## **Independent Auditors' Report**

The Board of Trustees  
State of New Jersey  
Consolidated Police and Firemen's Pension Fund:

We have audited the accompanying statements of fiduciary net assets of the State of New Jersey Consolidated Police and Firemen's Pension Fund (the Fund) as of June 30, 2008 and 2007, and the related statements of changes in fiduciary net assets for the years then ended. These financial statements are the responsibility of the Fund's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Fund's internal control over financial reporting. Accordingly, we express no such opinion. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of the State of New Jersey Consolidated Police and Firemen's Pension Fund as of June 30, 2008 and 2007, and the changes in its financial position for the years then ended in conformity with U.S. generally accepted accounting principles.

As discussed in note 1 to the financial statements, the Fund adopted Governmental Accounting Standards Board (GASB) Statement No. 50, *Pension Disclosures* in 2008.

Management's Discussion and Analysis and the supplementary information included in the schedule of funding progress and schedule of employer contributions (schedules 1 and 2) are not a required part of the basic financial statements but are supplementary information required by U.S. generally accepted accounting principles. We have applied certain limited procedures, which consisted principally of inquiries of management regarding the methods of measurement and presentation of the required supplementary information. However, we did not audit the information and express no opinion on it.

Our audits were conducted for the purpose of forming an opinion on the financial statements that collectively comprise the Fund's basic financial statements. The 2008 schedule of changes in fiduciary net assets by fund (schedule 3) is presented for purposes of additional analysis and is not a required part of the basic financial statements of the Fund. Such information has been subjected to the auditing procedures applied in the audit of the 2008 basic financial statements and, in our opinion, is fairly stated in all material respects in relation to the 2008 basic financial statements taken as a whole.

Management's Discussion and Analysis

June 30, 2008 and 2007

Our discussion and analysis of the financial performance of the Consolidated Police and Firemen's Pension Fund (the Fund) provides an overview of the Fund's financial activities for the fiscal years ended June 30, 2008 and 2007. Please read it in conjunction with the basic financial statements and financial statement footnotes, which follow this discussion.

**Financial Highlights**

**2008 – 2007**

- Net assets held in trust for pension benefits decreased by \$2,914,212 as a result of fiscal year 2008's operations from \$16,096,595 to \$13,182,383.
- Additions for the year are \$7,504,538, which are comprised of contributions of \$7,066,189 and net investment income of \$438,349.
- Deductions for the year are \$10,418,750, which are comprised of benefit payments of \$10,398,599 and administrative expenses of \$20,151.

**2007 – 2006**

- Net assets held in trust for pension benefits decreased by \$2,117,511 as a result of fiscal year 2007's operations from \$18,214,106 to \$16,096,595.
- Additions for the year are \$9,784,300, which are comprised of contributions of \$9,172,361 and net investment income of \$611,939.
- Deductions for the year are \$11,901,811, which are comprised of benefit payments of \$11,873,928 and administrative expenses of \$27,883.

**The Statements of Fiduciary Net Assets and the Statements of Changes in Fiduciary Net Assets**

This annual report consists of two financial statements: *The Statements of Fiduciary Net Assets* and *The Statements of Changes in Fiduciary Net Assets*. These financial statements report information about the Fund and about its activities to help you assess whether the Fund, as a whole, has improved or declined as a result of the year's activities. The financial statements were prepared using the accrual basis of accounting. Under the accrual basis of accounting, revenues are recognized in the period they are earned, and expenses are recorded in the year they are incurred, regardless of when cash is received or paid.

*The Statements of Fiduciary Net Assets* show the balances in all of the assets and liabilities of the Fund at the end of the fiscal year. The difference between assets and liabilities represents the Fund's fiduciary net assets. Over time, increases or decreases in the Fund's fiduciary net assets provide one indication of whether the financial health of the Fund is improving or declining. *The Statements of Changes in Fiduciary Net Assets* show the results of financial operations for the year. The statements provide an explanation for the change in the Fund's fiduciary net assets since the prior year. These two financial statements should be reviewed along with the information contained in the financial statement footnotes, including the required supplementary schedules, to determine whether the Fund is becoming financially stronger or weaker.

