Senate No. 2232.

State of New Jersey
Executive Department
Dated January 31, 1991
SENATE BILL NO. 2232

To the Senate:

Pursuant to Article V, Section I, Paragraph 14, of the Constitution, I herewith return Senate Bill No. 2232 without my approval.

This bill would amend the "Law Against Discrimination," N.J.S.A. 10:5-12, to provide that it is an unlawful employment practice for an employer to discriminate against an individual be-

cause of his or her status as a smoker or user of other tobacco products in hiring, firing, compensation, terms, conditions or other privileges of employment.

One of the leading causes for the rising cost of health care is smoking. Smoking contributes to lung cancer, emphysema, heart disease, and many other tragic illnesses. In New Jersey, it is estimated that 13 percent of cardiovascular disease deaths are attributable to smoking. Thirty-two percent of cancer deaths are caused by smoking, and eighty-eight percent of chronic lung disease deaths are caused by smoking. An estimated $790 million is spent each year as the result of increased health care costs created by tobacco use in this State. At a time when health care costs are spiraling and our own health-care system in New Jersey is overwhelmed and underfunded, it would be unconscionable to raise the use of tobacco to a protected civil right when it is responsible for so much harm.

It is estimated that approximately 390,000 related deaths occur each year in the United States, or 1,000 a day. At the current rate of use, five million of today's children will die of smoking related illnesses in their adult years. We cannot signal to our children that nicotine addiction is a protected right when it is a practice that should be discouraged.

Smoking is not an activity that deserves the protection of our civil rights laws. These laws have been crafted to protect citizens who, by birth, become members of a class because of certain unalterable personal characteristics such as their skin color, gender or national origin. These laws also protect certain acquired traits which society seeks to promote, such as marital and veterans' status. Smoking is, at least initially, an individual choice. It is not an immutable characteristic or a matter of such value and importance to all individuals as to warrant civil rights' status.

Many employers do not care whether or not an employee smokes off the job, but other employers appear to have legitimate job-related reasons not to hire smokers. For instance, employers, such as medical and surgical manufacturers, require a sterile work environment and are forced to minimize exposure to outside contaminants, including smoke residue from smokers' lungs. Employers whose mission, in whole or in part, involves controlling smoking or promoting health would appear to have a legitimate reason for not hiring smokers.

Of course, there must be some reasonable limitation on the employers' right to inquire into its employees off the job activities. The right to privacy should not be invaded, nor should any employee be subjected to non-job related inquiries about his activities outside the work place, unless the inquiry is reasonable related to the employment activities of the employee. Accordingly, I am directing Attorney General Robert Del Tufo to examine whether or not

our existing laws adequately protect employees from unfair treatment due to improper inquiry into their private activities, including, but not limited to inquiries regarding smoking. If our existing laws are not adequate, we can pursue other remedies short of elevating smoking to civil rights status.

Accordingly, I herewith return Senate Bill No. 2232 without my approval.

Respectfully,
/s/ James J. Florio
GOVERNOR

(seal)
Attest:
/s/ Andrew Weber
Chief Counsel to the Governor

The Secretary read a communication from the Governor who has conditionally vetoed Senate No. 1551.

State of New Jersey

Executive Department

Senate No. 1551

To the Senate:

Pursuant to Article V. Section I, Paragraph 14 of the Constitution, I am returning Senate Bill No. 1551 with my objections for reconsideration.

This bill would increase the liability of hotels, motels, inns, and boarding houses for certain losses of property of persons patroniz-

ing these establishments. Liability would be increased from $100 to $1000 where personal property is specially entrusted to the care of the establishment, but the proprietor would not be liable for loss of personal property which is not specially entrusted if the loss occurred without the fault or negligence of the proprietor. Liability for loss of valuables would increase from $500 to $3000 where valuables are delivered by a guest to the establishment for placement in a safe or other depository, but, if the hotel provides a safe or other depository which the guest declines to use, the risk of loss of the valuables will fall on the guest. In each instance, the burden is on the guest or lodger to prove the actual amount of loss.

