JOURNAL OF THE SENATE.

STATE OF NEW JERSEY,

Mr. Bright moved that the Honorable Alexander Simpson, from the county of Hudson, be appointed President *pro tempore.*

Which was agreed to.

And the oath of office was administered by the President *pro tempore.*

Under the direction of the President *pro tempore,* the Secretary called the Senate, when the following Senators appeared and answered the call:

On motion of Mr. Bright, the Senate proceeded to the election of a President.

Under the direction of the President *pro tempore,* the Secretary called the Senate, with the following result:

Mr. Reeves having a majority of all the votes cast, was declared by the President *pro tempore* duly elected President of the Senate for the ensuing year, and was conducted to the chair by Senators Bright, Mathis and Barber.

The oath of office was administered by the President *pro tempore.*

The President on taking the chair addressed the Senators as follows:

Fellow Senators and ladies and gentlemen of all parts of the State of New Jersey:

I cannot fail to acknowledge with the deepest appreciation this distinction at your hands and this evidence of your personal confidence. The Presidency of the New Jersey Senate is in itself a position of such dignity and rank that no one can belittle it and no one become its recipient without a deep sense of responsibility and emotion. The happiest feature of the honor, however, one that stirs the heart, is the knowledge that it is not a prize that is won, but a gift from one's colleagues. As such it lays upon the recipient an obligation to so perform the duties of the office with such fairness and impartiality as will justify the confidence of the givers. To this course of conduct I pledge myself, without reservation.

The New Jersey Senate is not only part of the Legislature, it is a collateral branch of the Executive Department as well. It advises with the Governor concerning and consents to appointments of the most important offices of the State. It thus becomes responsible for the officers of justice as well as those of our civil functions.

This in my judgment is one of the most important duties of the Senate and it should be discharged as the Constitution intended, with the fullest sense of responsibility and without any effort to side-step the duty which the Constitution imposes.

I recommend prompt legislative action and a short legislative session. We already have more laws than we can digest. What the State really needs is fewer laws, greater economy and efficient enforcement of the laws already in force.

The functions of the State have grown enormously in the last ten years, with a corresponding increase in disbursements. Our State has become a great business enterprise and should function accordingly.

The increase in taxation in recent years is appalling. Some of our tax rates are well nigh confiscatory and if we expect capital to come here and start new industries, furnish employment and pay full wages, we must offer them such tax rate as will enable them to compete with like industries in other States. The reception accorded the recommendations of the Secretary of the Treasury, Mr. Mellon, shows the demand of the people for lower expenditures and less taxes.

We cannot spend and reduce taxes at the same time. We must economize in order to have lower cost of government—State, County and municipal.

The population of New Jersey is growing at a tremendous rate. Its density requires an adequate supply of pure and wholesome water if health and progress are to be maintained. In 1905 a former administration had a survey made of the potable water supply, with a view to properly conserving the same for the generations to come.

There is ample water in New Jersey to supply the needs of all if it is properly preserved. The amount that goes down to the sea is ample if saved, to supply New Jersey's needs. It is now nearly twenty years since the survey was made of the State's resources in this respect and I suggest that another survey be made with a view of taking care of present needs and conditions and of providing for the future. A plentiful and healthful water supply is dependent upon at least two other State functions.

1. We cannot have a wholesome water supply unless we prevent pollution of our potable streams.

2. Nor can we have an adequate water supply unless we preserve the forest and swamps around the springs and head-waters of the brooks, creeks and rivers of our State. Forestry reservation and preservation therefore is a part of this problem. Its proper solution will require the co-operation of municipalities, of manufacturing industries, of the forester and woodsman.

As the presiding officer of your body I cannot be partisan. On the contrary I cannot fail to realize that the majority party in the Legislature is responsible for legislation. The pledges we have

made must be kept in good faith, that the trust of the people in us may not be misplaced.

The State of New Jersey deserves the best at our hands. Historically, industrially, educationally, it is second to none. Its prominence among the States of the Union is acknowledged. It would be our duty to add to its glories by such legislative conduct and action as will meet with the approval not alone of our own people but with the fair judgment of our sister States. I feel confident that the members of the Legislature, both Senate and House, will work together to that end.

Prayer was then offered by the Reverend James H. Clark, of Cape May county.

On motion of Mr. Bright, the Senate then proceeded to the election of a Secretary.

Mr. Bright nominated Mr. Robert M. Johnston, of Atlantic county.

Mr. Simpson seconded the nomination.

Mr. Johnston was elected by the following vote:

Messrs. Agans, Barber, Blackwell, Borton, Bright, Case, Davis, Harrison, Kays, Larson, Mackay, Mathis, Pierson, Reeves (President), Richards, Roberts, Simpson, Smith, Stevens, Whitney, Woodruff—21.

Mr. Johnston, being declared elected Secretary of the Senate, took the oath as prescribed by law.

Under the direction of the President, the Secretary called the Senate, when the following Senators appeared and answered the call:

On motion of Mr. Bright, the message was received and ordered filed.

The following message was received from the Governor, by the hands of Mr. Pearse, his Secretary, which was read as follows:

STATE OF NEW JERSEY,
EXECUTIVE DEPARTMENT,
To the Legislature: January 8, 1924.

During the past year there has been much demand for more office space in the city of Trenton, due to the fact that so many of our departments are congested, owing to the increase in the amount of business of the State.

In order to relieve this condition, the State House Commission has been giving consideration to the problem, and has secured options on the two properties adjoining the State House on the west, and a price on the third.

The prices of these properties are as follows:

Green property, $95,000
Vroom property, $60,000
Dayton property, $55,000, estimated.

The State House Commission believes that it will be advisable to purchase these properties at this time, before there are further increases in property values, and that these properties are essential to the further development of State property in connection with and close to the State Capitol.

A further thought is that on this property can be built all of the office buildings necessary in the future to take care of all of the State's needs. By putting all of these buildings upon this tract they will be convenient to the State Capitol and there will be a proper concentration of State conveniences at one point.

It may also be advisable to move some of the offices in other cities to the capital.

At the present time the State Highway Commission is obliged to lease offices at a large rent in another part of the city, and this is not found to be convenient or economical.

The State House Commission trusts that you will give this matter your immediate attention, in order that the options may be taken advantage of; that you appropriate the necessary money

to purchase the land, and later in the session consider the question of the erection of a building.

Respectfully submitted,
GEORGE S. SILZER,
Governor.

Attest: FREDERIC M. P. PEARSE,
Secretary to the Governor.

A veto message was received from the Governor by the hands of Mr. Pearse, his Secretary, which was read as follows:

STATE OF NEW JERSEY,
EXECUTIVE DEPARTMENT,
January 28, 1924.

SENATE BILL NO. 16.

To the Senate:

Senate Bill No. 16 has for its purpose, taking from the Attorney-General the assignment of counsel to the Interstate Bridge and Tunnel Commission, and placing in the hands of that commission the appointment of counsel, assisting counsel and consulting counsel, as well as powers for the creation and distribution of additional jobs.

This gives the commission the power to appoint as many legal advisers as it desires, and to pay such salaries or fees as it may fix. There is no limitation whatever either upon the number of advisers or upon the amount to be paid, and no check upon the commission for such appointments or the expenditures.

If this bill had for its purpose the establishment of a principle, or the continuation of an established principle, I would be glad to sign it. It does not, however, do either of these, but, on the contrary, its avowed purpose it to take away from the Attorney-General (where it has resided ever since the creation of the commission) the appointment of legal assistants.

It is most unfortunate that at a time when there are so many important and pressing matters requiring the attention of the State that one of the first bills to be introduced (the second one to come into the hands of the Governor) and passed in great haste, should be a bill dealing with the preservation of political jobs and the creation of new ones.

