Detailed, supporting, subsidiary records sufficient to meet the requirements of (c) below shall also be maintained in accordance with the requirements of this chapter.

1. The Commission shall periodically prescribe a uniform chart of accounts and accounting classification in order to insure consistency, comparability, and effective disclosure of financial information.

i. The chart of accounts shall provide the classifications necessary to prepare the standard financial statements required by N.J.A.C. 19:45-1.6.

ii. The prescribed chart of accounts shall be the minimum level of detail to be maintained for each accounting classification by the licensee.

iii. The licensee shall not use other than the prescribed chart of accounts but may, with the permission of the Commission, expand the level of detail for some or all accounting classifications and/or alter the account numbering system. In such instances, the licensee shall provide to the Commission, upon request, a cross-reference from the licensee's to the prescribed chart of accounts.

(e) Notwithstanding the provisions of (c) above, a casino licensee may implement a plan for revised supervision by floorpersons, poker shift supervisors, pit bosses, or slot shift managers. In any plan for revised supervision:

One floorperson may supervise not more than six tables comprised of any combination of table games excluding baccarat, minibaccarat (when using the dealing procedure in N.J.A.C. 19:47-7.7(c)3), craps, mini-craps, pai gow and blackjack when offering the streak wager permitted under N.J.A.C. 19:47-2.22;

2. One pit boss may supervise not more than 24 gaming tables;

3. One poker shift supervisor may supervise a total of not more than 24 poker tables and gaming tables other than poker (in lieu of a pit boss), provided that:

i. The poker shift supervisor is supervising all poker tables which are open to the public; and

ii. One floorperson may supervise not more than six poker tables;

4. One floorperson may supervise two craps tables and one additional table of any other table game excluding baccarat, minibaccarat (when using the dealing procedure in N.J.A.C. 19:47-7.7(c)3), mini-craps and pai-gow;

5. One floorperson may supervise one craps table and two additional tables comprised of any combination of table games excluding baccarat, minibaccarat (when using the dealing procedure in N.J.A.C. 19:47-7.7(c)3), mini-craps and pai gow;

6. One floorperson assigned to poker may supervise not more than 10 poker tables if the poker shift supervisor is supervising only poker tables;

7. One floorperson assigned to poker may supervise not more than 12 poker tables if the poker shift supervisor is supervising only poker tables and no floorperson assigned to poker has any responsibilities for seating players; and

8. If a casino licensee chooses to establish slot and keno operations in the same department, as permitted under N.J.A.C. 19:45-1.11(b), a slot shift manager may simultaneously assume the responsibility of keno supervisor.

(f) The casino manager or table games shift manager shall notify the Commission and the Division no later than 24 hours in advance of implementing or changing any plan for revised supervision for table games, and the slot shift manager or keno supervisor shall provide such notification for keno, provided, however, that notice may be provided less than 24 hours in advance in circumstances which are emergent or may otherwise not reasonably be anticipated.

1. Any notice for a plan for revised supervision of table games shall include, without limitation, the following information:

i. The pit number and configuration of any pit affected;

ii. The type, location and table number of any table affected;

iii. The standard staffing level required for the gaming table or tables and the proposed variance therefrom;

iv. The start date and time, and the duration, of the revised supervision; and

v. The basis for the decision to revise the number of supervisory personnel, which shall include any relevant factors which demonstrate that proper operation and effective supervision of the affected gaming tables will be maintained, including, as applicable, a showing:

(1) That the revised supervision is justified by a reduced volume of play at the specified times and gaming tables in the casino or casino simulcasting facility;

(2) That the particular dealers or supervisors assigned to the affected tables possess a degree of skill and experience indicative of sufficient ability to operate the affected tables with revised supervision, in which case a record of the personnel assigned to such tables during the period or revised supervision shall be maintained;

(3) That a reduced number of gaming tables will be operating in the affected pits, which are in a configuration to ensure proper supervision and operation; or

(4) Any other facts or circumstances which establish that a revision in the number of supervisory personnel is appropriate.

2. Any notice for a plan for revised supervision for keno operations shall include, without limitation, the following information:

i. The start date and time, and the duration, of the revised supervision; and

ii. The basis for the decision to consolidate the supervisory responsibilities in one employee, which shall include any relevant factors which demonstrate that effective supervision of keno operations will be maintained, including a showing that the revised supervision is justified by a reduced level of keno wagering or keno staffing.

(g) The Commission may, at any time upon 12 hours notice, direct that the plan for revised supervision shall be terminated and that the licensee shall maintain standard staffing levels as defined in (c) above.

