Unless otherwise directed by the Commission, a jobs compendium shall be submitted to the Commission for approval at least six months prior to the projected date of issuance of a certificate of operation. 19:45-1.12A Internal control procedures for access badge system and issuance of temporary license credentials

Each casino licensee shall establish procedures and a control plan for readily identifying each employee of a casino licensee who is permitted, during the normal course of performing his or her duties or during emergencies, to have access to one or more restricted areas, and for issuing temporary license credentials and access badges. These procedures and control plan shall be submitted, reviewed and modified in conformance with the provisions of N.J.A.C. 19:45-1.3.

(c) Each transfer of electronic credits to a slot machine authorized by this section shall be initiated by a patron using an access control approved by the Commission. All access controls shall require the use of a unique access code for each patron, which access code shall be selected by and only available to the patron.

(d) An electronic transfer credit system shall not permit a patron to transfer more than \$400.00 in electronic credits to a slot machine in a single transaction.

(e) A record of each transfer of electronic credits to a slot machine authorized by this section shall be maintained by the casino licensee and shall be identified by, at a minimum, the date, time and the asset number of the slot machine to which the transfer occurred and an identification number assigned to the patron who initiated the transaction. The identification number assigned to each patron for the purposes of this subsection shall be different from the unique access code selected by that patron as part of an access control.

(f) In addition to the requirements of N.J.A.C. 19:45-1.37(b), each slot machine which can be activated through the use of an electronic transfer credit shall be equipped with an "electronic transfer credit meter" that continuously and automatically increments in an amount equal to the value of any cash complimentaries which are converted into electronic credits and transferred to that slot machine by a patron. The electronic transfer credit system shall store this information in machine-readable form and such stored data shall not be susceptible to unauthorized alteration or deletion by any person. On a daily basis, a member of the casino accounting department shall generate a report of the amounts withdrawn from patron accounts and attach a copy of such report to the Slot Win Report in accordance with (h) below.

(g) No slot machine may be connected to, or disconnected from, an electronic transfer credit system without the prior written approval of the Commission.

(h) Each casino licensee shall develop a report or reports which shall be used by a casino accounting department employee to audit the system on a daily basis. Once the audit has been completed, the casino accounting department employee shall sign the report(s) and record the appropriate figures from the report(s) on the Slot Win Report. The report(s) shall be attached to the Slot Win Report for that gaming day. The report(s) required by this subsection and all related audit procedures shall be approved by the Commission.

(i) On at least a monthly basis, each casino licensee using an electronic transfer credit system shall provide a statement to each patron who has participated in the system that month. The statement shall include, at a minimum, the patron's beginning monthly balance, credits earned pursuant to N.J.A.C. 19:45-1.9(f), credits transferred to a slot ma-

chine pursuant to this section and the patron's monthly ending balance. In addition, if requested by a patron, the casino licensee shall have the ability to provide a detail account of all electronic transfer credit transactions initiated by that patron.

(j) No adjustment to the amount of any electronic transfer credit shall be made by a casino licensee without the approval of the Commission.

The slot machine tower light shall be visible to the surveillance department closed circuit camera system from all sides of the slot machine cabinet, unless the slot machine cabinet is against a wall or is in another location approved by the Commission that results in the partial obstruction of the light.

(b) A slot machine tower light shall be approved by the Division and Commission pursuant to N.J.A.C. 19:46-1.20 and 1.28 and shall consist of two separate lights, one on top of the other, that function in accordance with the requirements of this section.

(d) Each of the following combinations of light states shall be displayed by a slot machine tower light to indicate the slot machine operating condition that is described therein:

1. White light off with colored light:

ii. Medium flash means the slot machine is in administrative mode and the slot machine door is open; and

iii. Fast flash means the slot machine is in administrative mode and the drop compartment door is open.

(e) Any combination of light states capable of display by a slot machine tower light that is not assigned a particular slot machine operating condition by (d) above may be used by the casino licensee for its own internal signals if such signals are identified in the casino licensee's approved internal control submission; provided, however, that the casino licensee shall be required to conform the light states displayed by its slot machine tower lights with any future modifications to (d) above.

(f) The provisions of this section shall apply to all slot machines submitted for Commission approval after April 2, 2001. Any slot machines approved prior to April 2, 2001 and which do not conform to the above specifications shall either be modified to comply with this section or shall be removed from the casino floor in accordance with the provisions of N.J.A.C. 19:46-1.21.

19:45-1.39 Progressive slot machine jackpots

(a) This section shall apply to any slot machine jackpot that may increase in value as the machine is played (a "progressive jackpot").

(b) Each slot machine that offers a progressive jackpot which increases in value based upon handle and is adjusted and displayed by a device other than the approved program that controls the operation of the slot machine shall have the following features:

1. A mechanical, electrical or electronic device, to be known as a "progressive meter(s)", visible from the front of the machine which increments at a set rate of progression based on handle, and which advises the player of the amount which can be won if the progressive jackpot combination appears;

2. A mechanical, electrical or electronic device, to be known as a "progressive jackpot meter" that is visible without opening the door and that continuously and automatically records the number of times a progressive jackpot is hit;

3. A separate key and key switch to reset the "progressive meter(s)" or such other separate reset mechanism as may be approved by the Commission;

4. A separate key locking the compartment housing the progressive meter(s) or other means by which to preclude any unauthorized alterations to the progressive meters; and

5. Dual key control by the Commission and the casino licensee, or such other key controls as the Commission may approve, of the compartment housing the microprocessor or other control unit that controls the progressive meter(s), which compartment shall be in a location approved by the Commission.

(c) Unless otherwise authorized by the Commission, each slot machine that is connected to a common progressive meter ("common display unit") for the purpose of offering the same progressive jackpot on two or more slot machines (a "linked slot machine") shall:

1. Be of the same denomination and have the same probability of hitting the combination that will award the progressive jackpot as every other linked slot machine connected to such common display unit.

iv. A statement that the patron is under no obligation to accept the cash buyout option in lieu of continuing to receive the annual annuity payments;

v. A statement that the patron shall have until 5:00 P.M. of the 30th day following the date of the offer, expressed as a date certain (which in no event shall be later than December 1, 2000), within which to exercise the cash buyout option and to inform the trust administering the annuity jackpot by returning the original signed offer in a manner specified therein;

vi. A statement that once the cash buyout option has been exercised through the return of the signed offer, the method of payment cannot be changed; and

vii. A statement that if the patron fails to accept the offer within the time period set forth therein, the patron shall continue to receive his or her annuity jackpot payments as originally scheduled.

3. Upon receipt of a signed offer from a qualified winner electing to accept the cash buyout option and requesting that he or she be paid the remainder of his or her annuity jackpot in the form of a single cash payment, the trust administering the annuity jackpot shall, within 60 days of the date of the offer, issue a check to the winning patron in an amount equal to the present value of the remaining annuity jackpot payments as of the date of the offer. The single cash payment made to a qualified winner who exercises a cash buyout option shall not be included in the total of all sums paid out as winnings for purposes of determining gross revenue.

(m) Notwithstanding any other provision of this chapter to the contrary, a casino licensee or group of casino licensees may, at any time between July 1, 1999 and November 1, 2000, offer a cash buyout option to any patron who won, after October 21, 1998 but before the effective date of this subsection, an annuity jackpot that was payable over a period of at least 10 years.
