

**7:25-17.1 Scope**

This subchapter shall constitute the rules governing the disposal and possession of dead deer found on or along any New Jersey public highway or on private property.

**7:25-17.2 Purpose**

The purpose of this subchapter is to provide for efficient, effective and utilitarian removal of dead deer found on or along any New Jersey public highway or on private property.

**7:25-17.3 Construction**

These rules shall be liberally construed to permit the department to effectuate the purposes of N.J.S.A. 23:4-43.

**7:25-17.4 Authorized persons and disposal or possession**

Deer found dead on or along any New Jersey public highway shall be disposed of by New Jersey State or municipal police officers or persons authorized by them at a sanitary landfill or other site approved by the Division of Waste Management of the Department of Environmental Protection or the police agency may authorize possession, as conditioned in N.J.A.C. 7:25-17.6.

**7:25-17.5 Dead deer on private property**

Deer found dead on any private property shall be disposed of by State or municipal police officers, or personnel authorized by them, upon request of the property owner, in the manner prescribed in N.J.A.C. 7:25-17.4. The owner or lessee of cultivated lands who kills deer under permit of the Division of Fish, Game and Wildlife on such property shall dispose of the dead deer as directed by the Division of Fish, Game and Wildlife.

**7:25-17.6 Possession of dead deer**

(a) New Jersey State or municipal police officers shall issue a written permit to possess the accidentally killed deer for consumption, or to transfer the deer carcass to another person for consumption, on forms provided by the Division of Fish, Game and Wildlife upon satisfaction of both of the following conditions:

1. The deer was killed by an accidental collision with a motor vehicle; and
2. The accidental collision was reported to the New Jersey State or municipal police as soon as possible.

(b) The permit described in (a) above shall be valid for 90 days from date of issue.

(c) A deer that has been so severely injured by a collision with a motor vehicle that it must be killed shall be considered as accidentally killed for the purposes of this subchapter.

**7:25-17.7 Information required**

(a) Any State or municipal officer disposing of or authorizing the disposal or possession of accidentally killed deer shall notify the New Jersey Division of Fish, Game and Wildlife on a quarterly basis of the following information on forms provided by the Division of Fish, Game and Wildlife:

1. The location where the deer was killed;
2. The sex of the deer;
3. The date of the accidental deer kill; and
4. The name and address of the permittee.

**SUBCHAPTER 18. MARINE FISHERIES****Subchapter Historical Note**

Pursuant to the authority of N.J.S.A. 23:2B-6, Subchapter 18, Marine Fisheries, was filed and became effective September 17, 1980 as R.1980 d.394. See: 12 N.J.R. 312(a), 12 N.J.R. 576(c). Subchapter 18 was readopted as R.1985 d.386, effective July 8, 1985. See: 17 N.J.R. 1188(a), 17 N.J.R. 1883(b). Subchapter 18, Marine Fisheries, was repealed and a new subchapter on the same subject matter was adopted by Emergency Rule R.1985 d.674, effective December 17, 1985. This emergency new rule expired on February 15, 1986. See: 18 N.J.R. 102(a). The provisions of the concurrent proposal were adopted with changes by R.1986 d.121, effective April 7, 1986. See: 18 N.J.R. 102(a), 18 N.J.R. 657(b). See, also, section annotations.

**7:25-18.1 Size, season and possession limits**

(a) A person shall not purchase, sell, offer for sale, or expose for sale any species listed below less than the minimum length, measured in inches, except as may be provided elsewhere in this subchapter, and subject to the specific provisions of any such section. Any commercially licensed vessel or person shall be presumed to possess the following species for sale purposes and shall comply with the minimum sizes below. Fish length shall be measured from the tip of the snout to the tip of the tail.

Species	Scientific Name	Minimum Size (inches)
Atlantic Mackerel	<i>Scomber scombrus</i>	7
Atlantic Sturgeon	<i>Acipenser oxyrinchus</i>	60
Black Sea Bass	<i>Centropristis striata</i>	8
Bluefish	<i>Pomatomus saltatrix</i>	9
Conch	<i>Busycan carica</i>	5
	<i>Busycotypus canaliculatum</i>	
	<i>Busycan contrarium</i>	
Kingfish	<i>Menticirrhus saxatilis</i>	8
	<i>Menticirrhus americanus</i>	
Porgy (Scup)	<i>Stenotomus chrysops</i>	9
Goosefish (Monkfish)	<i>Lophius americanus</i>	17
Winter Flounder	<i>Pleuronectes americanus</i>	12

1. In addition to the total minimum goosefish size, all goosefish tails possessed must be at least 11 inches in length from the anterior portion of the fourth cephalic dorsal spine to the end of the caudal fin. The total weight of all goosefish livers landed shall not be more than 30 percent of the total weight of all goosefish tails

landed or 12 percent of the total weight of all goosfish landed.

2. A person may not possess a dressed Atlantic sturgeon for sale less than 36 inches in length, subject to the additional provisions in N.J.A.C. 7:25-18.15. Dressed length is the length of an Atlantic sturgeon after the entire head, collar, tail and viscera have been removed.

(b) A person shall not take from the marine waters in the State or have in his or her possession any species listed below less than the minimum length, measured in inches, except as may be provided elsewhere in this subchapter, and subject to the specific provisions of any such section. Any commercially licensed vessel or person shall be presumed to possess the following species for sales purposes. Fish length shall be measured from tip of the snout to the tip of the tail.

Species	Scientific Name	Minimum Size inches
American eel	Anquilla rostrata	6
Atlantic Cod	Gadus morhua	19
Atlantic Sturgeon	Acipenser oxyrinchus	60
Cobia	Rachycentron canadum	37
Haddock	Melanogrammus aeglefinus	19
King Mackerel	Scomberomorus cavalla	23
Pollock	Pollachius virens	19
Porgy (Scup)	Stenotomus chrysops	7
Red Drum	Sciaenops ocellatus	18
Spanish Mackerel	Scomberomorus maculatus	14
Summer Flounder (Fluke)	Paralichthys dentatus	14½
Tautog (Blackfish)	Tautoga onitis	13
Weakfish	Cynoscion regalis	14
	Cynoscion nebulosus	
Winter Flounder	Pleuronectes americanus	10

(c) A person angling with a hand line or with rod and line or using a bait net or spearfishing shall not take in any one day or possess more than the possession limit specified below for each species listed during the open season except as may be provided elsewhere in this subchapter, and subject to the provisions of any such section. A person angling or bait netting or spearfishing shall not possess any species listed below during the closed season for that species.

Species	Open Season	Possession Limit
Bluefish	Jan. 1-Dec. 31	10
King Mackerel	Jan. 1-Dec. 31	3
Scup	Jan. 1-Dec. 31	No limit
Spanish Mackerel	Jan. 1-Dec. 31	10
Summer Flounder	Jan. 1-Dec. 31	10
Tautog	Jan. 1-Dec. 31	No limit
Weakfish	Jan. 1-Dec. 31	14
Winter Flounder	March 1-May 31 and Sept. 15-Dec. 31	No limit

(d) A person shall not take in any one day or possess more than the possession limit specified below for each species listed, except as may be provided elsewhere in this subchapter, and subject to the specific provisions of any such section.

Species	Possession Limit
Atlantic Sturgeon	0
Cobia	2
Red Drum	5, only 1 of which may be greater than 27 inches

(e) Except as provided in (f) below, a person shall not remove the head, tail or skin, or otherwise mutilate to the extent that its length or species cannot be determined, any species with a minimum size limit specified at (b) above or any other species of flatfish, except after fishing has ceased and such species have been landed to any ramp, pier, wharf or dock or other shore feature where it may be inspected for compliance with the appropriate size limit.

(f) Special provisions applicable to a Special Fillet Permit are as follows:

1. A party boat owner may apply to the Commissioner for a permit for a specific vessel, known as a Special Fillet Permit to fillet species specified at (b) above at sea;

2. For purposes of this section, party boats are defined as vessels that can accommodate 15 or more passengers as indicated on the Certificate of Inspection issued by the United States Coast Guard for daily hire for the purpose of recreational fishing;

3. The Special Fillet Permit shall be subject to the following conditions:

i. Once fishing commences, no parts or carcasses of any species specified in (b) above and no flatfish parts or carcasses shall be discarded overboard; of the species specified at (b) above, only whole live fish may be returned to the water;

ii. No carcasses of any flatfish or species listed at (b) above shall be mutilated to the extent that its length or species cannot be determined;

iii. All fish carcasses of species specified at (b) above shall be retained until such time as the vessel has docked and been secured at the end of the fishing trip adequate to provide a law enforcement officer access to inspect the vessel and catch;

iv. No fillet of any flounder shall be less than seven inches in length during the period of May 1 through October 31 or less than five inches in length during the period of November 1 through April 30;

v. No fillet or part of any species listed below shall have the skin removed and no fillet shall be less than the minimum length in inches specified below.

Species	Minimum fillet or part length
Atlantic Cod	13 inches
Cobia	26 inches
Haddock	13 inches
King Mackerel	16 inches
Pollock	13 inches
Red Drum	13 inches
Spanish Mackerel	10 inches

<u>Species</u>	<u>Minimum fillet or part length</u>
Tautog	7 inches
Weakfish	9 inches

vi. Fish carcasses from the previous trip shall be disposed of prior to commencing fishing on a subsequent trip;

vii. Violation of any of the provisions of the Special Fillet Permit shall subject the violator to the penalties established pursuant to N.J.S.A. 23:2B-14 and shall result in a suspension or revocation, applicable to both the vessel and the owner, of the Special Fillet Permit according to the following schedule;

(1) First offense: 30 days suspension;

(2) Second offense: 90 days suspension; and

(3) Third offense: Revocation of permit, rendering the vessel and the owner not eligible for permit renewal regardless of vessel ownership.

viii. Upon receipt of the notice of suspension but prior to the suspension or revocation of the Special Fillet Permit, the permittee has 20 days to request a hearing from the Department. The hearing shall be conducted pursuant to the Administrative Procedure Act, N.J.S.A. 52:14B-1 et seq. and 52:14F-1 et seq., and the Uniform Administrative Procedure Rules, N.J.A.C. 1.1. If a request for a hearing is not received by the Department within 20 days of the permittee's receipt of the notice of suspension, the permit suspension or revocation will be effective on the date indicated in such notice.

