

See: 27 N.J.R. 4992(a), 28 N.J.R. 4601(a).
Amended by R.1997 d.248, effective June 16, 1997.
See: 29 N.J.R. 541(a), 29 N.J.R. 2674(c).
In (a), amended N.J.A.C. reference; and added (b)13.

19:45-1.38 Slot machines and bill changers; authorized locations; movements

(a) Each slot machine that is on a casino floor shall be:

1. Placed at an authorized location identified on a casino floor plan approved by the Commission pursuant to N.J.A.C. 19:43-7.3 or 7.6; and

2. Identified on the Slot Machine Master List required by N.J.A.C. 19:43-7.4(b).

(b) No slot machine or bill changer shall be removed from or returned to an authorized slot machine location in the casino or moved from one authorized slot machine location to another except in accordance with the requirements of N.J.A.C. 19:43-7.4.

(c) Once a slot machine or bill changer has been placed in the casino, all movements of that machine and/or bill changer from or to a location shall be recorded by a slot department member in a machine movement log which shall include the following:

1. The manufacturer's serial number and the asset number of the moved slot machine and/or bill changer;

2. The date and time of movement of the slot machine and/or bill changer;

3. The location from which the slot machine and/or bill changer was moved;

4. The location to which the slot machine and/or bill changer was moved; and

5. The signatures of the slot shift manager and the lead technician verifying the movement of the slot machine and/or bill changer.

(d) Prior to removing a slot machine from the gaming floor:

1. The machine's slot drop bucket or slot drop box shall be removed and transported to the count room;

2. All meters shall be read and recorded in conformity with the procedures set forth in N.J.A.C. 19:45-1.42; and

3. Any coins or slot tokens in any of the slot machine's hoppers or in the corresponding hopper storage area shall be removed, transported, and counted with the slot drop bucket or slot drop box; provided, however, that a slot machine may be removed from the casino with coins or slot tokens contained therein so long as:

i. Removal of the coins or the slot tokens, or any combination thereof, is precluded by mechanical or electrical difficulty;

ii. The casino licensee records in a slot machine movement log whether coins or slot tokens remain in the slot machine that is removed from the casino, and also records in that log the nature of the mechanical or electrical difficulty, the date and time that the coins or slot tokens are removed from the slot machine and transported to the count room, the date and time that the slot machine is removed from the casino, and the date and time that the slot machine is opened; and

iii. The removal and transportation to the count room of the coins or slot tokens is completed immediately after the slot machine is opened; and

4. Any prize tokens in a payout-only hopper or in a corresponding hopper storage area shall be removed, transported and counted in accordance with procedures and internal controls submitted to and approved by the Commission pursuant to N.J.A.C. 19:45-1.3.

(e) Prior to removing a bill changer from the gaming floor, the slot cash storage box shall be removed and transported to the count room and all meters except the cash box meter shall be read and recorded in conformity with the procedures set forth in N.J.A.C. 19:45-1.42. A bill changer may be removed from the casino with currency or coupons contained therein when removal of the slot cash storage box is precluded by mechanical or electrical difficulty. If currency or coupons remain in a bill changer when it is removed from the casino, this fact and the date and time that the slot cash storage box or, if necessary, currency or coupons are removed from the bill changer and transported to the count room shall be recorded in the machine movement log.

Experimental 90-day implementation pursuant to N.J.S.A. 5:12-69(e), (P.L. 1987 c.354), 5:12-70(f) and 5:12-100(e), effective April 11, 1988 (expires July 10, 1988).

See: 20 N.J.R. 769(a).

Amended by: R.1988 d.387, effective August 15, 1988.

See: 20 N.J.R. 765(a), 20 N.J.R. 769(a), 20 N.J.R. 2090(a).

Added location and movements of slot machines.

Amended by R.1991 d.230, effective May 6, 1991.

See: 22 N.J.R. 3325(a), 23 N.J.R. 1461(a).

In (a)1: added N.J.A.C. reference for location number; in (c)1: added "asset" to define number.

Amended by R.1992 d.121, effective March 16, 1992.

See: 23 N.J.R. 2920(a), 24 N.J.R. 974(a).

Rule text amended to eliminate requirement the Commission Inspector sign the machine movement log approving movement of individual slot machines and/or bill changers. Deleted (c)5, recodifying existing 6 as new (c)5, with text changes.

Amended by R.1992 d.360, effective September 21, 1992.

See: 24 N.J.R. 2137(a), 24 N.J.R. 3336(a).