**Financial Analysis**

***Summary of Schedule of Fiduciary Net Assets***

2008 – 2007

	<u>2008</u>	<u>2007</u>	<u>Decrease</u>
Assets	\$ 14,077,043	16,400,894	(2,323,851)
Liabilities	<u>894,660</u>	<u>304,299</u>	<u>590,361</u>
Net assets	<u>\$ 13,182,383</u>	<u>16,096,595</u>	<u>(2,914,212)</u>

The Fund's assets mainly consist of cash, investments, and contributions due from other funds. Between fiscal years 2007 and 2008, total assets decreased by \$2.3 million or 14.2% due to a decrease in the amount invested in the Cash Management Fund (CMF).

Liabilities mainly consist of pension benefit payments owed to retirees and beneficiaries. Total liabilities increased by 194.0% due to full accrual of the July 1, 2008 retirement benefits payable.

Net assets held in trust for pension benefits decreased by \$2.9 million or 18.1% primarily because benefit payments exceeded State contributions and investment revenues as employer contributions to the fund are being reduced as the number of retirees and beneficiaries decline in this closed fund.

2007 – 2006

	<u>2007</u>	<u>2006</u>	<u>Decrease</u>
Assets	\$ 16,400,894	18,559,367	(2,158,473)
Liabilities	<u>304,299</u>	<u>345,261</u>	<u>(40,962)</u>
Net assets	<u>\$ 16,096,595</u>	<u>18,214,106</u>	<u>(2,117,511)</u>

The Fund's assets mainly consist of cash, securities lending collateral, investments, and contributions due from other funds. Between fiscal years 2006 and 2007, total assets decreased by \$2.2 million or 11.6% due to a decrease in employer appropriation contributions available for investment in the Cash Management Fund.

Liabilities mainly consist of pension benefit payments owed to retirees and beneficiaries, and securities lending collateral and rebates payable. Total liabilities decreased by 11.9% mainly due to fewer retirees and beneficiaries receiving benefits compared to last year.

Net assets held in trust for pension benefits decreased by \$2.1 million or 11.6% primarily because benefit payments exceeded State contributions and investment revenues as employer contributions to the fund are being reduced as the number of retirees and beneficiaries decline in this closed fund.

***Summary of Additions to Fiduciary Net Assets***

*2008 – 2007*

	<u>2008</u>	<u>2007</u>	<u>Decrease</u>
Employer contributions	\$ 7,066,189	9,172,361	(2,106,172)
Net investment income	438,349	611,939	(173,590)
Totals	<u>\$ 7,504,538</u>	<u>9,784,300</u>	<u>(2,279,762)</u>

Additions primarily consist of employer contributions and earnings from investment activities. Employer contributions are made primarily by the State to provide funding for pension benefits. Contributions are also received from the Pension Adjustment Fund to cover the cost-of-living adjustments included in benefit payments. The State contributed \$0.6 million and \$1.8 million toward the unfunded actuarial accrued liability in fiscal year 2008 and 2007, respectively.

Net investment income decreased by \$0.2 million or 28.4% due to the decline in the net appreciation in the fair value of investments and less income earned on these investments.

*2007 – 2006*

	<u>2007</u>	<u>2006</u>	<u>Increase (decrease)</u>
Employer contributions	\$ 9,172,361	14,681,884	(5,509,523)
Net investment income	611,939	405,597	206,342
Totals	<u>\$ 9,784,300</u>	<u>15,087,481</u>	<u>(5,303,181)</u>

Additions primarily consist of employer contributions and earnings from investment activities. Employer contributions are made primarily by the State to provide funding for pension benefits. Contributions are also received from the Pension Adjustment Fund to cover the cost-of-living adjustments included in benefit payments. The State contributed \$1.8 million and \$6.4 million toward the unfunded actuarial accrued liability in fiscal year 2007 and 2006, respectively.

Net investment income increased by \$0.2 million or 50.9% due to an increase in the net appreciation in fair value of investments.

PENSION FUND**

Notes to Financial Statements

June 30, 2008 and 2007

**(1) Description of the Fund**

The State of New Jersey Consolidated Police and Firemen's Pension Fund (the Fund; CPFPPF) is a cost-sharing contributory defined benefit plan with a special funding situation which was established as of January 1, 1952, under the provisions of N.J.S.A. 43:16. The Fund is included along with other state-administered pension trust and agency funds in the basic financial statements of the State of New Jersey.

The Fund's designated purpose is to provide retirement, death and disability benefits to its members. Membership in the Fund is limited to county and municipal police and firemen who were appointed prior to July 1, 1944. There are no active vested members and 620 pensioners and beneficiaries are receiving benefits as of June 30, 2007, the date of the most recent actuarial valuation. As of June 30, 2006, there were no active members and 719 pensioners and beneficiaries receiving benefits. The Fund's Board of Trustees is primarily responsible for its administration.

According to State of New Jersey Administrative Code, all obligations of the Fund will be assumed by the State of New Jersey should the Fund terminate.

In 2008, the Fund adopted the provisions of Governmental Accounting Standards Board (GASB) Statement No. 50, "*Pension Disclosures*."

***Vesting and Benefit Provisions***

The vesting and benefit provisions are set by N.J.S.A. 43:16. The CPFPPF provides retirement as well as death and disability benefits to any active member after 25 years of service. A member may retire at age 60 after 25 years of service. Retirement is mandatory at age 65, except for chiefs of police, who may retire at age 70. Benefits are generally determined to be 60% of final salary, as defined, plus 1% for each creditable year of service, as defined, in excess of 25 years, but not to exceed 30 years. Members are always fully vested in their own contributions.

Chapter 4, P.L. 2001 provided increased benefits to certain members who retired prior to December 29, 1989 with at least 25 years of creditable service. The maximum amount of the increase was 5% of the retiree's final compensation. For those with 30 or more years of service, the total pension benefit increased from 65% to 70% of final compensation.

***Membership and Contributing Employers***

Membership in the Fund at June 30, 2007 and 2006, the dates of the most recent actuarial valuations, consisted of 620 and 719 retirees and beneficiaries, respectively, receiving benefits currently. Additionally there were 96 employers contributing to the Fund.

**(2) Summary of Significant Accounting Policies**

***Measurement Focus and Basis of Accounting***

The accounting and financial reporting treatment applied to a fund is determined by its measurement focus. The Fund is accounted for using an economic resources measurement focus.

The accrual basis of accounting is used for measuring financial position and changes in fiduciary net assets of the Fund. Under this method, revenues are recorded in the accounting period in which they are earned, and deductions are recorded at the time the liabilities are incurred. The financial statements of the Fund conform to the provisions of Governmental Accounting Standards Board (GASB) Statement No. 25, "Financial Reporting for Defined Benefit Plans and Note Disclosures for Defined Contributions Plans." Employer contributions are recognized when payable to the Fund. Benefits and refunds are recognized when due and payable in accordance with the terms of the Fund.

***Investments***

The Division of Investment, Department of the Treasury, State of New Jersey (Division of Investment) manages and invests certain assets of seven of the defined benefit plans (PERS, TPAF, JRS, PFRS, CPFPPF, SPRS and POPF). The Division of Investment separately reports the assets, liabilities and net assets of the underlying investment portfolio of the seven defined benefit plans in its Pension Fund report. The Division of Investment accounts included in the Pension Fund report are: Common Fund A, Common Fund B, Common Fund D, Common Fund E, Police and Firemen's Mortgage Program accounts and other investments owned directly by the seven defined benefit pension plans. Common Fund A invests primarily in domestic equity securities. Common Fund B invests primarily in domestic fixed income securities. Common Fund D invests primarily in foreign equity and fixed income securities. Common Fund E invests primarily in alternative investments which includes private equity, real assets and absolute return strategy investments. The Police and Firemen's Retirement System includes a mortgage loan program administered by the New Jersey Housing and Mortgage Finance Agency that provides participants with mortgages from the program at rates which are fixed by formula. The law establishing the program provides that the Fund may not sell the mortgages, and no independent market exists for them.

Investments are reported at fair value as follows:

- U.S. Government and Agency, Foreign and Corporate obligations – prices quoted by a major dealer in such securities.
- Common Stock and Equity Funds, Foreign Equity Securities, Forward Foreign Exchange Contracts – closing prices as reported on the primary market or exchange on which they trade.
- Money Market Instruments – amortized cost which approximates fair value.
- Cash Management Fund – closing bid price on the last day of trading during the period as determined by the Transfer Agent.
- Alternative investments (private equity, real estate, commodity, and absolute return strategy funds) – estimated fair value provided by the general partner and/or investment manager and reviewed by management. The inputs into the determinations of fair value (particularly for private equity and real estate) require significant management judgment or estimation. Because by their very nature,

**STATE OF NEW JERSEY  
CONSOLIDATED POLICE AND FIREMEN'S  
PENSION FUND**

Notes to Financial Statements

June 30, 2008 and 2007

alternative investments are not always readily marketable, their estimated value is subject to uncertainty and therefore may differ significantly from the value that would be used if a ready market for such investments existed. The development of fair value is further complicated by (1) the current lack of liquidity in the financial system and (2) the extreme levels of volatility in the market for public equity in general and for debt securities linked to these asset classes. For these reasons, the realized value received upon the sale of these investments in the open market might be different from the fair value reported in the financial statements.

Investment transactions are accounted for on a trade or investment date basis. Gains and losses from investment transactions are determined by the average cost method. Interest and dividend income is recorded on the accrual basis, with dividends accruing on the ex dividend date.

The net asset value of Common Funds A, B, D and E (Common Funds) is determined as of the close of the last day of business of each month. Purchases and redemptions of participants' units are transacted each month within fifteen days subsequent to that time and at such net asset value.

Dividends and interest earned per unit are calculated monthly and distributed quarterly for Common Fund A and B. Dividends and interest earned per unit are calculated monthly for Common Fund D, and the income earned on Common Fund D units is reinvested. Income earned per unit is calculated monthly for Common Fund E, and the income earned on Common Fund E units is reinvested.

***Securities Lending***

The State Investment Council policies permit Common Funds A, B and D and several of the direct pension plan portfolios to participate in securities lending programs, whereby securities are loaned to brokers or other borrowers and, in return, the pension funds have rights to the collateral received. All of the securities held in Common Funds A, B and D, and certain securities held directly by the pension plans, are eligible for the securities lending program. Collateral received may consist of cash, letters of credit, or government securities having a market value equal to or exceeding 102% (U.S. dollar denominated) or 105% (non-U.S. dollar denominated) of the value of the loaned securities at the time the loan is made. For Common Funds A and B, in the event that the market value of the collateral falls below 101% of the market value of all the outstanding loaned securities to an individual borrower, additional collateral shall be transferred by the borrower to the respective funds no later than the close of the next business day so that the market value of such additional collateral, when added to the market value of the other collateral, shall equal 102% of the market value of the loaned securities. For Common Fund D, in the event that the market value of the collateral falls below the collateral requirement of either 102% or 105% (depending on whether the securities are denominated in U.S. dollars or a foreign currency, respectively) of the market value of the outstanding loaned securities to an individual borrower, additional collateral shall be transferred in an amount that will increase the aggregate of the borrower's collateral to meet the collateral requirements. The securities lending contracts do not allow the Common Funds to pledge or sell any collateral securities unless the borrower defaults. As of June 30, 2008, the Fund did not participate in the securities lending program. As of June 30, 2007, the Common Funds have no aggregate credit risk exposure to brokers because the collateral amount held by the Common Funds exceeded the market value of the securities on loan.

**STATE OF NEW JERSEY  
CONSOLIDATED POLICE AND FIREMEN'S  
PENSION FUND**

Notes to Financial Statements

June 30, 2008 and 2007

The contracts with the Common Funds' securities lending agent require them to indemnify the Common Funds if the brokers or other borrowers fail to return the securities or fail to pay the Common Funds for income distributions on the securities while they are on loan. The Common Fund D securities lending agent also indemnifies the Common Funds for any loss of principal or interest on the invested collateral. For any losses on the investment collateral in Common Funds A or B or other pension plan portfolios, the lending fee paid to the lending agent shall be reduced by 25% of the amount of such loss, up to an amount not to exceed 75% of the previous six months' securities lending fees. The securities loans can be terminated by notification by either the borrower or the Common Funds. The term to maturity of the securities loans is generally matched with the term to maturity of the investment (or, in the case of floating rate notes, to the next interest rate reset date) of the cash collateral.

***Administrative Expenses***

The Fund is administered by the State of New Jersey Division of Pensions and Benefits. Administrative expenses are paid by the Fund to the State of New Jersey, Department of the Treasury, and are included in the accompanying financial statements.

***Funded Status and Funding Progress***

The required supplementary information regarding the funded status and funding progress is based on actuarial valuations which involve estimates of the value of reported amounts and assumptions about the probability of events far into the future. These amounts are subject to continual revision as actual results are compared to past expectations and new estimates are made about the probability of future events.

The required schedule of funding progress presents multi-year trend information about whether the actuarial value of plan assets is increasing or decreasing over time relative to the actuarial accrued liability for benefits.

Actuarial calculations reflect a long-term perspective and are based on the benefits provided under State statutes in effect at the time of each valuation and also consider the pattern of the sharing of costs between the employer and members at that point in time. The projection of benefits for financial reporting purposes does not explicitly incorporate the potential effects of legal or contractual funding limitations on the pattern of cost sharing between the employer and members in the future.

June 30, 2008 and 2007

New Jersey state statute provides for a State Investment Council (Council) and a Director. Investment authority is vested in the Director of the Division of Investment and the role of the Council is to formulate investment policies. The Council issues regulations which establish guidelines for permissible investments which include domestic and international equities and exchange traded funds, covered call and put options, equity futures contracts, obligations of the U.S. Treasury, government agencies, corporations, finance companies and banks, obligations of international corporations, governments and agencies, interest rate swap transactions, fixed income exchange traded funds, U.S. Treasury futures contracts, New Jersey State and Municipal general obligations, public authority revenue obligations, collateralized notes and mortgages, commercial paper, certificates of deposit, repurchase agreements, bankers acceptances, guaranteed income contracts, funding agreements, money market funds, private equity, real estate, other real assets and absolute return strategy funds and the State of New Jersey Cash Management Fund (CMF). The CMF is a short-term cash fund and is open to state and certain non-state participants.

The pension funds' investment in the Cash Management Fund is not evidenced by securities that exist in physical or book entry form held by the pension funds.

The Fund's investments are subject to various risks. Among these risks are custodial credit risk, credit risk, concentration of credit risk, interest rate risk, and foreign currency risk. Each one of these risks is discussed in more detail below.

Custodial credit risk, as it relates to investments, is the risk that in the event of the failure of the counterparty to a transaction, the pension funds will not be able to recover the value of investment or collateral securities that are in the possession of the third party. The pension funds' investment securities are not exposed to custodial credit risk as they are held in segregated trust accounts in the name of the pension funds with the custodians.

Credit risk is the risk that an issuer or other counterparty to an investment will not fulfill its obligations. The credit risk of a debt instrument is evaluated by nationally recognized statistical rating agencies such as Moody's Investors Service, Inc. (Moody's), Standard & Poor's Corporation (S&P), and Fitch Ratings (Fitch). Concentration of credit risk is the risk of loss attributed to the magnitude of an investment in a single issuer. There are no restrictions in the amount that can be invested in United States Treasury and Government agency obligations. Council regulations require minimum credit ratings for certain categories of fixed income obligations held directly by the pension funds and limit the amount that can be invested in any one issuer or issue.

Foreign currency risk is the risk that changes in exchange rates will adversely affect the fair value of an investment. The pension funds invest in global markets. Effective August 20, 2007, the market value of international preferred and common stocks and issues convertible into common stocks, when combined with the market value of international government and agency obligations, cannot exceed 30% of the market value of the pension funds; previously, this limitation was 22%. Effective September 5, 2006, the market value of emerging market securities cannot exceed more than 1.5 times the percentage derived by dividing the total market capitalization of companies included in the Morgan Stanley Capital International (MSCI) Emerging Market Index by the total market capitalization of the companies included in the MSCI All-Country World Ex-United States Index of the total market value of the assets held by Common Fund D. Prior to September 5, 2006, not more than 5% of the value of the assets held by Common Fund D can be invested in companies incorporated in emerging market countries. Not more than 10% of the market value of the emerging market securities can be invested in the common and preferred stock of any one corporation; the total amount of stock purchased of any one corporation cannot exceed 5% of its stock

The pension funds' interests in alternative investments may contain elements of credit, currency and market risk. Such risks include, but are not limited to, limited liquidity, absence of regulatory oversight, dependence upon key individuals, emphasis on speculative investments (both derivatives and non-marketable investments), and nondisclosure of portfolio composition. Effective September 5, 2006, Council regulations require that not more than 18% of the market value of the Pension Fund can be invested in alternative investments, with the individual categories of real estate, real assets, private equity and absolute return strategy investments limited to 7%. On August 18, 2008 the overall limitation was revised to 28%. Not more than 5% of the market value of Common Fund E, plus outstanding commitments, may be committed to any one partnership or investment, without the prior written approval of the Council. The investments in Common Fund E cannot comprise more than 20% of any one investment manager's total assets.

**(4) Securities Lending Collateral**

The Fund did not participate in the securities lending program as of June 30, 2008. The Fund's share in the securities lending program is less than 0.001% of the total market value of the collateral as of June 30, 2007.

The securities lending collateral is subject to various risks. Among these risks are credit risk, concentration of credit risk, and interest rate risk. Agreements with the lending agents require minimum credit ratings for certain categories of fixed income obligations and limit the amount that can be invested in any one issuer or issue. These limits are consistent with Council regulations and internal policies for funds managed by the Division of Investment. These limits for the period July 1, 2006 through September 4, 2006 were as follows:

<u>Category</u>	<u>Minimum rating</u>		<u>Limitation of issuer's outstanding debt</u>	<u>Limitation of issue</u>	<u>Other limitations</u>
	<u>Moody's</u>	<u>S&amp;P</u>			
Certificates of deposit/ Banker's acceptances (rating applies to international)	Aa3/P-1	—	—	—	Uncollateralized certificates of deposit and banker's acceptances cannot exceed 10% of issuer's primary capital; dollar limits by issuer
Guaranteed income contracts	P-1	—	—	—	Limited to 5% of the assets of the collateral portfolio; A+ rating from A.M. Best for insurance companies
Money market funds	—	—	—	—	Limited to 10% of the assets of the collateral portfolio; limited to approved money market funds

Notes to Financial Statements

June 30, 2008 and 2007

Maturities of corporate obligations, U.S. finance company debt, bank debentures, collateralized notes and mortgages, guaranteed income contracts, and funding agreements must be less than 25 months. Commercial paper maturities cannot exceed 270 days. Repurchase agreement maturities cannot exceed 30 days. Certificates of deposit and banker's acceptances must mature in one year or less.

The collateral for repurchase agreements is limited to obligations of the U.S. Government or certain U.S. Government agencies, collateralized notes and mortgages and corporate obligations meeting certain minimum rating criteria.

Total exposure to any individual issuer is limited, except for U.S. Treasury and Government agency obligations. For money market funds, the total amount of shares or units purchased or acquired of any money market fund shall not exceed 5% of the shares or units outstanding of said money market fund. For Collateralized notes and mortgages, not more than 2% and 5% of the assets of the collateral portfolio shall be invested in the obligations of any one issuer and issue, respectively. For Guaranteed income contracts and funding agreements, the total investment in any one issuer shall be limited to 2.5% of the collateral portfolio. The Division of Investment sets individual issuer limits for Commercial paper and Certificate of deposits. For Corporate obligations, U.S. finance company debt, Bank debentures and Bankers acceptances, exposure to any one issuer shall be limited to the following percentages of the collateral portfolio in accordance with the issuer's rating from Moody's: Aaa (4%), Aa (3%), A (2%), and Baa (1%).

For securities exposed to credit risk in the collateral portfolio, the following table discloses aggregate market value, by major credit quality rating category at June 30, 2007. In those cases where an issuer and/or security have both a long-term and short-term rating, the short-term rating is presented.

**(5) Contributions**

There are no active members in the CPFPPF.

The State made a contribution of \$0.52 million and \$1.78 million to satisfy the actuarially accrued liability in fiscal year 2008 and 2007 based upon the July 1, 2006 and 2005 actuarial valuations, respectively. The amounts contributed in fiscal year 2008 and 2007 are equal to 21.86% and 21.02% of the actuarially determined amounts, respectively. The local contributions of \$0.03 million and another \$0.03 million represent the administrative fees billed to various locations in fiscal years 2008 and 2007.

**(6) Funds**

CPFPPF maintains the following legally required fund as follows:

***Pension Reserve Fund (2008 – \$13,182,383; 2007 – \$16,096,595)***

The Pension Reserve Fund is credited with State of New Jersey contributions and investment income.

**(7) Subsequent Events**

Subsequent to the June 30, 2008 fiscal year end, global financial markets suffered significant declines in value attributable to significant strains on many of the world's largest financial institutions. These difficulties, which were caused by a combination of liquidity constraints and continued write downs of mortgage-related assets, have resulted in a global economic downturn that has negatively impacted the value of most financial assets.

The investment assets of the Pension Funds have also incurred a considerable decline in value since June 30, 2008 due to these unfavorable market conditions. As of December 31, 2008 the fair value of the portfolio declined by approximately 17.9% due to these factors. Readers of this financial statement should check the New Jersey Division of Investment's website for more current information about the fair value of the pension funds' portfolio.

- (1) Excludes contributions from local employers to cover administrative expenses of the Fund.
- (2) Differences between the amounts in the employer contribution column in this schedule and the amounts recorded in the financial statements and footnotes are attributed to timing differences between the 2007 actuarial valuations and the actual amounts received in fiscal year 2008. Employer contributions per this schedule represent anticipated contribution amounts determined at the time the actuarial valuations were prepared and finalized prior to the end of fiscal year 2008. The financial statements and footnotes reflect the actual amounts received in 2008.