(g) Any person violating the provisions of (a), (b), (c), (d) or (e) above shall be liable to a penalty of \$20.00 for each fish taken or possessed. Each fish taken or possessed shall constitute an additional separate and distinct offense.

(h) A person shall not take, attempt to take or have in his or her possession any striped bass or striped bass hybrids, as defined in (i) below, while on or angling in the waters of the State of New Jersey within the Delaware River or its tributaries from the Trenton Falls to and including the Salem River and its tributaries from April 1 through May 31 of each year, or from any waters of the State, except the Atlantic Ocean, from January 1 through February 28 of each year as set forth in N.J.S.A. 23:5-45.2.

(i) Except for products of commercial aquaculture, no person shall take from the marine waters in this State or have in his or her possession while on or angling in the marine waters of this State any striped bass hybrids, being hybrids of the *Morone* genus, less than the striped bass minimum size limits established pursuant to N.J.S.A. 23:5-45.1.

1. For purposes of this section, commercial aquaculture shall mean the culture or husbandry of striped bass

hybrids in non-wild systems for the purpose of egg and larval production and/or of increasing size.

2. For purposes of this section, parents of striped bass hybrids shall include *Morone saxatilis* (striped bass), *M. chrysops* (white bass), *M. americana* (white perch), and *M. mississippiensis* (Yellow bass).

(j) Except for striped bass hybrids that are the products of commercial aquaculture, a person shall not possess more than the possession limit established pursuant to N.J.S.A. 23:5-45.1, whether striped bass or striped bass hybrid, while on or angling in the marine waters of this State.

(k) A person shall not remove the head, tail or skin from any striped bass hybrid except immediately prior to preparation or serving as food.

(l) All hybrid striped bass which are the products of commercial aquaculture shall be accompanied by accurate and dated documentation of quantity, original description and destination.

(m) Any person violating the provisions of (h) through (l) above shall be liable for a penalty of \$100.00 for each fish taken or possessed. Each fish taken or possessed shall constitute a separate and distinct offense.

(n) The Commissioner, with the approval of the New Jersey Marine Fisheries Council, may modify the fishing seasons, minimum size limits and possession limits specified in this section by notice in order to maintain and/or to come into compliance with any fishery management plan approved by the Atlantic States Marine Fisheries Commission pursuant to 16 U.S.C. § 5104(b). The Department shall publish notice of any such modification in the New Jersey Fish and Wildlife Digest and the New Jersey Register, and shall submit a news release to individuals on the Division of Fish, Game and Wildlife outdoor writers' mailing list.

(o) All persons aboard any fishing vessel subject to this rule shall immediately comply with instructions and signals issued by a conservation officer, a marine police officer or other law enforcement officer to facilitate safe boarding and inspection of the vessel, its gear, equipment, and catch for the purpose of enforcement of this rule.

(p) Pursuant to N.J.S.A. 23:10-21 and 21.1, any gear used in the violating of the provisions of this subchapter may be seized and forfeited to the Division of Fish, Game and Wildlife.

Amended by R.1990 d.607, effective December 3, 1990.

See: 22 N.J.R. 3078(a), 22 N.J.R. 3628(b).

Added new (e) through (h), redesignated existing (e) as (i).

Amended by R.1991 d.132, effective March 18, 1991.

See: 23 N.J.R. 37(a), 23 N.J.R. 848(b).

Size limit for marine fish changed in (a). Added (f), (g), (h), (i) and (j).

Amended by R.1991 d.348, effective July 1, 1991.

See: 23 N.J.R. 43(a), 23 N.J.R. 2011(a).

Deleted “, winter flounder measuring less than six inches in length, or measuring less than 13 inches in length” with stylistic changes in (a). Added “, winter flounder under 10 inches in length, or red drum under 14 inches in length” with stylistic changes in (b). Added (d). Redesignated (d) as (e); added reference to “(d)”. Redesignated (e)-(n) as (f)-(o).

Amended by R.1992 d.143, effective March 16, 1992.

See: 24 N.J.R. 4(c), 24 N.J.R. 1113(a).

Added requirements for weakfish management.

Petition for Rulemaking: Request for reduction of size limit; denied.

See: 24 N.J.R. 2957(a).

Public Notice: Announcement of fish checking stations for the Striped Bass Trophy Program.

See: 24 N.J.R. 3767(c).

Amended by R.1992 d.476, effective December 7, 1992.

See: 24 N.J.R. 1456(a), 24 N.J.R. 4368(b).

New (e) and (f) added prohibiting the filleting of any flatfish at sea in order to prevent circumvention of size limits on fluke and winter flounder; recodification of existing (e)-(o) as (g)-(q).

Amended by R.1993 d.56, effective January 19, 1993.

See: 24 N.J.R. 4249(a), 25 N.J.R. 303(a).

(c) repealed and replaced in accordance with the Summer Flounder Fishery Management Plan developed by the Mid-Atlantic Fishery Management Council and Atlantic States Marine Fisheries Commission. Amended by R.1993 d.77, effective February 16, 1993.

See: 24 N.J.R. 205(a), 25 N.J.R. 689(a).

Added Atlantic Sturgeon under 60 inches in height.

Administrative Correction.

See: 25 N.J.R. 4495(a).

Amended by R.1994 d.44, effective January 18, 1994.

See: 25 N.J.R. 2167(a), 26 N.J.R. 353(a).

Emergency Amendment, R.1994 d.230, effective April 13, 1994 (to expire June 12, 1994).

See: 26 N.J.R. 1885(a).

Amended by R.1994 d.248, effective May 16, 1994.

See: 26 N.J.R. 291(a), 26 N.J.R. 2021(b).

Adopted Concurrent Proposal, R.1994 d.339, effective June 10, 1994.

See: 26 N.J.R. 1885(a), 26 N.J.R. 2792(a).

Provisions of emergency amendment R.1994 d.230 readopted, with a change effective July 5, 1994.

Amended by R.1994 d.615, effective December 19, 1994.

See: 26 N.J.R. 1931(a), 26 N.J.R. 5011(a).

Amended by R.1995 d.82, effective February 6, 1995.

See: 26 N.J.R. 4277(b), 27 N.J.R. 487(a).

Administrative Change.

See: 27 N.J.R. 1793(a).

Amended by R.1996 d.587, effective December 16, 1996 (operative January 1, 1997).

See: 28 N.J.R. 3998(a), 28 N.J.R. 5231(a).

Changed section name from “Size and possession limits”; added species and changed size and possession limits throughout; in (a) and (b), inserted provisions relating to presumed possession; and in (c), inserted reference to bait nets.

Administrative change.

See: 29 N.J.R. 2278(a).

In (b), increased minimum size of Summer Flounder and Tautog; and in (c), increased possession limit size of Summer Flounder.

## 7:25-18.2 Pound nets

(a) The following words and terms shall have the following meanings unless the context clearly indicates otherwise.

“Department” means the New Jersey Department of Environmental Protection.

“Heart” means an upright fence of netting forming a heart-shaped (round or square) compartment located between the leader and the pocket. It is designed to cause fish to circle in front of and eventually enter the pocket of a pound net.

“Leader” means an upright fence of netting that acts as a barrier to fish and guides them toward a trap; the netting is made of heavy twine, not designed to catch fish by the gills.

“Navigable channel” means a channel marked with navigational markers including poles, piling or buoys, by the Coast Guard or the State.

“Pocket” means an upright fence of netting forming the final compartment of a pound net in which trapped fish accumulate.

“Pound net” means a large fish trap, consisting of a leader, pocket and one or more hearts, held in place with poles, the netting of which reaches from the bottom to above the surface of the water.

“Staked or anchored gill net” means an upright fence of monofilament or nylon netting, held in place at each end by stakes or anchors, that catches fish by snagging their gill covers as they try to pass through the mesh of the net.

“Submarine pound net” means a pound net that is totally submerged beneath the water and held in place by anchors.

(b) General requirements for all pound net users are as follows:

1. No person may install, operate or maintain a pound net in the marine waters of the State without having first obtained a license from the Department.

2. The Department may establish limits on the number of licenses to be issued for pound nets in Raritan Bay and Sandy Hook Bay and in the Atlantic Ocean within three nautical miles of the coastline.

3. Licenses must be renewed annually.

4. Holders of pound net licenses from the previous year shall have first priority in obtaining a new license, provided they apply before March 1 of the current year.

5. Any person operating any fish pound net in the marine waters of New Jersey, must, at the time of emptying the net, return to the waters wherein the net is located all species less than the minimum size limits specified pursuant to N.J.A.C. 7:25-18.1.

6. No person may, by boat, anchor, dredge or otherwise, willfully and without reasonable cause, interfere with, break, damage or destroy any fish net or associated equipment being lawfully used by a license holder.

7. The Department may require any licensee to submit a money surety bond to insure removal of pound net poles and apparatus as required by these rules.

8. Violation of the rules in this section will subject the violator to money penalties, loss of license and/or injunctive relief under N.J.S.A. 23:2B-14.

(c) Specific requirements for pound net users in Raritan, Sandy Hook and Delaware Bays are as follows:

1. Any person applying for a pound net license must indicate the specific proposed site for the net, as designated by a chart developed by the Department. Sites which have not previously been located on the approved chart must be approved by the Department prior to issuance of a license.

2. New pound net sites must be at least 3,000 feet from a previously located pound net site, when measured parallel to the shoreline, and must be at least 1,000 feet from any navigable channel.

3. Any pound net license holder has priority in retaining a pound net site previously licensed by him or her, provided that he or she has actively and lawfully fished that site during the previous year and has submitted a license application prior to March 1 of the current year. After March 1, any citizen may apply for any available site on a first-come basis.

4. No staked or anchored shad net may be placed within 3,000 feet of an operating pound net. However, shad nets may be set on licensed pound net sites by the license holder or on unoccupied, approved pound net sites, provided the shad nets are set end-to-end with and in line with any existing pound nets.

