which motion was adopted.

Mr. Muir sent the following report to the desk and moved that it be spread in full upon the minutes.

Which motion was adopted.

REPORT OF THE NEW JERSEY STATE TEMPORARY COMMISSION  
FOR INQUIRY RELATING TO THE DISTRIBUTION AND  
CONDITION OF CRIPPLED CHILDREN

(In conformity with Chapter 188, Laws of New Jersey, 1926, Chapter 276, Laws of New Jersey, 1927, Chapter 56, Laws of New Jersey, 1928, and Chapter 12, Laws of New Jersey, 1929.)

*To the Legislature of the State of New Jersey:*

The Temporary Commission created under Chapters 188, Laws of 1926, and 276, Laws of 1927, and continued under Chapter 56, Laws of 1928, and Chapter 12, Laws of 1929, to inquire into and report upon the number, distribution and condition of crippled children throughout the State, and the existing facilities and legal provisions for promoting the care, treatment, education and general welfare of such children, and to recommend means more adequately to meet their needs, herewith respectfully submits its report.

THE COMMISSION PERSONNEL

The Commission was organized in 1926, but due to the lack of a State appropriation did not begin to function until the latter part of 1927.

As organized in 1927 the Commission was continued in 1928, all the officers being re-elected. During 1929 the following changes were made:

Due to the election of Morgan F. Larson as Governor of the State of New Jersey, Joseph G. Wolber, of Newark, was appointed to represent the New Jersey Senate.

In 1929 the law creating the Commission was amended to include a seventh member representing the public-at-large. In recognition of former Governor Moore's interest in crippled children he was appointed by Governor Larson to represent the public.

The present organization of the Commission follows:

Joseph G. Buch, Chairman, Trenton, representing the New Jersey State Elks' Association.

Albert Schurr, Treasurer, Newark, representing the Shriners of New Jersey.

William C. Cope, Newark, representing the Rotary Clubs of New Jersey.

David C. Bowen, Asbury Park, representing the State Department of Health.

A. Harry Moore, Vice-Chairman, Jersey City, representing the public-at-large.

John E. Gill, Secretary, Trenton, representing the Kiwanis Clubs of New Jersey.

Thomas M. Muir, Plainfield, representing the House of Assembly of New Jersey.

Joseph G. Wolber, Newark, representing the New Jersey Senate.

#### ACKNOWLEDGMENT

The Commission wishes to make special acknowledgment for the year 1929 of the active and effective work carried on by the New Jersey State Elks' Association and its subordinate lodges, the boards of chosen freeholders, orthopedic and other physicians and surgeons, and hospitals and clinics throughout the State. The Commission is also appreciative of the cooperation of Governor Morgan F. Larson and the State Departments of Education, Health, Institutions and Agencies and Rehabilitation

#### INTRODUCTION

The annual report of the New Jersey Crippled Children's Commission must necessarily be an account of the crippled children's program as a whole carried on by the interacting groups. The Commission acts chiefly as a stimulating and co-ordinating body; developing and initiating the specific parts of the program with the appropriate groups.

Among those which have had a definite part in effectuating the program are the New Jersey State Elks' Association and its subordinate lodges, the State Rehabilitation Commission, boards of chosen freeholders, State departments of education, institutions and agencies, health and the local boards of education; hospitals, clinics, orthopedic and other physicians and surgeons.

#### RECAPITULATION 1927 AND 1928

In order to show the gains made from year to year in New Jersey's program for the care of crippled children, a brief resume of progress up to 1929 may be given.

Through a Survey in 1927, 10,019 crippled children between birth and eighteen, having various needs, were located. Legislation was enacted enabling State and local bodies to provide for the physical, educational and economic needs of these children.

In 1928 the major accomplishment of the program was the distribution among the local lodges of Elks of the 10,019 cases dis-

covered in the original Survey, with a view to definitely ascertaining medical, educational and institutional needs. The New Jersey State Elks' Association were selected for this work in view of the fact that for a number of years they had been and were still conducting efficient work with crippled children.

During this period a beginning was also made in the application of the County Appropriation Law, by which the counties were enabled to make annual appropriations for the care of crippled children.

Reporting of cases of congenital cripples was initiated through the health department.

The State Department of Education took measures to acquaint the local school boards with their new powers in regard to crippled children. In the Rehabilitation Commission the process of centralizing and maintaining a register of all crippled children in the State was begun.

#### BRIEF SUMMARY OF PROGRESS IN 1929

The progress made during 1929 may be summed up (a) in terms of direct service to crippled children, and (b) in the steps taken toward the development of a sound structure designed to meet all the needs of crippled children as long as may be required.

The 10,019 names sent by the Commission to the local lodges of Elks were increased by 2,392 new cases during the investigation. For various reasons 740 names were eliminated. Of the total 11,671 cases thus distributed among the lodges, 9,301 have been reported upon to date; 2,533 being found to require examination or re-examination; 363 educational and 1,130 vocational attention; 431 are apparently in need of institutional care. (See Table I, Page 204.)

The reports of two representative districts brought out in the details of this report illustrate how the work is now proceeding from investigation of the cases to direct service to the children. Much more has been accomplished all over the State in attending to the immediate needs of these children, but complete tabulations for 1929 are not yet available.

In the development of the permanent structure the two outstanding achievements of 1929 have been:

(a) Measures for putting the program across locally through the development of local volunteer groups as representatives of the State; local lodges of Elks because of their long experience with crippled children are thus functioning most effectively.

(b) Official financial provision for the physical care of crippled children unable to pay for complete care; this support has been achieved through the appropriations made by the local boards of freeholders.

#### DETAILS OF ACHIEVEMENTS IN 1929

In developing a program for the adequate care of crippled children in all parts of the State the Commission deemed it best to go slowly so that no false steps might be taken. We are attempting wherever possible to use existing resources rather than to create new facilities which may later become unnecessary.

While building an organization that will work permanently and be sound financially and socially, we are also attempting at the same time to have direct service to the present crippled children go hand in hand with the building of the structure designed to care for future cases.

#### *Detailed Investigation of 11,671 Cases*

An accomplishment during 1929 of great magnitude and importance has been the practical completion of the investigation of all known cases of crippled children throughout the State.

The work has progressed sufficiently in all of the fifty-eight local jurisdictions to give a basis in each case for analyzing the local problem.

Of the 11,671 cases of crippled children which had been distributed during the previous year among the local lodges, 9,301 finished records have been returned. Nurses and social investigators were engaged by the local lodges of Elks to carry on this work. In all instances visits were made to the children's homes and the parents interviewed. A Preliminary Activity Sheet (See Exhibit A) was filled out in each case, so that the extent and type of the problem might be known definitely in each jurisdiction. The result of the investigation in terms of cases is shown in Table I by counties as follows:

With the information on hand as shown in Table I without waiting for full completion of the investigation, we are proceeding with the second step of our program, as outlined in the 1928 report, which has the following objectives

First. Providing examination or re-examination for those in need thereof.

Second. Securing educational opportunities for children of school age, not attending.

Third. Listing those in need of vocational guidance and training with the Rehabilitation Commission so that their requirements may be definitely ascertained.

Fourth. For those both crippled and mentally deficient, we are endeavoring to complete application papers for admission to institutions, when parents request such assistance.

Fifth. After the number in the hopelessly helpless class has been definitely ascertained, we will endeavor to provide adequate care for all those in need thereof.

#### *Establishment of Local Organization*

Again bearing in mind the importance of creating a sound structure for the work, the Chairman of the Commission is visiting each of the fifty-eight lodges and Elks Crippled Kiddie Committees, taking with him a statement of the findings of the local investigation in order to work out their particular problem in the light of the needs disclosed and the existing resources, so that "the one best way" may be found for solving the problem in each district

Twenty-seven out of fifty-eight districts have been visited to date and plans formulated for carrying out the five objectives outlined above

#### *Demonstrations Completed*

Much work has been accomplished in all of the fifty-eight districts, but completed results are not yet ready for tabulation. In two districts, Trenton and Bound Brook, surveys are complete and results of the method are available. In these districts all cases have been investigated by nurses; the clinic examinations having been completed, eighty-seven children have been treated or scheduled for treatment and special educational facilities are in process of development. In these two communities the work may serve as a demonstration for other districts insofar as the methods in use may be adapted locally. The results in these sections are shown in the following tables

In the Mercer County demonstration the clinics, in which cases tabulated above were examined, were continued over a period of six months and were held twice weekly in connection with the regular clinics of the Trenton Orthopedic Hospital. The Clinics in the Bound Brook jurisdiction were held in conjunction with Somerset Hospital.

#### *Special Educational Development in Trenton*

In Trenton the work has proceeded to the second objective of the active program "securing educational opportunity for children of school age not attending". While the clinic examinations of the children were in progress, a member of the Commission met with the Superintendent of Schools and helped to initiate an educational program for crippled children with the following results:

A special teacher was employed to study and group all of the crippled children reported into the following classes:

- a Children to be absorbed by the regular school when becoming of school age
- b. Children to be absorbed by the regular school, provided transportation can be obtained.
- c Children to be grouped in special classes in a crippled children's center
- d Children who are unable to attend the regular school or special class as stated in "c" because of physical disability and must be taught at home
- e Children blind or nearly blind
- f Children deaf or nearly deaf

These children were then given psychological examination to determine whether they could be taught provided classes or groups were established.

Medical examinations were given to determine the children's ability to attend school with or without transportation, or to decide whether they could be better cared for in institutions.

Home instruction was established for four of those unable to attend school. A full time teacher employed for this purpose, is giving each child five hours of instruction weekly. Plans for Special Classes for crippled children or a Crippled Children's Center are under consideration.

The foregoing description of the educational plan in Trenton may be of interest to other communities which, similar to Trenton, had not previously established special facilities for the education of crippled children.

#### DEVELOPMENT IN MEDICAL SERVICES AND RESOURCES

##### *New Facilities*

As mentioned before the work of the Commission has been directed rather toward using existing facilities than in creating new ones. This has been especially true in the medical facilities. Among the new developments however may be mentioned the erection of an isolation building at the Betty Bacharach Convalescent Home, the organization and equipment of a new Orthopedic Clinic by the Elks in the Passaic General Hospital, and the reconstruction of the Trenton Orthopedic Hospital, doubling its capacity.

##### *Central Consulting Orthopedic Council*

A development of greatest interest has been the organization of the Central Consulting Council. The purpose of this Council is to offer final consultation in cases of apparently hopeless cripples.

##### *Service by Orthopedic Physicians*

Much of the work of examinations and treatments as outlined in the Section on local programs has been given during the year by Orthopedic Physicians throughout the State freely and without charge.

##### *Reporting of Congenital Cripples by Physicians*

A member of the Commission met with the New Jersey State Medical Society to formulate a working plan so that all congenital cripples may be reported shortly after birth by physicians throughout the State.

#### DEVELOPMENT IN STATE AND LOCAL EDUCATIONAL PROGRAMS

##### *Increase of Special Educational Facilities for Crippled Children*

An increase in the number of children receiving special educational opportunities is shown in the report of the State Depart-

ment of Education for the year ended June 30, 1929. According to this report 683 children are enrolled in special classes as follows:

Camden .....	18
Newark .....	322
Bayonne .....	37
Hoboken .....	10
Jersey City .....	250
Paterson .....	29
Elizabeth .....	17

This represents an increase of 287 or approximately 74% over the number reported in the survey of 1927. It is probable that during the latter part of the year this summer was still further increased.

Home-teaching and transportation for cripples is probably increasing in a similar ratio, judging from statements of individual cases reported to the office, although statistical reports for this period are not yet available. This is apparent also during the visits to the local jurisdictions, where statements are made that new educational facilities are being provided or are contemplated. An illustration of this is the development in Trenton, as brought out previously, where one home-teacher has already been provided, and plans are under way to establish special classes.

No mention has been made of classes in hospitals and institutions, but the indications are that there has been an appreciable advance in this field also.

The number of special teachers employed during the year ended June 30, 1929, is given as 40, an increase of 11 since 1927.

#### *Reporting of Children Not Attending School To School Superintendents*

In order to extend educational opportunities to all crippled children of school age not attending school, (363 reported to date, as shown in Table I, Page 7) the names of all these children are being sent to the local departments of education for re-checking.

#### VOCATIONAL GUIDANCE AND TRAINING

##### *Stimulating Employment Opportunities*

With a view to stimulating the vocational and placement opportunities, the Chairman of the Commission met with the Vocational Committee of the Kiwanis Club. The special contribution of this organization should be in giving industrial opportunity to cripples after they have been trained.

---

*Crippled Children Under Care of Rehabilitation Commission*

Sixty-three cripples throughout the State between the ages of 13 and 21 are receiving training under the auspices of the Rehabilitation Commission. Among the courses pursued are:—linotyping, architectural drawing, law, commercial work, printing, music, dress-making, commercial art, cabinet making, and others.

*Vocational Opportunities through Local Departments of Education*

Many of the vocational divisions of the local departments of education have become interested in the training of crippled children and are planning to give them special attention in connection with the regular school courses. Much of this cooperation was developed through the visits of members of the Commission to the local jurisdictions.

## IMPORTANT DEVELOPMENT OF LOCAL COMMITTEES

The Crippled Children's problem is essentially local. A large majority of these children will continue to live in or near their own homes. They will continue to be educated in their own communities and later employed there. Many of them will receive at least a part of their long continued medical care near their own homes.