(h) The following personnel shall be used to maintain and operate the slot machines and bill changers in an establishment:

At the discretion of the casino licensee, slot attendants may, using currency obtained from an imprest fund issued by the cashiers' cage, the master coin bank or a slot booth in accordance with internal control procedures approved by the Commission, pay slot jackpots of less than \$1,200 pursuant to N.J.A.C. 19:40-1.40E, and accept currency and coupons from patrons in exchange for currency.

3. Slot supervisors shall be the first level supervisors assigned the responsibility for directly supervising the operation of slot machines and bill changers.

4. Slot shift manager shall be the second level supervisor with the responsibility for the overall supervision of the slot machine and bill changer operation for each shift.

5. If a casino licensee chooses to establish an independent slot department pursuant to N.J.A.C. 19:45-1.11(b)4, the slot department manager shall be the executive assigned the responsibility and authority for the supervision and management of the overall operation of the casino licensee's slot machines and bill changers including, without limitation, the hiring and terminating of all slot department personnel and the creation of high employee morale and good customer relations, all in accordance with the policies and practices established by the casino licensee's board of directors or non-corporate equivalent. In the absence of the slot department manager, the slot shift manager shall have the authority of the slot department manager.

(i) The following personnel shall, at a minimum, be used to operate a simulcast counter in a casino simulcasting facility:

1. Casino pari-mutuel cashiers shall be assigned the responsibility of generating, and issuing to patrons, pari-mutuel tickets and credit vouchers, conducting credit card and debit card cash transactions, making simulcast payouts to patrons, and redeeming credit vouchers for patrons. At the discretion of a casino licensee, a casino pari-mutuel cashier ("vault cashier") may, alternatively, be assigned the responsibility to control the currency and coin in the simulcast vault, as provided in N.J.A.C. 19:45-1.14A and 1.15A. A vault cashier on a shift shall not perform any other functions of a casino pari-mutuel cashier on the same shift; and

2. Simulcast counter shift supervisor shall be the first level supervisor assigned the responsibility for directly supervising the operation and conduct of the simulcast counter; provided, however, that the simulcast counter shift supervisor may simultaneously assume the responsibilities of the keno shift supervisor if a casino licensee chooses to establish keno and simulcasting operations in the same department, as permitted by N.J.A.C. 19:45-1.11(b)4.

(j) The following personnel, at a minimum, shall be used to conduct keno operations:

2. Keno supervisor shall be the supervisor assigned to each shift with the responsibility for directly supervising all activities at a keno booth, roving keno work stations and satellite keno booths. A keno supervisor who is licensed as a casino key employee may simultaneously assume the responsibilities of the simulcast counter shift supervisor if a casino licensee chooses to establish keno and simulcasting operations in the same department as permitted by N.J.A.C. 19:45-1.11(b)4. The following functions shall only be performed by the casino key employee to whom the keno supervisor reports or a supervisor thereof:

i. Requesting access to the keno computer system for keno personnel;

ii. Requesting pay table changes and performing pay table changes in accordance with approved internal controls;

iii. Requesting and being present for software and hardware upgrades as performed in accordance with approved internal controls;

iv. Authorizing the payment of winning keno tickets of \$5,000 or more; and

v. Hiring and terminating keno personnel in accordance with the policies and procedures established by the casino licensee.

3. If a casino licensee chooses to establish an independent keno department pursuant to N.J.A.C. 19:45-1.11(b)4, the keno manager shall be the executive assigned the responsibility and authority for the supervision and management of the overall operation of the game of keno by the casino licensee, including, without limitation, the hiring and terminating of all keno personnel in accordance with the policies and practices established by the casino licensee.

(k) Nothing in this section shall be construed to limit a casino licensee from utilizing personnel in addition to those described herein nor shall anything in this section be construed to limit the discretion of the Commission to order the utilization of additional personnel by the casino licensee necessary for the proper conduct and effective supervision of gaming in an establishment.

Each casino licensee shall establish procedures and a control plan for readily identifying each employee of a casino licensee who is permitted, during the normal course of performing his or her duties or during emergencies, to have access to one or more restricted areas, and for issuing temporary license credentials and access badges. These procedures and control plan shall be submitted, reviewed and modified in conformance with the provisions of N.J.A.C. 19:45-1.3.

(h) Except as otherwise provided in (b), (c), (d) and (g) above, keys to each slot machine, or any device connected thereto which may affect the operation of the slot machine, including, without limitation, keys that activate a jackpot-to-credit-meter switch, shall be maintained in a secure place and controlled by the slot department.

(i) Any key removed from a department's secure area pursuant to (b), (c), (d), (g) or (h) above, shall be returned no later than the end of the shift of the department member to whom the key was issued, and the department shall establish a sign-out and sign-in procedure approved by the Commission for all such keys removed.