Hopper storage area provisions added.

Administrative Correction to (c)4.

See: 25 N.J.R. April 5, 1993.

Amended by R.1993 d.319, effective July 6, 1993 (operative October 15, 1993).

See: 25 N.J.R. 1503(b), 25 N.J.R. 2908(a).

Amended by R.1994 d.69, effective February 7, 1994.

See: 25 N.J.R. 4471(a), 26 N.J.R. 829(a).

Amended by R.1994 d.504, effective October 3, 1994.

See: 26 N.J.R. 2872(a), 26 N.J.R. 3253(a), 26 N.J.R. 4089(a).

Amended by R.1996 d.122, effective March 4, 1996.

See: 27 N.J.R. 1775(a), 28 N.J.R. 1399(a).

19:45-1.39 Progressive slot machines

(a) This section shall apply to any slot machine with a "progressive meter(s)" that increases as the machine is played.

(b) Unless otherwise authorized by the Commission, each progressive slot machine in a casino shall have the following identifying features:

1. A mechanical, electrical or electronic device, to be known as a "progressive meter(s)", visible from the front of the machine which increments at a set rate of progression based on handle, and which advises the player of the amount which can be won if the progressive jackpot combination appears;

2. A mechanical, electrical or electronic device, to be known as a "progressive jackpot meter" that is visible without opening the door and that continuously and automatically records the number of times a progressive jackpot is hit;

3. A separate key and key switch to reset the "progressive meter(s)" or such other separate reset mechanism as may be approved by the Commission;

4. A separate key locking the compartment housing the progressive meter(s) or other means by which to preclude any unauthorized alterations to the progressive meters; and

5. Dual key control by the Commission and the casino licensee, or such other key controls as the Commission may approve, of the compartment housing the microprocessor or other control unit that controls the progressive meter(s), which compartment shall be in a location approved by the Commission.

(c) Unless otherwise authorized by the Commission, each linked progressive slot machine connected to a common progressive meter ("common display unit") shall:

1. Be the same denomination and have the same probability of hitting the combination that will award the progressive jackpot as every other machine connected to such common display unit;

2. Require that the same amount of handle be invested to entitle the player to a chance at winning the progressive jackpot and that each increase in handle increment the meter(s) by the same rate of progression as every other machine connected to such common display unit; and

3. Have its microprocessor or other control unit that controls the common display unit housed in a location approved by the Commission that would allow dual key control by the Commission and the casino licensee, or with such other key controls as the Commission may approve.

(d) Every casino seeking to utilize a progressive slot machine connected to a common progressive display unit shall submit to the Commission for approval the location and manner of installing the common progressive display unit.

(e) No progressive slot machine shall be placed on the casino floor until the casino licensee has submitted to the Commission and the Commission has approved the following:

1. The initial and reset amounts at which the "progressive meter(s)" will be set;

2. The proposed system for controlling the keys and access codes to these machines;

3. The proposed rate of progression for each machine; and

4. The calculated probability of hitting the combination that shall award each progressive jackpot, which probability shall not exceed 50 million to one. For example, a probability of 45 million to one would be permitted, but a probability of 55 million to one would not be permitted.

(f) No progressive meter(s) shall be turned back to a lesser amount unless:

1. The amount indicated has been actually paid to a winning patron;

2. The progressive jackpot amount won by the patron has been recorded in accordance with an approved system of internal controls;

3. The time limit for the progressive jackpot established pursuant to (i) below has expired; or

4. The change is necessitated by a slot machine or meter(s) malfunction, in which case an explanation must be entered on the Progressive Slot Summary required in (k) below and the Commission inspector must preapprove the resetting in writing.

(g) Once an amount appears on a progressive meter(s), the probability of hitting the combination that will award the progressive jackpot may not be decreased unless the progressive jackpot has been won by a patron or the time limit for offering the progressive jackpot established pursuant to (i) below has expired.

(h) If the "progressive meter(s)" progresses without a payout until the meter(s) return to zero because of digital limitations on the meter(s), some means must be utilized to clearly advise the patrons of the value of the undisplayed digit.

(i) A casino licensee may, at any time, establish a time limit of not less than 30 days for the offering of a progressive jackpot by providing notice of the time limit in accordance with N.J.A.C. 19:45-1.37(a)4. Upon the expiration of such time limit, the casino licensee may reduce the amount on the progressive jackpot meter, remove the progressive slot machine from the gaming floor, or decrease the probability of hitting the combination that will award the progressive jackpot. A casino licensee may also establish a payout limit for a progressive jackpot by providing notice of the payout limit in accordance with N.J.A.C. 19:45-1.37(a)4 prior to the time the payout limit is registered on the progressive meter.