For this reason the development of a local body is of particular importance in this problem. Such a body has the ability to learn the extent and nature of its own problem. It has the power to accomplish results, to bring about the development of clinics, special classes and home-teaching, employment opportunities and to direct the use of public and private funds to this work. In all of these activities a local group is much more effective than any outside body could be. It also builds up a self-perpetuating interest and procedure thus assuring permanence for the work. The human interest and efforts which comprise such local groups is of far more importance than the distribution of funds, or the setting up of systems, although these are of course necessary.

During 1929 it may be said that the advance of most signal importance in the Crippled Children's program has been the development of the local Lodges of Elks into the active local bodies representing the Commission and the program for the entire State. These local groups provide the facilities for getting available opportunities across to the children who need them and creating new facilities when such are required.

## FINANCIAL ADMINISTRATION OF CRIPPLED CHILDREN'S WORK

Adequate care for crippled children is necessarily an expensive program. Long continued medical care, special equipment and special education are a heavy financial burden to families in moderate circumstances.

Part of this expense may be met by public funds, but until the size of the problem is greatly decreased, the assistance of private groups will be required.

During the past year the New Jersey State Elks' Association and subordinate lodges expended over \$152,000, about 25% in salaries for the local investigators and about 75% in direct care to the children.

Under the County Appropriation Law it is possible for local Boards of Freeholders to appropriate up to \$30,000 per year for the care of crippled children, resident of the county.

In order to have this law made effective, the Commission met with the State Freeholders Association and helped to devise a uniform blank, (See Exhibit B) for the convenience of the various Boards of Chosen Freeholders.

Appropriations for 1930 have now been made by 17 or over 80% of the twenty-one counties, in varying amounts, from \$500 to \$1,000, \$2,500, \$5,000, \$10,000, \$15,000 and \$20,000.

While these county appropriations will help to open the way for early treatment of many children, there will be many others who because of the lack of established residence and other qualifications will need to be helped from private funds.

## PLACE NOW ATTAINED IN OUR PROGRAM AND OBJECTIVES FOR 1930

In the program which has for its objectives: routine finding and reporting of all crippled children from birth, examination and treatment, education, vocational guidance and training, employment, and the final prevention of crippling conditions, we can say that we have passed the first milestone, over 9,000 cases having been carefully investigated; a large number of these having been examined and treated, and educational opportunities, previously lacking, opened up to an appreciable number.

During 1930 we hope to advance still further along each of these lines and especially to increase the routine locating and reporting of new cases. Within the next year we want to be able to broadcast to the world that every cripple in the State of New Jersey, in need thereof has had the opportunity of examination and diagnosis followed by the necessary care and treatment, and that every crippled child of school age has been brought in touch with educational advantages.

## RECOMMENDATIONS FOR CONTINUANCE OF COMMISSION

In recommending that the Crippled Children's Commission be continued for the coming year, we wish to state again as brought out in the 1929 report that

1 The success of the program depends to a large extent on the correct placing of these responsibilities so that all parts of the plan may develop together.

3 Other needs may be disclosed by investigation which are not provided for in present plans. and to reiterate the functions of the Commission as described in the report submitted in 1929

1 Reviewing of legislation in operation with a view to revision and amendments should such be required.

2 To coordinate in plans and action the departments and groups, public and private, carrying on the work This service will be required until the work is firmly centered in the Rehabilitation Commission, and until that commission is able to adjust itself to the larger numbers and different nature of the crippled children's problem.

3 The Commission is representative of the public, and of special groups interested in crippled children This representation will become increasingly important and useful, especially in developing employment and vocational resources.

4 Reporting on progress of work—It is important to record and present progress in the care of crippled children uniformly and completely, thus giving a picture of the whole The Crippled Children's Commission being related to and following up all the separate units is able to do this A unified report is necessary in pointing the way to prevention measures and disclosing the need for opportunities.

5 Research is required, as mentioned in the last section, for finding opportunities and facilities In this, the Commission can render material assistance

It is therefore recommended that the Temporary Commission be continued on the same basis as in previous years and that an appropriation of \$5,000 be made for carrying out the provisions of the act, the substance of which is given on page 200.

## CONCLUSION

In submitting this report the Commission feels that in 1929 much work of a permanent foundation character has been accomplished by the interacting groups. During 1930 it hopes for further advances in the program.

ASSOCIATION OF CHOSEN FREEHOLDERS OF NEW JERSEY

(Seal)

SECRETARY'S OFFICE

COURT HOUSE, JERSEY CITY

December 7, 1928.

My dear Freeholder:—

At a meeting of the Board of Trustees and Officers of the Association, it was decided to make the following recommendations in connection with the operation of Chapter 55 of the Laws of 1928 being enacted to enable counties to assist in the care, treatment and cure of crippled children:

1. That each Board of Freeholders be requested to give consideration before the adoption of the annual budget for 1929 to the question of the appropriation of funds under this act. It is respectfully urged that some appropriation be made for 1929, the amount, of course, to be left entirely to the judgment of the members of your Board.

2. That in the administration of such funds a standard be adopted by all the counties concerning the legal settlement, indigence and method of administering the funds.

3. Your attention is called to the fact that under this act any appropriation, which a Board may make, can be made direct to a hospital for the diagnosis, treatment, necessary surgical appliances and support and maintenance of crippled children and residents of the county under the age of 21 years, or that the funds may be administered on individual applications for such diagnosis, treatment, necessary surgical appliances and support and maintenance in the discretion of your Board.

4. It is recommended that in all cases of individual applications for relief under such appropriation the recipient or his or her parents or guardian should be required to have at least five years continuous residence in the county prior to the application, as is now required under the existing laws for the administration of other charitable funds by counties.

5. That in cases of individual relief a form of application substantially in the form sent to you herewith should be required to be filed.

As suggested in the communications several months ago, it is recommended that the County Adjuster, or other appropriate officer, be designated to handle all such applications under the direction of the committee of the Board of Chosen Freeholders and in co-operation with the County Physician or other physician designated by the Board of Freeholders for the purpose of verifying the medical statements contained in any such petition.

You are requested to present this matter to your Board at its next meeting and before your 1929 budget is approved of.

Very truly,

JOHN J. MCHUGH,  
*Secretary.*

In the matter of the application for  
the diagnosis, treatment, necessary  
surgical appliances, support or

NEW JERSEY PRESS ASSOCIATION

SUMMIT, N. J., February 15th, 1930.

*Mr. Frederick A. Brodesser, Clerk of the House of Assembly, Trenton, New Jersey:*

MY DEAR MR. BRODESSER—At the mid-year meeting of the New Jersey Press Association, held at the Stacy-Trent Hotel, Trenton, Monday, February 10th, the meeting went on record as unanimously favoring the passage of Assembly Bill No. 96, by Mr. Vanderbach, of Hudson county, designed to safeguard and protect the professional confidence of newspaper men.

The Press Association, at the same meeting, unanimously adopted the following resolution:

*Resolved,* That the Bill Drafting Bureau established this year is a proper and commendable step toward simplifying and reducing the bulk of New Jersey legislation, preventing errors, making the purpose and meaning of bills intelligible, and fitting new statutes properly into the statutory arrangement being planned by the Commission on Revision of the Laws; and that this association hereby endorses the proposal for the establishing of a permanent legislative reference and bill drafting bureau.

Very respectfully submitted,

JOHN W. CLIFT,  
*Secretary.*

The following report was sent to the desk and read by the clerk.

FURTHER REPORT OF COMMISSION UNDER JOINT RESOLUTION  
No 13 of 1929.

*To His Excellency, Morgan F. Larson, Governor of the State of New Jersey, and to the Senate and General Assembly of said State:*

The Commission appointed by the Governor pursuant to Joint Resolution No. 13 of the Legislature of 1929, respectfully reports that it has been requested to endorse a measure to provide some revenue from interstate bus traffic. An act of 1927 (Ch. 184, p. 356) taxing interstate bus and freight traffic was held unconstitutional October 10, 1928, in the case of Weimar Storage Co. v. Dill (6 N J. Adv , p. 1476, not yet officially reported). In the absence of some corresponding tax on local freight traffic no valid impost can be laid on interstate traffic of that character, but since local bus traffic now is subject to a franchise tax of 5% of gross receipts, a corresponding excise for the use of the highways can be imposed on interstate busses. The annexed bill to impose such a charge has been modeled upon a Connecticut

statute (Conn. Gen. Session Laws, 1925, Ch 254, p. 4073) which was sustained as valid by the United States Supreme Court in the case of Interstate Busses Corporation v. Blodgett, Tax Commissioner of Conn., et al. (276 U. S., p. 245, 48 S. C. Rep., p. 230). It imposes a charge based upon mileage.

A study of the whole question of taxation may suggest some other method as preferable to the mileage charge proposed in this bill; but it is understood that the United States Congress is considering a bill to regulate interstate bus traffic, and no prediction can be made as to the form this legislation will finally take. Therefore, until Congress has acted on the matter, and the whole question of New Jersey taxation has been adequately studied, it is more prudent not to experiment, but to adopt a form of law which has already been tried and approved.

The basis of the impost must not amount to a discrimination against the interstate traffic. It is alleged that the average receipt per mile of intrastate bus business is approximately thirty cents on which a tax of 5% or one and one-half cents is charged under the present law, of which the annexed bill would be a supplement, which is apportioned as follows:

Payments to municipalities .....	1.22
State registrations .....	.25
Local licenses .....	.01
Public officials ... ..	.05
	1.53
Total .....	1.53

The interstate traffic is alleged to average \$.25 per mile, and a total charge against that of \$.01¼ would be an equivalent of the 5% tax on local traffic. It is calculated that the gasoline tax represents approximately a \$.00½ per mile, and a state registration of \$.00¼, leaving a \$.00½ which could be made the excise charge as follows:

Excise per mile .....	.50
New Jersey State registrations .....	.25
Gasoline tax .....	.50
	1.25
Total .....	1.25

The interstate business is still so new that these figures may not be final and in the absence of more definite figures, it seems safer not to attempt to impose a charge of any higher rate.

The Commission is not submitting any bill respecting interstate trucking business as we understand a measure to reach this by an increase in the license fee for trucks is now under consideration by the Legislature.

Respectfully submitted,

J. H. THAYER MARTIN,  
M. M. STALLMAN,  
JOSEPH L. THOMAS,  
GEORGE D. CROSS,  
JOSEPH F. S. FITZPATRICK,

*Commissioners.*

Dated, February 28, 1930.

Supplement to 2 C. S. Sup., p. 2388, Sec. 136-4000A, as amended by P. L. 1926, Ch. 144, p. 219.

A Supplement to an Act entitled "An act concerning auto busses and their operation," approved March 17, 1916.

*Be it enacted* by the Senate and General Assembly of the State of New Jersey:

1. The person owning or operating each auto bus which is operated over any highway in this State for the purpose of carrying passengers from a point outside the State to another point outside the State, or from a point outside the State to a point within the State, or from a point within the State to a point outside the State, shall monthly, on or before the tenth day of each month, file with the Commissioner of Motor Vehicles on blanks to be furnished by him, a sworn statement of the name and address of such owner, the number of miles which such auto bus shall have been so operated over the highways of this State during the preceding calendar month, and such other information as the said Commissioner shall require, and shall pay to the said Commission of Motor Vehicles as an excise for the use of such highways one-half cent for each mile or fraction thereof so operated, unless such person shall have paid or be liable to pay as to such auto bus an excise based upon the gross receipts for the use of the streets and highways under the provisions of Section 3 of the act to which this is a supplement.

2. All moneys derived from the excise hereby imposed shall be paid over monthly by the Commissioner of Motor Vehicles to the State Treasurer and such revenues are hereby appropriated to the State Highway Commission for use by it for the construction and maintenance of highways.

3. The Commissioner of Motor Vehicles shall enforce the payment of the excise hereby imposed, and for such purpose may

institute a suit or suits at law in any of the Courts of this State for the recovery thereof as a debt due to the State; and in case of non-residents may proceed for the collection thereof by attachment in accordance with the provision of the act entitled "An Act for the relief of creditors against absent and absconding debtors" (Revision of one thousand nine hundred and one), approved March 20, 1901, and the acts amendatory thereof and supplemental thereto, or by proceedings in the Court of Chancery to restrain the operation of such auto bus by such owner or operator until such payment shall be made.

4 Any person, firm or corporation which shall fail to file a statement as required by Section 1 hereof or fail to pay the excise thereby imposed within the time thereby fixed and limited shall forfeit and pay to the Commissioner of Motor Vehicles for the use of the State of New Jersey the sum of one hundred dollars (\$100.), together with the further sum of ten dollars (\$10) for each and every day of such default, which sum shall be recovered by the Commissioner in the manner hereinbefore provided for the enforcement of the payment of the excise imposed by this act, and which moneys when recovered shall be paid over to the State Treasurer and are hereby appropriated to the State Highway Commission for use by it for the construction and maintenance of highways.

5. Chapter 184 of the Public Laws of one thousand nine hundred and twenty-seven, entitled "An act to provide for the laying of an excise on the use of highways of this State by motor vehicles operated for the purpose of carrying passengers or property for hire in interstate commerce," approved March 28, 1927, is hereby repealed.