(j) Unless a computer which automatically records the information specified in (j)1, 2, 3 and 4 below is connected to the slot machines in the casino, the following entry authorization logs shall be maintained by the casino licensee:

1. Whenever it is required that a slot machine or any device connected thereto which may affect the operation of the slot machine be opened, with the exception of a bill changer, certain information shall be recorded on a form to be entitled "Machine Entry Authorization Log." The information shall include, at a minimum, the date, time, purpose of opening the machine or device, and the signature of the authorized employee opening the machine or device. The Machine Entry Authorization Log shall be maintained in the slot machine and shall have recorded thereon a sequential number and a manufacturer's serial number or the asset number of that slot machine.

2. Whenever it is required that a progressive controller not housed within the cabinet of a slot machine be opened, the information specified in (j)1 above shall be recorded on a form to be entitled "Progressive Entry Authorization Log." The Progressive Entry Authorization Log shall be maintained in the progressive unit and shall have recorded thereon a sequential number and serial number of the progressive controller.

With the exception of the transportation of slot cash storage boxes, pursuant to N.J.A.C. 19:45-1.17(a), whenever it is required that a bill changer, other than a separate slot cash storage box compartment, be opened, certain information shall be recorded on a form to be entitled "Bill Changer Log." The information shall include, at a minimum, the date, time, purpose of opening the bill changer, and the signature of the authorized employee opening the bill changer. The Bill Changer Log shall be maintained in the bill changer and shall have recorded thereon a sequential number and the serial number or asset number of the bill changer. If the bill changer is contained completely within the cabinet of a slot machine and there is no separate access to the bill changer unit, the information may be recorded on the Machine Entry Authorization Log required by (j)1 above, provided that any information that concerns the opening of the bill changer may be distinguished from

any other information that concerns the opening of the slot machine or any other device connected thereto.

4. Whenever it is required that a printer for an approved gaming voucher system be accessed, the date, time, purpose of such access, and the signature of the authorized employee shall be recorded in the log required by (j)1 or (j)3 above, or a separate log as approved by the Commission.

19:45-1.36A Slot machines; hopper storage areas

(a) A hopper storage area may be used in connection with the operation of a slot machine, for the purpose of temporarily storing coins, prize tokens or slot tokens that are to be deposited only into the slot machine's hopper that corresponds with the coin or type of token stored in the hopper storage area.

(b) A hopper storage area shall be a separate secure compartment located within or adjacent to its corresponding slot machine. Notwithstanding the foregoing, a single hopper storage area may be used to store hopper fills for two or more slot machines. A hopper storage area used to supply two or more slot machines shall:

1. Be located on the casino floor in close proximity to its corresponding slot machines, which location shall be approved by the Commission; and

2. Contain a separate marked compartment for each corresponding slot machine, so that all hopper fills stored in the hopper storage area can be segregated and identified by slot machine.

(c) Each hopper storage area shall:

1. Be constructed so as to provide maximum security for the coins or tokens stored in it;

2. Be secured by two separate locks, the keys to which shall be different from each other. One of the keys, which may be the same as the key which opens the slot machine corresponding to that hopper storage area, shall be maintained and controlled by the slot department. The other key, which shall be different from the key securing the corresponding slot machine, shall be maintained and controlled by the casino security department, in a secure area within that department, and access to that key may be gained only by a supervisor in that department. Removal of the key from this area may be undertaken only for use and return no later than the end of the shift of the department member to whom the key was issued, and upon the approval of a supervisor of that department, and entry of the following information into a log:

- i. The signature of the department member to whom the key was issued;
- ii. The signature of the supervisor authorizing such issuance;
- iii. The date and time issued; and
- iv. The date and time replaced; and

3. Include a device that indicates when the door of the hopper storage area is open.

(d) Hopper storage areas shall be filled and utilized in accordance with the procedures in N.J.A.C. 19:45-1.41 and a casino licensee's system of internal controls. No hopper storage area and no compartment within a hopper storage area that supplies two or more slot machines shall contain more than triple the hopper inventory level of each of the hoppers in its corresponding slot machine.

1. A manufacturer's serial number affixed to the outside of the slot machine cabinet in a location as approved by the Commission.