5. Pound nets must be placed end-to-end so as to form a straight line, perpendicular to the shoreline.

6. The maximum allowable length of a pound net, including leader and hearts, is 750 feet.

7. A minimum distance of 50 feet must be maintained between any two pound nets, shad nets or combination thereof, when measured perpendicular to the shoreline.

8. A pound net license holder must maintain a nameplate, on the offshore pole of the net not less than six inches square, on which shall be legibly marked the identification number of the pound, as assigned by the Department.

9. A flashing, amber light must be displayed between sunset and sunrise on each of the two end poles of a pound net or a continuous row of pound nets. These lights must be placed at least 10 feet above the mean high water level and must be of sufficient brightness to be visible for at least three miles in all directions (360 degrees) at such times and under such weather conditions as would allow visibility of 10 miles.

10. Within 30 days of the termination of fishing activities for that year, all poles and stakes must be removed by the pound net license holder.

11. The pound net license holder will be responsible for the cost of pole and/or stake removal where the Department accepts responsibility for such removal, due to the licensee's failure to comply with 10 above.

(d) Specific requirements for pound net users in the Atlantic Ocean are as follows:

1. When submitting a request for an ocean or submarine pound net license, the applicant must specify the specific proposed site-location for placement of each net. Upon site approval, the Department may issue the license. (Note: Permission for location of ocean pound nets is also required from the United States Army Corps of Engineers.)

2. No portion of a pound net may be set within 1,500 feet or greater than 7,000 feet from the mean low water line on the ocean shoreline.

3. No row of pound nets may be erected or operated within one and one-half miles of any other row of pound nets, when measured parallel with the coastline.

4. No more than two pound nets may be joined together.

5. A minimum distance of 1,000 feet, when measured perpendicular to the coastline, must be maintained between individual or paired pound nets set in a row.

6. A row of ocean or submarine pound nets must form a straight line with the nets placed end-to-end.

7. The maximum allowable length of an ocean or submarine pound net, including leader and pocket, is 1,100 feet.

8. The minimum mesh size for ocean or submarine pound nets is two inches, stretched.

9. Ocean pound nets shall be maintained in compliance with the following additional requirements:

i. White reflectors must be placed around the top of each pole so as to reflect in all directions;

ii. Flashing amber lights must be displayed on the inshore and offshore poles of nets or rows of nets, between sunset and sunrise; these lights must be placed at least 10 feet above the mean high water level and must be of sufficient brightness to be visible for at least three miles in all directions (360 degrees) at such times and under such weather conditions as would allow visibility of 10 miles.

10. Submarine pound nets shall be maintained in compliance with the following additional requirements:

i. At least eight fluorescent orange floats, at least 12 inches in diameter, shall be maintained along the length of each net, including the inshore and offshore ends.

ii. The pound net license holder shall maintain a nameplate, not less than 12 inches square, on which shall be legibly marked the identification number of the pound, as assigned by the Department.

11. The license holder must completely remove all pound net poles and stakes, within ten months of the termination of fishing activities.

12. The pound net license holder will be responsible for the cost of pole and/or stake removal, where the Department accepts responsibility for such removal, due to the licensee's failure to comply with 11 above.

Amended by R.1984 d.439, effective October 1, 1984.

See: 16 N.J.R. 1866(a), 16 N.J.R. 2543(b).

Amended by R.1991 d.132, effective March 18, 1991.

See: 23 N.J.R. 37(a), 23 N.J.R. 848(b).

Lighting requirements affecting pound nets increased on (c)9 and (d)9ii.

Amended by R.1994 d.248, effective May 16, 1994.

See: 26 N.J.R. 291(a), 26 N.J.R. 2021(b).

### 7:25-18.3 Net identification tags

(a) Any identification tag furnished by the Division for a licensed net shall be displayed in a prominent and easily accessible place on such net.

(b) No identification tag furnished by the division may be counterfeited or transferred.

### 7:25-18.4 Spearfishing

It shall be lawful to take, catch, or kill all species of fish by means of spearfishing, during the respective open season, except for those species of fish specifically protected. For the purpose of this rule, spearfishing shall mean the taking of fish by means of a spear, harpoon, or other missile, or by hand, while completely submerged in the marine waters of the State.

Amended by R.1985 d.609, effective January 7, 1985.

See: 16 N.J.R. 2478(a), 17 N.J.R. 79(a).

Amended by R.1995 d.82, effective February 6, 1995.

See: 26 N.J.R. 4277(b), 27 N.J.R. 487(a).

### 7:25-18.5 General net regulations

(a) No person shall take, catch, kill or attempt to take, catch or kill any fish within the marine waters of the State by any means except in the manner commonly known as angling with hand line or with rod and line unless specifically permitted by statute or regulation.

(b) All stakes used in fyke nets, pound nets, parallel nets or gill nets shall be marked with at least one of the following which shall be placed at least two feet above mean high water and be visible from all sides:

1. Reflectors of not less than two inches in diameter;
2. Reflecting tape not less than two inches in width;
3. Light colored flags not less than two square feet; or
4. Light colored jugs or buoys not less than 12 inches in diameter.

(c) It shall be illegal to catch fish or attempt to catch fish by means of a rod and line or hand line, commonly called angling, within 300 feet of a set (operating) fish net as licensed pursuant to this section.

(d) It shall be illegal to set a fish net as licensed pursuant to this section within 300 feet of any person actively fishing with a rod and line or hand line, commonly called angling.

(e) All nets licensed pursuant to this section must be legibly and indelibly marked with the gear identification number of the owner.

(f) No person shall set, tend, tamper with or damage in any way or remove fish or other organisms from any net requiring a license without having in his possession the numbered license issued to said person which corresponds to the gear identification number marked on such net.

(g) Individuals intending to take fish with a net in the marine waters of this State pursuant to N.J.S.A. 23:5-24.2 shall, as required, apply to the Commissioner for a license and/or permit. To be eligible to purchase a 1992 license for a drifting, staked or anchored gill net the applicant shall have purchased a gill net license during 1990, 1991 or a 1992 license prior to May 1, 1992 or provide documented proof of active military service within one year of application. An applicant who does not meet the above requirements must file an application, in person, with the Department in each of two consecutive years. Such an applicant shall be eligible for gill net licenses in the following calendar year. Beginning in the license year (January 1-December 31) 1993, an applicant for a gill net license must have possessed a gill net license in one of the two previous years. Failure to purchase a gill net license in one of the prior two years shall subject the applicant to the two year waiting period described above. Availability of Delaware Bay Gill Net Permits shall be determined pursuant to N.J.A.C. 7:25-18.6 through 18.11. Upon receipt of the application, and the prescribed license fee, the Commissioner may, in his or her discretion, issue single season licenses and/or permits as specified for each net type for the taking of fish with nets only as follows:

1. Haul seines shall have a mesh not smaller than 2.75 inches stretched and shall not exceed 70 fathoms in length, whether used singly or in series. Haul seines may be used for all species except those specifically protected.

i. The haul seine season shall begin on November 1 and end on April 30;

ii. A person shall not use or attempt to use a haul seine for any species in Lake Takanassee, Spring Lake, Wreck Pond and Deal Lake;

iii. The haul seine resident fee shall be \$25.00 per net.

2. Fykes shall have a length, including leaders, which shall not exceed 30 fathoms and no part of the net or leaders shall be constructed of monofilament or have a mesh larger than five inches stretched or smaller than three eighth inches stretched (inside measurement). Fyke nets may be used for all species except those specifically protected.

i. The fyke season shall begin on November 1 and end on April 30;

ii. A person shall not use or attempt to use a fyke net for any species in Lake Takanassee, Spring Lake, Wreck Pond and Deal Lake, or in the area commonly known as Collins Cove off the Mullica River between a line starting at aid to navigation channel marker flashing red number 8 (latitude 39°33.36'N, longitude 74°28.39'W), bearing approximately 229°T to a point on the western shore of Collins Cove at latitude 39°33.09'N, longitude 74°28.72'W and the Garden State Parkway where it crosses the Mullica River;

iii. No fyke net nor any part of a fyke net shall be set in the middle one third of any river, stream or tributary.

iv. All stakes used for the setting of fyke nets must be removed within 30 days of the close of the season;

v. Submerged anchored fyke nets shall be marked at each end with a fluorescent orange float at least 12 inches in diameter or a fluorescent orange flag at least 12 inches by 12 inches and suspended at least three feet above the water, measured from the surface of the water to the bottom of the flag. No less than 24 square inches of any reflective material shall be attached and maintained on each marker.

vi. Winter flounder may be taken by fyke net during the season of November 1 through February 19. Any winter flounder taken by fyke net from February 20 through April 30 shall not be retained and must be immediately returned to the water.

vii. A person shall not possess, purchase, sell, offer for sale or expose for sale any winter flounder less than 12 inches in length taken by fyke nets during the open season specified in (g)2v above.

viii. The Commissioner, with the approval of the New Jersey Marine Fisheries Council, may modify the fishing seasons and minimum size limits for winter flounder specified at (g)2v and vi above by notice in order to maintain and/or to come into compliance with any fishery management plan approved by the Atlantic States Marine Fisheries Commission pursuant to 16 U.S.C. § 5104(b). The Department shall publish notice of any such modification in the Division's commercial regulation publication and the New Jersey Register.

ix. The fyke resident fee shall be \$12.00 per net. Each licensee shall notify the Department in their license application of the specific estuary in which they intend to fish the fyke net(s). Licensees shall notify the Department as to any change in the specific estuary within which the fyke net is located no later than seven days following the change in estuary. Such notice shall be in writing to:

Division of Fish, Game and Wildlife  
Marine Fisheries Administration  
CN 400  
Trenton, New Jersey 08625.