6. The adjudging of any portion of this act to be invalid shall not affect the validity of any other portion hereof.

7. This act shall take effect immediately.

#### STATEMENT

The Act of 1927 imposing an interstate bus tax has been held invalid mainly because of the fact that it purported to tax interstate freight carriers as well as passenger carriers. The object of this act is to overcome that difficulty. This act is similar to the act of the State of Connecticut which has been sustained by the United States Supreme Court.

STATE OF NEW JERSEY  
STATE BOARD OF TAXES AND ASSESSMENT  
Trenton, N. J., March 4, 1930.

*Mr. Frederick A. Brodesser, Clerk, House of Assembly:*

DEAR SIR—I send you enclosed the report of this Board on certain exempt property in the State, made in accordance with the provisions of J. R. 8, P. L. 1929.

Very truly yours,  
(Signed) CHARLES E. COOK,  
*Secretary.*

*To the Governor and the Legislature of the State of New Jersey:*

Pursuant to the provisions of Joint Resolution No. 8 of the 1929 Session of the Legislature, the State Board of Taxes and Assessment submits the following tabulation obtained from its survey of the tax exempt proper of universities and colleges, and the property of the State of New Jersey and its various counties:

<i>County</i>	<i>Property of Universities and Colleges</i>	<i>County. Property</i>	<i>State Property</i>

Union .....	2,156,321	499,900
Warren .....	168,000	206,500
	<u>\$18,607,425</u>	<u>\$54,684,007</u>
		<u>\$34,369,349</u>

Total, \$107,660,781.

This survey was made by checking and listing all exempt property of these classes contained in the tax lists on file in the offices of the county boards of taxation. It was impossible for the board to make a personal survey as no appropriation was made by the Legislature to carry out the provisions of the resolution and for the reason that our present office force is inadequate to permit the placing of a man on such duty for the length of time required to make such a survey.

In compiling the amounts of the above property we find discrepancies in the valuations shown on the tax lists and those certified to the board by the county boards of taxation and shown on the abstracts of ratables. The board is of the opinion that assessors of the various municipalities are lax in the listing of exempt real estate, and that in some instances no change is made in valuations of such property from year to year. Exempt personality also is not listed at its true value, and in some taxing districts no record is made as to the value of such property. In view of these circumstances, we feel that the above valuations represent a very conservative estimate of the amount of such property in the State of New Jersey.

In addition to the survey given above, the resolution makes it the duty of the Board "to report in what manner such municipalities may be compensated, in lieu of taxes, for governmental benefits so extended as aforesaid, or for loss of taxes by reason of publicly owned tax exempt property the ownership and use of which, by the State or any county of the State is of service to other municipalities in addition to that in which it is located."

With possibly a very few exceptions, county property is of service to all the municipalities of the county in which it is located. Generally speaking, it may also be said that property of the State, regardless of its location, is for the service of municipalities and people of the State. It would seem therefore that any legislation recommended by the board must necessarily be general in its effect, applying to practically all of the districts in which county and State property is located.

The present Tax Act (General Tax Act Revision of 1918, Section 203, subdivision 6) exempts from taxation property of " \* \* \* the State of New Jersey; property of the respective counties, school districts and taxing districts, when located therein and used for public purposes."

It will be noted that the statute restricts the exemption of property of counties, school districts and taxing districts to property located within the district or the county owning it, and that under this limitation the property of one county located in another would not be exempt, even if such property were used for public purposes. In construing this provision of the General Tax Act, however, the Court of Errors and Appeals has held that a statute which attempted thus to classify property (by reason of its location), although all of such property was subjected to public use, was not a general law and for this reason was in contravention of the Constitution. *Jersey City vs. Blum*, 127 Atl. Rep. 214. Under the decision of the court in this case, county property is exempt from taxation when used for public purposes, whether or not it is located in the county owning it.

Whether or not the test of constitutionality could be met by legislation directing the State and the counties to reimburse municipalities for loss of taxes on such property is not within the province of this board to decide. In view of the difficulty, however, of drafting such legislation along constitutional lines and imposing penalties for its enforcement, the board has decided to confine itself to the survey above given. No legislation is recommended.

Respectfully submitted,

FRANCIS D. WEAVER, *President.*

CHARLES E. COOK,  
*Secretary.*

STATE OF NEW JERSEY,  
SENATE CHAMBER,  
March 10th, 1930. }

*Mr. Speaker:*

I am directed by the Senate to inform the House of Assembly that the Senate has passed the following concurrent resolution:

*Be it resolved by the Senate and General Assembly of the State of New Jersey:*

1. In the death of William Howard Taft the American nation and the people of the State of New Jersey have suffered a deep bereavement in the passing of an eminent citizen who has long and usefully served the public in many positions of trust and dignity, including those of President of the United States and Chief Justice of the Supreme Court. By his nobility of character, his broad-minded tolerance and sympathies, his abilities as administrator, lawyer and jurist, and by the kindness of his nature, Chief Justice Taft has endeared himself to the American people in such degree that his death is at once a public catastrophe and a deep personal loss to all who shared his high regard for constitutional government and justice to mankind. His memory

will ever be a source of inspiration to those who love and honor the ideals of justice and the rights of mankind.

2. *Resolved*; That the Senate and General Assembly of the State of New Jersey hereby express to Mrs. Taft and to the members of the family of our former beloved leader, the sense of bereavement of the members of this Legislature personally and of the people of the State of New Jersey collectively, and that a copy of this resolution be engrossed and sent to Mrs. Taft, and that the flag on the State House at Trenton be placed at half-mast for a period of thirty days, in evidence of the love, respect and grief of the people of New Jersey.

In which the concurrence of the House of Assembly is requested.

O. F. VAN CAMP,  
*Secretary of the Senate.*

The Speaker requested Mr. Muir, of Union county, to address the Assembly in eulogy of the late Chief Justice William Howard Taft.

Mr. Muir then delivered a eulogy on Mr. Taft.

Mr. Wise moved that the Senate concurrent resolution be concurred in.

Which motion was adopted.

WHEREAS, The law-abiding citizens of this country have been shocked by the cruel, deliberate and unrelenting suppression of the teaching and practice of all religion in the land of the Soviets, and by the numerous and unprecedented forms of punishment and persecution meted out to those who are loyal and devoted to their sacred traditions; and

WHEREAS, Throughout this nation, meetings of citizens have convened for the purpose of expressing their heartfelt sorrow, protest and indignation at the woeful conditions affecting the religious life of millions of men and women of all faiths in Soviet Russia; and

WHEREAS, In so doing, they are voicing the outraged sense of liberty-loving people the world over, regardless of creed, race or country, at the denial of elementary human rights to those who

only seek the peaceful pursuit of what to them constitutes the highest spiritual values in human life; and

WHEREAS, Citizens of this country resent the persecution of the ministers of religion, rabbis and priests, scholars, teachers and all communal leaders for no other crime than that of profound concern for the spiritual welfare of all their communities,

*Be it resolved*, That the House of Assembly of the State of New Jersey hereby record its protest at these conditions in Soviet Russia; and

*Be it further resolved*, That a copy of these resolutions be forwarded by the Clerk of the Assembly to the United States Senators and to the members of the House of Representatives representing the great State of New Jersey.

Mr. Grimm, of Essex county, introduced a delegation of the Essex County Banking Association and moved that Mr. David Kirk be granted the privileges of the floor.

Which motion was adopted.

The Speaker requested Mr. David Kirk to address the Assembly.

Mr. Kirk addressed the Assembly briefly.

A message was received from the Governor, by the hands of his secretary, as follows, which was read by the Clerk:

STATE OF NEW JERSEY,  
EXECUTIVE DEPARTMENT,

March 24, 1930.

*To the Legislature:*

A short time before the Legislature convened, an incomplete typewritten report of the survey made by the National Institute of Public Administration of New York City was received, consisting of 449 typewritten pages and embracing 21 separate chapters, except that the first three chapters, relating to the subjects of—

“THE NEW JERSEY STATE GOVERNMENT”

“THE EXECUTIVE DEPARTMENT”

“FINANCIAL ORGANIZATION AND MAINTENANCE”

were not received until the complete printed copy was received last week.

The report as printed consists of two books:

One of 381 pages, comprising 21 chapters, discussing the conditions alleged to exist in the several departments of the State, with criticisms and recommendations;

The other of 182 pages, comprising analysis, tabulations, balance sheets and suggestions concerning the financial affairs of the State.

The summary of the financial laws of New Jersey with respect to the duties of the Comptroller, Treasurer, State House Commission and Governor, consisting of 63 typewritten pages, which accompanied the report, does not appear to have been included in either of these printed books.

Although a great deal of time has been devoted to the study of these reports, it is still impossible to discuss in detail the financial data. It is unnecessary to discuss the summary of the laws.

The report having been printed for general distribution and public information, it will be unnecessary at this time to encumber this message with the details of the criticisms and recommendations therein contained.

A complete examination of the report indicates that the survey upon which it is based has been conducted on a broad scale and that the supporting data is very voluminous.

The investigation of the several sources of the information obtained not appearing, it is impossible to determine the accuracy or completeness of the information upon which the recommendations were based, or whether all of the statements contained in the report are correct. These are matters which can only be determined from an intimate familiarity with the details of the work of each department. Taking the recommendations at their face value, many of them appear to be worthy of serious consideration by the Legislature.

Every phase and department of the State government is involved, and all of the recommendations, related to a certain extent, are predicated upon the assumption of an entirely new financial organization which seems to be the cornerstone of the whole plan.

The fundamental principle underlying the criticisms and recommendations of the report is that of the sole responsibility of, and the reorganization of all boards and departments under the control of a single director or administrator, appointed by, and responsible to, the Executive. This principle is recognized as an efficient and economical method in private enterprises. A number of attempts have been made to apply it to public administration, of which the City Manager Plan is an illustration. But the success or failure of such attempts in public affairs depends upon political rather than economic considerations.

The theory of government in this country has proceeded on the representative principle, in which geographical representation has to some extent been considered. On this account it has been the practice, in New Jersey in particular, to administer the several departments of the government through representative boards or commissions.

While, as a matter of abstract principle, the administration of most of the departments of the government is an executive rather than a legislative function, the sole responsibility for which might, in theory, be properly imposed upon the Executive, there is a serious question whether it is wise or safe, under all circumstances, to remove the safeguards now provided by the confirmation by the Senate in the selection of public officers. It is true that some of the departments exercise delegated legislative or quasi-judicial, as well as executive, functions. In such cases the report recommends that an advisory board be created to determine the legislative or judicial aspects of departmental administration, leaving the executive aspects entirely to the director appointed by the Executive.

There is a question whether, in view of the possibilities of human error or selfish interest which sometimes enter into the

question of public administration, the public will be willing to place its confidence in a single director as the head of each department, without the approval of the Senate. Experience indicates that the present practice of appointment by the Executive with the advice and consent of the Senate has its advantages. Instances have occurred where appointments have been made by the Executive which the Senate has been unwilling to confirm.

The question of public policy is, therefore, whether we should continue the present practice of appointment by the Executive, with the advice and consent of the Senate, and administer the several departments by representative boards or commissions, or adopt the experiment of single-headed departments. A long established policy should not be suddenly changed without first considering the reaction of public sentiment and the probable consequences.

Practically every chapter of the report involves certain considerations of legislative and governmental policy; and whatever may be said of the abstract virtue of the recommendations from the point of view of an ideally efficient government, practical and political considerations cannot be entirely ignored.

The recommendations of the report would involve substantial statutory changes; some of them would require constitutional changes. The report as a whole must be considered as a laboratory experiment which might prove successful under laboratory conditions completely under the control of the experimenter. But there is a grave question whether the theories advanced would work under the practical conditions of political government. It would be unwise to adopt them without the most painstaking investigation and study from the viewpoint of the constitutional, legal, practical and political conditions as they exist in this State.

The statutory, economic and political ramifications of the recommendations of the report are far reaching, and a careful investigation to determine their applicability should receive the highest qualifications of legal and political experience, and sound and impartial judgment.

In view of the recommendations hereinafter contained, no extended discussion of the criticisms and recommendations respecting the several departments will be attempted. Some observations will, however, be made of general principles applicable to some of the more radical suggestions of the report.

Chapter VI is devoted to civil service requirements, including the classifications and compensation of employees.

There is some question of the feasibility of the theory upon which the report proceeds in criticizing conditions and recommending changes in the present system. The report states "the

purchase of personal service is no different essentially from the purchase of commodities and calls for the same type of management, etc." This doctrine involves principles of cold logic which may not be entirely applicable to the public service. In a factory where the personality of the employee is submerged in mass production and he is known by number rather than by name, it may be possible to apply this abstract principle. But it is doubtful whether persons who devote themselves to the public service can be considered as purely mechanical adjuncts to the machinery of the government. The personal and political aspects of such service cannot be totally disregarded and, while there may be room for improvement in the classification of employees' duties and salaries, the essential elements of human nature and public interest require more humane and liberal considerations. To treat personal service as a commodity in the administration of the government is totally impractical and an economic fallacy.

One of the major propositions dealt with in the report is that of tax administration. There is no doubt that the State taxing system is complicated, not only by the numerous departments involved, but also within some of the departments themselves. The report calls attention to the complicated system prescribed by Chapter 82 of the Laws of 1906 for computing the average rate of taxation. The criticism of this method is well founded, as well as some of the criticism of the capital stock tax assessments.