I do not believe that the people of New Jersey are so much interested in who holds the jobs as they are in seeing that the work is well, economically and honestly done.

While it may be true that in some cases a board or commission should appoint its own counsel, I do not think it applies in this particular case.

The present commission came into existence as the result of "ripper" legislation, and on a purely political and partisan basis. It seems to have continued as such, and by reason of its political character and the bickering and quarreling among its members and the charges made against it, it has lost the confidence of the people.

The public impression is that the commission is more interested in politics and jobs than in the doing of good work and economically spending the twenty-eight million dollars which the taxpayers have entrusted to them, and the fourteen millions which must now come out of the taxpayers' pockets to finish the work.

This legislation must necessarily add to that impression.

This commission, in these circumstances, should have independent counsel from the office of the Attorney-General, where responsibility is lodged, and where partisanship cannot enter.

In the creation of this commission by "ripper" legislation, the responsibility for its creation and membership was upon the Legislature creating it; that body adjourned sine die shortly thereafter. With such a commission, it is well that there should be close contact with and good advice from a responsible and permanent State department. Some check upon this body, if only legal, would be healthy.

In addition to this, it must be remembered that this commission must deal with the States of New York and Pennsylvania. In this interstate relationship, much more force and dignity

is brought into the matter when our State is represented by the Attorney-General and so better results are obtained.

There was wisdom in the original method of making the appointment and it is still in the best interests of the State to follow that method. Nothing has happened to warrant a change in that course.

There are other defects in this bill, which its operation will soon demonstrate.

In the interests of the State, in the proper protection of its revenues, and in accordance with established principles, I am compelled to disapprove this bill.

Respectfully submitted,

Attest: GEORGE S. SILZER,

FREDERIC M. P. PEARSE, *Governor.*
Secretary to the Governor.

The following message was received from the Governor, by the hands of Mr. Pearse, his Secretary, which was read as follows:

STATE OF NEW JERSEY,
EXECUTIVE DEPARTMENT,
January 28th, 1924.

To the Legislature:

Permit me to reiterate what I have already said in my Annual Message to the Legislature concerning the anthracite coal situation, and to again draw your attention to this very important subject.

With freezing weather, the situation is acutely brought to our attention, and we are confronted with the necessity that action be taken promptly, so that in the future our people may be assured of an adequate supply of coal at a reasonable price.

Three remedies have been suggested.

The first is to call upon our neighbor,—Pennsylvania, to adopt such measures as she may deem advisable to control the situation so far as it lies within the power of a State to do so.

The second is to urge upon Congress the necessity of regulating the industry, not only to the extent of interstate commerce, but also upon the basis that it is an industry so affected with the public interest that the Federal government may exercise powers such as are now exercised, by act of Congress, over like industries.

The third is to enact such legislation within our own State to deal adequately with the situation after the coal is out of the interstate jurisdiction and in the possession of local dealers.

So far as Congress is concerned, bills have been prepared, to be submitted, and the Legislature is urged to adopt such resolutions as it may deem advisable to impress upon the Federal Congress the necessity for prompt action, for, after all, the chief responsibility for the situation rests upon the State of Pennsylvania and the Federal government.

The Federal fact-finding commission and other agencies have disclosed the facts concerning the conduct of the industry, and these remedies are necessary to protect the people in the anthracite-using States.

Our people use six million tons a year. There has been discrimination in the distribution. A poor quality of coal has been furnished. High and extortionate prices have been charged, and the people naturally ask whether or not government is powerless in the circumstances.

There is plenty of power if it will be but exercised, and hence I urge upon you, as representatives of the people of New Jersey, that you take prompt and effective steps to bring relief and to prevent suffering and hardship in the future.

Respectfully submitted,
GEORGE S. SILZER,
Governor.

Senate Bill No. 7, entitled "An act to amend an act entitled 'An act to establish a thorough and efficient system of free public schools, and to provide for the maintenance, support and management thereof,' " approved October nineteenth, one thousand nine hundred and three,

With the following memorandum:

After hearing held in the Senate Chamber on January 28, the Committee was impressed with the arguments advanced by the opponents of the bill. It is clear that the provisions of the act offer no more equitable adjustment of the distribution of the school money than the present system. It makes no improvement over the method now devised to help poor districts that need additional assistance. On the contrary, the poorer the district the less help it will receive from the State fund. On the other hand, it gives legislative sanction to the principle that the taxpayers of one county should be compelled to pay for the education of pupils in another county; in other words, that the taxpayers of Essex county should be called upon to contribute $110,000 to the education of children in Morris county. That the principle is highly immoral only needs to be stated to be

demonstrated. It is noteworthy that the responsible press of the State is against the bill in principle, and the more populous counties in the State are to be made to suffer because some of the smaller counties may have the legislative might to pass the bill.

It is earnestly recommended by the Committee that Senate Bill No. 7 receive the unfavorable action of the Senate.

WILLIAM H. BRIGHT,

WHEREAS, By his lofty idealism, which never failed him, he led our nation through the terrific struggle of the World War, and prompted by high motives and sincerity of purpose he gave utterance to the aspirations of humanity, which combined with his tenacity of purpose, made him a leader of civilization; and

WHEREAS, Brave words, high purpose, lofty aim and self-sacrifice are treasures which the rich and purposeful life of Woodrow Wilson bequeathed as an inheritance to his countrymen; therefore,

Be it resolved by the Senate (the House of Assembly concurring), That the people of New Jersey through their duly elected representatives, in Legislature assembled, do express their profound grief and sorrow upon the passing of our former

Governor and Chief Magistrate of this nation, whose courage and example made America a new and enlarged influence in the destiny of mankind;

And be it further resolved, That a committee consisting of the President of the Senate, and four Senators to be named by him, the Speaker of the House of Assembly, and four members of the House to be designated by the Speaker, are hereby constituted a committee to represent the Legislature of this State at the funeral services of the courageous statesman whose passing the nation deplores.

PRESIDENT COOLIDGE'S PROCLAMATION.

By the President of the United States of America.

A PROCLAMATION.

To the People of the United States:

The death of Woodrow Wilson, President of the United States from March 4, 1913, to March 4, 1921, which occurred at 11:15 o'clock today at his home at Washington, District of Columbia, deprives the country of a most distinguished citizen, and is an event which causes universal and genuine sorrow. To many of us it brings the sense of a profound personal bereavement.

His early profession as a lawyer was abandoned to enter academic life. In this chosen field he attained the highest rank as an educator, and has left his impress upon the intellectual thought of the country.

From the presidency of Princeton University he was called by his fellow citizens to be the Chief Executive of the State of New Jersey. The duties of this high office he so conducted as to win the confidence of the people of the United States, who twice elected him to the Chief Magistracy of the republic.

As President of the United States he was moved by an earnest desire to promote the best interests of the country as he conceived them. His acts were prompted by high motives and his sincerity of purpose cannot be questioned. He led the nation through the terrific struggle of the World War with a lofty idealism which never failed him. He gave utterance to the aspiration of humanity with an eloquence which held the attention of all the earth and made America a new and enlarged influence in the destiny of mankind.

In testimony of the respect in which his memory is held by the Government and the people of the United States, I do hereby direct that the flags of the White House and of the several departmental buildings be displayed at half-mast for a period of thirty days, and that suitable military and naval honors, under orders of the Secretary of War and of the Secretary of the Navy, may be rendered on the day of the funeral.

Done at the city of Washington this third day of February, in the year of Our Lord one thousand nine hundred and twenty-four, and of the Independence of the United States of America the one hundred and forty-eighth.

By the President, CALVIN COOLIDGE.

CHARLES EVANS HUGHES,
Secretary of State.

PROCLAMATION BY THE GOVERNOR OF NEW JERSEY.

UPON THE DEATH OF WOODROW WILSON, FORMER PRESIDENT OF THE UNITED STATES AND FORMER GOVERNOR OF NEW JERSEY.

