# JOURNAL OF THE SENATE

---

TUESDAY, January 9, 1962.

At 12:00 o'clock noon, this being the time and place appointed by the Constitution for the Assembly of the Legislature, the Senate was called to order by the Honorable Thomas J. Hillery, Senator from Morris County.

The following statement was read by Mr. Henry H. Patterson:

STATE OF NEW JERSEY  
DEPARTMENT OF STATE

I, EDWARD J. PATTEN, Secretary of State of the State of New Jersey do hereby certify that the following Members of the Senate have been duly qualified:

Burlington County—Henry S. Haines.

Camden County—Joseph W. Cowgill.

Cape May County—Charles W. Sandman, Jr.

Essex County—Donal C. Fox.

Gloucester County—Thomas F. Connery, Jr.

Middlesex County—John A. Lynch.

Monmouth County—Richard R. Stout.

Salem County—John A. Waddington.

Somerset County—William E. Ozzard.

Union County—Robert C. Crane.

Warren County—Wayne Dumont, Jr.

and I further certify that at the General Election held on the seventh day of November A. D. 1961, Members of the Senate were duly elected as follows:

Atlantic County—Frank S. Farley.  
 Bergen County—Pierce H. Deamer, Jr.  
 Cumberland County—Robert H. Weber.  
 Hudson County—William F. Kelly, Jr.  
 Hunterdon County—Raymond E. Bowkley.  
 Mercer County—Sido L. Ridolfi.  
 Morris County—Thomas J. Hillery.  
 Ocean County—W. Steelman Mathis.  
 Passaic County—Anthony J. Grossi.  
 Sussex County—George B. Harper.

IN TESTIMONY WHEREOF, I have hereunto set my hand and affixed my official seal at Trenton, this ninth day of January, A. D. 1962.

EDWARD J. PATTEN,  
*Secretary of State.*

The oath of office was administered by Mr. Sandman to the following Senators-elect:

Frank S. Farley, Atlantic County.  
 Pierce H. Deamer, Jr., Bergen County.  
 Robert H. Weber, Cumberland County.  
 William F. Kelly, Jr., Hudson County.  
 Raymond E. Bowkley, Hunterdon County.  
 Sido L. Ridolfi, Mercer County.  
 Thomas J. Hillery, Morris County.  
 W. Steelman Mathis, Ocean County.  
 Anthony J. Grossi, Passaic County.  
 George B. Harper, Sussex County.

Mr. Sandman nominated Mr. Cowgill for the office of Temporary President. There being no further nominations, Mr. Cowgill was declared elected to the office of Temporary President by voice vote.

Messrs. Ridolfi and Mathis escorted Mr. Cowgill to the rostrum.

Mr. Stout nominated Henry H. Patterson for the office of temporary Secretary. There being no further nominations, Mr. Patterson was declared elected as temporary Secretary, by voice vote.

Mr. Sandman nominated Mr. Hillery as President *pro tempore*. There being no further nominations, the temporary Secretary was directed to call the roll:

In the affirmative were—

Messrs. Bowkley, Connery, Cowgill, Deamer, Dumont, Farley, Fox, Grossi, Haines, Harper, Hillery, Kelly, Lynch, Mathis, Ozzard, Ridolfi, Sandman, Sout, Waddington, Weber—20.

In the negative—None.

Mr. Hillery was declared elected President *pro tempore*.

Messrs. Stout and Kelly escorted Mr. Hillery, President *pro tempore*, to the rostrum, whereupon Mr. Cowgill administered the oath of office to Mr. Hillery as President *pro tempore*.

Mr. Sandman moved to proceed to the election of a permanent President of the Senate, which motion was adopted.

Mr. Sandman nominated Mr. Crane for the office of permanent President of the Senate. Mr. Fox seconded the nomination.

The Secretary was directed to call the roll:

In the affirmative were—

Messrs. Bowkley, Connery, Cowgill, Deamer, Dumont, Farley, Fox, Grossi, Haines, Harper, Hillery, Kelly, Lynch, Mathis, Ozzard, Ridolfi, Sandman, Stout, Waddington, Weber—20.

In the negative—None.

Mr. Crane was declared elected President of the Senate for the legislative year and was escorted to the rostrum by Messrs. Farley and Fox.

President *pro tempore* Hillery appointed Messrs. Ozzard and Ridolfi to escort Superior Court Judge Milton A. Feller

to the rostrum for the purpose of administering the oath of office to President-elect Crane.

The oath of office as President of the Senate was administered to President-elect Crane by Superior Court Judge Milton A. Feller.

After the oath of office was administered, President Crane addressed the Senate as follows:

Thank you for this precious honor—your leadership.

I want to thank you in behalf of the people of Union County whom I represent; in behalf of my family whom I sometimes direct; and thirdly, I want to thank you in my own behalf, because the uniqueness of this occasion does not escape me.

When, out of twenty-one members, there can be but one President, it brings to mind that old maxim, "Many are called but few are chosen!"

Knowing this to be more a decision of heart than an exercise of judgment, I feel impelled to return this splendid gift with thanks, and at the same time ask that you be more practical, this in the kindest sense that you are well aware of the physical demands placed upon legislative leadership, and that you must be even more aware of my present incapacities.

So, proudly mindful of the exacting schedule of the day during which we must reorganize and the Governor must submit to us in joint session a report on the progress of New Jersey, I, in turn, shall offer you the one gift still within my power to control or grant, brevity. This should humorously recall the day when our distinguished Minority Leader took me to task for lobbying in behalf of a bill that already enjoyed unanimous consent.

But, on this joyous occasion of prestige and acceptance which might easily turn the head of any red-blooded American male, wherein he might skillfully try to equal the ring of our Declaration of Independence, the glowing challenge of our Constitution, and still match the understated eloquence of Lincoln's Gettysburg Address, well, I'll just limit myself to a few random impressions, and introduce you to my family. Any statements of policy can come from the lips of my successors more familiar with latter-day events and politics.

I called this "a precious honor." It is, for I believe it to be wholly personal. To that I would add, after years and months of being enslaved for purposes of entertainment to television, Newton Minnow's "vast wasteland," I would add that I feel somewhat a queer admixture of being "Queen for a Day" and the sentimental favorite scratched from the "Race of the Week."

I might better place this in perspective as "an obligation," a God-given opportunity to serve the people—for that is what I consider the guiding spirit must be in these legislative halls if we are to truly carry out our mission. Our Lord said it most beautifully when He stated "He that would be a leader among you, let him first be the servant of all."

Many have come here, and many there will be after us. My one hope is that they come bearing with them this same concept of service.

We are but pebbles on a beach. Some are cast high above the waterline and so help to reshape the pattern of the land. Some are ground into sand and lose their identity without changing the order of things. Others tumble back into the surf to be again retossed on the beach at yet another time and place. And others, there are, that become swallowed up by the never-ceasing surf. They will not be seen again.

It is a hard, competitive, ever-changing, ever-challenging world. I can remember my welcome to Dartmouth College in Webster Hall, "Take a good look at the man seated on your left and the man on your right. One of you won't be here next year!" Then, the other evening as my wife and I watched a television documentary program on new space technology, we saw strange and awesome instruments undreamed of twenty short years ago. It gave me the same vaguely unsettled feeling I'd experienced as a freshman.

I came here in November, 1956, full of dreams and programs for the advancement of New Jersey, solutions to problems of those days. That most of them have gained acceptance, water resource development, reapportionment, election law reform, improvement of assessment procedures, consumer fraud and indecent literature curbs, urban redevelopment, is all very gratifying, yet it is a reflection of the unstinting work and support of others, especially my good friend across the aisle, the very capable and distinguished Senator from Essex County, Donal Fox.

The work of the bill drafting department and the co-operation I've received so freely from the various departments of government have made it much easier to set the whole legislative process in action.

Actually, the reception I received from my own party was the most amazing, in view of my previous heavy-handed editorials concerning the Senate in general.

One day, the respected Senator from Atlantic was expounding in caucus on the merit of my obscene literature bills, and measuring my work in the most delightful, laudatory phrases. The quite honorable "Jake" Hannold, then Senator from Gloucester, just leaned back against the wall while still in his chair and said, "Why, Hap, you ole son-of-a-gun, I can remember what you called this guy before he came down here!"

Frequently, my respected friend, Walter Jones of Bergen, would tangle with me over a question of semantics, and one day we were explosively discussing the word "intemperate" when the Minority Leader began to get a little restless. I can always remember him chuckling and bidding the fratricide go on when asked if he wished to interrupt. Walter was always fond of saying to me, "Brother, I want to see you when you face your Armageddon." It is to my everlasting regret that I could not stand with him at his, because I have a great respect for his legislative career, his concepts, his craftsmanship and his achievements.

He actually did stand with me at my Armageddon, you all did. And it was an act of faith, not politics.

Some might say that I've had a checkerboard career, but I'd like to leave this view upon it.

With four years in the Army in World War II, I was given the privilege of defending this State and its principles from depredations it has not known since the Revolution.

As an editor of a newspaper, I had the privilege of stimulating and provoking thought, gaining public support for the orderly expansion of New Jersey.

And in this house, I've had the privilege of translating those thoughts into action for the improvement of New Jersey, be it a new library at Douglass College, an on-river control dam at Spruce Run, or new laws with teeth in them to save our children from a flood of filth.

I have a very natural pride in New Jersey, because my forefathers helped found it. Stephen Crane was one of the original settlers of Elizabethtown in the mid 1660's. But this is no ancestor worship. I say it only to highlight why I believe in service to the State. Our family has lived long and prospered in New Jersey. Service is the obligation we owe all who, from A to Z, and any time from 1664 onward, have helped the State attain what it has become. We share this love and pride with them, for New Jersey is theirs as well as ours.

And we are not above but just as alike as all others. In fact, there's a member seated in the audience today who has given me a printed set of the minutes of the earliest Board of Eastern Proprietors, which all too often seems to set forth an account of action taken against a Crane for posting someone else's land. So there have been a few rascals scattered in amongst the clock-makers, bankers, doctors of divinity, authors, editors, clerks, and the like.

I'll now bring this rambling exposé to a conclusion by introducing you to my wonderful family and a few friends, those people who really made the sacrifices so that I could serve here with you.

(At this point Senator Crane introduced his wife Frances; three children, Geoffrey, Jonathan, and Deborah; his mother, Mrs. Fred L. Crane, and his sister, Mrs. Marian C. Graef; his father-in-law, Charles R. Adams; Superior Court Judge Milton H. Feller; Former Acting Sheriff of Union County and long-time friend, Roy Carey; U. S. Senator Clifford Case; Congresswoman Florence P. Dwyer of the Sixth District; Union County Republican Committee Chairman, Charles P. Bailey; and Mr. and Mrs. Karl Davey, representing the "employee family" of the Elizabeth Daily Journal, the newspaper Senator Crane served as editor for eleven years. At the end, he introduced his life-long friend and personal counsel, Brigadier General H. Russell Morss, Jr., USAR, Commanding the New Jersey 78th "Lightning" Division. General Morss presented Senator Crane with a gavel made by Crane's father in 1906 while a member of the undergraduate body at Stevens Institute of Technology.)

At the conclusion of the introductions and presentations, Senator Crane concluded: "For all these thoughtful statements and gifts, we are truly thankful. If this be the

measure of love and friendship, then certainly God created man in His image, and all men are brothers. For all of it, we, my family and I, are humbly grateful.”

Mr. Sandman moved to proceed to the election of a permanent Secretary of the Senate, which motion was adopted.

Mr. Stout nominated Henry H. Patterson, of the County of Monmouth, as permanent Secretary of the Senate. There being no further nominations, President Crane directed Mr. Roy J. Schleich to call the roll:

In the affirmative were—

Messrs. Bowkley, Connery, Cowgill, Crane (President), Deamer, Dumont, Farley, Fox, Grossi, Haines, Harper, Hillery, Kelly, Lynch, Mathis, Ozzard, Ridolfi, Sandman, Stout, Waddington, Weber—21.

In the negative—None.

President Crane declared Mr. Paterson elected permanent Secretary and Mr. Farley administered the oath of office to Secretary Patterson.

Upon announcement by President Crane that the Senate has organized and is now ready to proceed to business, the 1962 Session was opened with prayer by the Rev. W. Neal Raver.

Under the direction of the President, the Secretary called the Senate, when the following Senators appeared and answered the call:

Messrs. Bowkley, Connery, Cowgill, Crane (President), Deamer, Dumont, Farley, Fox, Grossi, Haines, Harper, Hillery, Kelly, Lynch, Mathis, Ozzard, Ridolfi, Sandman, Stout, Waddington, Weber—21.

Mr. Sandman announced that Governor Meyner had left the State of New Jersey and President Crane was sworn in as Acting Governor by Mr. Fox.

President *pro tempore* Hillery presided.

The following communication was read by Secretary Patterson:

TUESDAY, JANUARY 9, 1962

329 Hillside Avenue,  
Westfield, New Jersey,  
Tuesday, January 9, 1962.

Mr. Henry H. Patterson,  
Secretary, New Jersey Senate,  
State House,  
Trenton, New Jersey.

My dear Secretary Patterson:

Though I deeply appreciate the kind thoughts of my Senate colleagues that led to my election as their President at the reorganization session today, January 9, 1962, I find that it is not wise nor physically possible for me to hold such a distinguished position of responsibility, and this I say in their own interest as well as my own.

Thus, I hereby tender my resignation, effective this date, as President and shall return to my seat representing Union County as elected in 1959 and sworn in January 1960. This I feel that I can continue to do for some time, and thus I wish to make the distinction that I am resigning from the Presidency only, not resigning as a member of the New Jersey Senate.

Will you kindly convey to each of the members the feeling of my family that their faith has had much to do with my recovery, and this most significant gesture today is more than ample proof of their interest and affection. I know I shall never forget it.

Most sincerely yours,

ROBERT C. CRANE,  
*Senator, Union County.*

On motion of Mr. Sandman the resignation of President Crane as President of the Senate was accepted with regret, by voice vote.

Mr. Sandman moved to proceed to the election of a Permanent President, which motion was adopted.

Mr. Sandman nominated Mr. Farley for the office of permanent President of the Senate. Mr. Cowgill seconded the nomination.

There being no further nominations, the Secretary was directed to call the roll:

In the affirmative were—

Messrs. Bowkley, Connery, Cowgill, Crane, Deamer, Dumont, Fox, Grossi, Haines, Harper, Hillery, Kelly, Lynch, Mathis, Ozzard, Ridolfi, Sandman, Stout, Waddington, Weber—20.

In the negative—None.

Messrs. Sandman and Kelly escorted President-elect Farley to the rostrum.

Messrs. Hillery and Cowgill escorted Judge Vincent S. Haneman to the rostrum for the purpose of administering the oath of office to President-elect Farley.

The oath of office as President of the Senate, was administered to President-elect Farley by Judge Haneman.

After the oath of office was administered, President Farley addressed the Senate as follows:

We are embarking on a most crucial Legislative year and after thorough study we feel the following proposals and programs should be adopted:

1. That the New Jersey Legislature should insure and propose Statutes as an equal partner with New York State concerning the Port of New York Authority.

2. That we should press the New York State Legislature to raise its legal drinking age from 18 to 21 years of age.

3. To urge the new Administration to carry out the program with the State of Delaware by authorizing the full amount of Commissioners on this new authority. The joint compact between the State of New Jersey and Delaware was ratified in Congress early in 1962. This new authority created by the Legislature has borrowing capacity of over \$100 million without the necessity of State credit for the construction of needed bridges and ferries by the two States. Likewise we recommend that the Authority, thus created, operate the Chester-Bridgeport Ferry.

4. Pass legislation immediately to implement and expedite the administration for the expenditure of public funds, as authorized by the Green Acres referendum.

5. To support legislation to permit counties to create a local referendum of land reclamation agency which will be backed by full faith and credit by the particular counties. In addition to the economic development in those areas this would help to alleviate the mosquito and health problems, and likewise would increase ratables.

6. Recommend that Legislation be introduced and passed to afford financial protection to the families of those Reservists and National Guardsmen who are called into Active Federal Service.

7. Initiate Legislation to make it unlawful to use any State, county or municipal funds or facilities for any program or activity from which anyone is excluded for reasons of race, creed, color or national origin.

8. We advocate closer relationship between the State Highway Department, the New Jersey Highway Authority and the New Jersey Turnpike Authority, for the purpose of effecting economies and greater efficiency.

9. We will oppose any system of double taxation upon New Jersey residents working in other States.

10. We will support a continuation of the contracts between the New Jersey Division of Railroad Transportation and Commuter Lines. We further recommend Legislation for the purchase of the Hudson and Manhattan Railroad by the Port of New York Authority. This should be done immediately. We recommend that there be an expansion of this facility to give adequate railroad service to the commuters in North Jersey. We urge the passage of the pact with New York State concerning the purchase of the Hudson-Manhattan Lines and the World Trade Center in New York City, provided, however, that New Jersey would receive her fair proportion of this expenditure of money by the New York Port Authority, and that the cost for these relative projects should be somewhat comparable. We propose further the study of an establishment of a unified State Department of Transportation with separate divisions dealing with rail, highway, aviation and shipping facilities.

11. The Farmers in New Jersey pay higher real estate taxes than in any other State. We recommend that the acreage be assessed at farm values rather than at potential values as future housing developments or factory sites.

Legislation should be passed forthwith to correct this situation.

12. We strongly favor two year community colleges with proper subsidies being granted by the State to the respective counties to assist them to accomplish this objective. Legislation should provide that the approval of the Board of Freeholders and the public at a referendum first be obtained, before any new colleges be established in any county. The program should permit regional colleges in the event more than one county cares to join in such an educational program. State aid to existing county colleges should be considered in such a program.

13. The Republican Senate sponsored, in 1960, a \$30,000,000 Bond Issue Referendum for the construction of much needed buildings for the Department of Institutions and Agencies. The Republican Senate again sponsored in 1961, legislation to increase the amount of this bond issue to \$40,000,000. The people of New Jersey approved this referendum at a 1961 General Election. We request immediate action for the building of proper facilities for mentally retarded children.

14. The State Senate will continue its opposition to the jetport in Morris County. We will however, strongly support and urge the New York Port Authority to locate a jetport in South Jersey. I recommend that immediate attention be given to the request of Ocean and Burlington Counties for the construction and erection of a jetport in the areas by the Port of New York Authority. Likewise we recommend the high-speed rapid transit system to link such a South Jersey jetport with our metropolitan areas. The vacancy in the office of the Chief, Bureau of Aeronautics, should be filled promptly.

15. New Jersey, has unfortunately lost several of its industries to the south and elsewhere. Every effort should be made to make it inducive and conducive for industry to locate in New Jersey.

Efforts should be made to retrain and upgrade skills of workers who have lost their jobs through automation or industry leaving the State. The appropriate agency of State Government should be granted additional funds to increase and expand its program.

16. Workmen's Compensation statutes should be amended to increase benefits to the injured workers and their de-

pendents, and likewise, to eliminate certain abuses which have developed in the administration of this problem.

17. School costs have increased tremendously throughout the State. Immediate action should be taken to assist education in the cost per pupil. We await with great interest the report of the State Policy Commission under Senate Joint Resolution 2.

18. The recent low levels of water in the Wanaque Reservoir spotlight the necessity for adopting a "full speed ahead" program for developing new sources of potable and industrial water from the Spruce Run and Round Valley Reservoir projects.

We strongly urge the speedy implementation of the Delaware River Basin Compact legislation so that the many benefits which will accrue therefrom to millions of people may be realized as soon as possible.

In 1958 legislation sponsored in the Republican State Senate was passed to create a permanent Water Research and Development Commission of legislators and citizens to work for and co-ordinate long-range water supply in New Jersey. To this date this commission has never been able to organize and function because of the Governor's failure to make his required appointments to it.

19. The people of New Jersey approved a constitutional amendment in the 1961 general election. It authorized the Legislature to enact laws, insuring the continuity of State, county and local government in periods of emergency caused by enemy attack.

Appropriate legislation to carry out these purposes should be prepared for consideration during the present session by the Emergency Civil Government Commission. The commission should be reconstituted for sufficient time to accomplish these purposes.

20. Legislation should be adopted to exempt from taxation approved fallout shelters erected on privately owned lands when constructed solely for that purpose.

21. The Kerr-Mills Act should be implemented at the State level, however, subsidies to the county should be given by the State and Federal Government, so as to make the plan workable.

22. The State of New Jersey should increase the appropriation for beach erosion to at least Five million to protect the Jersey beaches.

23. Legislation banning discrimination in employment because of age should be adopted. There seems to be general agreement upon the basic principle. However, care must be exercised in drafting the details of such legislation so as not to impair the working of pensions plans, thus harming the very age groups intended to be benefited.

In conclusion, we, the Republican side of the Legislature stand ready to co-operate with Governor Hughes with any constructive programs, and likewise seek his co-operation in our program as set forth above.

Mr. Fox spoke in praise of Senate President Crane and presented him with a gavel as outgoing President.

Mr. Crane thanked the Senate.

Mr. Sandman offered the following resolution, which was read and adopted:

RESOLVED, That a committee of three be appointed to await upon His Excellency the Governor and inform him that the Senate has organized and elected the Honorable Frank S. Mr. Sandman offered the following resolution, which was adopted by voice vote:

Senate Resolution No. 1, entitled "A resolution to create an investigating committee consisting of 5 members, to be appointed by the President of the Senate, with power to investigate any public body receiving funds in whole or in part from the State,"

*Be It Resolved by the Senate of the State of New Jersey:*

1. There is hereby created a committee to be known as the "Senate Investigating Committee" to be composed of 5 Senators to be named by the President of the Senate, who shall constitute a committee for the purpose of investigating the finances, affairs and operations of any and all departments, boards, officers and commissions of the State Government, and all other bodies and political subdivisions of the State who shall be receiving State moneys or public funds of any kind. The committee is authorized to examine into the pay and duties of the employees and the conduct of the work and affairs of all such boards and political subdivisions of the State who shall be receiving State moneys, for the purpose of recommending ways and means of reducing costs of administration and promoting efficiency.

2. Such committee shall serve without pay, but is authorized to employ counsel and such accounting, investigating, clerical or other assistants as to it may seem necessary.

3. Such committee shall have the power to subpoena and examine witnesses and any accounts, records, or other matter pertaining to the operating of any department or departments of the State Government, of any political sub-

division of the State, or of any other body receiving State moneys or public funds of any kind, or of any bi-State commission which may be acting jointly with another State.

4. The committee may appoint a secretary who need not be a member of the committee. Said committee shall meet from time to time, hold hearings and examinations in a manner and in places which to them may seem best and proper.

5. Any agency, board or department of the State Government, any officer or employee of any political subdivision of the State or of any other body receiving State funds, and the officers and employees of any bi-State commission which may be acting jointly with another State, shall furnish to such committee such information, records, and data as may be required for a comprehensive analysis of the operation and financial affairs of such agency, board or commission, or other public body, including any bi-State commission, as from time to time such committee shall determine.

6. Investigations and examinations may be made privately or publicly, but it shall be unlawful for any person to divulge the results of any investigation or examination to any person or persons other than such committee, unless a public hearing shall have been first held. Whenever any person shall be examined by such committee or by its duly authorized representative or representatives, under the powers contained in this act, at a public hearing, the officer, department, board, bureau, commission or individual under investigation or scrutiny may, through his or its authorized representative or representatives, cross-examine any such person or any phase of the matter concerning which he has been examined or questioned, and such officer, department, board, bureau, commission or individual may introduce other evidence to explain, enlarge upon, or clarify the matter, situation or condition under investigation or scrutiny to the end that the full details of any such matter, situation or condition may be developed and presented at one and the same time.

7. This committee shall remain in effect and force until the opening day of the 1963 Legislature, notwithstanding any sine die adjournment.

The following message was received from the General Assembly by the hands of its Clerk:

STATE OF NEW JERSEY,  
 GENERAL ASSEMBLY CHAMBER,  
*Mr. President:* January 9, 1962.]

I am directed by the General Assembly to inform the Senate that the General Assembly has passed the following concurrent resolution:

*Be It Resolved by the General Assembly of the State of New Jersey (the Senate concurring):*

1. That the Legislative Index be purchased for the use of the members of the Senate and the General Assembly, and for such other persons as the President of the Senate and the Speaker of the General Assembly shall designate, one copy of each issue to be mailed to the local address of each member of Senate and the General Assembly, and to each officer or other person designated to receive the same, and in addition thereto one copy of each issue shall be delivered at the State House for each member of the Senate and General Assembly and for each other person designated to receive the same; that the publisher of the Legislative Index shall from time to time furnish such special proofs of the Legislative Index as may be ordered by the President of the Senate or the Speaker of the General Assembly; that payment for the Legislative Index shall be at the rate of forty dollars (\$40.00) for each subscription for a period not to exceed ten weeks, and three dollars and twenty-five cents (\$3.25) per copy furnished thereafter, bills for services received to be submitted at the end of each five weeks; and that statements of expenses for the Legislative Index and special proofs for charges to the Senate and the General Assembly be referred to the Secretary of the Senate, and the Clerk of the General Assembly, respectively, and when approved by them said approval shall be indicated by the signature of the Secretary of the Senate for an expense of the Senate, and the Clerk of the General Assembly, for an expense of the General Assembly, respectively, and said bills, when approved, shall be forwarded to the Legislative Budget and Finance Director for examination and audit, and said bills, when certified by the Legislative Budget and Finance Director, shall be forwarded to the Director of the Division of Budget and Accounting, who shall execute and deliver warrant checks in settlement thereof, and transmit the same forthwith to the State Treasurer for signature and delivery.

---

In which the concurrence of the Senate is requested.

ERNEST T. SCHEIDEMANN,  
*Clerk of the General Assembly.*

The Assembly message was taken up, and on motion of Mr. Sandman the resolution was adopted by voice vote.

Mr. Sandman offered the following resolution, which was read and adopted:

*Resolved*, That the Senate do now recess and proceed to the Assembly Chamber for the purpose of receiving the Annual Message of the Governor.

Following is the Eighth Annual Message of Governor Robert B. Meyner, which was delivered to the 186th Legislature of New Jersey in the Assembly Chamber.

## GOVERNOR'S ANNUAL MESSAGE TO THE LEGISLATURE

January 9, 1962.

*Mr. President, Mr. Speaker and Members of the Senate and General Assembly:*

If I depart today from the custom of making detailed recommendations for new law, you will understand that I do so because of the practicalities of the situation. And if otherwise I stray from the format of past messages, you can lay it to the liberties that may be taken in a curtain speech.

“THE MORE THINGS CHANGE . . .”

It would be nice if I could report that all the problems which faced New Jersey when this administration came to power have been neatly solved. That, of course, is not the case. Problems are constant in human experience. They flourish, they interbreed, they mutate or they turn a new profile. It is interesting to note that 51 years ago, nearly to the day, Governor Woodrow Wilson was telling the Newark Board of Trade:

“ . . . all the congestion, all the great urban problems, all the great problems of water supply and of drainage, all the problems which are created by congestion of population lie here, right around us, where we are. Jersey has to solve the problems of the home and the city and the problem of transportation . . .”

The full text of that speech could, with negligible editing, stand as a fair summary of the problems that still beset us. Evidently there is validity in the saying, “The more things change, the more they stay the same.”

No, we have not eradicated all the problems. I like to think, however, that this administration has kept better than even with those at hand and has laid a firm basis for meeting those that inevitably will follow.

## GOVERNMENT'S NEW MAGNITUDE

This generation has seen an enormous growth in the role of government in our society. Government has moved into many areas once reserved to other arms of the community.

It has done so, not on its own motion, but in response to ever-mounting need. People today expect services of government to an unprecedented degree. And the demand coincides with a period of great population growth. This increased responsibility of government to provide more services to more people has been further complicated by steadily rising costs.

The resultant problems are common to the entire country, but they are intensified here. We are, to begin with, a small State physically. Our growth rate outruns the national average. We are the most urbanized State in the Union and the second most densely populated. We are situated in the center of the country's most heavily populated region.

In the face of the rising demand for State action, this administration has met its obligations to a growing population without resort to the broad-based taxes imposed by all but one of the 49 other States. We have been able to do this, in large part, because of governmental economy and efficiency. The per capita cost of operating our State government is the lowest in the Nation. In proportion to population, we have the fewest State employees. Our credit rating is the best—triple A. The restoration of this rating in 1956 after a 22-year lapse has meant interest savings of \$3 million on our last three bond issues.

In a decade that saw our population increase by more than 1,200,000 persons, merely keeping current would have been no small task. I am proud that amidst all these pressures we had the foresight to undertake programs whose benefits will accrue, for the most part, to later generations.

#### NATURAL RESOURCES

I think, for instance, of our water resources development program looking to the needs of tomorrow's men and machines; of the Green Acres program looking to the future physical and spiritual refreshment of our people; I think of the four-State compact contemplating an ordered and balanced development of that great natural resource, the Delaware River.

This administration has made important progress in adding to public recreational lands. We have developed Island Beach while leaving much of its primitive beauty undisturbed. We acquired the Worthington Tract along the Del-

aware and completed the purchase of the Wharton Tract. A portion of Sandy Hook is now on its way to development for public use.

We have moved to develop the tremendous potential in the idle marshlands of Hudson and Bergen Counties. The Meadowlands Regional Development Agency, established in 1959, has set out to reclaim 15,000 acres of tidal meadowland, an area the size of the City of Newark in the heart of a great metropolis.

We have tried to bring order and design into State and local planning. The old Bureau of Planning has been strengthened and is now the Division of State and Regional Planning. Our State is far and away the leader in local planning assistance, with a \$2 million program serving more than 170 municipalities.

#### TRANSPORTATION

Typical of the way in which national problems reach a particular intensity here is the question of transportation by road and rail and air.

The volume of motor vehicle travel in this corridor State is seven times the national average. And it can be stated flatly that this enormous amount of travel is done over the finest and safest highways in the world. The Highway Department's yearly workload has increased more than threefold over the past eight years. The department has a \$120 million construction program in the current fiscal year. On the average, the department has spent and obligated more than \$93 million a year since January 1, 1954, for highway construction and maintenance and for aid to local governments. Approximately \$1 billion was spent in the 37-year period from 1917 to 1954; about three-quarters of \$1 billion has been spent and obligated in the seven years since.

Our Highway Department has developed the State's first master plan based on anticipated traffic in 1975. The department acts as liaison with the authorities dealing with toll highways, interstate tunnels and bridges and airports, assuring a broad compass in our approach to transportation.