(j) Slot machines which are linked to offer the same progressive jackpot shall have the same probability of hitting the combination that will award that jackpot, provided, however, that the probability may vary among such machines when necessary to enable a casino licensee to institute a change in the probability which is otherwise permitted by this section, if the change is completed expeditiously in accordance with procedures that have been filed with and approved by the Commission.

(k) The amount indicated on the "progressive meter(s)" and "in meter" on each slot machine shall be recorded on a Progressive Slot Summary, at a minimum, at least once every seven calendar days and each summary shall be signed by the preparer. If not prepared by the casino accounting department, the Progressive Slot Summary shall be forwarded to casino accounting by the end of the gaming day on which it is prepared. A representative of the casino accounting department shall be responsible for calculating the correct amount that should appear on the progressive meter(s). If an adjustment to the progressive meter(s) is necessary, the adjustment shall be made by a member of the slot department as follows:

1. Supporting documentation shall be maintained to explain any addition or reduction in the registered amount on the progressive meter(s), which documentation shall include, at a minimum, the date, asset number of the slot machine, the amount of the adjustment and the signature of the slot department member making the adjustment; and
2. The adjustment shall be effectuated within 48 hours of the meter reading.

(l) Except as otherwise authorized by this section, a progressive slot machine removed from the gaming floor shall be returned to or replaced on the gaming floor within five gaming days. The amount on the progressive meter(s) on the returned or replacement machine shall not be less than the amount on the progressive meter(s) at the time of removal. If the machine is not returned or replaced, then the progressive meter(s) amount at the time of removal shall, within five days of the slot machine's removal, be added to a slot machine approved by the Commission which machine offers the same or a greater probability of winning the progressive jackpot, and accepts a denomination of coin or slot token not greater than the denomination accepted by the slot machine which was removed. Any time limit for the offering of a progressive jackpot shall be extended by the number of days during which the progressive jackpot was not offered as the result of any action taken by a casino licensee pursuant to this subsection.

(m) Progressive slot machines may have payout-only hoppers from which prize tokens may be paid as jackpots; provided, however, that prize tokens shall not be available as a payout on a winning progressive jackpot combination.

(n) Notwithstanding any other provision of this section, if the probability of hitting the combination which shall award any progressive jackpot is greater than 34 million to one, a casino licensee may not reduce the amount on the progressive jackpot meter, remove the progressive slot machine from the casino floor or decrease the probability of hitting the combination that will award the progressive jackpot until the progressive amount has been actually paid to a winning patron. A casino licensee may, however, with written approval from the Commission, transfer the progressive jackpot amount, in its entirety, to slot machines with the same probability or reasonably similar probability and the same or lower denomination. Once a progressive jackpot amount is transferred to slot machines with a probability of hitting the progressive jackpot award of less than 34 million to one, that progressive jackpot amount may not be removed or reduced pursuant to (i) above.

Amended by R.1981 d.437, effective November 16, 1981.

See: 13 N.J.R. 534(b), 13 N.J.R. 848(b).

Section substantially amended.

See: 29 N.J.R. 326(a), 30 N.J.R. 120(a).

Added (e)4 and (n).

19:45-1.39A Progressive slot machines interconnected in more than one casino

(a) Two or more casino licensees may, with the prior approval of the Commission, operate a multi-casino progressive slot system in which certain progressive slot machines are interconnected in the participating casinos.

(b) Any multi-casino progressive slot system approved by the Commission shall be operated in accordance with all relevant requirements of the Act and the Commission's regulations governing casino licensees and the conduct of gaming. Any casino licensee seeking approval to participate in a multi-casino progressive slot system shall submit for

Commission approval a system of accounting and internal controls specifying the manner in which participating casino licensees will satisfy the requirements of the Act and the Commission's regulations concerning the operation of slot machines.

(c) A casino licensee may, with the prior approval of the Commission, designate one or more casino key employees to represent the interests of the casino licensee in the operation and control of a multi-casino progressive slot system. Any designated representative shall only be permitted to exercise the duties and responsibilities he or she is authorized to perform for the casino licensee pursuant to N.J.A.C. 19:45-1.11; provided, however, a designated representative may also communicate information and directions concerning the operation and control of the system to or from other employees of the casino licensee who are authorized to exercise responsibility for such matters.