I am in full support of this bill, which is to revise and update the law establishing the scope of a hotel's liability for a guest's property. However, one provision in the bill is of no concern to me. While I agree that a hotel owner should have no liability for a loss where a guest has left valuables in a hotel room when a secured area is made available elsewhere in the hotel, I do not believe that the hotel's liability should be limited when valuables are entrusted to the hotel for deposit in a safe or similar secured area. When a guest turns control of valuables over to the hotel management for placement in a safe, the guest should be able to rest assured that the valuables will be protected. It is only fair that if control over a valuable passes from a guest to the hotel for secure placement in the hotel safe, the risk of loss should pass to the hotel. To do otherwise would lull guests into a false sense of security and leave them open to risks that they cannot foresee and cannot guard against.

Therefore, I herewith return Senate Bill No. 1551 and recommend that it be amended as follows:

Page 2, Section 2, Line 3, Delete "not"

Page 2, Section 2, Line 5, Delete "in any sum exceeding"

Page 2, Section 2, Line 6-8, Delete in entirety

Page 2, Section 2, Line 9, Delete "liability for losses in excess of $3,000"

Respectfully,
James J. Florio
Governor

The Secretary read a communication from the Governor who has conditionally vetoed Senate No. 3227 with Governor's Recommendations. Which communication was given first reading.

State of New Jersey

Executive Department
April 25, 1991
Senate Bill No. 3227

To the Senate:

Pursuant to Article V, Section I, Paragraph 14, of the Constitution, I am returning Senate Bill No. 3227 with my objections for reconsideration.

Senate Bill No. 3227 would amend the law that establishes the position, qualifications, and duties of the chief financial office for municipal governments. It defines the responsibility of the chief financial officer and clarifies the requisite experience and educational requirements. In addition, it eliminates the requirement that a municipality pass a salary ordinance establishing a salary for the position. It also prohibits a member of the local government body from serving as chief financial officer in that municipality and provides that tenure for a chief financial officer will occur after four years.

While I support the purpose of this legislation, I am concerned that municipalities which may be impacted by the legislation will not have sufficient time to adjust to these changes and plan accordingly. Therefore, I am returning the bill with a recommendation that it be amended to be effective 60 days after enactment.

I herewith return Senate Bill No. 3227 and recommend that it be amended as follows:

Page 10, Section 17, Line 25: After "effect" delete "immediately" insert "on the 60th day after enactment"

Respectfully,
James Florio
Governor

Attest:
Andrew Weber

Message to the Senate regarding the passing of an Assembly Resolution concurring in the request to return Senate No. 3209.

Letter to the Senate from the Governor's office regarding the Reorganization Plan No. 002.

A PLAN FOR THE REORGANIZATION AND INTEGRATION OF RESPONSIBILITY FOR ENERGY AND CERTAIN PUBLIC UTILITY MATTERS WITHIN THE DEPARTMENT OF ENVIRONMENTAL PROTECTION AND THE REDESIGNATION OF THAT DEPARTMENT AS THE DEPARTMENT OF ENVIRONMENTAL PROTECTION AND ENERGY.

TAKE NOTICE that on April 25, 1991, Governor James J. Florio hereby issues the following Reorganization Plan (No. 001-1991) to provide for the increased coordination and integration of the State's utility, environmental and energy policies by the transfer of functions from the Board of Public Utilities now allocated in but not of the Department of Treasury to in but not of the Department of Environmental Protection.

GENERAL STATEMENT OF PURPOSE

Pursuant to its present statutory authority, it is the duty of the Board of Public Utilities to regulate the public utilities of the State for the provision of safe, adequate and proper service including electric, gas, solid waste, water and sewers, telecommunications

and cable television. In this role, the Board regularly considers environmental matters in consultation with the Department of Environmental Protection. Additionally, the Board is charged with evaluation of the State's energy needs to ensure the continued supply of energy at reasonable prices and to avoid the potential adverse effects of an insufficient energy supply on the economy and to the State's quality of life and its environment.

The purpose of this Reorganization Plan is to create a governmental structure that will promote the statutory aims of the Board and ensure that public utilities provide safe, adequate and proper service in conjunction with the complementary directives of

doing so consistent with the statutory goals of environmental protection and energy management and conservation. In transferring existing functions of the Board of Public Utilities to in but not of the Department of Environmental Protection, this Plan recognizes the interrelationship of energy management planning and environmental protection on the one hand and the provision of safe, adequate and proper utility service by the electric, gas, water, sewerage, and solid waste utilities on the other. This Plan will foster the efficient implementation of a coherent public policy which advances a coordinated and integrated energy conservation and planning policy.