3. Miniature fykes or pots shall only be used for the taking of catfish, suckers, killifish (Cyprinodontidae) and eels. The mesh of this net type shall be no smaller than three sixteenth inches bar, inside measurement. This net type shall not have leaders or wings and shall not exceed 16 inches in diameter if cylindrical or 201 square inches in cross section if any other configuration in any of the marine waters of this State.

i. The miniature fyke or pot season shall begin on January 1 and end on December 31;

ii. The miniature fyke or pot resident fee shall be \$100.00 regardless of the number of miniature fykes or pots employed;

iii. One or two miniature fykes or pots may be used for the taking of killifish or eels only for bait without application for or granting of a license, provided, however, that killifish or eels taken without having a valid license in possession may not be sold or used for barter.

4. The bait net season shall begin on January 1 and shall end on December 31. Except as provided in N.J.S.A. 23:5-24.2, bait net resident fees shall be \$10.00 per license.

i. Bait nets shall be limited to one or more of the following types:

(1) Hand held dip nets 24 inches in diameter or less;

(2) Bait seines not exceeding 150 feet and mesh not less than three eighths inches stretched, inside measurements, and not more than 2.5 inches stretched;

(3) Cast nets not exceeding 30 feet in diameter;

(4) Lift or umbrella nets not exceeding four feet square; and

(5) Killipots with mesh not less than three sixteenth inches bar, inside measurements, and not exceeding 10 inches in diameter or 25 inches in length if cylindrical or 2,000 cubic inches for any other conformation for the taking of killifish (Cyprinodontidae spp.) only;

ii. No person shall harvest or attempt to harvest fish by any means from the Deal Lake flume, the Lake Takanassee spillway or Wreck Pond spillway on Monday, Wednesday, and Friday, during the months of April and May in any year.

iii. No person shall take more than 35 alewife or blueback herring in the aggregate per day with any dip net, cast net, lift or umbrella net or bait seine; and

iv. The simultaneous possession of greater than 35 alewife or blueback herring in the aggregate and any dip net, cast net, lift or umbrella net or bait seine shall constitute prima facie evidence of the violation of this rule.

5. Drifting gill nets shall be used only in the Atlantic Ocean, Delaware Bay, and the tributaries of Delaware Bay. The smallest mesh of any drifting gill net shall be not less than five inches stretched beginning February 12 through February 29. From March 1 through December 15 the smallest mesh of any drifting gill net shall be not less than 3.25 inches stretched except in the tributaries of Delaware Bay and in Delaware Bay and the Atlantic Ocean within two nautical miles of the mean high water line where the smallest mesh shall be not less than 2.75 inches stretched and subject to the permitting and reporting requirements specified in (g)5vii below and in N.J.A.C. 7:25-18.12. These nets shall not individually exceed 200 fathoms in length. Individual drifting gill nets shall not be fastened together to form a series of nets exceeding 400 fathoms in length beginning February 12 through May 15 or exceeding 200 fathoms in length beginning May 16 through December 15. Drifting gill nets may be used for all species except those specifically protected.

i. Separate drifting gill nets or a series of joined drifting gill nets shall not be set or fished closer than 100 fathoms from any other net or series of nets;

ii. Separate drifting gill nets or a series of joined drifting gill nets shall be marked at each end with a fluorescent orange float at least 12 inches in diameter or a fluorescent orange flag at least 12 inches by 12 inches and suspended at least three feet above the water, measured from the surface of the water to the bottom of the flag. No less than 24 square inches of any reflective material shall be attached and maintained on each end marker. A white float measuring at least eight inches in diameter shall be located approximately 20 feet inside of each end marker;

iii. Drifting gill nets shall be used in the Atlantic Ocean only from February 12 through December 15. Drifting gill nets shall not be used in the Atlantic Ocean within 100 fathoms of the marked channel of any inlet. Drifting gill nets between 2.75 inches stretched mesh and 3.25 inches stretched mesh shall be subject to the permitting and reporting requirements specified in (g)5vii below, and

(1) Shall only be fished within two miles of the MHWL;

(2) Shall only be fished between the hours of sunrise and sunset;

(3) Shall be no higher than eight feet (off the bottom) while fishing; and

(4) A maximum of 200 fathoms per licensed fisherman shall be in the water at any one time;

iv. Drifting gill nets shall be used in the tributaries of Delaware Bay only for the season extending from February 12 through May 15 and July 15 through December 15;

v. Drifting gill nets shall be used in Delaware Bay only from February 12 through December 15, subject to the additional conditions specified in N.J.A.C. 7:25-18.12. For the purpose of this section, that portion of Delaware Bay defined by the New Jersey-Delaware boundary on the west, Loran C27180 on the east, and Loran C42830 on the north, during the period from May 15 through June 15, shall be known as the Brandywine Shoal Restricted Area.

(1) No more than two drifting gill nets shall be permitted to be set or operated within the Brandywine Shoal Restricted Area by any vessel.

(2) No more than one drifting gill net shall be permitted to be set or operated, nor shall any net be left unattended, within the Brandywine Shoal Restricted Area by any vessel at night (from sunset to sunrise) or on any public holiday as specified at N.J.S.A. 36:1-1 or weekend. For the purpose of this section, "unattended" means that set of circumstances where the operator is more than 100 feet from the nearest portion of his net.

vi. The drifting gill net resident fee shall be \$20.00 per net.

vii. Individuals utilizing drifting, staked or anchored gill nets less than 3.25 inches stretched mesh in the Atlantic Ocean or in the Delaware Bay after February 29 in any calendar year shall possess a Gill Net Mesh Exemption Permit.

(1) An individual shall apply annually for the permit.

(2) All permittees shall submit monthly reports of their catch and effort and other information as may be determined by the Department on forms provided by the Department. These reports shall be filed with the Division of Fish, Game and Wildlife no later than 10 calendar days after each monthly reporting period. If no fishing activity was conducted under this permit during the month, a report to that effect shall be provided. Gill Net Mesh Exemption permittees shall be personally responsible for guaranteeing the timely delivery of reports to the Division as well as the accuracy of all information contained therein. The Department may demand that a permittee provide proof of the truth of any data contained in any report submitted to the Division under this program. If the permittee fails to file a true, complete monthly report with the Division by the 15th day of any month, the Division, in its discretion, may contact the permittee by the most expeditious method available in order to secure a complete report.

(3) If the Division is unable to secure a true, complete monthly report from the permittee by such informal means or the Division has credible evidence that the data on any report is false, the Division shall notify the permittee in writing of the Division's intention to revoke the permittee's Mesh Exemption privilege for the reasons stipulated in the notice, effective 20 business days after the date on the written notice (excluding the date on the notice) and of the Division's suspension of the permittee's Mesh Exemption privileges in the interim, effective on a date stipulated in the notice but no sooner than 10 business days after the date of the notice (excluding the date on the notice).

(4) The permittee may request a hearing to contest a proposed revocation of Mesh Exemption privileges in accordance with the Administrative Procedure Act, N.J.S.A. 52:14B-1 et seq., and the Uniform Administrative Procedure Rules, N.J.A.C. 1:1. The request for an administrative hearing must be received in writing by the Department within 20 business days from the date on the Division's notice of suspension and intention to revoke, excluding the date on the notice. However, if a timely request for a hearing is not received by the Department, any allegation contained in the notice shall be deemed admitted by the permittee and Mesh Exemption privileges shall be revoked as of the date stipulated in the notice, without any further action by the Division.

(5) The Division Director may, in his or her sole discretion, stay the suspension of Mesh Exemption privileges pending a hearing on the notice of proposed revocation of Mesh Exemption privileges for any good cause set forth in a written petition from the permittee, including sworn statements from the permittee or other persons with knowledge relevant to the allegations on which the Division action is based. The petition and its supporting statements and documentation shall be made available to the court and all parties in advance of any hearing.

(6) The Division shall reinstate Mesh Exemption privileges suspended for late or incomplete reports, but no more than three times per permittee in any single permit year, if that permittee personally delivers any missing reports, completed, along with a credible written explanation for the delay and/or omissions to the Division within 20 business days from the date on the notice of suspension.

(7) Any permittee who has had a Mesh Exemption privilege revoked shall be disqualified from exercising any privilege associated with a Mesh Exemption permit for 24 months following:

(A) The effective date of an uncontested notice of proposed revocation of privileges;

(B) The date of the Commissioner's Final Decision affirming revocation of Mesh Exemption privileges; or

(C) The filing date of the court order affirming the Commissioner's Final Decision revoking Mesh Exemption privileges, whichever is applicable.

(8) The Division shall issue a Mesh Exemption permit to an applicant pending resolution of a contested Division proposal to revoke that applicant's Mesh Exemption privilege, but that permittee shall not exercise or enjoy any Mesh Exemption privilege if the Division has already suspended that permittee's Mesh Exemption privilege pending resolution of a proposed revocation until:

(A) The Division Director lifts the suspension of that permittee's Mesh Exemption privileges;

(B) The Commissioner issues a Final Decision reinstating that permittee's Mesh Exemption privileges; or

(C) A court of competent jurisdiction orders reinstatement of that permittee's Mesh Exemption privileges, as the case may be.