#### SAVING COMMUTER SERVICE

Another step in this direction was the establishment of a Division of Railroad Transportation. It has become clear

that motor vehicles alone cannot cope with the job of moving great masses of people. In a State where appreciable numbers of people commute to and from other States to go to work, the deterioration of passenger rail service posed the threat of eventual chaos. The Division of Railroad Transportation, through the first program of its kind in the Nation, has maintained 96 percent of the State's essential commuter rail service through a contract system. Under this program some \$12 million has been appropriated in fiscal 1961 and 1962.

Looking beyond this standby measure, the Division is developing a program of rail improvements and consolidations intended to put the carriers in a position where the contract payments will no longer be required. An essential element of this program, the purchase of the Hudson and Manhattan "tubes" by the Port of New York Authority, will probably come before you at this session. It deserves prime priority.

#### COOPERATION WITH DELAWARE

The first bi-state agreement with Delaware has given New Jersey a voice in the operation of the existing Delaware Memorial Bridge and has prepared the way for construction of a second bridge.

Like it or not, the jet age has arrived in transportation. The question of locating a modern jetport where it can best serve the needs of the New York-New Jersey metropolitan area cannot be blinked away. This Legislature will have to turn its attention to this question. Inaction can have grave implications for our economy.

#### EDUCATION

Nowhere is the impact of our increased numbers felt so much as in the field of education. Enrollment in kindergarten through Grade 12 increased from 771,950 to 1,054,000 over the span of this administration. Experience tells us that more and more of these pupils will be seeking opportunity for education beyond high school—and needing it to meet the manpower requirements of a growing State.

In the field of higher education we have increased our appropriations by two and a half times. A reorganization of Rutgers has made it in fact the State University. A bond

issue of \$66,800,000 financed new construction at Rutgers, Newark College of Engineering and the six State Colleges. Through other appropriations totaling more than \$14 million, we provided additional capital expansion for higher education and the School for the Deaf.

A program of financial aid to college students has provided scholarships aggregating \$3.5 million to 6,496 young men and women.

#### AN ESSENTIAL PROGRAM

A year ago the State Board of Education recommended legislation authorizing two-year community colleges with the State sharing the cost. This program is essential if we are to meet the demands for higher education. I am also impressed by the observation that these colleges can help fill industry's growing requirements for highly trained personnel. The State Department of Education is now conducting a further study of the future needs of higher education. The report of this study should be available soon; it will warrant your careful consideration.

The real demands of the past decade have been felt most heavily in elementary and secondary education. We have increased our State aid to local school districts fourfold. In addition, we established a school building aid program under which \$43 million has been disbursed since 1958. The State has also undertaken a new aid program for public libraries.

No problem will come before you at this session more pressing than the question of financing school costs in the future. Over the past eight years we have followed the traditional pattern of having this burden carried primarily by the local taxpayer, although the practice has been modified by our increased State aid contribution. At the present time the State Tax Policy Commission is studying this whole question of school financing. This study should have your careful attention.

#### HEALTH AND WELFARE

Of all the statistics that abound in government, and sometimes seem to clutter it, one set stands out as most gratifying. On June 30, 1953, there were 21,783 patients in our mental hospitals. On June 30 of last year, the number stood at 21,202. Despite a climbing population

over the eight years, we were keeping fewer people hospitalized. This happy trend reflected our leadership in the use of modern drugs and therapies. It also mirrored our general emphasis away from mere custody and onto treatment. In 1953, of every 100 patients admitted to a New Jersey mental hospital, 40 could expect to be released within six months. Today that ratio has risen to 60 of every 100.

#### MENTAL RETARDATION

In the field of mental retardation we have established extensive training and research facilities at the Johnstone Center in Bordentown. We have begun a Field Services program by which cases are handled on an out-patient basis. Resident facilities for the retarded have been increased to accommodate an additional 750 patients.

The Highfields project, which attracted national attention when it was inaugurated as an experiment in treating delinquency, is a proven program and three more facilities patterned after it have been opened, one of them for girls.

#### NEW BUILDING PROGRAM

With the approval of the institutions bond issue in the last election, we are now in a position to undertake a capital development program to expand and improve facilities in the Department of Institutions and Agencies. You will get today a bill appropriating the proceeds of the \$40 million bond issue. This measure requires immediate action because the sale of bonds is scheduled for next month.

Legislation is also needed so that the State may take full advantage of the funds available under the Kerr-Mills Act of 1960, providing grants to the medically indigent. It is to be hoped that Congress will soon enact the President's program to finance medical care for our senior citizens through Social Security.

#### A FIGHT AGAINST DISEASE

The State Health Department established a program of aid to hospitals and other local agencies for the treatment of chronic illnesses, notably diabetes, the pulmonary diseases, heart disease and cancer.

The department dispensed \$2 million worth of Salk vaccine for persons who could not afford to pay for inoculations.

New Jersey was the first State to adopt a set of minimum standards for municipal health activities.

Last year we added a comprehensive measure requiring the registration of drug manufacturers and wholesalers.

The Health Department has outlawed open dumps in favor of more sanitary methods of solid waste disposal. It has struck other blows, too, at air pollution, pioneering in scientifically sound, long-range control procedures. It was largely at the Department's prodding that industries and municipalities spent some \$275 million over the past 10 years on sewage disposal installations to reduce stream pollution.

The Governor's Committee on Sewage Disposal has recommended that the Department of Health be empowered to regulate the types of disposal systems appropriate to particular areas. This grant of power is in the public interest and the recommendation should be approved.

#### LAW ENFORCEMENT

Law enforcement against organized gambling was scandalously lax when this administration took office. The general respect for law had been weakened, too, because thousands of our citizens played bingo or bought raffle tickets, activities which, harmless enough, were nonetheless breaches of our gambling law. We put the lid on organized gambling and we kept it on. We legalized and regulated bingo and raffles so that their proceeds would go exclusively to charities.

#### THE HAPPY MEDIUM

I would warn you here that the very effectiveness of our policy on gambling may hold an element of danger. It may be reasoned that if we have pari-mutuel wagering, if we have bingo, raffles, and amusement games on boardwalks and at county fairs—if we have all this without abuse and virtually without incident, what harm in a little more, or maybe a lot more? Be careful of the inch that may become a yard. The whole history of gambling in our society resembles the swing of a pendulum—toleration, followed by excess, followed by repression. You should not lightly disturb the happy medium.

This administration stepped up the efficiency of our law enforcement machinery with the creation of a Criminal

Investigation Section in the Attorney-General's Office. This section coordinates criminal investigations conducted by the Attorney-General, the State Police and the County Prosecutors. We went a step of the way toward a basic improvement in the quality of law enforcement with the adoption of the Police Training Bill. This measure can stand improvement; its provisions ought to be made mandatory.

We can be proud of our State Police, a force second to none in the Nation. It has broadened its enforcement activities and has provided the most modern detection facilities for all law enforcement agencies.

### TRAFFIC SAFETY

This administration has been tireless in its efforts to keep deaths and injuries on our roads and highways at a minimum. In six of the last eight years we have had a decrease in highway deaths, measured in terms of total mileage. In 1960 New Jersey was recognized by the National Safety Council as the State which had the best all-around safety record. Traffic safety was a major factor in that award. Safety is an unremitting job, however, and citations should not lull us into a letup.

We established the automatic revocation program for excessive speeding. Under this so-called 60-70 program some 83,000 persons have had their driving privileges suspended. The "point system," directed at repeat offenders, resulted in 10,108 suspensions last year alone. Reciprocity agreements with Connecticut, Delaware and Pennsylvania have strengthened our enforcement arm, and more of these interstate agreements are being negotiated. We have improved techniques of investigation and research in accidents and have established the office of Traffic Safety Coordinator in many of our counties. We have started a statewide alcohol determination program, the first of its kind in the Nation, to measure on a uniform, scientific basis the alcohol factor in traffic fatalities. There is no risk in predicting that alcohol will be found a considerable factor in these tragedies—speed and drink are the killers. Legislation providing that submission to a sobriety test be a condition to the issuance of a license would be a great help in the fight for safer driving.

## CONSUMER PROTECTION

An era of relative affluence put more disposable income in the pockets of our people. Not every one spends prudently and there is always a fringe of unscrupulous operators ready to take advantage of the unsuspecting consumer. We have adopted a legislative program to protect our consumers and to restrain those who would exploit them. A Consumers Fraud Bureau was set up a year ago to protect the public against a growing number of get-rich-quick schemers and to protect honest businessmen from unfair competition. We have licensed home-repair contractors and finance companies which handle home-repair contracts. We were one of the first states to adopt a statute regulating credit-life and credit-accident insurance sold in connection with installment credit transactions. We have licensed motor vehicle sellers and put ceilings on their interest charges. The Real Estate Commission in the Department of Banking and Insurance has strengthened its regulations covering honesty in advertising. The adoption of the Uniform Securities Law gave us a modern and effective weapon in regulating an area in which there has been increasing public participation.

## GOVERNMENT STRUCTURE

Thinking of government in terms of mechanics alone, there have been gratifying advances over the past eight years. We are on the way to being better housed and in doing so we are remaking the face of this Capital City. We shall also put an end to the bewildering and inefficient scatter shot location of so many of our State agencies.

We have mechanized many operations in government, notably the Motor Vehicle Division, the Budget Bureau and the Division of Employment Security. We have eliminated that vexing annual queuing-up for motor vehicle credentials. We pay unemployment benefits promptly now. In the staff of the Attorney-General's Office we shaped a first-rate law firm and gave substance and meaning to positions that were once regarded as sinecures.

The reapportionment of the General Assembly was a conformance to the ground rules of democracy that had been put off too long.

We have also created a new Congressional District from which we elect our 15th Representative next November.

There is still need, however, for a statewide redistricting of our congressional seats.

The adoption of the Uniform Commercial Code and of the Evidence Act of 1960 were landmark achievements.

We have made progress in law revision. The first portion of the revision of Title 40 has been enacted. The balance will be ready for your consideration this session. Revisions of Titles 18, 38, 48 and 51 likewise should be before you this session.

#### ASSESSMENT REFORM

We have been alert to the need for fair assessments in our property tax structure, on which municipalities, counties and school districts rely so heavily. Improved administrative procedure by the Local Tax Bureau, the Division of Taxation and the Division of Tax Appeals in the Treasury Department has done much to bring more equity to the assessment process. Legislation adopted in 1960, revising our assessment laws, will take effect in 1963. The Legislature should guard against any weakening of this essential reform or any further delay in its application.

#### UNFINISHED BUSINESS

There are areas where our progress has fallen short of the target. Our construction safety laws are largely obsolete and need an overhaul. Only a small beginning has been made on outlawing racial discrimination in rental housing. We have a vast need for middle-income housing. We need a labor relations law consonant with our position as one of the mighty industrial states.

Although the maximum benefit payable under our unemployment compensation law was raised to \$50 a week last year, the maximum weekly payment to injured employees under Workmen's Compensation is only \$40 a week. The compensation maximum ought to be raised to a realistic level.

The adoption of an amendment to the Constitution last November has given the Legislature the power and duty of insuring the continuity of State, county and local governmental operations in the event of a war disaster. Legislation to implement this amendment deserves priority in your program.

### A PROSPEROUS ECONOMY

Our economy is sound and flourishing. Thousands of new enterprises have established operations in New Jersey in recent years. Investment in new industrial plant and equipment averaged \$400 million over the last 10 years. Personal income is expected to reach a record high this year. We have developed an intensive farm economy which leads the Nation in yield per acre.

There is comfort in both the character and the numbers of New Jersey industries. We are truly the research center of the United States, with more than 600 laboratories engaged in pure or applied research.

Ten percent of the Nation's research dollars are spent in New Jersey, and we have the highest number, per capita, of professional engineers and scientists. This emphasis on the service industries has balanced the loss of manufacturing jobs attributable for the most part to automation.

This administration has made significant improvements in the salaries and working conditions of State employees. This has enhanced our ability to recruit and retain high-quality personnel. We increased the average annual salary of State employees from \$2,841 to \$4,370. A Health Benefits Program was established, providing free hospitalization, medical-surgical benefits and major medical insurance. The retirement benefits of our two major pension systems were improved, and, for the first time, the members got the advantages of Social Security coverage. A comparative study of pension systems in New Jersey and neighboring states shows that the benefits paid under our systems are the most liberal and that our employee contribution rate is the lowest.

### CONCLUSION

I said at the outset that the volume of problems remains pretty much unchanged over the years. But there is a variable factor in the way they are met. They can be met confidently with will and resolution by people of ability and vision, or they can be parried, pecked at or wishfully thought away. I have tried to staff my administration with men and women who see government as a great challenge to imagination and enterprise, people who regard work in government as a headland, not a harbor. And throughout these eight years we have had the dedicated service of

27,000 men and women who have made a career of State government.

There is another mighty asset in the job of government—the people. I have tried to keep them informed on governmental matters, through the press, television, radio and personal contact, and the effort has been rewarding. I have a great respect for the ability of people, given the facts, to come up with the right answers.

Shortly you will get from my successor a blueprint of his legislative program. Governor-elect Hughes brings to the governorship a dedication to public service. He has a deep appreciation of the problems of the State. Eight months of arduous campaigning among many of the 6,000,000 citizens of New Jersey has served to alert and prepare him to tackle with vigor the task ahead. I hope he will have your complete cooperation. We can agree, I think, that some of the brightest legislative achievements came after partisan considerations were put aside.

Among the 81 legislators who were present when I delivered the first of those messages eight years ago, only 19 still serve here. Status flies as fast as time. You have relatively little time for your work and there is much to be done.

And now, goodbye. It is no secret, I suppose, that I have immensely enjoyed the great privilege of being Governor. A good part of its zest came in my dealings with the Legislature. Occasionally, as the song has it, it might have been a headache but it never was a bore.

I thank you and all the citizens of New Jersey whom you represent. All of you have my best wishes for a bright and productive future.

Respectfully submitted,

ROBERT B. MEYNER,  
*Governor.*

Attest:

EDWIN C. LANDIS, JR.,  
*Acting Secretary to the Governor.*

Upon the conclusion of the recess and under the direction of the President, the Secretary called the Senate, when the following Senators appeared and answered the call:

Messrs. Bowkley, Connery, Cowgill, Deamer, Dumont, Farley (President), Fox, Grossi, Haines, Harper, Hillery, Kelly, Lynch, Mathis, Ozzard, Ridolfi, Sandman, Stout, Waddington, Weber—20.

The following message was received from the General Assembly by the hands of its Clerk:

	STATE OF NEW JERSEY,	}
	GENERAL ASSEMBLY CHAMBER,	
<i>Mr. President:</i>	January 9, 1962.	

I am directed by the General Assembly to inform the Senate that the General Assembly has passed the following resolution:

*Be It Resolved by the General Assembly (the Senate concurring):*

That all payrolls and bills for expenditures incurred by either House be passed for payment only after approval by the Secretary of the Senate or the Clerk of the General Assembly and the Chairman of the Ways and Means Committees of the respective Houses.

In which the concurrence of the Senate is requested.

ERNEST T. SCHEIDEMANN,  
*Clerk of the General Assembly.*

The Assembly message was taken up, and on motion of Mr. Sandman the resolution was adopted by voice vote.

STATE OF NEW JERSEY, }  
GENERAL ASSEMBLY CHAMBER, }  
*Mr. President:* January 16, 1962. }

I am directed by the General Assembly to inform the Senate that the General Assembly has concurred in the following concurrent resolution:

*Be It Resolved by the Senate (the General Assembly concurring):*

That on Tuesday, January 16, 1962, at 12:00 o'clock noon, both houses of the Legislature meet in joint session at the War Memorial Building, for the purpose of participating in the inaugural ceremonies of the Honorable Richard J. Hughes as Governor of the State of New Jersey.

ERNEST T. SCHEIDEMANN,  
*Clerk of the General Assembly.*

Mr. Sandman offered the following resolution which was read and adopted:

*Resolved,* That the Senate do now recess until 2:30 o'clock, and that we do now proceed to the War Memorial Building for the purpose of participating in the Inaugural Ceremonies of the Honorable Richard J. Hughes as Governor of the State of New Jersey.

Following is the address delivered by Governor Hughes at the Inaugural Ceremonies:

## GOVERNOR'S INAUGURAL ADDRESS TO THE LEGISLATURE

*Members of the Legislature, Governor Meyner, Governor Driscoll, Chief Justice Weintraub, Reverend Clergy, My Friends and Fellow Citizens:*

There comes a time in life, whether of a man or of the State itself, when there must be a pause for realistic appraisal of the future. I have just now taken the oath of office and have accepted the Great Seal of the State of New Jersey. In this solemn circumstance, while there is refreshment of the spirit in recalling the traditions and past achievements of a great State, there is, more significantly, the taking up of new strength for the challenges ahead.

We stand here in the presence of two distinguished former Governors of New Jersey. Both Governor Meyner and Governor Driscoll have made invaluable contributions to our State and our society. For their achievements, we salute them. The edifice of the future is more firmly built upon foundations of strength and character.

Here also with us are representatives of the other two branches of government. Their dedicated service is so necessary to the well-being of us all. These legislators and the Judiciary share with me the responsibility of serving the more than 6 million people of New Jersey with efficiency, with equity, with integrity.

Having taken an oath before Almighty God, I stand here in full awareness of my particular and heavy responsibility as Chief Executive of the State of New Jersey. I respect but do not shrink from the magnitude of the task before me. For as I stand before you today I sense, as I did during the long months of campaign, a new spirit, a new pride of the people.

It is this pride, tempered by the humility of an abiding trust in the Almighty, which convinces me of our ability as a people,

together, to look with hope upon the sobering face of the modern world.

This determination of our people to master their future has been well demonstrated.

There is abrupt realism in the affirmative votes of a million New Jersey citizens on the referendum providing continuity of government in times of disaster, a preparation now for the eventuality of an atomic holocaust which is an unfortunate condition of our modern life.

There is the courage of adventure in the spirit which has brought us to the eve of an accommodation with our sister State of New York to provide a promising solution to the transportation problems of our metropolitan communities in conjunction with a great new World Trade Center.

There is the generosity of the Good Samaritan in the approval of our referendum for an institutional bond issue to care for our unfortunate fellow citizens.

There is the foresight of a prudent people, by their referendum vote last Fall, in providing Green Acres for generations to come.

It is this admixture of the realism, the generosity and the courage of the people of New Jersey which fortifies me as we take up the task ahead.

---

There was a period in history when the people of New Jersey seemed content with a state government negative in nature and limited in action. But in recent years a new philosophy, a new role of government, has begun to take shape—government unafraid to act in the people's service.

Thus today there is rising in this capital city a complex of new state buildings symbolizing this new concept of government, this new pride of a people in their State.

There has been a quickened demand by the people for an efficient and effective management of their affairs, for we have moved from the days when the best government meant the least government. Good government today is one responsive to the needs of the people and the communities in which they live, not suffocating them with burdensome regulations, but providing an instrument for joint accomplishment. Good government looks beyond the powerful and the prosperous to achieve a healthy accommodation of the interests of all.

Good government is government with a sense of social justice, acting not as a patronizing busybody, but as a friend to the migrant laborer in his underprivileged status, the worker displaced by automation, the poultry farmer with his problem of overproduction, the Negro in search of a decent home—to mention but a few of the many—the all—for whom government truly exists. How can one begin to enumerate these categories? The commuter, the student, the taxpayer, the ill-housed, the aged, the small businessman—the list is endless.

But we must not forget that a viable economy is the foundation stone of such service. New Jersey has grown with America and I am determined that it shall set the pace for the economic progress of this nation. How does a modern state accomplish this? It seeks a fair and stable tax policy. It maintains a highly skilled labor force. It keeps its house in order and more, whether in law enforcement, in education, in transportation, in water policy, in all of the many components of a vital economy.

Today people look to their government not in fear, but in the hope and expectation with which they look upon a good neighbor to lend a helping hand when the pressures of modern life bear down heavily upon them.

This attitude represents a healthy change over that of fearful men who saw, and still see in every government service a threat to an ill-defined “freedom.” In our modern technological society the opposite is nearer the truth. Prudent participation of government in the affairs of men has brought an expansion of freedom for the vast majority of people. But having affirmed our

faith in a government responsive to the people, let us retain a sensible scrutiny and check over those in government who bubble with enthusiasm to do everything for everybody.

---

Our problems in nearly every field arise from the inevitability of growth and the demands of progress. These problems, though difficult, are wholesome and capable of solution as contrasted with those which result from a resignation to decline and decay.

Our investment in New Jersey's progress, our commitment to New Jersey's growth, have required that for the first time in many years a governor will enter office with no binding pledges on tax policy save continuing every economy in government compatible with our obligations to the future. We shall not shirk these obligations of service to a modern and progressive State and I can but say that this Administration will do its full duty, measuring it carefully and providing for its cost.

The surest measure of government's concern for the development of a State, as well as the personal growth of each individual citizen, is the support of its educational institutions. We have seen the enormous rise in the cost of education. Not only must we face this financial burden, but also provide for its more equitable distribution. This basic investment is imperative to prepare our children for the challenges and opportunities of the future and, indeed, to survive in the competitive world about us.

A new emphasis must be given to higher education. There is a pressing need for additional facilities, a pressure which fortunately has sparked a renewed quest for excellence. Our youth should be encouraged to seek the best education from which they, as individuals, can profit. And this profit not only accrues to the individual, but also to the State and to the Nation. For instance, as our economic development continues to include our many research centers, nurtured by our colleges and universities, we know that as they flourish so does our State's economy prosper.

On another front, a balanced distribution of people, jobs and industries between our urban and suburban communities is essential for the revitalization of urban life and the orderly growth

of suburban areas. We cannot stand by while the bright face of New Jersey is disfigured by decay of its cities and a haphazard growth of its suburbs. The proposed Department of Urban and Suburban Affairs, working closely with private groups, with communities and local officials, should bring a planned development and co-ordination to those communities. There must be a bold attack in the field of urban renewal, with its eradication of slums and the development of new homes and business. The rebirth of our cities and planned development of our suburbs are inseparable.

And, as man does not live by bread alone, so must the spirit and moral tone of the State be nourished. Thus a continuing emphasis must and will be given to vigorous law enforcement and judicial administration of the highest order. Only in this way can we maintain the integrity which has given our people a new sense of confidence in government. Law enforcement must stress highway safety and the taking of every necessary step for avoiding the unforgivable waste of human life on the highways. If the rigidity of this enforcement brings inconvenience, or even hardship, it is a price well worth the saving of so much as one life.

---

There is abroad in the State today a reawakening of the public spirit, a revival of the power of the people, a feeling of restless urgency to put aside the considerations of politics and to meet like men the destiny of the future. In full-hearted recognition of this temper of the times and, indeed, the demands of conscience, I look forward to a period of close cooperation with the Legislature. We must dedicate ourselves, in a single-minded concentration, to the solution of our many problems, however bitter and divisive, as free as possible of the distraction of partisan ambitions.

But in the hands of our fellow citizens will rest the final success or failure of this course. Together—each man giving his due—we must make our contribution to the common good by our respect for law, by an active interest and participation in public affairs, by a willingness to accept the cost of the many services required by the people of their State and local governments.

I am conscious of a heavy debt to my State, for it is here that I have lived my life and had my being; where I have served as a judge; where I have practiced my profession; where I have reared my family; where I have touched the hands of friends.

It is with a deep awareness of this obligation that I approach my part in the major tasks ahead.

While we are only men, yet with the help of God, whose ministers we are, let us act together in the interest of the State we love, to strengthen and protect the heritage we hold in hand for ourselves and for succeeding generations.

RICHARD J. HUGHES,  
*Governor.*

I desire that you and the remainder of my colleagues honor this request by acting in the affirmative on my resignation at your next stated meeting, January 29, 1962, the vacancy to become effective as of 9:00 A. M., E. S. T., Monday, March 5, 1962.

You will see from the suggested effective date my desire as a constitutionally-minded citizen to offer the people and political parties of Union County a democratic opportunity to decide for themselves whether they wish to fill the post by a free and open primary, to be followed by a regular general election in the fall or avail themselves of the pro-

visions of R. S. 19:27-11 and have the party candidates selected by the respective County Committees with attendant special general election at added cost.

I must say that I am outspokenly in favor of the first, more democratic process and appear to have the editorial support of the public press in the area. Hence, my desire for early action on the resignation and establishment of the suggested effective date to create the vacancy. It will enable the County Clerk several days in which to accept petitions of candidates, while equally providing me an opportunity to further serve until such a time if called upon.

As to you, my colleagues, sing no sad songs for me. I have had the rare privilege of representing the people of Union County after twice going before them to seek support for certain programs of action which, I trust, also benefited my beloved State of New Jersey.

Then, too, when in failing health, my fellow Senators across the aisle did not press their great advantage to deadlock the reorganization of the Senate as a Republican led unit, but honored me as though present; all of which gave me a great spiritual lift toward recovery.

Late last fall you all welcomed me home to the Senate Chamber with such sincerity, you gave me the incentive to strive for full-time service.

On January 9th of this year, your touching tribute stirred the emotions of my entire family who shall never forget your thoughtfulness and generosity. Service as your president, even though of brief moment, was the greatest honor and friendliest gesture you could extend, and I could not be more humble or appreciative. That you would permit my dearest friend, Senator Fox of Essex County, to swear me in as Acting Governor, as well as present the gift of the presidential gavel, was also significant.

My work is not done, for I shall maintain my interest in education, conservation, development of water resources, tax and election reforms, in addition to improved law enforcement and the fight against indecent literature. To all of you with whom I have served, my grateful thanks for your heartwarming co-operation. It is with a sense of sadness that I leave you, but I shall always have you in mind and heart, and pray for your success.

I am one who always believed that all men were brothers under the Lord God eternal, and never have I felt the closeness I experienced with you.

If I can ever return all that you have given me in full measure, I shall serve you willingly and faithfully without the slightest hesitation. Farewell, but not goodbye. And, may He who guides us all shower you with His richest blessings.

Sincerely,  
/s/ ROBERT C. CRANE,

Messrs. Kelly and Deamer offered the following resolution which was read and adopted:

WHEREAS, A Bruce Cook, Editor of the Hudson Dispatch, daily newspaper of Union City, New Jersey has distinguished himself as an outstanding creative writer with a tremendous emphasis on his inherent talent for editorial individualistic originality in the literary and journalistic field for the past forty-five years both in the states of Virginia and New Jersey; and

WHEREAS, Since the anniversary of his entry into the coveted world of American journalism falls today, February 19, 1962, the New Jersey League of Weekly Newspapers, Inc. has recognized Mr. Cook's altruistic character and his ethical standards of the true spiritual cooperative democracy. At a meeting of the board of directors at the home of Dr. Clara K. Aszody at One Beverly Road, West Orange, New Jersey, February 17, 1962, a resolution was adopted in proclaiming A. Bruce Cook as the "Editor of the Year," and Mr. Cook's name has been placed in the Hall of Fame of the New Jersey League of Weekly Newspapers, Inc. for being a "man among men" whose kindness is felt. M. Martin Turpanjian, Editor of the Waldwick Jersey Parade, and North Bergen Hudson Gazette is the President of the League; Mrs. Arthur A. Lyons, Editor of Spotlight, coast-to-coast picture news weekly, of Newark, New Jersey, is the Chairman of the Board of Directors; and Dr. Clara K. Aszody, Editor of the Hungarian Journal, of West Orange, New Jersey, is the Chairman of the Board of Trustees; and

WHEREAS, That in our most penetrating scrutiny and philosophic evaluation of Editor Cook's gifted assets of profound erudition, the members of the New Jersey League of Weekly Newspapers, Inc. are underscoring his amazing intellectual sensitivity and intellectuality in his editorial portrayal of the image of Democracy in its pure crystalline consistency and logical reality; and

WHEREAS, The Members of the New Jersey League of Weekly Newspapers, Inc. are gratefully conscious that the glory of Mr. Cook's democratizing editorials are epitomized and enriched by the factual evidence of the radiation of the true spirit from his permanent personality appeal; and

WHEREAS, Mr. Cook was born October 19, 1898, or 63 years ago at Rahway, Union County, New Jersey. He started his

newspaper career on February 19, 1917, or 45 years ago. He is highly popular among the masses and classes and possesses dynamic personality. His editorial literary style is arresting for its rare simplicity of expression. Mr. Cook graduated from Rahway grammar and high schools. It was in high school that he first became interested in journalism, serving on the high school newspaper. His actual working press career started on February 19, 1917, or 45 years ago, when he was a reporter on the Richmond Virginian. He studied at Richmond College, now known as the University of Virginia. Immediately after enrolling in Richmond College he joined the staff of the Richmond Collegian, the weekly newspaper of the college. He was elected editor in 1920 and 1921. He also served as Editor of the Rahway Record, a semiweekly in his home town. He is a veteran of World War I; has been a Second Lieutenant in the United States Infantry; he is a member of the American Legion of Weehawken, and the Lafayette Lodge of Masons of Rahway. He is married to the former Miss Ida M. Schmidt and resides with his wife at 1090 Briar Way, Palisade, New Jersey; and, therefore

*Be It Resolved*, That the State Senate of New Jersey extend to Mr. A. Bruce Cook our felicitations in rounding out the 45th year as a member of the "Fourth Estate"; and

*Be It Further Resolved*, That a copy of this resolution signed by the Speaker and attested by the secretary be sent to Mr. Cook.

*Resolved*, That the Senate do now recess and proceed to the Assembly Chamber for the purpose of receiving the Annual Budget Message of the Governor.

BUDGET MESSAGE

---

*To the Members of the Senate and General Assembly:*

Just thirty-three days ago, I took my oath of office and assumed the responsibilities of Governor. On that solemn occasion, I outlined, in broad terms, my goals for New Jersey's future.

Today, I present to you my first Budget Message and we begin together, to move toward the goals I discussed on Inauguration Day and in the long months of campaign that preceded.

While governors change, government in New Jersey is a continuing process which, to be effective, must continue to build on foundations established by predecessor administrations. This Budget would continue and expand, in many ways, on the programs and services already in operation. It provides for the education of our youth, for accommodating a more balanced distribution of people between urban and suburban communities, for the decent welfare needs of our more unfortunate citizens, for the continued vigor of our law enforcement and for the myriad other services inseparable from the public interest. And, perhaps most important for the future, this Budget provides for the beginning of a broad new planning program that will lead to more effective government at all levels in the years of change that lie ahead of us. I will spell out in some detail the needs and improvements to which we must devote ourselves in those future years.

While this spending program begins the planning, and frames in outline, the projects of the future, it does not undertake many of those programs which will become our tasks later in this administration. For example, we maintain an impressive program of highway construction in the area where the needs are most critical—the urban regions of our State. But we do not, in 1962-63, strike out with bold new highway building efforts in the lesser developed southeastern sections of New Jersey. We know

we shall have to build in those areas in the next few years if the economy of New Jersey is to continue to flourish and expand. In the vital field of education, to take another example, we continue with established programs of State aid which, indeed, show by natural growth a substantial increase in demand on State tax sources. But over-all educational costs, particularly at the local level, continue to rise even faster. Today, we await a comprehensive restudy of the entire posture of State aid to education. On that and a number of other reviews hinges the future budgetary course of the State's educational endeavors. But the defining of that course must await a future message.

Meanwhile, we have a balanced budget, as required by our Constitution, and a budget which demands no new taxes. It recommends expenditures of \$499,985,751, just a little short of the  $\$1\frac{1}{2}$  billion mark. This Budget anticipates a Surplus on June 30, 1963, of more than \$2.6 million, a very thin margin when considered in the face of total revenue and total spending. While the net increase in this Budget over the amount required in the present year approximates \$29.2 million, actually the increase is more nearly \$38 million. That is so because the present appropriation includes \$8.8 million for capital construction of Institutions and Agencies which is not repeated next year. Instead, the immediate capital needs of that Department will be provided from the proceeds of the \$40 million Bond Issue approved by the people last November.

By far, the greater part of the recommended increases is found in the area of education and welfare. Together they account for \$31 million of the increase. Recommendations for education total \$205.3 million, an increase of \$23.1 million over the present year. Those for welfare total \$106.3 million, an increase of \$7.9 million. No less than \$19.7 million of the \$31 million for these purposes represents items over which there is little or no executive control because of statutory formulae. For the most part, these expenditures are in the area of State aid and subsidies to local districts.

BUDGET REQUESTS

The various State Departments and Agencies submitted requests for 1962-63 to the Budget Director totaling \$591,696,477. From this sum, \$91,710,726 has been pruned in arriving at the amount recommended for legislative approval.

THE BUDGET IN BRIEF

Resources

Estimated Surplus, July 1, 1962 .....	\$8,395,581
Estimated Revenues for 1962-63 .....	494,262,384

RESOURCES

The monthly fiscal report issued by Treasury Officials on December 31, 1961 disclosed that our Estimated Surplus on June 30 next, adjusted by supplemental appropriations passed in January, 1962, will be \$3,839,095. Estimated over-runs of revenue during the current year, together with appropriation lapses will add an additional \$7.3 million to that amount, so that we can anticipate a revised Estimated Surplus of \$11,139,095, next July 1. However, out of this sum we must reserve \$2,743,514 for supplemental appropriations in the current year. Therefore, we estimate a net Estimated Surplus of \$8,395,581 next July 1. This, I am pleased to note, compares with an Estimated Surplus a year ago of some \$1.4 million.

Present law calls for the repeal next July 1, of the 1c cigarette tax which was enacted in January, 1961 to provide initial funds for capital construction in the Department of Institutions and

Agencies. I recommend that this repeal provision be rescinded so that the proceeds of that tax can be available to balance the 1962-63 Budget. The need to amortize and pay interest on the recent educational construction bond issues, to staff and operate the resultant facilities and those financed by capital appropriations alone requires this action.

Treasury Officials estimate that the State's revenue in 1962-63 should equal \$494,262,384. Included in this sum is an estimated \$6 million yielded from the Emergency Transportation Tax assessed against New York residents working in New Jersey. Although definite earnings from this source will not be known until late in April, withholding tax collections from such sources for the third and fourth quarters of calendar 1961 indicate that the tax should produce the amount estimated.

## EDUCATION

As New Jersey strives to meet its obligations to its youth, education costs continue to rise. This is as it must be. We have a rapidly expanding population which makes its needs felt at all levels of our educational system. At the College and University level, we see ever-increasing numbers of young people desirous of and qualified to seek the further training that will advance not only their personal destinies but the economic and social welfare of the entire State.

This Budget contains \$43,535,354 for the cost of higher education, including scholarships. This represents an increase of \$10,636,545. These funds will provide for a greatly increased enrollment at the six State Colleges, the State University, and the Newark College of Engineering.

Total enrollment at the State Colleges during 1963 is expected to reach 42,573 students—12,300 of them full-time and 30,273 part-time. Of this total, 10,688 will be in graduate programs. The increase in full-time enrollment of undergraduates will require 93 additional faculty members. In addition, increased emphasis is being placed on graduate study at the State Colleges. This is evidenced by a 22% increase in graduate enrollments in 1962-63. To assure accreditation, I am recommending 15 fully

State-supported faculty positions toward the support of the graduate programs at the State Colleges.

I am also recommending a total of \$527,000 for student employment at the State Colleges. Similar amounts in previous years were not reflected directly in the budget recommendations but were granted in the form of remitted fees.

At the State University, the enrollment in 1962-63 is expected to total 38,117 students, equivalent to 16,238 full-time students. To accommodate this number, I am recommending 126 additional faculty positions and 86 positions for non-academic purposes, including operation of new facilities. Funds also are added for additional equipment and supplies to permit the University to maintain its position as the capstone of public higher education in our State. I am recommending sums for use at the State University to construct a classroom building on the Douglass Campus at a cost of \$1,750,000. Funds are also provided to improve and equip the facilities at the Newark College of Arts and Sciences at a cost of \$220,000.

Of particular significance is a \$700,000 recommendation toward the installation of a 15 million electron volt tandem Van de Graff accelerator at the State University for research in low-energy physics. The accelerator, a most important research and educational tool in these days of rapidly advancing nuclear science, will cost, with its housing, more than \$2,500,000. The University will provide the balance, partly from a bequest, and partly by co-operation from industry.

Continuing our relationship with the Newark College of Engineering, with which the State Board of Education contracts for the purchase of higher education, we are appropriating sufficient sums to provide educational opportunities for New Jersey residents in the field of engineering, so vital to the New Jersey of the nuclear and space age. Approximately \$200,000 more has been recommended in 1962-63 than in the current fiscal year.

This is the first budget in which a major impact of the construction program under the 1959 State higher education bond issue will be felt. There will be a total of 40 buildings under

construction during 1962-63 of which 22 will be completed and used for at least part of the year. To maintain these buildings, more maintenance and custodial employees will be needed and substantial amounts will be required for equipment, supplies, fuel and utilities. Without these buildings, it would have been impossible for the State to accommodate the enrollments anticipated.

### SCHOLARSHIPS AND LOANS

The State competitive scholarship program will embark on its fourth year in 1962-63—its first year in full operation. It will require \$3,130,750 for 9,062 scholarships and represents an increase of \$1,281,000 over the amount now appropriated. Of that number, 3,350, at a cost of \$1,155,750, will go to freshmen and the remainder will be renewals of those already awarded.

As the number of high school graduates increases over the next several years, this program will expand to as many as 12,000 scholarships, to cost as much as \$5 million in 1965, under present standards.

In addition, we expect to guarantee student loans in excess of \$1.5 million by the end of 1963. Under our present loan program, the State must set aside 20% of the outstanding loan as a guarantee to the banks in the event of default by the student. To guarantee additional loans next year, \$170,000 will be needed, making a sum of \$320,000 available for this purpose.

These programs further illustrate the determination of the State Government that every qualified student shall have the opportunity to obtain higher education if he desires.

### A LOOK AT THE FUTURE IN HIGHER EDUCATION

Enrollment pressures at Rutgers, the State University; the State Colleges; Newark College of Engineering; and the private colleges are increasing year by year. As the children born in the high birth rate years of 1945 and 1946 reach college age, the pressures will become much more severe. High school graduates in 1961 totaled slightly more than 66,000 students. Of that class, 24,000 entered college, 13,200 in-state and the remainder

out-of-state. It is estimated that in 1965 approximately 85,000 students will be graduating from New Jersey secondary schools and 34,000 of them will be entering college.

In the academic year 1961-62, the State Colleges were able to accept as freshmen only 3,400 of the 5,400 high school graduates who applied and were qualified for admission. At the State University, during the same year, the freshman class totaled more than 3,200 and the University had to turn away hundreds of qualified young people for lack of facilities.

New Jersey's position is by no means unique. All of the public colleges and universities throughout the United States are feeling the pressure of the increasingly larger graduating high school classes. In the past, New Jersey has led the Nation in the migration of students out-of-state. It appears obvious that out-of-state public institutions will be unable to accommodate the same high percentage of New Jersey students as they had in the past. Legislatures of other States are placing restrictions on the number of out-of-state students which may be accepted. For us in New Jersey, this poses the problem of providing higher education facilities for our own young people. In the very near future, the State Board of Education will publish its report on higher education needs which will spell out the problem in greater detail. It is appropriate that I point this out to you now as a problem which we must solve in the future. One step in alleviating the situation would be the adoption of the Community Junior College Program. Another would be the expansion of our present University and State College system. Whatever the changes, the State must look forward to greatly increased appropriations for capital improvements and operational expenses in the area of higher education.

#### FACULTY SALARIES

The acute competition among the States for qualified faculty members in institutions of higher education compels New Jersey to establish more adequate salary scales in order to attract and retain competent instructors. I recommend that we adopt the proposal of the State Board of Education that the salary range be increased for all academic employees engaged in teaching.

Funds in the sum of \$350,000 are included to accomplish that proposal.

I also am recommending \$100,000 to implement the proposal of the Board of Governors of the University and the State Board of Education to permit, under certain conditions, special salary rates for Professors and Assistant Professors over and above the ranges to be established. This would permit—for certain Professors engaged in teaching graduate students—a maximum salary of more than \$15,000 for 10 months' service. Thus, we seek to assure the high quality of instruction that, more than bricks and mortar, is the foundation of an educational system.

#### STATE AID —EDUCATION

As I have noted, population increases are directly reflected in the rise of State aid for education. The amount recommended for this purpose is \$106,741,383 representing an increase of \$4,506,384 over the sum now appropriated. This increase includes \$2,550,081 for formula aid; added transportation aid of \$602,000; and \$293,000 for the atypical pupil program. An added \$375,000 is earmarked to expand programs for emotionally and socially maladjusted children. School building aid, also by formula, will require an increase of about \$250,000, and aid for certain libraries is increased 50% to \$600,000.

#### TEACHERS' PENSION AND ANNUITY FUND

The State provides the school districts' share of pension and social security costs for the teachers they employ. The amount required for such costs next year is \$47,893,974, or \$7,468,000 more than is currently appropriated. This increase is the direct result of the growth in the number of teachers and the increase in their salaries.

#### NEW BUILDING—SCHOOL FOR THE DEAF

I am proposing \$700,000 to build a dormitory to accommodate students who will attend the new classroom facility expected to be completed at the School for the Deaf in the Fall of 1963. I hope that the dormitory can also be ready at that time.

## INSTITUTIONS AND WELFARE

The total amount recommended to support all the activities of the Department of Institutions and Agencies is \$106.3 million of which \$64.6 million is for operations of the Department, \$36.4 million is for State aid and \$5.3 million is for capital construction. The amount for general operation of the Department includes an increase of \$3.3 million. State aid accounts are increased by \$4.4 million and capital construction by \$200,000 for a total of \$7.9 million.

## STATE AID

A large share of the State aid increase—amounting to \$2,750,000—is for assistance to dependent children. This is consistent with a nationally familiar pattern of a rising case load due to economic dislocations, family problems and the increasing population. In New Jersey, part of this case load rise results from a shift of recipients from the general assistance program. If case load projections are reasonably accurate, about 25 children in every thousand will require aid through this program next year.

Nonetheless, New Jersey citizens are less reliant on the various public assistance programs than most of our New England and Middle Atlantic States neighbors. For example, our dependent children recipient rate is lower than Rhode Island, Maine, Pennsylvania and New York and is the same as Massachusetts.

## NEW POSITIONS

Additional positions totaling 268 are recommended to assure adequate medical services, to staff new facilities, to meet rising case loads, to improve food service, to strengthen inmate control and to extend treatment programs for a rising institutional population. One hundred seventeen of them will serve at the institutions for the mentally retarded to improve standards of care and to reduce dependence upon the retarded in residence. Special consideration is directed at upgrading patient care and treatment at New Lisbon State Colony.

## SPECIAL PROGRAMS

Funds are provided for the State's mental hospitals to progress in the expansion of out-patient departments, in obtaining a more homelike atmosphere within the institutions, to better organize programs of volunteer service, and to increase medical staff time for direct patient contact. The Department is now surveying residential facilities and mental health services for children and geriatric patients, as well as the sectionalizing of our large institutions. To promote these and other studies, the Budget includes funds for a Statewide Governor's Conference on Mental Health to develop a long-range New Jersey mental health program. State funds of \$325,000, together with grants from the Federal Government, private organizations and pharmaceutical companies will continue the sound investigative work being done at the mental health research center.

With the additional funds recommended for institutions for the mentally retarded, emphasis can be directed to improve resident training, medical programs and cottage life coverage. Next year a work camp on the New Lisbon grounds will be opened to accommodate selected Bordentown Reformatory inmates who will be assigned to the food service operation. This will have many beneficial effects including substantial improvement in food service and sanitation and the provision of constructive work for inmates from an institution where over-population is most serious. The first funds are provided to plan, in advance of construction, for the opening of the new 1,000-bed Woodbridge institution moving rapidly ahead as a result of appropriated and bond issue funds. Relief from the waiting list is on the horizon—to meet perhaps the deepest family tragedies in contemporary New Jersey life.

With the passage of the recent \$40 million Bond Issue, funds were provided for crisis projects needed by this Department. Augmented by \$13.1 million from the temporary 1c cigarette tax, \$53.1 million is now available for such construction. Although these funds had been intended originally to include the cost of the first phase of a new reformatory and as a start on a second new institution for the mentally retarded, revised cost estimates for all other projects contemplated within that amount will not make it possible to finance them from these sources.

Funds for these and other important construction projects, including major reconstruction, renovation, employee housing and electrical, plumbing and water improvements, have been sought by the Department in this Budget. Lack of current funds has made it necessary to defer these and other capital requests.

With New Jersey's expanding population, it is reasonable to conclude that such improvements in the future must be provided in anticipation of needs, rather than after they become critical. While bond issues have provided New Jersey with excellent facilities in the past, we should look to the future in developing our needed capital construction on a long-range pay-as-you-go basis.

One more word: While our responsibilities in this area are burdens on the public treasury, they are, more than that, an unavoidable responsibility on the public conscience. The homeless, the friendless, the retarded, the mentally ill and even the inmates of the prisons can look only to us, the government and the people of New Jersey, for their future. If we fail them, we fail ourselves as a society—we do injustice to our self-respect.

#### TRANSPORTATION - HIGHWAYS

It goes, almost without saying, that safe, convenient and speedy transportation is essential to the continued economic well-being of our State. The degree of success with which we maintain and improve the arteries of commerce, will, to a great extent, determine our growth.

New Jersey's transportation problems are perhaps more complex than those of any other State. The relatively high volume of travel by out-of-state motorists, the need to move thousands of commuters each weekday, the great dependence upon heavy trucks to move goods to, through and within the State and the demands of our rapidly-growing suburban and rural areas require a well-integrated transportation program.

The fulfillment of these needs is made the more difficult and costly because a major portion of New Jersey's most urgent

transportation needs are manifested within the most heavily congested areas. This is reflected in the high cost of all phases of transportation improvements, from preliminary engineering to the finished facility.

This Budget would increase the State's financial recognition of our transportation needs beyond that accorded in the present year. Much of the increase is in direct consequence of a reduction due to programmed changes in Federal aid which, next year, will amount to \$78.5 million compared to \$84.7 million in the current year. This results from \$7.7 million less in 90-10 Federal aid. This is offset partially by an increase of \$1.5 million in 50-50 aid. The State's matching share of both programs, slightly more than \$23,000,000, increases due to the need to provide more money on a 50-50 basis and less on a 90-10 basis.

### HIGHWAY CONSTRUCTION

As in recent years, \$12 million is recommended for purely State projects. The operating cost of the Highway Department's Construction and Right-of-Way Divisions, provided for in the capital section of the Budget, show an increase of \$864,000, largely due to the immediate need for additional engineers, appraisers and negotiators. The addition of 141 new jobs is necessary to expedite the construction program.

### RAILROAD TRANSPORTATION AND INTERSTATE CO-OPERATION

Funds to the extent of \$6 million are recommended for the continuation of our Passenger Service Contract program at current rates and to pay New Jersey's share of the cost of the Bi-State Transportation Agency and the Tri-State Transportation Committee. It is estimated these two latter costs will amount to \$50,000 for each organization. The cost of a contract to insure continuation of the Chester-Bridgeport Ferry service, estimated at \$100,000, is also included.

I am happy to observe that we now can look for more than stopgap improvements in rail service as a result of the Port of

New York Authority's pending entry into this area with the purchase and improvement of the Hudson and Manhattan Tubes and the concomitant connection of essential commuter railroad lines.

Appropriations totaling \$2 million have already been made for grade crossing elimination projects on the Camden-Kirkwood line. It has been estimated that an additional \$1 million will be needed to complete these projects. However, since it will not be possible to expend present appropriations for such construction during the next fiscal year, I am deferring a further recommendation until 1963-64.

### GENERAL OPERATIONS

To increase the efficiency of the Highway Department's general operations, this Budget recommends expenditures of \$695,000 for construction of maintenance garages and service buildings in various parts of the State, an increase of \$600,000 from the current year. The maintenance of our highway system and the operation of the Department will require an increase of almost \$1.1 million. In the past eight years, 538 lane miles have been added to the capacity of the State Highway System. Completion of major projects now under construction will throw an added burden on the Highway Department's maintenance forces. Completion of our interstate routes undoubtedly will require still greater outlay. This demand will be met as it occurs.

### CONSERVATION AND ECONOMIC DEVELOPMENT

Funds in the sum of \$10,096,890 are recommended for operation of this Department and for the State aid which it administers, an increase of \$800,000. They include the State's share of \$638,417 for the cost of a greatly expanded planning program in which the Federal Government and local jurisdictions will be partners. Together with matching funds, there will be \$3 million for a concentrated joint effort to move forward in State-wide and regional planning and for a new program of long-range urban renewal planning, as well as assistance to municipalities

with master planning on a continuing basis. The new Division of State and Regional Planning, by which these programs will be administered, eventually will become one of the major divisions of my proposed Department of Urban and Suburban Affairs.

We all realize that there are no substitutes for outstanding educational institutions, efficient transportation facilities, a skilled work force, top-flight water supply, desirable residential areas and an equitable tax climate as a basic attraction to the new industry so important to our continued growth. Nevertheless, even the State that possesses these assets in abundance must make known to industry their availability. I, therefore, recommend that we increase the appropriation for promotion expenses to \$250,000, or \$50,000 more than now available. I believe that money spent in this way will contribute to the over-all growth of our State.

To better keep pace with the problems of technology, I feel we should take advantage of the tools of technology. Therefore, I am including \$70,000 for the purchase of a helicopter and \$30,000 for its operation. This equipment will be invaluable for more effective traffic and forest fire control, to aid in curbing pollution of our beaches and waterways and for other law enforcement activities. While the purchase and maintenance costs will be assessed to the Department of Conservation and Economic Development, this helicopter will be available to all departments where its use can have a beneficial impact.

Additional funds are recommended for the Division of Shell Fisheries for more effective protection and supervision of our shell fish beds. Stepped-up patrolling of polluted waters is essential for health purposes.

As we acquire open spaces out of the proceeds of the recently enacted Green Acres Bond Issue, we should be placing them in use for the recreation of our citizens. Capital funds will be required in future years to develop these lands as cabin, camp and picnic sites.

#### LAW AND PUBLIC SAFETY

The sum of \$20,926,805 has been recommended for the operations of this important Department, an increase of \$1.1 million.

Of this increase, \$538,000 is reflected in the Division of State Police for which I am recommending 38 additional Troopers to be assigned to general police activities and seven other employees for operation of the Division. The needs of this Division also reflect the changing pattern of our State's growth. As our population and the accompanying commercial activities of all kinds continue to move to rural and suburban areas, they create traffic control and other law enforcement problems with which those areas never before have been faced. Unfortunately, many of the municipalities in those areas have not kept pace with these problems of growth. As a result, the State Police, through sheer necessity, have had to move in to correct or prevent breakdowns in law enforcement.

An additional \$406,000 is being recommended for the operation of the Division of Motor Vehicles. It includes \$125,000 for range revision of positions in the Motor Vehicle Examiner class. This is in keeping with my pledge to recognize the need for range revision of this group of employees. This Division's Budget also reflects the gradual shift in the operational policy of the inspector force to enable it to focus attention upon driver testing and re-testing, together with special investigations, while transferring the function of road patrol to the State Police. This is a move to concentrate the skills of the inspector force upon critical human factors in safe vehicle operation. We are finding that one out of every three driver license applicants fails to pass the examination. The recommendations also include 34 new positions to accommodate an assortment of workload increases in special areas.

We should expect continuing improvement in efficiency of this Division as the result of further consolidation of its activities in its new building and from the improvement of its automatic data processing capabilities.

At the heart of law enforcement activities is the Division of Law. Here, I am recommending funds for five new positions to enforce the Consumer Frauds Law and the Home Repairs Financing Act.

## LABOR AND INDUSTRY

Recommendations for this Department reflect an increase of \$773,000, making a total of \$6,916,000 available for its operations. The lion's share of this increase, or \$505,000, will permit the Rehabilitation Commission to increase its services to our disabled citizens and return them to productive life. The Federal Government will contribute 55% of the total recommendations for this Commission.

In other units of this Department, funds have been provided for increased workload, particularly in the Bureaus of Engineering and Safety and Mechanical Inspection and the Divisions of Workmen's Compensation and Disability Insurance Service. I also am including part of the funds which this Department will require to place advance orders for office equipment and furniture when it moves into its new building in 1963-64.

## RETRAINING WORKERS

I have asked the Commissioner of Labor and Industry to establish an office of automation and manpower in that Department in order to give full attention to the growing problems in this field. Some Federal funds undoubtedly will be available to meet the cost of this unit. It is essential that New Jersey give high priority to training and retraining workers affected by technological changes in our dynamic economy.

## DEPARTMENT OF DEFENSE

Funds in the sum of \$2,373,000 are recommended for this Department. They reflect an increase of \$150,000, primarily for the Division of Civil Defense. Through substantial participation of the Federal Government, on a matching basis, in an effective civil defense program, there will be a total sum available of \$315,000 with which this Division can better prepare plans for emergencies at all levels of government.

Capital construction and special maintenance funds also are recommended for the National Guard to expand and improve its armory facilities.

The increased activity in these areas results from factors beyond our control as a State Government. But these same factors impose on us, as Americans, corollary obligations, to take the fullest advantage of nationwide civil defense programs and to do all within our power to maintain the New Jersey National Guard in full readiness for any emergency.

#### DEPARTMENT OF HEALTH

To safeguard adequately the health of our people, I am recommending for health purposes \$3,750,000, or nearly 10% more than the funds made available this year. These funds include 32 new positions in such programs as environmental health, preventable disease, vital statistics and administration, drug regulation and local health. A third of the scientific equipment to be used in the new Health and Agriculture Building will require \$60,000 with which the Department can place advance orders in anticipation of completion of the building in 1964.

To intensify the study of arbor virus transmission, \$8,000 is recommended. This is a study of the relationship between encephalitis in humans, insects and other animals. Additional funds also are provided to combat a recent increase in venereal disease. With the added funds made available to this Department, more intensive work will be possible in the area of air pollution, radiation control, milk control and occupational health.

This Department has made a modest start through small grants-in-aid to local districts to strengthen health measures. The Public Health Council has indicated a desire to expand this program. This must certainly be a project to be considered in subsequent messages.

#### OTHER PROGRAMS

In the Department of the Treasury, funds are provided to augment assistance to local assessors during the period of adjustment to the new basis of personal property assessment outlined in Chapter 51, P. L. 1960. The funds include \$115,000 to continue the study of business personal property assessment in conjunction with that law. Added funds are provided for the Transfer In-

heritance Tax Bureau to create one more examining team. This will accelerate the assessments and collections of tax revenues from this source.

During the Spring of 1963, the Division of Purchase and Property will begin the maintenance of the Department of Education Building, the first of the new buildings in the State Capitol development program. This Budget carries \$48,000 for new employees and maintenance costs to staff and operate that structure.

The Budget also includes \$90,000 to be paid to the Teachers' Pension and Annuity Fund as part of the annual cost of rent for this building. In each of 19 subsequent years, the annual rent will be \$216,000. In the Bureau of Construction there are recommended six new positions for the greatly expanded construction programs.

Congress is presently considering an increase in postage rates. This could add as much as 25% to postage costs in this Budget. Because of this probability, I have included \$250,000 to cover such increase.

I am recommending \$500,000 for the purchase of one-half the acreage still to be obtained by the State in John Fitch Way, under its contract with the City of Trenton for further development of the State Capitol building complex.

I am also making provision for \$284,000 as a supplemental appropriation in the current year for the cost of a new cafeteria for State employees to be located between the State House and the Annex. An additional \$239,000 will provide for the redistribution of the electrical system in the State House.

Additional funds are recommended to the Department of State for the administration of two new programs which were legislated during the past year. The Youth Division, now part of the Department of State, has been granted \$35,000. This new Division will carry on and expand the work previously done by the Youth Study Commission, formerly an agency in the Legislative Branch. The administration of the Uniform Commercial Code, a section in the office of the Secretary of State, has been granted

\$25,000 for the purpose of installing the system required for the recording of certain liens and other documents previously handled by the various counties. That system will become effective on January 1, 1963. Its operating cost for the balance of the year should be met from the recording fees to be charged and I am recommending the appropriation of such fees.

To assist the Department of Civil Service in providing for the additional municipalities that have adopted civil service, increased funds in the sum of \$115,000 have been recommended.

In the Department of Banking and Insurance funds are recommended to strengthen the functions with which this Department is entrusted.

Funds are also provided to expand the activities of the Department of Agriculture and care for the additional workload.

The Tercentenary Commission is increasing its activity toward the celebration of New Jersey's 300th birthday in 1964. \$150,000 has been recommended in this Budget for the various programs in which the Commission is presently engaged and on which it will embark in fiscal 1962-63. In addition, \$500,000 is recommended as New Jersey's share of the cost of erecting a building at the New York World's Fair. This installation will have as its theme New Jersey's Tercentenary. It is expected that this \$500,000 will be augmented by a similar sum in gifts from private sources.

Funds for the operation of The Judiciary will be increased to expedite the work of the courts. Funds also are included to expand the courts' program for improvement of the county probation departments.

#### PENSIONS AND OTHER EMPLOYEE BENEFITS

Payments to State pension funds, including social security taxes, will require an additional \$1.2 million next year. This increase includes \$500,000 to liberalize and extend the pension increase act of 1958 so that benefits payable to members of the State Retirement Systems, who retired prior to 1955, can be adjusted for the increase in living costs.

In addition, \$4.7 million is provided in the Budget to pay merit increments of 5% to all employees who have not reached the maximum of their salary ranges. Also included is \$2 million to continue the State employees' health benefits program.

### CONCLUSION

I have attempted to detail our fiscal plans for 1962-63 and have placed before you only some of the inevitable problems which we must face in the future. For a number of years, many interested citizens have been advocating a greatly expanded program of State aid for local education. It is contended that such a program is necessary if we are to control the rise in tax on real property in the local districts. Bills have been introduced in the current session of the Legislature which would increase the present State aid formula for education, not only for operating expenses in the local schools but for school construction purposes as well. Other bills have been introduced calling for State aid for other municipal services, including additional State aid to counties and municipalities for highways and for the establishment of a State aid program assisting the local communities in sewage and garbage disposal.

A recent report by the Mental Health Commission suggested possible revision of the present formula under which the State and the counties share in the operating cost of mental hospitals under their respective jurisdiction. A revision of the present formula would cost the State approximately \$8,000,000 to \$10,000,000 more per year than at present.

Most of the proposals to which I refer are directly related to the problem of either reducing or at least stabilizing the present tax on real property.

In this Message I have also pointed out the needs for capital construction on the State level which obviously will be followed by additional maintenance and operation costs. These are principally in the areas of institutions, education and conservation.

It is my firm conviction that in order to insure our future economic progress, more capital funds must be found to expand our increasingly inadequate highway system.

The Commission on State Tax Policy is presently studying the need for an increase in our current State aid for education program. As I already have announced, I propose to appoint a group of representative citizens who, together with the Commission, will make a searching study of the whole problem. This will be a very difficult task. But I do not believe we can shut our eyes to the needs outlined in this Message. When this Committee completes its work and submits its report to me, I will deliver to you my recommendations for solving the very serious problems with which we are faced and will seek your co-operation in reaching a just solution.

Respectfully submitted,

RICHARD J. HUGHES,  
*Governor of New Jersey.*

WHEREAS, The Senate believes that the development of new jobs by the State's business community has a direct relationship to the personal welfare of all our citizens and is thus in the public interest; and

WHEREAS, A favorable environment to encourage business expansion and to attract new industry is essential for the broadening of employment opportunities for all the people; and

WHEREAS, Such an environment is comprised of elements that are economic, political and social and includes attitudes of government and all other groups and individuals toward business; and

WHEREAS, The actions of the Senate to improve the environment in which business and industry must operate, and to increase its competitive strength, will contribute directly to the continuing prosperity of our State and to the constantly rising standard of living of all our citizens.

*Be It Resolved by the Senate of the State of New Jersey:*

1. That the Senate henceforth shall examine all proposed legislation relating to commerce, industry and agriculture in terms of its effect upon job opportunities in the State and shall determine whether such legislation may have any future discriminating or deterring effect upon the investment of capital and the creation of needed payrolls in New Jersey.

2. The members of the Senate hereby request the Governor and the heads of each department in State Government to examine their own discretionary actions and orders in any way relating to commerce, industry and agriculture, in terms of the effect of such governmental action upon new jobs for New Jersey.

3. The Senate reaffirms its dedication to fair and just treatment in legislation and regulation for all segments of our economy; of fair and equitable policies of taxation; of impartial treatment for labor and management in their relationships with government; and of recognition of the basic rights of all our citizens, both individual and corporate.

Messrs. Bowkley, Connery, Deamer, Dumont, Farley (President), Fox, Grossi, Harper, Hillery, Kelly, Lynch, Mathis, Ozzard, Sandman, Stout, Waddington, Weber—17.

In the negative—None.

Mr. Farley returned to the President's chair.

Mr. Mathis offered the following resolution, which was read and adopted:

WHEREAS, During the severe coastal storm of March 6-8, 1962, there were many exhibitions of bravery and courage in rescue operations; and

WHEREAS, Three men attempted a rescue of persons in the Beach Haven Inlet sector of the Township of Long Beach, in a Township Civil Defense truck, along the Boulevard south of the Borough of Beach Haven but in so doing lost their lives; and

WHEREAS, It is but fitting that their bravery be commended and the sacrifice of their lives be remembered; and

WHEREAS, These three men were:

Kenneth Chipman, Long Beach Township Commissioner, Vice Chairman, Township Sewerage Authority.

