## OCTOBER 2010 HIGHLIGHTS

- The estimated cost of construction authorized by building permits in October was \$855.5 million. This was 18.5 percent more than last month.
- Residential work was \$436.7 million, or 51 percent of all activity. Permits for new construction and additions and alterations to existing office, retail, and other nonresidential structures totaled \$418.8 million; this was 49 percent of all activity.
- October indicators are from monthly permit and certificate reports from 555 of New Jersey's 566 municipalities.

**Dollar Amount of Construction, January 2007  
through October 2010 (\$ in millions)**

- Franklin Township, Somerset County had the most work. New home construction accounted for \$11.8 million of the \$31.4 million authorized. The construction office issued building permits for 60 new dwellings. This was the third highest total behind West Windsor Township in Middlesex County (86 units) and Jersey City in Hudson County (71 units).
- West Windsor had \$25.7 million of construction. Nearly all of this was for new student housing for the Princeton theological seminary. The new housing will replace existing units.

- An \$18.1 million addition to a mausoleum in North Arlington accounted for most of the activity in this Bergen County community.
- In Pohatcong, Warren County, work began on a new Super Wal-Mart. The estimated cost of authorized work was \$15 million. When completed, the retail store will have a floor area just over 208,000 square feet.

### Year to Date

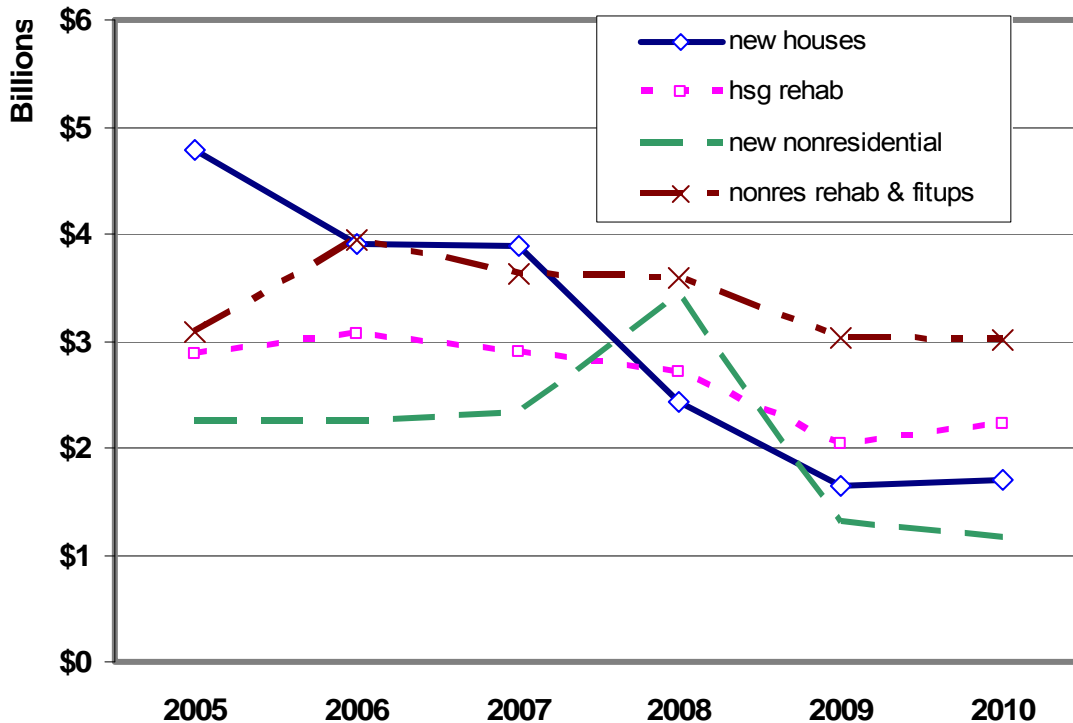

- Ten months into 2010, several trends appear.
- There are modest gains in construction activity this year compared to last year.
- The dollar amount of work between January and October 2010 is up by nearly \$85 million, or 1.1 percent, compared to the same time last year.

### Estimated Dollar of Construction Authorized by Building Permits, January-October 2005-10

- While the level of work in 2010 is only slightly more than last year, it is still well below the pace two years ago.
- Nearly \$12.2 billion was authorized between January and October 2008. This was about \$4.1 billion more than in 2010.
- New home construction is down by nearly 4,700 units compared to 2008. Office construction is down by 2.6 million square feet (38.3 percent), and retail space is down by nearly 3.1 million square feet, or 62 percent.

**T**HE NEW JERSEY CONSTRUCTION REPORTER contains statistics on construction activity in New Jersey. Information in the report comes from construction officials who administer the State Uniform Construction Code (UCC) (N.J.A.C. 5:23-1 et seq.) in New Jersey's 566 municipalities.

Each month, construction officials send to the New Jersey Department of Community Affairs (DCA) reports on the permits and certificates they issue. Permits authorize the start of construction and cover four types of activity: (1) New construction permits authorize the start of a new structure. (2) Permits for additions refer to work that will add space (volume and square feet) to an existing building. (3) Alterations also involve existing structures, but the work authorized will not add space. Typically, construction officials issue permits for alterations when the work is subject to one or more of the UCC's major subcodes (building, electrical, plumbing, fire protection). (4) Demolition permits authorize the removal of a building or some other structure. The *CONSTRUCTION REPORTER* identifies only those demolitions that will result in the loss of housing.

In addition to permits, the *CONSTRUCTION REPORTER* has information on the certificates issued by construction officials. While permits authorize the start of construction, certificates are issued for work completed and ready for occupancy. Each month, the *CONSTRUCTION REPORTER* will report on the number of housing units and the amount of office and retail space authorized for construction, along with the number of housing units and the amount of office and retail space completed.

### **Data Comparability**

The *CONSTRUCTION REPORTER* contains information on authorized housing units that is tabulated two different ways. The DCA tabulates Tables 1 through 3 and Tables 8 through 13 based on the use of buildings, defined in "groups" by New Jersey's UCC. Exhibit B on page 3 summarizes these groups.

Tables 4, 5, and 6 show authorized housing units as defined and tabulated by the United States Census Bureau. The New Jersey Department of Labor and Workforce Development prepares these tables for publication in the *CONSTRUCTION REPORTER*. Exhibit C on page 4 describes the housing definitions used by the Census Bureau.

The DCA series and the Census Bureau series on authorized housing units differ two important ways. First, the DCA series includes housing units created as a result of permits issued to alter or make additions to existing structures. The Census Bureau counts only those housing units authorized from permits issued for new construction.

Second, the Census Bureau imputes data for localities that fail to submit monthly reports on time. An asterisk in the Census column of data appearing in the Municipal Summary Data table at the back of the *CONSTRUCTION REPORTER* indicates those towns with imputed data. The Census Bureau bases these imputations on historic trends. The DCA series shows information for only those towns that submitted monthly reports. If a municipality failed to submit a monthly report on time, "No report" appears in the appropriate columns in the Municipal Summary Data table.

### **Additional Terms**

A number of other terms appear in the tables throughout the *CONSTRUCTION REPORTER*. Exhibit A on page 2 defines additional construction permit and certificate terms.

## NOTE:

Users of the monthly *CONSTRUCTION REPORTER* may notice that year-to-date figures in a particular issue may not be obtained by merely summing the monthly totals that appear in previous issues. This is because the construction data compiled by the New Jersey Department of Community Affairs are continuously updated. Monthly construction reports submitted too late to make the January issue of the *CONSTRUCTION REPORTER*, for example, are included in the year-to-date totals that appear in the February issue.