This chapter involves many details which could be worked out and a result attained that would produce simplification and economy of operation. An attempt has been made, by the introduction of a bill at the present session of the Legislature, to provide for a bureau in the Treasurer's office for a more punctual follow-up of capital stock taxes to overcome the large arrears that are now due. Whether this is to be a permanent or temporary arrangement will depend upon what the Legislature decides to do about a reorganization of a tax department.

The gross receipts tax is the object of consideration and recommendations. This tax applies to two classes of corporations with a different rule in each case; namely, street railway companies and kindred utilities, and telephone, telegraph and other communication companies. In my message to the Legislature of this session, attention was called to difficulties encountered in assessing taxes on the latter class by reason of the recent decisions in the Supreme Court. Undoubtedly some revision in the gross receipts tax applicable to the telephone, telegraph and other communication companies is immediately necessary to overcome the loss of something like \$300,000 a year now suffered by reason

of the United States Supreme Court's last decision. The State does not lose this money, but the loss falls entirely upon the municipalities to whom the tax is distributed

No attempt to substantially change or generally revise the tax laws should be undertaken without the most deliberate consideration, for the reason that whenever such an attempt has been made a harvest of protracted litigation has resulted. With respect to taxation, the maxim holds particularly true—"Better the ills we know than to fly to those we know not of."

This does not mean that the taxing system cannot be co-ordinated and simplified to advantage, if it is undertaken in an intelligent and conservative manner for the purpose of a revision of methods and a conservation of revenue, rather than for the purpose of increasing revenue by additional taxation

The report is extremely critical of the legislative procedure. It proposes the abolition of the system of two branches and the establishment of a single house of legislature, in order to expedite the legislative business, reduce the cost of legislative sessions, eliminate deadlocks and frictions which the report states now occur between the two houses; eliminate the dual committee system and autocratic conference committees, and focus public attention on legislative work, which it states is now impossible

It is pointed out the the one-house system is not a radical and untried departure, since it exists in seven of the nine Canadian provinces. The report, however, fails to distinguish between the constitutional organization of a Canadian province and that of a State in the American Union. The latter is a free and independent sovereign, while the former is a province of an empire, in which the King, and not the Provincial Governor, has the veto power.

Reference is made to constitutional amendments for such a change submitted to the people of Oregon, Oklahoma and Arizona, but the report candidly admits that they were defeated. The two-house system is called clumsy and ineffective and without place in a really effective scheme of State government. It proposes a one-house Legislature consisting of not more than twenty-five members, and the division of the State into three or four districts, with the membership apportioned among the districts on a basis of population.

This recommendation for change in the legislative system deserves more than passing comment. It might be observed that in England, where a one-house legislative system originally existed, it was abandoned in the Thirteenth Century, when Parliament was divided into the present two houses. When the American colonies were organized into States they followed the

then existing English system of a two-house Legislature, with the exception of three States; namely, Pennsylvania, Georgia and Vermont, in whose original constitutions a one-house Legislature was established, with an executive council possessing certain participatory powers of legislation. Pennsylvania abandoned that system after four years' trial. Georgia abandoned it after twelve years' trial, and Vermont gave it up after an experiment of fifty years.

The proceedings of the Philadelphia Convention, which formulated the Constitution of the United States, shows that one of the most serious difficulties which confronted that body was the question of the constitution of Congress. The Virginia plan proposed one house, which was supported by the delegates from Pennsylvania and New York. The delegates from the other ten colonies supported a two-house plan proposed by Mr. Patterson, a delegate from New Jersey. The Virginia plan proposed representation on the basis of population, which would have given the more populous colonies of Virginia, Pennsylvania and New York two-thirds of the membership in the one-house Congress, and the other ten colonies one-third representation. The compromise provided for a House of Representatives based on population representation, and a Senate based on equal representation from each of the sovereign States; a requirement then considered so vital that it is the only provision of the Federal Constitution that cannot be amended.

In a State like New Jersey, where industry and commerce are highly developed in the more populous sections, and agriculture and kindred enterprises are highly developed in the less populous sections, it would be a serious mistake to adopt the recommendation of this report. Our House of Assembly, like the House of Representatives, is elected on a basis of population. Our Senate, like the United States Senate, is organized on the basis of equal representation of component units; in one case the counties and, in the other, the States. In the House of Assembly, the representation from the urban industrial centers predominates; in the Senate the counties, regardless of their economic condition, are equally represented. A balance is thereby maintained between the economic conditions of the various sections which ought by all means to be preserved.

Considering the report as a whole, with its hundreds of pages of discussion, criticisms and recommendations—many of which are radical and experimental, and all of which are more or less involved and complicated—it is apparent that any intelligent or effective action requires the most painstaking and patient study of the several departments involved, with the co-operation and

assistance of persons familiar therewith, and the determination of which of the recommendations are feasible or practicable under the governmental exigencies and practical conditions existing in our State.

This is a task which cannot reasonably be accomplished at this session of the Legislature, or, perhaps, at any regular session. It seems desirable that a commission of the Legislature, with the aid of the Attorney-General, devote considerable time between sessions to this subject, and after due study and deliberation, determine what legislation, or changes in existing law, will be necessary and appropriate to accomplish those changes which are found to be necessary or desirable.

It is, therefore, respectfully recommended that no hasty attempt be made at this session of the Legislature to deal with these important and complicated matters; that careful and deliberate study be given to the subject during the coming months for the purpose of deciding what changes should be made and for the purpose of preparing a definite, coherent, comprehensive and accurate program of legislation to effectuate such changes; and that the Legislature return in September, either by adjournment or by Executive call, for the specific purpose of considering and acting upon such a program.

Respectfully submitted,

MORGAN F. LARSON,

*Governor.*

ATTEST:

THOMAS L. HANSON,

*Secretary to the Governor.*

Mr. Wise moved that the message from the Governor be received and spread in full upon the minutes, and that 500 copies be printed and distributed to the members of the Assembly.

Was taken up, read a second time, considered by sections, agreed to, ordered to be printed, and to have a third reading.

Mr. Gopsill in behalf of the Election Law Revision Commission offered the following report, which was read by the Clerk:

## REPORT

*To the Legislature of the State of New Jersey:*

This Commission was organized pursuant to Joint Resolution No. 6, Laws of 1929, to study the election laws, codify and revise the same.

We selected Joseph G. Wolber as Chairman, and Thomas M. Gopsill, as Secretary. We have been attended throughout by D. Frederick Burnett as Counsel.

Besides the many executive sessions, we have held eleven public hearings, and taken 1,900 pages of testimony.

Concurrently with this report, we submit the complete text of an act entitled "An act to regulate elections" (Revision of 1930). This act embodies the conclusions we reached.

To save duplication of expense, our report will be confined to the following comments upon the proposed revision, the full text of which will be printed, of course, upon its introduction as a bill.

#### CONDENSATION

Unnecessary and overlapping sections have been removed or combined. Redundant and prolix verbiage has been eliminated wherever possible. A few additional definitions have saved thousands of superfluous words. Clarity, however, has not been sacrificed for mere brevity. The revision is a code for practical use by the many persons charged with the administration of the election laws, most of whom are not lawyers. Specific, detailed instructions are, therefore, deemed preferable even though involving some repetition.

#### TIME FOR HOLDING PRIMARY ELECTIONS

Changed from third Tuesday in June to third Tuesday in May; other dates dependent thereon changed accordingly.

#### COUNTY COMMITTEE

Members required to actually reside in the districts which they represent.

#### FILLING VACANCIES AMONG NOMINEES

Confusing inconsistencies in existing statutes ironed out.

#### ELECTION HOURS OF GENERAL ELECTION

Revised to 7 a. m. to 8 p. m., instead of 6 a. m. to 7 p. m.—thus corresponding with primary election.

#### PRACTICAL ENFORCEMENT OF DUTIES OF DISTRICT BOARDS

The old act provided that the pay of district boards might be withheld or forfeited for neglect to comply with certain specified duties. In practice, this has proved more effective than the Damoclean terrors of indictment. The revision adds to the specific items, the general clause "or fail to perform any duty provided by this act or imposed by the county board or by the commissioner."

#### REGISTERING AND VOTING ON SAME DAY

This has always been permissible in our smaller municipalities, where registration is made by house-to-house canvass. Such canvass is based essentially on hearsay, whence comes human

error. Such error gives color, if not cause, to the demand for the extension of permanent registration to those municipalities. Until the proper time arrives for crystallizing that experiment into law applicable to every community, irrespective of size, it is but fair to safeguard the bona fide voter, whose name inadvertently was not registered, by allowing him to register and vote on the same day.

To guard against the abuse of this privilege designed for his protection, the revision enacts that while a person, whose name is not registered, may, in municipalities having a population of less than 15,000, register and vote on the same day as heretofore, nevertheless, such person must first make affidavit that he is eligible to register and vote in that district and set forth the place of his residence, the fact that he actually resides at that place, the length of time of that residence, and all the facts necessary to qualify him as a voter under the Constitution of this State. This applies to both primary and general election.

#### "ON-DAY" PRIMARY VOTERS

The present law is utterly inadequate to prevent or punish one-day voters with one-way ethics casting their ballots in the primary of a party to which they do not belong. The motive is obvious. The effect is destructive of the fundamental principles of any primary. The evil requires no debate. The real question is the remedy. Repeated failure of grand juries to indict and of trial juries to convict cannot, in fairness to their integrity, presumptive or actual, be reasonably construed to be either endorsement or condonation of such fraud. The trouble must be with the law itself.

The Commission have wrestled with this difficult and delicate problem in the effort to evolve a regulation spoiling the fraud and, at the same time, consistent with the reasonable right of any voter to change his mind or party.

The revision substitutes for the futile negative pregnant, "No voter shall be allowed to vote in the ballot box of a political party if the name of such voter appears in the primary party poll-book of another political party as made up at the next preceding primary election," the following restrictions which we believe will prove constructive:

"A member of any organization espousing the cause of a candidate or candidates of any political party shall be ineligible to vote in the primary of another political party while such membership is in force and effect or within one year thereafter; such person shall be deemed for all intents and purposes a member of the

political party whose candidate or candidates such organization is espousing.

“A voter who votes in a primary election of a political party shall be deemed to be a member of that party until two full years have elapsed after casting of such party primary vote.”

“A voter who has not voted in a primary election of a political party for two years shall not be permitted to vote in any primary election of a political party until he has first signed and filed with the district board an affidavit which shall contain the following declaration:

“I am a member of the . . . . . party (giving name of party) and am not a member or identified with any other political party. I intend to vote for the nominees of the said party at the next ensuing general election. I am not a member of an organization espousing the cause of candidates of any other political party.”

“A member of the county committee of a political party and a public official or public employee holding any office or public employment to which he has been elected or appointed as a member of a political party, shall be deemed a member of such political party.

“Any voter who, within one year preceding any primary election, has contributed toward the campaign funds of a political party, shall not be eligible to vote in the ballot box of any other political party at such primary election.

“Any person voting in the primary ballot box of any political party in any primary election in this State in contravention of the election law of this State, shall be guilty of a misdemeanor, and any person or persons who aid or assist any such person in such violation of the law by means of public proclamation or order, or by means of any public or private direction or suggestions, or by means of any help or assistance or co-operation shall likewise be guilty of a misdemeanor.”

#### REGISTRATION OF VOTERS

This has been made a new main subdivision instead of a part of “general elections.” All provisions for the registration of voters have been brought together. One article deals with house-to-house canvass; one with permanent registration; the third with registration for municipal elections in commissioned governed municipalities

## TRANSFERS IN THE SMALLER MUNICIPALITIES

Transfers in municipalities not having permanent registration are granted on election day by the district board, it being found by experience that the voter usually resorts to the place where he last voted to get his transfer. Transfers are no longer necessary where he has moved from one house-to-house canvass municipality to another, because in such case he may register and vote the same day in the district where he then lives. The revision, therefore, confines the necessity of transfers to cases where he moves to a municipality which has permanent registration. Abuse of the privilege is safeguarded by providing that the district board, before allowing him to vote in the latter municipality, must see that he complies with all the requirements of permanent registration.

## SUMMARY PROCEEDINGS ON DISPUTED REGISTRY

Our investigation disclosed that proceedings in some instances under the old section were somewhat too summary. The valuable features are retained, but to curb politically minded judges, we have provided that full stenographic record of the proceedings is to be taken, transcribed and filed as a public record. That record is to include as well the appearances, the findings of fact and of law, and the court order made pursuant thereto.

## -PERMANENT REGISTRATION

We approached this difficult subject with an open mind, having no preconceived ideas as to whether it should be retained or abolished. Voluminous testimony has been taken as to its actual operation. Both sides have been fully heard. Its proponents have been enthusiastic as to its merits, and have earnestly advocated its extension to all municipalities. Opponents have, with equal force of conviction, demonstrated its present defects and abuses, and have, therefore, urged that it should be discarded, and the expensive mechanism, heretofore installed in all municipalities having a population in excess of 15,000, abandoned.

We find that permanent registration is sound in principle. We believe that the present defects can be cured. It is not necessary to call in the undertaker when the services of the surgeon may suffice. An operation or two may prove effective. The experiment of permanent registration should be continued until it has had a fair trial.