This Plan proposes that the Commissioner and the DEP assume certain administrative responsibilities of the Board. Another significant aspect of this Plan is the merger of the solid waste regulation responsibilities of the DEP and the Board. These actions will promote the policy, regulatory and administrative integration of these two bodies, and thereby advance a coordinated approach to environmental and utility regulation and energy planning, and be more economical. This Plan also proposes that the DEP be renamed the Department of Environmental Protection and Energy to better reflect its new role, and that the Board be renamed the Board of Regulatory Commissioners.

THEREFORE, in accordance with the provisions of the "Executive Reorganization Act of 1969," L. 1969, c. 203 (C. 52:14C-1 et seq.), I find with respect to each reorganization included in this Plan that each is necessary to accomplish the purposes set forth in Section 2 of that Act and will do the following:

1. It will promote more effective management of the Executive Branch and its departments because it will group similar functions within already existing agencies;

2. It will promote the better and more efficient execution of the law by integrating the State's utility, environmental and energy public policies;

3. It will group, coordinate and consolidate functions in a more consistent and practical way according to major purposes;

4. It will reduce expenditures by more closely aligning similar functions; and

5.It will eliminate duplication and overlapping of effort by consolidating certain functions and result in a savings of State funds.

THE PROVISIONS OF THE REORGANIZATION PLAN ARE AS FOLLOWS:

1.a.The Board of Public Utilities, including the functions, powers and duties assigned to it pursuant to Reorganization Plan No. 002 (1989) (C. 21 N.J.R. 1937, July 17, 1989), created pursuant to L. 1911, c. 195 as amended (C. 48:2-1), and allocated in but not of the Department of Treasury pursuant to L. 1987, c. 365, §9 (C. 52:18A-2.1), together with all of its functions, powers and duties, is continued and is transferred to and constituted as the Board of Public Utilities in but not of the Department of Environmental Protection, except as hereinafter provided.

b. The Board of Public Utilities shall remain constituted as a three-member board as now provided by law (C. 48:2-1), whose final agency decisions, consistent with other applicable principles, continue to be appealed to the Appellate Division of the Superior Court, except that pursuant to the authority conferred by N.J.S.A. 52:14C-5 (i) the President of the Board shall be renominated as Chairperson; and (ii) in the case of a vacancy on the Board, the Governor may appoint an acting member from among the employees of the DEP or the Board by filing a letter evidencing the appointment with the Secretary of State, which appointment shall be effective for no more than 120 days and which shall then expire, or until such time as a member is nominated, confirmed, appointed and qualified to serve, whichever is sooner.

I find this reorganization is necessary to accomplish the purposes set forth in Section 2 of L. 1969, c. 203. Specifically, this reorganization will promote a closer cooperation with the Department of Environmental Protection and further the important goals of coordinating and integrating the State's utility, environmental and energy policies to ensure the provision of safe, adequate and proper service from utilities consistent with the achievement of and energy conservation goals. Also, vesting the Governor with a limited authority to name an acting member to the Board of Public Utilities, a power which already exists with respect to the Commissioner of Environmental Protection, will ensure the Board's ability to carry out its important regulatory functions without delay.

2.a.The Division of Energy Planning and Conservation in the Board of Public Utilities, Reorganization Plan No. 002 (1989),

I(1)(a), created pursuant to L. 1977, c. 146 as amended (C. 52:27F-7), together with all of its functions, powers and duties, is abolished and all of its functions, powers and duties are transferred to and vested in the Department of Environmental Protection and the Commissioner thereof.

b. There shall be created in the DEP an Office of Energy Planning which shall be assigned those responsibilities the DEP Commissioner deems appropriate, and which may include any functions, powers or duties formerly assigned to the Division of Energy Planning and Conservation.

c. Whenever in any law, rule, regulation, order, contract, document, judicial or administrative proceeding or otherwise, reference is made to the Division of Energy Planning and Conservation in the Board of Public Utilities, the same shall mean and refer to the Department of Environmental Protection and the Commissioner thereof.