19:45-1.39A: Experimental 90-day implementation of new rule, pursuant to N.J.S.A. 5:12-69(e), 5:12-70(f), (l) and (m), effective March 23, 1990 (expires June 21, 1990).

See: 22 N.J.R. 841(a).

New Rule, R.1990 d.238, effective May 7, 1990.

See: 22 N.J.R. 624(a), 22 N.J.R. 1381(a).

19:45-1.39B Table game progressive payout wagers

(a) This section shall apply to any table game with a progressive payout wager approved by the Commission. If a casino licensee offers a table game with a progressive payout wager, it may be offered individually at each gaming table or the casino licensee may connect the progressive wager among two or more tables so that the progressive amount increments for all wagers at these two or more tables.

(b) Except as provided in this subsection, each table which offers a progressive payout wager shall have the following features:

1. A mechanical, electrical or electronic device to be known as an "in-meter" that continuously and automatically counts the number of gaming chips wagered by patrons on the progressive payout;

2. A mechanical, electrical or electronic device to be known as a "progressive meter," visible from the front of the gaming table, which increments at a set rate of progression when gaming chips are wagered and accepted for the progressive payout and which prominently displays the amount which can be won if the outcome which awards the entire progressive payout is achieved; provided, however, that more than one gaming table may be connected to a common progressive display unit if:

i. A casino licensee elects to connect two or more tables to the same progressive payout wager pursuant to (d) below; and

ii. The display unit is visible to every player at each of the connected tables;

3. A mechanical, electrical or electronic device to be known as a "progressive payout meter" that continuously and automatically records the number of times each progressive payout wager is won;

4. A separate key and key switch to reset or alter the amount on the "progressive meter" or such other separate mechanism as may be approved by the Commission;

5. A separate key locking the compartment housing the component which operates the progressive meter or other means by which to preclude any unauthorized or unintentional alterations to the progressive meter;

6. Dual key control by the Commission and the casino licensee of the location in which the supercontroller and CPU disk drive are housed, which location shall be approved by the Commission; and

7. Storage of and access to the utility disk for the computer that controls the system shall be in accordance with procedures approved by the Commission.

(c) A casino licensee may use a percentage of each progressive payout wager that is accepted at a table to fund a portion of the reset amount for the progressive meter. If a reset fund is established by a casino licensee pursuant to this subsection, each table shall have the following features in addition to those specified in (b) above:

1. A mechanical, electrical or electronic device to be known as a "reset meter" which increments at a set rate of progression when gaming chips are wagered and accepted for the progressive payout and which records the amount which shall be transferred to the progressive meter, inclusive of any reset amount funded by the casino licensee, when the entire amount on the progressive meter is won by a player;

2. A separate key and key switch to reset or alter the amount on the reset meter or such other separate mechanism as may be approved by the Commission; and

3. A separate key locking the compartment housing the component which operates the reset meter or some other mechanism which precludes any unauthorized or unintentional alterations to the reset meter.

(d) If a casino licensee elects to connect two or more tables for a progressive payout wager, the following shall be required:

1. The same denomination gaming chip shall be wagered at all gaming tables connected;

2. The same number of gaming chips shall be wagered to entitle a player to a chance at winning the progressive payout wager, and each gaming chip shall increment the meter by the same rate of progression at all tables connected;

3. The same progressive payouts shall be offered and the probability of hitting those payouts be the same at the connected tables; and

4. A device which shall either automatically or manually lockout all progressive meters if a patron has won a progressive payout wager.

(e) No table game with a progressive payout wager shall be placed in a casino or casino simulcasting facility until the casino licensee has submitted and obtained Commission approval of the following:

1. The authorized game and outcome which will award the progressive payout wager;

2. The initial and reset amounts at which the progressive meter will be set;

3. The proposed rate of progression for each progressive meter and reset meter, if applicable, and the procedure by which any change to the rate of progression will be made, which shall include, at a minimum, prior notice to, and approval by, the Commission;

4. The procedures governing the reset switch or mechanism referenced in (b) and, if applicable, (c) above which shall, at a minimum, preclude the dealer from resetting or altering the amount on the progressive or reset meter;

5. The procedures for operating all the equipment associated with the table game progressive wager including the lockout feature referenced in (d) above; and

6. Such other procedures or features that may be required by the Commission as a result of the operation of the specific table game progressive wager.