Since we recognize it is still in studio stage, it follows that it ought not to be applied to other municipalities until the suc-

cess of the experiment is convincingly demonstrated. Therefore, and having in mind the Federal census about to be made this very year, we have raised the dividing line to municipalities having a population of 25,000, but to save scrapping the rather expensive mechanism heretofore installed, have provided for the retention of permanent registration in those municipalities which now have it, irrespective of what their population may be under the approaching decennial Federal census.

#### COMMISSIONER OF REGISTRATION

We have lodged the full responsibility of permanent registration in the commissioner of registration. He has been given the power to select his own employees instead of having them hand-picked for him by a bipartisan board. Having amplified his powers commensurate with his duties, we have the right to expect performance and to reject excuses for non-performance. The administration of the law is squarely up to the commissioner. There is no longer any divided authority.

#### PURGING REGISTRY LISTS

With the constant, almost predictable shift in population in our larger municipalities, provisions for purging the registry lists become imperative. The previous provisions respecting removals of voters, deaths, convictions, etc., have proved inadequate. Mindful that we must be fair to the voter, who relies and has a right to rely on his permanent registration, we are conscious that some effective means must be devised to keep the lists of qualified voters in a given district as close to the actual facts as humanly possible and expedient. We have further tightened these provisions measurably, as will appear by later reference. But more, there must be some omnibus provision, fair to the voter, and at the same time effective to catch all those situations which legal regulations and the natural percentage of error in their administration cannot cope with a full one hundred per cent. We have, therefore, provided that if a registered voter does not vote at a general election four consecutive years, his permanent registration is automatically removed to the inactive file, and he is required to re-register before being allowed to vote in any subsequent election. The duty to vote thus goes hand in hand with the right to vote.

## CHANGE OF RESIDENCE BY VOTER

Any voter once permanently registered may, upon changing his residence, effect his own transfer on the registry lists, so as to be eligible to vote in the new district, by simply notifying the commissioner by postcard. Few, however, of those who move think of it at the time. The thought more naturally comes upon reading the public prints a month or two preceding election—sometimes not until election day itself. Hence results the usual last-minute rush for transfers.

Grant confusion was caused by the terms of the previous law dealing with this situation, notably in Hudson County, with result that many, eligible to vote, spent hours endeavoring to be heard before one board, only to find when their turn arrived that they had gone to the wrong place, and they would have to spend further time getting in line somewhere else.

This confusion has been removed by making the time of the application for transfer and not the time of the voter's removal the criterion for determining where and to whom he should apply for transfer. The revision provides that all applications for transfer made on or before the fourth Tuesday preceding any election are made to the commissioner; between that fourth Tuesday and including the day of the election, the commissioner makes no transfers, nor does anybody else; if the voter failed to effect his transfer before that fourth Tuesday, he now waits until election day itself, and then goes directly to the district board where he last voted, and in simple manner gets his transfer which he then presents to the district board of the district where he then resides. Such division of labor among the many district boards lightens the labor and eradicates the provocative delays.

## CHANGE IN REGISTRATION DUE TO MARRIAGE OR DIVORCE

A similar change has been made in this section, which clarifies that in case of change of a woman's name, due to marriage or divorce, the "fourth Tuesday before any election" refers to the time of her application to vote rather than to the time of said change of name. She is in nowise deprived of her right to vote due to such change in name.

## CHECK-UP BY COMMISSIONER

To thwart fraudulent voting and to eliminate names improperly registered, we have inserted in the revision a check-up or purging provision whereby the commissioner within ninety days after each

general election is to send, by government reply postal card, to each registrant who failed to vote at that election, an inquiry as to whether such registrant still resides at his registered address and, if not, where. In cases where it is found that registrants have moved from one address to another within the same district, or from one permanent registration municipality to another within the same county, the records are to be corrected accordingly, and the transfers made on the books. Where it is found that they have moved from a permanent registration municipality into a house-to-house canvass municipality, the permanent registration forms are to be put in the inactive file, and such person, if perchance he return to any permanent registration municipality, is required to re-register.

To prevent recurrence of situations brought to the attention of the Commission, where for unfair motives and merely political advantage, permanent registration forms were transferred from the signature copy register into the inactive file on the very eve of the election without notice to the voter, it is now provided that this cannot be done after the second Tuesday preceding any election until after such election has occurred. And then he gets notice of it. Anyone in doubt as to his status as a voter may, therefore, by simple inquiry from the commissioner any time within the two weeks preceding the election, ascertain in what district he is registered, and what, if anything, is necessary to be done in order to vote.

#### NOTICE OF DEATH

The health officer of each municipality in charge of records of death now files with the superintendent of elections in first class counties, and with the commissioner of registration in other counties, once each month, the names and addresses of all persons over twenty-one years of age who have died within the previous month. Identity of the deceased must, of course, be established with the names on the registry list before the latter can be stricken out. Hence the superintendent or the commissioner, as the case may be, makes investigation for that purpose. In counties of the first class, needless duplication of work was formerly occasioned by the old provision that after the superintendent had determined the fact of identity and so certified to the commissioner, the commissioner nevertheless was allowed and even supposed to make his own independent investigation. Unless the commissioner himself were satisfied, it made no difference what the superintendent had determined. There was not only expense and needless duplication, but until the commissioner personally saw fit to strike the

name off the list, the work of the superintendent went for naught, and had to be done all over again in connection with the next election, with the result that lists were clogged up with names of decedents, in spite of the fact that a responsible arm of the law, the superintendent, had determined as a fact that that particular registrant was dead. The revision takes the option away from the commissioner and makes it mandatory that he remove the name of a decedent once it is certified to him by the superintendent. The business of elections should be carried on without overlapping of effort or needless duplication, like any other business.

#### CONVICTIONS OF CRIME

The situation is similar in effect to death. The present law provides that the county clerk shall furnish information as to convictions which would disfranchise, with the superintendent and commissioner, as in case of deaths. A similar inquiry is then made to establish identity. The revision provides, for the reasons aforesaid, that it is mandatory for the commissioner, in first class counties, to strike out the name of such convicted person once the identity has been established by the superintendent.

Because the information required in cases of crimes is not within the knowledge of the county clerk, and reference must therefore be made by him to the prosecutor of the pleas, the law is changed by providing that the prosecutor shall give the required information each month instead of the county clerk.

#### CORRECTION OF RECORDS BY COMMISSIONER

The commissioner is already bound to transfer to the inactive file the permanent registry of such persons as the Justice of the Supreme Court, the judge of the Circuit or Common Pleas Court may order stricken from the signature copy register. The former power of the county board of elections to order this done has been abrogated. It now is provided that the registrant shall be notified by the commissioner by registered mail of any transfer made pursuant to that section, which is but fair.

#### SIGNATURE COPY REGISTERS

These are the duplicate permanent registration forms which are actually used by the district boards on election days, both primary, general, special and municipal elections. They are also used for the purpose of sending out sample ballots. Successive and unnecessary handlings, returns and redeliveries of these books have been eliminated by appropriate changes in the act.

DUTY OF COMMISSIONER AFTER ELECTION UPON RETURN OF  
SIGNATURE COPY REGISTERS

The law now provides that an entry be made of the fact that a person voted, and in the case of a primary election, what party box he voted in. These entries are required to be made by the district boards. In a presentment by the Hudson County Grand Jury, complaint was made that there was no responsible, supervising officer. This has been met by providing that upon receipt of the registers after election, the commissioner is charged with the duty of inspecting the same, and verifying from the party primary poll books and the general election poll books, as the case may be, that the entries required to be made on the record of voting forms in said registers by the district boards, have, in fact, been made.

If the commissioner shall ascertain that the required entries have not been made or have not been properly made, he shall himself cause such entries and corrections to be made forthwith. And, as a practical deterrent, the revision further provides that the commissioner shall *also* notify the county board of such failure of duty, and that the members of such district board as have thus failed shall be ineligible for reappointment as members of any district board thereafter.

Sections dealing with the disposition of the poll books after election have been coordinated to this new duty imposed on the commissioner.

LIAISON BETWEEN COMMISSIONER AND SUPERINTENDENT

Not only is the superintendent to furnish the commissioner certain information as above set out, but the commissioner is required by the revision to certify to the superintendent each month complete lists showing all registrations and transfers made and all registrations placed in the inactive, death and conviction files.

MASTER INDEX FILE

The necessity for this new section is well set out in the aforesaid presentment of the Hudson County Grand Jury, viz. :

“The registration of the voters in an election district is entered upon separate sheets, one sheet for each voter registered. These sheets are contained in loose-leaf binders, a binder for each election district. Upon the removal of a voter from a district the sheet containing that voter’s registration and the sheet containing his voting record are taken from the binder of the district in which he formerly voted

and transferred, presumably, to the binder for the district to which the voter has removed. But this removal of sheets is done without a trace of what has become of them. There is nothing whatever in the binder which formerly contained the sheets in question to show where they might be found. Nor is there, in fact, anything which so much as shows that it is the removal of the voter that has occasioned the withdrawal of the sheets. The sheets are simply missing."

The revision meets this squarely by providing that the commissioner shall make and maintain a master index file showing on separate cards the full, pertinent data of every person permanently registered in the county. The commissioner must cause notation to be made on these cards as to each registrant whose registration forms have been transferred from one register to another or to the inactive, death or conviction files, concurrently with such transfer. Such cards with such notations shall show the location of the registration forms of each registrant at all times. All changes of address of registrant, including those within the same district, shall be noted on these cards concurrently with change of address on the permanent registration forms.

#### SUPERINTENDENT OF ELECTIONS

Our first thought was that this office might well be combined with that of the commissioner of registration, thereby eliminating present overlapping of duties and some duplication of work. We found, however, that this was not practicable; that the office should be retained because necessary in first class counties. It is the right arm of the election law. It is the constituted police force and detective bureau. On it is imposed the onus for honest elections.

We found that although the office were consolidated with that of commissioner, there would still have to be an officer and a whole force vested with the powers and charged with the duties now residing or placed upon the superintendent; that the saving of expense, if any, would be negligible; that by whatever name called, the officer and the force would be necessary. We found it of no moment whether the superintendent worked *under* the commissioner. We deemed it imperative that he work *with* the commissioner. We, therefore, kept the offices distinct, deeming that responsibility for this most important work should be definitely fixed and sharply focused upon the one person responsible. The duplication of work has been removed; the overlapping, eliminated. We have previously referred to the articulation we have effected between the two departments. See further under caption purging via peremptory orders.

## CHALLENGE LISTS

The old act provides that in first class counties, the superintendent must prepare and deliver to each district board a challenge list showing the names and addresses of persons registered in such district who are "not to be entitled to vote." A person challenged may, nevertheless, swear his vote in pursuant to other sections of the statute. This is incongruous *if* the real fact is that he is not entitled to vote. If the challenge list is an adjudication by a duly constituted tribunal, it is defied and set at naught by the simple device of swearing one's own vote in. Reading all the cognate sections of the old statute together, it must have been the intention that the challenge list was in reality a list of persons suspected rather than determined by the superintendent not to be entitled to vote.

The amendments of 1928, which put teeth into the bite of enforcement by affording the cumulative remedy of a strike-out or so-called black list, was designed to actually prevent persons, not entitled, from voting. A person whose name was so struck out could not swear his vote in. He might, perhaps, review and reverse the act of the superintendent in thus striking his name off, but that was only by court proceedings—subject to cross examination, a hearing the usual due process of law. It was the duty of the superintendent to place names on the strike-out list whenever he "ascertained" or "found" certain specified facts, and generally whenever those persons were found "not entitled to vote at such election."

Those amendments left the challenge sections intact. Yet the operative language was substantially the same. Room was left, apparently, to plausibly contend that the superintendent had an option. Yet the effect on the voter was radically different, depending upon which list his name was placed. In Hudson County the bulk of names questioned went on the strike-out list; in Essex County, on the challenge list.

Both lists serve useful functions. Both should be retained. But whether a registrant's name is to go on one list or the other should be according to the actual facts in each case—according to the status of the proof, not according to the individual preference of the superintendent.

Accordingly, the provisions concerning challenges have been revised so that there is placed on the challenge list those names "whom he (the superintendent) believes or has reason to suspect are not entitled to vote at said election in said district by reason of death, conviction, removal or otherwise, or whose right he otherwise questions and therefore challenges."

The challenge list, therefore, becomes merely a "suspect" list. Where the proof has made the superintendent "sure," then, and then only, may he put the name on the peremptory order striking out the voter's name, thereby putting the voter to the necessity of appealing to the courts if he desires to reverse the adjudication made by the superintendent.

#### PEREMPTORY ORDER

The objective and operation of this order has been discussed under the preceding caption. The amendments of 1928 prescribed the duty of the superintendent to issue these orders against names of persons whom, inter alia, the superintendent shall have ascertained "to have removed from the place of registry or have been found to be registered from some place other than the actual residence of the person whose name appears upon said registry." We find this well-intentioned operative language to have been too broad. Persons duly registered at the time of registration, but subsequently moving, found their names on a so-called black list. If they moved to another place in the same county, they were entitled under the law to a transfer entitling them to vote, even on election day itself. If they moved from one place to another in the same election district, in which event not even a transfer would be required, they might lawfully, nevertheless, as the law then stood, be put upon this list. Carrying it to an extreme, the same result if they moved from an apartment on the first floor to one on the second floor of the same building.