I find this reorganization is necessary to accomplish the purposes set forth in Section 2 of L. 1969, c. 203. Specifically, this reorganization will confer on the Department of Environmental Protection and its Commissioner the necessary authority to implement the important goals of coordinating and integrating the State's environmental, utility and energy policies. This reorganization will also promote and assist the development and utilization of cogeneration of energy and programs of energy conservation for both residential and commercial users. This Plan will provide for the collection and dissemination of energy data for the benefit of promoting the economy.

3.a.The Advisory Council on Energy Planning and Conservation in the Division of Energy Planning and Conservation in the Board of Public Utilities, Reorganization Plan No. 002 (1989), I(1)(a), created by L. 1977, c. 146, §10 (C. 52:27F-12), together with all its functions, powers and duties as set forth in L. 1977, c. 146, §11 (C. 52:27F-13), is continued and transferred to and constituted the Advisory Council on Energy Planning and Conservation in the Department of Environmental Protection.

b. Whenever, in any law, rule, regulation, order, contract, document, judicial or administrative proceeding or otherwise, reference is made to the Advisory Council on Energy Planning and Conservation in the Division of Energy Planning and Conservation in the Board of Public Utilities, the same shall mean and refer to the Advisory Council on Energy Planning and Conservation in the Department of Environmental Protection.

I find that this reorganization is necessary to accomplish the purposes set forth in Section 2 of L. 1969, c. 203. Specifically, this reorganization will provide the Commissioner of the Department of Environmental Protection with a body that can

advise him regarding the relationship between the State's economic, environmental and energy policies.

4. The responsibility and authority vested in the President of the Board of Public Utilities to act as chairperson of the Energy Master Plan Committee, established by L. 1987, c. 365, §14 (C. 52:27F-14), pursuant to Reorganization Plan No. 002 (1989), III.1., is hereby vested in the Commissioner of the Department of Environmental Protection; the responsibility and authority of the President of the Board of Public Utilities to serve as a member of the Energy Master Plan Committee is continued.

I find that this reorganization is necessary to accomplish the purposes set forth in Section 2 of L. 1969, c. 203. Specifically, this reorganization will help ensure close coordination and integration of the State's environmental and energy policies.

5. The responsibility and authority for requiring the periodic reporting by energy industries of energy information, and the analysis and reporting of same, set forth in L. 1977, c. 146, §16 (C. 52:27F-18), is transferred to the Department of Environmental Protection and the Commissioner thereof.

I find that this reorganization is necessary to accomplish the purposes set forth in Section 2 of L. 1969, c. 203. Specifically, this transfer is consistent with the centralization of energy data collection and dissemination responsibilities within the Department of Environmental Protection as an aid to integrating energy, environmental and economic policy.

6. All responsibility and authority now vested in the Board of Public Utilities for the regulation of solid waste under L. 1985, c. 38 (C. 13:1E-136 et seq.), as amended, or under any other law or regulation, including, but not limited to rate-setting, is hereby continued and transferred to the Commissioner of the DEP.

I find that this reorganization is necessary to accomplish the purposes set forth in Section 2 of L. 1969, c. 203. Specifically, this reorganization will help ensure the close coordination and integration of the State's environmental and public utility policies.

7. All responsibility for budget, fiscal and personnel matters (including adoption of a Code of Ethics as required by the State Conflicts of Interests Law (C. 52:13D-23) and acting as appointing authority with all of the rights thereunder) and day-to-day administration, including contracting and rulemaking authority in these areas, including such authority specifically conferred on the Board by N.J.S.A. 48:2-2, 3 and 7, is hereby transferred from the Board of Public Utilities to the Commissioner of the Department of Environmental Protection; except (i) that the Board shall make annual budget recommendations to the DEP Commissioner for inclusion in the DEP's annual budget request to the Governor and Treasurer,

subject to the review of the Commissioner, after due consideration by the DEP Commissioner of the resources needed by the Board to ensure its ability to carry out its assigned functions under law; and (ii) that the Board will adopt and recommend a Code of Ethics required by the Conflicts Law to the Commissioner for his consideration and approval and transmittal to the Executive Commission on Ethical Standards with such modifications, if any, as the Commissioner deems appropriate; (iii) that the Board will be responsible for the allocation of its budget and the assignment of Board personnel; and (iv) that BPU employees for payroll, administrative and other personnel related practices shall remain and continue to be categorized as BPU employees. Upon the request of the Board, the DEP Commissioner shall make available Department resources to the Board to carry out its responsibilities.

I find this reorganization is necessary to accomplish the purposes set forth in Section 2 of L. 1969, c. 203. Specifically, this consolidation of budget and administrative authority in the DEP Commissioner, to be exercised in consultation with the Board as set forth above, will result in increased and more effective management of the Board's operations in light of the transfer of the Board to the DEP. The shifting of administrative functions from the Board will also permit the Board to focus on its policy and regulatory responsibilities.

8. a. The Board of Public Utilities is denominated the Board of Regulatory Commissioners. I find that this name change, authorized by N.J.S.A. 52:14C-5, will better reflect the responsibilities of the Board and its allocation within a renamed Department of Environmental Protection and Energy, infra,

8. b. Whenever in any law, rule, regulation, order, contract, tariff, document, judicial or administrative proceeding or otherwise, reference is made to the entities recited in paragraphs 1 to 7 above to the Board of Public Utilities and the President thereof, the same shall mean and refer to the Board of Regulatory Commissioners and the Chairperson thereof.

9. a. The name of the Department of Environmental Protection is denominated the Department of Environmental Protection and Energy. I find this name change, authorized by N.J.S.A. 52:14C-5, will better reflect the Department's responsibilities for energy and public utility matters and better inform the public of the Department's role.

b. Whenever in any law, rule, regulation, order, contract, tariff, document, judicial or administrative proceeding or otherwise, reference is made to the entities recited in paragraphs 1 to 7 above to the Department of Environmental Protection or the Commissioner thereof, the same shall mean and refer to the Department of Environmental Protection and Energy or the Commissioner thereof.

10. All transfers directed by this Plan shall be made in accordance with the "State Agency Transfer Act," L. 1971, c. 375 (C. 52:14D-1 et seq.).

11. All acts and parts of acts inconsistent with any of the provisions of this Reorganization Plan are superseded to the extent of such inconsistencies. A copy of this Reorganization Plan was filed on April 25, 1991 with the Secretary of State and the Office of Administrative Law (for publication in the New Jersey Register). This Plan shall become effective in 60 days on June 24, 1991 unless disapproved by each House of the Legislature by the passage of a concurrent resolution stating in substance that the Legislature does not favor this Reorganization Plan, or at a date later than June 24, 1991, should the Governor establish such a later date for the effective date of the Plan, or any part thereof, by Executive Order.

TAKE NOTICE that this Reorganization Plan, if not disapproved, has the force and effect of law and will be printed and published in the annual edition of the public laws and in the New Jersey Register under a heading of "Reorganization Plans."

STATE OF NEW JERSEY
EXECUTIVE DEPARTMENT

TO THE SENATE:

Pursuant to Article V, Section I, Paragraph 14 of the New Jersey Constitution, I am returning Senate Bill No. 3160 (Third Reprint) with my objections for reconsideration.

This bill appropriates $90 million from the "New Jersey Bridge Rehabilitation and Improvement and Railroad Right-Of-Way Preservation Bond Fund of 1989," to the Department of Transportation for the cost of rehabilitation, improvement, inspection, and repair of certain State and local bridges. Of the $90 million, $10 million is appropriated for State-owned bridges carrying county and municipal roads; and $50 million is appropriated for railroad overhead bridges whose ownership has not been determined, also known as orphan bridges.

As provided in the bill, the Department of Transportation may allocate funds for personal services, performed by contract or by State employees, for planning, engineering, design, research, construction, right-of-way acquisition, or other costs related to the construction project. The bill provides that funds that are expended from sources other than the Bond Fund for the rehabilitation, improvement, inspection and repair of bridges, may be reimbursed from the Bond Fund, subject to the approval of the Joint Budget Oversight Committee.