2. An asset number that is permanently imprinted, affixed or impressed on the outside of the machine. The asset number must be conspicuous and clearly visible to persons involved in removing or replacing the slot drop bucket or slot drop box in the slot machine and through the casino licensee's closed circuit camera coverage system. The size and location of the asset number are subject to prior approval by the Commission;

3. A display located conspicuously on the front of the slot machine that automatically illuminates when a player has won a jackpot not paid automatically and totally by the slot machine and which advises the player to see an attendant to receive full payment;

4. A display on the front of the slot machine that provides fair notice of the following:

i. The rules of play, jackpot displays which will designate jackpots and the related payouts;

ii. If the slot machine offers a payout of merchandise or some other thing of value, a clear description of the merchandise or thing of value, including its cash equivalent value (unless the payout is an annuity jackpot), and the dates that the merchandise or thing of value will be offered if the casino licensee establishes a time limit for offering the merchandise or thing of value as provided in N.J.A.C. 19:45-1.40A (a time limit shall not be permitted for a progressive annuity jackpot); pro-

(e) Unless otherwise authorized by the Commission, each slot machine that has a bill changer shall also be equipped with mechanical, electrical or electronic devices as follows:

1. A "cash box" meter that continuously and automatically records the total value of all currency accepted by the bill changer or, as an alternative, a connection to a computer system approved by the Commission that determines the total value of all currency accepted by the bill changer from data supplied from the bill meters required by (e)2 below;

2. A number of "bill meters," that continuously, automatically and separately count, for each denomination of currency accepted by the bill changer, the actual number of bills accepted by the bill changer;

3. If the bill changer can accept coupons but does not contain the coupon meters identified in N.J.A.C. 19:45-1.46B:

i. A "numerical coupon meter" that continuously, automatically and separately counts the total number of all coupons accepted by the bill changer; and

ii. A "value coupon meter" that continuously, automatically and separately counts the total value of all coupons accepted by the bill changer; and

4. If the bill changer can accept gaming vouchers:

i. A "numerical voucher in meter" that continuously, automatically and separately counts the total number of all gaming vouchers accepted by the bill changer; and

ii. A "value voucher in meter" that continuously, automatically, and separately counts the total value of all gaming vouchers accepted by the bill changer.

(f) Each casino licensee that operates a slot machine with a bill changer that is controlled by a software program which may be modified without replacing any physical element of the bill changer (for example, by downloading software to the storage medium on which the bill changer control program is stored) shall submit for review and approval internal controls which shall address, at a minimum, the following:

1. The method for detecting authorized and unauthorized software changes;

2. The creation of a daily report from its slot monitoring system which immediately documents the software change;

3. Procedures for the control and installation of the software by the slot department;

4. The creation of a slot software control log by the slot department evidencing all authorized changes to the bill changer software; and

5. The review and comparison of the report and log required in (f)2 and 4 above by either the surveillance, security, casino accounting or management information systems department for any deviations and investigation.

(g) All meters described in this section and in N.J.A.C. 19:46-1.26 shall be placed in a position so that the numbers thereon can be read and recorded without opening the slot machine.

(h) If a casino licensee elects to conduct jackpot payouts that are not automatically and totally paid by the slot machine by registering them on the credit meter of the slot machine in accordance with the procedure set forth in N.J.A.C. 19:45-1.40(s), the slot machine shall contain a device (jackpot-to-credit-meter switch) that:

1. When activated by a key, increments the credit meter in the exact amount of the jackpot and does not increment the manual jackpot meter; and

2. Is subject to internal controls, as approved by the Commission, to provide:

i. Advance notice to the Commission and Division whenever a casino licensee intends to turn the option to utilize the jackpot-to-credit-meter switch on or off; and

ii. An audit trail of the following information each time the option to utilize the jackpot-to-credit-meter switch is turned on or off:

(1) The name and license number of the employee who performed the action;

(2) The asset number of the slot machine on which the jackpot-to-credit meter switch is installed;

(3) The date and time the action was taken; and

(4) A description of the action that was taken.

(i) Each casino licensee shall set each of its slot machine games to have a theoretical payout percentage that complies with N.J.A.C. 19:46-1.28A and shall maintain a record of each slot machine game setting and the theoretical payout percentage for each slot machine game. No cash or gaming voucher issued to a slot machine patron shall result in a deduction from gross revenue unless the patron's entitlement to the payment is determined by the approved program that controls the slot machine and the payment is recorded on the jackpot meter, numerical and value voucher out meters, or manual jackpot meter required by (b)3, (b)5 and (c) above, the progressive jackpot meter required by N.J.A.C. 19:45-1.39(b)2 or in accordance with procedures authorized by N.J.A.C. 19:45-1.40A and 1:40B.

(j) Each slot machine in a casino shall have such test connections as may be specified by the Division and approved by the Commission for the on-site inspection, examination, and testing of such machine.

(k) Each slot machine in a casino shall have devices, equipment, features and capabilities as may be required by the Commission for that particular model of slot machine after the prototype model is tested and examined by the Division.

(l) If the probability of hitting a proposed jackpot is greater than 34 million to one, the jackpot shall not be approved by the Commission unless it is offered on a linked progressive slot machine; provided, however, that this subsection shall not apply to a jackpot with a probability that may exceed 34 million to one during the game cycle due solely to the intervening occurrence of free play awards between the activation of a play and the award of the jackpot.