Woodrow Wilson, educator, author, statesman and idealist, having fulfilled his earthly mission, takes his place among the Immortals beside Abraham Lincoln.

A noble and courageous soul has gone to its Maker. His life was given for a great cause, and his lofty ideals, combined with his tenacity of purpose, made him a leader of civilization and established for him an exalted place in history.

He did not live to see the dawn of that new day when war shall be no more,—the day for which he strove and fought and died. Yet his noble thoughts, so clearly and beautifully expressed in simple language, will forever be the sign-post guiding the nation and the world along the path which leads to peace and justice and good will for all mankind.

Divine Providence sent to us Woodrow Wilson to serve humanity and to remind a forgetful world of the teachings of

Jesus Christ to preach peace on earth, Christian charity and forbearance. He has fulfilled that mission and has been called back to the arms of the Saviour.

New Jersey is proud of him. He came to us in his youth, and today she bows her head in sorrow over the loss of her adopted son.

As our Governor, he led us out of sordid political ways and made New Jersey a better State.

We gave him to the nation and to mankind;

Therefore, I, GEORGE S. SILZER, Governor of the State of New Jersey, do hereby make public proclamation of the fact of the death of Woodrow Wilson, and in recognition of his distinguished service to his country and to his State, do hereby direct that the flag be flown at half-staff upon all the public buildings of the State for thirty days from this date; and do further recommend that like action be taken by all officials on county and municipal buildings; and that upon the day of the funeral all State, county and municipal offices be closed during the hour set for the funeral; and I do further recommend that, so far as possible, all business be suspended during the same period.

Given under my hand and the Great Seal of the State of New Jersey, this third day of February, in the year of (Great Seal) our Lord one thousand nine hundred and twenty-four, and in the Independence of the United States the one hundred and forty-eighth.

GEORGE S. SILZER,
Governor.

Was taken up, read a second time, considered by sections, agreed to, and ordered to have a third reading.

Senate Bill No. 136

Was taken up on third reading and laid over on motion of Mr. Simpson.

The following resolution was received and ordered spread upon the Journal:

WHEREAS, It appears that the Governor of the State of New York and the Governor of the State of New Jersey have recommended to their respective Legislatures that the work of constructing the Hudson River Vehicular Tunnel be turned over to the Port Authority; and

WHEREAS, The Governor of the State of New Jersey in his annual message to the Legislature said: "Whether the vehicular tunnel will be practical; whether it can be ventilated, and whether it can be operated economically are problems still unsolved, and will remain so until they are put into operation. * * * I would, therefore, recommend that the finishing of this tunnel be placed in the hands of the Port of New York Authority, with full power to act and raise the necessary funds. * * * This Board can issue its own bonds and can mortgage the enterprise itself for their payment, without pledging the credit of the State." * * *

AND WHEREAS, The Port Authority was designed primarily for the purpose of solving the transportation of railroad freight between the States of New York and New Jersey and has been largely concerned with its efforts in that direction which are now about to bear fruition and it is considered unwise to handicap the Port Authority by placing upon it the burden of assuming responsibility for an enterprise which is half completed and which the Governor has said is in doubt as to whether it is practicable and whether it can be successfully operated;

AND WHEREAS, It now appears that the Governor of New York and the Governor of New Jersey recommend that in order to meet the requirements of bankers, the proposed bonds of the Port Authority be accompanied with a legal guarantee of each State that in each year the States will make up the deficit, if any, in the receipts from tolls, in the amount necessary to meet the interest and amortization charges on the bonds;

WHEREAS, The bonds of the Port Authority will, therefore, become in effect the bonds of the respective States;

AND WHEREAS, The States of New York and New Jersey did, by compact dated December 31, 1919, agree to build said tunnel through the agencies of the New York State Bridge and Tunnel Commission and the New Jersey Bridge and Tunnel Commission and these agencies are now functioning properly in the performance of their duties and the management of the construction of the tunnel appears to be wholly satisfactory; therefore

Be it resolved by the Senate of the State of New Jersey (the House of Assembly concurring), That it is the sense of the Legislature of the State of New Jersey that no change in the management of the construction of the said vehicular tunnel should be made;

And be it further resolved, That it is the sense of the Legislature that the proposal to issue the bonds of the Port Authority under the conditions heretofore set forth for the raising of funds to complete the enterprise would serve only to mislead the public with regard to their real significance and that the bonds should be in fact as they would indeed be in legal effect, the bonds of the State of New Jersey; and that inasmuch as the foregoing conclusions were arrived at after full conferences with the Governors of the State of New York and the State of New Jersey and the committees from the Legislature of the State of New York; and

Be it further resolved, That a copy of these resolutions be forwarded to the respective Governors and to the Legislature of the State of New York.

Amendment to Senate Bill No. 145:

Strike out all of section three and insert in lieu thereof a new section to read as follows:

3. Section seven of the act to which this is an amendment is hereby amended to read as follows:

7. (1) Brakes. Every motor vehicle of more than ten horse-power, operated in or on any highway, shall be provided with at least two brakes, powerful in action and separated from each other, of which one brake must act directly on the drive wheels or on parts of the mechanism which are firmly connected with said wheels. Each of the two brakes shall suffice alone to stop the motor vehicle within a proper distance. On of the two brakes shall be so arranged as to be operated with the feet; *provided, however,* that on automobiles not exceeding ten horse-power, on brake shall be deemed to be sufficient. Every motorcycle shall be provided with at least one brake, which may be operated by hand or foot.

(2) Signaling device. Every motor vehicle must be equipped with a horn or signaling device, and the operator of the same shall give reasonable warning of his approach whenever necessary to insure the safety of other users of the highway, and before passing any vehicle he may overtake, or pedestrian using any

part of the highway other than the sidewalk, also at curves and intersecting highways where the view of approaching vehicles is obscured; but the horn, bell, or other signaling devices shall not be sounded unnecessarily.

(3) Lighting devices. Every automobile shall carry, during the period from thirty minutes after sunset to thirty minutes before sunrise, and whenever fog renders it impossible to see a long distance at least two lighted lamps showing white or yellow-tinted lights, visible at least two hundred and fifty feet in the direction toward which said automobile is proceeding; and shall also exhibit a red light visible from the rear; the rays of such rear lamp shall shine upon the number plate carried on the rear of such vehicle in such a manner as to render the numerals thereof visible for at least fifty feet in the direction from which the motor vehicle is proceeding. No automobile shall be used upon the public highways of this State which is equipped with a lamp of more than twenty-one candle power, which, when lighted, is capable of projecting direct rays at a greater height than a parallel of three and one-half feet from the ground; *provided, however,* that any lamp which has attached thereto any device which cannot be operated from the driver's seat, and which when so attached, renders said lamp incapable, when lighted, of projecting direct rays at a greater height than a parallel of three and one-half feet from the road, shall be deemed to comply with this provision; *provided, further, however,* that any automobile may be equipped with a lamp capable of projecting direct rays at a greater height than parallel of three and one-half feet from the ground, if such lamp, when lighted, is not capable of producing a dazzling light or glare; *and provided, further,* that the use of "spotlights" for driving purposes is prohibited, and that the use of such "spotlights" is hereby confined to reading of intersecting highway signs and house numbers. In order that this section may be operative without hardship to the owners and operators of motor vehicles, the Commissioner of Motor Vehicles is hereby especially authorized to pass upon any lighting device and upon the equipment of any car, and shall for this purpose examine all lighting devices submitted to him; and if, in his judgment, such lighting devices, when properly applied to a motor vehicle licensed under the authority of this act, shall conform to the provisions of this act, he shall issue a certificate to the manufacturer, owner, or user of such device, as the case may be, that the same is in compliance with this section. Every automobile shall show at least one white or yellow-tinted light when standing, such white or yellow-tinted light to be on side of the automobile

nearest to the center of the road, and shall display at least one red light to the rear when standing.