The revision, therefore, eliminates the words last quoted, and, in lieu, substitutes that names are to go on this list when the persons registered have been found never to have resided at the place of registry or to be registered from some place other than the actual residence or not possessing the qualifications to vote required by the Constitution of this State, or otherwise not entitled to vote, and follows this by the important proviso that no such order shall be issued against any person who was legally registered at the time of registration merely because he has moved from such registered address, unless it shall be found that such person has moved out of the county

#### PURGING OF REGISTRATION BY PEREMPTORY ORDERS

Under the old law, the strike-out operates only as regards the particular election for and at which it is served on the district board. It has to be repeated for each successive election until the name, perhaps, is stricken from the registry list by the commissioner, who may or may not abide by the decision of the superintendent. Thus, there is needless repetition of work, and a

division of responsibility, not to speak of the enormous expense inflicted upon the county in publishing unnecessary names from year to year.

The revision makes it obligatory upon the superintendent, concurrently with the delivery of the order to the district boards, to also deliver to the commissioner a true, certified copy, and upon the receipt of such copy, it is mandatory that the commissioner transfer the permanent registration forms of the persons named in the order to the inactive, death or conviction file, as the case may be. From that point on, the matter is solely up to the courts, where it should be.

#### PARTISAN ACTIVITIES OF SUPERINTENDENT OR SUBORDINATES

To insure that the office of superintendent of elections is kept free from all partisan activities, we have provided a new section reading:

“Neither the superintendent of elections nor any deputy, clerk, secretary, agent, assistant, or subordinate appointed or acting under the orders of the superintendent of elections, or any person or persons designated by him to act at or in respect to any election, shall engage in or be concerned with any partisan activities whatsoever directly or indirectly. Any person who shall violate this section shall be guilty of a misdemeanor and be punished accordingly.”

#### SALARIES OF OFFICIALS

Complaint was made by some members of district boards that they were not paid for months after they had finished their work on primary and general election days. It is now provided that they shall be paid within thirty days after each general election.

Statutory payments for services by district boards which are performed on the same day as other services for which they are fully paid have been eliminated, effecting a proper saving. Services of election boards in mailing sample ballots for the primary and general election have been raised from \$2 and \$3, which fees are inadequate compensation, respectively to \$5.

The inadvertent unfairness of the amendment, which unwittingly deprived commissioners of registration in second-class counties of compensation for their services as such, has been straightened out.

## VOTING MACHINES

We have made a careful study of this subject, devoting the whole of one hearing to an exhaustive exposition and demonstration.

We believe that voting machines should be adopted. The age calls for their speed and their accuracy. No business of any size is without its adding machines and cash registers. Financial commitments of staggering size are made in reliance on ticker-printed tape. Congress insists that the railroads shall install automatic signal devices and no longer rely on fallible human agencies to safeguard train movements. We no longer crank by hand. Our property, our happiness, our business, and our lives themselves are quite dependent on mechanisms of one kind or another. And elections are big business for the public.

The big question is the expense of installation and of subsequent maintenance. This, while reasonable when amortized over a long run, involves the present outlay of amounts which may prove prohibitive to many municipalities. Tax rates climb at an appalling pace. The ultimate consumer in this instance will be the taxpayer. In the last analysis, this is his business. The present unsettled financial outlook is not a propitious time to saddle a staggering expense on the already overburdened taxpayer, unless he himself directly voices his desire.

We, therefore, recommend that this matter be put directly to the voters by way of appropriate referendum. This was the course recently adopted by our neighbor, the State of Pennsylvania. The matter should be thoroughly debated as to the form the referendum should take. The mistakes of our experiment with machines a quarter of a century ago must be avoided. The public should be fully informed of what it is to decide and the consequences of such decision. The public will decide right and be happy about it. It willingly pays what it orders for itself.

Respectfully submitted,

JOSEPH G. WOLBER,  
*Chairman;*

THOMAS M. GOPSILL,  
*Secretary;*

RALPH W. CHANDLESS,  
CHARLES A. OTTO, JR.

We are opposed to permanent registration. We believe in personal registration throughout the State. If retained despite our dissent, we cordially approve the remedial provisions of the revision as being steps in the right direction to cure its many present and patent defects. In that event, permanent registration should be applied to all municipalities.

*Mr. Frederick A. Brodesser, Clerk  
Trenton, N. J.*

DEAR SIR—I am enclosing Petition for Impeachment of Vincent R. DelGuercio, a Justice of the Peace of this State. Same was sent to this office by Frederick A. Heisley, 810 Broad Street, Newark, N. J. If it is necessary for Mr. Heisley to appear, will you kindly telegraph him at said address.

Yours very truly,

THE NEW JERSEY COURT OF IMPEACHMENTS IN THE SENATE  
AND HOUSE OF ASSEMBLY OF THE STATE OF NEW JERSEY

WILLIAM PATTERSON AND LEVERITT B. BROWN,	}	<i>Petitioners,</i>	In Impeachment.
<i>vs.</i>	}	<i>Defendant.</i>	
VINCENT R. DELGUERCIO, Esq., A JUSTICE OF THE PEACE,			

PETITION

*To the Honorable, The Members of the House of Assembly, of  
the State of New Jersey:*

Your petitioners, William Patterson in the Town of Belleville, and Leveritt B. Brown residing in the Town of Nutley, in the County of Essex and State of New Jersey, say:

1. That Vincent R. DelGuercio, is a Justice of the Peace, duly qualified and elected by the First Ward of the Town of Belleville, said County and State, and at the times hereinafter mentioned, was such Justice of the Peace, holding a Small Cause Court, in said Town of Belleville.

2. That said Vincent R. DelGuercio having a judgment in his said Court at the Suit of the Essex Lumber and Coal Company, Inc., a corporation of the State of Delaware, duly authorized to conduct business in the State of New Jersey, against Pietro Messino, did issue proceedings against the said Pietro Messino supplementary to and in aid of execution on said judgment, and did further, on the 10th day of September, 1929, issue a warrant for said Pietro Messino's arrest for contempt of court, which warrant was executed upon said Messino, who was the same thereunder brought before said Vincent R. DelGuercia, and being adjudged by him guilty of contempt of the said Small Cause Court, was fined fifty dollars and costs, for his pretended contempt of court; and in default of the said fine and costs, was the said 10th day of September, 1929, committed by the said Vincent R. DelGuercio to the common jail of the said county, until he should pay the sums of fine and costs, or the said justice should see fit sooner to discharge him from his said confinement. Accordingly said Pietro Messino was committed to and confined in the common jail of Essex County from the 10th day of September, 1929, until the 26th day of September, 1929, as will appear from the records of said jail, being released upon the pay-

ment of fine and costs, which said Justice sitting in his Small Cause Court had no lawful right to impose, or to imprison upon default for the default in payment thereof, having no contempt powers.

3. That the commitment of Pietro Messino drawn by the said Vincent R. DelGuercio, stated that the fine of fifty dollars that was thereby imposed upon the said Pietro Messino for his disobedience to the orders of the Justice of the said Small Cause Court was for the use of the Town of Belleville, New Jersey, nevertheless, the said sum of fifty dollars has not been paid over by the said Vincent R. DelGuercio to the financial officer of said Town of Belleville, or returned to the said Pietro Messino, constituting extortion and misfeasance in office.

4. That on the 20th day of September, 1929, said Vincent R. DelGuercio, in his said Small Cause Court, having rendered a judgment against petitioner, William Patterson, of said Town of Belleville, in favor of said Essex Lumber and Coal Company, Inc., and having previously undertaken unlawfully supplementary proceedings against him, did issue his warrant for the arrest of said William Patterson; that said warrant was served and the said William Patterson brought unlawfully before the said Vincent R. DelGuercio, who adjudged him guilty of the contempt of the said Small Cause Court, as charged in said warrant, and said Vincent R. DelGuercio did then and there impose upon the said William Patterson a fine of fifty dollars and costs, and in default of payment of said fine and costs, the said Vincent R. DelGuercio did commit the said William Patterson to the common jail of said County, and there imprisoned him unlawfully from the 20th day of September, 1929, until the second day of October, 1929, on which day he was discharged from his said imprisonment by an order of the Court of Chancery (of New Jersey) upon Habeas Corpus proceedings, the writ therefor having issued on the first day of October, 1929, out of said Court, at the suit of the wife of said William Patterson.

5. That said Vincent R. DelGuercio, while Justice of the Peace and conducting his said Small Cause Court, had solicited said Essex Lumber and Coal Company, Inc., for its collection matters, and thus gained jurisdiction of the said two foregoing litigations.

6. That said solicitation of claims for collections was, while Justice of said Court, prosecuted widely by the said Vincent R. DelGuercio, throughout the Towns of Belleville and Nutley, as by his own statement published in a newspaper known and named as The Belleville Times, published in said Town of Belleville, in the month of January, 1929, made publicly known that he had

six hundred and twenty-five cases on the docket of his Small Cause Court, within one year's time, or less. The use of a printed postal card announcing his Court and its jurisdiction was employed to advertise said Small Cause Court.

7. That the administration of his said Court is by the said Vincent R. DelGuercio, attended by a severity and drastic nature that is at variance with the temper of American Courts of Justice, he, through the solicitation of business for his said Court, being a prejudiced judge. In the case in tenancy between Henry Cary, landlord, and Leveritt B. Brown, said Vincent R. DelGuercio disregarded a well founded motion to dismiss the proceeding and rendered a judgment for possession on March, 1930, contrary to law.

Your petitioners therefore pray that in consideration of the foregoing matters charged, and particularly with reference to the false imprisonments, collection of fines and costs illegally, the solicitation of litigations for his said court and the scandal and injustice incidental thereto, that the said Vincent R. DelGuercio, commissioned, as a Justice of the Peace, of the County of Essex, may be impeached by the House of Assembly, and put upon his trial, for the matters alleged as aforesaid, and your petitioners will ever pray, &c.

*Attorney of Petitioners.*

STATE OF NEW JERSEY, }

William Patterson, of full age, being duly sworn according to law upon his oath, deposes and says that he is the petitioner in the foregoing petition so named. That he knows the things and matters set forth therein relative to his own arrest, imprisonment and discharge therefrom, are true, and in so far as other matters contained in the said petition are matters of belief or information, he verily believes them to be true.

Leveritt B. Brown, of full age, being conscientiously scrupulous of taking an oath, solemnly, sincerely and truly affirms that he is one of the petitioners in the foregoing petition, named, and so named; that the statements of said petition in so far as they are matters of information or belief he verily believes them to be true; that the statement of said petition about himself is true because it is a matter of his own knowledge he therefore knows it to be true. He has read the affidavit of Henry Cary the landlord to the premises at 157 Hopper Avenue, Nutley, New Jersey, dated the 10th day of March, 1927, and the same described him as "L. Brown," that he found a summons tacked on his door, founded upon the said affidavit, addressed to him, this affirmant, as "John (first name unknown and fictitious) L. Brown," commanding him either to vacate the said premises, or appear in the Small Cause Court, before the said Vincent R. DelGuercio, Justice of the Peace, at 151, Washington Avenue, Belleville, New Jersey, on Wednesday, the 19th day of March, 1930, and show cause," etc. that this affirmant appeared as bidden by said summons at ten o'clock of the forenoon, March 19th, 1930, before the said Vincent R. DelGuercio, at his said Small Cause Court, and read his motion to the said Vincent R. DelGuercio, that the proceedings be dismissed because of the misnomer in the landlord's affidavit and the use of a fictitious name for his designation in the summons served, and the argument therefor, prepared by a lawyer of the New Jersey Bar, without any charge therefor, because affirmant is destitute of money to employ lawyers, and the said Vincent R. DelGuercio forthwith denied affirmant's motion, and entered at same time judgment for possession in favor of the landlord.

LEVERITT B. BROWN.

Affirmed and subscribed before me this 27th day of March, 1930.

Mr. Kautz offered the following report which was sent to the desk and read by the Clerk

COORDINATED GOVERNMENT IN ESSEX AND HUDSON COUNTIES  
*To the Senate and General Assembly of New Jersey*

This commission, created under Joint Resolution No 17, P. I. 1929, herewith presents its report, as directed in the said resolution, together with the following

RECOMMENDATIONS

1. Enactment of a general enabling act or acts authorizing municipalities and counties to enter into contracts with other municipalities or counties, to undertake and carry out any project, undertaking or service jointly which any municipality or county is now or may be hereafter authorized to undertake separately

2 We recommend careful study and agreement by the several municipalities and decision by the Legislature as to the liability for injury to firemen and policemen performing duty in a municipality other than that by which they are employed, and for damages to police and fire apparatus and damages caused by such

apparatus during its presence or use in a municipality other than that in which it is owned, when such men or apparatus are rendering service upon the request of such other municipality or in accordance with an intermunicipal agreement or contract providing for co-operative or co-ordinated service.

3. The installation and maintenance of teletype receiving stations and instruments connected with State Police transmitting station in all police stations in Essex and Hudson counties at the expense of the respective counties.

4. A survey of unit costs and of relative or comparative quality and efficiency of service of all departments and branches of county and municipal governments in Essex and Hudson counties, to be made by the State Department of Municipal Accounts or by some other existing State agency qualified for this task

5 That this Commission be not continued.

#### SCOPE OF COMMISSION'S STUDIES

Under the Joint Resolution, the Commission was instructed to study and report a plan for bringing about closer co-ordination between municipalities within first class counties for control and administration of municipal projects and services. This limitation of our inquiry and report to intracounty subjects placed beyond our jurisdiction such subjects as rapid transit, trunk sewers, water supplies, flood control works, sewage disposal and other public works and utilities which in their nature can probably be handled more effectively by the State or by some authority created by the State with jurisdiction over a wider area than a single county. Since another commission created last year by the Legislature has made a special study of these matters and has recommended a plan for a regional authority for their control, we have confined our studies to subjects of more essentially and exclusively local interest and effect, in the administration of which co-operation between municipalities or municipal and county governments gives promise of being more effective and economical than separate projects or administration by several municipalities.

The recommendations made above are based on conclusions arrived at after public hearings and other study.

#### *Public Hearings*

The Commission held two public hearings, one in Essex County and one in Hudson County, which were widely advertised in advance, and at which county and municipal officials, representatives of civic, political and social organizations and citizens generally were invited to state their opinions as to what steps should

be taken for carrying out the expressed purposes of the resolution.

At the Essex County hearing county officials and representatives of a large number of municipal governing bodies and civic groups told of the need for closer co-ordination of local governmental agencies and all agreed that whatever co-ordination might be worked out should be solely through voluntary action on the part of each municipality.

At the Hudson County hearing those who appeared before the Commission were unanimous in urging that all the municipalities in that county should be consolidated into a single city government. Advocates of consolidation disagreed as to whether or not such consolidation should be voluntary on the part of the existing municipalities or made mandatory by the Legislature.

Recommendations numbered 2 and 3 above, embody the conclusions of the Commission arrived at after hearing the opinions of fire and police department officers in a public hearing in Essex County, and following other conferences and inquiries on these subjects.

#### MUNICIPAL CO-ORDINATION AND CO-OPERATION

In Essex County there is a general tendency towards co-operation and co-ordination of municipal and county activities and projects, evidenced by an impressive list of such undertakings now established or under consideration.

In addition to the care of county roads, bridges and prisons, which compose the usual list of functions commonly exercised by county governments, the board of chosen freeholders has established and maintains a hospital for the insane, a tubercular sanitarium and a hospital for contagious diseases, relieving the municipalities of these burdens. Along the same line of county-municipal co-operation may be mentioned the county vocational schools, the county detention home for juvenile offenders and the mosquito extermination service. The county also employs a traffic expert and carries on a continuous study of traffic conditions, the municipalities generally co-operating with the county expert and adjusting their local traffic rules and regulations in accordance with the suggestions or recommendations growing out of the county studies of this subject.

Eleven municipalities in Essex and Union counties are engaged in the construction of a joint outlet sewer. Orange, West Orange, East Orange and Montclair are co-operating in plans for the control of flood water in Wigwam Brook. Newark, Bloomfield, Belleville and West Orange have joined forces in the construction of the Meadowbrook Drain. Bloomfield, Belleville, East Orange, Glen Ridge, Montclair, Orange and Newark, through a joint

contract managed by the Second River Joint Meeting, are constructing an outlet sewer along the course of that stream. Bloomfield and East Orange co-operated in the construction of Lloyd Brook drain, preventing floods and reclaiming wet lands in both municipalities. Newark, Irvington and East Orange were jointly interested in the construction and maintenance of the Elizabeth Valley drain and Newark and East Orange in the Halstead drain and the Vailsburg drain. South Orange and Maplewood public schools are governed by a consolidated school district. The Oranges and Maplewood co-operatively maintain a joint milk inspection and a G. U. clinic. East Orange paupers are boarded at the Orange Home and those from South Orange are boarded at the Newark Almshouse. Newark, East Orange, South Orange, West Orange and Orange have mutual emergency contracts for water supply. The East Orange police department makes fingerprints in its identification bureau for the police departments of Orange and South Orange. Several of the municipal boards of adjustments hold conferences as to zoning and building plans in territory affected by each other's regulations and decisions. The fire chiefs of eleven municipalities have for several months been working out in conference the details of a proposed co-ordinated system of fire protection which will enable the nearest apparatus to respond to the first alarm, regardless of whether or not the apparatus is located in and belongs to the municipality in which the fire occurs, and of otherwise combining or co-ordinating fire departments and signal systems to afford more efficient protection to all the municipalities connected with the conference. Tax assessors in Essex municipalities generally confer and agree on the assessment of boundary line property. There are reciprocal arrangements among several municipalities for house sewer connections.

This spirit of co-operation and co-ordination extends to private organizations of a quasi-public nature in the Oranges and Maplewood, where the Welfare Federation supports twenty-six member agencies which operate in Orange, East Orange, West Orange, South Orange Village and Maplewood. The Record ambulance, a private institution, furnishes ambulance service to these five municipalities.

Both Hudson and Essex counties have county park commissions and county park systems, in addition to municipal parks and recreation grounds. Hudson County's famous boulevard is under the control of a separate commission with its own traffic police force, and the Hudson County Police Department patrols and protects traffic on the county roads.

In Hudson County the municipalities still perform for themselves a number of the functions that the county government has taken over in Essex, and there is little evidence of co-operative spirit among Hudson County municipalities.

#### STATUTORY CONFUSION

In the course of the Commission's hearings and inquiries it was brought out very forcefully that owing to the confused and confusing condition of the statutes relating to county and municipal authority, there is doubt as to exactly what the law may be concerning the extent to which either county or municipal governments are now authorized by statute to enter into joint contracts and mutual agreements for co-operative undertakings.

In view of this fact and to obviate the difficulty and cost involved in making such a study and digest of these laws as would be necessary to the determination of these powers with certainty, your Commission recommends, as above, the passage by the Legislature of a general enabling act or acts making it clear that both counties and municipalities may enter into such joint contracts to do co-operatively anything which they are now empowered by law to do separately.

In view of the pronounced inclination towards co-operation between municipalities and between the municipalities and the county government in Essex, and the very general opposition of both the county government and most of the municipalities in Essex, especially the smaller municipalities, to State interference in local affairs, to mandatory laws affecting purely local affairs, and to anything which suggests enforced consolidation of municipalities or the creation of new agencies or bodies for the control or management of municipal affairs, your Commission finds no reason for recommending any such new or additional agencies, boards or commissions. It is our opinion that, so far as purely local affairs are concerned, the enactment of the general enabling acts recommended are all that is needed, and that, with their right to enter into joint agreements and co-operation or reciprocal contracts of any kind broadly and definitely established, the county and municipal governments should be allowed by the Legislature to work out the solution of their local and internal affairs in their own way and to their own satisfaction.

#### FIRE AND POLICE LIABILITY

Throughout both counties there is a general arrangement among fire departments that apparatus in one municipality will be sent to a fire in another municipality upon request. In the

Oranges and neighboring municipalities, as previously related, a number of municipalities are planning what amounts to a voluntary consolidated system of fire protection.

Some of these municipalities have paid fire departments, with pension systems; others have volunteer departments, with relief funds. In some, the local government protects its firemen with insurance under the compensation act. In others, no such protection is afforded.

Policemen in one municipality, acting under general or specific orders, are frequently required, in the performance of their duties, to cross municipal boundaries and apprehend lawbreakers in municipalities other than those in which they are employed.

As in the case of joint contracts above referred to, the condition of the statutes is so confused that there is difference of opinion and doubt as to what the law really is concerning the liability for injury to firemen or police or damage to fire or police apparatus when such injuries or damages are incurred in a municipality other than that in which the men are employed or the apparatus is owned. There is also uncertainty as to liability for damage caused by such apparatus outside the boundaries of the municipalities in which it is owned. Our recommendation No 2, above, is aimed at removing doubts on these subjects.

#### POLICE TELETYPE SYSTEM

There is a bill before the Legislature designed to enable the State Police Department to install and operate a State-wide system of transmitting or broadcasting police bulletins, notices and other information by the use of teletype machines or electrically operated typewriters. Municipal and county police departments and agencies for the detection of crime and apprehension of criminals are to be allowed to integrate local teletype installation with the State system.

The necessity for some such effective system of quickly disseminating information concerning crimes, descriptions of criminals, notices to the police everywhere to watch for and apprehend lawbreakers, calls for aid in the case of catastrophies, etc., is obvious.

Testimony given before your Commission by police authorities in Essex and Hudson counties was to the effect that in the absence of such a system, the numerous municipal police departments, restricted in their operations by municipal boundaries which do not hamper the operations or movements of criminals are greatly handicapped in their efforts to prevent crime and apprehend criminals. With approximately forty police departments in Essex and Hudson counties, each operated as a sepa-

rate and isolated unit, hold-up men, gangsters and other criminals commit crimes in one of these municipalities and escape over municipal, county and State lines before the police of other municipalities in the region can be notified through the slow process of calling each of the other police departments by telephone.

It was testified before the Commission that the police of some nearby municipalities in Essex and Hudson have never yet received official notification of the Elizabeth mail robbery of several years ago, or of the East Orange bank robbery of last year. The chief of the Hudson County Police Force, which patrols the main highways between Newark and Jersey City, told the Commission that the only information he ever received concerning crimes or criminals wanted in Newark was given to him by bus and truck drivers.

To enable the State Police system to be of the largest benefit and usefulness in adding to the efficiency of the police departments in Essex and Hudson, it is desirable that every county and municipal police station in this territory be promptly equipped with receiving instruments to receive the bulletins from the State transmitting stations, of which there will be five, with one located in either Essex or Hudson County. These receiving instruments are electrically operated typewriting machines, similar to the well-known stock ticker, or the machines used by the press associations in transmitting dispatches to newspaper offices. No operator is needed in the receiving station, since a permanent printed record is made which can be consulted at any time.

This Commission recommends to the boards of chosen freeholders in Essex and Hudson counties that these receiving stations be installed in all police precincts in the two counties and that the expense of such installation be borne by the respective county governments. Otherwise, if it is left for each municipality to install such instruments and connect them with the State system, there may be delay in making the system cover every part of the territory, through the indifference, backwardness or parsimony of some municipal governments or police departments, with the result that territories in which such installation is not made are likely to become safety isles or havens of refuge in which criminals may escape the police dragnet that the system will enable to be spread upon the broadcasting of an alarm.

If it should develop that a local transmitting station, for any reason or reasons, is essential or desirable in this territory, in addition to the State transmitting station to be located in this vicinity, this Commission recommends to the boards of chosen freeholders of Essex and Hudson counties a careful study of whether or not the installation of a single transmitting station to serve both counties and to connect the numerous local depart-

ments with the State system and with each other, cannot be most effectively and economically installed and operated at the joint expense of the two counties.

#### GOVERNMENT PROBLEMS IN URBAN DISTRICTS

The problems of a large urban or metropolitan district divided into several municipalities are intricate, and are common to many such communities elsewhere. Consolidation into a single city has been the solution generally offered. New York, Chicago, Philadelphia, Atlanta and Los Angeles have annexed large areas of surrounding territory. Consolidation or annexation, under different guises, are being urged in Pittsburgh, St. Louis and San Francisco, which have conditions somewhat similar to those which exist in Essex and Hudson counties. The plans proposed in the latter cities are for inclusion of the entire territory under super-city governments which would have control of certain public works and services, while the existing municipalities would continue to function in purely local affairs. The difficulty in all these projects is to secure agreement as to what are purely local affairs. Compulsory annexation or consolidation of municipalities is generally disapproved everywhere at this time.

#### CONSOLIDATION OF MUNICIPALITIES

In both Essex and Hudson counties there is strong sentiment in the larger cities in favor of consolidation of municipalities. In the smaller municipalities there is generally just as strong sentiment against consolidation. There are citizens who advocate the taking over by the county governments of many additional functions now performed by municipal governments. There are other equally sincere citizens who object to the further encroachment of the county upon the municipalities. The whole subject of consolidation or annexation has been one of discussion and dissension in both counties for many years. Advocates of a Greater Jersey City and of a Greater Newark or a city of Essex urge that there are advantages and economies in a larger government, and opponents of consolidation just as strenuously contend that the smaller forms of government are more economical and just as efficient. Each side to the controversy creates its own data and formulates its own argument.

An unprejudiced, dispassionate survey of the organization and costs of governments under the present system of separate municipalities has never been made and no data of a comparative nature has been compiled in authoritative form. We believe that a comprehensive survey of the organization and unit costs of

government, of comparative quality or efficiency of services, in each of the municipalities of both counties, as well as of the county governments, would serve many useful purposes. Such a survey should be made by a disinterested agency which might well be the Bureau of Municipal Accounts or some other existing State agency.

We are of the opinion that the continuance of this Commission would serve no useful public purpose, and we will return the unexpended balance of our appropriation to the State Treasurer

#### VIEWS OF A MINORITY

##### *Hudson County Consolidation*

In the opinion of the undersigned members of your Commission, the municipalities of Hudson County should be consolidated into a single city. Eight municipalities lie between the Hudson River on the east, the Hackensack River on the west and Bergen County on the north. Between the Hackensack River and the Passaic River lie Kearny, Harrison and East Newark.

The present multitude of municipalities in this comparatively small area operates to retard development and largely to increase expenses of government through multiplication of offices, inefficiency and waste.