The bill limits the amounts allocated for personal service costs for planning, engineering, design, research, construction, right-of-way acquisition or other costs related to the construction project to no more than 8% of the amount appropriated by the bill. The 8% cap is also applicable to the sums charged to the Bond Fund and credited to other sources of expenditures for the bridge program. The Commissioner of Transportation must report the administrative costs, by project, related to the bridge repair program to the Joint Budget Oversight Committee within one year of the effective date of the act.

I wholeheartedly support the purpose of this bill, which is the necessary repair of various bridges throughout the State. The rehabilitation and improvement of bridges in our rail and road system is essential for transportation purposes. I also support reporting requirements and limitations on the amount of funds allocated for administrative costs to ensure the proper expenditure of funds.

Nevertheless, this bill needs clarification in order to make the program work. The bill imposes an 8% cap on all personal service costs whether they are administrative in nature or legitimate capital expenditures essential to project construction. The 8% limit applies to all engineering, design and other costs, which inevitably exceed that amount. Such a cap would impair the entire program and render the repair of orphan bridges useless.

I support an 8% limit on administrative and oversight costs, and the reporting of those costs, which I believe was the intent of these provisions. Accordingly, I suggest that this bill be amended to provide that administrative and program oversight costs, which include the review and processing of contractual agreements, plans, specifications and award documents, amy not exceed 8% of the amount appropriated by the bill. I further suggest that the bill provide that these costs be reported on annual basis to the Joint Budget Oversight Committee.

Therefore, I herewith return Senate Bill No. 3160 (Third Reprint) and recommend that it be amended as follows:

Page 12, Section 13, Line 44: After "and further provided that" delete "those amounts so allocated" and insert "the amounts used by the Department of Transportation for administrative and program oversight costs, which costs include the review and processing of contractual agreements, plans and specifications, and the processing of award documents,"

Page 13, Section 14, Line 20: After "charged" insert "for administrative and program oversight costs, which costs include the review and processing of contractual agreements, plans and specifications, and the processing of award documents,"

Page 14, Section 18, Line 6: After"," insert "and on an annual basis thereafter"

Page 14, Section 18, Line 8: After "administrative" insert "and program oversight"

Respectfully,
/s/ James J. Florio
GOVERNOR

Senate Committee Substitute for
Senate Bill Nos. 1315 and 2536

To the Senate:

Pursuant to Article V, Section I, Paragraph 14 of the New Jersey Constitution, I herewith return Senate Committee Substitute for Senate Bill Nos. 1315 and 2536 without my approval.

This bill would grant broad authority to the Board of Nursing to create a certification program through rulemaking which would regulate dialysis technicians. Under this bill, the Board is authorized to prescribe educational and training standards and curricula for dialysis technicians, certify qualified applicants, and take disciplinary action where appropriate. The bill also makes technical changes in the statutory provisions governing both Homemaker/Home Health Aides and the powers and duties of the Board of Nursing.

There are numerous public policy issues surrounding state regulation of occupations and professions. Currently, there is a patchwork of licensing boards and professional regulation. Clear standards of consumer protection and competition are needed to guide decisions about whether certain occupations and professions should be regulated by the State and, if so, how that regulation should be structured. To accomplish this goal, I have asked the Attorney General to conduct a comprehensive review of professional and occupational regulation. Until that review is complete, I believe it would be unwise to further expand professional or occupational regulation or to create any new boards.

In addition to the overall concerns about professional and occupational regulation, there are specific problems with this bill. The bill does not define "dialysis technician" nor does it determine the scope of the practice. It is not clear from the bill what standards will be used to determine eligibility for certification or whether an examination of any kind will be required or is authorized under this act. Essentially, this bill gives total discretion to the Board of Nursing to define the practice, determine the scope and judge whether or not any particular person is eligible to practice this profession.

Dialysis technicians perform a vital service and perhaps should be licensed by the state at some time in the future, however, the issues surrounding state regulation of all occupations and professions need to be resolved in order to determine how best to accomplish it.

Accordingly, I herewith return Senate Committee Substitute for Senate Bill Nos. 1315 and 2536 without my approval.

Respectfully,
/s/James J. Florio
GOVERNOR

Attest:
/s/ Andrew Weber
Counsel to the Governor