6. Staked and anchored gill nets shall be used only in the Atlantic Ocean, Raritan Bay, Sandy Hook Bay, and the Delaware Bay and its tributaries. Staked or anchored gill nets shall not be fastened together to form a series of net exceeding 400 fathoms in length from the beginning of the season through May 15 or exceeding 200 fathoms in length beginning May 16 through December 15, subject to the additional conditions specified in N.J.A.C. 7:25-18.12.

i. Separate staked or anchored gill nets or a series of joined staked or anchored gill nets shall not be set closer than 20 fathoms from any other net or series of nets;

ii. Separate staked or anchored gill nets or a series of joined staked or anchored gill nets shall be marked at each end with a fluorescent orange float at least 12 inches in diameter or a fluorescent orange flag at least 12 inches by 12 inches and suspended at least three feet above the water, measured from the surface of the water to the bottom of the flag. No less than 24 square inches of any reflective material shall be attached and maintained on each marker. A white float measuring at least eight inches in diameter shall be located approximately 20 feet inside of each end marker;

iii. Staked and anchored gill nets may be used in the Atlantic Ocean for any species except those specifically protected only beginning February 12 through December 15, where individual gill net length shall not exceed 50 fathoms. The smallest mesh of any such net used in the Atlantic Ocean shall not be less than five inches stretched beginning February 12 through February 29 and not less than 3.25 inches stretched beginning March 1 through December 15. Staked or anchored gill nets shall not be used in the Atlantic Ocean within 100 fathoms of the marked channel of any inlet;

iv. Staked and anchored gill nets shall be used only for shad in the Raritan Bay or Sandy Hook Bay and only beginning February 1 through May 15, where individual gill net length shall not exceed 30 fathoms. The smallest mesh of any such net used in Raritan Bay or Sandy Hook Bay shall not be less than five inches stretched;

v. Staked gill nets may be used in the tributaries of Delaware Bay for any species except those specifically protected only beginning January 1 through May 15 and July 15 through December 15, where individual gill net length shall not exceed 30 fathoms. The mesh of any such net used in the tributaries of Delaware Bay shall not be less than 2.75 inches stretched nor greater than 3.25 inches stretched beginning January 1 through February 29 and no mechanical means shall be utilized to retrieve such net. The mesh of any net shall not be less than 2.75 inches from March 1 through May 15 and July 15 through December 15. No net shall be set across the middle one third of any tributary or the mouth of any tributary, nor shall any net be set in a manner that impedes navigation;

vi. Staked gill nets may be used in Delaware Bay only from February 1 through December 15, except as further defined by statute and/or rule. Individual staked gill net length shall not exceed 30 fathoms. The mesh of any such net used in Delaware Bay shall be 2.75 inches stretched beginning February 1 through February 29 except that staked gill nets of a mesh not less than 2.75 inches stretched or greater than 3.25 inches stretched may be used within one half nautical mile of the MHWL from January 1 through February 29 provided no mechanical means are utilized to retrieve such nets. From March 1 through December 15 the smallest mesh of any staked gill net shall not be less than 3.25 inches stretched except within two nautical miles of the mean high water line where the smallest mesh shall not be less than 2.75 inches stretched and subject to the permitting and reporting requirements specified in (g)5vii above and N.J.A.C. 7:25-18.12. Staked gill nets shall not be used in that portion of Delaware Bay known as the Brandywine Shoal Restricted Area as defined in (g)5v above;

vii. The use of anchored gill nets is permitted in the tributaries of Delaware Bay for any species, except those specifically protected, only beginning January 1 through May 15 and July 15 through December 15, where individual gill net length shall not exceed 30 fathoms. The mesh of any such net used in the tributaries of Delaware Bay shall not be less than 2.75 inches stretched nor greater than 3.25 inches stretched beginning January 1 through February 29 and no mechanical means shall be utilized to retrieve such net. The mesh of any net shall not be less than 2.75 inches from March 1 through May 15 and July 15 through December 15. No net shall be set across the middle one third of any tributary or mouth of any tributary, nor shall any net be set in a manner that impedes navigation;

viii. The use of anchored gill nets is permitted in the Delaware Bay only from February 1 through December 15, except as further defined by statute and/or rule. Individual anchored gill net length shall not exceed 30 fathoms. The smallest mesh of any such net used in the Delaware Bay shall not be less than five inches stretched beginning February 1 through February 29 except that anchored gill nets of a mesh not less than 2.75 inches stretched or greater than 3.25 inches stretched may be used within one half mile of the mean high water line from January 1 through February 29 provided no mechanical means are utilized to retrieve such nets. From March 1 through December 15 the smallest mesh of any anchored gill net shall not be less than 3.25 inches stretched except within two nautical miles of the mean high water line where the smallest mesh shall not be less than 2.75 inches stretched and subject to the additional conditions specified in N.J.A.C. 7:25-18.12. Anchored gill nets shall not be used in that portion of the Delaware Bay known as the Brandywine Shoal Restricted Area as defined in (g)5v above;

ix. The staked and anchored gill net resident fee shall be \$3.00 per net.

7. Pound nets shall have a mesh not smaller than two inches stretched and may be used for all species except those specifically protected. These nets shall be used only in Raritan Bay, Sandy Hook Bay, Delaware Bay and the Atlantic Ocean.

i. The pound net season shall begin on February 15 and end on May 15 in the Delaware Bay and begin on January 1 and end on December 31 in all other areas;

ii. The pound net resident fee shall be \$100.00 per net.

8. Wire pound nets shall not extend into the Delaware Bay further than 300 feet from the mean low water mark nor 300 feet from the outside of the flats which fall bare at low water and may be set and used in the Delaware Bay only.

i. The wire pound net season shall begin on March 1 and end on December 31.

ii. The wire pound net resident fee shall be \$25.00 per net.

9. Parallel net which may be used for all species except those specifically protected shall be used only in the Delaware Bay and its tributaries. Parallel nets shall have a mesh not smaller than 3.5 inches stretched and not exceed 100 fathoms in length. They shall be set approximately parallel to the shore and only at the low water mark. No net shall be set across any tributary or mouth of any tributary, nor shall any net be set in a manner that impedes navigation.

i. The parallel net season shall begin on September 1 and end on May 31;

ii. The parallel net resident fee shall be \$10.00 per net.

10. Shrimp trawls shall be used for the taking of grass shrimp (*Palaemonetes* spp.) or sand shrimp (*Crangon* spp.) only. Any organisms other than these shrimp taken with a shrimp trawl shall immediately be returned to the waters from which such organisms were taken. The internal opening of the trawl shall have a maximum width of 60 inches and a maximum height of 12 inches. The mesh of the net shall not be greater than one-half inch stretched. No boat shall have more than two trawls working at the same time, and each trawl shall be independently and separately attached to the vessel by a single cable or tow line.

i. The shrimp trawl season shall begin on April 15 and end on December 15;

ii. The shrimp trawl resident fee shall be \$12.00 per net.

11. Lobster or fish pots may be used for the taking of all species except those specifically protected and shall be used only in the Atlantic Ocean, Delaware Bay, Raritan Bay and Sandy Hook Bay except as provided in (g)11vii below.

i. Any fish or lobster pot license holder shall have priority in retaining the same license number previously issued to him or her provided that he or she has submitted a license application requesting the previously issued license number prior to March 1 of the current year and that the license number applied for was assigned to an active license not more than two years prior to the application;

ii. Effective January 1, 1986, each fishing vessel subject to this regulation must display its license number on the port and starboard sides of the deckhouse or hull and on an appropriate weather deck so as to be visible from above. The license number affixed to each vessel subject to this paragraph must be of block Arabic numerals at least 10 inches in height and of a color contrasting the background;

iii. Effective January 1, 1986, all lobster or fish pots or traps and associated buoys and other gear deployed in the salt waters of this State and not permanently attached to the vessel must be legibly and indelibly marked with one of the following codes of identification:

(1) The State lobster or fish pot gear identification number; or

(2) The full name and address of the State lobster or fish pot license holder.

iv. No person other than the license holder shall remove fish or lobsters from any pot or trap. Anyone tending fish or lobster pots or traps after January 1, 1986, shall have in his or her possession the numbered

license which corresponds to the gear identification number on the vessel and the gear identification number or name and address affixed to the pots and buoys being tended. The license must be displayed for inspection upon request of any authorized officer. No one shall cut or break the lines or otherwise tamper with or damage any pot, trap, or buoy which he or she does not own;

v. Effective March 20, 1995, all lobster and fish pots set north of Barnegat Inlet (LORAN C 9960-Y-43300) must be constructed to include one of the following escape vents in the parlor section of the pot located in such a manner that it would not be blocked or obstructed in normal use by any portion of the pot, associated gear, or the sea floor;

(1) A rectangular portal with an unobstructed opening not less than 1.875 inches (47.6 mm) by 5.75 inches (146.0 mm); or

(2) Two circular portals with unobstructed openings not less than 2.375 inches 60.3 mm in diameter.

vi. All lobster and fish pots utilized in a fishery where the possession of scup on board a vessel or landed from a vessel occurs must be constructed to include one of the following escape vents in the parlor section of the pot located in such a manner that it would not be blocked or obstructed in normal use by any portion of the pot, associated gear, or sea floor:

(1) A rectangular portal with an unobstructed opening not less than 2.25 inches (57.2mm); or

(2) A circular portal with an unobstructed opening not less than 3.1 inches (78.7mm) in diameter.

vii. Effective March 20, 1995, all lobster and fish pots must be constructed to include a ghost panel or other mechanism which is designed to create an opening to allow the escape of lobsters within 12 months after a pot has been abandoned or lost, and which meets the following specifications:

(1) The opening covered by the panel or created by other approved mechanism shall be rectangular and measure at least  $3\frac{3}{4}$  by  $3\frac{3}{4}$  inches, shall be located in the outer parlor section(s) of the pot, and shall be in a position which allows the unobstructed exit of lobsters or fish from the pot;

(2) The panel shall be constructed of, or fastened to the pot with, one of the following materials: wood lath; cotton, hemp, sisal or jute twine not greater than  $\frac{3}{16}$  inch in diameter; or non-stainless, uncoated ferrous metal not greater than  $\frac{3}{32}$  inch in diameter;

(3) The door of the pot may serve as the ghost panel if the door is fastened to the pot with a material specified in (g)11vi(2) above;

(4) The escape vent specified in (g)11v above may serve as a ghost panel if the escape vent is incorporated into a panel constructed of, or attached to the pot with, a material specified in (g)11vi(2) above, and, upon breakdown of the degradable materials, will create an opening of at least  $3\frac{3}{4}$  by  $3\frac{3}{4}$  inches for the exit of lobster or fish; and

(5) Pots constructed entirely or partially of wood shall be considered to be in compliance with this subparagraph if constructed of wood lath to the extent that deterioration of wooden component(s) will result in an unobstructed opening as specified in (g)11vi(1) above.

viii. The use of spears, gigs, gaffs or other penetrating devices as a method of capture of lobsters is prohibited;

ix. A modified lobster or fish pot may be used for the taking of conchs or whelks in all marine waters of the State including the Atlantic Ocean with the exception of the Newark Bay Complex.

(1) Any such conch pot is defined as a rectangular shaped device not larger than 30 inches on any side; or a cylindrical shaped device not greater than 34 inches in diameter and 30 inches in height. Conch pots must allow for an unobstructed opening on their top surface measuring not less than eight by eight inches square or nine inches in diameter. Conch pots cannot contain a parlor, funnel, or other entrapping mechanism in the interior of the pot. Any similar configuration may be approved for use upon application to the Division and receipt of written approval. Such applications must contain a diagram detailing the shape and dimensions of the requested conch pot configuration.

(2) Conch pots may be tended only from 0400 hours (4:00 A.M.) to 2100 hours (9:00 P.M.).

(3) No conch pot shall be placed in a creek, ditch or tributary less than 50 feet wide at mean low water, in any marked or charted channel or in any man-made lagoon;

x. The lobster or fish pot season shall begin on January 1 and end on December 31;

xi. The resident fee for lobster or fish pots shall be \$100.00 regardless of the number of pots employed.

12. Shad nets for the Hudson River shall be held in place by either stakes or anchors and shall not exceed 200 fathoms in length. The smallest mesh of any shad net shall not be less than five inches stretched.

i. Shad nets shall be marked at each end with a fluorescent orange float at least 12 inches in diameter or a fluorescent orange flag at least 12 inches square and suspended at least two feet above the mean high waterline.

ii. Shad nets shall be used in the Hudson River for the taking of shad only.

(h) Nonresident license fees shall be the same as resident fees established in this section if a resident of this State may obtain a license to fish for similar species of fish with similar gear in the nonresident applicant's state for the same fee as a resident of that state. Otherwise, the license fee for a nonresident is 10 times the license fee charged to a resident.

Made changes to mesh sizes throughout; inserted (g)2iii, (g)4ii, and (g)11vi; and recodified from (g)2iii through (g)2viii as (g)2iv through (g)2ix, (g)4ii and (g)4iii as (g)4iii and (g)4iv, and (g)11vi through (g)11x as (g)11vii through (g)11xi.

#### 7:25-18.6 Delaware Bay commercial and non-commercial gill net permit

(a) An individual utilizing a drifting, staked or anchored gill net in that portion of Delaware Bay or its tributaries defined as the area east of the New Jersey-Delaware boundary enclosed by a line from Cape Henlopen, Delaware to Cape May Point Light, New Jersey and the "southwest line" as defined in N.J.S.A. 50:3-11 shall have a commercial or non-commercial gill net permit for each gill net license in their possession. The person shall have the permit on his or her person at all times while fishing in that portion of Delaware Bay or its tributaries defined in this subsection.

(b) For a period of 60 days following June 3, 1991, Delaware Bay commercial and non-commercial gill net permits shall be issued in accordance with N.J.A.C. 7:25-18.5.

(c) No new Delaware Bay commercial or non-commercial gill net permits shall be issued after August 2, 1991 until the combined number of Delaware Bay commercial and non-commercial gill net permits falls below either 800 for staked or anchored gill nets or 200 for drifting gill nets, except as provided in (c)1 below.

1. Individuals returning from active military service after August 2, 1991, who were on active duty during the application period (June 3, 1991 through August 2, 1991) and who meet the requirements in N.J.A.C. 7:25-18.7(a) or (b) below, shall have 60 days from their date of discharge to apply for a permit to cover the number of licenses for which they qualify, upon submission of official documentation indicating duration of military service and date of discharge and a notarized statement from the applicant that said documentation is accurate.

(d) An individual possessing a Delaware Bay Gill Net Permit shall obtain the number of gill net licenses authorized by the Delaware Bay Gill Net Permit in each calendar year. Failure to do so will result in the number of nets authorized by the permit being reduced to the number of net licenses actually obtained in that calendar year beginning in 1994, or in the event no licenses are purchased, invalidation of the permit immediately following the end of that calendar year.

New Rule, R.1991 d.278, effective June 3, 1991.  
See: 22 N.J.R. 1311(a), 23 N.J.R. 1792(a).

**7:25-18.7 Eligibility for Delaware Bay commercial and non-commercial gill net permits during the 60 days following June 3, 1991**

(a) To be eligible for a Type A Delaware Bay commercial gill net permit during the 60-day period following June 3, 1991 allowing the use or possession on the waters of the Delaware Bay or its tributaries of no more than the maximum number of gill nets of the same type for which the applicant held valid New Jersey gill net licenses in any one calendar year during the period of January 1, 1985 through September 6, 1990 but no more than four drifting gill net permits and/or 25 staked or anchored gill net permits, the applicant shall, as part of the applicant's application for a commercial gill net permit:

1. Document that the applicant sold a minimum of 5,000 pounds of fish or 250 bushels of crabs or any combination thereof where one bushel of crabs is equal to 20 pounds of fish in any one year from 1985 through 1990; and

2. Provide a copy of a valid New Jersey gill net license(s) held by the applicant in any one calendar year from January 1, 1985 through September 6, 1990 for each gill net permit requested.

New Rule, R.1995 d.82, effective February 6, 1995.

See: 26 N.J.R. 4277(b), 27 N.J.R. 487(a).

Administrative Correction.

See: 27 N.J.R. 2739(a).

Amended by R.1996 d.587, effective December 16, 1996 (operative January 1, 1997).

See: 28 N.J.R. 3998(a), 28 N.J.R. 5231(a).

Changed section name from "Striped bass trophy program"; and substantially amended section.

#### 7:25-18.14 Otter and beam trawls

(a) All trawl net doors possessed on the waters of the State of New Jersey must contain the official documentation number or the state registration number of the vessel to whom they belong indelibly branded or stamped in block letters no less than two inches in height on the surface of each door.

1. Trawl doors shall be used only by the vessel which corresponds to the branded or stamped numbers. A vessel may utilize another vessel's trawl doors provided the vessel owner utilizing such doors contacts the Division's Bureau of Law Enforcement at 609-748-2050 in advance and provides the following information: name of owner and vessel borrowing doors, name of owner, vessel and branded or stamped number of borrowed doors. The vessel owner borrowing the trawl doors shall also be responsible for contacting the Bureau of Law Enforcement in advance to indicate when he will begin utilizing his own trawl doors.

(b) No vessel may have available for immediate use any otter or beam trawl while on the marine waters of this State during the hours between sunset and sunrise except on the Atlantic Ocean, at a distance of greater than two miles from the coast line. An otter or beam trawl that conforms to one of the following is considered not "available for immediate use":

1. A net stowed below deck, provided:

i. It is located below the main working deck from which the net is deployed and retrieved;

ii. The towing wires, including the "leg" wires are detached from the net; and

iii. It is fan-folded (flaked) and bound around its circumference;

2. A net stowed and lashed down on deck, provided:

i. It is securely fastened to the deck of the vessel;

ii. The towing wires, including the leg wires are detached from the net; and

iii. It is fan-folded (flaked) and bound around its circumference; or

3. A net is on a reel and is covered and secured; provided:

i. The entire surface of the net is covered with canvas or other similar material and held in place by

line bound securely around the entire net in such a manner so that no section of the net is exposed;

ii. The towing wires or towing lines located between the net and the trawl doors shall be completely detached from the trawl doors; and

iii. The cod end closure rope shall be removed from the cod end.

(c) To determine compliance with any established minimum mesh requirement for an otter or beam trawl, the following procedures shall be employed. Stretched mesh sizes are measured by a wedge-shaped gauge having a taper of two centimeters in eight centimeters and a thickness of two and three-tenths millimeters, inserted into the meshes under pressure or pull of five kilograms. The mesh size of the cod end of the net will be the average measurement of any series of 20 consecutive meshes measured at least 10 meshes from the lacings, beginning at the after end and running parallel to the long axis.

(d) No person shall use any device or method which would have the effect of reducing an established minimum mesh size; provided, however, that chafing gear which does not obstruct the meshes of the top half of the cod end may be attached and net strengtheners may be attached to the cod end of the trawl net if such net strengtheners consist of mesh material similar to the material of the cod end and have a mesh size of at least twice the authorized minimum mesh size.

(e) A vessel or person utilizing a roller rig trawl gear shall not utilize rollers greater than 18 inches in diameter.

(f) The operator of, or any other person aboard, any fishing vessel shall immediately comply with instructions and signals issued by an authorized law enforcement officer and comply with instructions to facilitate safe boarding and inspection of the vessel, its gear, equipment, and catch, for the purpose of enforcement of this section.

(g) Any vessel in the act of fishing, upon being boarded and instructed by an authorized law enforcement officer, shall haul back, or retrieve from the waters for inspection, all gear being utilized. After being so instructed, the operator of the vessel, or any other person so instructed, shall have a 30 minute time period to commence haul back and shall continue haul back or retrieval at an ordinary rate and without interruption until the gear is on board and available for inspection.

(h) Possession of an otter trawl and doors shall subject said vessel to inspection for compliance with this section by authorized enforcement personnel. Any nets or doors possessed or used in violation of this section shall be subject to forfeiture under authority of N.J.S.A. 23:10-21.

(i) Violation of any section of this subchapter, or any license or order issued pursuant to it, shall subject the violator to the penalties prescribed in N.J.S.A. 23:2B-14. Penalties consist of \$100.00 to \$3,000 for the first offense and \$200.00 to \$5,000 for any subsequent offense.

(j) Special provisions applicable to the commercial harvest of summer flounder are as follows:

1. The possession of more than 100 pounds of summer flounder during the period of May 1 through October 31 or the possession of more than 200 pounds of summer flounder during the period of November 1 through April 30 on board a vessel or landed from a vessel shall constitute a directed fishery for summer flounder.

2. A person shall not possess any summer flounder less than 14 inches in length, or as modified in (j)3 below which have been harvested by vessels in a commercial fishery for summer flounder except that summer flounder taken under a hook and line summer flounder permit shall not be less than the size limit specified at N.J.A.C. 7:25-18.1.