At present each municipality is more or less jealous of neighboring municipalities. If they were consolidated and administered by one city government, there is no limit to their collective possibilities for growth and development. The waterfronts along the Hudson River, New York Bay, Newark Bay and the Hackensack River should be properly developed. This can be adequately accomplished only by consolidating these municipalities into one and

developing the natural resources of the county under a general plan for the common good.

We are firmly of the belief that such consolidation should result from the voluntary action of the citizens of these several municipalities.

Consolidation should not be enforced either by act of the Legislature or by a majority vote of all the people of the county where the result might be controlled by one or more of the larger cities. Advancement of the general welfare of all the people should be a sufficient incentive to overcome local fears or pride. Enormous increases in property values and reduction of expenses would more than offset any differences in tax rates.

Voluntary consolidation has already been begun by the recent union of West Hoboken and the town of Union into Union City. Efforts for consolidation of the remaining municipalities in Hudson County should go on unceasingly, as a really great city on the west bank of the Hudson River will come only with the combining of the smaller units into one great city, administered as a single unit, planned for the finest and most useful development and permitted to grow into one of the greatest manufacturing and shipping centers in the world.

#### *Essex Conditions Different*

While consolidation, from the evidence before your Commission, is needed at the present time in Hudson County, a different situation exists in Essex.

Essex County is divided into municipalities of many different kinds. The geographical situation is different in Essex than in Hudson, and the reasons for consolidation which exist in Hudson exist not at all in Essex. On the hearings before your Commission practically the only topic discussed by the representatives of Hudson County was consolidation, while in Essex the only subjects discussed were how best to enable the county government to co-operate with the municipal governments and the municipal governments to co-operate with each other, for the sharing of benefits and costs of work than can properly be done by one or more in the interests of several.

We believe the present law permitting consolidation is sufficient.

THE BOND CLUB OF NEW JERSEY

At a regular meeting of the Bond Club of New Jersey held on Thursday, April 3rd, 1930, at the Robert Treat Hotel, Newark, New Jersey, the following set of resolutions in connection with Senate Bill No. 9; now pending in the New Jersey State Legislature, was adopted:

WHEREAS, There is pending in the 1930 Legislature of the State of New Jersey a bill, Senate No. 9, providing that dealers in securities must secure a license from the State and pay a fee therefor; the purpose of the act being to combat frauds in the securities field; and

WHEREAS, The New Jersey Securities Act (Chapter 79, P. L. 1927), now in full force and effect, designed to protect the public and prevent economic waste, has been proven efficacious in combatting frauds in the securities field; and

WHEREAS, The theory underlying the New Jersey Securities Act is approved by this organization and the theory of licensing security dealers is disapproved; and

WHEREAS, It is the considered belief of the members of this organization that the public interest does not require the enactment of legislation licensing security dealers; now, therefore, be it

*Resolved*, That the Bond Club of New Jersey in meeting assembled this third day of April, 1930, does disapprove Senate Bill No. 9, and is unfavorable to the passage of any licensing bill; and be it further

*Resolved*, That a copy of this resolution be presented at a hearing on Senate Bill No. 9 to be held on April 7th, 1930; and be it further

OFFICE OF THE CITY CLERK

April 12th, 1930.

*Frederick A. Brodesser,*  
*Clerk, New Jersey State Assembly,*  
*Trenton, N. J.*

DEAR SIR—I am attaching hereto a certified copy of a resolution and a copy of the poll vote covering adoption by the Common Council of the City of Rahway at their stated regular meeting held April 9th, 1930, and which document I have been instructed to send to the legislative bodies of our State for presentation to them.

Will you kindly place this document in the proper channels for record.

Yours very truly,

JOHN J. HOFFMAN,  
*City Clerk.*

## RESOLUTION BY COUNCILMAN LOVE

WHEREAS, rumors have spread through the City connecting the Police Department of the City of Rahway with graft and corruption; and

WHEREAS, it is the desire of the Common Council and those directly in charge of the Police Department that these rumors be thoroughly investigated by an impartial authority.

*Be it Resolved;* That the State Legislature be petitioned to investigate, through a committee duly authorized, the Police Department of the City of Rahway from January 1st, 1928, or any other period they may desire.

*Be it Resolved,* That the City Clerk is hereby instructed to send a copy of this resolution to the Legislature and a statement showing the poll of the Council on its passage.

*Be it Further Resolved,* That in the event that the Legislature does not comply with this resolution, that a committee be appointed by the President of this Council to investigate the same and that all hearings be open to the press and public.

Certified to be a true copy of the original resolution adopted by the Common Council at their regular meeting held on April 9, 1930

(SEAL)

### REPORT

*To the Legislature*

April 14th, 1930.

The undersigned Commission, known as the New Jersey Delaware River Interstate Bridge and Tunnel Commission No 2, wish to respectfully submit to you the following report for the work done by it since the passage of a bill approved April 3, 1929, authorizing it to act jointly with the Commission known as the Pennsylvania Commission No 2 or with such other board, commission, or body as may be duly constituted by the Commonwealth of Pennsylvania for a second bridge or tunnel over or under the Delaware River.

Since the passing of that bill there has been no body on the Pennsylvania side of official capacity to act in conjunction with our body, and there will be no such body in existence until the legislature of the State of Pennsylvania meets on January 1, 1931. During the interim, however, your Commission has from time to time been meeting and keeping in touch with all projected crossings over the Delaware River from Pennsylvania to New Jersey, making studies of the same with the different bodies interested; namely, the Tri-State Regional Planning Federation, Chambers of Commerce, South Jersey Transit Commission, and Citizens' Better Transportation Association, and other organizations interested on both sides of the river in the area affected by your legislation of last April.

Watch has also been kept over legislation at Washington designed to give to private individuals franchises under the river or above it, that might not be to the best interests of the State of New Jersey.

We have had conferences with our Representatives in Congress and with the various bodies designated above, and have had meetings to discuss House of Representatives Bill No. 9305, introduced at Washington, granting a franchise to private individuals or corporations for a second crossing of the river, and have gone on record as opposed to giving such rights to

individuals, as we considered it would be abrogating the rights that have been given to this Commission by your honorable bodies

We stand ready for cooperation with any Commission on the Pennsylvania side of the river, and have made the necessary research to take action in carrying out New Jersey's part in a second crossing of the Delaware River, plans for which crossing by a bridge having been submitted in our previous report of 1929.

The Commission plans to make a study of the cost of a tunnel under the river and will submit the same to your honorable bodies as soon as they can be fully studied and formulated.

We shall also make a comparison of the cost of a bridge and tunnel across the Delaware River, and shall study the most desirable type of tunnel and cost of same, pending action from the Pennsylvania side.

Respectfully submitted,

NEW JERSEY DELAWARE RIVER INTERSTATE BRIDGE AND  
TUNNEL COMMISSION No. 2.

By FRANK L. SEMPLER, *Chairman*.

I. NORWOOD GRISCOM, *Secretary*.

A message was received from the Governor by the hands of his Secretary, as follows, and was read by the Clerk:

STATE OF NEW JERSEY,  
EXECUTIVE DEPARTMENT,  
September 8, 1930. }

*To the Legislature:*

The enactment of Chapter 181 of the laws of this year, which took effect April 18th, has had some unanticipated consequences. It not only established a more rigid debt limit for municipalities in the future, but it immediately put over the debt limit several municipalities, which prior to its enactment were within the limit as theretofore established.

This has had two results which require relief. Some of the municipalities which had in good faith gone ahead with contracts, even completing some, found when they prepared to finance or refinance the construction that there was some defect in the original ordinance, which required the adoption of a new ordinance to correct the defect, and likewise discovered that no new ordinance could be passed because of the unforeseen effect of Chapter 181.

Other municipalities find themselves called upon to install sewers and other underground facilities for utilities in anticipation of paving projects of the State or counties. Desiring to make such installation, both to promote the development of the streets to be paved, and to save the immense expense that would later be incurred if this work had to be done after the paving was laid, they now find themselves prevented from proceeding by this same act, and they thus become an obstacle to improvements which the State or the county has in contemplation.

An important State Highway project, the construction of approaches to the new Hudson River Bridge, is being delayed, although speed in this work is highly essential because of the near approach of the completion of the bridge itself.

At the same time the credit of some of the municipalities will be seriously impaired if they are prevented from passing ordinances for financing the work heretofore performed, and the impairment of the credit of any one New Jersey municipality would necessarily affect the credit of all other New Jersey municipal obligations. These reasons make it important that some emergency relief be afforded.

A study of the municipalities affected and of the problems created by Chapter 181 clearly establishes that the new limits thereby imposed will prove beneficial in preventing unwise municipal expenditures in the future; but some temporary measure should be provided to aid in the period of adjustment.

A bill will be presented to you for consideration which, in my opinion, meets the emergency. It provides that as to work heretofore initiated any municipality may adopt ordinances to finance or refinance such improvement as if Chapter 181 had not been adopted. This section will be purely temporary as it is strictly limited to improvements heretofore initiated.

It also authorizes the passage of ordinances for new improvements in cases of necessity, but only in the cases specifically defined in the bill. In all the cases there defined the necessity is fairly obvious, and in any such cases a newly imposed debt limit should not be permitted wholly to prevent the improvement.

Relatively few applications will be made for relief under these provisions, but in order to prevent any municipality from exceeding the limits of the necessity defined in the bill, no ordinance may be adopted exceeding the limits imposed by Chapter 181 until the Commissioner of Municipal Accounts has certified that the ordinance complies with the new legislation, and this certificate is only to be made after a public hearing. The Commissioner is given no power to order any work done, but only on application of the municipal authorities to certify whether the proposed ordinance is in compliance with the new legislation.

The effect of suddenly barring municipal improvements by a new debt limit is, of course, in many cases to check pending plans for development. When the original bond limit was adopted a temporary measure of elasticity was afforded to those municipalities which found themselves over the limit. The bill submitted to you likewise contains a further section affording some degree of elasticity by permitting a reissue for new local improvements (over the Chapter 181 limit) of one-half of the amount by which

the improvement debt of such municipality may have been reduced since January 1st of this year. This permission is subject to a like check by requiring a like certificate from the Commissioner of Municipal Accounts. It may be described as a tapering off of existing debt by a reissue of not over one-half of each retirement.

I do not consider any further legislation desirable or necessary at this time.

Respectfully submitted,

MORGAN F. LARSON,  
*Governor.*

A message was received from the Governor by the hand of his Secretary as follows, and was read by the clerk:

NOVEMBER 18, 1930.

*To the Legislature:*

You have assembled today in your respective Houses pursuant to a concurrent resolution duly passed on April 16th last, to give due and full consideration to the report of the State Audit and Finance Commission recreated by Joint Resolution No. 2 of the Laws of 1930, constituted for the purpose of collaborating with the Governor in connection with the audit of the finances of the State, and for the purpose of recommending to the Governor and to the Legislature as to what boards, commissions or departments of the State may be consolidated or otherwise reorganized to avoid

overlapping of effort and jurisdiction, to examine the work, pay and duties of the employees of such boards, commissions and departments, with the object, too, of reducing costs of administration and promoting efficiency, and of a comprehensive method of operation and system of accounts for the general treasury of the State and for the various boards, commissions and departments of the State receiving funds for their support or maintenance from the State or its inhabitants.

The Commission so constituted and recreated has made an intensive study of the boards, commissions and departments of the State government. Its fields of investigation have been exhaustive and directed to the coordination of State activities and departmental consolidation, and the extent of the ground it has been able to cover, its conclusions and findings are stated in its report, as well as its recommendations with respect thereto.

With the filing of this report there have been prepared such bills or measures as the Commission believes should be enacted into law so as to bring about the necessary changes that will promote and result in greater efficiency in the operation of the State government, as well as a material reduction in the cost of administration.

I should feel that I were derelict in my duty as the Chief Executive of this State were I to fail here to emphasize the magnitude and importance of the task the members of the State Audit and Finance Commission, their counsel and those associated with them, have been pursuing. A hurried reading of the report convinces me of the responsibility we owe to the people of this State in realizing, utilizing and putting into effect all that is sound and wholesome for the good of the State, of studying the detailed recommendations so far covered, and the importance, too, of considering the further recommendations of the Commission not yet prepared and ready for submission at this time,

In my Inaugural Address delivered on January 15, 1929, I emphasized the fact that "In the course of years and the complexity of legislation in the creation of new functions of State, various departments are created and an overlapping of functions naturally results." I then said that, "At least every decade there should be a survey made of our various State departments and State activities, with a view to a better classification, coordination and avoidance of duplication."

It is with that thought more firmly controlling me, as a result of two years' experience as the Chief Executive of this State, that I address you and urge and recommend the importance of

studying in detail the Commission's report and findings, and that such recommendations be adopted as may be deemed of advantage to a more efficient administration of the State government, and to the end, also, that the cost of administration may be minimized. The task before you is one that deserves your earnest and undivided efforts: The fullest publicity to the recommendations submitted should be given, so that the public may be fully apprised and that reaction from all parts of the State may be obtained before any definite course is decided upon.

I am informed that there are several bills yet to be presented, and the Legislature should be kept in session awaiting these further measures. In this task I offer the fullest Executive cooperation.

Respectfully submitted,  
(Signed) MORGAN F. LARSON,  
Governor.