Angelo J. Leonetti, Brant Beach, Chief of Police, Township Long Beach.

Robert F. Osborn, Beach Haven, former President Beach Haven First Aid Squad, a charter member of that squad.

*Be It Resolved* by the Senate of the State of New Jersey, That public expression is hereby given to the memory of Kenneth Chipman, Angelo J. Leonetti and Robert F. Osborn who lost their lives in an attempted rescue of persons in the great storm of March last; and

*Be It Further Resolved*, That this Resolution be spread upon the Journal of the Senate and that a copy, signed by the President of the Senate and attested by the Secretary of the Senate, be sent to each of the families of the said heroes Kenneth Chipman, Angelo J. Leonetti and Robert F. Osborn.

Mr. Farley requested the Senate to rise in silent prayer for the loss of life of Kenneth Chipman, Angelo J. Leonetti and Robert F. Osborn.

Mr. Deamer, on leave, introduced

All Senators offered the following resolution, which was read and adopted:

WHEREAS, Former Senator Robert C. Crane, of Union County, died on April 24, 1962; and

WHEREAS, Upon the organization of the 186th Session of the New Jersey Legislature on January 9th last, Senator Crane's bravery and courage in continuing to serve as a member of the Senate in the face of imminent peril to his life from the malady which was a constant threat to him, was recognized by his then election as President of the Senate; and

WHEREAS, At that time the members of the Senate reviewed Senator Crane's career as an able and conscientious newspaper editor and Senator; and

WHEREAS, Shortly thereafter, Senator Crane found it necessary to resign first as President of the Senate and then as the Senator from Union County in order that his county could be represented by a Senator to be chosen in the current year; and

WHEREAS, Senator Crane's death has come as a shock to his former fellow legislative colleagues and to the public in general because Senator Crane's passing is particularly

untimely in view of the comparatively few years that he had within which to display his great ability and integrity in both his private and public life; and

WHEREAS, It is also to be remembered that Senator Crane had a distinguished record in serving in the Armed Forces of the United States in World War II, and his activities included membership in philanthropic, educational and civic organizations as well as in governmental commissions and committees; now, therefore,

*Be It Resolved by the Senate of the State of New Jersey:*

1. That this body pays tribute to the memory of former Senator Robert C. Crane and expresses on behalf of itself and the public appreciation for Senator Crane's services to the State and regret for his passing; and

*Be It Further Resolved:*

STATE OF NEW JERSEY,	}
EXECUTIVE DEPARTMENT,	
April 30, 1962.	

SENATE BILL NO. 18

*To the Senate:*

Pursuant to Article V, Section I, paragraph 14(b) of the State Constitution, I am returning Senate Bill No. 18 herewith, with my objections, for reconsideration.

This bill would increase survivors' benefits under the Consolidated Police and Firemen's Pension Fund. Primarily, the benefits with which the bill is concerned are those promised to the survivors of a policeman or fireman who died while not on duty, or subsequent to retirement. Under the present law the widow in such case receives for life, or until her remarriage, an annual pension equal to  $\frac{1}{2}$  the average salary formerly received by her deceased husband, with a maximum of \$1,000.00 per year.

This bill would raise every widow's pension to \$1,200.00 per year without regard to average salary. There would be a comparable increase in the amounts payable to children

under 18 where no widow survives. The bill does not deal with the pensions of widows where death occurred while on duty, except to establish a \$1,200.00 minimum in cases of death occurring prior to June 1, 1948.

The individuals for whose survivors these benefits are provided were frequently called upon to perform extra-hazardous duty, often at low rates of compensation. I am, therefore, sympathetic to the objectives of the bill.

However, there are several reasons why I cannot approve the bill in its present form.

The current annual cost of providing the increase in benefits proposed by this bill amounts to \$750,000.00. Under the formula prescribed in Section 3, the State is to contribute annually  $\frac{1}{2}$ , or \$375,000.00 and the respective municipalities  $\frac{1}{2}$ , of this amount. Section 4 provides for an effective date of January 1, 1963. Accordingly, an appropriation of \$187,500.00, to cover the State's contribution for half of fiscal year 1962-63, is required. No appropriation is provided for in the bill.

There is, furthermore, the possibility that the existing language of R. S. 46:16-3, when read together with the amendment contemplated therein, creates an ambiguity that might be interpreted as providing for retroactive increases in pension benefits for widows of members who died since June, 1944. I am certain that this result, which would involve an additional cost of \$11,000,000.00, was not intended.

Accordingly, I am returning Senate Bill No. 18 for reconsideration, with the recommendation that the bill be amended as follows:

On page 1, title, line 4, after the word "Statutes" insert "and making an appropriation therefor".

On page 2, section 1, lines 36 to 39 inclusive, delete the sentence "The widow of any member who died on or after July 1, 1944, and who is not receiving at the time this amendment takes effect a pension equal to the amount provided by this amendment, shall, beginning April 11, 1945, receive a pension in the amount provided by this amendment."

On page 3, section 4, line 1, delete section 4 in its entirety and insert in lieu thereof:

“4. There is hereby appropriated out of the general treasury the sum of \$187,500.00 to the Consolidated Police and Firemen’s Pension Fund as the State’s share of the additional benefit provided herein for the fiscal year ending June 30, 1963.”

On page 3, following the new section above inserted, add a new section as follows:

“5. This act shall take effect January 1, 1963.”

Respectfully,

[SEAL]  
Attest:

On motion of Mr. Sandman, the journal of the previous session was approved and its further reading was dispensed with.

At the request of Mr. Sandman, the following statement was read by Secretary Patterson:

STATE OF NEW JERSEY  
DEPARTMENT OF STATE

I, Robert J. Burkhardt, Secretary of State of the State of New Jersey, do hereby certify that Nelson F. Stamler was elected State Senator of Union County on November 6, 1962 to fill the vacancy caused by the resignation of Robert C. Crane for the unexpired term.

IN TESTIMONY WHEREOF, I have hereunto set my hand and affixed my Official Seal at Trenton, this nineteenth day of November A. D. 1962.

ROBERT J. BURKHARDT,  
*Secretary of State.*

President Farley appointed Messrs. Sandman and Cowgill to escort Mr. Stamler to the rostrum, for the purpose of administering the oath of office to Mr. Stamler.

The oath of office as Senator was administered to Mr. Stamler by Justice Schettino. After the oath of office was administered, Mr. Stamler addressed the Senate.

Mr. Mathis offered the following resolution which was read and adopted:

WHEREAS, Former Senator James K. Allardice died on August 18, 1962; and

WHEREAS, Mr. Allardice had a long, successful and interesting career as a legislator, entertainer, theatrical producer and newspaper man; and

WHEREAS, Mr. Allardice held the position of Clerk of the Ocean County Board of Freeholders for 24 years and was elected to the State Senate in 1935 and was reelected to the Senate in 1936 and 1937 and served with the New Jersey Civil Service Commission for three successive five-year terms; now, therefore,

*Be It Resolved* by the Senate of the State of New Jersey:

1. That this body pays tribute to the memory of former Senator James K. Allardice as an outstanding citizen of the State and, on behalf of itself and the public, expresses appreciation for Senator Allardice's services to the State and regret for his passing; and

*Be It Further Resolved:*

2. That this resolution be spread upon the Journal of the Senate and a copy signed by the President of the Senate and attested by the Secretary of the Senate be forwarded to the family of the late Senator James K. Allardice.

Mr. Weber offered the following resolution which was read and adopted:

WHEREAS, Former Senator Firman M. Reeves of Cumberland County, died on June 23, 1962; and

WHEREAS, Mr. Reeves had a long and distinguished public career, having served first in the General Assembly and then in the Senate as the legislative representative of his county and as President of the Senate and Acting Governor in 1924, and, thereafter, as a member of the State Highway Commission for two terms; and

WHEREAS, Mr. Reeves was active in civic, fraternal and business circles, including upwards of twenty years in the Millville Fire Department and patriotic and athletic enterprises; and

WHEREAS, It is but fitting that this body, of which he was a distinguished member, should pay tribute to the memory of former Senator Reeves; now, therefore,

*Be It Resolved* by the Senate of the State of New Jersey :

STATE OF NEW JERSEY,	}
EXECUTIVE DEPARTMENT,	
November 19, 1962.	

SENATE BILL NO. 115

*To the Senate:*

Pursuant to Article V, Section I, paragraph 14(b) of the Constitution, I herewith return Senate Bill No. 115, with my objections, for reconsideration.

This bill would require the State Board of Child Welfare to distribute monthly to each approved agency a "list con-

taining the name and personal data of each child in its care who is eligible for adoption." It would also authorize and empower the State Board to surrender to any approved agency the custody of any child in its care who is eligible for adoption and would make this surrender mandatory upon receipt of a request therefor from any such agency.

I am in full agreement that the agency should be able to readily obtain information about children eligible for adoption. It is obvious that improvement could be made in existing procedures in this respect. As stated by the Joint Welfare Investigating Committee, on page 52 of their recent report on child welfare, an effective procedure for dissemination of such information would "encourage the use of private facilities and thereby lessen the burden on the citizens of the State." The difficulty lies not with the principle involved but with the method selected for making such information available to the agency. If the Board of Child Welfare were required to prepare each month a list containing sufficient personal information on each child to make such listing meaningful to the agencies, the administrative burden and cost of this project would be disproportionate to the results that might be expected. I suggest, instead, that this information be placed in one center and be made available there to all approved agencies. In addition, section 2 which authorizes the Board to give approved agencies custody of children eligible for adoption is unnecessary. This is now being done pursuant to present law.

I would also recommend that the language in section 4 be deleted since the requirement that the Board surrender children upon the request of any approved agency would conflict with P. L. 1962, c. 139, which gives foster parents preference and first consideration.

Accordingly, I am returning Senate Bill No. 115 for reconsideration, with the recommendation that the bill be amended as follows:

On page 1, Title, after the words "concerning the" delete the words "surrender of the custody of certain children in the care of the State Board of Child Welfare, or of the instrumentality or agency of the State succeeding to its powers, to approved agencies in certain cases" and insert in lieu thereof "establishment of an Adoption Resource Exchange in the Department of Institutions and Agencies".

On page 1, section 1, line 2, delete the words " or without".

On page 1, section 1, lines 2 and 3, delete the words "has been approved by" and insert in lieu thereof "holds a valid certificate of approval from".

On page 1, section 1, lines 4 to 6, delete the words "and which holds a current valid certificate evidencing such approval issued by the department".

On page 1, section 2, lines 1 to 9, delete section 2 in its entirety.

On page 1, section 3, line 1, delete "3." and insert in lieu thereof "2."

## SENATE BILL No. 116

*To the Senate:*

Pursuant to Article V, Section I, paragraph 14(b) of the Constitution, I herewith return Senate Bill No. 116, with my objections, for reconsideration.

This bill would establish in the Department of Institutions and Agencies, a Bureau of Collections, directed and supervised by a deputy attorney general, to collect money due to the State for services, assistance, relief or care provided by the State through the Department.

Within its present structure, the Department already has a Bureau of Maintenance Collections which provides adequate facilities for the collection of such moneys. This bureau was established by administrative action and, in conjunction therewith, the Civil Service Commission established a classified position for the head of the Bureau. In addition, the Department of Institutions and Agencies has assigned to it a deputy attorney general whose duties include giving legal assistance to this bureau. I have been informed that the bureau is efficiently functioning under the supervision of a competent and experienced chief who has advanced to this position after meeting various civil service requirements. The effect of enactment of this bill would be to impair efficiency by creating two separate bureaus, one for institutional maintenance collections and the other for sums of money due related agencies, while displacing to a considerable extent an experienced career employee.

This bill was introduced as part of the package of legislation resulting from the report of the Joint Welfare Investigating Committee regarding our child welfare laws. The Committee found that the Bureau of Child Welfare had an accumulation of accounts receivable from parents who had either agreed to pay the cost of assistance for their children or had been ordered to do so by the court. In point of fact, this accumulation was due not to the lack of adequate facilities for collection but to the failure of the Bureau of Child Welfare to use existing facilities.

Therefore, part of this bill is unnecessary since in establishing another bureau it would duplicate the activities of the present bureau. In order to avoid the accumulation of accounts receivable in the future, it is my suggestion that we give legal sanction to the present bureau and preserve that section of this bill which would make reporting of accounts receivable to this bureau mandatory.

Accordingly, I am returning Senate Bill No. 116 for reconsideration, with the recommendation that the bill be amended as follows:

On page 1, Title, delete the words "establishing and concerning a Bureau of Collections in" and insert in lieu thereof, "concerning the collection of moneys due the State of New Jersey for services rendered by and through".

On page 1, section 1, lines 1 to 3, delete section 1 in its entirety.

On page 1, section 2, lines 1 to 7, delete section 2 in its entirety.

On page 1, section 3, line 1, delete "3." and insert in lieu thereof "1."

On page 1, section 3, line 1, after the words "Bureau of" insert "Maintenance".

On page 1, section 3, line 1, after the word "Collections" insert "heretofore established within the Department of Institutions and Agencies".

On page 2, section 3, lines 11 and 12, delete the words "The Bureau of Collections in the name of the State shall do all things" and insert in lieu thereof "The Attorney General shall provide all legal assistance".

On page 2, section 4, line 1, delete "4." and insert in lieu thereof "2."

SENATE BILL No. 42

*To the Senate:*

I herewith return Senate Bill No. 42, without my approval, for the following reasons:

This bill would vest the title to uplands formed by accretion resulting from the construction and maintenance of jetties and similar devices erected along the ocean or adjacent waters in the upland owner if such upland owner is a municipality of the State.

Accretion has been defined "as an addition to riparian land gradually and imperceptibly made by the water to which the land is contiguous," 65 C. J. S. *Navigable Waters*, § 81(a), at p. 172. Land accretion can result from natural or artificial forces.

The courts in New Jersey have recognized the difference between land accretions naturally formed and that formed by artificial means. The upland owner has been held to be entitled to the increase to his land when formed by natural accretion, *Camden and Atlantic Land Company v. Lippen-cott*, 45 N. J. L. 405 (Supreme Court, 1883); *Seacoast Real Estate Company v. American Timber Company*, 92 N. J. Eq. 219 (E. & A., 1920). Such rulings have been based upon the theory that the upland owner receives such land increases as a compensation for the land area he may lose by natural erosion, *Ocean City Association v. Shriver*, 64 N. J. L. 550, 557 (E. & A., 1900). Where land areas have been built up as a result of artificial forces, however, the courts have held that such land accretion does not vest in the upland owner but belongs to the State, *Kirk v. Dempsey*, 85 N. J. L. 304 (E. & A., 1913).

In the areas along the ocean and adjacent thereto these lands become part of the State's riparian lands.

In 1903, the Legislature appropriated "all lands belonging to this State now or formerly lying under waters" to the permanent school fund of the State, R. S. 18:10-5. The corpus of this fund is irrevocably dedicated to the support of schools by the operation of Article VIII, Section IV, paragraph 2 of the New Jersey Constitution which provides that:

"The fund for the support of free public schools, and all money, stock and other property, which may hereafter be appropriated for that purpose, or received into the treasury under the provision of any law heretofore passed to augment the said fund, shall be securely invested, and remain a perpetual fund; and the income thereof, except so much as it may be judged expedient to apply to an increase of the capital, shall be annually appropriated to the support of free public schools, for the equal benefit of all the people of the State; and it shall not be competent, for the Legislature to borrow, appropriate or use the said fund or any part thereof for any other purpose, under any pretense whatever."