Every motor vehicle shall carry during the period from thirty minutes after sunset to thirty minutes before sunrise, and whenever fog renders it impossible to see a long distance at least one lighted lamp, showing a white or yellow-tinted light visible at least two hundred feet in the direction toward which the motorcycle is proceeding; and shall carry upon the rear of such motorcycle a red light, the rays of which shall shine upon the number plate which shall be fixed to the rear mud-guard. Any motorcycle having more than two wheels or with side-car attachment shall have two white lights to the front, as provided in this section.

(4) Mufflers. Every motor vehicle shall have, and every driver of such motor vehicle shall use, devices to prevent excessive noise, annoying smoke, and the escape of gases and steam, as well as the falling out of embers or residue from the fuel, and all exhaust pipes carrying exhaust gases from the engine shall be directed parallel to the ground or slight upward. Devices known as "muffler-cut-outs" shall not be used within the State of New Jersey.

(5) Mirrors. Any motor vehicle that is so constructed or covered as to prevent the operator thereof from having a sufficient view of the traffic following and at the sides of such vehicle shall be equipped with a mirror or some device that will show the driver the road to the rear and the road to the side.

(6) Chains. Motor vehicle tires may be fitted with chains when roads, streets or highways are slippery because of rain, snow, ice, oil, or manner of construction; *provided, however,* that no chains shall be used at any time on the improved highways when the same are dry, or their condition does not make such use necessary for the safety of life or property.

STATE OF NEW JERSEY,
EXECUTIVE DEPARTMENT,
March 4th, 1924.

SENATE BILL NO. 31.

To the Senate:

Since there are demands for our funds more urgent and compelling, this enterprise will have to wait until a more favorable time. There is nothing urgent about this proposition, because there is already a channel connecting the inland waterway.

The principal effect of making this bill a law would be to increase the property values along the beach. Worthy as this may be, this is not the time to do it, when our funds are in such demand in matters that are urgent.

I therefore disapprove the bill.

Respectfully submitted,
GEORGE S. SILZER,
Governor.

Attest:
FREDERIC M. P. PEARSE,
Secretary to the Governor.

A veto message was received from the Governor, by the hands of Mr. Pearse, his Secretary, relative to Senate Bill No. 70, which was read as follows:

STATE OF NEW JERSEY,
EXECUTIVE DEPARTMENT,
March 4th, 1924.

SENATE NO. 70.

To the Senate:

This is the same bill that I found it necessary to veto last year. It provides that any buyer of milk who:

1. Fails to make prompt payment for the milk purchased, or

2. Makes any false or misleading statement, etc., shall be liable to a penalty of twenty-five dollars for the first offense; fifty

dollars for the second, and upon failure to pay the penalty may be committed to the county jail for thirty days.

This is a novel way to collect bills, especially so since imprisonment for debt was abolished. I do not believe we want to go back to imprisonment for debt.

It will also be observed that if a person makes a false or misleading statement, even though it is not knowingly done, he is subject to the penalties. The enactment of such a law would be short of ridiculous.

If we can penalize and imprison people for debt in the milk business, it ought to apply to every other business, as well. If it were so applied, it would at once appear how absurd a situation would be produced.

The bill is therefore disapproved.

Respectfully submitted,

[SEAL] GEORGE S. SILZER,
Attest: *Governor.*

FREDERIC M. P. PEARSE,
Secretary to the Governor.

On motion of Mr. Bright, the bill was laid over under the rules.

To the Senate:

This bill appropriates a sum of money annually to light the channel in the inland waterway from Cape May to Bay Head. This creates an additional burden on the State revenues, which are even now insufficient for more important public work.

I therefore disapprove the bill.

Respectfully submitted,

FREDERICK A. BRODESSER,
Clerk of the House of Assembly.

On motion of Mr. Bright, the Senate then adjourned.

WEDNESDAY, March 12th, 1924.

At 3 o'clock P. M. the Senate met.

The session was opened with prayer by the Honorable David H. Agans.

Under the direction of the President, the Secretary called the Senate, when the following Senators appeared and answered to their names:

Messrs. Agans, Barber, Blackwell, Borton, Bright, Harrison, Larson, Mackay, Mathis, Reeves (President), Roberts, Simpson, Smith, Whitney, Woodruff—15.

On motion of Mr. Bright, the further reading of the Journal of March 3, 1924, was dispensed with.

Five veto messages were received from the Governor, by the hands of Mr. Pearse, his Secretary, which were read as follows, and, on motion of Mr. Bright, the bills were laid over under the rules.

STATE OF NEW JERSEY,
EXECUTIVE DEPARTMENT,
March 11th, 1924.

SENATE NO. 47.

To the Senate:

This bill provides for the appointment of an Inspector for the State Board of Dentistry, to serve process issued by any court in suits where the Board is seeking to enforce penalties.

This is objectionable for at least three reasons:

It creates useless office; it violates the principle of civil service; and adds to the expenses of the State without any corresponding benefit.

I therefore disapprove the bill.

Respectfully submitted,

[SEAL.] (Signed) GEORGE S. SILZER,
Governor.

Attest:
(Signed) FREDERIC M. P. PEARSE,
Secretary to the Governor.

STATE OF NEW JERSEY,
EXECUTIVE DEPARTMENT,

SENATE NO. 58.

To the Senate:

This bill, by its title, purports to be an act to enable a municipality to assist in maintaining hospitals. The bill itself provides for the appropriation of money for the support and maintenance of indigent persons who may receive treatment at a hospital.

As the title does not conform to the body of the act, and therefore does not meet the constitutional requirements, I must disapprove the bill.

Respectfully submitted,
[SEAL.] (Signed) GEORGE S. SILZER,
Governor.

Attest:
(Signed) FREDERIC M. P. PEARSE,
Secretary to the Governor.

STATE OF NEW JERSEY,
EXECUTIVE DEPARTMENT,
March 11th, 1924.

SENATE NO. 75.

To the Senate:

This bill is a supplement which attempts to appropriate additional moneys for a certain waterway in the Salem River.

The bill is objectionable, both for the reason that its purpose is not disclosed in its title, and the purpose for which the money is to be used is separate and distinct from the purposes expressed in the original act to which this is a supplement.

I doubt if the financial officers of the State could honor any requisition made upon them under the bill in its present form.

A further objection is that this work is contingent upon Federal action. No such action has yet been authorized. Until it is, this should not be made a law.

I therefore disapprove the bill.

Respectfully submitted,
[SEAL.] (Signed) GEORGE S. SILZER,
Governor.

Attest:
(Signed) FREDERIC M. P. PEARSE,
Secretary to the Governor.

STATE OF NEW JERSEY,
EXECUTIVE DEPARTMENT,
March 11th, 1924.

SENATE NO. 89.

To the Senate:

This bill is so ambiguous in the language used that it should not become a law.

Furthermore, while the intention of the framers of the bill may have been to give cemetery companies organized under special laws the privilege of re-organizing under general cemetery law, the language used might be applied to almost any kind or character of association or corporation.

I therefore disapprove the bill.

Respectfully submitted,
[SEAL.] (Signed) GEORGE S. SILZER,
Governor.
Attest:
(Signed) FREDERIC M. P. PEARSE,
Secretary to the Governor.

STATE OF NEW JERSEY,
EXECUTIVE DEPARTMENT,
March 11th, 1924.

SENATE NO. 122.

To the Senate:

This bill provides for licensing persons engaged in the electrical contracting business.

Its real purpose is to benefit those engaged in this work and to limit the number. We have a glaring example of how this operates in the present law which permits plumbers to do the same thing. There has been a tendency for each craft to secure a law of this kind, and by limiting the number, to gain advantage to themselves.