(f) No progressive meter shall be turned back to a lesser amount unless:

1. The amount has been actually paid to a winning patron;

2. The progressive payout amount won by the patron has been recorded in accordance with an approved system of internal controls;

3. The time limit for the progressive payout established pursuant to (g) below has expired; or

4. The change is necessitated by a table or meter malfunction, in which case an explanation must be entered on the Table Game Progressive Summary required in (i) below and the Commission shall preapprove the resetting in writing.

(g) When a casino licensee decides to permanently remove the offer of a table game progressive payout, with approval from the Commission, a time limit of not less than 30 days shall be established and notice of the time limit shall be provided at each table. Upon the expiration of such time limit, the casino licensee may remove the gaming table

from the casino or casino simulcasting facility or establish another time limit of not less than 30 days.

(h) Once the time limit in accordance with (g) above has expired, the amount on any progressive meters shall be documented in accordance with procedures approved by the Commission. The initial or reset amount may be retained by the casino licensee and deducted from the ending amount on any meters and the remaining portion shall be paid to the Casino Revenue Fund. If a reset meter is utilized in accordance with (c) above, the entire amount on the reset meter, less the reset amount funded by the casino licensee, shall be paid to the Casino Revenue Fund.

(i) The amount indicated on the "progressive payout meter," "progressive meter," "in-meter" and, if applicable, "reset meter" on each gaming table offering a progressive payout wager shall be recorded on a Table Game Progressive Summary, at a minimum, at least once every seven calendar days and each summary shall be signed by the preparer. If not prepared by the casino accounting department, the Table Game Progressive Summary shall be forwarded to casino accounting by the end of the gaming day on which it is prepared. A representative of the casino accounting department shall be responsible for calculating the correct amount that should appear on the progressive meter. If an adjustment to the progressive meter is necessary, the adjustment shall be made by a member of the table games department as follows:

1. Supporting documentation shall be maintained to explain any addition or reduction in the registered amount on the progressive meter, which documentation shall include, at a minimum, the date, the number of the table, the amount of the adjustment, the reason for the adjustment and the signature of the table games department member making the adjustment; and

2. The adjustment shall be effectuated within 48 hours of the meter reading.

(j) Except as otherwise authorized by this section, any gaming table offering a progressive payout wager may only be removed from the casino or casino simulcasting facility for a period not to exceed five gaming days. The amount on the progressive meter and, if applicable, reset meter upon the return or replacement of the gaming table shall not be less than the amount at the time of removal. Any time limit for the offering of a progressive payout pursuant to (g) above shall be extended by the number of days during which the progressive payout was not offered as the result of any action by a casino licensee pursuant to this subsection.

(k) Each gaming table offering a progressive payout wager shall have such other devices, equipment, features and capabilities as may be required by the Commission for the game after the prototype model is examined by the Commission.

New Rule, R.1995 d.430, effective August 7, 1995.

See: 27 N.J.R. 1767(b), 27 N.J.R. 2967(a).
Amended by R.1996 d.315, effective July 15, 1996.
See: 28 N.J.R. 1947(a), 28 N.J.R. 3623(a).
Amended by R.1996 d.440, effective September 16, 1996.
See: 28 N.J.R. 2537(a), 28 N.J.R. 4241(b).
Administrative correction.
See: 29 N.J.R. 2184(a).

19:45-1.40 Jackpot payouts of cash or slot tokens that are not paid directly from the slot machine

(a) Whenever a patron wins a jackpot of coins or slot tokens that is not totally and automatically paid directly from the slot machine, a Request for Jackpot Payout Slip ("Request") shall be prepared after the preparer observes the combinations on the slot machine and determines the appropriate amount of the payout, based on the winning combinations. If the manual jackpot is less than \$10,000, the preparer of the Request shall be a slot attendant or a slot attendant supervisor. If the manual jackpot is \$10,000 or more, the preparer of the Request shall be a slot attendant supervisor. The Request shall be, at a minimum, a one-part form or the information required on it maintained in stored data, access to which, prior to use or input, shall be restricted to slot attendants and slot attendant supervisors.

(b) The following information, at a minimum, shall be on the Request or maintained in stored data:

1. The date and time of the jackpot;
2. The asset number of the slot machine on which the jackpot was registered;
3. The winning combination of characters constituting the jackpot;
4. The amount to be paid to the winning patron;
5. The method of payment requested by the patron (cash, slot tokens or casino check);
6. The signature or identification code of the preparer; and
7. The following additional signatures or identification codes shall be required if the slot machine or the progressive meter is reset prior to the patron being paid or if payment is made directly to the patron by a slot cashier, master coin bank cashier or general cashier:
