## SEPTEMBER 2011 HIGHLIGHTS

- August and September were two of the wettest months in more than 100 years. Still, construction activity measured by dollars authorized by building permits exceeded \$900 million each month.
- The estimated cost of work authorized in September was \$904.7 million; 560 of New Jersey's 566 municipalities reported.
- Residential work was \$470.1 million, 52 percent of all activity. Office, retail, and other nonresidential construction amounted to \$434.6 million, 48 percent.
- Edgewater Borough in Bergen County led all municipalities with \$55.5 million of construction in September. Two new permit updates accounted for \$53.6 million. Both were updates to two, large multifamily housing developments that broke ground earlier in the year. The first authorized \$41.6 million for a 301-unit condominium development that was started in April. The other authorized an additional \$12 million of work for a 100-unit apartment complex that began last July.
- Atlantic City in Atlantic County had \$23.6 million of work, nearly \$10 million of which was for work on the Revel casino and hotel.
- Ewing Township in Mercer County reported \$21 million of construction in September. A new, 3-story, 254,000 square foot office building accounted for \$18.8 million.

### Year to Date

- 2010 showed small improvement over 2009. There are signs that 2011 will be better than 2010.
- Between January and September 2011, the estimated cost of authorized work was \$8.262 billion. This was \$1.049 billion more than this time last year, a gain of 12.7 percent.
- New home construction, however, remains sluggish. Only 8,304 new houses were authorized between January and September 2011. This was 298 fewer than this time last year.
- Newark had the most work through September. The City's local enforcing agency issued building permits for \$147.3 million in construction.

- Atlantic City and Jersey City rank 2<sup>nd</sup> and 3<sup>rd</sup> with \$147.3 million and \$141.7 million, respectively.
- “State buildings” is a category of work throughout New Jersey and includes permits issued to State government agencies or their instrumentalities. It includes public improvements by New Jersey Transit and the New Jersey Turnpike Authority. It also includes construction by public colleges and universities.
- Between January and September 2011, State buildings accounted for \$283.5 million of work. New Jersey colleges and universities accounted for \$157.7 million, or 55.6 percent of all this activity.

### New House Prices

- A total of 1,473 new houses began enrollment in a new home warranty program in July, August, and September 2011. Half these new homes had a sales price over \$416,825. This was 2.5 percent higher than the median sales price last quarter.
- The highest priced new homes were in Essex, Morris, and Monmouth Counties.

**T**HE NEW JERSEY CONSTRUCTION REPORTER contains statistics on construction activity in New Jersey. Information in the report comes from construction officials who administer the State Uniform Construction Code (UCC) (N.J.A.C. 5:23-1 et seq.) in New Jersey's 566 municipalities.

Each month, construction officials send to the New Jersey Department of Community Affairs (DCA) reports on the permits and certificates they issue. Permits authorize the start of construction and cover four types of activity: (1) New construction permits authorize the start of a new structure. (2) Permits for additions refer to work that will add space (volume and square feet) to an existing building. (3) Alterations also involve existing structures, but the work authorized will not add space. Typically, construction officials issue permits for alterations when the work is subject to one or more of the UCC's major subcodes (building, electrical, plumbing, fire protection). (4) Demolition permits authorize the removal of a building or some other structure. The *CONSTRUCTION REPORTER* identifies only those demolitions that will result in the loss of housing.

In addition to permits, the *CONSTRUCTION REPORTER* has information on the certificates issued by construction officials. While permits authorize the start of construction, certificates are issued for work completed and ready for occupancy. Each month, the *CONSTRUCTION REPORTER* will report on the number of housing units and the amount of office and retail space authorized for construction, along with the number of housing units and the amount of office and retail space completed.

### **Data Comparability**

The *CONSTRUCTION REPORTER* contains information on authorized housing units that is tabulated two different ways. The DCA tabulates Tables 1 through 3 and Tables 8 through 13 based on the use of buildings, defined in "groups" by New Jersey's UCC. Exhibit B on page 3 summarizes these groups.

Tables 4, 5, and 6 show authorized housing units as defined and tabulated by the United States Census Bureau. The New Jersey Department of Labor and Workforce Development prepares these tables for publication in the *CONSTRUCTION REPORTER*. Exhibit C on page 4 describes the housing definitions used by the Census Bureau.

The DCA series and the Census Bureau series on authorized housing units differ two important ways. First, the DCA series includes housing units created as a result of permits issued to alter or make additions to existing structures. The Census Bureau counts only those housing units authorized from permits issued for new construction.

Second, the Census Bureau imputes data for localities that fail to submit monthly reports on time. An asterisk in the Census column of data appearing in the Municipal Summary Data table at the back of the *CONSTRUCTION REPORTER* indicates those towns with imputed data. The Census Bureau bases these imputations on historic trends. The DCA series shows information for only those towns that submitted monthly reports. If a municipality failed to submit a monthly report on time, "No report" appears in the appropriate columns in the Municipal Summary Data table.

### **Additional Terms**

A number of other terms appear in the tables throughout the *CONSTRUCTION REPORTER*. Exhibit A on page 2 defines additional construction permit and certificate terms.

NOTE:

Users of the monthly *CONSTRUCTION REPORTER* may notice that year-to-date figures in a particular issue may not be obtained by merely summing the monthly totals that appear in previous issues. This is because the construction data compiled by the New Jersey Department of Community Affairs are continuously updated. Monthly construction reports submitted too late to make the January issue of the *CONSTRUCTION REPORTER*, for example, are included in the year-to-date totals that appear in the February issue.