This section of the Constitution protects the capital and income of said fund from any trespass by public officials, *Everson v. Board of Education of Ewing Twp.*, 133 N. J. L. 350 (E. & A., 1945); *In Re City of Camden*, 1 N. J. Misc.

623 (Supreme Ct., 1923), and binds the State to get full value for any riparian land it sells even where the buyer is a municipality, *Henderson v. Atlantic City*, 64 N. J. Eq. 583 (Ch. 1903). Under the law, the State may sell riparian lands to the upland owner pursuant to the procedure outlined in Chapter 3 of Title 12 of the Revised Statutes. It cannot constitutionally, however, give these lands away even to a municipality.

SENATE BILL No. 89

*To the Senate:*

I herewith return Senate Bill No. 89, without my approval, for the following reasons:

This bill is the same as Senate Bill No. 11, introduced in 1961 and vetoed by Governor Robert B. Meyner, on January 9, 1962.

The Senate was informed at that time that:

“This bill would amend an act approved in 1959, *L. 1959, c. 175*, concerning the continuation of salaries of school district employees during absences occasioned by work-connected injury. The 1959 law provides that the full salary of a school district employee who is absent because of injury on the job may be continued by the employing board of education for as much as a year. This is in addition to current and accumulated sick leave. If the employee receives a workmen’s compensation award for temporary disability, the salary payments must be reduced by the amount of the award. The present bill would amend the 1959 act to remove the local board’s discretionary authority and, instead, require that the board continue the employee’s salary for a year of absence.

“This bill would single out school district employees for special treatment. Under present law no public employee is entitled to this salary continuation as a matter of right. The law leaves the matter to the discretion of the employer both as to county and municipal employees, *R. S. 40:11-8, L. 1939, c. 232, § 4*, and as to persons in State service, *L. 1939, c. 233, § 2, Civil Service Rule 55c*. I am not aware of difficulty in the administration of these laws. While requests ordinarily are granted, the employing authority retains the right to refuse the request where, in its considered judgment, the work relationship is too tenuous, the injury too dubious or the merit of the claim otherwise too questionable to warrant fully paid leave. The employer can also have due regard to permanent workmen’s compensation benefits, accumulated sick leave rights, and the availability of disability benefits under retirement laws in determining whether equity requires some continuation of salary, and if so, how much and for how long.

“If due consideration of these and other factors should indicate, however, that the public interest will be better served by foregoing the benefits of this discretionary authority in favor of mandatory salary continuation, then the change should be made with an even hand for all employees in similar circumstances. There is no justification for singling out one group of employees for favorable treatment as this bill proposes, and denying equal treatment to others similarly situated.”

This statement applies with equal validity to Senate Bill No. 89. School employees are now treated in the same manner as other governmental employees. I can see no justification in this area for permitting them to enjoy a position more favorable than that permitted the other employees.

SENATE BILL NO. 112

*To the Senate:*

I herewith return Senate Bill No. 112, without my approval, for the following reasons:

This bill would require the State Board of Child Welfare, before placing a child, to make full disclosure to the prospective foster parents of any physical or mental defect or behavioral problem of the child, so that the foster parent may elect either to accept or reject such placement. It also would provide that any officer, employee or agent of the State Board of Child Welfare who failed or who was responsible for the failure to make this full disclosure would be subject to dismissal from State service.

The Board of Child Welfare presently, as a matter of practice, makes disclosures of this nature. Staff members of the Board reveal to the prospective foster parents such pertinent information about the child as will enable them to help the child make a good adjustment and aid them in taking the best care of the child. This bill is so broad in scope as to require, without definition or limitation and under the threat of a most severe penalty, indiscriminate disclosure to prospective foster parents regardless of relevancy, leaving nothing to the sound professional judgment of competent and well-trained staff members.

Making all such disclosures mandatory would certainly result in delaying the placement of children, regardless of urgency, until the Board has sufficient time to get full information about the child. Additionally, it would probably also result in an increase in the number of frivolous complaints by various foster parents that imaginary or inconsequential problems of their foster children were intentionally concealed from them.

Even aside from these possibilities, however, the bill has other deficiencies. For one thing, it is specifically so phrased as to make the requirement of disclosure applicable only in the case of prospective foster parents but not where prospective adoptive parents are involved. This in itself

is anomalous. Furthermore, the penalty for nondisclosure, with or without intent, is unduly harsh. It would create an atmosphere of anxiety and restraint which would contribute to delay in the placement of children while the staff member assured himself that all possible avenues of information about the child had been explored. There has been in the past a problem of getting competent people to work in this area and this provision would only make the position less inviting.

For these reasons I am returning this bill to the Legislature without my approval.

SENATE BILL NO. 131

*To the Senate:*

I herewith return Senate Bill No. 131, without my approval, for the following reasons:

Senate Bill No. 131 would abolish the existing 5-member Legalized Games of Chance Control Commission and establish in the Department of Law and Public Safety a Division of Legalized Games of Chance Control under the supervision of a director. The Division Director would be appointed by the Governor with the advice and consent of the Senate. The functions, powers and duties of the present commission would be transferred to the Division.

The Legalized Games of Chance Control Commission has served the people of New Jersey since it was established in March, 1954. I am convinced that this agency, composed of unsalaried, public-spirited citizens, has served the public well. It was established as a special administrative agency of government and has functioned within the executive branch as such an instrument.

New Jersey has a well-founded tradition of utilizing commissions in the administration of public affairs. Such bodies bring to bear in sensitive areas a broader cross-section of experience and talent than might otherwise be available. The creation of the Legalized Games of Chance Control Commission was consonant with such thinking and experience.

Constitutionally, the jurisdiction of this agency is a special one. It involves supervision of a form of gambling which was especially authorized by constitutional provision. This authorization was granted by the people in November, 1953, when they approved a referendum permitting the conduct of bingo and raffles by religious, educational, service and charitable groups under restrictions to be fixed by the Legislature. Upon taking office in 1954, Governor Meyner appointed a committee of nine attorneys who drafted the legislation which established this Commission.

As is often the case with regulatory agencies, there has not been universal satisfaction with the action of the Commission involving decisions and penalties. In past years, the Commission has been accused of being too harsh in dealing with the various religious and charitable groups and other licensees who have infringed the necessary restrictions governing the conduct of the gambling games allowed by the law. This is not too surprising when it is realized that this Commission had the difficult and delicate responsibility of pioneering the way to effective control and supervision over legalized gambling activities conducted on a Statewide basis. The effectiveness of the Commission can best be judged by results. The results, I believe, have been manifestly good.

Without scandal, bingo and raffles games have produced many millions of dollars for a wide variety of New Jersey organizations engaged in charitable and civic activities. At the present time, the Commission supervises the activities of more than 5,000 licensees. These licensees last year raised more than \$38,000,000.00 through the conduct of bingo and raffles games. Since the Commission was established in 1954, licensees have raised for their worthwhile purposes more than \$208,000,000.00. Compared with the magnitude of these activities, the Commission has imposed relatively few penalties. Since January of 1960, the Com-

mission has held less than 50 hearings for the purpose of imposing penalties.

In contrast with New Jersey's excellent record, other States which legalized these same forms of gambling with perhaps less stringent regulations have been confronted with situations which approached scandal. It is interesting to observe that in at least one of our neighboring States an investigating commission, established as a result of revelations of irregularity, proposed a regulatory body modeled on New Jersey's Legalized Games of Chance Control Commission. This recommendation was carried through.

In New Jersey, the administration of bingo and raffles by this Commission has maintained public confidence that the proceeds of these games are used for the public purposes originally intended.

Without good reason, there should be no change in the administration of an area of government so fraught with the possibility of maladministration. I am convinced that the Legalized Games of Chance Control Commission is doing commendable work and, therefore, I see no reason to sign this bill.

Respectfully,

RICHARD J. HUGHES,

SENATE BILL No. 301

*To the Senate:*

Pursuant to Article V, Section I, paragraph 15 of the Constitution, I appended to Senate Bill No. 301, at the time of signing it, a statement of each item or part thereof, to which I objected, so that such item or part thereof should not take effect.

The item to which I objected provided for the payment of \$1,113.46 to John F. Jenkins of Pleasantville, New Jersey,

for alleged extra work in connection with the sewage disposal and water supply system to be constructed at Lake Absegami, Bass River State Forest, New Gretna, Burlington County. The total amount payable to Mr. Jenkins under his contract with the State was \$22,354.53. In addition to this amount, Mr. Jenkins had claimed the amount set forth in Senate Bill No. 301 to cover the cost of extra pumping and the need to sheet pile in connection with the construction of a septic tank on the project.

This claim was originally denied by the Division of Purchase and Property upon the recommendation of the State's consulting engineer on the grounds that this work was required of Mr. Jenkins under the specifications of the contract. The specifications specifically required the contractor to maintain and use pumping equipment where necessary and to provide shorings, bracing and sheeting at all times and to maintain banks by means of shores and braces necessary to avoid cave-ins.

Based upon the contract specifications and the opinion of the consulting engineer, I objected to the item noted above in Senate Bill No. 301 and I am attaching hereto a copy of my statement which I appended to the bill at the time of signing it.

STATE OF NEW JERSEY,  
EXECUTIVE DEPARTMENT,  
December 3, 1962. }

SENATE BILL No. 68

*To the Senate:*

Pursuant to Article V, Section I, paragraph 14(b) of the Constitution, I herewith return Senate Bill No. 68, with my objections, for reconsideration.

This bill would supplement article 3 of chapter 7 of Title 18 of the Revised Statutes which deals with annual school elections and election of members of boards of education as well as special elections in these two categories. It would provide that any candidate for the board of education can

withdraw his name from the ballot by filing a notice in writing with the secretary of the board of education on or before 4 o'clock P. M. of the 20th day before the date of election. Thereupon, his name would be withdrawn by the secretary.

Absentee ballots, both military and civilian, are prepared and mailed to the absentee voter on the 25th day prior to election, N. J. S. 19:57-11. If a candidate could withdraw after absentee ballots are mailed, any absentee voter who cast his ballot for such person would be performing a meaningless act. He would be deprived, in effect, of his right to exercise his franchise. The possibility of such an undesirable result requires my returning this bill for amendment.

In addition, the draw for position of candidates' names on the ballot takes place on the 39th day before election, N. J. S. 18:7-29.3. Should a candidate later withdraw in accordance with the provisions of this bill, the other candidates might well be unnecessarily handicapped by the alignment on the ballot. No provision is present which would provide for a redrawing or re-alignment under these circumstances.

Accordingly, I am returning Senate Bill No. 68 for reconsideration, with the recommendation that it be amended as follows:

On page 1, section 1, line 1, after "candidate" insert "for election at the annual school election".

On page 1, section 1, line 3, delete "twentieth" and insert in lieu thereof "thirtieth".

On page 1, section 1, line 5, after the word "secretary." insert the following: "The name of such candidate shall not be printed on the ballot. The names of any candidates originally designated on the ballot below the name of the withdrawn candidate shall be advanced one place each, respectively, on the ballot."

Respectfully,

RICHARD J. HUGHES,  
*Governor.*

## SENATE BILL No. 168

*To the Senate:*

Pursuant to Article V, Section I, paragraph 14(b) of the Constitution, I herewith return Senate Bill No. 168, with my objections, for reconsideration.

This bill is a private bill which would declare that title to a certain tract of land in the town of Boonton is vested in the Board of Managers of the New Jersey Firemen's Home. In 1898 the tract had been conveyed in two parcels, by separate deeds, to Commissioners appointed to provide a Firemen's Home pursuant to P. L. 1898, c. 127. Subsequently, the Legislature enacted P. L. 1899, c. 20, which directed the Commissioners to convey title to the Board of Managers of the New Jersey Firemen's Home. There is no actual record that this action was ever taken, although the property is in possession of the Board of Managers. This act would validate the transfer to the Board of Managers thus clearing title as if the actual record of the transfer had been found.

It would appear, however, that this bill cannot reach its objective, namely that of clearing title, because of the presence of several technical defects in the text of the bill. There exist—as compared with the actual deed descriptions—inaccuracies as to the metes and bounds description of the property as well as of proper names referred to therein.

Accordingly, I am returning Senate Bill No. 168 for reconsideration, with the recommendation that it be amended as follows:

On page 3, section 1, line 6, delete "land" and insert in lieu thereof "lands".

On page 3, section 1, line 6, delete "Bauta" and insert in lieu thereof "Banta".

On page 3, section 1, line 7, delete "Bauta's" and insert in lieu thereof "Banta's".

On page 3, section 1, line 12, delete "(2)" and insert in lieu thereof "(3)".

On page 3, section 1, line 16, delete "Keingstand's" and insert in lieu thereof "Kingsland's".

On page 3, section 1, line 19, delete "Keingstand's" and insert in lieu thereof "Kingsland's".

On page 3, section 1, line 20, after the words "sixth line of", delete the word "the" and insert in lieu thereof "this".

On page 3, section 1, lines 22 and 23, delete the words "Morris County" and insert in lieu thereof "said".

On page 4, section 1, line 45, after the words "south-east corner", insert the following: "of the Stone House, also, distant seventy-nine and forty-five one hundredths feet from the southeast corner".

On page 4, section 1, line 51, delete the word "feet".

On page 4, section 1, line 52, delete the words "of a foot" and insert in lieu thereof "feet".

SENATE BILL No. 91

*To the Senate:*

Pursuant to Article V, Section I, paragraph 14(b) of the Constitution, I herewith return Senate Bill No. 91, with my objections, for reconsideration.

This bill would validate all tax sale certificate foreclosure proceedings instituted by a municipality between June 23, 1947 and May 28, 1948, as well as the judgments and titles to real property derived therefrom, provided such proceeding purports to be an in rem tax foreclosure proceeding and the judgments obtained have been of record for at least 10 years. The act would not apply where the validity

of any foreclosure proceeding, judgment or title is tested by an action, or other proceeding of any nature, instituted prior to the 181st day following enactment.

The apparent intent of this bill is to validate foreclosures which were conducted in compliance with the In Rem Tax Foreclosure Act of 1947, *L. 1947, c. 333*. Unlike the In Rem Tax Foreclosure Act (1948), the constitutionality of the 1947 law, which was repealed by the 1948 act, has never been tested. Since the Legislature cannot validate constitutional defects, the bill does not take the usual form of a validating act but instead would seem to be a quieting device, a type of limitation on actions.

The use of a period of limitation would be acceptable if Senate Bill No. 91 were limited to foreclosure situations which complied in all respects with the 1947 law. The bill, however, is not so limited. It would validate title without regard to the manner in which the foreclosure proceeding was conducted. To this extent, it disregards the existence of possible procedural defects in those proceedings and other possible conflicts with the requirements of *L. 1947, c. 333*.

Senate Bill No. 91, therefore, does not meet minimum standards of procedural due process, nor does it provide the degree of certainty which is required in this particular area of the law.

I am accordingly returning herewith Senate Bill No. 91 with the recommendation that it be amended as follows:

On page 1, in the title of the bill, immediately following the word "proceedings" insert the following: ", judgments".

On page 1, section 1, line 1, delete "foreclosures" and insert in lieu thereof, "foreclosure proceedings".

On page 1, section 1, line 2, insert after "May 28, 1948," the following: "under and in compliance with P. L. 1947, c. 333,".

On page 1, section 1, lines 2 and 3, delete "being, or purporting to be, an in rem tax foreclosure proceeding,".

Respectfully,

RICHARD J. HUGHES,