3. A person utilizing an otter or beam trawl in the directed fishery for summer flounder shall not use a net of less than 5.5 inches stretched diamond mesh or 6.0 inches minimum stretched square mesh, inside measurement applied throughout the cod end for at least 75 continuous meshes forward of the terminus of the net. Any vessels violating the minimum mesh restrictions shall forfeit the owner and the vessel's privilege to land any summer flounder less than 14 inches in length in addition to any civil or criminal penalties prescribed by law. Loss of a vessel's privilege to land any summer flounder less than 14 inches will apply regardless of vessel ownership. The possession of any net less than the minimum specified above in this paragraph, on board a vessel engaged in a directed fishery for summer flounder is prohibited unless such net is not available for immediate use as defined in (b) above or is one of the following:

i. Vessels fishing in the fly net fishery are exempt from the minimum mesh size requirement. A fly net is a two seam otter trawl with the following configuration:

(1) The net has large mesh webbing in the wings with a stretch mesh measure of eight inches to 64 inches;

(2) The first body (belly) section of the net consists of 35 meshes or more of eight inch stretch mesh webbing or larger; and

(3) In the body section of the net the stretch mesh decreases in size relative to the wings and continues to decrease throughout the extensions to the cod end, which generally has a webbing of two inch stretch mesh.

4. A vessel shall not land more than 100 pounds of summer flounder during the period of May 1 through October 31 or more than 200 pounds of summer flounder during the period of November 1 through April 30, in New Jersey on any one trip unless said vessel is in possession of a valid New Jersey Summer Flounder Permit to participate in the directed fishery for summer flounder. Vessels fishing under the special terms of a quota transfer or combination program as provided in (j)6 below shall be exempt from this requirement if such terms specify that a New Jersey Summer Flounder Permit is not necessary to land summer flounder in New Jersey. The permit shall be issued in the name of the vessel and the owner and for the specific gear type(s) used to qualify for the permit.

i. Applicants for a New Jersey Summer Flounder Permit shall complete an application provided by the Department. Applicants applying to use hook and line shall submit their applications no later than May 31, 1994. Applications for a New Jersey Summer Flounder Permit for hook and line received after the above date shall be denied.

ii. To be eligible for a New Jersey Summer Flounder Permit the vessel's owner shall meet the following criteria:

(1) The vessel shall have landed and sold at least 1,000 pounds of summer flounder in New Jersey in each of two years during the period of 1985-1992;

(2) The vessel shall have possessed a valid New Jersey otter trawl, pound net, or gill net license or a valid Federal summer flounder permit during each of the two years it qualified based upon the pounds of summer flounder landed and sold in (i)4ii(1) above. Vessels providing documentation regarding the amount of summer flounder landed for two years between January 1, 1985 to November 2, 1988 or vessels providing documentation of harvest by hook and line are exempt from this requirement; and

(3) Applicants shall provide weigh out slips to document the amount of summer flounder landed and copies of their New Jersey otter trawl, pound net or gill net license or Federal summer flounder permit for the respective years.

iii. The New Jersey Summer Flounder Permit shall be on board the vessel to which it is issued at all times. The permit is valid from the date of issuance and for any subsequent years unless revoked as part of a penalty action. The vessel, when engaged in the directed summer flounder fishery, may only have on board the gear type(s) listed on the New Jersey Summer Flounder Permit.

(1) The owner of a permitted vessel may transfer his or her New Jersey Summer Flounder Permit, upon application to the Department, as follows:

(A) To his or her replacement vessel, provided the replacement vessel is of equal or less gross registered tonnage and vessel registered length. The vessel being replaced shall no longer be eligible for a New Jersey Summer Flounder Permit, or

(B) Along with the sale of his or her vessel to a new owner. The owner selling the vessel shall no longer be eligible for a New Jersey Summer Flounder Permit based on the harvesting history of the vessel being sold.

(2) Transfer of a permit to a new vessel shall be limited to the same gear type(s) of the originally permitted vessel.

(3) Applicants for permit transfer shall complete an application provided by the Department, and no permit may be transferred without the prior approval of the Department.

iv. A vessel possessing a valid New Jersey Summer Flounder Permit to commercially harvest summer flounder by angling or hook and line and when operating under the permit shall be subject to the following:

(1) Crew size shall be limited to no more than five persons, including the captain;

(2) The vessel shall not carry any passengers for hire. When carrying passengers for hire the New Jersey Summer Flounder Permit is not valid and the recreational possession limits and seasonal restrictions as specified in N.J.A.C. 7:25-18.1 apply.

v. A vessel that does not possess a New Jersey Summer Flounder Permit shall be permitted to land not more than 100 pounds of summer flounder during the period of May 1 through October 31, or not more than 200 pounds of summer flounder during the period of November 1 through April 30 on any trip, except that vessels taking summer flounder by angling or hook and line shall be subject to the possession limits established in N.J.A.C. 7:25-18.1.

5. The annual summer flounder harvest quota for New Jersey shall be determined by the Mid-Atlantic Fishery Management Council as implemented by the National Marine Fisheries Service. All landings of summer flounder in New Jersey shall be applied to the New Jersey annual summer flounder quota unless New Jersey enters into an agreement with another state(s) to transfer or combine summer flounder commercial quotas, as provided for pursuant to (j)6 below, and such agreement indicates otherwise.

i. Ten percent, but not more than 200,000 pounds of the New Jersey annual summer flounder quota, shall be allocated each year for by-catch landings when any of the three seasons for the directed commercial fishery

are closed. The by-catch landings shall be divided between the three seasons (January-April, May-August, September-December) at the same percentage as for the directed fishery specified at (j)5ii below or as modified by the Commissioner.

(1) Any by-catch not landed during the season allocated shall be added to the directed fishery of the following season except during the last season (September-December).

(2) If any of the by-catch allowance has not been landed by December 1 in any calendar year the remaining amount shall be added to the directed summer flounder fishery quota.

ii. The balance of the New Jersey annual quota for the summer flounder fishery remaining after deducting the by-catch allowance specified in (j)5i, above shall be divided into three seasons and daily trip limits as follows:

(1) January-April: 39.28 percent, 10,000 pound trip limit.

(2) May-August: 16.83 percent, 1,000 pound trip limit.

(3) September-December: 43.89 percent, 2,500 pound trip limit.

iii. No vessel shall have in possession or land and no dealer shall accept from any one vessel more than the daily trip limit of summer flounder in any one calendar day.

iv. Any vessel participating in a directed summer flounder fishery shall notify the Department of the time and place of unloading of the vessel at least two hours in advance of such unloading. Notification shall include a phone call to (609) 748-2050 unless changed by notice to permit holders via first class mail.

v. If a minimum of 100,000 pounds of the New Jersey summer flounder quota remains unlanded as of December 1 in any calendar year, then there shall be an unlimited daily trip limit for the remainder of that calendar year or until the quota specified in (j)5ii above is landed, whichever occurs first.

vi. The Commissioner, or his or her designee, shall close the season for the directed and/or by-catch commercial summer flounder fishery upon four days public notice of the projected date the season quota shall be caught. Public notice shall include letters by first class mail to all permitted New Jersey Summer Flounder Dealers and New Jersey Summer Flounder Permit holders.

vii. Once the season has been closed for the directed commercial summer flounder fishery, no vessel shall land any summer flounder and no dealer shall accept any summer flounder landed in New Jersey in excess of the by-catch allowances specified in (i)1 and 4 above and provided the amount of summer flounder landed from any vessel shall not exceed 10 percent, by weight, of the total weight of all species landed and sold. All vessels taking summer flounder by hook and line during a closed season for the directed commercial fishery shall be subject to the possession limits specified in N.J.A.C. 7:25-18.1 or as modified by the Commissioner. If the entire season and/or annual quota including the by-catch allowance has been landed, then no vessel or person shall land or sell any summer flounder and no dealer or person shall accept or buy any summer flounder landed in New Jersey.

viii. If the Commissioner, or his or her designee, closes the season prematurely because of unanticipated environmental events resulting in the quota not being landed by the projected date and at least one month remains in the current season, then the Commissioner, or his or her designee, may reopen the season for a specified period of time upon seven days public notice. Public notice shall be made as specified in (i)5ii above.

ix. If the quota for a particular season is not taken, the balance shall be reallocated for the following season, except that any balance existing as of December 31 of any year shall not be reallocated.

x. If the quota for either of the first two seasons is exceeded, the amount overharvested shall be deducted from the third season.

xi. If the quota for any year is exceeded, the amount over harvested will be deducted from the following year's annual quota. The remaining annual quota will then be allocated as defined in (j)5i and ii above.

xii. Beginning in 1994, the Department shall notify the holders of New Jersey Summer Flounder Permits of the season allocations no later than January 31 of the year to which the allocation applies. Notification shall be accomplished by first class mail to permit holders.

xiii. All New Jersey Summer Flounder Permit holders shall be required to complete monthly reports supplied by the Department. The monthly report shall be signed by the permittee attesting to the validity of the information and be submitted so it is received by the Department no later than 15 working days following the end of the reported month at the following address:

New Jersey Summer Flounder Program  
Nacote Creek Research Station  
P.O. Box 418  
Port Republic, NJ 08241

(1) The monthly report shall include, but not be limited, to the following information: name, New Jersey Summer Flounder Permit number of the vessel, total amount (in pounds) of each species taken, dates caught, time at sea, duration of fishing time, gear type used to harvest, number of tows, area fished, crew size, landing port, date sold and buyer. This information shall be provided for any trip in which summer flounder are landed. New Jersey Summer Flounder Permit holders who also possess a Federal summer flounder permit and are required to report monthly to the Federal government may submit the "STATE" copy of their Federal log book in satisfaction of the New Jersey reporting requirements.

(2) If no trips for summer flounder were taken and no summer flounder were landed during the month, a report to that effect shall be required.

6. Pursuant to Amendment 5 of the Mid-Atlantic Fishery Management Council's Summer Flounder Management Plan, the Commissioner may enter into agreements with other states to transfer or combine summer flounder commercial quotas. Such agreements shall specify the terms and conditions under which vessels not in possession of a New Jersey Summer Flounder Permit may land summer flounder in New Jersey, as well as how the landings will be applied to the quota. Any agreement developed by the Commissioner and any other state is not valid until such time as it has been reviewed and approved by the Northeast Regional Director of the National Marine Fisheries Service.

7. No fish dealer shall accept any summer flounder from any vessel or harvester unless such dealer is in possession of a valid New Jersey Summer Flounder Dealers Permit. A New Jersey Summer Flounder Dealers Permit may be obtained by completing an application supplied by the Department and submitting it to:

New Jersey Summer Flounder Dealers Permit  
Nacote Creek Research Station  
P.O. Box 418  
Port Republic, NJ 08241

8. No dealer shall accept from any vessel more than the by-catch amounts of summer flounder specified at (j)4 above unless said vessel is in possession of its valid New Jersey Summer Flounder Permit.

9. No vessel shall land and no dealer shall accept any summer flounder which have been frozen, filleted or processed in any way. Only whole, fresh summer flounder may be landed.

10. Any harvester or vessel landing summer flounder in New Jersey for the purpose of sale shall sell all summer flounder to a permitted New Jersey Summer Flounder Dealer.

11. All permitted New Jersey Summer Flounder Dealers shall provide weekly reports to the Division listing the amount of summer flounder landed on a daily basis by size category and any other information that may be required by the Commissioner or as a result of an agreement with other states pursuant to (j)6 above. Such report shall be FAXed to the Division at 609-984-1408 no later than two days following the week's end or sent by any other method approved by the Department. For the purpose of this provision, the week shall begin on Sunday and end on Saturday.

12. Any person violating the provisions of this section shall be subject to the penalties prescribed in N.J.S.A. 23:2B-14 in addition to the following:

i. Failure to submit the application by June 30, 1993 for use of otter trawls, pound nets, gill nets or scallop dredges or by May 31, 1994 for use of hook and line or to attach the required documentation to the application shall result in the denial of the permit.

ii. Falsification or misrepresentation of any information on the application including documentation provided to verify the amount of summer flounder landed as specified in (i)4 above shall result in the denial or revocation of the permit in addition to any civil or criminal penalties prescribed by law.

iii. Failure to comply with the provisions of (j)3 above, minimum mesh size, (i)5iii above, landing, possessing or accepting in excess of the daily trip limit for summer flounder, (j)5iv, failure of notification of landing of summer flounder, (j)5vii above, landing summer flounder after the directed fishery and/or by-catch season has been closed, or (j)5xiii above, failure to submit accurate and timely monthly reports, (j)8 accepting more than by-catch amounts from non-permitted vessels, (j)9 accepting any summer flounder other than fresh product, or (a), (b), (d), (e) or (f) above or N.J.S.A. 23:3-46 through 23:3-47 shall result in the suspension or revocation of the vessel's New Jersey Summer Flounder Permit or the dealers New Jersey Summer Flounder Dealers Permit according to the following schedule:

- (1) First offense: 60 days suspension
- (2) Second offense: 120 days suspension
- (3) Third offense: permanent revocation

iv. Any person who has had his or her New Jersey Summer Flounder Dealers Permit suspended or revoked shall not land or permit the landing of any summer flounder at his or her facility during the suspension or revocation under the provisions of another permittee's New Jersey Summer Flounder Dealers Permit.

v. Prior to revocation of the permit, the permittee shall have the opportunity to request a hearing pursuant to the Administrative Procedure Act, N.J.S.A.

52:14B-1 et seq. and 52:14F-1 et seq., and the Uniform Administrative Procedure Rules, N.J.A.C. 1:1.

(k) Special provisions applicable to a directed weakfish fishery are as follows:

1. The possession of more than 100 pounds of weakfish on board a vessel or landed from a vessel shall constitute a directed fishery for weakfish.

2. A person shall not possess any weakfish less than 12 inches in length that have been harvested by otter or beam trawl during the period from September 1 through December 31. During the period of January 1 through August 31, the minimum size limit for weakfish harvested by otter or beam trawl is 13 inches in length pursuant to N.J.A.C. 7:25-18.12(a).

3. A person utilizing a beam or otter trawl in a directed fishery for weakfish shall not use a net of less than 3.75 inches stretched diamond mesh or 3.375 inches stretched square mesh, inside measurement, applied throughout the cod end for at least 75 continuous meshes forward of the terminus of the net. The possession of any net less than the minimum mesh specified above in this paragraph, or as modified by the Commissioner pursuant to (p) below, on board a vessel in a directed fishery for weakfish is prohibited.

4. A person shall not land any weakfish harvested by otter trawl except during the open seasons of January 1 through July 31 and October 13 through December 31 or as modified by the Commissioner pursuant to (p) below. No dealer shall accept any weakfish landed in New Jersey taken by otter trawl except during such open seasons or as modified by the Commissioner pursuant to (p) below.

(l) Special provisions applicable to a directed winter flounder fishery are as follows:

1. The possession of more than 100 pounds of winter flounder on board a vessel or landed from a vessel shall constitute a directed fishery for winter flounder.

2. A person shall not possess any winter flounder less than 12 inches in length that have been harvested by otter or beam trawl, or any other net, trap, dredge or commercial gear.

3. A person utilizing an otter or beam trawl in a directed fishery for winter flounder shall not use a net of less than 5.0 inches stretched mesh inside measurement applied throughout the cod end for at least 75 continuous meshes forward of the terminus of the net.

4. No person shall fish for or land any winter flounder taken by otter trawl or by any other net, trap, dredge or commercial gear in New Jersey waters, except during the open season of December 1 through May 31 or as modified by the Commissioner pursuant to (p) below. No dealer shall accept any winter flounder taken in New Jersey waters except during such open season or as modified by the Commissioner pursuant to (p) below.

fied by the Commissioner pursuant to (p) below. The harvest of winter flounder by the use of fyke nets is subject to the provisions of N.J.A.C. 7:25-18.5(g)2.

5. Except during the open season specified at (l)4 above, a vessel with any winter flounder on board shall not have any otter or beam trawl available for immediate use while on the marine waters of this State. An otter or beam trawl that conforms to the provisions at (b)1 through 3 above is considered not "available for immediate use."

(m) Special provisions concerning the harvest of bluefish are as follows:

1. The annual bluefish allocation to the otter trawl fishery shall be 14.7 percent of New Jersey's annual commercial bluefish quota as allocated by the National Marine Fisheries Service.

2. A person shall not land any bluefish by otter trawl except during the open season of January 1 through December 7 or as modified by the Commissioner pursuant to (p) below.

(n) Special provisions applicable to a directed scup fishery are as follows:

1. The possession of more than 4,000 pounds of scup on board a vessel or landed from a vessel shall constitute a directed fishery for scup.

2. A person utilizing an otter or beam trawl in a directed fishery for scup shall not use a net of less than 4.0 inches stretched mesh inside measurement applied throughout the cod end for at least 75 continuous meshes forward of the terminus of the net.

(o) For the purpose of this section, "land" shall mean to begin offloading fish, to offload fish or to enter port with fish.

(p) The Commissioner, with the approval of the New Jersey Marine Fisheries Council, may modify quotas, mesh sizes, minimum size limits and seasons specified in this section by notice in order to maintain compliance with any fishery management plan approved by the Atlantic States Marine Fisheries Commission pursuant to 16 U.S.C. § 5104(b). The Department shall publish notice of any such modification in the Division's commercial regulation publication and the New Jersey Register.

Adopted concurrent proposal, R.1996 d.392, effective July 24, 1996.

See: 28 N.J.R. 3182(a), 28 N.J.R. 3956(a).

Administrative change.

See: 28 N.J.R. 4784(a).

Amended by R.1996 d.587, effective December 16, 1996 (operative January 1, 1997).

See: 28 N.J.R. 3998(a), 28 N.J.R. 5231(a).

Substantially amended section.

Administrative correction.

See: 29 N.J.R. 600(a).

Omitted recodification to (j)12v from a prior recodification corrected.

Administrative change.

See: 29 N.J.R. 1308(c).

In (j), changed the minimum length of summer flounder harvested in a commercial fishery from 13 inches to 14 inches.

#### 7:25-18.15 Atlantic sturgeon management

(a) An individual shall not take or attempt to take, possess or land any Atlantic sturgeon in the State, without a valid Atlantic Sturgeon Commercial Gill Net Permit or a valid Atlantic Sturgeon By-Catch Permit issued by the Department. No holder of either permit shall land an Atlantic sturgeon unless such sturgeon has a valid, properly affixed possession tag as specified at (g) and (h) below. No person shall possess any Atlantic sturgeon that does not have a valid, properly affixed possession tag. "Land" shall mean to begin offloading fish, to offload fish or to enter port with fish.

(b) An Atlantic Sturgeon Commercial Gill Net Permit may be transferred to another individual eligible for a gill net license for the purpose of taking Atlantic sturgeon with gill nets. The permittee shall request approval to transfer the permit in writing to the Department, and no such transfer shall be valid until the transferee has received a valid permit issued in his or her name from the Department. An Atlantic sturgeon commercial gill net possession tag may be transferred to another Atlantic Sturgeon Commercial Gill Net Permit holder. The permittees shall list on the permittee's annual report pursuant to (l) below the name of the permittee or permittees to whom the permittee transferred any possession tag. The recipient of the transferred possession tag or tags shall list in the annual report pursuant to (l) below each such transferred tag received.

(c) To qualify for an Atlantic Sturgeon Commercial Gill Net Permit, an applicant shall comply with the provisions below by April 2, 1993:

1. The applicant shall complete an application provided by the Department, listing the dressed weight of Atlantic sturgeon harvested by gill net during 1988, 1989 or 1990, whichever year he landed the greatest dressed weight, or the number of nine-inch or greater stretched mesh gill nets purchased between January 1, 1989 and January 10, 1991 with the intent of entering a directed Atlantic sturgeon fishery.

2. The applicant shall attach documented proof of the dressed weight of Atlantic sturgeon harvested by gill net during 1988, 1989 or 1990, whichever year he landed the greatest dressed weight, or the number of nine-inch or

greater stretched mesh gill nets purchased between January 1, 1989 and January 10, 1991. Documented proof shall consist of one or more of the following:
