Governor Christie: I Will Not Hesitate To Bring The Fight

Transcript

Governor Christie: Good morning everybody. First of all, today is about jobs. It's jobs to help to do what needs to be done to that bridge. It's about jobs in our port. It's about jobs in all – in all of the industries that our port serves across our state. And so let me just make it really clear, when it comes to making sure that I fight for the state of New Jersey to get our fair share of Port Authority infrastructure investment to create jobs for the hard working men of this state and women of this state, I will not hesitate to bring the fight, and the result of that fight is what you're going to see happening right behind us. We're going to get this bridge done and protect the jobs of the people of the state of New Jersey. And just so you know, well there's going to be a lot of benefits for this project off into the future, there are also benefits today. Twenty-five hundred construction jobs to do that bridge the way that it needs to be done right now. And what that means for those twenty-five hundred families is: steady work, good pay, to be able to pay their mortgage, to put food on the table, to put money aside for their families. People who are working hard and want to continue to work hard to grow New Jersey are going to get the chance to do just that and I am really proud. And when you say thanks to me, I say thank you for doing the job that you're doing.