I think it is time that we began to look after the people. They are entitled to open competition and fair price for the work.

Since this bill is detrimental to the public interest, and to the masses of people who require electrical work done, I cannot consent to this bill becoming a law. I vetoed the same bill last year.

This bill is therefore disapproved.

Respectfully submitted,
[SEAL.] (Signed) GEORGE S. SILZER,
Governor.
Attest:
(Signed) FREDERIC M. P. PEARSE,
Secretary to the Governor.

Mr. Bright offered the following resolution, which was read and adopted:

Resolved, That when the Senate adjourns it be to meet on Thursday morning at 11 o'clock.

On motion of Mr. Bright, the Senate then adjourned.

THURSDAY, March 13th, 1924.

At 11 o'clock A. M. the Senate met.

The session was opened with prayer by the Rev. James H. Clark.

Under the direction of the President, the Secretary called the Senate, when the following Senators appeared and answered to their names:

Messrs. Agans, Barber, Blackwell, Borton, Bright, Davis, Harrison, Larson, Mackay, Mathis, Pierson, Reeves (President), Richards, Roberts, Simpson, Smith, Stevens, Whitney, Woodruff—19.

Mr. Bright offered the following concurrent resolution, which was read and adopted:

Resolved by the Senate (the House of Assembly concurring), That all statements of expenses incurred in connection with the Legislative session of 1924, after the date of adjournment, which comes under the business of this session, be paid when properly approved in the manner provided by the Senate concurrent resolution, dated January 8, 1924, and concurred in by the House of Assembly on that date.

Seventeen veto messages were received from the Governor, by the hands of Mr. Pearse, his Secretary,

Which were read as follows, and, on motion of Mr. Bright, the bills were laid over under the rules.

STATE OF NEW JERSEY,
EXECUTIVE DEPARTMENT,
March 14th, 1924.

SENATE JOINT RESOLUTION NO 1.

To the Senate:

This resolution appropriates the sum of fifty thousand dollars for advertising the advantages of the State.

I believe that private interests are more concerned in this bill than the people of the State. If those private enterprises desire to advertise themselves, they ought to go down into their own pockets to do it.

The best way to advertise the State and its advantages is by furnishing an economical and attractive form of government, providing public advantages, and a low tax rate.

I am surprised that the legislative branch is willing to spend fifty thousand dollars for this purpose, but finds itself unwilling to spend fifty thousand dollars for a survey of the public schools of the State. Which are now expending forty-six million dollars a year. It seems to me that the money would be spent to much better advantage for the latter purpose.

At a time when our institutions, schools and other public enterprises are in need of money, this sum should not be spent for the purpose of advertising. If we had abundant funds this might be done.

The bill is therefore disapproved.

Respectfully submitted,

[SEAL.] (Signed) GEORGE S. SILZER,
Governor.

Attest:

STATE OF NEW JERSEY,
EXECUTIVE DEPARTMENT,

SENATE NO. 250.

To the Senate:

This bill seeks to amend section 60 of the tenement house law. That section provides: "Every tenement house hereafter erected *six* stories or more in height shall be made fire proof throughout."

This bill provides that each tenement house of *seven* stories or more in height shall be fire proof throughout, but increases the fire hazard in all of those of six stories.

I do not believe that we should change the present law and increase the fire hazards of tenements of six stories. Every protection should be thrown around those who occupy those buildings.

I also believe that this bill would probably conflict with Senate No. 205, which I have approved.

This bill is therefore disapproved.

Respectfully submitted,

[SEAL.] (Signed) GEORGE S. SILZER,
Governor.

Attest:

(Signed) FREDERIC M. P. PEARSE,

STATE OF NEW JERSEY,
EXECUTIVE DEPARTMENT,
March 14th, 1924.

SENATE NO. 279.

To the Senate:

Being in doubt as to just what will be the effect of Senate 279, I do not think it should become a law.

It makes certain affidavits *prima facie* evidence, and in this way may do injury to other parties to the suit in condemnation. Our condemnation act and the law on this subject have worked satisfactorily since the adoption of the Constitution, and I see no reason for changing it in the particular provided for in this bill, without better reasons than those assigned in the explanation. The bill is therefore disapproved.

Respectfully submitted,

[SEAL.] (Signed) GEORGE S. SILZER,

Attest:

STATE OF NEW JERSEY,

SENATE NO. 123.

To the Senate:

This apparently gives authority to the Boards of Freeholders to eliminate mosquitoes, spend as much money as they like, and issue as many bonds as they like.

What becomes of the Mosquito Commission?

Is not this giving too much power for the expenditure of public moneys?

The bill is therefore disapproved.

Respectfully submitted,

SENATE NO. 226.

To the Senate:

The title of this act and the body are inconsistent, which probably leads to its unconstitutionality.

The title concerns District Courts, while the body puts in limitations which apply and can apply only to one particular place.

For this reason the bill is disapproved.

Respectfully submitted,

[SEAL.] (Signed) GEORGE S. SILZER,
Governor.

Attest:

(Signed) FREDERIC M. P. PEARSE,
Secretary to the Governor.

STATE OF NEW JERSEY,
EXECUTIVE DEPARTMENT,

SENATE NO. 189.

To the Senate:

I am sorry to be obliged to veto this bill, because it has a good purpose in mind.

It provides that a person who received the receipt for cash bail deposited is entitled to have the same returned to him, and the Court is compelled to make an order to that effect.

This still leaves open the door for the knowing ones to secure the receipts in their names, and so have the money turned over to them.

I wish this bill might be re-enacted, leaving it discretionary with the Court to make a just and proper order for the return

of the money, after notice to the defendant and all parties interested.

Respectfully submitted,
[SEAL.] (Signed) GEORGE S. SILZER,
Attest: *Governor.*
(Signed) FREDERIC M. P. PEARSE,
Secretary to the Governor.

STATE OF NEW JERSEY,
EXECUTIVE DEPARTMENT,
March 13th, 1924.

SENATE NO. 12.

To the Senate:

This bill provides that a tract of land formerly the property of the Morris Canal and Banking Company and now belonging to the State and consisting of ninety-nine acres and located at Lake Hopatcong, shall become a public park.

The bills introduced at the present session of the Legislature already provide for the disposition of the Morris Canal property with protection for the retention by the State of lands necessary for water rights at lakes and reservoirs.

If this bill becomes a law this particular tract of land will become a public park. This tract now brings in a considerable revenue to the State from leases for bungalow sites and camping sites. If it becomes a public park the State will suffer a loss of revenue which may be necessary to maintain the water rights and reservoir at Lake Hopatcong.

It is quite evident that the land is now being used for recreational purposes, and nothing can be gained by making it into a public park and cutting off the revenue.

I, therefore, disapprove the bill.

Respectfully submitted,
[SEAL.] (Signed) GEORGE S. SILZER,
Attest: *Governor.*
(Signed) FREDERIC M. P. PEARSE,
Secretary to the Governor.

STATE OF NEW JERSEY,
EXECUTIVE DEPARTMENT,
March 13th, 1924.

SENATE NO. 113.

To the Senate:

This is a bill to authorize electric light, heat and power companies to condemn lands.

I do not believe that this unrestricted power should be given to those companies. I do not think they should be given unlimited power to invade private property, destroy the value of beautiful houses, pull down trees and otherwise injure the private property owner.

An attempt is made to give the Public Utility Commissioners some control over this matter, but the only control they have is to determine whether such condemnation is necessary or proper for the service of the public. They should also have the right to determine whether it will unnecessarily damage the private property owner.

If this bill were so amended as to give the right of condemnation, but reserve to the Utility Commission the right to prevent such action where it will unduly injure a private property owner, the bill could become a law.

It has never been deemed advisable up to this time to give these companies this wide latitude.

I, therefore, disapprove the bill.

Respectfully submitted,

SENATE NO. 150.

To the Senate:

This bill has for its purposes, like many other bills, the removal, in part, of the bond limitation.

In this case the bonds of a municipally-owned electric light plant are to be deducted.

In other such requests other deductions are asked.

If we keep on there will be no bond limit left.

It has been clearly demonstrated by the experience of any years that it is most wholesome to have a bond limit beyond which our municipalities cannot go. If this bond limit had not existed, many of them, no doubt, would have been in bankruptcy by this time.

I made an exception in the case of Senate 28 and Senate 29 in order that schools might be built, although the principle underlying these bills is bad.

I am opposed to making any further changes in our law limiting obligations. The State should adopt a policy and adhere rigidly to it.

I therefore disapprove the bill.

Respectfully submitted,

Attest: *Governor.*

STATE OF NEW JERSEY,

SENATE NO. 271.

To the Senate:

This bill provides that when a Commissioner of Education or an Assistant Commissioner is made Secretary of the Teachers' Pension Fund, he shall receive no salary.

I do not see what is accomplished by this. If some one beside the Commissioners is appointed to this work, he undoubtedly will be paid. This being so, I see no reason why the Commissioner should not be paid if he does the work.

The whole matter is one to be determined by the Board of Trustees of the Fund, who are to select the person to do the work and fix the salary. If we entrust them with the power to do this, we should not eliminate the Commissioners if the Board decides that they are the best persons to act as Secretary.

The bill is therefore disapproved.

Respectfully submitted,

[SEAL.] (Signed) GEORGE S. SILZER,

Attest: *Governor.*

(Signed) FREDERIC M. P. PEARSE,

STATE OF NEW JERSEY,
EXECUTIVE DEPARTMENT,

SENATE NO. 294.

To the Senate:

This bill compels the State Highway Commission, when securing land for a highway, to also secure land for adjoining sidewalks, and further provides that the State Highway Commission shall remove obstructions and encroachments on adjoining sidewalks along State highways. Under the classifications of "obstructions" the necessary grading for such sidewalks will be included.

Under existing legislation, the obligation for constructing sidewalks is placed upon the municipalities, who may assess for the cost of the same. The increased burden, under the present plan, would have to be borne by the State Highway Commission. It is estimated that this would cost the State at least twenty thousand dollars more per mile.

I do not believe that we should adopt a policy of including sidewalks as a part of the State Highway system and putting the State to that enormous increased cost. This is especially true in places where no sidewalks are now, or may not be needed for many years.

Being useless, expensive and unnecessary, this bill is disapproved.

Respectfully submitted,

Governor.

SENATE NO. 181.

To the Senate:

This is a bill to authorize counties to make preliminary surveys and soundings, etc., for the construction of bridges over tidal water separating this State and said counties.

I can see no objection to the making of such surveys and soundings, but I do object to having Boards of Freeholders issuing bonds for the purpose of paying for the same.

Bonds should only be issued for matters of a more or less permanent character. We certainly should never issue bonds for making preliminary examinations for enterprises which may never come into being.

The bill is uneconomical, unsound and should not become a law. If this should become a law, others will adopt the same method, and we would soon find ourselves in financial difficulty.

I, therefore, disapprove the bill.

Respectfully submitted,

SENATE NO. 230.

To the Senate:

At the present time great care and delicacy must be observed in the disposition of institutional made products. This is necessary in order that there may be no conflict between labor and our institutions and institutional departments. Up to this time there has been satisfactory co-operation and harmony.

I am unwilling to do anything which will disturb this arrangement which is now working so satisfactorily. I fear that if this bill goes into effect that trouble will result, while if the bill becomes a law nothing will be accomplished that is not done at the present time.

In view of the rumors that efforts were being made to destroy the present system in order to re-establish contract labor, nothing should be done to encourage that possibility.

I, therefore, disapprove the bill.

Respectfully submitted,

SENATE NO. 260.

To the Senate:

Senate No. 260 has for its purpose the giving to corporations organized under special acts the right to make changes in their capital stock and to do other things of like character.

We should not permit any corporation created under a special act to perpetuate any special privileges or advantages which they secure under such special act, and which cannot be secured at the present time under our general corporation act.

There is sufficient law to cover the purpose attempted to be achieved by this bill. Chapter 74 of the Laws of 1923 provides a method for amending a charter of a corporation organized by special act, under which it may come under the general corporation law. The significant part of that act and the thing necessary to be called to your attention at this time is Section 2, which provides that any corporation taking advantage of the act (namely the general corporation act) shall file with the Secretary of State a certificate waiving any right of exemption from taxation and from *privileges and advantages* arising under the special act of the Legislature incorporating said company.

I, therefore, disapprove the bill.

SENATE NO. 65.

To the Senate:

This bill has for its purpose a worthy object and if the transmission of all moneys to foreign countries could be placed in the hands of substantial banking institutions, there would be less cause for complaint.

This bill, however, should not become a law because it permits any number of agencies to be established anywhere by these trust companies. No such power should be given to the trust companies

without supervision on the part of the Banking Department, and, since that supervision is lacking, I disapprove the bill.

SENATE NO. 155.

To the Senate:

This act provides that where a cemetery company has owned a tract of land in which there are no burials, and has had that land for thirty-five years or upwards, the company may sell those lands.

During these thirty-five years this company has been exempt from taxation. I do not believe that this company should be permitted to sell these lands until it has paid its share of the tax burden. We cannot permit lands to be laid out as cemeteries and so escape taxation, and then, when the land has increased in value, relieve it of its special character without having it also bear its part of the community expenses.

I, therefore, disapprove the bill.

If the introducer will amend the bill, providing a method whereby the tax for the last thirty-five years can be paid, then the permission could be granted.

While this bill was intended to affect one company, it has general application and affects many.

SENATE NO. 296.

To the Senate:

This bill provides that: "Whenever the Sinking Fund Commission shall over-estimate" the amount necessary for the payments arising out of the one-mill tax for interest and amortization of the forty-million dollar highway bond issue, or the Comptroller shall 'miscalculate the amount in dollars, or the millage on the dollar of valuation" in each county, and said sum "incorrectly estimated or miscalculated" shall be certified to the county board

of taxation and a larger sum than is necessary shall be raised in any one year, the board of freeholders may pass a resolution for the restriction or repayment of such sums in the possession of the county to the various municipalities in the county paying the same.

I understand that the alleged purpose of this bill was to correct an error made in one of the counties of this State whereby the mill tax aforesaid was twice raised in the same year in this county, owing to a misconstruction placed by the county authorities on the communications from the Comptroller in reference to raising the amount.

I am advised that no legislation is necessary to correct this error, but that the county can simply deduct the excess amount already raised from the amount to be raised for the current year, and thus correct the error.

Inquiry of the Comptroller discloses that there has been no miscalculation on the part of the Comptroller and no over-estimate by the Sinking Fund Commission.

This being so, the bill would not have application to any existing conditions, and therefore would seem to be unnecessary, because it is not at all likely that such a miscalculation or over-estimate will take place in the future.

I thereby disapprove the bill.

To the Senate:

This bill not only attempts to prevent an escheat to the State of certain real estate, but in the second paragraph goes further. In that paragraph, by special legislation, it attempts to alter the statute of distribution for the benefit of a particular person.

SENATE NO. 262.

To the Senate:

I regret to have to veto this bill, but while the purpose may be good there are two objections to the bill:

First, it amends Section 14 of the Certiorari Act of 1903. Apparently the draftsman overlooked the fact that this section was amended in 1915, which reduced the time within which a writ of certiorari would be allowed in tax proceedings from three years to eighteen months, so the effect of this bill would be to put the time limit back to three years.

The second reason is that the bill omits an important clause appearing in the Act of 1915, which affects not only taxes and assessments, but "any sale where assessments *and* taxes have been included together."

There is a further typographical error on the fifth line of the bill where it speaks of "assessment *of* tax" instead of assessment *or* tax.

I, therefore, disapprove the bill.

SENATE COMMITTEE SUBSTITUTE FOR ASSEMBLY NO. 64.

To the Senate:

Frankly, I do not like the looks of this bill, which seems to put into bill form what evidently has been pre-arranged.

It provides for a revision of the compiled statutes, by the appointment of three commissioners, who are to receive "a reasonable compensation and allowance for their services."

There is no limitation put upon the expenditure, and no one can gather from this bill how much it is going to cost.

Although I am familiar with the Bar of the State, I do not know any three lawyers qualified to do this work who would be willing to undertake it. Revisions of this kind are usually made by well-qualified law publishing concerns who make a specialty of this kind of work, and who will enter into a contract to complete it for a certain sum.

Another strange provision is that the Commissioners shall be selected by the Speaker of the House, the President of the Senate, and by them jointly, although these gentlemen, I am sure, do not profess to have any particular knowledge of men qualified to do this work.

Another particular in which the State is not protected is in Section 5, wherein the *present* publishers of the supplement to the compiled statutes are authorized and directed to print and publish this revision. This, it will be observed, puts no limit upon what they may charge, and provides no competition. The usual and better practice is to have a commission consisting of the Governor, the Chief Justice and the Chancellor appoint a commission to determine whether this work shall be done, how it shall be done, and giving them power to make a contract, on the part of the

State, for the doing of the work. After the revision has taken place, then bids may be asked for the printing of the work.

In passing it may be well to also call attention to the fact that a supplement to the compiled statutes for the years 1911 to 1924, inclusive is due before January 1, 1925. After this compilation comes in, we shall be much better qualified to tell whether such a revision as is called for by the bill is necessary.

Because of the unbusinesslike method provided for by this bill, and its failure to properly protect the State, I disapprove of it.

SENATE NO. 300.

To the Senate:

In accordance with the provisions of Article 5, Section 7, of the Constitution, I am signing this bill and am appending to the same the following statement of the items to which I object and the reasons for such objections. The items so objected to are vetoed.

Page 2, lines 1 and 2, "For balance due for refitting yacht, W. Parker Runyon, given to the State by the Federal Government, $3,465.40."

I object to this item and veto it for the reasons stated in the veto of the item for maintenance of this yacht in Senate No. 301.

Page 3, "14 Legislature (lines 1 and 2), additional amount required for indexing Journal and Minutes and other incidental and contingent expenses, $3,000."

I object to and veto this item for the reasons stated in vetoing item page 10, line 7, in Senate Bill No. 300, relating to expenses of Legislature.

Page 3, "16 State Highway Investigating Committee. Additional allowance for expenses incurred by the State Highway Investigating Committee, $2,750."

No Legislator could vote intelligently on this item because he does not know what it contains. I have looked over the bills submitted and find among them one from the Commissioner of Accounts for eleven days' services at $50 a day. The Commissioner of Accounts already receives an annual salary of $5,000 as an employee of the State.

I do not find among the bills any check upon the reasonableness of the charges and, therefore, think that this item should be eliminated until provision is made for ascertaining accurately what should justly be paid.

SENATE NO. 301.

To the Senate:

In accordance with the provisions of Article 5, Section 7, of the Constitution, I am signing this bill and am appending to the same the following statement of the items to which I object and the reasons for such objections. The items so objected to are vetoed.

Page 15, line 38, "Maintenance boat, W. Parker Runyon, $18,000."

I am not convinced that it is necessary for the State to spend $18,000 a year on the maintenance of a boat. It seems to me to be better business to get rid of the boat. Whatever vessels are needed by this department can be rented for a very much less sum than the amount necessary to maintain this yacht.

I also observe that in the Deficiency Bill (Senate 300) there is also an item for $3,465.40 for refitting the yacht. For the reasons stated, this item is objected to and vetoed.

Page 14, line 20, "For construction, repair and preservation of sea walls, bulkheads, jetties, etc., etc., * * * Long Branch, $20,000.

No application was made to the Budget Commission for this sum. It certainly cannot be an emergency occurring since the meeting of the Budget Commission. If items of this kind are to be put into an Appropriation Act without first making application to the Budget Commission, the Budget Commission might as well be abolished.

I, therefore, object to and veto this item.

Page 14, line 20, "For construction, repair and preservation of sea walls, bulkheads, jetties, etc., etc., * * * Monmouth Beach, $25,000."

I object to this and veto it for the same reasons stated in the item next preceding this.

Page 14, line 22, "For construction, repair and preservation of sea walls, bulkheads, jetties, etc., etc., * * * Spring Lake, $20,000."

I object to this and veto it for the same reasons stated in the second item above mentioned.

Page 14, line 23, "For construction, repair and preservation of sea walls, bulkheads, jetties, etc. etc. * * * Deal, $8,000."

I object to this and veto it for the same reasons stated in the second item above mentioned.

Page 14, line 25, "Beach Channel between Manahawkin Bay and Beach Haven in Ocean county, provided Senate Bill No. 31 becomes a law, $75,000."

I vetoed the bill because it is at this time a useless expenditure of money. For the same reasons, I object to this item and veto it.

Page 14, line 28, "Salem River Cut-off, provided Senate Bill No. 75 becomes a law, $25,000.

I vetoed this bill both because it was defective and probably unconstitutional, and also because the appropriation should not be made until a Federal appropriation is made to connect up this channel.

For the reasons given in my veto of the bill, this item is objected to and vetoed.

Page 14, line 30, "Marking channels along Atlantic coast, provided Senate Bill No. 32 becomes a law, $1,000."

I vetoed this bill, and, for the same reasons given in my veto, I now object and veto this item.

I understand the principal beneficiaries are persons interested in private enterprises.

Page 15, line 39, "For maintenance of lights on waterways from Cold Spring to Otten's Harbor, $700."

A few years ago markers with attachments for lights were provided by the State for this waterway with the distinct promise on the part of those who secured it, if the State would pay for the markers the local authorities in interest would see that the lights were maintained.

As is usual in these matters, an effort is now being made to saddle this expense on the State—despite the promise. I do not think that the State ought to be put to this expense.

I, therefore, object to the item and veto it.

Page 49, K-6, Red Bank Battle Monument.

"To the board of chosen freeholders of the county of Gloucester, for the purpose of aiding in the care and supervision of the Red Bank Battle Monument in said county, and in the maintenance of the grounds upon which the same is located with which they are charged by the provisions of Chapter 79, Laws of 1905, $500.00.

"Completing construction of retaining wall, $15,000.00."

This battle monument was erected under Chapter 79 of the Laws of 1905, at which time $15,000 was appropriated with the

statement that said sum was "to cover all expenses incident to the erection of said monument."

Evidently, this monument was secured upon this promise.

Section 4 of the act provides that after the monument is completed and unveiled, and the grounds properly graded, the commission is discharged, and "the care and supervision of the said monument shall devolve upon and be vested in the board of chosen freeholders of the county of Gloucester."

It is quite evident, from the wording of this act, that the duty and obligation of the State ceased long since. It is also clear that the care of the monument, which necessarily includes the surrounding grounds, is upon the board of freeholders of Gloucester county, and that there is no reason why the State of New Jersey should make further appropriation therefor. In fact, as much is being asked to construct the retaining wall as was originally given for the monument.

If this were a proper charge, the money should be spent by the State itself, under proper supervision. If the county is to spend it, then the board of freeholders are the proper ones to supervise it.

For the reasons stated, this item is objected to and vetoed.

Page 53, L-2, State Insurance Fund.

"There is hereby transferred from the income from the Insurance Fund the sum of $40,000."

I do not want to veto this item, but I do want to call attention to the fact that the requests for the year covered by this appropriation bill total $86,898.20, to be paid in insurance premiums. This is an increase of $16,000 over the year before.

The purpose of Chapter 123 of the Laws of 1913 was to establish an insurance fund to appropriate in each year the sum of $50,000, so that the sum might amount to $1,000,000, at which time the State would be in a position to insure its own property, and save the insurance premiums.

For several years the appropriations committee has neglected to include any sum in the annual appropriation. The result is that we are not accomplishing the worthy purposes provided for in the act of 1913, but, on the contrary, are paying out large sums to the insurance companies this year.

I would therefore suggest that this item be included by the Legislature before its adjournment.

Page 80, X 19. Village for Epileptics.

For salaries and wages, and for maintenance of the Village for Epileptics, on the basis of eight hundred and twenty-five inmates. Salaries and Wages:

Superintendent, ... $8,000.00

When this matter came before the Budget Commission the request was for $6,000, and $6,000 was allowed.

To go before the Appropriations Committee and to secure an increase of thirty-three per cent in salary without having first made application to the Budget Commission, is discourteous to the Budget Commission, to say the least. If this can be done, then there is no need of the Budget Commission, and the spirit and purpose of that act is defeated.

It would seem that in order to bring about this result before the Appropriations Committee the item of $71,000 for food, reduced by the Appropriations Committee to $66,000, was overestimated. This produced the necessary margin for the increase of salaries, without adding to the sum total allowed by the Budget Commission to this institution.

Methods of this kind should be frowned upon and stopped.

Furthermore, if those who are in charge of institutions are to be permitted to go over the heads of their superiors and the boards having charge of those institutions, it is going to be subversive of discipline and detrimental to the interest of the State.

For these reasons I object to and veto this item.

Page 9, line 13 to 17. Department of Municipal Accounts. Salaries:

Supervising Auditor, ... $3,600.00
Senior auditor, ... 3,180.00
Compensation for auditors and other assistants,.. 27,375.00

These items have hidden in them an increase of salaries to the Supervising Auditor of $300; to the Senior Auditor of $180; and provides additional assistants and increases of salaries to present assistants of $5,475.

What legislator knows whether this is necessary?

This brings the expense of this department from practically nothing in 1918 to $93,000 this coming year.

I am objecting to these items and vetoing them because I want to call attention to the method now prevalent in increasing salaries by way of the appropriation bill. The former method was to pass a bill fixing a salary, and then, if the salary was to be increased, another bill would be passed. In this way the matter was called to the attention of the entire Legislature, who might determine whether such a salary increase was proper or not. By this latter method, however, salaries are being continually increased under cover, and hardly a single member of the Legislature knows that it is being done.

By this year's appropriation bill there is an increase of $85,324 in salaries hidden away in the appropriation bill, and only ascertainable by the experts who are familiar with the bookkeeping methods and figures.

I am sure that not five members of the Legislature who are called upon to vote for this bill are able to tell where this $85,000 in salary increases comes from.

I may also say, in passing, that I doubt whether, upon a test, these increases would stand. Under this method, I do not see how any legislator can act intelligently upon the items.

I object to and veto this item.

Page 10, line 7. Legislature.

Indexing Journal and Minutes and other incidental and contingent expenses, $20,500.

I object to and veto this item because I think it contains objectionable items, and attention should be called thereto.

Under a bulk appropriation of this kind all sorts of expenditures are included. From this figure it is impossible for any legislator to vote intelligently.

Included in this item and in Item 14 of Senate Bill No. 300, which appropriates an item of $3,000 additional, are many things which should not be included and should not be paid. I find, among them, that it took 76 employees at $10 apiece to open the legislative session this year. What could possibly have been done by 76 employees; what service they could have rendered the State, and how the State could have value received, is more than I can understand.

Included in these items are also many extra allowances to legislative and State employees who are already being paid a substantial salary and compensation for what they do.

Included in this, also, are extra compensation for indexing the Minutes, which no doubt were contemplated as a part of the salary.

Other employees who are in the constant employ of the State and receive yearly salaries are made allowances for one thing or another.

I object to and veto this item.

Page 53, K. 23, "National Encampment of the Veterans of Foreign Wars of the United States."

To defray the proper and legitimate expenses attending the reception and entertainment of the honorably discharged soldiers, sailors and marines of the United States of America of the State of New Jersey, at the National Encampment of the Veterans of

Foreign Wars of the United States, to be held in the State of New Jersey in the year 1924, the sum of $25,000; provided, that such expenses shall be disbursed by the Adjutant-General under such regulations as may be prescribed by the State Treasurer, $25,090."

This is an indirect way of passing legislation. The bill providing for this passed both houses and was vetoed by the Governor. Instead of having a new bill passed the item is inserted on page 53 of an Appropriation Bill of 88 pages.

$25,000.00 is appropriated for a national encampment to defray "The proper and legitimate expenses attending the reception and entertainment" of those attending. What are proper and legitimate expenses, and who is to determine what they are? The item provides that the money shall be disbursed by the Adjutant-General under regulations provided by the State Treasurer. But what regulations can the State Treasurer prescribe? Is the State of New Jersey to pay the hotel bills of those who attend? What other expenses would be included in this disbursement?

It would seem that $25,000.00 ought to do a great deal of legitimate entertaining. In fact, I am informed that no other organization expends any such sum as this for national conventions, and I am also told that the American Legion is opposed to expenditures for this purpose and in this way.

In view of the fact that the necessary and proper safeguards for the expenditure of the people's money are not thrown around this item and because of an insufficient statement of how this money is to be spent and for what, the item is objected to and vetoed.

Respectfully submitted,

Disposition of Bills and Joint Resolutions Delivered to the Governor During the One Hundred and Forty-eighth Session of the New Jersey Legislature.

Convened, Tuesday, January 8th, 1924; Adjourned, Friday, March 14th, 1924. Duration, Ten Weeks.

During the session a total of eight hundred and forty-one bills, eighteen joint resolutions and four concurrent resolutions were introduced. Of that total three hundred and sixteen bills and eighteen joint resolutions, or a trifle more than one-third of the total number, are recorded as having passed both houses and been delivered to the Executive Department. Two hundred and thirty-nine of the total number of bills received met with the Governor's approval and were signed. Six of the joint resolutions were received, four approved, and two vetoed. The latter were passed over the Governor's objections, making a total of six joint resolutions enacted. Two of the concurrent resolutions, which are not delivered to the Governor, passed, one in each House.

Seventy-four bills were vetoed and of these twenty-three were passed over the Governor's veto, making, with the two hundred and thirty-nine signed bills, and six resolutions, two hundred and sixty-eight laws enacted during the session.

Of the bills which eventually become laws, one hundred and fifty-seven originated in the Senate, and one hundred and fifty-nine in the House of Assembly. Thirty-four of the vetoed bills originated in the Senate, ten of the latter subsequently becoming laws, and forty in the House of Assembly, thirteen of which were passed over the Governor's veto. Apart from the bills vetoed the Governor found it necessary to have recalled, while the Legislature was in session, a total of four bills, one of which originated in the Senate and three in the House, the four were later returned and three became laws, one from the Senate and two from the House, one of the latter over a veto. Three other bills, to which Executive objections were found, were filed in the library, due to the fact that the Legislature was not in session when the five-day period given the Governor to consider those bills had elapsed. The three originated in the House.

During the first eight weeks of the session the total number of bills presented to the Governor was forty-nine. The remaining two hundred and sixty-seven bills submitted came in during the closing hours of the ninth and last week for passing bills. The tenth and final week was devoted to a consideration of vetoed bills resulting in the Governor being sustained in fifty-one of the seventy-four bills returned to the house of origin and the passing of twenty-three over the Executive objections.
